eMAGIN CORPORATION  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

Note 1: Description of the Business and Summary of Significant Accounting Policies

The Business

eMagin Corporation (the “Company”) designs, develops, manufactures, and markets OLED (organic light emitting diode) on silicon microdisplays and virtual imaging products which utilize OLED microdisplays. The Company’s products are sold mainly in North America, Asia, and Europe.

Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of eMagin Corporation and its subsidiary reflect all adjustments, including normal recurring accruals, necessary for a fair presentation. Certain information and footnote disclosure normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to instructions, rules and regulations prescribed by the Securities and Exchange Commission. The Company believes that the disclosures provided herein are adequate to make the information presented not misleading when these unaudited condensed consolidated financial statements are read in conjunction with the audited consolidated financial statements contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations for the period ended March 31, 2011 are not necessarily indicative of the results to be expected for the full year.

Use of Estimates

In accordance with accounting principles generally accepted in the United States of America, management utilizes certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments related to, among others, allowance for doubtful accounts, warranty reserves, inventory reserves, stock-based compensation expense, deferred tax asset valuation allowances, litigation and other loss contingencies. Management bases its estimates and judgments on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

Revenue and Cost Recognition

Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred, selling price is fixed or determinable and collection is reasonably assured. Product revenue is generally recognized when products are shipped to customers. The Company defers revenue recognition on products sold directly to the consumer with a maximum thirty day right of return. Revenue is recognized upon the expiration of the right of return.

The Company also earns revenues from certain R&D activities (contract revenues) under both firm fixed-price contracts and cost-type contracts. Revenues relating to firm fixed-price contracts and cost-type contracts are generally recognized on the percentage-of-completion method of accounting as costs are

incurred (cost-to-cost basis). Contract costs include all direct material and labor costs and an allocation of allowable indirect costs as defined by each contract, as periodically adjusted to reflect revised agreed upon rates. These rates are subject to audit by the other party.

#### Product warranty

The Company offers a one-year product replacement warranty. In general, the standard policy is to repair or replace defective products. The Company accrues for estimated returns of defective products at the time revenue is recognized based on historical activity as well as for specific known product issues. The determination of these accruals requires the Company to make estimates of the frequency and extent of warranty activity and estimate future costs to replace the products under warranty. If the actual warranty activity and/or repair and replacement costs differ significantly from these estimates, adjustments to cost of revenue may be required in future periods.

#### Research and Development Costs

Research and development costs are expensed as incurred.

#### Cash and cash equivalents

All highly liquid instruments with an original maturity of three months or less at the date of purchase are considered to be cash equivalents.

#### Investments-held to maturity

Securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and are carried at cost on the accompanying balance sheet.

#### Concentration of credit risk

eMagin's products are sold mainly throughout North America, Asia, and Europe. Sales to the Company's recurring customers are generally made on open account while sales to occasional customers are typically made on a prepaid basis. eMagin performs periodic credit evaluations on its recurring customers and generally does not require collateral. An allowance for doubtful accounts is maintained for credit losses.

Financial instruments which potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents and short-term and long-term investments. The Company's cash and cash equivalents are deposited with financial institutions which, at times, may exceed federally insured limits. The Company has Certificates of Deposits ("CDs"), classified as short and long-term investments – held to maturity, which are federally insured. To date, the Company has not experienced any loss associated with this risk.

#### Note 2: Recently Issued Accounting Pronouncements

During the three months ended March 31, 2011, there were no new accounting pronouncements that would have had a material effect on our unaudited condensed consolidated financial statements.

#### Note 3: Fair Value Measurement

Authoritative accounting guidance defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – valued based on quoted prices at the measurement date for identical assets or liabilities trading in active markets.

Level 2 – quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3 – valuations derived from valuation techniques in which one or more significant inputs are not readily observable.

As of March 31, 2011, the fair value of eMagin's cash equivalents and short and long-term investments – held to maturity was determined based on "Level 1" inputs.

Note 4: Receivables

The majority of the Company's commercial accounts receivable are due from Original Equipment Manufacturers ("OEM's"). Credit is extended based on an evaluation of a customer's financial condition and, generally, collateral is not required. Accounts receivable are payable in U.S. dollars, are due within 30-90 days and are stated at amounts due from customers, net of an allowance for doubtful accounts. Any account outstanding longer than the contractual payment terms is considered past due.

The allowance for doubtful accounts reflects an estimate of probable losses inherent in the accounts receivable balance. The Company determines the allowance for doubtful accounts by considering a number of factors, including the length of time the trade accounts receivable are past due, historical experience, the customer's current ability to pay its obligations, and the condition of the general economy and the industry as a whole. The Company will record a specific reserve for individual accounts when the Company becomes aware of a customer's inability to meet its financial obligations, deterioration in the customer's operating results or financial position, or deterioration in the customer's credit history. If circumstances related to customers change, the Company would further adjust estimates of the recoverability of receivables.

Receivables consisted of the following (in thousands):

	March 31, 2011 (unaudited)	December 31, 2010
Accounts receivable	\$ 4,868	\$ 5,524
Less allowance for doubtful accounts	(170)	(374)
Net receivables	\$ 4,698	\$ 5,150

#### Note 5: Net (Loss) Income per Common Share

The net (loss) income per common share ("basic EPS") is computed by dividing net (loss) income by the weighted average number of common shares outstanding and excluding any potential dilution. Net (loss) income per common share assuming dilution ("diluted EPS") is computed by reflecting potential dilution from the exercise of stock options, warrants, and convertible preferred stock.

The following table presents a reconciliation of the numerator and denominator of the basic and diluted EPS calculations (in thousands, except share and per share data):

	Three Months Ended March 31,	
	2011	2010
Numerator:		
Net (loss) income	\$ (282)	\$ 880
Denominator:		
Weighted average shares outstanding for basic earnings per share	21,522,716	17,109,706
Effective of dilutive shares:		
Dilution from stock options and warrants	—	4,791,595
Convertible preferred stock	—	7,652,000
Dilutive potential common shares	—	12,443,595
Weighted –average shares outstanding for diluted earnings per share	21,522,716	29,553,301

For the three months ended March 31, 2011, the Company has excluded stock options, warrants and convertible preferred stock to acquire 14,195,375 shares of our common stock from the computation of diluted loss per share because their effect would be antidilutive. For the three months ended March 31, 2010, the Company has excluded stock options and warrants to acquire 503,221 shares of our common stock as their effect would be antidilutive and the convertible preferred stock is included in the calculation of diluted earnings per share as all shares are assumed converted.

#### Note 6: Inventory

Inventory is stated at the lower of cost or market. Cost is determined using the first-in first-out method. Cost includes materials, labor, and manufacturing overhead related to the purchase and production of inventories. The Company regularly reviews inventory quantities on hand, future purchase commitments with the Company's suppliers, and the

estimated utility of the inventory. If the Company review indicates a reduction in utility below carrying value, the inventory is reduced to a new cost basis.

The components of inventories are as follows (in thousands):

	March 31, 2011 (unaudited)	December 31, 2010
Raw materials	\$ 1,177	\$ 748
Work in process	599	681
Finished goods	373	476
Total inventory	\$ 2,149	\$ 1,905

## Note 7: Prepaid Expenses and Other Current Assets:

Prepaid expenses and other current assets consist of the following (in thousands):

	March 31, 2011 (unaudited)	December 31, 2010
Vendor prepayments	\$ 45	\$ 83
Other prepaid expenses *	659	694
<b>Total prepaid expenses and other current assets</b>	<b>\$ 704</b>	<b>\$ 777</b>

\*No individual amounts greater than 5% of current assets.

## Note 8: Debt

At March 31, 2011, the Company had available a credit facility with Access Business Finance, LLC (“Access”) under which the Company may borrow up to a maximum of \$3 million based on a borrowing base equivalent of 75% of eligible accounts receivable. The interest on the line of credit is equal to the Prime Rate plus 4.00% but may not be less than 7.25% with a minimum monthly interest payment of \$5,000. The term of the agreement with Access is for one year and automatically renews for successive one year terms unless, at least 60 days prior to the end of the current term, the Company gives Access prior written notice of its intent not to renew or if Access, at least ten days prior to the end of the current term, gives the Company written notice of its intent not to renew. The renewal date is September 1, 2011. The Company paid \$30,000 in loan fees to Access which were charged to prepaid expense and will be amortized over the life of the Agreement. As of March 31, 2011, \$17,500 has been amortized to interest expense. The Company’s obligations under the agreement are secured by its assets. As of March 31, 2011, the Company had not borrowed on its line of credit.

## Note 9: Stock-based Compensation

The Company uses the fair value method of accounting for share-based compensation arrangements. The fair value of stock options is estimated at the date of grant using the Black-Scholes option valuation model. Stock-based compensation expense is reduced for estimated forfeitures and is amortized over the vesting period using the straight-line method.

The following table summarizes the allocation of non-cash stock-based compensation to our expense categories for the three month periods ended March 31, 2011 and 2010 (in thousands):

	Three Months Ended March 31,	
	2011	2010
Cost of revenue	\$ 25	\$ 97
Research and development	19	102
Selling, general and administrative	812	234
<b>Total stock compensation expense</b>	<b>\$ 856</b>	<b>\$ 433</b>

At March 31, 2011, total unrecognized compensation costs related to stock options was approximately \$4.3 million, net of estimated forfeitures. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures and is expected to be recognized over a weighted average period of approximately 2.8 years.

Options granted to non-employees are measured at the grant date using a fair value options pricing model and remeasured to the current fair market value at each reporting period as the underlying options vest and services are rendered. There were no options granted to consultants in the three months ended March 31, 2011. In May 2009, there were 60,000 options granted to consultants, of which the unvested options were remeasured to the current fair market value at March 31, 2011. The following assumptions were used in the Black-Scholes option pricing model to determine the fair value of stock options granted: dividend yield – 0%; risk free interest rates – 0.64% to 1.70%; expected volatility – 68.4 % to 84.1%; and expected term – 3 years.

During the three month period ended March 31, 2011, there were 1,294,177 stock options granted to employees and directors. During the three month period ended March 31, 2010, there were 448,185 stock options granted to employees. The following key assumptions were used in the Black-Scholes option pricing model to determine the fair value of stock options granted:

	Three Months Ended March 31,	
	2011	2010
Dividend yield	0 %	0 %
Risk free interest rates	1.04 to 2.37 %	1.34 to 2.07 %
Expected volatility	67.1 to 85.7 %	80.6 to 86.9 %
Expected term (in years)	3.5 to 5.5	3.5 to 4.0

We have not declared or paid any dividends and do not currently expect to do so in the near future. The risk-free interest rate used in the Black-Scholes option pricing model is based on the implied yield currently available on U.S. Treasury securities with an equivalent term. Expected volatility is based on the weighted average historical volatility of the Company's common stock for the most recent five year period. The expected term of options represents the period that our stock-based awards are expected to be outstanding and was determined based on historical experience and vesting schedules of similar awards.

For the three months ended March 31, 2011, 200,000 options were granted to employees from the 2008 Plan with a fair value of approximately \$0.8 million and 1,094,177 options were granted to employees and directors from the 2003 Plan with a fair value of approximately \$4.3 million. The weighted average fair value per share for options granted in the first quarter of 2011 was \$3.92.

A summary of the Company's stock option activity for the three months ended March 31, 2011 is presented in the following tables:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2010	3,152,114	\$ 1.71		
Options granted	1,294,177	7.51		
Options exercised	(23,250)	0.95		
Options forfeited	(130)	2.60		
Options cancelled	(4,537)	1.38		
Outstanding at March 31, 2011	4,418,374	\$ 3.42	5.96	\$17,182,953
Vested or expected to vest at March 31, 2011 (1)	4,332,600	\$ 4.22	5.96	\$16,151,976
Exercisable at March 31, 2011	2,988,823	\$ 1.95	6.38	\$15,694,652

(1) The expected to vest options are the result of applying the pre-vesting forfeiture rate assumptions to total unvested options.

		Options Outstanding			Options Exercisable	
		Number Outstanding	Weighted Average Remaining Contractual Life (In Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercisable Price
\$	0.34 - \$0.98	979,058	5.31	\$ 0.81	968,098	\$ 0.81
\$	1.00 - \$1.51	1,085,798	6.18	1.21	932,224	1.23
\$	1.80 - \$1.94	376,099	5.87	1.94	368,899	1.94
\$	2.60 - \$3.92	581,242	6.98	3.13	492,602	3.10
\$	5.62 - \$22.50	1,396,177	5.84	7.48	227,000	7.29
		4,418,374	5.96	\$ 3.42	2,988,823	\$ 1.95

The aggregate intrinsic value in the table above represents the difference between the exercise price of the underlying options and the quoted price of the Company's common stock. There were 3,447,796 options in-the-money at March 31, 2011. The Company's closing stock price was \$7.15 as of March 31, 2011. The Company issues new shares of common stock upon exercise of stock options.

#### Note 10: Shareholders' Equity

##### Preferred Stock - Series B Convertible Preferred Stock ("the Preferred Stock - Series B")

The Company has designated 10,000 shares of the Company's preferred stock as Series B Convertible Preferred Stock ("the Preferred -Series B") at a stated value of \$1,000 per share. The Preferred Stock - Series B is convertible into common stock at a conversion price of \$0.75 per share. The Preferred Stock - Series B does not pay interest. The holders of the Preferred Stock - Series B are not entitled to receive dividends unless the Company's Board of Directors declare a dividend for holders of the Company's common stock and then the dividend shall be equal to the amount that such holder would have been entitled to receive if the holder converted its Preferred Stock - Series B into shares of the Company's common stock.

The Preferred Stock -Series B votes with holders of Common Stock upon the election of directors and upon any other matter submitted to a vote of shareholders, except those matters required by law to be submitted to a vote of holders of Preferred Stock of the Company or Series B Convertible Preferred Stock voting separately as a class or series, and except as provided in the Certificate of Designations of Series B Convertible Preferred Stock. Fractional votes shall not, however, be permitted. The holder of each share of Preferred Stock - Series B has voting rights equal to (i) the number of shares of Common Stock issuable upon conversion of such shares of Preferred Stock - Series B at such time (determined without regard to the shares of Common Stock so issuable upon such conversion in respect of accrued and unpaid dividends on such share of Preferred Stock) when the Preferred Stock - Series B votes together with the Company's Common Stock or any other class or series of stock of the Company and (ii) one vote per share of Preferred Stock when such vote is not covered by the immediately preceding clause. In the event of a liquidation, dissolution, or winding up of the Company, the Preferred Stock - Series B is entitled to receive liquidation preference before the Common Stock. The Company may at its option redeem the Preferred Stock - Series B by providing the required notice to the holders of the Preferred Stock - Series B and paying an amount equal to \$1,000 multiplied by the number of shares for all of such holder's shares of outstanding Preferred Stock - Series B to be redeemed. As of March 31, 2011, there were 5,679 shares of Preferred Stock - Series B issued and outstanding.

##### Common Stock

For the three months ended March 31, 2011, the Company received approximately \$22 thousand for 23,250 stock options exercised and for the three months ended March 31, 2010, there were no stock options exercised. For the three months ended March 31, 2011, there were 380,511 warrants exercised on a cashless basis resulting in 310,897 shares of common stock issued. For the three months ended March 31, 2010, there were 669,717 warrants exercised on a cashless basis resulting in 334,608 shares of common stock issued. In addition, the Company received proceeds of approximately \$81 thousand from the exercise of warrants and issued 72,116 shares of common stock in the three months ended March 31, 2011 and no proceeds were received for warrant exercises in the three months ended March 31, 2010.

For the three months ended March 31, 2011 and 2010, no shares of common stock were issued for payment for services rendered and to be rendered in the future.

#### Note 11: Income Taxes

For the three months ended March 31, 2011, the Company recorded a current income tax benefit of approximately \$158 thousand based upon the projected effective income tax rate for the year, as the Company expects to have taxable income for the year ending December 31, 2011. For the three months ended March 31, 2010, the Company recorded income tax expense of approximately \$1,000.

The Company accounts for income taxes under an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. The effect on deferred tax assets and liabilities of changes in tax rates will be recognized as income or expense in the period that the change occurs. A valuation allowance for deferred tax assets is recorded when it is more likely than not that some or all of the benefit from the deferred tax asset will not be realized. Changes in circumstances, assumptions and clarification of uncertain tax regimes may require changes to any valuation allowances associated with the Company's deferred tax assets.

Due to the Company's operating loss carryforwards, all tax years remain open to examination by the major taxing jurisdictions to which the Company is subject. In the event that the Company is assessed interest or penalties at some point in the future, it will be classified in the financial statements as tax expense.

Note 12: Commitments and Contingencies

Royalty Payments

The Company signed a license agreement on March 29, 1999 with Eastman Kodak ("Kodak"), under which it is obligated to make royalty payments. Under this agreement, the Company must pay to Kodak a minimum royalty plus a certain percentage of net sales with respect to certain products, which percentages are defined in the agreement. The percentages are on a sliding scale depending on the amount of sales generated. Any minimum royalties paid will be credited against the amounts due based on the percentage of sales. The royalty agreement terminates upon the expiration of the issued patent which is the last to expire. The Company was notified that Kodak sold substantially all rights and obligations under the Company's license agreement to Global OLED Technology, owned by LG Electronics, as of December 30, 2009.

In late 2008, the Company began evaluating the status of its manufacturing process and the use of the IP associated with its license agreement. After this analysis and after making a few changes to its manufacturing process, the Company stopped using the IP covered under the license agreement by year end 2008. The last royalty payment under the license agreement was made in November 2009. The Company determined that it is no longer required to pay the minimum royalty payment of \$125,000 and as such has not paid or accrued this amount in 2010 or to date in 2011.

In April 2011, the Company received a request for royalty payments from a representative of Global OLED Technology, LLC, the current owner of the old Kodak OLED patent portfolio. The Company has responded stating, that the licenses are no longer in force and that in any event, the request for royalties is untimely.

Contractual Obligations

The Company leases office facilities and office, lab and factory equipment under operating leases. Certain leases provide for payments of monthly operating expenses. The Company currently has lease commitments for space in Hopewell Junction, New York, Bellevue, Washington, and Santa Clara, California.

The Company's manufacturing facilities are leased from IBM in Hopewell Junction, New York. eMagin leases approximately 37,000 square feet to house its equipment for OLED microdisplay fabrication and for research and development, an assembly area and administrative offices. The lease expires May 31, 2014 with the option of extending the lease for five years. The corporate headquarters are located in Bellevue, Washington where eMagin leases approximately 6,300 square feet. The lease expires on August 31, 2014. On April 14, 2011, the Company signed an eighteen month lease agreement for approximately 2,400 square feet of office space in Santa Clara, California effective May 1, 2011. The Company's monthly rent expense will increase by approximately \$3.5 thousand. The California location will be a research and development facility.

For the three months ended March 31, 2011 and 2010, rent expense was approximately \$289 thousand and \$283 thousand, respectively.

Note 13: Legal Proceedings

On March 17, 2010, Gary Jones, a former executive at the Company, filed a complaint for damages in the Superior Court of the State of Washington for King County (the "Complaint") against the Company and the Company's Chief Financial Officer. The Complaint alleges unspecified damages for failure to pay contractual payments and wages under Washington law ("the Washington Wage Claim") and includes, among other claims, breach of contract, breach of

the duty of good faith and fair dealing, promissory estoppel and misrepresentation.

On May 21, 2010, the court granted eMagin's motion to dismiss regarding the claim for misrepresentation and the Washington Wage Claim. The Chief Financial Officer's motion to dismiss was also granted relating to the following claims against him: the Washington Wage Claims, breach of contract, breach of promises of specific treatment in specific circumstances, breach of the duty of good faith and fair dealing, and promissory estoppel.

On March 21, 2011, the Company executed a Settlement Agreement and Full and Complete Mutual Release (the "Settlement Agreement") among the Company, Mr. Jones and the Company's Chief Financial Officer, which had previously been executed by Mr. Jones and the Chief Financial Officer, and became effective on March 29, 2011 (the "Effective Date"). On April 5, 2011, pursuant to the Settlement Agreement, the Company made the following payments in the aggregate amount of \$650 thousand: (i) payment to Mr. Jones in the gross amount of \$478 thousand for payment amounts set forth in the Executive Separation and Consulting Agreement ("ECSA") and Expense Reimbursement and Compensation Schedule ("ERCS") entered into by Mr. Jones and the Company in January 2007; (ii) payment to Mr. Jones in the amount of approximately \$27 thousand for a negotiated interest amount pursuant to the ECSA and ERCS; and (iii) approximately \$145 thousand in attorney's fees paid to Mr. Jones' attorneys (collectively, the "Settlement Payments"). The settlement offer was recorded as a liability on the Company's Consolidated Balance Sheet and included in selling, general, and administrative expense on the Company's Consolidated Statements of Operations as of December 31, 2010. In addition to the Settlement Payments, the defendants agreed to provide a full and complete release to Mr. Jones.

The Settlement Agreement contains mutual releases among the Company, its Chief Financial Officer and Mr. Jones, and pursuant to the Settlement Agreement, Mr. Jones agreed to dismiss the Complaint against the Company and its Chief Financial Officer with prejudice. On April 7, 2011 the Complaint was dismissed with prejudice by the Superior Court of the State of Washington for King County.

## Note 14: Employment Agreements

On January 19, 2011, the Company signed an executive employment agreement (the “Employment Agreement”) with Susan R. Taylor to serve as the Company’s Corporate Secretary, Senior Vice President and General Counsel effective February 1, 2011. Pursuant to the Employment Agreement, Ms. Taylor is paid a base salary of \$175,000 and was granted 225,000 options which are exercisable at \$6.82 per share, the market price on the date of the grant, of which one third will vest annually on the subsequent three anniversary dates. If Ms. Taylor voluntarily terminates her employment with the Company, other than for Good Reason as defined in the Employment Agreement, she shall cease to accrue salary, personal time off, benefits and other compensation on the date of voluntary termination. The Company may terminate Ms. Taylor’s employment with or without cause. If the Company terminates without cause, Ms. Taylor will be entitled to, at the Company’s sole discretion, either (i) monthly salary payments for twelve (12) months, based on her monthly rate of base salary at the date of such termination, or (ii) a lump-sum payment of her salary for such 12 month period, based on her monthly rate of base salary at the date of such termination. Ms. Taylor shall also be entitled to receive (i) payment for accrued and unpaid vacation pay and (ii) all bonuses that have accrued during the term of the Employment Agreement, but not been paid. All non-vested options shall vest immediately.

On March 15, 2011, the Company signed an executive employment agreement (the “Employment Agreement”) with Jerry Carollo to serve as the Company’s Senior Vice President Business Development effective March 21, 2011. Pursuant to the Employment Agreement, Mr. Carollo is paid a base salary of \$270,000 and was granted 100,000 options which are exercisable at \$6.89 per share, the market price on the date of the grant, of which one third will vest annually on the subsequent three anniversary dates. If Mr. Carollo voluntarily terminates his employment with the Company, other than for Good Reason as defined in the Employment Agreement, he shall cease to accrue salary, personal time off, benefits and other compensation on the date of voluntary termination. The Company may terminate Mr. Carollo’s employment with or without cause. If the Company terminates without cause, Mr. Carollo will be entitled to the lesser of (i) the total amount of base salary that remains unpaid under the Employment Agreement which shall be paid monthly or (ii) monthly salary payments for twelve (12) months, based on his monthly rate of base salary at the date of such termination, or in lieu of the aforementioned monthly payments, the Company may in its sole discretion pay such payments in a lump- sum. Mr. Carollo shall also be entitled to receive (i) payment for accrued and unpaid vacation pay and (ii) all bonuses that have accrued during the term of the Employment Agreement, but not been paid. All non-vested options shall vest immediately.

## Note 15: Concentrations

For the three months ended March 31, 2011, approximately 74% of the company’s net revenues were derived from customers in the United States and approximately 26% of the Company’s net revenues were derived from international customers. For the three months ended March 31, 2010, approximately 62% of the company’s net revenues were derived from customers in the United States and approximately 38% of the Company’s net revenues were derived from international customers.

The following is a schedule of revenue by geographic location (in thousands):

	Three Months Ended March 31,	
	2011	2010
North America	\$ 4,095	\$ 3,716
Europe	532	1,490
Asia	814	721

Total \$ 5,441 \$ 5,927

The Company purchases principally all of its silicon wafers from a single supplier located in Taiwan.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Statement of Forward-Looking Information

In this quarterly report, references to "eMagin Corporation," "eMagin," "Virtual Vision," "the Company," "we," "us," and "our" refer to eMagin Corporation and its wholly owned subsidiary, Virtual Vision, Inc.

Except for the historical information contained herein, some of the statements in this Report contain forward-looking statements that involve risks and uncertainties. These statements are found in the sections entitled "Business," "Management's Discussion and Analysis of Financial Condition and Results of Operation," and "Risk Factors." They include statements concerning: our business strategy; expectations of market and customer response; liquidity and capital expenditures; future sources of revenues; expansion of our proposed product line; and trends in industry activity generally. In some cases, you can identify forward-looking statements by words such as "may," "will," "should," "expect," "plan," "could," "anticipate," "intend," "believe," "estimate," "predict," "potential," "goal," or "continue" or similar terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including, but not limited to, the risks outlined under "Risk Factors," that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. For example, assumptions that could cause actual results to vary materially from future results include, but are not limited to: our ability to successfully develop and market our products to customers; our ability to generate customer demand for our products in our target markets; the development of our target markets and market opportunities; our ability to manufacture suitable products at competitive cost; market pricing for our products and for competing products; the extent of increasing competition; technological developments in our target markets and the development of alternate, competing technologies in them; and sales of shares by existing shareholders. Although we believe that the expectations reflected in the forward looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Unless we are required to do so under federal securities laws or other applicable laws, we do not intend to update or revise any forward-looking statements.

### Overview

We design and manufacture miniature displays, which we refer to as OLED-on-silicon-microdisplays, and microdisplay modules for virtual imaging, primarily for incorporation into the products of other manufacturers. Microdisplays are typically smaller than many postage stamps, but when viewed through a magnifier they can contain all of the information appearing on a high-resolution personal computer screen. Our microdisplays use organic light emitting diodes, or OLEDs, which emit light themselves when a current is passed through the device. Our technology permits OLEDs to be coated onto silicon chips to produce high resolution OLED-on-silicon microdisplays.

We believe that our OLED-on-silicon microdisplays offer a number of advantages in near to the eye applications over other current microdisplay technologies, including lower power requirements, less weight, fast video speed without flicker, and wider viewing angles. In addition, many computer and video electronic system functions can be built directly into the OLED-on-silicon microdisplay, resulting in compact systems with lower expected overall system costs relative to alternate microdisplay technologies.

We have developed a strong portfolio of our own patents, manufacturing know-how and technology to create high performance OLED-on-silicon microdisplays and related optical systems. We believe our technology and intellectual property portfolio, gives us a leadership position in OLED and OLED-on-silicon microdisplay technology. We believe that we are the only company to demonstrate publicly, market, and produce in significant quantities full-color small molecule OLED-on-silicon microdisplays.

At March 31, 2011, we had a total of 81 full-time and part-time employees, an increase of 21% from December 31, 2010. The majority of the increase in headcount was due to the personnel needed for the additional production shifts. In April, we hired a design team, located in California, with experience working on OLED microdisplay designs to work internally on our research and development projects. Having an in-house design team reduces our dependence on third party design providers and will strengthen our ability to more cost-effectively develop new microdisplays.

A detailed discussion of our business may be found in Part I, "Business," of our 2010 Annual Report on Form 10-K for the year ended December 31, 2010.

#### CRITICAL ACCOUNTING POLICIES

The Securities and Exchange Commission ("SEC") defines "critical accounting policies" as those that require application of management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. Not all of the accounting policies require management to make difficult, subjective or complex judgments or estimates. However, the following policies could be deemed to be critical within the SEC definition.

## Revenue and Cost Recognition

Revenue on product sales is recognized when persuasive evidence of an arrangement exists, such as when a purchase order or contract is received from the customer, the price is fixed, title and risk of loss to the goods has changed and there is a reasonable assurance of collection of the sales proceeds. We obtain written purchase authorizations from our customers for a specified amount of product at a specified price and consider delivery to have occurred at the time of shipment. Products sold directly to consumers have a thirty day right of return. Revenue on consumer products is deferred until the right of return has expired.

Revenues from research and development activities relating to firm fixed-price contracts are generally recognized on the percentage-of-completion method of accounting as costs are incurred (cost-to-cost basis). Contract costs include all direct material and labor costs and an allocation of allowable indirect costs as defined by each contract, as periodically adjusted to reflect revised agreed upon rates. These rates are subject to audit by the other party.

## Product Warranty

We offer a one-year product replacement warranty. In general, our standard policy is to repair or replace the defective products. We accrue for estimated returns of defective products at the time revenue is recognized based on historical activity as well as for specific known product issues. The determination of these accruals requires us to make estimates of the frequency and extent of warranty activity and estimate future costs to replace the products under warranty. If the actual warranty activity and/or repair and replacement costs differ significantly from these estimates, adjustments to cost of revenue may be required in future periods.

## Use of Estimates

In accordance with accounting principles generally accepted in the United States of America, management utilizes certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments related to, among others, allowance for doubtful accounts, warranty reserves, inventory reserves, stock-based compensation expense, deferred tax asset valuation allowances, litigation and other loss contingencies. Management bases its estimates and judgments on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

## Fair Value of Financial Instruments

eMagin's cash, cash equivalents, accounts receivable, short-term investments, and accounts payable are stated at cost which approximates fair value due to the short-term nature of these instruments. In addition, the long-term investments are stated at cost which approximates fair value.

## Stock-based Compensation

eMagin maintains several stock equity incentive plans. The 2005 Employee Stock Purchase Plan (the "ESPP") would, once implemented, provide our employees with the opportunity to purchase common stock through payroll deductions. Employees could then purchase stock semi-annually at a price that is 85% of the fair market value at certain plan-defined dates. As of March 31, 2011, the number of shares of common stock available for issuance was 300,000. As of March 31, 2011, the plan had not been implemented.

The 2003 Stock Option Plan (the "2003 Plan") provides for grants of shares of common stock and options to purchase shares of common stock to employees, officers, directors and consultants. Under the 2003 plan, an incentive stock option ("ISO") is granted at the market value of our common stock at the date of the grant and a non-ISO is granted at a price not to be less than 85% of the market value of the common stock. These options have a term of up to 10 years and vest over a schedule determined by the Board of Directors, generally over a five year period. The amended 2003 Plan provides for an annual increase in common stock available for issuance by 3% of the diluted shares outstanding on January 1 of each year for a period of 9 years which commenced January 1, 2005. For the three months ended March 31, 2011, there were 1,094,177 options granted from the 2003 plan.

The 2008 Incentive Stock Plan ("the 2008 Plan") adopted and approved by the Board of Directors on November 5, 2008 provides for the issuance of shares of common stock and options to purchase shares of common stock to employees, officers, directors and consultants. The 2008 Plan has an aggregate of 2,000,000 shares. For the three months ended March 31, 2011, there were 200,000 options granted from the 2008 plan.

We account for the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors by estimating the fair value of stock awards at the date of grant using the Black-Scholes option valuation model. Stock-based compensation expense is reduced for estimated forfeitures and is amortized over the vesting period using the straight-line method. See Note 9 of the Condensed Consolidated Financial Statements – Stock Compensation for a further discussion on stock-based compensation.

## Income Taxes

For the three months ended March 31, 2011, we recorded an income tax benefit of approximately \$158 thousand as compared with an income tax expense of approximately \$1 thousand for the three months ended March 31, 2010. The effective tax rate for 2011 is projected to be 36% as compared to an effective tax rate of 2% for 2010. The increase in the effective tax rate is due to the valuation allowance which had been carried against our net deferred tax asset in 2010.

In preparing our consolidated financial statements, we are required to estimate income taxes in each of the jurisdictions in which we operate. The process involves estimating our current tax expense together with assessing temporary differences resulting from the differing treatment of items for accounting and tax purposes. These differences result in deferred tax assets and liabilities. Operating losses and tax credits, to the extent not already utilized to offset taxable income also represent deferred tax assets. We must assess the likelihood that any deferred tax assets will be recovered from future taxable income, and to the extent we believe that recovery is not likely, we must establish a valuation allowance. Significant judgment is required in determining our provision for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against our deferred tax assets.

In determining future taxable income, assumptions are made to forecast operating income, the reversal of temporary timing differences and the implementation of tax planning strategies. Management uses significant judgment in the assumptions it uses to forecast future taxable income which are consistent with the forecasts used to manage the business. Realization of the deferred tax asset is dependent upon future earnings which there is uncertainty as to the timing. We will continue to monitor the realizability of the deferred tax asset.

At December 31, 2010, a partial valuation allowance against the net deferred tax assets was \$32.4 million. There was no change to the valuation allowance as of March 31, 2011. The partial valuation allowance will be maintained until further sufficient positive evidence exists to support an additional reduction in the valuation allowance.

## NEW ACCOUNTING PRONOUNCEMENTS

During the three months ended March 31, 2011, there were no new accounting pronouncements that would have had a material effect on our unaudited condensed consolidated financial statements.

## RESULTS OF OPERATIONS

### THREE MONTHS ENDED MARCH 31, 2011 COMPARED TO THREE MONTHS ENDED MARCH 31, 2010

#### Revenues

Revenues for the three months ended March 31, 2011 were approximately \$5.4 million, as compared to approximately \$5.9 million for the three months ended March 31, 2010, a decrease of approximately 8%. Lower revenue for the three month period was due primarily to production issues which caused R&D engineering resources to be allocated to production issues causing a shortfall in work on R&D contracts, and a lower average sales price due to product mix sold.

Product revenue is comprised of sales of displays, Z800 systems, and other hardware. For the three months ended March 31, 2011, product revenue decreased approximately \$176 thousand or 4% as compared to the three months ended March 31, 2010. The decrease was driven by the product mix sold. We had an increase in sales volume

however the average sales price per display was lower than the first quarter of 2010. In addition, we had unfilled orders during the three months ended March 31, 2011 due to production issues.

Contract revenue is comprised of revenue from research and development or non-recurring engineering (“NRE”) contracts. For the three months ended March 31, 2011, contract revenue decreased approximately \$310 thousand or 22% as compared to the first quarter of 2010. We had more active contracts in the first quarter of 2011 however we allocated R&D engineering resources to our production issues which impacted contract revenue.

#### Cost of Goods Sold

Cost of goods sold is comprised of costs of product revenue and contract revenue. Cost of product revenue includes materials, labor and manufacturing overhead related to our products. Cost of contract revenue includes direct and allocated indirect costs associated with performance of contracts. Cost of goods sold for the three months ended March 31, 2011 was approximately \$3.2 million as compared to approximately \$2.6 million for the three months ended March 31, 2010, an increase of approximately \$0.6 million. Cost of goods sold as a percentage of revenues was 59% for the three months ended March 31, 2011 as compared to 44% for the three months ended March 31, 2010. The increase in cost was due primarily to lower yield and increased labor costs due to additional production shifts. The lower yield was a result of production issues in Q1 2011. Subsequently, we have addressed the production issues and the yield has improved.

The following table outlines product, contract and total gross profit and related gross margins for the three months ended March 31, 2011 and 2010 (dollars in thousands):

	Three months ended March 31, 2011                  2010 (unaudited)	
Product revenue gross profit	\$ 1,701	\$ 2,641
Product revenue gross margin	39%	59%
Contract revenue gross profit	\$ 545	\$ 677
Contract revenue gross margin	48%	47%
Total gross profit	\$ 2,246	\$ 3,318
Total gross margin	41%	56%

The gross profit for the three months ended March 31, 2011 was approximately \$2.2 million as compared to approximately \$3.3 million for the three months ended March 31, 2010, a decrease of \$1.1 million. Gross margin was 41% for the three months ended March 31, 2011 down from 56% for the three months ended March 31, 2010.

The product gross profit for the three months ended March 31, 2011 was approximately \$1.7 million as compared to approximately \$2.6 million for the three months ended March 31, 2010, a decrease of \$0.9 million. Product gross margin was 39% for the three months ended March 31, 2011 down from 59% for the three months ended March 31, 2010. The gross margin was unfavorably impacted by an increase in costs due to production issues being spread over a lower revenue base and a lower effective average selling price per display due to product mix changes.

The contract gross profit for the three months ended March 31, 2011 was approximately \$0.5 million as compared to approximately \$0.7 million for the three months ended March 31, 2010, a decrease of \$0.2 million. Contract gross margin was 48% for the three months ended March 31, 2011 up slightly from 47% for the three months ended March 31, 2010. The contract gross margin is dependent upon the mix of costs, internal versus external third party costs, with external third party costs causing a lower gross margin and reducing the contract gross profit.

#### Operating Expenses

**Research and Development.** Research and development expenses include salaries, development materials and other costs specifically allocated to the development of new microdisplay products, OLED materials and subsystems. Research and development expenses for the three months ended March 31, 2011 were approximately \$0.5 million as compared to \$0.7 million for the three months ended March 31, 2010, a decrease of approximately \$0.2 million related to a decrease in internal research and development of new products.

**Selling, General and Administrative.** Selling, general and administrative expenses consist principally of salaries and fees for professional services, legal fees incurred in connection with patent filings and related matters, as well as other marketing and administrative expenses. Selling, general and administrative expenses for the three months ended March 31, 2011 were approximately \$2.1 million as compared to approximately \$1.7 million for the three months ended March 31, 2010. The increase of approximately \$0.4 million for the three months ended March 31, 2011 was primarily related to an increase in personnel costs of \$0.5 million including approximately \$0.6 million related to non-cash compensation, recruiting fees of approximately \$0.1 million offset by a reduction of bonus expense of approximately \$0.2 million, and an increase in director and shareholder related expenses of approximately \$0.1

million offset by a decrease in allowance for bad debts of approximately \$0.1 and professional fees of \$0.1 million.

Other Income (Expense), net. Other income (expense), net consists primarily of interest income earned on investments, interest expense related to the secured debt, and income from the licensing of intangible assets.

For the three months ended March 31, 2011, interest expense was approximately \$29 thousand as compared to \$28 thousand for the three months ended March 31, 2010. For the three months ended March 31, 2011, the interest expense associated with debt was \$22 thousand and the accrued interest on liquidated damages was \$7 thousand. Interest expense for the three months ended March 31, 2010, the interest expense associated with debt was \$21 thousand and the accrued interest on liquidated damages was \$7 thousand.

Other income for the three months ended March 31, 2011 was approximately \$16 thousand as compared to \$7 thousand for the three months ended March 31, 2010. The other income for the three months ended March 31, 2011 was interest income of approximately \$4 thousand and \$12 thousand from equipment salvage. The other income for the three months ended March 31, 2010 was interest income of approximately \$1 thousand and \$6 thousand from equipment salvage.

## Liquidity and Capital Resources

As of March 31, 2011, we had approximately \$13.0 million of cash, cash equivalents, and investments in certificates of deposit (“CDs”) as compared to \$12.4 million at December 31, 2010. Of the \$13.0 million in cash, approximately \$5.3 million was invested in CDs.

Cash flow provided by operating activities during the three months ended March 31, 2011 was approximately \$0.8 million, approximately \$0.6 million was from the change in operating assets and liabilities and net non-cash expenses of \$0.5 million offset by the net loss of \$0.3 million. Cash flow provided by operating activities during the three months ended March 31, 2010 was approximately \$1.5 million, attributable to our net income of approximately \$0.9 million, non-cash expenses of \$0.3 million and approximately \$0.3 million from the change in operating assets and liabilities.

Cash used in investing activities during the three months ended March 31, 2011 was approximately \$0.9 million of which \$0.6 million purchased CDs and approximately \$0.3 million for equipment purchases primarily for upgrading our production line. Cash used in investing activities during the three months ended March 31, 2010 was approximately \$0.8 million to purchase equipment for the Company’s production line.

Cash provided by financing activities during the three months ended March 31, 2011 was approximately was \$0.1 million, representing proceeds from the exercise of stock options and warrants. There was no cash provided by or used by financing activities during the three months ended March 31, 2010.

## Credit Facility

At March 31, 2011, we had a credit facility with Access Business Finance, LLC (“Access”) that provides for up to a maximum amount of \$3 million based on a borrowing base equivalent of 75% of eligible accounts receivable. The interest on the credit facility is equal to the Prime Rate plus 4% but may not be less than 7.25% with a minimum monthly interest payment of \$5 thousand. The credit facility will automatically renew on September 1, 2011 for a one year term unless written notice is provided. We did not draw on our credit facility during the quarter ended March 31, 2011.

The credit facility contains the customary representations and warranties as well as affirmative and negative covenants. We were in compliance with all debt covenants as of March 31, 2011.

We expect our business to experience revenue growth which may result in higher accounts receivable levels and may require increased production and/or higher inventory levels. We anticipate that our cash needs to fund these requirements as well as other operating or investing cash requirements over the next twelve months will be less than our current cash on hand, investments and the cash we anticipate generating from operations. We anticipate that we will not require additional funds over the next twelve months other than perhaps for discretionary capital spending. If unanticipated events arise during the next twelve months, we believe we can raise sufficient funds. However, if we are unable to obtain sufficient funds, we may have to reduce the size of our organization and/or be forced to reduce and/or curtail our production and operations, all of which could have a material adverse impact on our business prospects.

## Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

ITEM 4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15 under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this Quarterly Report on Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls.

Our disclosure controls and procedures are designed to provide reasonable, not absolute, assurance that the objectives of our disclosure control system are met. Because of inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected. Our Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation as of the end of the period covered by this report, that our disclosure controls and procedures were sufficiently effective to provide reasonable assurance that the objectives of our disclosure control system were met.

Changes in Internal Controls.

There were no changes in our internal controls over financial reporting during the fiscal quarter ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### ITEM 1. Legal Proceedings

On March 17, 2010, Gary Jones, a former executive at the Company, filed a complaint for damages in the Superior Court of the State of Washington for King County (the "Complaint") against the Company and the Company's Chief Financial Officer. The Complaint alleges unspecified damages for failure to pay contractual payments and wages under Washington law ("the Washington Wage Claim") and includes, among other claims, breach of contract, breach of the duty of good faith and fair dealing, promissory estoppel and misrepresentation.

On May 21, 2010, the court granted eMagin's motion to dismiss regarding the claim for misrepresentation and the Washington Wage Claim. The Chief Financial Officer's motion to dismiss was also granted relating to the following claims against him: the Washington Wage Claims, breach of contract, breach of promises of specific treatment in specific circumstances, breach of the duty of good faith and fair dealing, and promissory estoppel.

On March 21, 2011, the Company executed a Settlement Agreement and Full and Complete Mutual Release (the "Settlement Agreement") among the Company, Mr. Jones and the Company's Chief Financial Officer, which had previously been executed by Mr. Jones and the Chief Financial Officer, and became effective on March 29, 2011 (the "Effective Date"). On April 5, 2011, pursuant to the Settlement Agreement, the Company made the following payments in the aggregate amount of \$650 thousand: (i) payment to Mr. Jones in the gross amount of \$478 thousand for payment amounts set forth in the Executive Separation and Consulting Agreement ("ECSA") and Expense Reimbursement and Compensation Schedule ("ERCS") entered into by Mr. Jones and the Company in January 2007; (ii) payment to Mr. Jones in the amount of approximately \$27 thousand for a negotiated interest amount pursuant to the ECSA and ERCS; and (iii) approximately \$145 thousand in attorney's fees paid to Mr. Jones' attorneys (collectively, the "Settlement Payments"). The settlement offer was recorded as a liability on the Company's Consolidated Balance Sheet and included in selling, general, and administrative expense on the Company's Consolidated Statements of Operations as of December 31, 2010. In addition to the Settlement Payments, the defendants agreed to provide a full and complete release to Mr. Jones.

The Settlement Agreement contains mutual releases among the Company, its Chief Financial Officer and Mr. Jones, and pursuant to the Settlement Agreement, Mr. Jones agreed to dismiss the Complaint against the Company and its Chief Financial Officer with prejudice. On April 7, 2011 the Complaint was dismissed with prejudice by the Superior Court of the State of Washington for King County.

### ITEM 1A. Risk Factors

In addition to other information set forth in this Report, you should carefully consider the risk factors previously disclosed in "Item 1A to Part 1" of our Annual Report on Form 10-K for the year ended December 31, 2010. There were no material changes from the risk factors during the three months ended March 31, 2011.

### ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Pursuant to various cashless warrant exercises, the Company issued 310,897 shares of common stock in the three months ended March 31, 2011. In addition, the Company received proceeds of approximately \$81 thousand from the exercise of warrants and issued 72,116 shares of common stock in the three months ended March 31, 2011. In connection with the foregoing, the Company relied upon the exemption from securities registration afforded by Rule 506 of Regulation D as promulgated by the SEC under the Securities Act of 1933, as amended (the "Securities Act")

and/or Section 4(2) of the Securities Act. No advertising or general solicitation was employed in offering the securities.

ITEM 3. Defaults Upon Senior Securities

None.

ITEM 4. Submission of Matters to a Vote of Security Holders

None.

ITEM 5. Other Information

eMagin Corporation (the “Company”) has tentatively scheduled its 2011 annual general meeting of shareholders (the “Annual Meeting”) to be held in September 2011.

On May 11, 2011, the Company set a record date of August 10, 2011 for the Annual Meeting.

The Annual Meeting is being held more than 30 days before the anniversary of the Company's prior annual meeting of shareholders for fiscal 2010 held on November 18, 2010. As a result of this change in the timing of the Company's annual meeting date, a notice deadline provided in the Company's Proxy Statement, dated October 26, 2010, under the heading "Stockholder Proposals for the 2011 Annual Meeting" has changed.

If a shareholder intends to present any proposal for inclusion in the Company's proxy statement for the Annual Meeting in accordance with Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended, for consideration at the Annual Meeting, the proposal must be received by the Secretary of the Company by no later than June 30, 2011. Such proposal must also meet the other requirements of the rules of the United States Securities and Exchange Commission relating to shareholders' proposals.

Notices should be addressed in writing to: Secretary, eMagin Corporation, 3006 Northup Way, Suite 103, Bellevue, WA 98004.

ITEM 6. Exhibits

31.1 Certification by Chief Executive Officer pursuant to Sarbanes Oxley Section 302 (1)

31.2 Certification by Chief Financial Officer pursuant to Sarbanes Oxley Section 302 (1)

32.1 Certification by Chief Executive Officer pursuant to 18 U.S.C. Section 1350 (1)

32.2 Certification by Chief Financial Officer pursuant to 18 U.S.C. Section 1350 (1)

(1) Filed herewith.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized on this 12th day of May 2011.
