On July 18, 2000, the Company, through its wholly-owned subsidiary Flexxtech Holdings, Inc. acquired an additional 125,000 shares of Accesspoint Corporation at a price of \$4.00 per share, for a total of \$500,000. The acquisition consisted of the Company issuing 300,000 shares of common stock, at a price of \$1.00 per share and a promissory note for \$200,000 at 10% interest per annum, due on demand. The holder of the issued shares and Note is Atlantis Aggressive Growth.

On August 14, 2000 the Company paid 100,000 shares of its common stock to Sierra Nevada Advisors for financial consulting and advisory services. The stock was valued at par value.

On August 15, 2000 the Company, through its wholly-owned subsidiary Flexxtech Holdings, Inc. acquired 67% of Primavera Corporation, the parent company of North Texas Circuit Board Company. Flexxtech Holdings was issues 203 newly issued shares of Primavera Corporation in consideration of \$1,575,000. On October 31, 2000, the ownership was increased to 80% of Primavera Corporation. Edgar Filing: FLEXXTECH CORP - Form 10QSB

Financial Group, a Nevada Corporation, whereas Flexxtech Holdings has agreed to render financial advisory services in connection with the negotiation of transactions, marketing and support of the Company, acquisitions, and corporate development and organization. Under the one year agreement, Flexxtech was issued 500,000 shares of the common stock of Ameri-First Financial Group, Inc. (OTCBB: AMFR). Through March 31, 2001, the Company had 11,053,367 shares of common stock outstanding. While there is no assurance the Company will be successful in raising additional capital, the Company is actively seeking private equity financing to assure that it will be capable of financing the continuation of business. Any additional capital raised above and beyond what the Company needs as its monthly expenditure would be used in increasing marketing and sales efforts and future investments and acquisitions. Should the Company fail to raise additional funding, it will be forced to curtail its growth, both through internal development and through investments and acquisitions. As only a holding company to date, the company does not generate its own revenues, but relies on additional financing to pay its operation expenses. The Company is currently developing a plan to provide a variety of consulting services to emerging technology companies to include business and marketing plan development, merchant and investment banking services and general business consulting. The Company hopes to attract clients for these new services in the third quarter of this year, therefore not relying on additional financing to support its role as a holding company.

(a) Results of Operations

The Company has generated consolidated revenues of \$2,118,546 for the quarter ended March 31, 2001 as compared to no revenue for the quarter ended March 31, 2000. The Company anticipates an increase in generating revenues in the future. Currently, the Company's cash needs include, but are at no means limited to, rent, salaries and wages, cash raising expenses and to fund operation of its subsidiaries, and for future acquisitions. On June 15, 2000, the Company executed a promissory note with a shareholder in the amount of \$100,000 at 10% interest per annum, due September 15, 2000. On July 18, 2000 the Company executed a promissory note with a shareholder in the amount of \$200,000 at 10% interest per annum, due on demand. The Company plans on growing its revenues through the acquisition of various technology companies in various markets and increasing its products and services in part through acquisition of existing technology businesses. The Company will continue to seek capital for acquisitions and in the internal development of those companies acquired. The Company will seek capital through private investors and anticipates attracting institutional investors in the near future. In the event the Company does not attract such capital and is unable to generate revenues

Edgar Filing: FLEXXTECH CORP - Form 10QSB

sufficient to support its expenses, then the Company will be required to curtail its operations, sell existing investments, and slow down its plan for expansion. The Company, however, is taking all necessary action to limit its overhead and cut expenses at its operating subsidiaries. The Company and does not foresee a slow down in its acquisition plans and in its expansion plans for sometime. The Company feels that the current economic conditions benefit the Company in its choice of acquisitions.

Quarter Ended March 31, 2001 as Compared to Quarter Ended March 31, 2000

Revenues.

The Company had revenues of \$2,118,546 for the quarter ended March 31, 2001 as compared to no revenue for the quarter ended March 31, 2000. The increase in revenues was the result of the acquisition of Mardock, Inc. on April 26, 2000, and the acquisition of Primavera Corporation, the parent company of North Texas Circuit Board Company on August 15, 2000.

Cost of Sales.

The Company incurred Cost of Sales of \$1,774,592 for the quarter ended March 31, 2001 as compared to none for the quarter ended March 31, 2000. The increase in Cost of Sales is the result of consolidated Cost of Sales from the Company's subsidiaries, Mardock, Inc., Primavera Corporation and its wholly owned subsidiary, North Texas Circuit Board Co.

General, Administrative and Selling Expenses.

The Company incurred costs of \$532,378 for the quarter ended March 31, 2001 as compared to none for the quarter ended March 31, 2000. The increase of operating expenses is the result of the Mardock and North Texas Circuit Board acquisitions and their consolidated operating expenses and an increase in rent, salaries, wages, and expenses related to raising capital for the Company.

Net loss before income taxes.

The Company has a loss before taxes of \$301,165 for the quarter ended March 31, 2001 as compared to no loss or income for the quarter ended March 31, 2000

Net loss.

The Company had a net loss of \$303,565 for the quarter ended March 31, 2001 as compared to no loss or profit for the quarter ended March 31, 2000. The net loss was mostly due to the acquisition and inclusion of operations of North Texas Circuit Board Co. and Mardock, Inc., from the period of acquisition through March 31, 2001 and the increase in general and administrative expenses of the Company.

Unrealized gain on investments.

The Company has an unrealized loss on marketable investments available for sale of \$115,130 for the quarter ended March 31, 2001. The unrealized gain is contributed to the fluctuating market value of the securities the Company's subsidiary, Flexxtech Holdings, Inc. owns, at the end of the year. The securities owned are marked to market on the last day of the trading month for the period ended.

Liquidity and Capital Resources

Edgar Filing: FLEXXTECH CORP - Form 10QSB

The Company's business plan was restructured in April 2000 to its now current plan. The Company must continue to raise capital to fulfill its plan of acquiring technology companies and assisting in the development of those companies internally. A majority of the company's expenses are related to raising capital. Future expenses will include legal and accounting and other professional fee expenses. If the Company is unable to raise any additional capital its operations will be curtailed and it may have to liquidate its current investments for operating capital. As of March 31, 2001, the Company had total Current Assets of \$3,501,901 and Current Liabilities of \$4,314,683. Cash and cash equivalents were \$159,642. Stockholders' Equity was \$2,577,489. In its acquisition of North Texas Circuit Board, Management feels that it has made necessary cost cutting efforts to reduce the debt and increase productivity of the Company. In its turn-around effort, management feels additional capital will be needed to complete a full turnaround, but that the Company has made significant strides toward a successful turnaround. Management feels that other operations of the Company are financially sound at this time and

that no outside forces, including inflation has had a significant impact on its operations. The Company will continue to raise capital for acquisitions and the internal development of its subsidiaries.

Effective March 30, 2001, the Board of directors approved to cancel 750,000 shares of common stock issued to a related party, related through common share holder, in exchange of various notes receivable. The Offering is being conducted by us as a self underwriting. Shares in the Offering are available only through us. The Offering is being conducted over a three month period commencing on September 8, 2000. We have the option to extend the Offering up to an additional three months. We are making the Offering on a best efforts basis. This means that we have not establish any minimum amount of proceeds that must be generated in the Offering. Accordingly, investors who subscribe for Shares in the earlier stages of the Offering will assume a substantially greater risk than investors who subscribe for Shares later in the Offering.

Even if we sell all of the Shares covered by the Offering and raise maximum proceeds, such proceeds may be insufficient to implement our business investment plan. There is no guarantee that the funds generated by the Offering will be sufficient to cover the financial requirements for our growth.

We have arbitrarily set the price of the Shares in the Offering. The price of the Shares is based upon the amount of capital that we desire to raise and the percentage of our outstanding capital stock that we are willing to sell at this point in our development. We have established the price of the Shares and the value of our company without an independent appraisal. The price has no relationship to book value per share, current earnings or other generally accepted measurements of value. The Offering may involve immediate and substantial dilution.

Effective March 30, 2001, the Board of directors approved to cancel 750,000 shares of common stock issued to a related party, related through common share holder, in exchange of various notes receivable. The notes were receivable from a corporation totaling \$1,250,000. The notes carried interest ranging from 8% to 12% per year, were secured and due on demand. The company returned the notes to the related party.
