Item 5. Other Events

On April 22, 2003, we issued a press release responding to an article entitled "Veterinarians Versus SARS", which appeared on the Forbes.com web site on April 10, 2003. The article discussed Severe Acute Respiratory Syndrome (SARS) and its potential link to animal coronavirus. The article indicated that we have been involved in the development of animal coronavirus vaccines. While we have previously marketed animal vaccines, we have never developed or marketed an animal coronavirus vaccine, nor do we currently have any plans to develop such a vaccine in the future.

We also announced that on April 9, 2003, we were notified by Agen Biomedical, Ltd. (Agen) that Agen was terminating its supply agreement with us due to our alleged breach of contract. Agen currently manufactures certain of our Witness® in-clinic diagnostic products including canine heartworm, feline leukemia, feline heartworm and canine parvovirus. These Witness® products represent a significant percentage of our sales. Based on discussions with our legal counsel, we notified Agen that Agen does not have the right to terminate the Agreement. We are attempting to amicably resolve the dispute with Agen.
