ITEM 1. MANAGEMENT REPORT ON THE INTERIM
FINANCIAL RESULTS AS OF JUNE 30, 2013
(UNAUDITED)

The following should be read in connection with the disclosure contained in the consolidated financial statements as of December 31, 2012, which includes a discussion of risks and uncertainties that can influence the Group's operational results or financial position. During the first six months of 2013, there were no changes to the risks reported as of December 31, 2012.

1. OPERATING PERFORMANCE FOR THE THREE- AND SIX-MONTH PERIODS ENDED JUNE 30, 2013

The Group's solid growth continued throughout the first half of 2013 with a new record for net sales in second quarter of 2013 of Euro 2,017.6 million (+7.2 percent at current exchange rates and +9.4 percent at constant exchange rates⁽¹⁾), an increase from the Euro 1,882.2 million in the same three-month period of 2012. By carefully controlling working capital, the Group generated positive free cash flow⁽⁶⁾ in both the first six months of the year (Euro 204 million) and the second quarter (Euro 200 million). After the payment of dividends of approximately Euro 274 million, net debt as of June 30, 2013 was Euro 1,886.2 million (Euro 1,662.4 million at the end of 2012), with the ratio of net debt to adjusted EBITDA⁽⁷⁾ of 1.3x (1.2x as of December 31, 2012).

2. SIGNIFICANT EVENTS DURING THE SIX MONTHS ENDED JUNE 30, 2013

January

On January 23, 2013, the Company closed the acquisition of Alain Mikli International, a French luxury and contemporary eyewear company. Net sales generated by Alain Mikli International in 2012 were approximately Euro 55.5 million. The purchase price paid in the first quarter of 2013, including the assumption of approximately Euro 15 million of Alain Mikli's debt, totaled Euro 91 million, excluding advance payments made in 2012 and receivables from Alain Mikli.

March

On November 27, 2012, the Company entered into an agreement with Salmoiraghi & Viganò S.p.A. and Salmoiraghi & Viganò Holding S.r.l. pursuant to which Luxottica subscribed to shares as part of a capital injection, corresponding to a 36.33% equity stake in the Italian optical retailer. The transaction is valued at Euro 45 million and was completed on March 25, 2013. As a result of this transaction, the Group became a financial partner of Salmoiraghi & Viganò S.p.A.

In March 2013, Standard & Poor's confirmed its long-term credit rating of BBB+ and revised its outlook on the Group from stable to positive.

April

On April 25, 2013, we acquired the sun business of Grupo Devlyn S.A.P.I. de C.V. through one of our wholly-owned subsidiaries. See "Note 4 Business Combinations" in the accompanying Notes to the Condensed Consolidated Financial Statements for additional information on this transaction.

At the Stockholders' Meeting on April 29, 2013, Group's stockholders approved the Statutory Financial Statements as of December 31, 2012, as proposed by the Board of Directors and the distribution of a cash dividend of Euro 0.58 per ordinary share. The aggregate dividend amount of Euro 274.0 million was fully paid in May 2013.

3. FINANCIAL RESULTS

We are a global leader in the design, manufacture and distribution of fashion, luxury and sport eyewear, with net sales reaching Euro 7.1 billion in 2012, over 70,000 employees and a strong global presence. We operate in two industry segments: (i) manufacturing and wholesale distribution; and

(ii) retail distribution. See Note 5 to the Condensed Consolidated Financial Report as of June 30, 2013 (unaudited) for additional disclosures about our operating segments. Through our manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of proprietary and designer lines of mid- to premium-priced prescription frames and sunglasses. We operate our retail distribution segment principally through our retail brands, which include, among others, LensCrafters, Sunglass Hut, OPSM, Laubman & Pank, Bright Eyes, Oakley "O" Stores and Vaults, David Clulow, GMO and our Licensed Brands (Sears Optical and Target Optical).

As a result of our numerous acquisitions and the subsequent expansion of our business activities in the United States through these acquisitions, our results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated to an average exchange rate of Euro 1.00 = U.S. \$1.3129 in the first six months of 2013 from Euro 1.00 = U.S. \$1.2965 in the same period of 2012. With the acquisition of OPSM, our results of operations have also been rendered susceptible to currency fluctuations between the Euro and the Australian dollar. Additionally, we incur part of our manufacturing costs in Chinese Yuan; therefore, the fluctuation of the Chinese Yuan relative to other currencies in which we receive revenues could impact the demand of our products or our consolidated profitability. Although we engage in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted our reported revenues and expenses during the periods discussed herein. This discussion should be read in conjunction with the risk factor discussion in Section 8 of the Management Report included with the 2012 Consolidated Financial Statements.

Starting from January 1, 2013 the Group adopted IAS 19 revised "Employee benefits", which requires retrospective application. Accordingly, the 2012 comparative information has been restated based on the new standard. As a result income from operations and net income attributable to Luxottica Stockholders decreased by Euro 5.9 million and Euro 3.6 million, respectively.

In the first six months of 2013, the Group incurred non-recurring expenses of Euro 9 million (Euro 5.9 million net of the tax effect) related to the reorganization of the newly acquired Alain Mikli business. In the same period of 2012, the Group recognized non-recurring expenses of Euro 21.4 million (Euro 15.0 million net of the tax effect) related to the restructuring of the Australian retail business.

| Adjusted Measures ⁽⁸⁾ | 2013 | % of net sales | 2012 | % of net sales | % change |
|------------------------------------------------------------------|---------|-------------------|---------|-------------------|-------------|
| Adjusted income from Operations | 645,491 | 16.6% | 584,680 | 15.9% | 10.4% |
| Adjusted EBITDA | 828,059 | 21.3% | 755,327 | 20.6% | 9.6% |
| Adjusted Net Income attributable to Luxottica Group Stockholders | 377,101 | 9.7% | 337,695 | 9.2% | 11.7% |

Net Sales. Net sales increased by Euro 211.3 million, or 5.8 percent, to Euro 3,881.7 million in the first six months of 2013 from Euro 3,670.4 million in the same period of 2012. Euro 146.0 million of such increase was attributable to the increased sales in the manufacturing and wholesale distribution segment in the first six months of 2013 as compared to the same period in 2012 and to increased sales in the retail distribution segment of Euro 65.3 million for the same period.

Net sales for the retail distribution segment increased by Euro 65.3 million, or 3.0 percent, to Euro 2,220.7 million in the first six months of 2013 from Euro 2,155.4 million in the same period in 2012. The increase in net sales for the period was partially attributable to a 4.0 percent improvement in comparable store sales⁽⁹⁾. In particular, we saw a 3.1 percent increase in comparable store sales for the North American retail operations, and an increase for the Australian/New Zealand retail operations of 8.3 percent. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the weakening of the U.S. dollar and Australian dollar compared to the Euro, decreased net sales in the retail distribution segment by Euro 35.7 million during the period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 146.0 million, or 9.6 percent, to Euro 1,661.0 million in the first six months of 2013 from Euro 1,515.0 million in the same period in 2012. This growth was mainly attributable to increased sales of most of our proprietary brands, in particular Ray-Ban and Oakley and of some licensed brands such as Miu Miu and Tiffany. Almost all of the primary geographic markets in which the Group operates recorded an increase in net sales. These positive effects were partially offset by negative currency fluctuations, in particular the weakening of the U.S. Dollar and other currencies including but not limited to the Australian Dollar, Japanese Yen and the Brazilian Real, despite the strengthening of the Chinese Renminbi and the Mexican Peso, the net effect of which was to decrease net sales to third parties in the manufacturing and wholesale distribution segment by Euro 30.8 million.

In the first six months of 2013, net sales in the retail distribution segment accounted for approximately 57.2 percent of total net sales, as compared to approximately 58.7 percent of total net sales for the same period in 2012.

In the first six months of 2013, net sales in our retail distribution segment in the United States and Canada comprised 78.4 percent of our total net sales in this segment as compared to 79.3 percent of our

total net sales in the same period of 2012. In U.S. dollars, retail net sales in the United States and Canada increased by 3.2 percent to USD 2,286.8 million in the first six months of 2013 from USD 2,214.9 million for the same period in 2012. During the first six months of 2013, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 21.6 percent of our total net sales in the retail distribution segment and increased by 7.1 percent to Euro 478.9 million in the first six months of 2013 from Euro 446.9 million, or 20.7 percent of our total net sales in the retail distribution segment for the same period in 2012. This increase was primarily due to sales from new stores which were acquired by the Company in the third quarter of 2012 and in the first quarter of 2013.

In the first six months of 2013, net sales to third parties in our manufacturing and wholesale distribution segment in Europe increased by Euro 44.2 million to Euro 735.7 million, comprising 44.3 percent of our total net sales in this segment, compared to Euro 691.5 million, or 45.6 percent of total net sales in the segment, for the same period in 2012. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were USD 555.7 million and comprised 25.5 percent of our total net sales in this segment for the first six months of 2013, compared to USD 511.0 million, or 26.0 percent of total net sales in the segment, for the same period of 2012. The increase in net sales in the United States and Canada was primarily due to a general increase in consumer demand. In the first six months of 2013, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 502.1 million, comprising 30.2 percent of our total net sales in this segment, compared to Euro 429.4 million, or 28.3 percent of our net sales in this segment, in the same period of 2012. The increase of Euro 72.7 million, or 16.9 percent, in the first six months of 2013 as compared to the same period of 2012, was due to an increase in consumer demand.

Cost of Sales. Cost of sales increased by Euro 64.4 million, or 5.2 percent, to Euro 1,293.4 million in the first six months of 2013 from Euro 1,229.0 million in the same period of 2012, including the non-recurring expense of Euro 1.3 million related to the reorganization of the retail business in Australia. As a percentage of net sales, cost of sales decreased to 33.3 percent in the first six months of 2013 as compared to 33.5 percent in the same period of 2012. In the first six months of 2013, the average number of frames produced daily in our facilities increased to approximately 305,100 as compared to approximately 283,400 in the same period of 2012, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 147.0 million, or 6.0 percent, to Euro 2,588.3 million in the first six months of 2013 from Euro 2,441.3 million for the same period of 2012. As a percentage of net sales, gross profit increased to 66.7 percent in the first six months of 2013 as compared to 66.5 percent for the same period of 2012, due to the factors noted above.

Operating Expenses. Total operating expenses increased by Euro 73.8 million, or 3.9 percent, to Euro 1,951.8 million in the first six months of 2013 from Euro 1,878.1 million in the same period of 2012. As a percentage of net sales, operating expenses decreased to 50.3 percent in the first six months of 2013, from 51.2 percent in the same period of 2012.

Adjusted operating expenses⁽¹⁰⁾ in the first six months of 2013, excluding non-recurring expenses related to the reorganization of the newly acquired Alain Mikli business amounting to approximately Euro 9.0 million, were Euro 1,942.8 million. As a percentage of net sales, adjusted operating expenses⁽¹⁰⁾ equaled 50.1 percent.

Adjusted operating expenses⁽¹⁰⁾ in the first six months of 2012, excluding non-recurring expenses related to the reorganization of the retail business in Australia amounting to approximately Euro 20.1 million, were Euro 1,858.0 million. As a percentage of net sales, adjusted operating expenses equaled 50.6 percent.

segment in the three months ended June 30, 2013 as compared to the same period in 2012 and to increased sales in the retail distribution segment of Euro 43.6 million for the same period.

Net sales for the retail distribution segment increased by Euro 43.6 million, or 4.0 percent, to Euro 1,137.6 million in the three months ended June 30, 2013 from Euro 1,094.0 million in the same period in 2012. The increase in net sales for the period was partially attributable to a 4.4 percent improvement in comparable store sales⁽¹⁸⁾. In particular, we saw a 3.3 percent increase in comparable store sales for the North American retail operations, and an increase for the Australian/New Zealand retail operations of 6.9 percent. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the weakening of the U.S. dollar and Australian dollar compared to the Euro, decreased net sales in the retail distribution segment by Euro 25.0 million during the period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 91.8 million, or 11.6 percent, to Euro 880.0 million in the three months ended June 30, 2013 from Euro 788.2 million in the same period in 2012. This growth was mainly attributable to increased sales of most of our proprietary brands, in particular Ray-Ban and Oakley and of some licensed brands such as Miu Miu and Tiffany. Almost all of the primary geographic markets in which the Group operates recorded an increase in net sales. These positive effects were partially offset by negative currency fluctuations, in particular the weakening of the U.S. Dollar and other currencies including but not limited to the Japanese Yen and the Australian Dollar, the effect of which was to decrease net sales to third parties in the manufacturing and wholesale distribution segment by Euro 17.4 million.

In the three months ended June 30, 2013, net sales in the retail distribution segment accounted for approximately 56.4 percent of total net sales, as compared to approximately 58.1 percent of total net sales for the same period in 2012.

In the three months ended June 30, 2013, net sales in our retail distribution segment in the United States and Canada comprised 78.7 percent of our total net sales in this segment as compared to 80.0 percent of our total net sales in the same period of 2012. In U.S. dollars, retail net sales in the United States and Canada increased by 4.2 percent to USD 1,169.9 million in the three months ended June 30, 2013 from USD 1,122.7 million for the same period in 2012. During the three months ended June 30, 2013, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 21.3 percent of our total net sales in the retail distribution segment and increased by 10.6 percent to Euro 241.9 million in the three months ended June 30, 2013 from Euro 218.7 million, or 20.0 percent of our total net sales in the retail distribution segment for the same period in 2012.

In the three months ended June 30, 2013, net sales to third parties in our manufacturing and wholesale distribution segment in Europe increased by Euro 38.6 million to Euro 401.1 million, comprising 45.6 percent of our total net sales in this segment, compared to Euro 362.5 million of total net sales in the segment, for the same period in 2012. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were USD 285.5 million and comprised 24.8 percent of our total net sales in this segment for the three months ended June 30, 2013, compared to USD 263.8 million, or 26.1 percent of total net sales in the segment, for the same period of 2012. In the three months ended June 30, 2013, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world increased by Euro 40.1 million, or 18.2 percent, in the three months ended June 30, 2013 as compared to the same period of 2012, to Euro 260.3 million, comprising 29.6 percent of our total net sales in this segment, compared to Euro 220.2 million, or 27.9 percent of our net sales in this segment, in the same period of 2012.

(18) Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Cash used in accounts receivable was Euro 269.1 million in the first six months of 2013, compared to Euro 229.2 million in the same period of 2012. Cash used in inventory was Euro 6.9 million in the first six months of 2013 as compared to Euro 30.5 million in the same period of 2012. Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

In the first six months of 2013, non-current assets increased by Euro 96.3 million, due to increases in intangible assets (including goodwill) of Euro 54.0 million, investments of Euro 44.2 million, other assets of Euro 7.5 million, deferred tax assets of Euro 6.4 million and partially offset by decreases in property, plant and equipment of Euro 15.8 million.

The increase in intangible assets was due to capitalized software and other intangible asset additions of Euro 54.0 million and Euro 96.4 million related to the acquisitions that occurred in the first six months of 2013 and were partially offset by the amortization for the period of Euro 76.4 million and by the negative effects of foreign currency fluctuations from December 2012 to June 2013 of Euro 30.5 million.

The increase in investment is due to the acquisition on March 25, 2013 of 36.33% of the share capital of Salmoiraghi and Viganò for Euro 45.0 million.

The decrease in property, plant and equipment was due to the addition of Euro 102.3 million and Euro 4.5 million related to acquisitions made in the first six months of 2013 which were more than offset by depreciation and the disposals for the period of Euro 106.1 million and Euro 7.8 million, respectively, and by negative currency fluctuation effects of Euro 5.7 million,

As of June 30, 2013 as compared to December 31, 2012:

Accounts receivable increased by Euro 263.9 million, primarily due to (i) the increase in net sales during the first six months of 2013 and (ii) seasonality of the Group's business which is generally characterized by higher sales in the first half of the year and collection of the related receivables in the second half of the year;

Inventory increased by Euro 17.2 million of which approximately Euro 13.4 million was due to the acquisition of Alain Mikli International;

Other non-current assets increased by Euro 29.0 million which was mainly due to advance payments made in the first quarter of 2013 for future contracted royalties as well as to an increase in VAT receivables of the Group's Italian companies;

Current taxes payable increased by Euro 26.9 million primarily due to the timing of tax payments made by the Group in various jurisdictions;

Short-term provision for risks and other charges increased by Euro 22.9 million primarily due to provisions for licensing and advertising expenses required by existing license agreements and to the restructuring of the newly acquired Alain Mikli business;

Employee benefits decreased by Euro 72.9 million which was primarily due to an increase in the discount rate used to determine employee benefit liabilities.

Our net financial position as of June 30, 2013 and December 31, 2012 was as follows:

NON-IFRS MEASURES

Adjusted measures

We use in this Management Report certain performance measures that are not in accordance with IFRS. Such non-IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IFRS measures are explained in detail and reconciled to their most comparable IFRS measures below.

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events.

We have made such adjustments to the following measures: operating income and operating margin, EBITDA, EBITDA margin, net income and earnings per share by excluding in the three-month and six-month periods ended June 30, 2013 non-recurring costs related to the reorganization of the newly acquired Alain Mikli business of Euro 9.0 million (Euro 5.9 million net of tax) and in the first six months of

Table of Contents

2012 non-recurring costs related to the reorganization of the retail business in Australia of Euro 21.4 million (Euro 15.0 million net of taxes). We have also made adjustments to selling expenses and general and administrative expenses for these items in Item 3 of the Management Report for the six month period ended June 30, 2013. No adjustments were made to the above measures in first quarter of 2013.

The Group believes that these adjusted measures are useful to both management and investors in evaluating the Group's operating performance compared with that of other companies in its industry because they exclude the impact of non-recurring items that are not relevant to the Group's operating performance.

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS). We include these adjusted comparisons in this presentation in order to provide a supplemental view of operations that excludes items that are unusual, infrequent or unrelated to our ongoing core operations.

See the tables below for a reconciliation of the adjusted measures discussed above to their most directly comparable IFRS financial measures or, in the case of adjusted EBITDA, to EBITDA, which is also a non-IFRS measure. For a reconciliation of EBITDA to its most directly comparable IFRS measure, see the pages following the tables below:

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before non-controlling interest, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared with that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not measures of performance under IFRS. We include them in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Group's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Group's cost of debt;

ensure that these measures are fully understood in light of how the Group evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and amortization expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage. The following table provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure, as well as the calculation of EBITDA margin on net sales:

- (2) non-recurring OPSM reorganization costs with an approximately Euro 21 million impact on operating income and an approximately Euro 15 million adjustment to net income.
- (3)
 - (a) non-recurring OPSM reorganization costs with an approximately Euro 22 million impact on operating income and an approximately Euro 15 million adjustment to net income; and
 - (b) non-recurring accrual for the tax audit relating to Luxottica S.r.l. (fiscal year 2007) of approximately Euro 10 million.

Free Cash Flow

Free cash flow represents net income before non controlling interests, taxes, other income/expense, depreciation and amortization (i.e., EBITDA) plus or minus the decrease/(increase) in working capital over the period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. We believe that free cash flow is useful to both management and investors in evaluating our operating performance compared with other companies in our industry. In particular, our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Free cash flow is not a measure of performance under IFRS. We include it in this Management Report in order to:

Improve transparency for investors;

Assist investors in their assessment of our operating performance and our ability to generate cash from operations in excess of our cash expenses;

Ensure that this measure is fully understood in light of how we evaluate our operating results;

Properly define the metrics used and confirm their calculation; and

Share this measure with all investors at the same time.

Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, this non-IFRS measure should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that this measure is not a defined term under IFRS and its definition should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;

Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and

Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure:

Net debt to EBITDA ratio

Net debt represents the sum of bank overdrafts, the current portion of long-term debt and long-term debt, less cash. EBITDA represents net income before non-controlling interest, taxes, other income/expense, depreciation and amortization. The Group believes that EBITDA is useful to both management and investors in evaluating the Group's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. The ratio of net debt to EBITDA is a measure used by management to assess the Group's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and the ratio of net debt to EBITDA are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

We include them in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Group's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Group's cost of debt;

ensure that these measures are fully understood in light of how the Group evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and the ratio of net debt to EBITDA are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Group recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and amortization expense may have material limitations;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss; and

The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. For a reconciliation of EBITDA to its most directly comparable IFRS measure, see the table on the earlier page.

The principles and standards used in the preparation of this unaudited Financial Report are consistent with those used in preparing the audited consolidated financial statements as of December 31, 2012, except as described in Note 3 "New Accounting Principles," and taxes on income which are accrued using the tax rate that would be applicable to projected total annual profit.

This Financial Report has been prepared on a going concern basis. Management believes that there are no indicators that may cast significant doubt upon the Group's ability to continue as a going concern, in particular, over the next twelve months.

This Financial Report is composed of the consolidated statements of financial position, the consolidated statements of income, the consolidated statements of comprehensive income, the

consolidated statements of changes in equity, the consolidated statements of cash flows and Notes to the Condensed Consolidated Financial Statements as of June 30, 2013.

The Group also applied the CONSOB resolution n. 15519 of July 27, 2006 and the CONSOB communication n. 6064293 of July 28, 2006.

The preparation of this report required management to use estimates and assumptions that affected the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, and the actuarial calculations necessary to calculate certain employee benefits liabilities, are generally carried out only when the audited consolidated financial statements for the fiscal year are prepared, unless there are indicators which require updates to estimates.

3. NEW ACCOUNTING PRINCIPLES

New and amended accounting standards and interpretations must be adopted in the first interim financial statements issued after the applicable effective date.

Amendments and interpretations of existing principles which are effective for reporting periods beginning on January 1, 2013

Amendments to IAS 19 "Employee benefits." The amendments to the standard requires that the expense for a funded benefit plan include net interest expense or income, calculated by applying the discount rate to the net defined benefit asset or liability. Furthermore actuarial gains and losses are recognized immediately in 'other comprehensive income' (OCI) and will not be recycled to profit and loss in subsequent periods.

The amendments, endorsed by the European Community in 2012, are applied retrospectively to all periods presented.

As a result of the application of this new standard (i) income from operations and net income attributable to Luxottica stockholders decreased by Euro 5.9 million and Euro 3.6 million, respectively, in the first six months of 2012 and (ii) net income attributable to Luxottica stockholders decreased by Euro 7.3 million in the twelve month period ended December 31, 2012.

Amendments to IAS 1 "Financial statements presentation regarding other comprehensive income." The amendments require separate presentation of items of other comprehensive income that are reclassified subsequently to profit or loss (recyclable) and those that are not reclassified to profit or loss (non-recyclable). The amendments do not change the existing option to present an entity's performance in two statements; and do not address the content of performance statements. The amendments were endorsed by the European Community in 2012. The new presentation requirements have been applied to all periods presented.

IFRS 13 "Fair value measurements." The standard provides a precise definition of fair value and a single source of fair value measurement. The requirements do not extend the use of fair value accounting

but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRS. The standard, published by the IASB in May 2012, was endorsed by the European Union in December 2012. The standard had no significant impact on the consolidated financial statements of the Group as the methodologies to calculate the fair value introduced by the new standard do not differ from those already used by the Group.

Amendments to IFRS 7 "Financial Instruments: Disclosures on offsetting financial assets and financial liabilities." The amendments enhance current offsetting disclosures in order to facilitate the comparison between those entities that prepare IFRS financial statements and those that prepare financial statements in accordance with generally accepted accounting principles in the United States (US GAAP). The standard, published by the IASB in December 2011, was endorsed by the European Union in December 2012. The standard had no significant impact on the consolidated financial statements of the Group.

Amendments to IFRS 1 "First time adoption on government loans." The amendments address how first-time adopters would account for government loans with a below-market rate of interest when transitioning to IFRS. The amendments, endorsed by the European Union in March 2013, had no impact on the consolidated financial statements of the Group.

On May 17, 2012 the IASB issued the following IFRS amendments, which had no significant impact on consolidated financial statements of the Group. The amendments were endorsed by the European Union in March 2013.

IFRS 1 "First time adoption."

IAS 1 "Financial statement presentation."

IAS 16 "Property, plant and equipment."

IAS 32 "Financial instruments: Presentation."

IAS 34 "Interim financial reporting."

Amendments and interpretations of existing principles which are effective for reporting periods beginning after January 1, 2013 and not early adopted by the Group.

IFRS 9 "Financial instruments." The standard is the first step in the process to replace IAS 39 *Financial instruments: recognition and measurement*. IFRS 9 introduces new requirements for classifying and measuring financial assets. The new standard reduces the number of categories of financial assets pursuant to IAS 39 and requires that all financial assets be: (i) classified on the basis of the model which a company has adopted in order to manage its financial activities and on the basis of the cash flows from financing activities; (ii) initially measured at fair value plus any transaction costs in the case of financial assets not measured at fair value through profit and loss; and (iii) subsequently measured at their fair value or at the amortized cost. IFRS 9 also provides that embedded derivatives which fall within the scope of IFRS 9 must no longer be separated from the primary contract which contains them and states that a company may decide to directly record within the consolidated statement of comprehensive income any changes in the fair value of investments which fall within the scope of IFRS 9. The standard is effective for annual period beginning on or after January 1, 2015 and has not yet been endorsed by the European Union as of the date of this Financial Report. The Group is assessing the full impact of adopting IFRS 9.

IFRS 10 "Consolidated financial statements." The standard builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements. The Standard provides additional guidance to assist in determining control. The standard, published in May 2011, was endorsed by the European Union in December 2012 and is effective for the annual period beginning no later than January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

IFRS 11 "Joint ventures." The standard focuses on the rights and obligations of the arrangement, rather than on its legal form. There are two types of joint arrangements. Joint operations arise where the joint operators have rights and obligations related to the arrangements. Joint ventures arise where the joint operators have rights to the net assets of the arrangement. The standard builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements. The Standard provides additional guidance to assist in determining control. Proportionate consolidation is no longer allowed. The standard, published in May 2011, was endorsed by the European Union in December 2012 and is effective for the annual period beginning no later than January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

IFRS 12 "Disclosures of interests in other entities." The standard includes disclosure requirements for all forms of interests in other entities. The standard, published in May 2011, was endorsed by the European Union in December 2012 and is effective for the annual period beginning no later than January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

Amendments to IFRS 10, 11 and 12. The amendments provide guidelines on the comparative information. The standard, published in July 2012, was endorsed by the European Union in April 2013 and is effective for the annual period beginning no later than January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

IAS 27 (revised 2011) "Separate financial statements." The standard includes the provisions on separate financial statements that are left after the control provisions of IAS 27 have been included in the new IFRS 10. The standard, published in May 2011, was endorsed by the European Union in December 2012 and is effective for the annual period beginning no later than January 1, 2014. The adoption of the standard will have no impact on the consolidated financial statements of the Group.

IAS 28 (revised 2011) "Associates and Joint ventures." The standard includes the requirements for joint ventures, as well as associates, to be accounted using the equity method following the issue of IFRS 11. The standard, published in May 2011, was endorsed by the European Union in December 2012 and is effective for the annual period beginning no later than January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

Amendments to IAS 32 "Financial instruments." The amendments clarify some of the requirements for offsetting financial assets and financial liabilities on the balance sheet. The standard, published in December 2011, was endorsed by the European Union in December 2012 and is effective for the annual

period beginning on or after January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

Amendments to IFRS 10, 12 and 27. The amendments provide that many funds and similar entities, that meet the definition of investment entity, will be exempt from consolidating most of their subsidiaries. The amendments, not yet endorsed by the European Union, are effective for the annual period beginning on or after January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

Amendments to IAS 36 "Impairment of assets." The amendments address the disclosure of information about the recoverable amount of impaired assets if that amount is based on fair value less cost of disposals. The amendments, not yet endorsed by the European Union, are effective for the annual period beginning on or after January 1, 2014. The adoption of the standard will not have a significant impact on the consolidated financial statements of the Group.

4. BUSINESS COMBINATIONS

On January 23, 2013, the Company completed the acquisition of Alain Mikli International, a French luxury and contemporary eyewear company. The consideration for the acquisition was Euro 85.4 million. The purchase price paid in the first quarter of 2013, including the assumption of approximately Euro 15.0 million of Alain Mikli's debt, totaled Euro 91.0 million, excluding advance payments made in 2012 and receivables from Alain Mikli. Net sales generated by Alain Mikli International in 2012 were approximately Euro 55.5 million. The acquisition furthers the Group's strategy of continually strengthening of its brand portfolio.

The Company uses various methods to calculate the fair value of the Alain Mikli net assets acquired. The valuation process has not been concluded as of the date these financial statements were authorized for issue, and the above net assets acquired as well as the goodwill have been determined provisionally. In accordance with IFRS 3 *Business Combinations*, the fair value of the net assets acquired will be defined within 12 months from the acquisition date.

The difference between the consideration paid and the net assets acquired was provisionally recorded as goodwill and intangible assets for Euro 55.3 million and Euro 33.5 million, respectively. The above goodwill is not tax deductible and primarily reflects the synergies the Group estimates will derive from the acquisition.

Transaction-related costs of approximately Euro 1.2 million were expensed as incurred.

On April 25, 2013, Sunglass Hut Mexico ("SGH Mexico"), a subsidiary of the Company, acquired the sun business of Grupo Devlyn S.A.P.I. de C.V. ("Devlyn"). As a result of the acquisition the shareholders of Devlyn received a minority stake in SGH Mexico of 20 percent and a put option to sell the shares to the Company, while the Company was granted a call option on the minority stake. The exercise price of the above options were estimated based on the expected EBITDA, net sales and net financial position at the end of the lock-up period identified in the contract. The acquisition of the Company's interest in Devlyn was accounted for as a business combination in accordance with IFRS 3. In particular, the Group recorded provisional goodwill of approximately Euro 5.3 million and a liability for the present value of the put option of approximately Euro 7.7 million. The valuation of the net assets acquired will be completed within the twelve-month period subsequent to the acquisition. The transaction furthers the Group's strategy of increasing its presence in Latin America.

The criteria applied to identify the reporting segments are consistent with the way the Group is managed. In particular, the disclosures are consistent with the information periodically analyzed by the Group's Chief Executive Officer, in his role as Chief Operating Decision Maker, to make decisions about resources to be allocated to the segments and assess their performance. Total assets for each reporting segment are no longer disclosed as they are not key indicators which are monitored in order to assess the Group's financial performance.

The Group continues to seek debt refinancing at favorable market rates and actively monitors the debt capital markets in order to take appropriate action to issue debt, when appropriate. In order to determine the fair value of financial instruments, the Group utilizes valuation techniques which are based on observable market prices (Mark to Model). These techniques therefore fall within Level 2 of the hierarchy of Fair Values identified by IFRS 7. In order to select the appropriate valuation techniques to utilize, the Group complies with the following hierarchy:

- a) Utilization of quoted prices in an active market for identical assets or liabilities (Comparable Approach);
- b) Utilization of valuation techniques that are primarily based on observable market prices; and
- c) Utilization of valuation techniques that are primarily based on non-observable market prices.

The Group determined the fair value of the derivatives existing on June 30, 2013 through valuation techniques which are commonly used for instruments similar to those traded by the Group. The models applied to value the instruments are based on a calculation obtained from the Bloomberg information service. The input data used in these models are based on observable market prices (the Euro and USD interest rate curves as well as official exchange rates on the date of valuation) obtained from Bloomberg.

IFRS 7 refer to valuation hierarchy techniques which are based on three levels:

Level 1: Inputs are quoted prices in an active market for identical assets or liabilities;

Level 2: Inputs used in the valuations, other than the prices listed in Level 1, are observable for each financial asset or liability, both directly (prices) and indirectly (derived from prices); and

Level 3: Unobservable inputs used when observable inputs are not available in situations where there is little, if any, market activity for the asset or liability.

The Group portfolio of foreign exchange derivatives includes only forward foreign exchange contracts on the most traded currencies with maturities of less than one year. The fair value of the portfolio is valued using observable market inputs including yield curves and foreign exchange spot and forward prices.

The fair value of the interest rate derivatives portfolio is calculated using internal models that maximize the use of observable market inputs including interest rates, yield curves and foreign exchange spot prices.

Additional paid-in capital

This reserve increases with the expensing of options or excess tax benefits from the exercise of options.

Treasury reserve

Treasury reserve was equal to Euro 83.1 million as of June 30, 2013 (Euro 91.9 million as of December 31, 2012). The decrease of Euro 8.8 million was due to grants to certain top executives of 523,800 treasury shares as a result of the Group having achieved the financial targets identified by the Board of Directors under the 2010 PSP. As a result of these equity grants, the number of Group treasury shares was reduced from 4,681,025 as of December 31, 2012 to 4,157,225 as of June 30, 2013.

Litigation

French Competition Authority Investigation

Our French subsidiary Luxottica France S.A.S., together with other major competitors in the French eyewear industry, has been the subject of an anti-competition investigation conducted by the French Competition Authority relating to pricing practices in such industry. The investigation is ongoing, and, to date, no formal action has yet been taken by the French Competition Authority. As a consequence, it is not possible to estimate or provide a range of potential liability that may be involved in this matter. The outcome of any such action, which the Group intends to vigorously defend, is inherently uncertain, and there can be no assurance that such action, if adversely determined, will not have a material adverse effect on our business, results of operations and financial condition.
