While the Registrant has raised capital to meet its working capital and financing needs in the past, additional financing is required in order to meet the Registrant's current and projected cash flow deficits from operations. As previously mentioned, the Registrant is seeking financing in the form of equity in order to provide the necessary working capital. The Registrant currently is seeking other sources for equity capital and currently has been extended an offer, but it has not accepted the offer as of the date of the Company's Form 10-QSB. There are no assurances the Registrant will be successful in raising the funds required.

The Company's independent certified public accountants have stated in their report included in the Company's December 31, 2001 Form 10-KSB, that the Company has incurred operating losses in the last two years, and that the Company is dependent upon management's ability to develop profitable operations. These factors among others may raise substantial doubt about the Company's ability to continue as a going concern.
