PACIFIC PREMIER BANCORP, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS June 30, 2013 (UNAUDITED)

Note 1 - Basis of Presentation

The consolidated financial statements include the accounts of Pacific Premier Bancorp, Inc. (the "Corporation") and its wholly owned subsidiaries, including Pacific Premier Bank (the "Bank") (collectively, the "Company," "we," "our" or "us"). A significant intercompany accounts and transactions have been eliminated in consolidation.

In the opinion of management, the consolidated financial statements contain all adjustments (consisting of normal recurring accruals) necessary to present fairly the Company's financial position as of June 30, 2013, December 31, 2012, and June 30, 2012, the results of its operations and comprehensive income for the three and six months ended June 30, 2013 and 2012 and the changes in stockholders' equity and cash flows for the three and six months ended June 30, 2013 and 2012. Operating results or comprehensive income for the three and six months ended June 30, 2013 are not necessarily indicative of the results or comprehensive income that may be expected for any other interim period or the full year ending December 31, 2013.

Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, as amended (the "2012 Annual Report").

The Company accounts for its investments in its wholly owned special purpose entity, PPBI Trust I, under the equity method whereby the subsidiary's net earnings are recognized in the Company's statement of operations.

Note 2 - Recently Issued Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU") 2011-11, "Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities". ASU 2011-11 affects all entities that have financial instruments and derivative instruments that are either (1) offset in accordance with either Section 210-20-45 or Section 815-10-45 or (2) subject to an enforceable master netting arrangement or similar agreement. The requirements amend the disclosure requirements on offsetting in Section 210-20-50. This information is intended to enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain financial instruments and derivative instruments in the scope of this ASU. The amended guidance is effective for interim and annual periods beginning after January 1, 2013 and should be applied retrospectively to all periods presented. The adoption of the disclosure requirements had no impact on the Company's consolidated financial statements.

In October 2012, the FASB issued ASU 2012-06, "Subsequent Accounting for an Indemnification Asset Recognized at the Acquisition Date as a Result of a Government-Assisted Acquisition of a Financial Institution." The amendments in this update clarify the applicable guidance for subsequently measuring an indemnification asset recognized as a result of a government-assisted acquisition of a financial institution. The update provides that changes

in cash flows expected to be collected on the indemnification asset arising subsequent to initial recognition as a result of changes in cash flows expected to be collected on the related indemnified assets should be accounted for on the same basis as the change in the assets subject to indemnification. Any amortization of changes in value should be limited to the contractual term of the indemnification agreement. The Company is required to adopt this update prospectively for the quarter ending June 30, 2013. The requirements of the update are consistent with the Company's existing accounting policy; therefore, adoption has no impact on the Company's consolidated financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income." This update requires entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, entities are required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income. The adoption of the disclosure requirements had no impact on the Company's consolidated financial statements.

The Company has the intent and ability to hold these securities until the temporary impairment is eliminated. Accordingly, the Company has not recognized the temporary impairment in earnings.

At June 30, 2013, the Company had accumulated other comprehensive loss of \$2.8 million, or \$1.7 million net of tax, compared to accumulated other comprehensive income of \$1.9 million, or \$1.1 million net of tax, at December 31, 2012.

From time to time, we may purchase or sell loans in order to manage concentrations, maximize interest income, change risk profiles, improve returns and generate liquidity.

The Company makes residential and commercial loans held for investment to customers located primarily in Southern California. Consequently, the underlying collateral for our loans and a borrower's ability to repay may be impacted unfavorably by adverse changes in the economy and real estate market in the region.

Under applicable laws and regulations, the Bank may not make secured loans to one borrower in excess of 25% of unimpaired capital plus surplus and likewise in excess of 15% for unsecured loans. These loans-to-one borrower limitations result in a dollar limitation of \$45.2 million for secured loans and \$27.1 million for unsecured loans at June 30, 2013. At June 30, 2013, the Bank's largest aggregate outstanding balance of loans to one borrower was \$35.0 million of secured credit.
