PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
Thursday, February 4, 2010

Our annual meeting of stockholders will be held on Thursday, February 4, 2010 at the offices of Dechert LLP, 1095 Avenue of the Americas, New York, New York 10036, at 10:00 a.m (the "Annual Meeting"). Our Board of Directors is soliciting your proxy to vote your shares of common stock at the Annual Meeting. This proxy statement, which was prepared by our management for the Board of Directors, contains information about the matters to be considered at the meeting or any adjournments or postponements of the meeting and is first being made available to stockholders on or about December 21, 2009.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD FEBRUARY 4, 2010

This proxy statement and our 2009 Annual Report for the fiscal year ended September 30, 2009 are available on the Internet at <http://www.amstock.com/ProxyServices/ViewMaterial.asp?CoNumber=03170>.

ABOUT THE MEETING

What is the Notice of Internet Availability of Proxy Materials that I received in the mail this year instead of a full set of proxy materials?

This year, we are pleased to be using the Securities and Exchange Commission rule that allows companies to furnish their proxy materials over the Internet, instead of mailing printed copies of those materials to all stockholders. Consequently, most stockholders will not receive paper copies of our proxy materials. These stockholders will instead receive a "Notice of Internet Availability of Proxy Materials" with instructions for accessing our proxy materials, including our proxy statement and 2009 Annual Report, and voting via the Internet. The Notice of Internet Availability of Proxy Materials also contains instructions on how stockholders can obtain a paper copy of our proxy materials if they so choose. We believe this process will expedite stockholders' receipt of proxy materials, lower the costs of our Annual Meeting and conserve natural resources. If you previously elected to receive our proxy materials electronically, these materials will continue to be sent via email unless you change your election.

What is being considered at the meeting?

You will be voting for:

1. the election of four directors for a term of three years; and
2. the ratification of the selection by our Audit Committee of Grant Thornton LLP to serve as our independent registered public accounting firm for fiscal 2010.

We do not expect you to vote on any other matters at the meeting.

In addition, our management will report on our performance during fiscal 2009 and respond to questions.

Who is entitled to vote at the meeting?

You may vote if you owned stock as of the close of business on December 15, 2009. Each share of stock is entitled to one vote.

How do I vote?

For stockholders whose shares are registered in their own names, as an alternative to voting in person at the Annual Meeting, you may vote via the Internet, by telephone or, for those stockholders who receive a paper proxy card in the mail, by mailing a completed proxy card. For those stockholders who receive a Notice of Internet Availability of Proxy Materials, the Notice of Internet Availability of Proxy Materials provides information on how to access your proxy card, which contains instructions on how to vote via the Internet or by telephone. For those stockholders who receive a paper proxy card, instructions for voting via the Internet or by telephone are set forth on the proxy card. Those stockholders who receive a paper proxy card and voting instructions by mail, and who elect to vote by mail, should sign and return the mailed proxy card in the prepaid and addressed envelope that was enclosed with the proxy materials, and your shares will be voted at the Annual Meeting in the manner you direct.

If your shares are registered in the name of a bank or brokerage firm (your record holder), you may also submit your voting instructions over the Internet or by telephone by following the instructions provided by your record holder in the Notice of Internet Availability of Proxy Materials. If you received printed copies of the proxy materials, you can submit voting instructions by telephone or mail by following the instructions provided by your record holder on the enclosed voting instructions card. Those who elect to vote by mail should complete and return the voting instructions card in the prepaid and addressed envelope provided. Stockholders who have elected to receive the proxy materials electronically will be receiving an email on or about December 21, 2009 with information on how to access stockholder information and instructions for voting.

If your shares are registered in your own name, you have the right to vote in person at the Annual Meeting by using the ballot provided at the Annual Meeting, or if you requested and received printed copies of the proxy materials by mail, you can complete, sign and date the proxy card enclosed with the proxy materials you received and submit it at the Annual Meeting. If you hold shares through a bank

or brokerage firm and wish to be able to vote in person at the Annual Meeting, you must obtain a "legal proxy" from your brokerage firm, bank or other holder of record and present it to the inspector of elections with your ballot at the Annual Meeting. Even if you plan to attend the Annual Meeting, we recommend that you submit your proxy or voting instructions in advance of the meeting as described above so that your vote will be counted if you later decide not to attend the Annual Meeting. Submitting your proxy or voting instructions in advance of the meeting will not affect your right to vote in person should you decide to attend the Annual Meeting.

Can I change my mind after I return my proxy?

Yes, you may change your mind at any time before the vote is taken at the meeting. You may revoke or change a previously delivered proxy at any time before the Annual Meeting by delivering another proxy with a later date, by voting again via the Internet or by telephone, or by delivering written notice of revocation of your proxy to Griffon's Secretary at our principal executive offices before the beginning of the Annual Meeting. You may also revoke your proxy by attending the Annual Meeting and voting in person, although attendance at the Annual Meeting will not, in and of itself, revoke a valid proxy that was previously delivered. If you hold shares through a bank or brokerage firm, you must contact that bank or brokerage firm to revoke any prior voting instructions. You also may revoke any prior voting instructions by voting in person at the Annual Meeting if you obtain a legal proxy as described above.

What if I return my proxy card but do not include voting instructions?

Proxies that are signed and returned but do not include voting instructions will be voted **FOR** the election of the nominee directors, **FOR** the ratification of Grant Thornton LLP to serve as our independent registered public accounting firm and in the discretion of the proxy holders as to any other matters that may properly come before the Annual Meeting or any postponement or adjournment of the Annual Meeting.

What does it mean if I receive more than one notice or proxy card?

It means that you have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your broker and/or our transfer agent to consolidate as many accounts as possible under the same name and address. Our transfer agent is American Stock Transfer & Trust Company and their telephone number is (212) 936-5100.

Will my shares be voted if I do not provide my proxy?

If you hold your shares directly in your own name, they will not be voted if you do not provide a proxy.

Your shares may be voted under certain circumstances if they are held in the name of a brokerage firm. Brokerage firms generally have the authority to vote customers' unvoted shares on certain "routine" matters, including the ratification of accountants. At our meeting, these shares will be counted as voted by the brokerage firm in the ratification of accountants.

Edgar Filing: GRIFFON CORP - Form DEF 14A

Brokers are prohibited from exercising discretionary authority on non-routine matters, such as the election of directors, for beneficial owners who haven't returned proxies to the brokers (so-called "broker non-votes"). In the case of broker non-votes, and in cases where you abstain from voting on a matter when present at the meeting and entitled to vote, those shares will be counted for purposes of determining if a quorum is present.

How are shares in the Griffon Corporation Employee Stock Ownership Plan Voted?

If you are a participant in the Griffon Corporation Employee Stock Ownership Plan (ESOP), you may vote the shares you own through the ESOP via the Internet, by telephone or, if you receive a paper proxy card in the mail, by mailing a completed proxy card. Shares owned by participants through the ESOP may NOT be voted in person at the Annual Meeting.

American Stock Transfer & Trust Company will tabulate the votes of participants for the ESOP. The results of the vote received from the ESOP participants will serve as voting instructions to Wachovia Bank, National Association, the trustee of the ESOP. The trustee will vote the shares as instructed by the ESOP participants. If a participant does not provide voting instructions, the trustee will vote the shares allocated to the participant's ESOP account in the same manner and proportions as those votes cast by other participants submitting timely voting instructions. American Stock Transfer & Trust Company will keep how you vote your shares confidential.

How many votes must be present to hold the meeting?

Your shares are counted as present at the meeting if you attend the meeting and vote in person, if you properly submit your proxy or if your shares are registered in the name of a bank or brokerage firm and you do not provide voting instructions and such bank or broker casts a broker non-vote on the ratification of accountants. In order for us to conduct our meeting, a majority of our outstanding shares of common stock as of December 15, 2009 must be present at the meeting. This is referred to as a quorum. On December 15, 2009, there were 61,459,122 shares of common stock outstanding and entitled to vote.

What vote is required to elect directors?

Directors are elected by a plurality of the votes cast. Shares not voted will have no effect on the vote for election of directors.

What vote is required to ratify the selection by our Audit Committee of Grant Thornton LLP as our independent registered public accounting firm?

The affirmative vote of the holders of a majority of the shares present in person or by proxy and entitled to vote on the item will be required for approval. An abstention will be counted as a vote against this proposal and broker non-votes will have no effect on the vote.

CORPORATE GOVERNANCE

Director Independence

The Board of Directors has determined that each of Messrs. Alpert, Bell, Cardinale, Gross, Fogg, Harrison, Hill, Kutyna, Mitarotonda, Sussman, Waldorf and Whalen are independent under New York Stock Exchange Rule 303A. The Board of Directors affirmatively determined that no director (other than Ronald J. Kramer and Harvey R. Blau) has a material relationship with the company, either directly or as a partner, shareholder or officer of an organization that has a relationship with the company.

We currently have the following standing committees: the Audit Committee, the Compensation Committee, the Finance Committee, the Nominating and Corporate Governance Committee and the Succession Committee. Other than the Finance Committee, all of the standing committees of the Board of Directors are composed entirely of independent directors.

Committee Membership, Meetings and Attendance

During the fiscal year ended September 30, 2009, there were:

six meetings of the Board of Directors;

five meetings of the Audit Committee;

nine meetings of the Compensation Committee;

one meeting of the Finance Committee;

one meeting of the Nominating and Corporate Governance Committee; and

no meetings of the Succession Committee.

Each director who was a director in fiscal 2009 attended or participated in at least 75% of the meetings of the Board of Directors and his respective committees held during our fiscal year ended September 30, 2009.

We encourage all of our directors to attend our annual meetings of stockholders. All of our current directors, who were directors at such time, attended last year's annual meeting of stockholders.

Board Committees

We have a separately designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (the "Exchange Act"). Our Audit Committee is involved in discussions with management and our independent registered public accounting firm with respect to financial reporting and our internal accounting controls. The Audit

Committee has the sole authority and responsibility to select, evaluate and replace our independent registered public accounting firm. The Audit Committee must pre-approve all audit engagement fees and terms and all non-audit engagements with the independent auditors. The Audit Committee consults with management but does not delegate these responsibilities. We do not have a written policy for review and approval of related party transactions required to be disclosed pursuant to Item 404(a) of Regulation S-K. However, our practice is that any such transaction be reviewed and approved by the Audit Committee, which consists entirely of independent directors. There were no related party transactions in fiscal 2009. A copy of the Audit Committee charter can be found on our website at www.griffoncorp.com.

The Board has determined that Joseph J. Whalen, a member of the Audit Committee since 1999, qualifies as an "Audit Committee Financial Expert", as defined by Securities and Exchange Commission Rules, based on his education, experience and background.

Our Compensation Committee awards restricted stock and other equity-based awards to officers and employees. The Committee has overall responsibility for determining and approving the compensation of our Chief Executive Officer and reviewing and approving the annual base salaries and annual incentive opportunities of our executive officers, as well as the Presidents of each of our business segments. The Committee may form and delegate authority to subcommittees as it deems appropriate. The Compensation Committee considers recommendations from our executive officers with respect to executive compensation matters. From time to time, the Company utilizes the services of independent consultants to perform analyses and to make recommendations relative to executive compensation matters. These analyses and recommendations are conveyed to the Compensation Committee, and the Committee takes such information into consideration in making its compensation decisions. A copy of the Compensation Committee charter can be found on our website at www.griffoncorp.com.

The Finance Committee is responsible for the review of certain proposed acquisition and capital markets transactions, following which it shall make a non-binding recommendation to the full Board of Directors. Since its formation there has been only one potential transaction that has advanced to sufficient state of advancement to warrant review by the Finance Committee. A copy of the Finance Committee Charter can be found on our website at www.griffoncorp.com.

The Nominating and Corporate Governance Committee is responsible for (1) monitoring compliance with our Code of Business Ethics and Standards of Conduct; (2) reviewing suggestions of candidates for director made by directors and others; (3) identifying individuals qualified to become Board members, and recommending to the Board the director nominees for the next annual meeting of stockholders; (4) recommending to the Board director nominees for each committee of the Board; (5) recommending to the Board the corporate governance principles applicable to the company; and (6) overseeing the annual evaluation of the Board and management. There is no difference in the manner in which a nominee is evaluated based on whether the nominee is recommended by a stockholder or otherwise. The Nominating and Corporate Governance Committee has nominated the directors to be elected at this meeting. A copy of the Nominating and Corporate Governance Committee charter can be found on our website at www.griffoncorp.com.

Edgar Filing: GRIFFON CORP - Form DEF 14A

The Succession Committee is responsible for developing and implementing a succession plan for our executive officers.

Executive Sessions

Our independent directors meet periodically at regularly scheduled executive sessions. Mr. Martin S. Sussman has been selected as the lead independent director with respect to the executive sessions of the independent directors through February 2010. Our independent directors met in executive session one time during fiscal 2009.

Board Self-Evaluation

The Board is required to conduct an annual self-evaluation that is overseen by our Nominating and Corporate Governance Committee to determine whether the Board and its committees are functioning effectively. In addition, each of the Compensation and Nominating and Corporate Governance committees is required to conduct an annual self-evaluation and all committees of the Board are required to review and reassess the adequacy of their charters. The Audit Committee is subject to an annual performance evaluation by the Board of Directors.

Directors' Nominations

Any stockholder who wants to nominate a candidate for election to the Board must deliver timely notice to our Secretary at our principal executive offices. In order to be timely, the notice must be delivered

in the case of an annual meeting, not less than 90 days nor more than 120 days prior to the anniversary date of the immediately preceding annual meeting of stockholders, although if the annual meeting is called for a date that is not within 25 days of the anniversary date of the prior year's annual meeting, the notice must be received not later than the close of business on the 10th day following the first to occur of the day on which notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made; and

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy and Objectives of Our Compensation Program

Our compensation programs are intended to enable us to attract, motivate, reward and retain the management talent required to achieve corporate objectives, and thereby increase stockholder value. It is our policy to provide incentives to senior management to achieve both short-term and long-term objectives and to reward exceptional performance and contributions to the development of our businesses. To attain these objectives, our executive compensation program includes four key components:

competitive base salary;

cash incentive bonuses based upon company and individual performance;

equity-based compensation; and

retirement, health and welfare benefits, and other perquisites.

The Compensation Committee has also decided that the general policy of the Company regarding tax gross-ups is that each executive should be responsible for the taxes payable with respect to such individual's compensation. Accordingly, the Company will not offer executives tax gross-ups, except in unusual circumstances where the Compensation Committee believes that accommodations have to be made to recruit a new executive to the Company. However, even in those circumstances, any such tax gross-up will be limited to payments triggered by both a change in control and termination of employment and will be subject to a three year sunset provision.

Executive Compensation Decisions The Role of the Compensation Committee, Executives and Consultants

The Compensation Committee is responsible for evaluating and approving the compensation of our executive officers and the presidents of our business segments. The Compensation Committee considers recommendations from our chief executive officer with respect to executive compensation matters, other than his own compensation. From time to time, including with respect to certain compensatory decisions made in fiscal 2009, the Compensation Committee utilizes the services of an independent consulting firm to perform analyses and to make recommendations relative to executive compensation matters. These analyses and recommendations are conveyed to the Compensation Committee, and the Compensation Committee takes such information into consideration in making its compensation decisions.

Determination of Compensation Levels

In setting compensation levels and mix of compensation for fiscal 2009, the Compensation Committee took into account several factors, including existing employment agreements with individual executives, the extent to which an individual may participate in and may have received grants under the equity-based plans maintained by us, and the Compensation Committee's subjective assessment of the

individual's experience, responsibilities, management, leadership abilities and job performance. In addition, the Compensation Committee has historically used benchmarking for comparison purposes in connection with the recruitment and retention of our executive officers and may continue to use such data as one of the factors in determining compensation of its executive officers. In fiscal 2009, the Compensation Committee did not use benchmarking in the setting of compensation levels. The Compensation Committee has recognized that the Company has adopted an approach that focuses not only on the appropriate deployment of and return of capital in our existing businesses, but also on growth and diversification. Accordingly, while the Committee recognizes the benefit of comparative information in determining compensation at the corporate level, it also recognizes the limitations of such comparisons for a company, such as our Company, that has shown dynamic development.

From time to time, the Compensation Committee has retained GK Partners, an independent outside executive compensation consulting firm, to assist it in evaluating our company's executive compensation practices for senior management personnel. The Compensation Committee uses marketplace data points generated by GK Partners regarding other companies as part of our evaluation of the base salary and compensation levels of our named executive officers. The data points are used to allow the Compensation Committee to compare the compensation levels being set for our executives with the ranges established by others. The Compensation Committee uses these data points to better understand how other companies are compensating their own senior executives. The Compensation Committee believes that, among other things, such data could improve Griffon's ability to retain its named executive officers, and not have them recruited away (with the promise of increased compensation levels) by companies that compete directly with Griffon for customers and talent, or others that compete locally, generally or indirectly with Griffon for executive level talent and personnel.

Because a significant portion of the senior executive management team has been recruited from other companies within a relatively few years, the Compensation Committee believes that the levels of compensation established for those executives reflects the actual operation of competitive market forces.

Elements of Executive Compensation

Base Salary. We pay a base salary that the Compensation Committee determines is competitive with respect to the scope, responsibilities and skills required of the particular position in order to attract and retain qualified individuals. As discussed above, the Compensation Committee assesses compensation from other companies from time to time by analyzing the compensation paid in the marketplace. Periodic merit increases are made after annual review and we are contractually obligated to give our chief executive officer an annual cost of living adjustment.

In March 2008, we entered into an employment agreement with Ronald J. Kramer, pursuant to which he became our Chief Executive Officer, as discussed herein under "Employment Agreements." Mr. Kramer's employment agreement provided for an initial annual base salary of \$775,000, subject to cost of living and discretionary increases. In November 2008, the Compensation Committee reviewed Mr. Kramer's base salary. The Compensation Committee believed that a salary increase for Mr. Kramer was appropriate in recognition of his being instrumental in the execution of bank loan agreements, the consummation of the rights offering and in effectuating the exit strategy from the

Installation business. The Compensation Committee believed that in light of these contributions, which were essential to the company, that an increase of \$25,000 per annum was appropriate. The Compensation Committee consulted with an independent compensation consulting firm, GK Partners, to determine if such an increase was appropriate. GK Partners confirmed that Mr. Kramer's base salary, even with such increase, was well within the range of compensation paid to other chief executive officers at companies that competed directly and indirectly with the company. Accordingly, effective December 1, 2008, the Compensation Committee decided to exercise its discretion to increase Mr. Kramer's annual base salary to \$800,000.

In August 2009, we entered into an employment agreement with Douglas J. Wetmore, pursuant to which he became our Executive Vice President and Chief Financial Officer, as discussed herein under "Employment Agreements." Mr. Wetmore's employment agreement provides for an initial annual base salary of \$500,000, subject to discretionary increases. The base salary under this agreement was established by our Compensation Committee. The Compensation Committee determined that this annual base salary was necessary in order to recruit Mr. Wetmore.

During its annual review of overall compensation, the Compensation Committee evaluates the Company's compensation of its senior management in each element of compensation and on an overall basis. As part of its review the Compensation Committee considered the reorganization and restructuring of Griffon's senior management team and the changes in responsibilities that would result from management changes that were in progress or that had been completed. The Compensation Committee reviewed the base salary of Patrick L. Alesia, our Vice President, Chief Administrative Officer, Treasurer and Secretary. In conducting such review, the Compensation Committee determined that due to Mr. Alesia's participation in the company's SERP, recent equity awards and the salary increase that Mr. Alesia received for the prior fiscal year, Mr. Alesia's current total compensation package is appropriate. Accordingly, the Compensation Committee decided not to increase Mr. Alesia's annual base salary in 2009 from the \$435,000 per annum that he received in 2008.

The Compensation Committee also reviewed the base salary of Franklin H. Smith, who was at the time our Executive Vice President. In conducting such review, the Compensation Committee determined that due to Mr. Smith's recent equity awards and the salary increase that Mr. Smith received for the prior fiscal year, Mr. Smith's compensation package was appropriate. Accordingly, the Compensation Committee decided not to increase Mr. Smith's annual base salary in 2009 from the \$475,000 per annum that he received in 2008.

Cash Incentive Bonuses. Cash incentive bonuses are designed to provide a significant and variable financial opportunity to our executive officers on an annual basis based upon company and individual performance.

In December 2005, the Board of Directors of our company adopted the 2006 Performance Bonus Plan, which was approved by our stockholders at our annual meeting of stockholders held on February 3, 2006. The Performance Bonus Plan is administered by the Compensation Committee, which selects the participants and establishes the performance periods and the specific performance goals to be achieved during those periods. The Compensation Committee believes that the Performance Bonus Plan enhances the ability of our company to attract and retain employees, including executive officers,

by providing performance-based incentives, while at the same time obtaining the highest level of deductibility of compensation paid to employees.

Bonus awards, if made, are intended to qualify as "performance-based compensation" under Section 162(m) of the Internal Revenue Code; however, as permitted under the section, the Compensation Committee retains the negative discretion to reduce bonus awards otherwise earned through the attainment of the performance goals.

In December, 2008, in accordance with and pursuant to the 2006 Performance Bonus Plan, the Compensation Committee established objective, calculable and prospective goals under that plan. These goals were established by the Compensation Committee to be consistent with the operational and capital plans for fiscal 2009 received and approved by the Board at the beginning of the fiscal year. In establishing goals the Compensation Committee seeks to create incentives for the attainment of the strategic and operational objectives set by the Board. The Compensation Committee then considers the financial condition and operating results that would result if the plans were executed with varying degrees of success, and further considers the economic environment in which the management team is being expected to perform.

Consistent with the strategy discussed by the Board, the Compensation Committee determined that objectives should be established in three different areas, each of which could be achieved independently. These objectives were achieving positive operating results, as measured by EBITDA, continuing to strengthen Griffon's balance sheet, as measured by working capital improvement, and promoting non-organic growth through acquisitions. Levels of achievement were established for each objective, up to a maximum potential bonus of \$3 million for each objective and a maximum aggregate bonus of \$5 million. The Compensation Committee retained the power to reduce (but not increase) the bonus actually awarded under the 2006 Performance Bonus Plan to assure that the aggregate bonus actually paid under that Plan to any individual was, in the judgment of the Compensation Committee, reasonable and in the best interests of the Company.

In considering the target levels for each objective, the Compensation Committee considered the substantial economic uncertainty that was prevalent globally in December 2008 when the target levels were set. In particular, the Compensation Committee considered that the Company's garage door business was likely to be seriously affected by the severe downturn in the real estate market and that the Company's plastics business could be affected by consumers shifting their purchasing choices to lower priced, more generic products, thereby reducing demand for the Company's higher margin products. The Compensation Committee noted the management changes in progress at the parent company level and the potential for those changes to result in increases in general and administrative expenses. The Compensation Committee concluded that the successful achievement of transition in management structure would contribute to the EBITDA targets that the Compensation Committee established, and that the EBITDA targets would create an incentive to control general and administrative expenses. Based on the foregoing, the Compensation Committee established an EBITDA target that ranged from \$32 million as a minimum threshold for bonus eligibility under the 2006 Performance Bonus Plan for operational results to \$55 million as the superior level of achievement, at which a maximum bonus could be awarded.

Edgar Filing: GRIFFON CORP - Form DEF 14A

In order to establish an incentive to maintain and enhance balance sheet strength, the Compensation Committee established targets based upon working capital levels to be attained at the end of fiscal 2009. The Compensation Committee noted that Griffon's senior subordinated convertible bonds could be put to the Company in July 2010, and, accordingly, the indebtedness evidenced by those securities would be classified as short term indebtedness rather than as long term indebtedness beginning in July, 2009. Absent other changes, this reclassification would result in a substantial reduction in the Company's working capital at the end of fiscal 2009; and the Compensation Committee believed that maintenance of a strong working capital position would be beneficial to the Company and its businesses, especially in light of the economic uncertainties that existed at the time that the targets were set. In establishing the working capital objectives under the 2006 Performance Bonus Plan, the Compensation Committee considered the projected level of working capital at year end, absent corporate action led by management. The fiscal year end working capital levels permitting the payment of bonuses ranged from \$445 million as a minimum threshold to \$630 million at which a maximum bonus could be awarded.

While not a primary objective for fiscal 2009, the Board wanted Mr. Kramer and the senior management team to grow the Company's revenues through acquisitions. In order to assure that bonus potential could only be achieved for meaningful accomplishments in this area, the Compensation Committee determined that targets should be established on the basis of the level of revenues of companies that are acquired.

After the conclusion of fiscal 2009 and the preparation of the Company's financial statements, the Compensation Committee held meetings that its consultant attended for the principal purpose of reviewing the extent to which targets established under the 2006 Performance Bonus Plan were attained and considering the extent to which bonuses under that plan would be paid. The Committee determined that Mr. Kramer was eligible for a \$3 million bonus as a result of the attainment of a superior result based upon the EBITDA generated by the Company's operations, and that he was eligible for a bonus of \$600,000 based upon the level of the Company's working capital at year end. No material acquisitions were made in fiscal 2009; and accordingly no bonus could be awarded with respect to that target. The Compensation Committee then reviewed the aggregate bonus potentially payable to Mr. Kramer and concluded that, because EBITDA substantially contributed to the attainment of the working capital target, the Compensation Committee would exercise its negative discretion and reduce Mr. Kramer's potential bonus by \$600,000, or approximately 17%. The Compensation Committee concluded that Mr. Kramer's bonus would be reasonable and in the best interests of the Company.

Pursuant to Mr. Wetmore's employment agreement, he was eligible to receive a discretionary bonus with respect to fiscal 2009. The Compensation Committee awarded Mr. Wetmore a discretionary bonus of \$50,000 in respect of the services Mr. Wetmore performed in fiscal 2009. The Compensation Committee awarded this amount to Mr. Wetmore based on a subjective analysis of the immediate effectiveness of Mr. Wetmore's leadership and finance skills, cost cutting initiatives and financial department enhancements, direction and guidance.

The bonus for Mr. Alesia is discretionary and is based primarily upon a subjective analysis by the Compensation Committee of his individual performance. The Compensation Committee determined that Mr. Alesia made many financial, accounting, human resource, tax and administrative contributions

to the Company's success during the 2009 fiscal year. Significantly, Mr. Alesia provided important assistance in connection with the transition of the company's management and in accepting new responsibilities and challenges as the company's new Chief Administrative Officer. In consideration of these important services and his promotion to Chief Administrative Officer the Compensation Committee awarded Mr. Alesia a bonus of \$217,000 in respect of fiscal 2009.

In accordance with the terms of his negotiated separation agreement, Mr. Smith received a bonus of \$85,000 in respect of fiscal 2009. See the discussion of Mr. Smith's separation agreement under "Employment Agreements" below.

The Compensation Committee is in the process of establishing the performance goals for Messrs Kramer and Wetmore under the 2006 Performance Bonus Plan.

Equity-based Compensation. Equity-based compensation is designed to provide incentives to our executive officers to build stockholder value over the long term by aligning their interests with the interest of stockholders. Historically, equity-based compensation consisted of stock options granted by the Compensation Committee under our stock option plans. In 2006, we began granting restricted stock awards as the Compensation Committee determined that this was a more effective vehicle for the motivation and retention of our executive officers. The Committee believes that equity-based compensation provides an incentive that focuses the executive's attention on managing our company from the perspective of an owner with an equity stake in the business. In determining the amount of equity-based compensation to be awarded to our named executive officers, the Compensation Committee takes into consideration, among other things, the level of the officer's responsibility, performance of the officer, other compensation elements and the amount of previous grants of stock and options. The goal of the Compensation Committee is to retain and motivate the named executive officer to perform at the level we require. In addition, with respect to recruiting an executive officer to join our company, the amount of equity consideration may be negotiated to reflect the amount necessary to hire the desired person. The largest grants are generally awarded to the most senior officers who, in the view of the Compensation Committee, have the greatest potential impact on our profitability and growth.

Pursuant to our 2006 Equity Incentive Plan, we may issue up to 3,875,000 shares of our common stock (if issued solely as restricted stock or awards other than stock options) or 7,750,000 shares of our common stock (if awarded solely as stock options). The Compensation Committee believes that the Incentive Plan allows our company to attract and retain executive management by providing them with appropriate equity-based incentives and rewards for superior performance.

On October 1, 2008 and October 1, 2009, Mr. Kramer was granted 75,000 shares and 25,000 shares of restricted stock, respectively, pursuant to our 2006 Equity Incentive Plan, vesting, subject to Mr. Kramer's continued employment, in full on April 1, 2011, subject to earlier vesting in the event of death, Disability, a Change in Control of our company or if Mr. Kramer is terminated without Cause or leaves for Good Reason (as such terms are defined in his Employment Agreement). On October 1, 2008, Mr. Kramer also received a ten-year option to purchase 350,000 shares of common stock at an exercise price equal to \$20 per share, vesting, subject to Mr. Kramer's continued employment, in three equal installments on each of April 1, 2009, April 1, 2010, and April 1, 2011, also subject to accelerated

vesting as described above. These grants were made by the Compensation Committee pursuant to the terms of Mr. Kramer's Employment Agreement and in an effort to recruit Mr. Kramer to join our company and forego the economic opportunity he had at his former employer.

On March 31, 2009, Mr. Kramer also was granted 675,000 shares of restricted stock pursuant to our 2006 Equity Incentive Plan, vesting, subject to Mr. Kramer's continued employment, in full on March 31, 2013, also subject to accelerated vesting as described above, as required under the terms of Mr. Kramer's employment agreement. The Compensation Committee made this grant to Mr. Kramer due to his stewardship of the significant improvement in our company's balance sheet, including his key planning and leadership role in our company's complex debt refinancings, equity capitalization increase and exit from the Installation Services segment. Mr. Kramer initiated and then successfully led the innovative planning for the rights offering that resulted in our company being in a substantially stronger cash position at a time when credit has tightened. The Compensation Committee consulted with its independent compensation consulting firm, GK Partners, to determine if the size and terms of the award were appropriate. GK Partners advised that, especially considering the performance milestones that the company under Mr. Kramer's stewardship had already achieved, the cost and the size of the award was reasonable. GK Partners also advised that as securing Mr. Kramer's services were a high priority item for the Compensation Committee a cliff vesting period of four years was appropriate.

Effective September 2009, pursuant to the terms of his employment agreement, Douglas J. Wetmore was granted 200,000 shares of restricted stock under our 2006 Equity Incentive Plan vesting in full on September 1, 2013, subject to earlier vesting in full if Mr. Wetmore is terminated without Cause or leaves for Good Reason (as such terms are defined in his Employment Agreement) or, subject to earlier partial accelerated vesting, if Mr. Wetmore is terminated due to death or Disability, in a ratio equal to the number of days worked by Mr. Wetmore from the grant date through such termination date over 1460. The award was made to Mr. Wetmore to recruit him to join the company.

In August 2009, Patrick L. Alesia was granted 25,000 shares of restricted stock under our 2006 Equity Incentive Plan vesting in full on August 6, 2013, subject to earlier vesting in the event of death, disability, or upon certain terminations of employment following a change in control of our company. The Compensation Committee made this grant in consideration of Mr. Alesia's promotion to Chief Administrative Officer. The Compensation Committee believed that the additional grant was of sufficient size, especially in consideration of Mr. Alesia's other items of compensation to reflect the additional responsibilities that Mr. Alesia would be undertaking in light of the promotion. The Committee decided that a four year cliff vesting period would provide sufficient retention of this executive. The Compensation Committee provided a so-called double trigger vesting provision on this award because the Compensation Committee believes such a provision provides executive with incentive during the sale process to remain with the company throughout a potential period of uncertainty presented by a change in control scenario.

On November 18, 2009, the Compensation Committee awarded Mr. Kramer a grant of 200,000 shares of restricted stock. Subject to Mr. Kramer's continued employment with the company, this award of restricted stock will cliff vest in full on November 18, 2013, subject to earlier vesting in the event of death, Disability, a Change in Control of our company or if Mr. Kramer is terminated without Cause or leaves for Good Reason (as such terms are defined in his Employment Agreement). The

Compensation Committee determined to grant this award based on the importance the Compensation Committee ascribes to (i) retaining Mr. Kramer as our Chief Executive Officer, taking into account Mr. Kramer's management skills and performance, including his skill in managing the company's diverse business units and his ability to design and complete complicated financing transactions, such as the company's recent rights offering, and (ii) providing the appropriate levels of share ownership and motivation and alignment with the interests of our shareholders. In this regard, Compensation Committee also determined that long-term equity compensation should be a more significant portion of the chief executive officer's compensation, because, as noted above, such awards provide (a) incentives for Mr. Kramer to remain as our chief executive officer and align his interests with the interests of the company's shareholders and (b) a measure of compensation risk to management in that they require Mr. Kramer to remain with the company for a significant period of time before he vests and effectively subjects Mr. Kramer to the same share value risks to which our shareholders will be subject to during the four-year cliff vesting period.

On November 18, 2009, the Compensation Committee awarded Mr. Wetmore a grant of 15,000 shares of restricted stock. Subject to Mr. Wetmore's continued employment with the company, this award of restricted stock will cliff vest in full on November 18, 2013, subject to earlier vesting in full if Mr. Wetmore is terminated without Cause or leaves for Good Reason (as such terms are defined in his Employment Agreement) or, subject to earlier partial accelerated vesting, if Mr. Wetmore is terminated due to death or Disability, in a ratio equal to the number of days worked by Mr. Wetmore from the grant date through such termination date over 1460. The Compensation Committee determined to grant this award based on a subjective analysis of Mr. Wetmore's leadership and finance skills, cost cutting initiatives and his immediate and improved stewardship of our company's financial department. The Compensation Committee also determined that long-term equity compensation should be a more significant portion of the chief financial officer's compensation, because such awards provide (i) incentives for Mr. Wetmore to remain as our chief financial officer and to align his interests with those of the company's shareholders and (ii) a measure of compensation risk to management in that they require Mr. Wetmore to remain with the company for a significant period of time before he vests and effectively subjects Mr. Wetmore to the same share value risks to which our shareholders will be subject to during the four-year cliff vesting period.

With respect to the vesting period on each of these restricted stock awards, the Compensation Committee determined that the company would benefit from the retention element provided by a four year cliff vesting period with respect to each executive. Additionally, the Compensation Committee determined that cliff vesting, rather than pro-rata annual vesting, would better align the executive's compensation interests with longer-term strategic business strategies and tactics during the critical next four fiscal years, and reduce any motivation to engage in short-term strategies that may increase the company's share price in the near term, but not create the best foundation for maximizing long-term shareholder value.

Retirement, Health and Welfare Benefits and Other Perquisites. Effective October 1, 1996, we adopted the Griffon Corporation Supplemental Executive Retirement Plan (SERP) for certain of our officers. The company adopted and continues to maintain the SERP for its long service employees as

an incentive for both current performance and continued service with our company. Patrick L. Alesia is our only current employee who participates in such plan.

The normal retirement age under the SERP is 72. No benefit is payable unless a participant is vested at the time of termination of employment. A participant's right to receive a benefit vests after 20 years of service and one year of participation in the SERP, or upon a Change of Control (as defined in the SERP).

The SERP provides an annual benefit upon termination equal to the sum of .25% of Average Base Salary and 1.5% of Average Bonus/Incentive Compensation multiplied by completed years of service (up to a maximum of 30). "Average" means the average of the three highest paid years out of the last ten prior to retirement. Benefits are adjusted for early retirement and retirement after the normal retirement date. Retirement benefits are payable for life, with a guarantee of 10 years of payments. In addition, the SERP provides a pre-retirement death benefit payable for 10 years to the participant's beneficiary. Notwithstanding the foregoing, upon a Change in Control (as defined in the SERP), the participant's retirement benefits will be paid in a lump sum.

In addition, our executive officers are entitled to participate in all of our employee benefit plans, including medical, dental, vision, group life, disability, accidental death and dismemberment insurance and 401(k) Retirement Plan and Employee Stock Ownership Plan. We provide vacation and paid holidays to our executive officers. We provide additional medical benefits to our named executive officers pursuant to a secondary health insurance plan that covers items not covered by our primary health insurance plan available to our employees generally. We also provide certain of our executive officers with a leased car or allowance and/or additional life insurance not available to our employees generally. We provide these perquisites to Mr. Kramer and Mr. Wetmore pursuant to the terms of their respective employment agreements and to Mr. Alesia and Mr. Smith as a means to retain their services to our company. See the Summary Compensation Table for details regarding the value of perquisites received by our executive officers.

Employment Agreements

In March 2008, we entered into an employment agreement with Ronald J. Kramer, pursuant to which he became our Chief Executive Officer effective April 1, 2008. Pursuant to the terms of the employment agreement, Mr. Kramer's term of employment with us continues for three years from the date on which either party gives notice that the term of employment will not be further renewed. During the term of employment, Mr. Kramer receives an annual base salary of \$775,000 per annum (increased to \$800,000 commencing December 1, 2008), subject to cost of living and discretionary increases. Under the terms of the agreement, Mr. Kramer is eligible for an annual performance based bonus (at a target of 150% of base salary), and discretionary bonuses as determined by the Compensation Committee. Mr. Kramer is also entitled to receive severance payments upon termination of his employment under certain circumstances, as more fully described below under "Potential Payments Upon Termination or Change in Control." Additionally, in certain circumstances, as more fully described below under "Potential Payments Upon Termination or Change in Control," Mr. Kramer is entitled in certain circumstances to receive a tax gross-up payment to cover any excise tax due under Section 4999 of the Internal Revenue Code. The Compensation Committee determined

that it was appropriate to include this tax gross-up provision in Mr. Kramer's employment agreement as a means of recruiting him to join the company. Although Compensation Committee's general policy is to not provide tax gross-ups, Mr. Kramer received this gross-up in connection with the negotiation to recruit him to join the company. Mr. Kramer received the severance arrangement as an inducement to recruit him to join our company.

Pursuant to the terms of Mr. Kramer's employment agreement, Mr. Kramer received the restricted stock and option grants (other than the restricted stock grants made on March 31, 2009 and November 18, 2009) described above under "Equity Based Compensation."

On August 6, 2009, we entered into an employment agreement with Douglas J. Wetmore, pursuant to which he became our Executive Vice President and Chief Financial Officer effective September 1, 2009. Pursuant to the employment agreement, Mr. Wetmore's initial term of employment will continue until September 1, 2013 and thereafter will automatically renew for successive one-year periods, unless either party provides appropriate notice of non-renewal to the other party. During the term of employment, Mr. Wetmore will receive a base salary of \$500,000 per annum, subject to discretionary increases. Commencing with the 2010 fiscal year, Mr. Wetmore shall be eligible for an annual performance based bonus (at a target of 75% of base salary). Mr. Wetmore shall also be entitled to receive severance payments upon termination of his employment under certain circumstances, as more fully described below under "Potential Payments Upon Termination or Change in Control." Mr. Wetmore received the severance arrangement as an inducement to recruit him to join our company.

Pursuant to the terms of Mr. Wetmore's employment agreement, on September 1, 2009, Mr. Wetmore received a restricted stock grant of 200,000 shares of common stock under the Company's 2006 Equity Incentive Plan, which will vest on September 1, 2013, subject to Mr. Wetmore's continued employment with the company. Notwithstanding the foregoing, the restricted stock grant shall immediately vest in full in the event of termination of Mr. Wetmore's employment without Cause or if he leaves for Good Reason (as such terms are defined in Mr. Wetmore's employment agreement). If we terminate Mr. Wetmore's employment due to disability, a pro-rata portion of the restricted stock grant will vest.

Patrick L. Alesia, our Chief Administrative Officer, Vice President, Treasurer and Secretary, and Franklin H. Smith, our former Executive Vice President, are not bound by an employment agreement with us, but during fiscal 2009 each has a severance agreement, which provides severance in the event that the executive is terminated under certain circumstances within 24 months of a change in control. The severance agreements are subject to automatic renewal unless a party gives 120 days prior written notice to the other of non-renewal; notwithstanding the foregoing, the severance agreements shall not terminate if a change in control occurs during the term of the severance agreements. During the term of their severance agreements, the executives have agreed to continue to perform their regular respective duties as an executive of our company.

These severance agreements, entered into in July 2006, provide that if, within 24 months of a change in control (as defined in the severance agreements and summarized below) of our company, the executive's employment with us is terminated by us without Cause or by the executive for Good Reason

(as such terms are defined in the severance agreements), then the executive will be entitled to, among other things, a lump sum payment of 2.5 times his base salary plus the average of the bonuses received by the executive in the prior three fiscal years. If any payments or benefits payable to the executive would be subject to the excise tax under Section 280G of the Internal Revenue Code, then such portion of the executive's payments would be forfeited so that no such excise tax would be incurred. All benefits payable under the severance agreements will be subject to the six-month payment delay under Section 409A of the Internal Revenue Code, if applicable at the time of payment. Each executive has agreed to a non-competition provision that extends for 24 months post-termination. Change in control is defined in the severance agreements to include, among other things, the acquisition by a person or entity of more than 30% of the voting securities of our company, the current Board of Directors no longer constituting a majority of the Board (directors approved by $\frac{2}{3}$ of the Board will be considered a part of the current Board), and certain merger or sale of assets transactions.

Due to Mr. Smith's resignation on October 9, 2009, Mr. Smith is no longer entitled to benefits under his severance agreement. Effective as of November 7, 2009, we entered into a separation agreement with Mr. Smith.

Pursuant to the terms of the negotiated separation agreement, Mr. Smith will receive a severance payment in the amount of \$475,000, which represents twelve months of his fiscal 2009 base salary, payable in two equal lump sum amounts, a one-time lump sum amount of \$200,000 payable on or before May 15, 2010 and a payment of \$85,000 representing his bonus for fiscal 2009, payable in accordance with our normal payroll practices for bonuses. We have also agreed to pay on Mr. Smith's behalf the premiums for medical coverage under COBRA for a period of up to eighteen months and reimbursement for up to \$15,000 in legal fees in connection with the review and negotiation of the separation agreement.

The separation agreement provides that Mr. Smith shall retain all vested stock options and shares of restricted stock held by him, subject to the terms and conditions of the applicable plans and any agreements covering such securities.

Tax and Accounting Implications

Internal Revenue Code Section 162(m) prevents publicly traded companies from receiving a tax deduction on certain compensation in excess of \$1,000,000 for each executive officer in any taxable year. Compensation that is "performance-based" under the Internal Revenue Code's definition is exempt from this limit.

The Compensation Committee does not believe that there will be any non-deductible compensation for calendar year 2009 based upon allowances under Section 162(m) or otherwise. Our policy with respect to qualifying compensation paid to our executive officers for tax deductibility purposes is that executive compensation plans will generally be designed and implemented to maximize tax deductibility. However, non-deductible compensation may still be paid to executive officers in circumstances, when necessary for competitive reasons or to attract or retain a key executive, or in situations where achieving maximum tax deductibility may not be in the best overall interest of our company.

Edgar Filing: GRIFFON CORP - Form DEF 14A

Additionally, as stated above the Compensation Committee believes that each executive should be responsible for the taxes payable with respect to such individual's compensation. Accordingly, except in the circumstances described above, the Compensation Committee has established a general policy against providing tax gross-ups to executives.

Based on such review and discussion, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2009.

- (1) The base salary component of any severance due to Mr. Kramer upon termination of employment will be paid in 12 equal monthly installments, unless Mr. Kramer's assumed termination date occurs after a Change in Control, in which case this payment will be made in lump sum.
- (2) The value set forth herein is calculated based on the highest bonus paid to Mr. Kramer over the three year period prior to the assumed termination date. If Mr. Kramer's \$3,000,000 bonus awarded after September 30, 2009 were used in the calculation, the bonus component amount that Mr. Kramer would be entitled to in the event of a Resignation for Good Reason or Termination by Company Without Cause Prior to or After a Change in Control would be \$9,000,000 and the bonus component amount that Mr. Kramer would be entitled to in the event of a Termination Due to Disability would be \$3,000,000. The bonus component of any severance due to Mr. Kramer upon termination of employment will be paid in 12 equal monthly installments, unless Mr. Kramer's assumed termination date occurs after a Change in Control, in which case this payment will be made in lump sum.
- (3) Although Mr. Kramer would receive full vesting on his unvested option grant upon any of the terminations listed above, the strike price of the option was set a premium to market value on the date of grant and exceeds closing value of the Company's common stock as of the end of the fiscal year. Accordingly, the accelerated vesting has no intrinsic value.

- (4) Assumes full acceleration of any underlying unvested restricted stock and calculated based on a value of \$10.07 per share, the closing value of the Company's common stock as of the end of the fiscal year.
- (5) The value of such benefits are determined based on the estimated cost of providing health benefits to Mr. Kramer and his eligible dependents for 18 months after Mr. Kramer's termination of employment.
- (6) If Mr. Kramer's benefits and payments upon a change in control are no more than 10% greater than the threshold under which no such excise tax would be payable under section 280G of the Code, then Mr. Kramer's benefits and payments would be subject to cutback to eliminate any excise tax payable under section 280G of the Code. If Mr. Kramer's benefits and payments upon a change in control exceeds by more than 10% the threshold under which no such excise tax would be payable under section 280G of the Code, Mr. Kramer's benefits would be grossed-up for any excise tax payable thereunder. Moreover, Mr. Kramer's entitlement to any gross-up payments is not perpetual but instead will expire on the fourth anniversary of his commencement of employment as the company's chief executive officer. Accordingly, he will no longer be entitled to a gross-up if a change in control occurs after April 1, 2012.

Edgar Filing: GRIFFON CORP - Form DEF 14A

- (5) The value set forth herein is calculated based on the average of the three bonuses Mr. Wetmore received in the three years prior to his assumed termination date (but using his target bonus until a performance bonus is paid). This payment will be made in lump sum.
- (6) Upon a termination due to disability, Mr. Wetmore will receive accelerated vesting of his award in a ratio equal to the number of days worked by Mr. Wetmore through his assumed termination date (September 30, 2009) over 1460.
- (7) Assumes full acceleration of any underlying unvested restricted stock and calculated based on a value of \$10.07 per share, the closing value of the Company's common stock as of the end of the fiscal year.
- (8) The value of these benefits are determined based on the estimated cost of providing health benefits to Mr. Wetmore and his eligible dependents for six months following his termination of employment.
- (9) The value of these benefits are determined based on the estimated cost of providing health benefits to Mr. Wetmore and his eligible dependents for eighteen months following his termination of employment.
- (10) Mr. Wetmore is eligible to receive continuation coverage until the earlier of the end of the calendar year following the second year after termination of employment or until he commences employment with another employer. The company will continue to provide the employer portion, which the company would generally pay to similarly situated employees until the end of such period.
- (11) Mr. Wetmore's benefits and payments are subject to a modified cutback to eliminate any excise tax payable under section 280G of the Code if the net-after tax amount (taking into account all applicable taxes payable by Mr. Wetmore) that Mr. Wetmore would receive with respect to such payments or benefits does not exceed the net-after tax amount Mr. Wetmore would receive if the amount of such payment and benefits were reduced to the maximum amount which could otherwise be payable to Wetmore without the imposition of the excise tax. In respect of a termination occurring as of September 20, 2009, Mr. Wetmore receives a greater benefit by paying the excise tax. Accordingly, no cut-back would be imposed.

As required by its written charter, which sets forth its responsibilities and duties, the Audit Committee reviewed and discussed our audited financial statements as of and for the year ended September 30, 2009 with management.

The Audit Committee reviewed and discussed with representatives of Grant Thornton LLP, our independent registered public accounting firm, the matters required to be discussed by the Statement on Auditing Standards No. 114 (Codification of Statements on Auditing Standards, AU §380), which supersedes Statement on Auditing Standards No. 61. The Audit Committee has also received and reviewed the written disclosures and the letter from Grant Thornton LLP required by applicable requirements of the PCAOB regarding Grant Thornton LLP's communications with the Audit Committee concerning independence, and has discussed with Grant Thornton LLP its independence.

Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that the financial statements referred to above be included in our Annual Report on Form 10-K for the year ended September 30, 2009 for filing with the Securities and Exchange Commission.

The Audit Committee has also reviewed and discussed the fees paid to Grant Thornton LLP during the last fiscal year for audit and non-audit services, which are set forth below under "Audit and Related Fees" and has considered whether the provision of the non-audit services is compatible with maintaining Grant Thornton LLP's independence and concluded that it is.

FINANCIAL STATEMENTS

A copy of our Annual Report to Stockholders, including financial statements, for the fiscal year ended September 30, 2009 has been provided to all stockholders as of the Record Date. Stockholders are referred to the report for financial and other information about us, but such report is not incorporated in this proxy statement and is not a part of the proxy soliciting material.

MISCELLANEOUS INFORMATION

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act, as amended, requires our executive officers, directors and persons who own more than ten percent of a registered class of our equity securities ("Reporting Persons") to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission and the New York Stock Exchange. These Reporting Persons are required by SEC regulation to furnish us with copies of all Forms 3, 4 and 5 they file with the SEC and The New York Stock Exchange. Based solely upon our review of the copies of the forms we have received, we believe that all Reporting Persons complied on a timely basis with all filing requirements applicable to them with respect to transactions during fiscal 2009.

Matters to be Considered at the Meeting

The Board of Directors does not intend to present to the meeting any matters not referred to in the form of proxy. If any proposal not set forth in this Proxy Statement should be presented for action at the meeting, and is a matter which should come before the meeting, it is intended that the shares represented by proxies will be voted with respect to such matters in accordance with the judgment of the persons voting them.

Cost of Solicitation

The cost of soliciting proxies in the accompanying form, which we estimate to be \$70,000, will be paid by us. In addition to solicitations by mail, arrangements may be made with brokerage houses and other custodians, nominees and fiduciaries to send proxy material to their principals, and we may reimburse them for their expenses in so doing. To the extent necessary in order to assure sufficient representation, our officers and regular employees may request the return of proxies personally, by telephone or telegram. The extent to which this will be necessary depends entirely upon how promptly proxies are received, and stockholders are urged to submit their proxies without delay.

Deadline for Submission of Stockholder Proposals for the 2011 Annual Meeting

Proposals of stockholders intended to be presented at the 2011 Annual Meeting of Stockholders pursuant to SEC Rule 14a-8 must be received at our principal office not later than August 23, 2010 to be included in the proxy statement for that meeting.

In addition, our by-laws require that we be given advance notice of stockholder nominations for election to the Board of Directors and of other matters which stockholders wish to present for action

at an annual meeting of stockholders. The required notice must be delivered to the Secretary of the company at our principal offices not less than 90 days and not more than 120 days prior to the anniversary date of the immediately preceding annual meeting of stockholders. These requirements are separate from and in addition to the SEC requirements that a stockholder must meet in order to have a stockholder proposal included in our proxy statement.

Pursuant to our by-laws, if notice of any stockholder proposal is received after November 6, 2010, then the notice will be considered untimely and we are not required to present such proposal at the 2011 Annual Meeting. If the Board of Directors chooses to present a proposal submitted after November 6, 2010 at the 2011 Annual Meeting, then the persons named in proxies solicited by the Board of Directors for the 2011 Annual Meeting may exercise discretionary voting power with respect to such proposal.

We will provide without charge to any stockholder as of the record date copies of our Annual Report on Form 10-K, Corporate Governance Guidelines, Code of Ethics, Code of Business Ethics and charters of any committee of the Board of Directors upon written request delivered to Patrick L. Alesia, Secretary, at our offices at 712 Fifth Avenue, 18th Floor, New York, New York 10019. These materials may also be found on our website at www.griffoncorp.com.
