Item 2. Acquisition or Disposition of Assets.

On June 7, 2001, Gart Sports Company ("Gart Sports") announced that it had completed the acquisition of Houston-based Oshman's Sporting Goods, Inc. ("Oshman's"). The acquisition was accomplished pursuant to a merger of Oshman's with and into GSC Acquisition Corp. ("GSC"), a wholly owned subsidiary of Gart Sports, whereby GSC was the surviving corporation in the merger. GSC then changed its name to Oshman's Sporting Goods, Inc. Stockholders of Oshman's received \$7.00 in cash and 0.55 shares of Gart Sports common stock for each share of Oshman's common stock, resulting in the issuance of approximately 3.2 million shares of Gart Sports common stock. The transaction was valued at approximately \$99 million based on the closing price of Gart Sports common stock on June 7, 2001. A copy of the press release issued by Gart Sports on June 7, 2001, announcing the completion of the acquisition of Oshman's, is attached hereto as Exhibit 99.1. In conjunction with the acquisition, Gart Sports

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL STATEMENTS

The accompanying unaudited pro forma combined condensed balance sheet as of February 3, 2001 reflects the financial position of Gart as if the acquisition of Oshman's Sporting Goods, Inc. (the "Acquisition") had occurred on February 3, 2001.

The accompanying unaudited pro forma combined condensed statement of operations for the 53 weeks ended February 3, 2001 presents the combined condensed statement of operations of Gart as if the Acquisition had occurred on January 30, 2000.

The unaudited pro forma combined condensed financial statements reflect the Acquisition using the purchase method of accounting. The total cost of the Acquisition has been allocated to the tangible and intangible assets acquired and liabilities assumed based on their respective fair values. The allocation of the purchase price assumed in the unaudited pro forma combined condensed financial statements is preliminary. The actual allocation of the purchase price and the resulting effect on income from operations may differ significantly from the pro forma amounts included herein. These statements do not purport to be indicative of the results of operations or financial position of Gart that would have been achieved had the Acquisition actually occurred as of the assumed dates and for the periods presented. The unaudited pro forma combined condensed financial statements are based on the assumptions set forth in the notes and should be read in conjunction with the separate historical consolidated financial statements of Gart and Oshman's and related notes thereto.

	=====

(B)

To reflect the elimination of Oshman's stockholders' equity and to reflect the Gart common stock issued as partial consideration for the purchase.

(C)

To reflect the capitalization of deferred financing costs for borrowings under the new line of credit to finance the Acquisition.

(D)

To reflect favorable lease amortization over the remaining terms of the leases, ranging from 8 to 15 years, totaling \$1,043.

(E)

To reflect the increase in goodwill amortization, offset by decreases in fixed assets depreciation and compensation expense.

Goodwill amortization was calculated on a straight-line basis over 30 years, totaling \$1,808 per year. The decrease in fixed assets depreciation is due to the write-off of certain Oshman's fixed assets that will be abandoned by Gart. The useful lives of these assets range from 3 to 20 years, and therefore the write-off will result in a decrease in depreciation of \$905 per year. The decrease in compensation expense reflects the impact of the compensation agreements entered into as a result of the Acquisition, amounting to \$575 less compensation paid to these individuals by Oshman during 2000 totaling \$912.

(F)

To reflect an increase in interest expense due to an increase in the line of credit to finance the Acquisition. Interest expense was estimated using 8.5%. In addition, interest expense was increased due to the amortization of the deferred financing costs described in Note C.

(G)

To reflect adjustments to Oshman's balances to conform them to Gart's presentation and adjustments to reclassify certain occupancy, procurement and warehousing costs from operating expenses to cost of goods sold.

(H)

To record the tax effect on the net pro forma adjustments to a statutory rate of 39%.

GENERAL:

- . Oshman's records its inventory on the first-in first-out (FIFO) method of accounting for inventory. This methodology is contrary to Gart's method of recording inventory on the last-in first-out (LIFO) method of accounting. The cumulative effect of this change is not presented

Edgar Filing: GART SPORTS CO - Form 8-K

because it is not determinable.

- . Additional adjustments to inventories will be necessary at the Acquisition effective date to adjust inventories to fair value, based upon an estimated selling price less selling costs and a normal profit margin thereon. Due to uncertainty concerning this item, no adjustment has been presented in the pro forma financial statements.
- . The pro forma adjustments also do not include any adjustments related to the estimated stock- based compensation that may arise as a part of the Acquisition.
