**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION**  
WASHINGTON, D.C. 20549

---

**FORM 10-K**

ý **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES  
EXCHANGE ACT OF 1934**

**For The Fiscal Year Ended March 1, 2014**

**OR**

o **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES  
EXCHANGE ACT OF 1934**

**For The Transition Period From                      To  
Commission File Number 1-5742**

**RITE AID CORPORATION**

(Exact name of registrant as specified in its charter)

**Delaware**  
(State or other jurisdiction of  
incorporation or organization)

**23-1614034**  
(I.R.S. Employer  
Identification No.)

**30 Hunter Lane, Camp Hill, Pennsylvania**  
(Address of principal executive offices)

**17011**  
(Zip Code)

Registrant's telephone number, including area code: **(717) 761-2633**

Securities registered pursuant to Section 12(b) of the Act:

**Title of each class**  
Common Stock, \$1.00 par value

**Name of each exchange on which registered**  
New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: **None**

## Edgar Filing: RITE AID CORP - Form 10-K

Indicate by check mark if the registrant is a well known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to section 13 or section 15(d) of the Exchange Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "Accelerated Filer" and "Large Accelerated Filer" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer       Accelerated Filer       Non-Accelerated Filer       Smaller reporting company   
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The aggregate market value of the voting and non-voting common stock of the registrant held by non-affiliates of the registrant based on the closing price at which such stock was sold on the New York Stock Exchange on August 31, 2013 was approximately \$3,137,147,179. For purposes of this calculation, executive officers, directors and 5% shareholders are deemed to be affiliates of the registrant.

As of April 11, 2014 the registrant had outstanding 971,797,750 shares of common stock, par value \$1.00 per share.

### DOCUMENTS INCORPORATED BY REFERENCE

Portions of the proxy statement for the registrant's annual meeting of stockholders to be held on June 19, 2014 are incorporated by reference into Part III.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

This report, as well as our other public filings or public statements, include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are often identified by terms and phrases such as "anticipate," "believe," "intend," "estimate," "expect," "continue," "should," "could," "may," "plan," "project," "predict," "will" and similar expressions and include references to assumptions and relate to our future prospects, developments and business strategies.

Factors that could cause actual results to differ materially from those expressed or implied in such forward-looking statements include, but are not limited to:

our high level of indebtedness;

our ability to make interest and principal payments on our debt and satisfy the other covenants contained in our senior secured credit facility, second priority secured term loan facilities and other debt agreements;

general economic conditions (including the impact of continued high unemployment and changing consumer behavior), inflation and interest rate movements;

our ability to improve the operating performance of our stores in accordance with our long term strategy;

our ability to maintain or grow prescription count and realize front-end sales growth;

our ability to hire and retain qualified personnel;

the continued impact of private and public third party payors reduction in prescription drug reimbursement and efforts to encourage mail order and limit access to payor networks;

competitive pricing pressures, including aggressive promotional activity from our competitors;

our inability to offset cost increases for generic drugs;

decisions to close additional stores and distribution centers or undertake additional refinancing activities, which could result in further charges to our operating statement;

our ability to manage expenses and our investment in working capital;

continued consolidation of the drugstore and the pharmacy benefit management industries;

changes in state or federal legislation or regulations, and the continued impact from the ongoing implementation of the Patient Protection and Affordable Care Act as well as other healthcare reform;

## Edgar Filing: RITE AID CORP - Form 10-K

the outcome of lawsuits and governmental investigations; and

other risks and uncertainties described from time to time in our filings with the Securities and Exchange Commission (the "SEC").

We undertake no obligation to update or revise the forward-looking statements included in this report, whether as a result of new information, future events or otherwise, after the date of this report. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors that could cause or contribute to such differences are discussed in the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations Overview and Factors Affecting Our Future Prospects" included in this annual report on Form 10-K.

Table of Contents

**PART I**

**Item 1. Business**

**Overview**

Rite Aid is the third largest retail drugstore chain in the United States based on both revenues and number of stores. As of March 1, 2014, we operated 4,587 stores in 31 states across the country and in the District of Columbia.

In our stores, we sell prescription drugs and a wide assortment of other merchandise, which we call "front-end" products. In fiscal 2014, prescription drug sales accounted for 67.9% of our total sales. We believe that pharmacy operations will continue to represent a significant part of our business due to favorable industry trends, including an aging population, increased life expectancy, anticipated growth in the federally funded Medicare Part D prescription program as "baby boomers" start to enroll, expanded coverage for uninsured Americans as the result of the Patient Protection and Affordable Care Act and the discovery of new and better drug therapies. We carry a full assortment of front-end products, which accounted for the remaining 32.1% of our total sales in fiscal 2014. Front-end products include over-the-counter medications, health and beauty aids, personal care items, cosmetics, household items, food and beverages, greeting cards, seasonal merchandise and numerous other everyday and convenience products. We also offer various photo processing services in virtually all our stores.

We differentiate our stores from other national chain drugstores, in part, through our wellness+ loyalty program, our Wellness format stores, innovative merchandising, private brands and our expanded strategic partnership with GNC, a leading retailer of vitamin and mineral supplements. We offer a wide variety of products through our portfolio of private brands, which continue to be well received by our customers. Private brand items contributed approximately 18.2% of our front-end sales in fiscal 2014.

The average size of each store in our chain is approximately 12,600 square feet, and average store size is larger for our locations in the western United States. As of March 1, 2014, 61% of our stores were freestanding; 52% of our stores included a drive-thru pharmacy; and 48% included a GNC store within Rite Aid store.

Our headquarters are located at 30 Hunter Lane, Camp Hill, Pennsylvania 17011, and our telephone number is (717) 761-2633. Our common stock is listed on the New York Stock Exchange under the trading symbol of "RAD." We were incorporated in 1968 and are a Delaware corporation.

**Industry Trends**

The rate of pharmacy sales growth in the United States has slowed in recent years, driven by a decline in new blockbuster drugs, a longer FDA approval process, drug safety concerns, higher copays, the loss of individual health insurance with the rise of unemployment and an increase in the use of generic (non-brand name) drugs, which are less expensive but generate higher gross margins. However, we expect prescription usage to grow in the coming years due to the aging U.S. population, increased life expectancy, "baby boomers" becoming eligible for the federally funded Medicare prescription program and new drug therapies. Furthermore, we expect that Patient Protection and Affordable Care Act will have a positive impact on our business as more Americans gain health insurance and prescription drug coverage. Additionally, rising U.S. healthcare costs and the shortage of primary care physicians are creating opportunities for pharmacists and drugstores to play a more active role in driving positive health outcomes for patients. Services such as immunizations, medication therapy management, chronic condition management and medication compliance counseling extend our efforts well beyond filling prescriptions. We believe that offerings such as these will gain additional momentum in a rapidly changing healthcare environment.

Table of Contents

In terms of our traditional drug dispensing business, generic prescription drugs continue to help lower overall costs for customers and third party payors. We believe the utilization of existing generic pharmaceuticals will continue to increase. After a slowdown of new generic introductions in fiscal 2014, the next wave of generic introductions will begin in the second half of fiscal 2015 as additional popular branded drugs are scheduled to lose patent protection. The gross profit from a generic drug prescription in the retail drugstore industry is generally greater than the gross profit from a brand drug prescription. However, the sale amount can be substantially less and can impact our overall revenues and same store sales.

The retail drugstore industry is highly competitive and has been experiencing consolidation. We believe that the continued consolidation of the drugstore industry, continued new store openings, increased competition from internet and mail order based providers and aggressive generic pricing programs at competitors such as Wal-Mart and various supermarket chains will further increase competitive pressures in the industry. The pharmacy business has continued to be highly promotional, which contributes to additional competitive pressures.

The retail drugstore industry relies significantly on third party payors. Third party payors, including the Medicare Part D plans and the state sponsored Medicaid and related managed care Medicaid agencies, at times change the eligibility requirements of participants or reduce certain reimbursement rates. These changes and reductions are expected to continue. When third party payors, including the Medicare Part D program and state sponsored Medicaid agencies, reduce the number of participants and/or reduce their reimbursement rates, sales and margins in the industry could be reduced, and profitability of the industry adversely affected. These possible adverse effects can be partially or entirely offset by lowering our product cost, controlling expenses, dispensing more higher margin generics and dispensing more prescriptions overall.

**Strategy**

Our strategy for fiscal 2015 is to accelerate the transformation of Rite Aid into a neighborhood destination for health and wellness. This strategic objective will not only allow us to better meet the needs of our customers and patients in a rapidly changing healthcare environment, but will also help us to continue the positive financial momentum we have generated over the past several years.

Financially, our primary goal for fiscal 2015, consistent with fiscal 2014, is to continue growing same stores sales while expanding EBITDA margins, both of which are critical to achieving long-term financial success. By growing same-store sales, we can take full advantage of our recent cost control improvements, including the refinancing transactions we completed in fiscal 2014.

In order to drive our financial performance and sustainable sales growth, we will continue to increase the level of capital investment in our store base through initiatives such as the Wellness store remodel program and prescription file purchases. We will also continue to build upon key initiatives we have implemented in recent years such as our highly successful wellness+ customer loyalty program and expanded pharmacy services, including immunizations. At the same time, we will focus on developing new programs that meet the evolving needs of our customers as we enter a period of rapid change in the U.S. healthcare industry. We expect that these continued investments and our focus on key initiatives will generate long-term value for our shareholders.

Below are descriptions of our key initiatives:

*wellness+* Since its launch in April of 2010, our free wellness+ program has provided customers and patients with the opportunity to earn significant discounts and wellness rewards in return for being loyal Rite Aid shoppers. Enrolled members earn rewards based on the accumulation of points for certain front-end and prescription purchases. The program has been well received by Rite Aid customers and continues to provide significant value to members earning enough points to reach the

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

Gold, Silver or Bronze tier levels. In addition to tiered discounts and wellness rewards, members receive exclusive sale pricing and the opportunity to earn Plus Up Rewards, which are offers on certain items featured in our weekly circular that provide additional savings during return shopping trips.

Participation in the wellness+ program and wellness+ card usage continues to be strong. As of March 1, 2014, the wellness+ program had nearly 25 million active members, which we define as members who have used their wellness+ card at least twice over the previous 26 weeks. In fiscal 2014, wellness+ members accounted for 78% of front-end sales and 70% of prescriptions filled. In addition, our number of Gold and Silver members Rite Aid's most valuable and satisfied customers continues to increase.

We introduced the biggest extension of wellness+ since its inception by successfully launching wellness65+ for seniors in June of 2013. Enrolled seniors can also become "Gold Members for a Day" and receive a 20% discount during special "wellness65+ Wednesday" events held each month at every Rite Aid store. These benefits are designed to give seniors a strong incentive to visit their local Rite Aid, get to know our store and pharmacy teams and learn more about the various products, services and advice Rite Aid has to offer. As of March 1, 2014, more than 1.6 million seniors were enrolled in the program. In fiscal 2014, we continued efforts to form stronger relationships with our best customers by leveraging program data to deliver more personalized and targeted offers.

Heading forward, we will continue to look for new and innovative ways to further enhance our highly popular customer loyalty program.

*Wellness Store Remodels* In fiscal 2014, we continued to strengthen Rite Aid as a wellness destination by converting 405 stores to our Wellness Store format, which brought our total number of Wellness stores to 1,215 by the end of the fiscal year. As a result, more than a quarter of all Rite Aid stores are now Wellness stores.

In addition to improved interior design, expanded clinical pharmacy services, innovative merchandising and new wellness product offerings, these stores are staffed with our unique Wellness Ambassadors, who serve as a bridge from the front-end of our stores to the pharmacy and provide an added level of customer service. Our customers have responded favorably to this unique store format. Our Wellness stores are outperforming the rest of our chain in terms of both front-end same-store sales and same-store prescription count.

We plan to complete an additional 450 Wellness remodels in fiscal 2015. We believe these remodels are a cost-effective way to strengthen our store base, grow sales and offer our customers an engaging wellness experience.

As we continue our store remodeling efforts, we will also begin setting the stage to complete store relocations and build net new stores over the next few years, allowing us to further expand the reach of our Wellness store format.

*Expanded Healthcare Services* In fiscal 2014, we continued to expand the role of our Rite Aid pharmacists in delivering wellness services that go beyond simply filling prescriptions. A key area of focus has been our immunizations program, which has grown significantly in recent years. In fiscal 2014, our pharmacists administered more than 2.8 million flu shots compared to nearly 2.4 million the previous year, an increase of more than 450,000. We also increased our number of vaccinations that protect against other conditions such as shingles, pneumonia and whooping cough by five percent over last year. Immunizations will continue to be a key area of focus in fiscal 2015.

We are also piloting an innovative program named Rite Aid Health Alliance that positions Rite Aid to partner with local physicians and support patients with chronic conditions in achieving positive health outcomes. Through Rite Aid Health Alliance, doctors recommend our program to patients with one or more chronic conditions such as congestive heart failure, COPD, high cholesterol and diabetes.

Table of Contents

Once a patient enrolls, Rite Aid pharmacists and specially-trained in-store care coaches work with the physician to create a personalized health care action plan and engage with the patient between physician visits to support the patient in implementing the plan and improving overall health.

As of March 1, 2014, the Rite Aid Health Alliance program was active in three markets and we intend to expand the program to additional markets and stores throughout fiscal 2015. We are committed to continue to grow and develop our pharmacy and healthcare related service offerings to better meet the needs of customers and further strengthen our brand of health and wellness, both organically and through our recent acquisitions of Health Dialog and RediClinic.

On April 1, 2014 we acquired Boston-based Health Dialog, a provider of health coaching, shared decision making tools and health care analytics. Health Dialog helps health plans, employers and physician groups improve healthcare quality while reducing overall costs. Health Dialog offerings include health coaching for medical decisions, chronic conditions, and wellness; population analytic solutions; and consulting services. Our acquisition of Health Dialog will play a key role in advancing our Rite Aid Health Alliance program. We will benefit from Health Dialog's industry-leading analytics and shared decision making tools as we continue to strengthen our health care offering. At the same time, the acquisition will provide Health Dialog with an expanded footprint to grow its portfolio of clients and services as a 100 percent owned subsidiary.

On April 10, 2014 we acquired Houston-based RediClinic, a leading operator of retail clinics. Retail clinics play a critical role in today's health care delivery system and will play an important role in our overall health and wellness strategy. RediClinic currently operates 30 clinics in the greater Austin, San Antonio and Houston areas. RediClinics are staffed by board certified nurse practitioners and physician assistants, who are trained and licensed to treat common conditions and provide preventative services, in collaboration with local physicians who are affiliated with a leading health care system in each market. Patients can be treated for more than 30 common medical conditions and RediClinic's clinicians are able to write prescriptions for these conditions when appropriate. Additionally, RediClinics provide a broad range of preventive services, including screenings, medical tests, immunizations and basic physical exams. We are committed to expanding RediClinic's footprint in Texas and will leverage their expertise to deliver convenient health care and wellness programs to our customers in selected markets. We expect to open an additional 70 RediClinics over the next 18 to 24 months.

*Prescription File Purchases* In fiscal 2014, we increased the amount of capital spent on the purchase of prescription files to \$87.4 million, up from \$67.1 million in fiscal 2013. We have allocated \$90.0 million of our fiscal 2015 capital expenditures budget for prescription file buys as they typically deliver a strong return on investment.

*Drug Purchasing and Distribution Efficiencies* In fiscal 2014, we announced an expanded agreement with our long-time partner McKesson for pharmaceutical purchasing and distribution. As part of this five-year agreement, McKesson will assume responsibility for purchasing all brand and generic medications we dispense in our stores as well as delivering those medications to our nearly 4,600 store locations. We expect that this partnership will leverage the scale of both companies to deliver greater purchasing and distribution efficiencies, ensure the highest levels of service for our customers and generate additional cash flow to further fuel our long-term growth.

*Private Brands* In fiscal 2011, we began to roll out our new private brand architecture, which included the consolidation of our private brands into three separate tiers. The initiative included enhanced package designs for our private brand items and the introduction of our price-fighter brand, Simplify. We now have approximately 3,000 private brand items and our private brand penetration has increased from 16% in fiscal 2011 to 18.2% as of the end of fiscal 2014. In fiscal 2015, we will continue to aggressively promote our private brands, which offer great value to our customers and strong

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

margins for Rite Aid, through specific promotional programs and the introduction of new private brand items.

*Enhanced Digital Offerings* As we continue working hard to improve the customer experience in our 4,600 stores, we're also focused on providing enhanced digital resources that better reflect our brand of health and wellness. In addition to our new and improved [www.riteaid.com](http://www.riteaid.com) website, we continue to enhance our mobile app with quarterly updates while engaging with customers on social media sites like Facebook and Twitter.

*Customer Service* We have put several store programs in place to improve the customer service experience, including the addition of Wellness Ambassadors to more stores and our chain-wide emphasis on greeting our customers more frequently and assisting them with purchases. We have also made investments in technology to make it easier for our store associates to perform necessary tasks such as price changes and backroom inventory management. By providing our associates with the ability to execute these tasks more efficiently, we give our store teams more time to focus on providing excellent service to our customers. In addition, fiscal 2015 will be the third consecutive year in which we have increased our budget for associate training and development. We believe this additional focus on developing our associates to provide superior customer service has and will continue to help us drive our improved overall performance.

*Cost Control* We continue to leverage the significant reductions we have made to our SG&A expense over the past few years. At the same time, we have completed several refinancing transactions that saved approximately \$85 million in annual interest expense for fiscal 2014 and will continue to benefit our business heading forward. We will continue to focus on controlling costs in fiscal 2015 so that we can maximize the benefits of our sales and customer service initiatives and capital investments.

### **Products and Services**

Sales of prescription drugs represented approximately 67.9%, 67.6%, and 68.1% of our total sales in fiscal years 2014, 2013 and 2012, respectively. In fiscal years 2014, 2013 and 2012, prescription drug sales were \$17.2 billion, \$17.1 billion, and \$17.7 billion, respectively. See "Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements.

We carry a full assortment of non-prescription, or front end products. The types and number of front end products in each store vary, and selections are based on customer needs and preferences and available space. No single front end product category contributed significantly to our sales during fiscal 2014. We also offer photo finishing services in a majority of our stores. Our principal classes of products in fiscal 2014 were the following:

<b>Product Class</b>	<b>Percentage of Sales</b>
Prescription drugs	67.9%
Over-the-counter medications and personal care	9.8%
Health and beauty aids	5.1%
General merchandise and other	17.2%

We offer a wide variety of products under our private brands. We intend to increase the private brand sales percentage in fiscal 2015 by entering new categories, enhancing our seasonal programs and improving the in-stock position with our private brand suppliers. We believe that our customers find these products to be of high quality and provide great value.

We have a strategic alliance with GNC under which we have opened over 2,200 GNC stores within Rite Aid store as of March 1, 2014 and have a contractual commitment to open at least 300 additional

Table of Contents

GNC stores within Rite Aid stores by December 2019. We incorporate the GNC stores within Rite Aid store concept into many of our new and relocated stores and into many of our Wellness remodels. GNC is a leading nationwide retailer of vitamin and mineral supplements, personal care, fitness and other health-related products.

**Technology**

All of our stores are integrated into a common information system, which enables our customers to fill or refill prescriptions in any of our stores throughout the country, reduces chances of adverse drug interactions, and enables our pharmacists to fill prescriptions more accurately and efficiently. This system can be expanded to accommodate new stores. Our customers may also order prescription refills over the Internet through our recently enhanced website, *www.riteaid.com*, or over the phone through our telephonic automated refill systems for pick up at a Rite Aid store. We have automated pharmacy dispensing units in high volume stores, which are linked to our pharmacists' computers that fill and label prescription drug orders. The efficiency of these units allows our pharmacists to spend more time consulting with our customers. Additionally, each of our stores employs point-of-sale technology that supports sales analysis and recognition of customer trends. This same point-of-sale technology facilitates the maintenance of perpetual inventory records which, together with our sales analysis, drives our automated inventory replenishment process.

We continue to embrace technology as a way to enhance the customer experience. We completed the development and implementation of our improved mobile app, which is now available for download for both the Android and iPhone platforms. This free app allows our customers to use their smartphones to manage their wellness + account, access the weekly circular to view sale items, order photo prints and locate a nearby Rite Aid store. We have continued to strengthen our presence on social media sites such as Facebook, Twitter and Pinterest through unique promotions and contests.

**Sources and Availability of Raw Materials**

During fiscal 2014, we purchased brand pharmaceuticals and some generic pharmaceuticals from McKesson Corporation ("McKesson"). Beginning in fiscal 2015, we will, with limited exceptions, purchase all of our branded pharmaceutical products and almost all of our generic (non-brand name) pharmaceutical products from McKesson. If our relationship with McKesson were disrupted, we could temporarily have difficulty filling prescriptions for brand-named and generic drugs until we executed a replacement wholesaler agreement or developed and implemented self-distribution processes.

We purchase our non-pharmaceutical merchandise from numerous manufacturers and wholesalers. We believe that competitive sources are readily available for substantially all of the non-pharmaceutical merchandise we carry and that the loss of any one supplier would not have a material effect on our business.

We sell private brand and co-branded products that generally are supplied by numerous competitive sources. The Rite Aid and GNC co-branded PharmAssure vitamin and mineral supplement products and the GNC branded vitamin and mineral supplement products that we sell in our stores are developed by GNC, and along with our Rite Aid brand vitamin and mineral supplements, are manufactured by GNC.

**Customers and Third Party Payors**

During fiscal 2014, our stores filled approximately 295 million prescriptions and served an average of 2.0 million customers per day. The loss of any one customer would not have a material adverse impact on our results of operations.

Table of Contents

In fiscal 2014, 97.0% of our pharmacy sales were to customers covered by third party payors (such as insurance companies, prescription benefit management companies, government agencies, private employers or other managed care providers) that agree to pay for all or a portion of a customer's eligible prescription purchases based on negotiated and contracted reimbursement rates. During fiscal 2014, the top five third party payors accounted for approximately 65.8% of our pharmacy sales. The largest third party payor, Express Scripts, represented 31.6% of our pharmacy sales.

During fiscal 2014, Medicaid and related managed care Medicaid payors sales were approximately 13.7% of our pharmacy sales, of which the largest single Medicaid payor was approximately 1.1% of our pharmacy sales. During fiscal 2014, approximately 30.6% of our pharmacy sales were to customers covered by Medicare Part D.

**Competition**

The retail drugstore industry is highly competitive. We compete with, among others, retail drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, discount stores, wellness offerings, dollar stores and mail order pharmacies. We compete on the basis of store location and convenient access, customer service, product selection and price. We believe continued consolidation of the drugstore industry, the aggressive discounting of generic drugs by supermarkets and mass merchandisers and the increase of promotional incentives to drive prescription sales will further increase competitive pressures in the industry.

**Marketing and Advertising**

In fiscal 2014, marketing and advertising expense was approximately \$322.8 million, which was spent primarily on weekly circular advertising. Our marketing and advertising activities centered primarily on the following:

Product price promotions to draw customers to our stores;

Our wellness + loyalty program, which benefits members based on accumulating points for certain front end and prescription purchases, and offers + UP rewards to provide members additional savings;

Emphasis on the value of our private brand products;

Support of specific initiatives and stores, including competitor market intrusion and prescription file buys; and

Our vision to be the customer's first choice for health and wellness products, services and information.

Under the umbrella of our "With Us It's Personal" brand positioning, we promote educational programs focusing on specific health conditions and incentives for patients to transfer their prescriptions to Rite Aid. We are also emphasizing our automated courtesy refill service. We believe all of these programs will help us improve customer satisfaction and grow profitable sales.

**Associates**

We believe that our relationships with our associates are good. As of March 1, 2014, we had approximately 89,000 associates: 11% were pharmacists, 44% were part-time and 27% were represented by unions. Associate satisfaction is critical to our success. Annually we survey our associates to obtain feedback on various employment-related topics, including job satisfaction and their understanding of our core values and mission.

Table of Contents

The pharmacist shortage has eased significantly. The increase in the number of graduates from U.S. Schools of Pharmacy is meeting our workforce demand. However, pharmacist employment opportunities still exist in certain areas.

**Research and Development**

We do not make significant expenditures for research and development.

**Licenses, Trademarks and Patents**

The Rite Aid name is our most significant trademark and the most important factor in marketing our stores and private brand products. We hold licenses to sell beer, wine and liquor, cigarettes and lottery tickets. As part of our strategic alliance with GNC, we have a license to operate GNC "stores-within-Rite Aid-stores." We also hold licenses to operate our pharmacies and our distribution facilities. Collectively, these licenses are material to our operations.

**Seasonality**

We experience moderate seasonal fluctuations in our results of operations concentrated in the first and fourth fiscal quarters as the result of the concentration of the cough, cold and flu season and the holidays. We tailor certain front end merchandise to capitalize on holidays and seasons. We increase our inventory levels during our third fiscal quarter in anticipation of the seasonal fluctuations described above. Our results of operations in the fourth and first fiscal quarters may fluctuate based upon the timing and severity of the cough, cold and flu season, both of which are unpredictable.

**Regulation**

Our business is subject to federal, state and local laws, regulations, and administrative practices concerning the provision of and payment for health care services, including, without limitation: federal, state and local licensure and registration requirements concerning the operation of pharmacies and the practice of pharmacy; Medicare, Medicaid and other publicly financed health benefit plan regulations prohibiting kickbacks, beneficiary inducement and the submission of false claims; the Patient Protection and Affordable Care Act (ACA); regulations of the U.S. Food and Drug Administration and the U.S. Drug Enforcement Administration, including regulations governing the purchase, sale, storing and dispensing of controlled substances and other products, as well as regulations promulgated by state and other federal agencies concerning the sale, advertisement and promotion of the products we sell, including tobacco and alcoholic beverages.

Our business is also subject to patient privacy and other obligations, including corporate, pharmacy and associate responsibility imposed by the Health Insurance Portability and Accountability Act. As a covered entity, we are required to implement privacy standards, train our associates on the permitted uses and disclosures of protected health information, provide a notice of privacy practice to our pharmacy customers and permit pharmacy customers to access and amend their records and receive an accounting of disclosures of protected health information.

We are also subject to laws governing our relationship with our associates, including health and safety, minimum wage requirements, overtime, working conditions, equal employment opportunity and unionizing efforts.

In addition, in connection with the ownership and operations of our stores, distribution centers and other sites, we are subject to laws and regulations relating to the protection of the environment and health and safety matters, including those governing the management and disposal of hazardous substances and the cleanup of contaminated sites.

**Corporate Governance and Internet Address**

We recognize that good corporate governance is an important means of protecting the interests of our stockholders, associates, customers and the community. We have closely monitored and implemented relevant legislative and regulatory corporate governance reforms, including provisions of the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley"), the rules of the SEC interpreting and implementing Sarbanes-Oxley and the corporate governance listing standards of the NYSE.

Our corporate governance information and materials, including our Certificate of Incorporation, Bylaws, Corporate Governance Guidelines, the charters of our Audit Committee, Compensation Committee and Nominating and Governance Committee, our Code of Ethics for the Chief Executive Officer and Senior Financial Officers, our Code of Ethics and Business Conduct and our Related Person Transaction Policy are posted on the corporate governance section of our website at [www.riteaid.com](http://www.riteaid.com) and are available in print upon request to Rite Aid Corporation, 30 Hunter Lane, Camp Hill, Pennsylvania 17011, Attention: Corporate Secretary. Our Board will regularly review corporate governance developments and modify these materials and practices as warranted.

Our website also provides information on how to contact us and other items of interest to investors. We make available on our website, free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, Extensible Business Reporting Language (XBRL) data files of our annual report and quarterly reports beginning with our fiscal 2011 second quarter 10-Q, current reports on Form 8-K and all amendments to these reports, as soon as reasonably practicable after we file these reports with, or furnish them to, the SEC. We do not intend for the information contained on our website to be part of this annual report on Form 10-K.

**Item 1A. Risk Factors**

**Factors Affecting our Future Prospects**

Set forth below is a description of certain risk factors which we believe may be relevant to an understanding of us and our business. Security holders are cautioned that these and other factors may affect future performance and cause actual results to differ from those which may be anticipated. See "Cautionary Statement Regarding Forward-Looking Statements."

**Risks Related to our Financial Condition**

*Current economic conditions may adversely affect our industry, business and results of operations.*

The United States economy is continuing to feel the impact of the economic downturn that began in late 2007, and the future economic environment may not fully recover to levels prior to the downturn. This economic uncertainty has and could further lead to reduced consumer spending for the foreseeable future. If consumer spending decreases or does not grow, we may not be able to sustain the improvement in our same store sales. In addition, reduced or flat consumer spending may drive us and our competitors to offer additional products at promotional prices, which would have a negative impact on our gross profit. We operate a number of stores in areas that are experiencing a lower recovery than the economy on a national level. A continued softening or slow recovery in consumer spending may adversely affect our industry, business and results of operations. Reduced revenues as a result of decreased consumer spending may also reduce our liquidity and otherwise hinder our ability to implement our long term strategy.

*We are highly leveraged. Our substantial indebtedness could limit cash flow available for our operations and could adversely affect our ability to service debt or obtain additional financing if necessary.*

We had, as of March 1, 2014, \$5.8 billion of outstanding indebtedness and stockholders' deficit of \$2.1 billion. We also had additional borrowing capacity under our \$1.795 billion senior secured

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

revolving credit facility of approximately \$1,315.1 million, net of outstanding letters of credit of \$79.9 million. Our earnings were sufficient to cover fixed charges for fiscal 2014 by \$233.4 million. However, our earnings were insufficient to cover fixed charges and preferred stock dividends for fiscal 2013, 2012, 2011 and 2010 by \$14.0 million, \$412.4 million, \$564.8 million and \$498.4 million, respectively.

Our high level of indebtedness will continue to restrict our operations. Among other things, our indebtedness will:

limit our flexibility in planning for, or reacting to, changes in the markets in which we compete;

place us at a competitive disadvantage relative to our competitors with less indebtedness;

render us more vulnerable to general adverse economic, regulatory and industry conditions; and

require us to dedicate a substantial portion of our cash flow to service our debt.

Our ability to meet our cash requirements, including our debt service obligations, is dependent upon our ability to substantially improve our operating performance, which will be subject to general economic and competitive conditions and to financial, business and other factors, many of which are beyond our control. We cannot provide any assurance that our business will generate sufficient cash flow from operations to fund our cash requirements and debt service obligations.

We believe we have adequate sources of liquidity to meet our anticipated requirements for working capital, debt service and capital expenditures through fiscal 2015 and have no significant debt maturities prior to February 2018. However, if our operating results, cash flow or capital resources prove inadequate, or if interest rates rise significantly, we could face liquidity constraints. If we are unable to service our debt or experience a significant reduction in our liquidity, we could be forced to reduce or delay planned capital expenditures and other initiatives, sell assets, restructure or refinance our debt or seek additional equity capital, and we may be unable to take any of these actions on satisfactory terms or in a timely manner. Further, any of these actions may not be sufficient to allow us to service our debt obligations or may have an adverse impact on our business. Our existing debt agreements limit our ability to take certain of these actions. Our failure to generate sufficient operating cash flow to pay our debts or refinance our indebtedness could have a material adverse effect on us.

***Borrowings under our senior secured credit facility are based upon variable rates of interest, which could result in higher expense in the event of increases in interest rates.***

As of March 1, 2014, approximately \$2.5 billion of our outstanding indebtedness bore interest at a rate that varies depending upon the London Interbank Offered Rate ("LIBOR"). Borrowings under our Second Lien facilities Tranche 1 Term Loan due August 2020 and Tranche 2 Term Loan due June 2021 are subject to a minimum LIBOR floor of 100 basis points. Borrowings under our new Tranche 7 Term Loan due February 2020 (we refinanced our Tranche 6 Term Loan due February 2020 on March 14, 2014) are subject to a minimum LIBOR floor of 75 basis points. Borrowings under our senior secured revolving credit facility are most sensitive to LIBOR fluctuations because there is no floor. If LIBOR rises, the interest rates on outstanding debt will increase. Therefore an increase in LIBOR would increase our interest payment obligations under those loans and have a negative effect on our cash flow and financial condition. We currently do not maintain hedging contracts that would limit our exposure to variable rates of interest.

***The covenants in the instruments that govern our current indebtedness may limit our operating and financial flexibility.***

The covenants in the instruments that govern our current indebtedness limit our ability to:

incur debt and liens;

Table of Contents

pay dividends;

make redemptions and repurchases of capital stock;

make loans and investments;

prepay, redeem or repurchase debt;

engage in acquisitions, consolidations, asset dispositions, sale-leaseback transactions and affiliate transactions;

change our business;

amend some of our debt and other material agreements;

issue and sell capital stock of subsidiaries;

restrict distributions from subsidiaries; and

grant negative pledges to other creditors.

The senior secured credit facility contains covenants which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, sale of assets, mergers and acquisitions and the granting of liens. Our senior secured credit facility has a financial covenant which requires us to maintain a minimum fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150.0 million, we maintain a minimum fixed charge coverage ratio of 1.00 to 1.00. As of March 1, 2014, we had availability under our revolving credit facility of approximately \$1,315.1 million, our fixed charge coverage ratio was greater than 1.00 to 1.00, and were in compliance with the senior secured credit facility's financial covenant.

***Our stockholders will experience dilution if we issue additional common stock.***

We are generally not restricted from issuing additional shares of our common shares or preferred stock, including, subject to the terms of our outstanding debt instruments, any securities that are convertible into or exchangeable for, or that represent the right to receive, common shares or preferred stock or any substantially similar securities, whether for cash, as part of incentive compensation or in refinancing transactions. Any additional future issuances of common stock will reduce the percentage of our common stock owned by investors who do not participate in such issuances. In most circumstances, stockholders will not be entitled to vote on whether or not we issue additional shares of common stock. The market price of our common stock could decline as a result of issuances of a large number of shares of our common stock or the perception that such issuances could occur.

**Risks Related to our Operations**

***We need to improve our operations in order to improve our financial condition, but our operations will not improve if we cannot effectively implement our business strategy or if our strategy is negatively affected by worsening economic conditions.***

We have not yet achieved the sales productivity level of our major competitors. We believe that improving the sales of existing stores is important to improving profitability and operating cash flow. If we are not successful in implementing our strategies, including our efforts to increase sales and further reduce costs, or if our strategies are not effective, we may not be able to improve our operations. In addition, any

## Edgar Filing: RITE AID CORP - Form 10-K

further adverse change or continued weakness in general economic conditions or major industries can adversely affect drug benefit plans and reduce our pharmacy sales. Adverse changes in general economic conditions could affect consumer buying practices and consequently reduce our sales of front end products, and cause a decrease in our profitability. Failure to improve operations or a continued weakness in major industries or general economic conditions would adversely affect our

Table of Contents

results of operations, financial condition and cash flows and our ability to make principal or interest payments on our debt.

***We purchase all of our brand and generic drugs from a single wholesaler. A disruption in this relationship may have a negative effect on us.***

We purchase all of our brand prescription and beginning during fiscal 2015, will purchase, with limited exceptions, all of our generic drugs from a single wholesaler, McKesson. Pharmacy sales represented approximately 67.9% of our total sales during fiscal 2014. While we believe that alternative sources of supply for most generic and brand name pharmaceuticals are readily available, a significant disruption in our relationship with McKesson could make it difficult for us to continue to operate our business on a regular basis until we executed a replacement wholesaler agreement or developed and implemented self-distribution processes. We believe we could obtain and qualify alternative sources, including through self-distribution, for substantially all of the prescription drugs we sell on an acceptable basis, and accordingly that the impact of any disruption would be temporary. In addition, because McKesson acts as a wholesaler for drugs purchased from ultimate manufacturers worldwide, any disruption in the supply of a given drug could adversely impact McKesson's ability to fulfill our demands, which could adversely effect us.

***A significant disruption in our computer systems or a cyber security breach could adversely affect our operations.***

We rely extensively on our computer systems to manage our ordering, pricing, point-of-sale, inventory replenishment and other processes. Our systems are subject to damage or interruption from power outages, computer and telecommunications failures, computer viruses, cyber security breaches, vandalism, severe weather conditions, catastrophic events and human error, and our disaster recovery planning cannot account for all eventualities. Although we deploy a layered approach to address information security threats and vulnerabilities, including ones from a cyber security standpoint, designed to protect confidential information against data security breaches, a compromise of our information security controls or of those businesses with whom we interact, which results in confidential information being accessed, obtained, damaged or used by unauthorized or improper persons, could harm our reputation and expose us to regulatory actions and claims from customers and clients, financial institutions, payment card associations and other persons, any of which could adversely affect our business, financial position and results of operations. Moreover, a data security breach could require that we expend significant resources related to our information systems and infrastructure, and could distract management and other key personnel from performing their primary operational duties. If our systems are damaged, fail to function properly or otherwise become unavailable, we may incur substantial costs to repair or replace them, and may experience loss of critical data and interruptions or delays in our ability to perform critical functions, which could adversely affect our business and results of operations. Any compromise of our security could also result in a violation of applicable privacy and other laws, significant legal and financial exposure, damage to our reputation, loss or misuse of the information and a loss of confidence in our security measures, which could harm our business. Although we maintain cyber security insurance, we cannot assure you that the coverage limits under our insurance program will be adequate to protect us against future claims.

**Risks Related to our Industry**

***The markets in which we operate are very competitive and further increases in competition could adversely affect us.***

We face intense competition with local, regional and national companies, including other drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, dollar stores and internet pharmacies. Competition from discount stores has significantly increased during the past few years. Our

Table of Contents

industry also faces growing competition from companies who import drugs directly from other countries, such as Canada, as well as from large-scale retailers that offer generic drugs at a substantial discount. Some of our competitors have or may merge with or acquire pharmaceutical services companies, pharmacy benefit managers, mail order facilities or enter into strategic partnership alliances with wholesalers, which may further increase competition. We may not be able to effectively compete against them because our existing or potential competitors may have financial and other resources that are superior to ours. In addition, we may be at a competitive disadvantage because we are more highly leveraged than our competitors. The ability of our stores to achieve profitability depends on their ability to achieve a critical mass of loyal, repeat customers. We believe that the continued consolidation of the drugstore industry will further increase competitive pressures in the industry. We cannot assure you that we will be able to continue to effectively compete in our markets or increase our sales volume in response to further increased competition.

***Consolidation in the healthcare industry could adversely affect our business, financial condition and results of operations.***

Many organizations in the healthcare industry, including pharmacy benefit managers, have consolidated, such as the merger of Express Scripts and Medco Health Solutions, to create larger healthcare enterprises with greater market power, which has resulted in greater pricing pressures. If this consolidation trend continues, it could give the resulting enterprises even greater bargaining power, which may lead to further pressure on the prices for our products and services. If these pressures result in reductions in our prices, our business will become less profitable unless we are able to achieve corresponding reductions in costs or develop profitable new revenue streams. We expect that market demand, government regulation, third-party reimbursement policies, government contracting requirements, and societal pressures will continue to cause the healthcare industry to evolve, potentially resulting in further business consolidations and alliances among the industry participants we engage with, which may adversely impact our business, financial condition and results of operations.

***The availability of pharmacy drugs is subject to governmental regulations.***

The continued conversion of various prescription drugs, including potential conversions of a number of popular medications, to over-the-counter medications may reduce our pharmacy sales and customers may seek to purchase such medications at non-pharmacy stores. Also, if the rate at which new prescription drugs become available slows or if new prescription drugs that are introduced into the market fail to achieve popularity, our pharmacy sales may be adversely affected. The withdrawal of certain drugs from the market or concerns about the safety or effectiveness of certain drugs or negative publicity surrounding certain categories of drugs may also have a negative effect on our pharmacy sales or may cause shifts in our pharmacy or front end product mix.

***Changes in third party reimbursement levels for prescription drugs and changes in industry pricing benchmarks could reduce our margins and have a material adverse effect on our business.***

Sales of prescription drugs reimbursed by third party payors, including the Medicare Part D plans and state sponsored Medicaid and related managed care Medicaid agencies, represented 97.0% of our business in fiscal 2014.

The continued efforts of the Federal government, health maintenance organizations, managed care organizations, pharmacy benefit management companies, other State and local government entities, and other third-party payors to reduce prescription drug costs and pharmacy reimbursement rates, as well as litigation relating to how drugs are priced, may impact our profitability. In addition, some of these entities may offer pricing terms that we may not be willing to accept or otherwise restrict our participation in their networks of pharmacy providers. Any significant loss of third-party business could have a material adverse effect on our business and results of operations.

Table of Contents

Certain provisions of the Deficit Reduction Act of 2005 ("DRA") sought to reduce federal spending by altering the Medicaid reimbursement formula for multi-source (i.e., generic) drugs ("AMP"). Although those reductions did not go into effect, the Patient Protection and Affordable Care Act, signed into law on March 23, 2010 (the "Patient Care Act") enacted a modified AMP reimbursement formula for multi-source drugs. The modified formula, when implemented, may reduce Medicaid reimbursements which could affect our revenues and profits. There have also been a number of other recent proposals and enactments by the Federal government and various states to reduce Medicare Part D and Medicaid reimbursement levels in response to budget problems. We expect other similar proposals in the future.

***We are subject to governmental regulations, procedures and requirements; our noncompliance or a significant regulatory change could adversely affect our business, the results of our operations or our financial condition.***

Our business is subject to numerous federal, state and local laws and regulations ("Regulations"). Changes in these Regulations may require extensive system and operating changes that may be difficult to implement. Untimely compliance or noncompliance with applicable Regulations could result in the imposition of civil and criminal penalties that could adversely affect the continued operation of our business, including: (i) suspension of payments from government programs; (ii) loss of required government certifications; (iii) loss of authorizations to participate in or exclusion from government reimbursement programs, such as the Medicare and Medicaid programs; (iv) loss of licenses; or (v) significant fines or monetary penalties. The Regulations to which we are subject include, but are not limited to, federal, state and local registration and regulation of pharmacies; dispensing and sale of controlled substances and products containing pseudoephedrine; applicable Medicare and Medicaid Regulations; the Health Insurance Portability and Accountability Act or ("HIPAA"); Regulations relating to the protection of the environment and health and safety matters, including those governing exposure to and the management and disposal of hazardous substances; Regulations enforced by the U. S. Federal Trade Commission, the U. S. Department of Health and Human Services and the Drug Enforcement Administration as well as state regulatory authorities, governing the sale, advertisement and promotion of products we sell; anti-kickback laws; false claims laws and federal and state laws governing the practice of the profession of pharmacy. We are also governed by federal and state laws of general applicability, including laws regulating matters of wage and hour laws, working conditions, health and safety and equal employment opportunity.

***Certain risks are inherent in providing pharmacy services; our insurance may not be adequate to cover any claims against us.***

Pharmacies are exposed to risks inherent in the packaging and distribution of pharmaceuticals and other healthcare products, such as with respect to improper filling of prescriptions, labeling of prescriptions, adequacy of warnings, unintentional distribution of counterfeit drugs and expiration of drugs. In addition, federal and state laws that require our pharmacists to offer counseling, without additional charge, to their customers about medication, dosage, delivery systems, common side effects and other information the pharmacists deem significant can impact our business. Our pharmacists may also have a duty to warn customers regarding any potential negative effects of a prescription drug if the warning could reduce or negate these effects. Although we maintain professional liability and errors and omissions liability insurance, from time to time, claims result in the payment of significant amounts, some portions of which are not funded by insurance. We cannot assure you that the coverage limits under our insurance programs will be adequate to protect us against future claims, or that we will be able to maintain this insurance on acceptable terms in the future. Our results of operations, financial condition or cash flows may be adversely affected if in the future our insurance coverage proves to be inadequate or unavailable or there is an increase in liability for which we self-insure or we suffer reputational harm as a result of an error or omission.

Table of Contents

*We may be subject to significant liability should the consumption of any of our products cause injury, illness or death.*

Products that we sell could become subject to contamination, product tampering, mislabeling or other damage requiring us to recall our private brand products. In addition, errors in the dispensing and packaging of pharmaceuticals could lead to serious injury or death. Product liability claims may be asserted against us with respect to any of the products or pharmaceuticals we sell and we may be obligated to recall our private brand products. A product liability judgment against us or a product recall could have a material, adverse effect on our business, financial condition or results of operations.

*If we fail to protect the security of personal information about our customers and associates, we could be subject to costly government enforcement actions or private litigation.*

Through our sales and marketing activities, we collect and store certain personal information that our customers provide to purchase products or services, enroll in promotional programs, register on our web site, or otherwise communicate and interact with us. We also gather and retain information about our associates in the normal course of business. We may share information about such persons with vendors that assist with certain aspects of our business. Despite instituted safeguards for the protection of such information, security could be compromised and confidential customer or business information misappropriated, for which we have paid related penalties in the past. Loss of customer or business information could disrupt our operations, damage our reputation, and expose us to claims from customers, financial institutions, payment card associations and other persons, any of which could have an adverse effect on our business, financial condition and results of operations. In addition, compliance with tougher privacy and information security laws and standards may result in significant expense due to increased investment in technology and the development of new operational processes.

**Item 1B. Unresolved SEC Staff Comments**

None

**Item 2. Properties**

As of March 1, 2014, we operated 4,587 retail drugstores. The average selling square feet of each store in our chain is approximately 10,000 square feet. The average total square feet of each store in our chain is approximately 12,600. The stores in the eastern part of the U.S. average 8,900 selling square feet per store (11,100 average total square feet per store). The stores in the western part of the U.S. average 14,900 selling square feet per store (19,400 average total square feet per store).

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

The table below identifies the number of stores by state as of March 1, 2014:

State	Store Count
Alabama	93
California	580
Colorado	20
Connecticut	77
Delaware	42
District of Columbia	7
Georgia	186
Idaho	13
Indiana	10
Kentucky	116
Louisiana	63
Massachusetts	148
Maine	79
Maryland	143
Michigan	277
Mississippi	26
North Carolina	224
Nevada	1
New Hampshire	68
New Jersey	257
New York	613
Ohio	225
Oregon	71
Pennsylvania	536
Rhode Island	43
South Carolina	95
Tennessee	81
Utah	22
Vermont	37
Virginia	192
Washington	138
West Virginia	104
<b>Total</b>	<b>4,587</b>

Our stores have the following attributes at March 1, 2014:

Attribute	Number	Percentage
Freestanding	2,812	61.3%
Drive through pharmacy	2,407	52.4%
GNC stores within a Rite Aid store	2,222	48.4%

We lease 4,329 of our operating drugstore facilities under non-cancelable leases, many of which have original terms of 10 to 22 years. In addition to minimum rental payments, which are set at competitive market rates, certain leases require additional payments based on sales volume, as well as reimbursement for taxes, maintenance and insurance. Most of our leases contain renewal options, some of which involve rent increases. The remaining 258 drugstore facilities are owned.

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

We own our corporate headquarters, which is located in a 205,000 square foot building at 30 Hunter Lane, Camp Hill, Pennsylvania 17011. We lease 366,400 square feet of space in various buildings near Harrisburg, Pennsylvania for document warehousing use and additional administrative personnel. We own additional buildings near Harrisburg, Pennsylvania which total 105,800 square feet and house our model store and additional administrative personnel.

We operate the following distribution centers and satellite distribution locations, which we own or lease as indicated:

Location	Owned or Leased	Approximate Square Footage
Poca, West Virginia	Owned	255,000
Dunbar, West Virginia(1)	Leased	110,000
Perryman, Maryland	Owned	885,000
Perryman, Maryland(1)	Leased	262,000
Tuscaloosa, Alabama	Owned	230,000
Cottondale, Alabama(1)	Leased	224,000
Pontiac, Michigan	Owned	325,000
Woodland, California	Owned	513,000
Woodland, California(1)	Leased	200,000
Wilsonville, Oregon	Leased	547,000
Lancaster, California	Owned	914,000
Charlotte, North Carolina	Owned	585,500
Charlotte, North Carolina(1)	Leased	291,000
Dayville, Connecticut	Owned	460,000
Liverpool, New York	Owned	828,000
Philadelphia, Pennsylvania	Owned	245,000
Philadelphia, Pennsylvania(1)	Leased	415,000

(1) Satellite distribution locations.

The original terms of the leases for our distribution centers and satellite distribution locations range from 5 to 22 years. In addition to minimum rental payments, certain distribution centers require tax reimbursement, maintenance and insurance. Most leases contain renewal options, some of which involve rent increases. Although from time to time, we may be near capacity at some of our distribution facilities, particularly at our older facilities, we believe that the capacity of our facilities is adequate.

We also own a 55,800 square foot ice cream manufacturing facility and lease a 32,000 square foot storage facility located in El Monte, California.

On a regular basis and as part of our normal business, we evaluate store performance and may reduce in size, close or relocate a store if the store is redundant, underperforming or otherwise deemed unsuitable. We also evaluate strategic dispositions and acquisitions of facilities and prescription files. When we reduce in size, close or relocate a store or close distribution center facilities, we often continue to have leasing obligations or own the property. We attempt to sublease this space. As of March 1, 2014, we had 7,383,081 square feet of excess space, 5,101,190 square feet of which was subleased.

Table of Contents

**Item 3. Legal Proceedings**

We have been named in a collective and class action lawsuit, *Indergit v. Rite Aid Corporation et al* pending in the United States District Court for the Southern District of New York, filed purportedly on behalf of current and former store managers working in our stores at various locations around the country. The lawsuit alleges that we failed to pay overtime to store managers as required under the FLSA and under certain New York state statutes. The lawsuit also seeks other relief, including liquidated damages, punitive damages, attorneys' fees, costs and injunctive relief arising out of state and federal claims for overtime pay. On April 2, 2010, the Court conditionally certified a nationwide collective group of individuals who worked for us as store managers since March 31, 2007. The Court ordered that Notice of the *Indergit* action be sent to the purported members of the collective group (approximately 7,000 current and former store managers) and approximately 1,550 joined the *Indergit* action. Discovery as to certification issues has been completed. On September 26, 2013, the Court granted Rule 23 class certification of the New York store manager claims as to liability only, but denied it as to damages, and denied our motion for decertification of the nationwide collective action claims. We have filed a motion seeking reconsideration of the Court's September 26, 2013 decision and briefing on that motion is complete and awaiting a ruling. Once approved by the Court, notice of the Rule 23 class certification as to liability only will be sent to approximately 1,750 current and former store managers in the state of New York. At this time, we are not able to either predict the outcome of this lawsuit or estimate a potential range of loss with respect to the lawsuit. Our management believes, however, that this lawsuit is without merit and not appropriate for collective or class action treatment and is vigorously defending this lawsuit.

We are currently a defendant in several putative class action lawsuits filed in state courts in California alleging violations of California wage and hour laws, rules and regulations pertaining primarily to failure to pay overtime, pay for missed meals and rest periods and failure to provide employee seating. These suits purport to be class actions and seek substantial damages. We have aggressively challenged both the merits of the lawsuits and the allegations that the cases should be certified as class or representative actions. With respect to cases involving meal and rest periods (*Chase and Scherwin v. Rite Aid Corporation* pending in Los Angeles County Superior Court and *Kyle v. Rite Aid Corporation* pending in Sacramento County Superior Court), in light of the cost and uncertainty involved in these lawsuits, we are involved in ongoing discussions with counsel for the Plaintiffs concerning a possible resolution of these matters. With respect to the other lawsuits described in this paragraph, we, at this time, are not able to predict either the outcome of these lawsuits or estimate a potential range of loss with respect to said lawsuits.

We were served with a United States Department of Health and Human Services Office of the Inspector General ("OIG") subpoena dated March 5, 2010 in connection with an investigation being conducted by the OIG and the United States Attorney's Office for the Central District of California. The subpoena requests records related to any gift card inducement programs for customers who transferred prescriptions for drugs or medicines to our pharmacies, and whether any customers who receive federally funded prescription benefits (e.g. Medicare and Medicaid) may have benefited from those programs. We have substantially completed our production of records in response to the subpoena. In June 2013, the government contacted us, and we are involved in ongoing discussions with the government regarding the matter. We are unable to predict the timing or outcome of any review by the government of such information.

We were served with a Civil Investigative Demand Subpoena Duces Tecum dated August 26, 2011 by the United States Attorney's Office for the Eastern District of Michigan. The subpoena requests records regarding Rite Aid's Rx Savings Program and the reporting of usual and customary charges to publicly funded health programs. In connection with the same investigation, we were served with a Civil Subpoena Duces Tecum dated February 22, 2013 by the State of Indiana Office of the Attorney

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

General. We have substantially completed our response to both of the subpoenas and are unable to predict the timing or outcome of any review by the government of such information.

In April 2012, we received an administrative subpoena from the Drug Enforcement Administration ("DEA"), Albany, New York District Office, requesting information regarding our sale of products containing pseudoephedrine ("PSE"). In April 2012, we also received a communication from the United States Attorneys Office ("USAO") for the Northern District of New York concerning an investigation of possible civil violations of the Combat Methamphetamine Epidemic Act of 2005 ("CMEA"). In April 2013, we received additional administrative subpoenas from DEA concerning certain retail PSE transactions at New York stores and the USAO commenced discussions with us regarding whether, from 2009 (upon implementation of an electronic PSE transaction logbook system) through the present, we sold products containing PSE in violation of the CMEA. Violations of the CMEA could result in the imposition of administrative, civil and/or criminal penalties against us. We are cooperating with the government and continue to provide information responsive to the subpoenas. We have entered into a tolling agreement with the USAO. We are unable to predict the timing or outcome of any review by the government of such information.

We received an additional administrative subpoena from the DEA in December 2013 requesting information in connection with an investigation of violations of the CMEA in West Virginia. We are unable to predict the timing or outcome of any review by the government of such information.

In January 2013, the DEA, Los Angeles District Office, served an administrative subpoena on us seeking documents related to prescriptions by a certain prescriber. The USAO, Central District of California, also contacted us about a related investigation into allegations that Rite Aid pharmacies filled certain controlled substance prescriptions for a number of practitioners after their DEA registrations had expired or otherwise become invalid in violation of the federal Controlled Substances Act and DEA regulations. We responded to the administrative subpoena and subsequent informal requests for information from the USAO. We met with the USAO and DEA in January 2014 and are involved in ongoing discussions on the matter.

We were served with a Civil Investigative Demand dated June 21, 2013 by the USAO for the Eastern District of California. The CID requests records and responses to interrogatories regarding Rite Aid's Drug Utilization Review and prescription dispensing protocol and the dispensing of drugs designated "Code 1" by the State of California. We are in the process of producing responsive documents and interrogatory responses and are unable to predict the timing or outcome of any review by the government of such information.

In addition to the above described matters, we are subject from time to time to various claims and lawsuits and governmental investigations arising in the ordinary course of business. While our management cannot predict the outcome of any of the claims, our management does not believe that the outcome of any of these legal matters will be material to our consolidated financial position. It is possible, however, that our results of operations or cash flows in a particular fiscal period could be materially affected by an unfavorable resolution of pending litigation or contingencies.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Our common stock is listed on the NYSE under the symbol "RAD." On April 11, 2014, we had approximately 22,200 stockholders of record. Quarterly high and low closing stock prices, based on the composite transactions, are shown below.

<b>Fiscal Year</b>	<b>Quarter</b>	<b>High</b>	<b>Low</b>
2015 (through April 11, 2014)	First	\$ 7.04	\$ 6.05
2014	First	2.97	1.65
	Second	3.52	2.74
	Third	5.92	3.46
	Fourth	6.74	4.99
2013	First	2.05	1.18
	Second	1.45	1.12
	Third	1.33	1.00
	Fourth	1.70	0.97

We have not declared or paid any cash dividends on our common stock since the third quarter of fiscal 2000 and we do not anticipate paying cash dividends on our common stock in the foreseeable future. Our senior secured credit facility, second priority secured term loan facilities and some of the indentures that govern our other outstanding indebtedness restrict our ability to pay dividends.

We have not sold any unregistered equity securities during the period covered by this report, nor have we repurchased any of our common stock, during the period covered by this report.

Rite Aid Lease Management Company, a subsidiary of the Company, had 213,000 shares of its Cumulative Preferred Stock, Class A, par value \$100 per share ("RALMCO Cumulative Preferred Stock"), outstanding. On November 29, 2013, we repurchased all of the outstanding RALMCO Cumulative Preferred Stock for \$21,034.

On September 26, 2013, we agreed to exchange eight shares of our 7% Series G Convertible Preferred Stock (the "Series G preferred stock") and 1,876,013 shares of our 6% Series H Convertible Preferred Stock (the "Series H preferred stock", collectively the "Preferred Stock"), held by Green Equity Investors III, L.P. ("LGP") for 40,000,000 shares of our common stock, par value \$1.00 per share (the "Exchange"), with a market value of \$190,400 at the \$4.76 per share closing price on the Settlement Date (as hereinafter defined), pursuant to an individually negotiated exchange transaction. The Exchange settled on September 30, 2013 (the "Settlement Date"). Following the Settlement Date, no shares of the Series G preferred stock or Series H preferred stock remained outstanding and our restated certificate of incorporation was amended to eliminate all references to the Series G preferred stock and Series H preferred stock.

Table of Contents**STOCK PERFORMANCE GRAPH**

The graph below compares the yearly percentage change in the cumulative total stockholder return on our common stock for the last five fiscal years with the cumulative total return on (i) the Russell 2000 Consumer Staples Index and (ii) the Russell 2000 Index, over the same period (assuming the investment of \$100.00 in our common stock and such indexes on February 28, 2009 and reinvestment of dividends).

For comparison of cumulative total return, we have elected to use the Russell 2000 Consumer Staples Index, consisting of 66 companies, and the Russell 2000 Index. The Russell 2000 Consumer Staples Index is a capitalization-weighted index of companies that provide products directly to consumers that are typically considered nondiscretionary items based on consumer purchasing habits. The Russell 2000 Index consists of the smallest 2000 companies in the Russell 3000 Index and represents the universe of small capitalization stocks from which many active money managers typically select.

Table of Contents

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Overview**

Net income for fiscal 2014 was \$249.4 million or \$0.23 per basic and diluted share compared to net income for fiscal 2013 of \$118.1 million or \$0.12 per basic and diluted share. Contributing to the increase in net income was an increase in Adjusted EBITDA and lower interest expense, loss on debt retirement of \$62.4 million versus \$140.5 million in the prior year, and lower lease termination and impairment charges. Partially offsetting these improvements is a LIFO charge of \$104.1 million in fiscal 2014 compared to a LIFO credit of \$147.9 million in fiscal 2013.

Adjusted EBITDA for fiscal 2014 was \$1,325.0 million or 5.2 percent of revenues, compared to \$1,128.4 million or 4.4% of revenues for fiscal year 2013. The increase in Adjusted EBITDA was driven by increased pharmacy gross profit due to the continued benefit of generic introductions on pharmacy gross margin in the first half of the fiscal year, purchasing efficiencies on generic drugs and strong cost control.

Our operating results are described in more detail in the "*Results of Operations*" section below. Some of the key factors that impacted our results are summarized as follows:

*Sales Trends:* Our revenue growth for fiscal 2014 was 0.5% compared to revenue decline of 2.8% for fiscal 2013. Fiscal 2014 revenues were positively impacted by an increase in same store sales, partially offset by a decrease in same store prescription count and a negative impact from generic introductions and continued lower reimbursement rates and store closings.

*Gross Profit:* Our gross profit was positively impacted by the continued impact of generic introductions, which have a higher gross profit than their brand counterparts, and purchasing efficiencies on generic drugs, offset by a higher LIFO charge. We record the value of our inventory on the Last-In, First-Out (LIFO) method. We recorded a LIFO charge of \$104.1 million and a LIFO credit of \$147.9 million in fiscal 2014 and 2013, respectively. The current year LIFO charge was due to higher pharmacy inflation rates.

*Selling, General and Administrative Expenses:* Our selling, general and administrative expenses ("SG&A") decreased in fiscal 2014 due primarily to a lower reversal of certain tax indemnifications assets, lower litigation costs and legal and professional fees, advertising, and depreciation and amortization. These amounts are partially offset by increased salary and benefit costs as well as the prior year \$18.1 million favorable payment card interchange fee litigation settlement. Both the current and prior year reversals of \$30.5 million and \$91.3 million of tax indemnification assets resulting from our settlement with the IRS associated with a pre-acquisition Brooks Eckerd tax audit are offset by an income tax benefit.

*Lease Termination and Impairment Charges:* We recorded lease terminations and impairment charges of \$41.3 million in fiscal 2014 compared to \$70.9 million in fiscal 2013. Our charges have been trending lower due to improved results of operations, which reduces our impairment charges, and closing fewer stores that require lease termination charges.

*Debt Refinancing and Other Capital Transactions:* During fiscal 2014, we continued to take steps to extend the terms of our debt, reduce interest expense and to obtain more flexibility. We expect to engage in similar efforts in the future. During fiscal 2014 and fiscal 2013, we completed several refinancing transactions which caused interest expense to decrease over \$90.0 million in fiscal 2014. In March 2014, we completed the refinancing of our Tranche 6 Term Loan with our new Tranche 7 Term Loan which will reduce interest expense by an additional \$5.0 million per year. These transactions are described in more detail in the "*Liquidity and Capital Resources*" section below.

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

**Income Tax:** Net income for fiscal 2014 included income tax expense of \$0.8 million, compared to income tax benefit of \$110.6 million for fiscal 2013. Income tax expense for fiscal 2014 resulted in an increase in the deferred tax valuation allowance to offset the windfall tax benefits recorded in additional paid-in capital ("APIC") pursuant to the tax law ordering approach, offset by adjustments to unrecognized tax benefits due to the lapse of statute of limitations. The benefit recognized in fiscal 2013 was primarily comprised of recognition of previously unrecognized tax benefits resulting from the Internal Revenue Service ("IRS") and Commonwealth of Massachusetts Appellate Divisions settlements related to the examinations of the Brooks Eckerd fiscal years 2004 - 2007 and fiscal years 2005 - 2007, respectively. This amount was offset by a reversal of the related tax indemnification asset which was recorded in selling, general and administrative expenses as these audits were related to pre-acquisition periods. Additionally, the income tax expense for 2014 and benefit for 2013 was recorded net of adjustments to maintain a full valuation allowance against our net deferred tax assets.

We maintain a full valuation allowance against the net deferred tax assets as a result of a three year cumulative loss position as of March 1, 2014. ASC 740, "Income Taxes" requires a company to evaluate its deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. A cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, ASC 740 precludes relying on projections of future taxable income to support the recognition of deferred tax assets.

Table of Contents

**Revenues**

*Fiscal 2014 compared to Fiscal 2013:* The 0.5% increase in revenue was due primarily to an increase in pharmacy same store sales, partially offset by a decrease in front end sales. The increase in pharmacy same stores sales was driven primarily by brand drug inflation, partially offset by a decrease in same store prescription count, negative impact from generic introductions and continued reimbursement rate pressures. We expect lower reimbursement rates to continue to have a negative impact on our revenues. Same store sales trends for fiscal 2014 and fiscal 2013 are described in the following paragraphs. We include in same store sales all stores that have been open at least one year. Stores in liquidation are considered closed. Relocation stores are not included in same store sales until one year has lapsed.

Pharmacy same store sales increased 1.2%. Pharmacy same store sales were positively impacted by brand drug inflation. The increases were partially offset by a decrease of 0.3% in same store prescription count and the continued impact of generic drug introductions, which have a substantially lower selling price than their brand counterparts but higher gross profit. Pharmacy same store sales were also negatively impacted by continued reimbursement rate pressures.

Front end same store sales decreased 0.2%. The decrease in same store front end sales was impacted by consumer spending habits and the heavy promotional environment, partially offset by the positive impact of our wellness + loyalty program, incremental sales from our Wellness format stores, and other management initiatives to increase front end sales. Active wellness + members, defined as those who have used their cards at least twice during the last twenty-six weeks, was nearly 25 million as of March 1, 2014. We have completed over 1,200 Wellness store remodels as of March 1, 2014.

*Fiscal 2013 compared to Fiscal 2012:* The 2.8% decrease in revenue was due primarily to one less week in fiscal 2013 and a decrease in same store sales. The decrease in same stores sales was driven primarily by generic introductions and continued reimbursement rate pressures, partially offset by increased same store prescription count, the positive impact of our wellness + loyalty program, and other management initiatives to increase sales. The increase in same store prescription count was driven in part by the Walgreens / Express Scripts dispute which was settled in September 2012, our immunization program and our wellness + loyalty program.

Pharmacy same store sales decreased 1.0%. Pharmacy same store sales were negatively impacted by generic drug introductions and lower reimbursement rates. These decreases were partially offset by an increase of 3.4% in same store prescription count driven in part by incremental prescriptions gained from the Walgreens / Express Scripts dispute and by our immunization program and wellness + loyalty program.

Front end same store sales increased 1.4%. The increase in front end same store sales reflects the positive impact of our wellness + loyalty program, incremental sales from our Wellness format stores, and other management initiatives to increase front end sales.

Table of Contents*Costs and Expenses*

	March 1, 2014 (52 Weeks)	Year Ended March 2, 2013 (52 Weeks)	March 3, 2012 (53 Weeks)
(Dollars in thousands)

Gross profit	7,323,734	7,318,276	6,793,335
Gross margin	28.7%	28.8%	26.0%
FIFO gross profit	7,427,876	7,170,394	6,982,057
FIFO gross margin	29.1%	28.2%	26.7%
Selling, general and administrative expenses	\$ 6,561,162	\$ 6,600,765	\$ 6,531,411
Selling, general and administrative expenses as a percentage of revenues	25.7%	26.0%	25.0%
Lease termination and impairment charges	41,304	70,859	100,053
Interest expense	424,591	515,421	529,255
Loss on debt retirements, net	62,443	140,502	33,576
Gain on sale of assets, net	(15,984)	(16,776)	(8,703)

*Cost of Goods Sold*

Gross profit increased by \$5.5 million in fiscal 2014 compared to fiscal 2013. Pharmacy gross profit was higher due to the continued benefit of generic drug introductions, purchasing efficiencies on generic drugs, favorable reimbursement rate adjustments from a decision by California to exclude certain drugs from the retroactive California Department of Healthcare Services (MediCal) reimbursement rate adjustments as well as from certain commercial third party payors and inflation on brand drugs, partially offset by a decrease in same store prescription count and continued reimbursement pressures. Front-end gross profit was slightly higher due to higher vendor promotional funding, partially offset by lower sales and higher promotional markdowns. Gross profit was negatively impacted by a LIFO charge in the current year compared to a LIFO credit in the prior year. Overall gross margin was 28.7% for fiscal 2014 compared to 28.8% in fiscal 2013.

Gross margin was slightly lower due primarily to a LIFO charge this year compared to a LIFO credit last year as well as continued reimbursement pressures and increased promotional markdowns, partially offset by the continued benefit of generic introductions, inflation on brand drugs, purchasing efficiencies on generic drugs and increased vendor promotional funding.

Gross profit increased by \$524.9 million in fiscal 2013 compared to fiscal 2012. The overall increase in gross profit was due to a LIFO credit resulting from significant generic deflation during the year, compared to a LIFO charge in the prior year and an overall increase in pharmacy gross profit, partially offset by a slightly lower front end gross profit. Pharmacy gross profit was higher due to increased prescription volume driven, in part, from the Walgreens/ Express Scripts dispute, higher immunizations and our wellness + loyalty program. Front-end gross profit was slightly lower due to higher tier discounts from our wellness + customer loyalty program and other markdowns, partially offset by increased sales.

We use the last-in, first-out (LIFO) method of inventory valuation, which is determined annually when inflation rates and inventory levels are finalized. Therefore, LIFO costs for interim period financial statements are estimated. The LIFO charge for fiscal 2014 was \$104.1 million compared to a LIFO credit of \$147.9 million in fiscal 2013 and a LIFO charge of \$188.7 million in fiscal 2012. The LIFO charge for fiscal 2014 was primarily the result of higher inflation on brand pharmacy products,

Table of Contents

partially offset by deflation on generic pharmacy products, which contributed to overall inflation in fiscal 2014. The inflation in fiscal 2014 compares to overall deflation in fiscal 2013, which was due to significant generic pharmacy product deflation, partially offset by brand pharmacy product inflation.

During fiscal 2013, we experienced significant price decreases on high volume generic introductions. During the first few months after new generic drugs are introduced, supplier prices tend to decrease as multiple suppliers enter the market place. This resulted in significant deflation on generic pharmacy products which more than offset brand pharmacy product inflation, causing overall deflation in fiscal 2013, and consequently, resulted in a LIFO credit of \$147.9 million.

During fiscal 2012, we experienced significant brand pharmacy product inflation, partially offset by generic pharmacy product deflation, which contributed to overall inflation during fiscal 2012. The overall inflation in fiscal 2012 resulted in a LIFO charge of \$188.7 million.

***Selling, General and Administrative Expenses***

SG&A expenses decreased by \$39.6 million in fiscal 2014 compared to fiscal 2013 due primarily to a lower reversal of certain tax indemnification assets, lower litigation costs and legal and professional fees, advertising, and depreciation and amortization. These amounts are partially offset by increased salary and benefit costs as well as the prior year \$18.1 million favorable payment card interchange fee litigation settlement. Both the current and prior year reversals of \$30.5 million and \$91.3 million, respectively, of tax indemnification assets resulting from our settlement with the IRS associated with a pre-acquisition Brooks Eckerd tax audit, are offset by an income tax benefit.

SG&A expenses increased by \$69.4 million in fiscal 2013 compared to fiscal 2012 due primarily to the reversal of \$91.3 million of tax indemnification asset resulting from our settlement with the IRS and certain states associated with pre-acquisition Brooks Eckerd tax issues, which are offset by an income tax benefit as noted below (in "*Income Taxes*"), litigation charges relating to the settlement of certain labor related actions and increased associate bonus expense. These amounts are partially offset by lower operating costs associated with one less week during the 2013 fiscal year, lower depreciation and amortization, lower self insurance expense due primarily to the impact of the discount rate change on the prior year expense and the favorable settlement related to payment card interchange fee litigation. SG&A expenses as a percentage of revenue was 26.0% in fiscal 2013 compared to 25.0% in fiscal 2012. The increase in SG&A as a percentage of revenues relative to the prior year is due in part to the impact of generic introductions and reimbursement rate pressures which resulted in a lower revenue base to measure our SG&A expenses against.

***Lease Termination and Impairment Charges***

*Impairment Charges:*

We evaluate long-lived assets for impairment whenever events or changes in circumstances indicate that an asset group has a carrying value that may not be recoverable. The individual operating store is the lowest level for which cash flows are identifiable. As such, we evaluate individual stores for recoverability of assets. To determine if a store needs to be tested for recoverability, we consider items such as decreases in market prices, changes in the manner in which the store is being used or physical condition, changes in legal factors or business climate, an accumulation of losses significantly in excess of budget, a current period operating or cash flow loss combined with a history of operating or cash flow losses or a projection of continuing losses, or an expectation that the store will be closed or sold.

We monitor new and recently relocated stores against operational projections and other strategic factors such as regional economics, new competitive entries and other local market considerations to determine if an impairment evaluation is required. For other stores, we perform a recoverability analysis if they have experienced current-period and historical cash flow losses.

Table of Contents

In performing the recoverability test, we compare the expected future cash flows of a store to the carrying amount of its assets. Significant judgment is used to estimate future cash flows. Major assumptions that contribute to our future cash flow projections include expected sales, gross profit, and distribution expenses; expected costs such as payroll, occupancy costs and advertising expenses; and estimates for other significant selling, and general and administrative expenses. Many long-term macro-economic and industry factors are considered, both quantitatively and qualitatively, in our future cash flow assumptions. In addition to current and expected economic conditions such as inflation, interest and unemployment rates that affect customer shopping patterns, we consider that we operate in a highly competitive industry which includes the actions of other national and regional drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, dollar stores and internet pharmacies. Many of our competitors are spending significant capital and promotional dollars in certain geographies to gain market share. We have assumed certain sales growth from our loyalty program and other initiatives to grow sales. Recent Pharmacy Benefit Management consolidation and efforts of third party public and private payors have reduced pharmacy reimbursement rates in recent years. We expect this rate compression, which currently affects 97% of our pharmacy business, to continue to affect us in the foreseeable future. We operate in a highly regulated industry and must make assumptions related to Federal and State efforts and proposals to affect the pricing and regulations related to prescription drugs, as well as, expected revenues and costs related to the Patient Protection and Affordable Care Act (health care reform).

Additionally, we take into consideration that certain operating stores are executing specific improvement plans which are monitored quarterly to recoup recent capital investments, such as an acquisition of an independent pharmacy, which we have made to respond to specific competitive or local market conditions, or have specific programs tailored towards a specific geography or market.

We recorded impairment charges of \$13.1 million in fiscal 2014, \$24.9 million in fiscal 2013 and \$52.0 million in fiscal 2012. Our methodology for recording impairment charges has not changed materially, and has been consistently applied in the periods presented.

At March 1, 2014, approximately \$1.9 billion of our long-lived assets, including intangible assets, were associated with 4,587 active operating stores.

If an operating store's estimated future undiscounted cash flows are not sufficient to cover its carrying value, its carrying value is reduced to fair value which is its estimated future discounted cash flows. The discount rate is commensurate with the risks associated with the recovery of a similar asset.

An impairment charge is recorded in the period that the store does not meet its original return on investment and/or has an operating loss for the last two years and its projected cash flows do not exceed its current asset carrying value. The amount of the impairment charge is the entire difference between the current carrying asset value and the estimated fair value of the assets using discounted future cash flows. Most stores are fully impaired in the period that the impairment charge is originally recorded.

We recorded impairment charges for active stores of \$11.7 million in fiscal 2014, \$24.0 million in fiscal 2013 and \$43.4 million in fiscal 2012.

We review key performance results for active stores on a quarterly basis and approve certain stores for closure. Impairment for closed stores, if any (many stores are closed on lease expiration), are recorded in the quarter the closure decision is made and approved. Closure decisions are made on an individual store or regional basis considering all of the macro-economic, industry and other factors discussed above, in addition to, the operating store's individual operating results. We currently have no plans to close a significant number of active stores in future periods. In the next fiscal year, we currently expect to close approximately 40 stores, primarily as a result of lease expirations. We recorded

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

impairment charges for closed facilities of \$1.3 million in fiscal 2014, \$0.9 million in fiscal 2013 and \$8.6 million in fiscal 2012.

Included in the impairment charges noted above were charges of \$0.8 million in fiscal 2014, \$0.6 million in fiscal 2013 and \$5.9 million in fiscal 2012 for existing owned surplus property. Assets to be disposed of are evaluated quarterly to determine if an additional impairment charge is required. Fair value estimates are provided by independent brokers who operate in the local markets where the assets are located.

The following table summarizes the impairment charges and number of locations, segregated by closed facilities and active stores that have been recorded in fiscal 2014, 2013 and 2012:

	Year Ended					
	March 1, 2014		March 2, 2013		March 3, 2012	
	Number	Charge	Number	Charge	Number	Charge
<b>Closed facilities:</b>						
Actual and approved store closings	31	\$ 531	29	\$ 325	55	\$ 2,283
Actual and approved relocations					2	499
Existing surplus properties	7	798	5	594	12	5,863
<b>Total impairment charges-closed facilities</b>	<b>38</b>	<b>1,329</b>	<b>34</b>	<b>919</b>	<b>69</b>	<b>8,645</b>
<b>Active stores:</b>						
Additional current period charges for stores previously impaired in prior periods(1)	378	4,162	469	5,835	591	9,822
Charges for new, relocated and remodeled stores that did not meet their asset recoverability test in the current period(2)	1	4,028	14	9,190	19	18,926
Charges for the remaining stores that did not meet their asset recoverability test in the current period(3)	17	3,558	47	8,948	53	14,605
<b>Total impairment charges-active stores</b>	<b>396</b>	<b>11,748</b>	<b>530</b>	<b>23,973</b>	<b>663</b>	<b>43,353</b>
<b>Total impairment charges-all locations</b>	<b>434</b>	<b>\$ 13,077</b>	<b>564</b>	<b>\$ 24,892</b>	<b>732</b>	<b>\$ 51,998</b>
Total number of active stores	4,587		4,623		4,667	
Stores impaired in prior periods with no current charge	709		588		428	
Stores with a current period charge	396		530		663	
<b>Total cumulative active stores with impairment charges</b>	<b>1,105</b>		<b>1,118</b>		<b>1,091</b>	

(1)

These charges are related to stores that were impaired for the first time in prior periods. Most active stores, requiring an impairment charge, are fully impaired in the first period that they do not meet their asset recoverability test. However, in each prior period presented, a minority of stores were partially impaired since their fair value supported a reduced net book value. Accordingly, these stores may be further impaired in the current and future periods as a result of changes in their actual or projected cash flows, or changes to their fair value estimates. Also, we make ongoing capital additions to certain stores to improve their operating results or to meet geographical competition, which if later are deemed to be unrecoverable, will be impaired in future periods. Of this total, 375, 464 and 583 stores for fiscal years 2014, 2013 and 2012, respectively have been fully impaired.

Table of Contents

- (2) These charges are related to new stores (open at least 3 years) and relocated stores (relocated in the last 2 years) and significant strategic remodels (remodeled in the last year) that did not meet their recoverability test during the current period. These stores have not met our original return on investment projections and have a historical loss of at least 2 years. Their future cash flow projections do not recover their current carrying value. Of this total, 1, 14 and 19 stores for fiscal years 2014, 2013 and 2012, respectively have been fully impaired.
- (3) These charges are related to the remaining active stores that did not meet the recoverability test during the current period. These stores have a historical loss of at least 2 years. Their future cash flow projections do not recover their current carrying value. Of this total, 14, 43 and 43 stores for fiscal years 2014, 2013 and 2012, respectively have been fully impaired.

The primary drivers of our impairment charges are each store's current and historical operating performance and the assumptions that we make about each store's operating performance in future periods. Projected cash flows are updated based on the next year's operating budget which includes the qualitative factors noted above. We are unable to predict with any degree of certainty which individual stores will fall short or exceed future operating plans. Accordingly, we are unable to describe future trends that would affect our impairment charges, including the likely stores and their related asset values that may fail their recoverability test in future periods.

To the extent that actual future cash flows differ from our projections materially, because of the reasons discussed above, certain stores that are either not impaired or partially impaired in the current period may be further impaired in future periods. A 100 basis point decrease in our future sales assumptions as of March 1, 2014 would have resulted in an additional fiscal 2014 impairment charge of \$0.8 million. A 100 basis point increase in our future sales assumptions as of March 1, 2014 would have reduced the fiscal 2014 impairment charge by \$0.7 million. Changes in our discount rate of 50 basis points would not have a material impact on the total impairment recorded in fiscal 2014.

*Lease Termination Charges:* Charges to close a store, which principally consist of continuing lease obligations, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in ASC 420, "Exit or Disposal Cost Obligations." We calculate our liability for closed stores on a store-by-store basis. The calculation includes the discounted effect of future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease term, net of estimated cost recoveries that may be achieved through subletting properties or through favorable lease terminations. We evaluate these assumptions each quarter and adjust the liability accordingly. As part of our ongoing business activities, we assess stores and distribution centers for potential closure and relocation. Decisions to close or relocate stores or distribution centers in future periods would result in lease termination charges for lease exit costs and liquidation of inventory, as well as impairment of assets at these locations.

In fiscal 2014, 2013 and 2012, we recorded lease termination charges of \$28.2 million, \$46.0 million and \$48.1 million, respectively. These charges related to changes in future assumptions, interest accretion and provisions for 15 stores in fiscal 2014, 14 stores in fiscal 2013 and 23 stores in fiscal 2012. Of the approximate 40 store closures for fiscal 2015, we anticipate 15 will require a store lease closing provision.

***Interest Expense***

In fiscal 2014, 2013, and 2012, interest expense was \$424.6 million, \$515.4 million and \$529.3 million, respectively. The reduction in interest expense in fiscal 2014 compared to fiscal 2013 is primarily the result of refinancing during the fourth quarter of fiscal 2013 and the first and second quarters of fiscal 2014. The reduction in interest expense in fiscal 2013 compared to fiscal 2012 is primarily due to one less week in fiscal 2013.

The annual weighted average interest rates on our indebtedness in fiscal 2014, 2013 and 2012 were 6.4%, 7.1% and 7.4%, respectively.

Table of Contents***Income Taxes***

Income tax expense of \$0.8 million, income tax benefit of \$110.6 million and income tax benefit of \$23.7 million, has been recorded for fiscal 2014, 2013 and 2012, respectively. Net income for fiscal 2014 included income tax expense of \$0.8 million primarily attributable to an increase in the deferred tax valuation allowance to offset the windfall tax benefits recorded in APIC pursuant to the tax law ordering approach offset by adjustments to unrecognized tax benefits due to the lapse of statute of limitations.

ASC 740, "Income Taxes" requires a company to evaluate its deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. We take into account all available positive and negative evidence with regard to the recognition of a deferred tax asset including our past earnings history, expected future earnings, the character and jurisdiction of such earnings, unsettled circumstances that, if unfavorably resolved, would adversely affect recognition of a deferred tax asset, carryback and carryforward periods and tax planning strategies that could potentially enhance the likelihood of realization of a deferred tax asset. A cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, ASC 740 precludes relying on projections of future taxable income to support the recognition of deferred tax assets. The ultimate realization of deferred tax assets is dependent upon the existence of sufficient taxable income generated in the carryforward periods.

Net Income for fiscal 2013 included income tax benefit of \$110.6 million primarily comprised of adjustments to unrecognized tax benefits for the appellate settlements of the Brooks Eckerd IRS Audit for the fiscal years 2004 - 2007 and the Commonwealth of Massachusetts Audit for fiscal years 2005 - 2007 as well as for the lapse of statute of limitations. The appellate settlements as well as the majority of the lapse of statute of limitations is offset by a reversal of the related tax indemnification asset which was recorded in selling, general and administrative expenses as these audits were related to pre-acquisition periods. The fiscal 2012 income tax benefit of \$23.7 million was primarily comprised of adjustments to unrecognized tax benefits due to the lapse of statute of limitations. Additionally, the income tax expense for 2014 and benefit for 2013 and 2012 was recorded net of adjustments to maintain a full valuation allowance against our net deferred tax assets. We monitor all available evidence related to our ability to utilize our remaining net deferred tax asset. We maintained a full valuation allowance of \$2,060.8 million and \$2,224.0 million against remaining net deferred tax assets as a result of a cumulative loss at fiscal year end 2014 and 2013, respectively.

***Dilutive Equity Issuances***

On March 1, 2014, 971.3 million shares of common stock, which includes unvested restricted shares, were outstanding and an additional 80.8 million shares of common stock were issuable related to outstanding stock options and convertible notes.

On March 1, 2014, our 80.8 million shares of potentially issuable common stock consisted of the following (shares in thousands):

<b>Strike price</b>	<b>Outstanding Stock Options(a)</b>	<b>Convertible Notes</b>	<b>Total</b>
\$0.99 and under	3,419		3,419
\$1.00 to \$1.99	43,373		43,373
\$2.00 to \$2.99	4,768	24,800	29,568
\$3.00 to \$3.99	383		383
\$4.00 to \$4.99	1,549		1,549
\$5.00 to \$5.99	663		663
\$6.00 and over	1,811		1,811
Total issuable shares	55,966	24,800	80,766

(a) The exercise of these options would provide cash of \$92.5 million.

Table of Contents

**Liquidity and Capital Resources**

***General***

We have two primary sources of liquidity: (i) cash provided by operating activities and (ii) borrowings under the revolving credit facility of our senior secured credit facility. Our principal uses of cash are to provide working capital for operations, to service our obligations to pay interest and principal on debt and to fund capital expenditures. Total liquidity as of March 1, 2014 was \$1,317.6 million, which consisted of revolver borrowing capacity of \$1,315.1 million and invested cash of \$2.5 million.

***Credit Facility***

Our senior secured credit facility consists of a \$1.795 billion revolving credit facility and a \$1.152 billion Tranche 7 Term Loan. Borrowings under the revolving credit facility bear interest at a rate per annum between LIBOR plus 2.25% and LIBOR plus 2.75%, if we choose to make LIBOR borrowings, or between Citibank's base rate plus 1.25% and Citibank's base rate plus 1.75% in each case based upon the amount of revolver availability as defined in the senior secured credit facility. We are required to pay fees between 0.375% and 0.50% per annum on the daily unused amount of the revolver, depending on the amount of revolver availability. Amounts drawn under the revolver become due and payable on February 21, 2018.

Our ability to borrow under the revolver is based upon a specified borrowing base consisting of accounts receivable, inventory and prescription files. At March 1, 2014, we had \$400.0 million of borrowings outstanding under the revolver and had letters of credit outstanding against the revolver of \$79.9 million, which resulted in additional borrowing capacity of \$1,315.1 million.

On March 14, 2014, we amended and restated our credit agreement governing our senior secured credit facility, pursuant to which we prepaid our outstanding Tranche 6 Term Loan with the proceeds of a new \$1.152 billion Tranche 7 Term Loan. The \$1.152 billion Tranche 7 Term Loan matures on February 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 2.75% with a LIBOR floor of 0.75%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 1.75%. We must make mandatory prepayments of the Tranche 7 Term Loan with the proceeds of certain asset dispositions and casualty events (subject to certain limitations), and with the proceeds of certain issuances of debt (subject to certain exceptions). If at any time there is a shortfall in our borrowing base under our senior secured credit facility, prepayment of the Tranche 7 Term Loan may also be required.

The senior secured credit facility restricts us and the subsidiary guarantors from accumulating cash on hand in excess of \$200.0 million at any time when revolving loans are outstanding (not including cash located in our store deposit accounts, cash necessary to cover our current liabilities and certain other exceptions) and from accumulating cash on hand with revolver borrowings in excess of \$100.0 million over three consecutive business days. The senior secured credit facility also states that if at any time (other than following the exercise of remedies or acceleration of any senior obligations or second priority debt and receipt of a triggering notice by the senior collateral agent from a representative of the senior obligations or the second priority debt) either (a) an event of default exists under our senior secured credit facility or (b) the sum of revolver availability under our senior secured credit facility and certain amounts held on deposit with the senior collateral agent in a concentration account is less than \$100.0 million for three consecutive business days (a "cash sweep period"), the funds in our deposit accounts will be swept to a concentration account with the senior collateral agent and will be applied first to repay outstanding revolving loans under the senior secured credit facility, and then held as collateral for the senior obligations until such cash sweep period is rescinded pursuant to the terms of our senior secured credit facility.

Table of Contents

The senior secured credit facility allows us to have outstanding, at any time, up to \$1.5 billion in secured second priority debt and unsecured debt in addition to borrowings under the senior secured credit facility and existing indebtedness, provided that not in excess of \$750.0 million of such secured second priority debt and unsecured debt shall mature or require scheduled payments of principal prior to May 21, 2020. The senior secured credit facility allows us to incur an unlimited amount of unsecured debt with a maturity beyond May 21, 2020; however, certain of our other outstanding indebtedness limits the amount of unsecured debt that can be incurred if certain interest coverage levels are not met at the time of incurrence of said debt or other exemptions are not available. The senior secured credit facility also contains certain restrictions on the amount of secured first priority debt we are able to incur. The senior secured facility also allows, so long as the senior secured credit facility is not in default and we maintain availability on the revolving credit facility of more than \$100.0 million, for the voluntary repurchase of any debt and the mandatory repurchase of our 8.5% convertible notes due 2015.

Our senior secured credit facility contains covenants which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, sale of assets, mergers and acquisitions and the granting of liens. Our credit facility also has one financial covenant, which is the maintenance of a fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150.0 million, we maintain a minimum fixed charge coverage ratio of 1.00 to 1.00. As of March 1, 2014, availability under the revolving credit facility was in excess of \$150.0 million and our fixed charge coverage ratio was greater than 1.00 to 1.00.

The senior secured credit facility provides for customary events of default including nonpayment, misrepresentation, breach of covenants and bankruptcy. It is also an event of default if we fail to make any required payment on debt having a principal amount in excess of \$50.0 million or any event occurs that enables, or which with the giving of notice or the lapse of time would enable, the holder of such debt to accelerate the maturity or require the repurchase of such debt. The mandatory repurchase of the 8.5% convertible notes due 2015 is excluded from this event of default.

On February 21, 2013, we entered into a second priority secured term loan facility, which includes a \$470.0 million second priority secured term loan (the "Tranche 1 Term Loan"). The Tranche 1 Term Loan matures on August 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 4.75% with a LIBOR floor of 1.00%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 3.75%.

On June 21, 2013, we entered into a new second priority secured term loan facility, which includes a \$500.0 million second priority secured term loan (the "Tranche 2 Term Loan"). The Tranche 2 Term Loan matures on June 21, 2021 and currently bears interest at a rate per annum equal to LIBOR plus 3.875% with a LIBOR floor of 1.00%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 2.875%.

The second priority secured term loan facilities and the indentures that govern our secured and guaranteed unsecured notes contain restrictions on the amount of additional secured and unsecured debt that can be incurred by us. As of March 1, 2014, the amount of additional secured debt that could be incurred under the most restrictive covenant of the second priority secured term loan facilities and these indentures was approximately \$1.4 billion (which amount does not include the ability to enter into certain sale and leaseback transactions). However, we currently cannot incur any additional secured debt assuming a fully drawn revolver and the outstanding letters of credit. The ability to issue additional unsecured debt under these indentures is generally governed by an interest coverage ratio test. As of March 1, 2014, we had the ability to issue additional unsecured debt under the second lien credit facilities and other indentures.

Table of Contents

***Other 2014 Transactions***

In June 2013, \$419.2 million aggregate principal amount of the outstanding 7.5% senior secured notes due 2017 were tendered and repurchased by us. In July 2013, we redeemed the remaining 7.5% notes for \$85.2 million which included the call premium and interest to the redemption date. The tender offer for, and redemption of, the 7.5% notes were funded using the proceeds from the Tranche 2 Term Loan, borrowings under our revolving credit facility and available cash.

On July 2, 2013, we issued \$810.0 million of our 6.75% senior notes due 2021. Our obligations under the notes are fully and unconditionally guaranteed, jointly and severally, on an unsubordinated basis, by all of our subsidiaries that guarantee our obligations under our senior secured credit facility, our second priority secured term loan facilities and our outstanding 8.00% senior secured notes due 2020, 10.25% senior secured notes due 2019 and 9.25% senior notes due 2020. We used the net proceeds of the 6.75% notes, borrowings under our revolving credit facility and available cash to repurchase and repay all of our outstanding \$810.0 million aggregate principal of 9.5% senior notes due 2017.

In July 2013, \$739.6 million aggregate principal amount of the outstanding 9.5% notes were tendered and repurchased by us. In August 2013, we redeemed the remaining 9.5% notes for \$73.4 million, which included call premium and interest to the redemption date.

In connection with these refinancing transactions, we recorded a loss on debt retirement, including tender and call premium and interest, unamortized debt issue costs and unamortized discount of \$62.2 million during the second quarter of fiscal 2014.

On September 26, 2013, we agreed to exchange eight shares of 7% Series G Convertible Preferred Stock (the "Series G preferred stock") and 1,876,013 shares of 6% Series H Convertible Preferred Stock (the "Series H preferred stock", collectively the "Preferred Stock") of the Company (the "Exchange"), held by Green Equity Investors III, L.P. ("LGP") for 40,000,000 shares of our common stock, par value \$1.00 per share with a market value of \$190.4 million at the \$4.76 per share closing price on the Settlement Date (as hereinafter defined), pursuant to an individually negotiated exchange transaction. The Exchange settled on September 30, 2013 (the "Settlement Date"). The Preferred Stock, including additional shares representing earned but unpaid dividends as of the Settlement Date, was redeemable by us for cash at 105% of the Preferred Stock's \$100 per share liquidation preference or \$199.9 million. We agreed to the Exchange as we were prohibited under several of our debt instruments from using cash to effect the redemption of the Preferred Stock. Following the Settlement Date, no shares of the Series G preferred stock or Series H preferred stock remained outstanding and the restated certificate of incorporation was amended to eliminate all references to the Series G preferred stock and Series H preferred stock. In accordance with the then terms of the Exchange, John M. Baumer, a member of our board of directors and a limited partner of Leonard Green & Partners, L.P., an affiliate of the LGP, resigned from our board of directors.

The Series G preferred stock had a liquidation preference of \$100 per share and paid quarterly dividends in additional shares at 7% of liquidation preference and could be redeemed at our election. The Series H preferred stock paid quarterly dividends in additional shares at 6% of liquidation preference and could be redeemed at our election. The Series G preferred stock and Series H preferred stock were convertible into common stock, at the holder's option, at a conversion rate of \$5.50 per share.

As of the Settlement Date, LGP held 1,904,161 shares of Series G preferred stock and Series H preferred stock, which included 28,140 shares of earned and unpaid dividends. The Series G preferred stock and Series H preferred stock would have converted into 34,621,117 shares of common stock at the contracted conversion rate of \$5.50 per share. Accordingly, income attributable to common stockholders was reduced by \$25.6 million, or \$0.03 per diluted share, the value of the additional

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

5,378,883 shares of common stock issued upon conversion at the \$4.76 per share closing price on the Settlement Date.

As of March 2, 2013, Rite Aid Lease Management Company, a 100 percent owned subsidiary, had 213,000 shares of its Cumulative Preferred Stock, Class A, par value \$100 per share ("RALMCO Cumulative Preferred Stock"), outstanding. The carrying amount of the RALMCO Cumulative Preferred Stock as of November 29, 2013 was \$20.8 million and was recorded in Other Noncurrent Liabilities. On November 29, 2013, we repurchased all of the outstanding RALMCO Cumulative Preferred Stock for \$21.0 million. In connection with this transaction, we recorded a loss on debt retirement of \$0.3 million.

### **2013 Transactions**

In February 2013, we used a portion of the proceeds from the Tranche 6 Term Loan, the proceeds from our Tranche 1 Second Lien Term Loan, borrowings under our revolving credit facility and available cash to repurchase and repay all of our outstanding \$410.0 million aggregate principal of 9.750% senior secured notes, \$470.0 million aggregate principal of 10.375% senior secured notes and \$180.3 million aggregate principal amount of 6.875% senior debentures. In February 2013, \$257.3 million aggregate principal amount of the 9.750% notes, \$402.0 million aggregate principal amount of the 10.375% notes and \$119.1 million aggregate principal amount of the 6.875% debentures, respectively, were tendered and repurchased by us. We redeemed the remaining 9.750% notes and 10.375% notes for \$171.4 million and \$72.9 million, respectively, which included the call premium and interest through the redemption date. Additionally, we discharged the remaining 6.875% debentures for \$63.4 million, which included interest through maturity. These 9.750% notes, 10.375% notes and 6.875% debentures were satisfied and discharged as of February 21, 2013.

In February 2013, we also used available cash to redeem our \$6.0 million aggregate principal amount of 9.25% senior notes at par for \$6.1 million, which included interest through the redemption date.

In connection with the above transactions, we recorded a loss on debt retirement of \$122.7 million during the fourth quarter of fiscal 2013 due to the incurrence of tender and call premiums and interest to maturity of \$62.9 million, unamortized original issuance discount of \$24.3 million and unamortized debt issue costs of \$35.5 million.

In February 2012, we issued \$481.0 million of our 9.25% senior notes due March 2020 and in May 2012, we issued an additional \$421.0 million of our 9.25% senior notes due 2020. The proceeds of the notes, together with available cash, were used to repurchase and repay the 8.625% senior notes and the 9.375% senior notes, respectively. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. Our obligations under the notes are fully and unconditionally guaranteed, jointly and severally, on an unsecured unsubordinated basis, by all of our subsidiaries that guarantee our obligations under our senior secured credit facility, our second priority secured term loan facility and our outstanding 8.00% senior secured notes due 2020, 7.5% senior secured notes due 2017, 10.25% senior secured notes due 2019 and 9.5% senior notes due 2017.

In May 2012, \$296.3 million aggregate principal amount of the outstanding 9.375% notes were tendered and repurchased by us. We redeemed the remaining 9.375% notes in June 2012 for \$108.7 million, which included the call premium and interest through the redemption date. The refinancing resulted in an aggregate loss on debt retirement of \$17.8 million.

Table of Contents**2012 Transactions**

In February 2012, \$404.8 million aggregate principal amount of the outstanding 8.625% notes were tendered and repurchased by us. We redeemed the remaining 8.625% notes in March 2012 for \$55.6 million, which included the call premium and interest through the redemption date. The refinancing resulted in an aggregate loss on debt retirement of \$16.1 million recorded in the fourth quarter of fiscal 2012.

During August 2011, we repurchased \$41.0 million of our 8.625% notes, \$5.0 million of our 9.375% notes and \$4.5 million of our 6.875% debentures. These repurchases resulted in a gain for the period of \$5.0 million.

**Off-Balance Sheet Arrangements**

As of March 1, 2014, we had no material off balance sheet arrangements, other than operating leases as included in the table below.

**Contractual Obligations and Commitments**

The following table details the maturities of our indebtedness and lease financing obligations as of March 1, 2014, as well as other contractual cash obligations and commitments.

	Payment due by period				Total
	Less Than 1 Year	1 to 3 Years	3 to 5 Years	After 5 Years	
(Dollars in thousands)					
<b>Contractual Cash Obligations</b>					
Long term debt(1)	\$ 355,894	\$ 755,735	\$ 1,086,962	\$ 5,839,689	\$ 8,038,280
Capital lease obligations(2)	40,030	40,558	25,866	33,656	140,110
Operating leases(3)	996,495	1,845,868	1,524,181	3,405,091	7,771,635
Open purchase orders	401,817				401,817
Other, primarily self insurance and retirement plan obligations(4)	102,411	142,427	48,156	115,198	408,192
Minimum purchase commitments(5)	164,844	364,854	333,950	162,040	1,025,688
Total contractual cash obligations	\$ 2,061,491	\$ 3,149,442	\$ 3,019,115	\$ 9,555,674	\$ 17,785,722
<b>Commitments</b>

Outstanding letters of credit	68,774	11,100			79,874
Total commitments	\$ 2,154,604	\$ 3,205,777	\$ 3,051,467	\$ 9,571,857	\$ 17,983,705

(1) Includes principal and interest payments for all outstanding debt instruments. Interest was calculated on variable rate instruments using rates as of March 1, 2014.

(2)

## Edgar Filing: RITE AID CORP - Form 10-K

Represents the minimum lease payments on non-cancelable leases, including interest, but net of sublease income.

(3) Represents the minimum lease payments on non-cancelable leases, including interest, but net of sublease income.

(4) Includes the undiscounted payments for self-insured medical coverage, actuarially determined undiscounted payments for self-insured workers' compensation and general liability, and actuarially determined obligations for defined benefit pension and nonqualified executive retirement plans.

(5) Represents commitments to purchase products and licensing fees from certain vendors.

Table of Contents

- (6) Represents lease guarantee obligations for 114 former stores related to certain business dispositions. The respective purchasers assume the obligations and are, therefore, primarily liable for these obligations.

Obligations for income tax uncertainties pursuant to ASC 740, "Income Taxes" of approximately \$0.9 million are not included in the table above as we are uncertain as to if or when such amounts may be settled.

***Net Cash Provided By (Used In) Operating, Investing and Financing Activities***

Cash flow provided by operating activities was \$702.0 million in fiscal 2014. Cash flow was positively impacted by net income and a decrease in inventory, partially offset by a reduction of accounts payable resulting from the inventory reduction and the timing of payments, cash used in other assets and liabilities, net, due primarily to lower vendor deferred income and pension liability and higher accounts receivable due primarily to increased pharmacy sales and the timing of payments. Included in cash used by other assets and liabilities, net is the \$26.7 million excess tax benefit relating to stock option exercise and restricted stock vesting windfalls that was recorded as a component of income tax benefit and an increase of APIC.

Cash flow provided by operating activities was \$819.6 million in fiscal 2013. Cash flow was positively impacted by net income and a reduction of inventory resulting primarily from recent generic introductions, generic price reductions, management initiatives to reduce inventory levels and fewer open stores, and a reduction of accounts receivable due to the timing of payments from third party payors.

Cash flow provided by operating activities was \$266.5 million in fiscal 2012. Cash flow was positively impacted by the reduction in net loss, an increase in accounts payable due to the timing of purchases partially offset by an increase in inventory resulting primarily from price inflation and increased store inventory to support sales growth.

Cash used in investing activities was \$364.9 million in fiscal 2014. Cash used for the purchase of property, plant and equipment and prescriptions files was higher than in the prior year due to a higher investment in Wellness store remodels and prescription file buys, which was partially offset by proceeds from asset dispositions, sale-leaseback transactions, the sale of lease rights of \$8.8 million relating to one specific store and insurance settlement proceeds of \$15.1 million related to buildings and equipment that were destroyed during hurricane Sandy.

Cash used in investing activities was \$346.3 million in fiscal 2013. Cash was used for the purchase of property, plant and equipment and prescriptions files which was partially offset by proceeds from asset dispositions and sale-leaseback transactions.

Cash used in investing activities was \$221.2 million in fiscal 2012. Cash was used for the purchase of property, plant and equipment and prescription files which was partially offset by proceeds from asset dispositions and sale-leaseback transactions.

Cash used in financing activities was \$320.2 million in fiscal 2014, which reflects financing fees of \$45.6 million paid for early debt retirement and deferred financing costs of \$17.9 million paid in connection with the issuance of our \$500.0 million Tranche 2 Term Loan and \$810.0 million of our 6.75% senior notes due 2021 and the corresponding retirement of \$500.0 million of our 7.5% senior secured notes due 2017 and \$810.0 million of our 9.5% senior notes due 2017. We also made scheduled payments of \$21.7 million and \$8.7 million on our capital lease obligations and our Tranche 6 Term Loan and we used cash of \$21.0 million to repurchase the RALMCO Cumulative Preferred Stock described above. Also included in cash used in financing activities was a cash inflow of \$26.7 million relating to the excess tax benefit on stock option exercises and restricted stock vesting, which is completely offset by a cash outflow in cash provided by operating activities.

Table of Contents

Cash used in financing activities was \$506.1 million in fiscal 2013 and was primarily due to the issuance of our \$1,161.0 million Tranche 6 Term Loan due 2020, \$470.0 million Tranche 1 Term Loan due 2020 and \$426.3 million of our 9.25% Senior Notes due 2020, along with borrowings under our revolving credit facility of \$685.0 million. Proceeds from these issuances were used to repay our \$1,036.3 million Tranche 2 Term Loan due 2014, \$470.0 million of our 10.375% Senior Secured Notes due 2016, \$410.0 million of our 9.750% Senior Secured Notes due 2016, our \$330.9 million Tranche 5 Term Loan due 2018, \$405.0 million of our 9.375% Senior Notes due 2015, \$54.2 million of our 8.625% Senior Notes due 2015, \$6.0 million of our 9.25% Senior Notes due 2013. We also made scheduled payments of \$18.5 million and \$9.0 million of our capital lease obligations and our Tranche 2 and Tranche 5 Term Loans, respectively. Additionally, we incurred financing fees for early debt retirement of \$75.4 million and cash paid for deferred financing costs of \$54.8 million in connection with the above transactions.

Cash provided by financing activities was \$25.8 million in fiscal 2012 and was primarily due to increased revolver borrowings coupled with the February 2012 issuance of \$481.0 million of our 9.25% senior notes due March 15, 2020 and concurrent repurchase of \$404.8 million of our 8.625% senior notes due March 2015. The remaining \$54.2 million of the 8.625% senior notes due March 2015 were repurchased in March 2012.

**Capital Expenditures**

During the fiscal years ended March 1, 2014, March 2, 2013, and March 3, 2012 capital expenditures were as follows:

	<b>March 1, 2014 (52 weeks)</b>	<b>Year Ended March 2, 2013 (52 weeks)</b>	<b>March 3, 2012 (53 weeks)</b>
New store construction, store relocation and store remodel projects	\$ 218,454	\$ 200,101	\$ 93,958
Technology enhancements, improvements to distribution centers and other corporate requirements	115,416	115,745	121,046
Purchase of prescription files from other retail pharmacies	87,353	67,134	35,133
Total capital expenditures	\$ 421,223	\$ 382,980	\$ 250,137

We have completed 1,215 Wellness store remodels as of March 1, 2014. We plan on making total capital expenditures of approximately \$525.0 million during fiscal 2015, consisting of approximately 53% related to store relocations and remodels and new store construction, 30% related to infrastructure and maintenance requirements and 17% related to prescription file purchases. Management expects that these capital expenditures will be financed primarily with cash flow from operating activities.

**Future Liquidity**

We are highly leveraged. Our high level of indebtedness could: (i) limit our ability to obtain additional financing; (ii) limit our flexibility in planning for, or reacting to, changes in our business and the industry; (iii) place us at a competitive disadvantage relative to our competitors with less debt; (iv) render us more vulnerable to general adverse economic and industry conditions; and (v) require us to dedicate a substantial portion of our cash flow to service our debt. Based upon our current levels of operations and the anticipated estimated working capital benefit of \$150.0 million resulting from our new supply agreement with McKesson, we believe that cash flow from operations together with available borrowings under the revolving credit facility and other sources of liquidity will be adequate

Table of Contents

to meet our requirements for working capital, debt service and capital expenditures at least for the next twelve months. Based on our liquidity position, which we expect to remain strong throughout the year, we do not expect to be subject to the fixed charge covenant in our senior secured credit facility in the next twelve months. We will continue to assess our liquidity position and potential sources of supplemental liquidity in light of our operating performance, and other relevant circumstances. From time to time, we may seek deleveraging transactions, including entering into transactions to exchange debt for shares of common stock, issuance of equity (including preferred stock and convertible securities), repurchase outstanding indebtedness, or seek to refinance our outstanding debt or may otherwise seek transactions to reduce interest expense and extend debt maturities. Any of these transactions could impact our financial results.

**Critical Accounting Policies and Estimates**

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to inventory shrink, impairment of long-lived assets, revenue recognition, self insurance liabilities, lease exit liabilities, income taxes and litigation. We base our estimates on historical experience, current and anticipated business conditions, the condition of the financial markets and various other assumptions that are believed to be reasonable under existing conditions. Variability reflected in the sensitivity analyses presented below is based on our recent historical experience. Actual results may differ materially from these estimates and sensitivity analyses.

The following critical accounting policies require the use of significant judgments and estimates by management:

*Inventory shrink:* The carrying value of our inventory is reduced by a reserve for estimated shrink losses that occur between physical inventory dates. When estimating these losses, we consider historical loss results at specific locations, as well as overall loss trends as determined during physical inventory procedures. The estimated shrink rate is calculated by dividing historical shrink results for stores inventoried in the most recent six months by the sales for the same period. Shrink expense is recognized by applying the estimated shrink rate to sales since the last physical inventory. There have been no significant changes in the assumptions used to calculate our shrink rate over the last three years. Although possible, we do not expect a significant change to our shrink rate in future periods. A 10 basis point difference in our estimated shrink rate for the year ended March 1, 2014, would have affected pre-tax income by approximately \$9.3 million.

*Impairment of long-lived assets:* We evaluate long-lived assets for impairment whenever events or changes in circumstances indicate that an asset group has a carrying value that may not be recoverable. The individual operating store is the lowest level for which cash flows are identifiable. As such, we evaluate individual stores for recoverability. To determine if a store needs to be tested for recoverability, we consider items such as decreases in market prices, changes in the manner in which the store is being used or physical condition, changes in legal factors or business climate, an accumulation of losses significantly in excess of budget, a current period operating or cash flow loss combined with a history of operating or cash flow losses or a projection of continuing losses, or an expectation that the store will be closed or sold.

We monitor new and recently relocated stores against operational projections and other strategic factors such as regional economics, new competitive entries and other local market considerations to determine if an impairment evaluation is required. For other stores, we perform a recoverability analysis if they have experienced current-period and historical cash flow losses.

Table of Contents

In performing the recoverability test, we compare the expected future cash flows of a store to the carrying amount of its assets. Significant judgment is used to estimate future cash flows. Major assumptions that contribute to our future cash flow projections include expected sales and gross profit; expected costs such as payroll, occupancy costs and advertising expenses; and estimates for other significant selling, general and administrative expenses.

If an operating store's estimated future undiscounted cash flows are not sufficient to cover its carrying value, its carrying value is reduced to fair value which is its estimated future discounted cash flows. The discount rate is commensurate with the risks associated with the recovery of a similar asset.

We regularly approve certain stores for closure. Impairment charges for closed stores, if any, are evaluated and recorded in the quarter the closure decision is approved.

We also evaluate assets to be disposed of on a quarterly basis to determine if an additional impairment charge is required. Fair value estimates are provided by independent brokers who operate in the local markets where the assets are located.

If our actual future cash flows differ from our projections materially, certain stores that are either not impaired or partially impaired in the current period may be further impaired in future periods. A 100 basis point decrease in our future sales assumptions as of March 1, 2014 would have resulted in an additional fiscal 2014 impairment charge of \$0.8 million. A 100 basis point increase in our future sales assumptions as of March 1, 2014 would have reduced the fiscal 2014 impairment charge by \$0.7 million. Changes in our discount rate of 50 basis points would not have a material impact on the total impairment recorded in fiscal 2014.

*Revenue recognition for our loyalty program:* We offer a chain wide customer loyalty program, "wellness+". Members participating in our wellness+ loyalty card program earn points on a calendar year basis for eligible front end merchandise purchases and qualifying prescriptions. One point is awarded for each dollar spent towards front end merchandise and 25 points are awarded for each qualifying prescription.

Members reach specific wellness+ tiers based on the points accumulated during the calendar year, which entitle them to certain future discounts and other benefits upon reaching that tier. For example, any customer that reaches 1,000 points in a calendar year achieves the "Gold" tier, enabling the customer to receive a 20% discount on qualifying purchases of front end merchandise for the remaining portion of the calendar year and the next calendar year. There are also similar "Silver" and "Bronze" levels with lower thresholds and benefit levels.

As wellness+ customers accumulate points, we defer the value of the points earned as deferred revenue based on the expected usage. The amount deferred is based on historic and projected customer activity (e.g., tier level, spending level). As customers receive discounted front end merchandise, we recognize an allocable portion of the deferred revenue. If the achieved combined Gold, Silver, and Bronze levels differ from the assumptions by 5.0% it would have affected pretax income by \$1.2 million. If the assumed spending levels, which are the drivers of future discounts, differ by 5.0% it would have affected pretax income by \$1.2 million.

*Self-insurance liabilities:* We expense claims for self-insured workers' compensation and general liability insurance coverage as incurred including an estimate for claims incurred but not paid. The expense for self-insured workers' compensation and general liability claims incurred but not paid is determined using several factors, including historical claims experience and development, severity of claims, medical costs and the time needed to settle claims. We discount the estimated expense for workers' compensation to present value as the time period from incurrence of the claim to final settlement can be several years. We base our estimates for such timing on previous settlement activity. The discount rate is based on the current market rates for Treasury bills that approximate the average time to settle the workers' compensation claims. These assumptions are updated on an annual basis. A

Table of Contents

25 basis point difference in the discount rate for the year ended March 1, 2014, would have affected pretax income by approximately \$2.1 million.

*Lease termination charges:* We record reserves for closed stores based on future lease commitments, anticipated ancillary occupancy costs and anticipated future subleases of properties. The reserves are calculated at the individual location level and the assumptions are assessed at that level. The reserve for lease exit liabilities is discounted using a credit adjusted risk free interest rate. Reserve estimates and related assumptions are updated on a quarterly basis.

A substantial amount of our closed stores were closed prior to our adoption of ASC 420, "Exit or Disposal Cost Obligations." Therefore, if interest rates change, reserves may be increased or decreased. In addition, changes in the real estate leasing markets can have an impact on the reserve. As of March 1, 2014, a 50 basis point variance in the credit adjusted risk free interest rate would have affected pretax income by approximately \$1.8 million for fiscal 2014.

*Income taxes:* We currently have net operating loss ("NOL") carryforwards that can be utilized to offset future income for federal and state tax purposes. These NOLs generate significant deferred tax assets which are currently offset by a valuation allowance. Realization is dependent on generating sufficient taxable income prior to the expiration of the loss carryforwards. Although realization is not assured, we believe that in the near term the amount of the net deferred tax asset considered realizable could be increased when cumulative income is achieved and when we are confident that we have demonstrated sustained profitability to indicate that the use of these carryforwards is more likely than not.

We regularly review the deferred tax assets for recoverability considering the relative impact of negative and positive evidence including our historical profitability, projected taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies. The weight given to the potential effect of the negative and positive evidence is commensurate with the extent to which it can be objectively verified. In evaluating the objective evidence that historical results provide, we consider three years of cumulative pretax book income (loss).

We establish a valuation allowance against deferred tax assets when we determine that it is more likely than not that some portion of our deferred tax assets will not be realized. There have been no significant changes in the assumptions used to calculate our valuation allowance over the last three years. However, if we determine that we would be able to realize our deferred tax assets in the future in excess of their net recorded amount, we would make an adjustment to the deferred tax asset valuation allowance, which would reduce the provision for income taxes.

We recognize tax liabilities in accordance with ASC 740, "Income Taxes" and we adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the tax liabilities.

*Litigation reserves:* We are involved in litigation on an on-going basis. We accrue our best estimate of the probable loss related to legal claims. Such estimates are based upon a combination of litigation and settlement strategies. These estimates are updated as the facts and circumstances of the cases develop and/or change. To the extent additional information arises or our strategies change, it is possible that our best estimate of the probable liability may also change. Changes to these reserves during the last three fiscal years were not material.

**Adjusted EBITDA and Other Non-GAAP Measures**

In addition to net income determined in accordance with GAAP, we use certain non-GAAP measures, such as "Adjusted EBITDA", in assessing our operating performance. We believe the

## Edgar Filing: RITE AID CORP - Form 10-K

### Table of Contents

non-GAAP metrics serve as an appropriate measure to be used in evaluating the performance of our business. We define Adjusted EBITDA as net income (loss) excluding the impact of income taxes (and any corresponding adjustments to tax indemnification asset), interest expense, depreciation and amortization, LIFO adjustments, charges or credits for facility closing and impairment, inventory write-downs related to store closings, stock-based compensation expense, debt retirements, sale of assets and investments, revenue deferrals related to customer loyalty program and other items. We reference this particular non-GAAP financial measure frequently in our decision-making because it provides supplemental information that facilitates internal comparisons to the historical operating performance of prior periods and external comparisons to competitors' historical operating performance. In addition, incentive compensation is based on Adjusted EBITDA and we base certain of our forward-looking estimates on Adjusted EBITDA to facilitate quantification of planned business activities and enhance subsequent follow-up with comparisons of actual to planned Adjusted EBITDA.

The following is a reconciliation of Adjusted EBITDA to our net income (loss) for fiscal 2014, 2013 and 2012:

	<b>March 1, 2014 (52 weeks)</b>	<b>March 2, 2013 (52 weeks)</b>	<b>March 3, 2012 (53 weeks)</b>
Net income (loss)	\$ 249,414	\$ 118,105	\$ (368,571)
Interest expense	424,591	515,421	529,255
Income tax expense (benefit)	804	(110,600)	(23,686)
Adjustments to tax indemnification asset(1)	30,516	91,314	
Depreciation and amortization expense	403,741	414,111	440,582
LIFO charge (credit)	104,142	(147,882)	188,722
Lease termination and impairment charges	41,304	70,859	100,053
Stock-based compensation expense	16,194	17,717	15,861
Gain on sale of assets, net	(15,984)	(16,776)	(8,703)
Loss on debt retirements, net	62,443	140,502	33,576
Closed facility liquidation expense	3,849	5,272	6,505
Severance costs		(72)	256
Customer loyalty card program revenue deferral	2,679	26,564	30,856
Other	1,266	3,844	(1,804)
<b>Adjusted EBITDA</b>	<b>\$ 1,324,959</b>	<b>\$ 1,128,379</b>	<b>\$ 942,902</b>

(1)

Note: The income tax benefit from the IRS settlement described in Note 5 in the notes to our consolidated financial statements and the corresponding reduction of the tax indemnification asset had no net effect on Adjusted EBITDA.

In addition to Adjusted EBITDA, we occasionally refer to several other Non-GAAP measures, on a less frequent basis, in order to describe certain components of our business and how we utilize them to describe our results. These measures include but are not limited to Adjusted EBITDA Gross Margin and Gross Profit (gross margin/gross profit excluding non-Adjusted EBITDA items), Adjusted EBITDA SG&A (SG&A expenses excluding non-Adjusted EBITDA items), FIFO Gross Margin and FIFO Gross Profit (gross margin/gross profit before LIFO charges) and Free Cash Flow (Adjusted EBITDA less cash paid for interest, rent on closed stores, capital expenditures, acquisition costs and the change in working capital).

We include these non-GAAP financial measures in our earnings announcements and guidance in order to provide transparency to our investors and enable investors to better compare our operating performance with the operating performance of our competitors including with those of our

Table of Contents

competitors having different capital structures. Adjusted EBITDA or other non-GAAP measures should not be considered in isolation from, and are not intended to represent an alternative measure of, operating results or of cash flows from operating activities, as determined in accordance with GAAP. Our definition of these non-GAAP measures may not be comparable to similarly titled measurements reported by other companies.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

Our future earnings, cash flow and fair values relevant to financial instruments are dependent upon prevalent market rates. Market risk is the risk of loss from adverse changes in market prices and interest rates. Our major market risk exposure is changing interest rates. Increases in interest rates would increase our interest expense. We enter into debt obligations to support capital expenditures, acquisitions, working capital needs and general corporate purposes. Our policy is to manage interest rates through the use of a combination of variable-rate credit facilities, fixed-rate long-term obligations and derivative transactions. We currently do not have any derivative transactions outstanding.

The table below provides information about our financial instruments that are sensitive to changes in interest rates. The table presents principal payments and the related weighted average interest rates by expected maturity dates as of March 1, 2014.

	2015	2016	2017	2018	2019	Thereafter	Total	Fair Value at March 1, 2014
(Dollars in thousands)								
<b>Long-term debt, including current portion, excluding capital lease obligations</b>								
Fixed Rate	\$ 5,324	\$ 64,188	\$	\$	\$	\$ 3,055,000	\$ 3,124,512	\$ 3,569,777
Average Interest Rate	0.95%	8.50%	0.00%	0.00%	0.00%	8.15%	8.15%	
Variable Rate	\$ 11,610	\$ 11,610	\$ 11,610	\$ 411,610	\$ 11,610	\$ 2,064,243	\$ 2,522,293	\$ 2,524,508
Average Interest Rate	4.00%	4.00%	4.00%	2.46%	4.00%	4.61%	4.25%	

Our ability to satisfy interest payment obligations on our outstanding debt will depend largely on our future performance, which, in turn, is subject to prevailing economic conditions and to financial, business and other factors beyond our control. If we do not have sufficient cash flow to service our interest payment obligations on our outstanding indebtedness and if we cannot borrow or obtain equity financing to satisfy those obligations, our business and results of operations could be materially adversely affected. We cannot be assured that any replacement borrowing or equity financing could be successfully completed.

The interest rate on our variable rate borrowings, which include our revolving credit facility, our new Tranche 7 Term Loan and Tranche 1 Term Loan and our Tranche 2 Term Loan, are all based on LIBOR. However, the interest rate on our Tranche 7 Term Loan has a LIBOR floor of 75 basis points and our Tranche 1 Term Loan and Tranche 2 Term Loan have a LIBOR floor of 100 basis points. If the market rates of interest for LIBOR changed by 100 basis points as of March 1, 2014, our annual interest expense would change by approximately \$9.4 million.

A change in interest rates does not have an impact upon our future earnings and cash flow for fixed-rate debt instruments. As fixed-rate debt matures, however, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in interest rates. This effect would be realized in the periods subsequent to the periods when the debt matures. Increases in interest rates would also impact our ability to refinance existing maturities on favorable terms.

**Item 8. Financial Statements and Supplementary Data**

Our consolidated financial statements and notes thereto are included elsewhere in this report and are incorporated by reference herein. See Item 15 of Part IV.

Table of Contents

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

Not applicable

**Item 9A. Controls and Procedures**

**(a) Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective.

**(b) Internal Control Over Financial Reporting**

**Management's Annual Report on Internal Control Over Financial Reporting**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in "Internal Control Integrated Framework" (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that, as of March 1, 2014, we did not have any material weaknesses in our internal control over financial reporting and our internal control over financial reporting was effective.

**Attestation Report of the Independent Registered Public Accounting Firm**

The attestation report of our independent registered public accounting firm, Deloitte & Touche LLP, on our internal control over financial reporting is included after the next paragraph.

**(c) Changes in Internal Control Over Financial Reporting**

During the three months ended March 1, 2014, we implemented a new real estate management system which is utilized to manage our landlord payables, rent expense and sublease income. Other than the foregoing, there has not been any change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our fourth fiscal quarter ended March 1, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Stockholders of  
Rite Aid Corporation  
Camp Hill, Pennsylvania

We have audited the internal control over financial reporting of Rite Aid Corporation and subsidiaries (the "Company") as of March 1, 2014, based on criteria established in *Internal Control Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of March 1, 2014, based on the criteria established in *Internal Control Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended March 1, 2014 of the Company and our report dated April 23, 2014 expressed an unqualified opinion on those financial statements and financial statement schedule.

**PART III**

We intend to file with the SEC a definitive proxy statement for our 2014 Annual Meeting of Stockholders, to be held on June 19, 2014, pursuant to Regulation 14A not later than 120 days after March 1, 2014. The information required by Part III (Items 10, 11, 12, 13 and 14) is incorporated by reference from that proxy statement.

**PART IV**

**Item 15. Exhibits and Financial Statement Schedule**

(a) The consolidated financial statements of the Company and report of the independent registered public accounting firm identified in the following index are included in this report from the individual pages filed as a part of this report:

**1. Financial Statements**

The following financial statements, report of the independent registered public accounting firm and supplementary data are included herein:

<u>Report of Independent Registered Public Accounting Firm</u>	<u>57</u>
<u>Consolidated Balance Sheets as of March 1, 2014 and March 2, 2013</u>	<u>58</u>
<u>Consolidated Statements of Operations for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012</u>	<u>59</u>
<u>Consolidated Statements of Comprehensive Income (Loss) for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012</u>	<u>60</u>
<u>Consolidated Statements of Stockholders' Deficit for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012</u>	<u>61</u>
<u>Consolidated Statements of Cash Flows for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012</u>	<u>62</u>
<u>Notes to Consolidated Financial Statements</u>	<u>63</u>

**2. Financial Statement Schedule**

*Schedule II Valuation and Qualifying Accounts*

All other schedules are omitted because they are not applicable, not required or the required information is included in the consolidated financial statements or notes thereto.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders of  
Rite Aid Corporation  
Camp Hill, Pennsylvania

We have audited the accompanying consolidated balance sheets of Rite Aid Corporation and subsidiaries (the "Company") as of March 1, 2014 and March 2, 2013, and the related consolidated statements of operations, comprehensive income (loss), stockholders' deficit, and cash flows for each of the three years in the period ended March 1, 2014. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Rite Aid Corporation and subsidiaries as of March 1, 2014 and March 2, 2013, and the results of their operations and their cash flows for each of the three years in the period ended March 1, 2014, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of March 1, 2014, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 23, 2014 expressed an unqualified opinion on the Company's internal control over financial reporting.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****1. Summary of Significant Accounting Policies***Description of Business*

The Company is a Delaware corporation and through its 100 percent owned subsidiaries, operates retail drugstores in the United States of America. It is one of the largest retail drugstore chains in the United States, with 4,587 stores in operation as of March 1, 2014. The Company's drugstores' primary business is pharmacy services. The Company also sells a full selection of health and beauty aids and personal care products, seasonal merchandise and a large private brand product line.

The Company's operations consist solely of the retail drug segment. Revenues are as follows:

	<b>March 1, 2014 (52 Weeks)</b>	<b>Year Ended March 2, 2013 (52 Weeks)</b>	<b>March 3, 2012 (53 Weeks)</b>
Pharmacy sales	\$ 17,239,436	\$ 17,083,811	\$ 17,725,645
Front end sales	8,168,922	8,200,022	8,293,643
Other revenue	118,055	108,430	101,934
	\$ 25,526,413	\$ 25,392,263	\$ 26,121,222

Sales of prescription drugs represented approximately 67.9%, 67.6% and 68.1% of the Company's total sales in fiscal years 2014, 2013 and 2012, respectively. The Company's principal classes of products in fiscal 2014 were the following:

<b>Product Class</b>	<b>Percentage of Sales</b>
Prescription drugs	67.9%
Over-the-counter medications and personal care	9.8%
Health and beauty aids	5.1%
General merchandise and other	17.2%

*Fiscal Year*

The Company's fiscal year ends on the Saturday closest to February 29 or March 1. The fiscal year ended March 1, 2014 included 52 weeks. The fiscal year ended March 2, 2013 included 52 weeks and the fiscal year ended March 3, 2012 included 53 weeks.

*Principles of Consolidation*

The consolidated financial statements include the accounts of the Company and all of its 100 percent owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

**For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012**

**(In thousands, except per share amounts)**

**1. Summary of Significant Accounting Policies (Continued)**

***Cash and Cash Equivalents***

Cash and cash equivalents consist of cash on hand and highly liquid investments, which are readily convertible to known amounts of cash and which have original maturities of three months or less when purchased.

***Allowance for Uncollectible Receivables***

Approximately 97.0% of prescription sales are made to customers who are covered by third-party payors, such as insurance companies, government agencies and employers. The Company recognizes receivables that represent the amount owed to the Company for sales made to customers or employees of those payors that have not yet been paid. The Company maintains a reserve for the amount of these receivables deemed to be uncollectible. This reserve is calculated based upon historical collection activity adjusted for current conditions.

***Inventories***

Inventories are stated at the lower of cost or market. Inventory balances include the capitalization of certain costs related to purchasing, freight and handling costs associated with placing inventory in its location and condition for sale. The Company uses the last-in, first-out ("LIFO") cost flow assumption for substantially all of its inventories. The Company calculates its inflation index based on internal product mix and utilizes the link-chain LIFO method.

***Impairment of Long-Lived Assets***

Asset impairments are recorded when the carrying value of assets are not recoverable. For purposes of recognizing and measuring impairment of long-lived assets, the Company categorizes assets of operating stores as "Assets to Be Held and Used" and "Assets to Be Disposed Of." The Company evaluates assets at the store level because this is the lowest level of identifiable cash flows ascertainable to evaluate impairment. Assets being tested for recoverability at the store level include tangible long-lived assets and identifiable, finite-lived intangibles that arose in purchase business combinations. Corporate assets to be held and used are evaluated for impairment based on excess cash flows from the stores that support those assets.

The Company reviews long-lived assets to be held and used for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the sum of the undiscounted expected future cash flows is less than the carrying amount of the asset, the Company recognizes an impairment loss. Impairment losses are measured as the amount by which the carrying amount of the asset exceeds the fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risks associated with the recovery of the asset.

**(In thousands, except per share amounts)**

**1. Summary of Significant Accounting Policies (Continued)**

***Property, Plant and Equipment***

Property, plant and equipment are stated at cost, net of accumulated depreciation and amortization. The Company provides for depreciation using the straight-line method over the following useful lives: buildings 30 to 45 years; equipment 3 to 15 years.

Leasehold improvements are amortized on a straight-line basis over the shorter of the estimated useful life of the asset or the term of the lease. When determining the amortization period of a leasehold improvement, the Company considers whether discretionary exercise of a lease renewal option is reasonably assured. If it is determined that the exercise of such option is reasonably assured, the Company will amortize the leasehold improvement asset over the minimum lease term, plus the option period. This determination depends on the remaining life of the minimum lease term and any economic penalties that would be incurred if the lease option is not exercised.

Capitalized lease assets are recorded at the lesser of the present value of minimum lease payments or fair market value and amortized over the estimated useful life of the related property or term of the lease.

The Company capitalizes direct internal and external development costs associated with internal-use software. Neither preliminary evaluation costs nor costs associated with the software after implementation are capitalized. For fiscal years 2014, 2013 and 2012, the Company capitalized costs of approximately \$6,547, \$5,844 and \$6,371, respectively.

***Intangible Assets***

The Company has certain finite-lived intangible assets that are amortized over their useful lives. The value of favorable and unfavorable leases on stores acquired in business combinations are amortized over the terms of the leases on a straight-line basis. Prescription files acquired in business combinations are amortized over an estimated useful life of ten years on an accelerated basis, which approximates the anticipated prescription file retention and related cash flows. Purchased prescription files acquired in other than business combinations are amortized over their estimated useful lives of five years on a straight-line basis.

***Deferred Financing Costs***

Costs incurred to issue debt are deferred and amortized as a component of interest expense over the terms of the related debt agreements. Amortization expense of deferred financing costs was \$15,259, \$21,896 and \$22,049 for fiscal 2014, 2013 and 2012, respectively.

***Revenue Recognition***

For front end sales, the Company recognizes revenue from the sale of merchandise at the time the merchandise is sold. The Company records revenue net of an allowance for estimated future returns. Return activity is immaterial to revenues and results of operations in all periods presented. For third party payor pharmacy sales, revenue is recognized at the time the prescription is filled, which is or approximates when the customer picks up the prescription and is recorded net of an allowance for

Table of Contents

**RITE AID CORPORATION AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012**

**(In thousands, except per share amounts)**

**1. Summary of Significant Accounting Policies (Continued)**

prescriptions that were filled but will not be picked up by the customer. For all periods presented, there is no material difference between the revenue recognized at the time the prescription is filled and that which would be recognized when the customer picks up the prescription. For cash prescriptions and patient third party payor co-payments, the Company recognizes revenue when the patient picks up the prescription and tenders the cash price or patient third party payor co-payment amount at the point of sale. Prescriptions are generally not returnable.

The Company offers a chain wide loyalty card program titled wellness +. Members participating in the wellness + loyalty card program earn points on a calendar year basis for eligible front end merchandise purchases and qualifying prescriptions. One point is awarded for each dollar spent towards front end merchandise and 25 points are awarded for each qualifying prescription.

Members reach specific wellness + tiers based on the points accumulated during the calendar year, which entitles such customers to certain future discounts and other benefits upon reaching that tier. For example, any customer that reaches 1,000 points in a calendar year achieves the "Gold" tier, enabling them to receive a 20% discount on qualifying purchases of front end merchandise for the remaining portion of the calendar year and also the next calendar year. There are also similar "Silver" and "Bronze" levels with lower thresholds and benefit levels.

As wellness + customers accumulate points, the Company defers the value of the points earned as deferred revenue (included in other current and noncurrent liabilities, based on the expected usage). The amount deferred is based on historic and projected customer activity (e.g., tier level, spending level). As customers receive discounted front end merchandise, the Company recognizes an allocable portion of the deferred revenue. The Company deferred \$103,562 as of March 1, 2014 of which \$83,668 is included in other current liabilities and \$19,894 is included in noncurrent liabilities. The Company deferred \$100,883 as of March 2, 2013 of which \$78,696 is included in other current liabilities and \$22,187 is included in noncurrent liabilities.

***Cost of Goods Sold***

Cost of goods sold includes the following: the cost of inventory sold during the period, including related vendor rebates and allowances, LIFO credit or charges, costs incurred to return merchandise to vendors, inventory shrink, purchasing costs and warehousing costs, which include inbound freight costs from the vendor, distribution payroll and benefit costs, distribution center occupancy costs and depreciation expense and delivery expenses to the stores.

***Vendor Rebates and Allowances***

Rebates and allowances received from vendors relate to either buying and merchandising or promoting the product. Buying and merchandising related rebates and allowances are recorded as a reduction of cost of goods sold as product is sold. Buying and merchandising rebates and allowances include all types of vendor programs such as cash discounts from timely payment of invoices, purchase discounts or rebates, volume purchase allowances, price reduction allowances and slotting allowances. Certain product promotion related rebates and allowances, primarily related to advertising, are

**(In thousands, except per share amounts)**

**1. Summary of Significant Accounting Policies (Continued)**

recorded as a reduction in selling, general and administrative expenses when the advertising commitment has been satisfied.

***Rent***

The Company records rent expense on operating leases on a straight-line basis over the minimum lease term. The Company begins to record rent expense at the time that the Company has the right to use the property. From time to time, the Company receives incentive payments from landlords that subsidize lease improvement construction. These leasehold incentives are deferred and recognized on a straight-line basis over the minimum lease term.

***Selling, General and Administrative Expenses***

Selling, general and administrative expenses include store and corporate administrative payroll and benefit costs, occupancy costs which include retail store and corporate rent costs, facility and leasehold improvement depreciation and utility costs, advertising, repair and maintenance, insurance, equipment depreciation and professional fees.

***Repairs and Maintenance***

Routine repairs and maintenance are charged to operations as incurred. Improvements and major repairs, which extend the useful life of an asset, are capitalized and depreciated.

***Advertising***

Advertising costs, net of specific vendor advertising allowances, are expensed in the period the advertisement first takes place. Advertising expenses, net of vendor advertising allowances, for fiscal 2014, 2013 and 2012 were \$322,843, \$335,779 and \$369,405, respectively.

***Insurance***

The Company is self-insured for certain general liability and workers' compensation claims. For claims that are self-insured, stop-loss insurance coverage is maintained for workers' compensation occurrences exceeding \$1,000 and general liability occurrences exceeding \$2,000. The Company utilizes actuarial studies as the basis for developing reported claims and estimating claims incurred but not reported relating to the Company's self-insurance. Workers' compensation claims are discounted to present value using a risk-free interest rate.

***Benefit Plan Accruals***

The Company has several defined benefit plans, under which participants earn a retirement benefit based upon a formula set forth in the plan. The Company records expense related to these plans using actuarially determined amounts that are calculated under the provisions of ASC 715, "Compensation Retirement Benefits." Key assumptions used in the actuarial valuations include the discount rate, the expected rate of return on plan assets and the rate of increase in future compensation levels.

Table of Contents

**RITE AID CORPORATION AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012**

**(In thousands, except per share amounts)**

**1. Summary of Significant Accounting Policies (Continued)**

***Stock-Based Compensation***

The Company has several stock option plans, which are described in detail in Note 13. The Company accounts for stock-based compensation under ASC 718, "Compensation Stock Compensation." The Company recognizes option expense over the requisite service period of the award, net of an estimate for the impact of award forfeitures.

***Store Pre-opening Expenses***

Costs incurred prior to the opening of a new or relocated store, associated with a remodeled store or related to the opening of a distribution facility are charged against earnings when incurred.

***Litigation Reserves***

The Company is involved in litigation on an ongoing basis. The Company accrues its best estimate of the probable loss related to legal claims. Such estimates are developed in consultation with in-house counsel, and are based upon a combination of litigation and settlement strategies.

***Facility Closing Costs and Lease Exit Charges***

When a store or distribution center is closed, the Company records an expense for unrecoverable costs and accrues a liability equal to the present value at current credit adjusted risk-free interest rates of the remaining lease obligations and anticipated ancillary occupancy costs, net of estimated sublease income. Other store or distribution center closing and liquidation costs are expensed when incurred.

***Income Taxes***

Deferred income taxes are determined based on the difference between the financial reporting and tax basis of assets and liabilities. Deferred income tax expense (benefit) represents the change during the reporting period in the deferred tax assets and deferred tax liabilities, net of the effect of acquisitions and dispositions. Deferred tax assets include tax loss and credit carryforwards and are reduced by a valuation allowance if, based on available evidence, it is more likely than not that some portion of the deferred tax assets will not be realized. Changes in valuation allowances from period to period are included in the tax provision in the period of change.

The Company has net operating loss ("NOL") carryforwards that can be utilized to offset future income for federal and state tax purposes. These NOLs generate a significant deferred tax asset. The Company regularly reviews the deferred tax assets for recoverability considering historical profitability, projected taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies.

The Company recognizes tax liabilities in accordance with ASC 740, "Income Taxes" and the Company adjusts these liabilities with changes in judgment as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the tax liabilities.

**1. Summary of Significant Accounting Policies (Continued)**

*Sales Tax Collected*

Sales taxes collected from customers and remitted to various governmental agencies are presented on a net basis (excluded from revenues) in the Company's statement of operations.

*Use of Estimates*

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

*Significant Concentrations*

The Company's pharmacy sales were primarily to customers covered by health plan contracts, which typically contract with a third party payor that agrees to pay for all or a portion of a customer's eligible prescription purchases. During fiscal 2014, the top five third party payors accounted for approximately 65.8% of the Company's pharmacy sales. The largest third party payor, Express Scripts, represented 31.6% and 35.3% of pharmacy sales during fiscal 2014 and 2013, respectively. The largest third party payor during fiscal 2012, Medco Health Solutions, represented 22.9% of pharmacy sales. Third party payors are entities such as an insurance company, governmental agency, health maintenance organization or other managed care provider, and typically represent several health care contracts and customers.

During fiscal 2014, state sponsored Medicaid agencies and related managed care Medicaid payors accounted for approximately 13.7% of the Company's pharmacy sales, the largest of which was approximately 1.1% of the Company's pharmacy sales. During fiscal 2014, approximately 30.6% of the Company's pharmacy sales were to customers covered by Medicare Part D. Any significant loss of third-party payor business could have a material adverse effect on the Company's business and results of operations.

During fiscal 2014, the Company purchased brand pharmaceuticals and some generic pharmaceuticals, which amounted to approximately 88.2% of the dollar volume of its prescription drugs, from a single wholesaler, McKesson Corporation ("McKesson"), under a contract that the Company amended and restated in February 2014 and now runs through March 31, 2019. Under the amended and restated contract, with limited exceptions, the Company is required to purchase all of its branded pharmaceutical products and almost all of its generic (non-brand name) pharmaceutical products from McKesson. If the Company's relationship with McKesson was disrupted, it could temporarily have difficulty filling prescriptions for brand-named and generic drugs until it executed a replacement wholesaler agreement or developed and implemented self-distribution processes.

*Derivatives*

The Company may enter into interest rate swap agreements to hedge the exposure to increasing rates with respect to its variable rate debt, when the Company deems it prudent to do so. Upon

inception of interest rate swap agreements, or modifications thereto, the Company performs a comprehensive review of the interest rate swap agreements based on the criteria as provided by ASC 815, "Derivatives and Hedging." As of March 1, 2014 and March 2, 2013, the Company had no interest rate swap arrangements or other derivatives.

***Recent Accounting Pronouncements***

In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit when a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. ASU No. 2013-11 requires an entity to present unrecognized tax benefits as a reduction to deferred tax assets when a net operating loss carryforward, similar tax loss or a tax credit carryforward exists, with limited exceptions. ASU No. 2013-11 is effective for fiscal years beginning on or after December 15, 2013, and for interim periods within those fiscal years. This pronouncement will have no effect on the financial statements as the Company has historically presented uncertain tax positions in accordance with ASU No. 2013-11.

In May 2013, the FASB issued a proposed Accounting Standards Update, Leases (Topic 842): a revision of the 2010 proposed Accounting Standards Update, Leases (Topic 840), that would require an entity to recognize assets and liabilities arising under lease contracts on the balance sheet. The proposed standard, as currently drafted, will have a material impact on the company's reported results of operations and financial position.

In February 2013, the FASB issued ASU No. 2013-02, *Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. The guidance was issued in response to ASU No. 2011-05 and required disclosure of the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items of net income, if the amounts reclassified are required under U.S. GAAP to be reclassified in their entirety to net income in the same reporting period. For other amounts not required to be reclassified to net income in their entirety in the same reporting period, or when a portion of the amount is reclassified to a balance sheet account instead of directly to income or expense, a cross reference to the related footnote disclosures for additional information should be provided. The new requirements were effective prospectively for fiscal years beginning on or after December 15, 2012, and for interim periods within those fiscal years. The adoption did not have a material effect on the Company's financial statements. The Company has adopted the guidance in the first quarter of fiscal 2014 and modified the disclosures surrounding comprehensive income in Note 14, *Reclassifications from Accumulated Other Comprehensive Loss*.

**2. Income (Loss) Per Share**

Basic income (loss) per share is computed by dividing income (loss) available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted income (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the

**3. Lease Termination and Impairment Charges**

*Impairment Charges*

The Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate that an asset group has a carrying value that may not be recoverable. The individual operating store is the lowest level for which cash flows are identifiable. As such, the Company evaluates individual stores for recoverability of assets. To determine if a store needs to be tested for recoverability, the Company considers items such as decreases in market prices, changes in the manner in which the store is being used or physical condition, changes in legal factors or business climate, an accumulation of losses significantly in excess of budget, a current period operating or cash flow loss combined with a history of operating or cash flow losses or a projection of continuing losses, or an expectation that the store will be closed or sold.

The Company monitors new and recently relocated stores against operational projections and other strategic factors such as regional economics, new competitive entries and other local market considerations to determine if an impairment evaluation is required. For other stores, it performs a recoverability analysis if it has experienced current-period and historical cash flow losses.

In performing the recoverability test, the Company compares the expected future cash flows of a store to the carrying amount of its assets. Significant judgment is used to estimate future cash flows. Major assumptions that contribute to its future cash flow projections include expected sales, gross profit, and distribution expenses; expected costs such as payroll, occupancy costs and advertising expenses; and estimates for other significant selling, and general and administrative expenses. Many long-term macro-economic and industry factors are considered, both quantitatively and qualitatively, in the future cash flow assumptions. In addition to current and expected economic conditions such as inflation, interest and unemployment rates that affect customer shopping patterns, the Company considers that it operates in a highly competitive industry which includes the actions of other national and regional drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, dollar stores and internet pharmacies. Many of its competitors are spending significant capital and promotional dollars in certain geographies to gain market share. The Company has assumed certain sales growth from its loyalty program and other initiatives to grow sales. Recent and proposed Pharmacy Benefit Management consolidation and efforts of third party public and private payers have reduced pharmacy reimbursement rates in recent years. The Company expects this rate compression, which currently affects approximately 97% of its pharmacy business, to continue to affect it in the foreseeable future. The Company operates in a highly regulated industry and must make assumptions related to Federal and State efforts and proposals to affect the pricing and regulations related to prescription drugs, as well as, expected revenues and costs related to the Patient Protection and Affordable Care Act (health care reform).

**For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012**

**(In thousands, except per share amounts)**

**3. Lease Termination and Impairment Charges (Continued)**

Additionally, the Company takes into consideration that certain operating stores are executing specific improvement plans which are monitored quarterly to recoup recent capital investments, such as an acquisition of an independent pharmacy, which it has made to respond to specific competitive or local market conditions, or have specific programs tailored towards a specific geography or market.

The Company recorded impairment charges of \$13,077 in fiscal 2014, \$24,892 in fiscal 2013 and \$51,998 in fiscal 2012. The Company's methodology for recording impairment charges has not changed materially, and has been consistently applied in the periods presented.

At March 1, 2014, \$1.927 billion of the Company's long-lived assets, including intangible assets, were associated with 4,587 active operating stores.

If an operating store's estimated future undiscounted cash flows are not sufficient to cover its carrying value, its carrying value is reduced to fair value which is its estimated future discounted cash flows. The discount rate is commensurate with the risks associated with the recovery of a similar asset.

An impairment charge is recorded in the period that the store does not meet its original return on investment and/or has an operating loss for the last 2 years and its projected cash flows do not exceed its current asset carrying value. The amount of the impairment charge is the entire difference between the current asset carrying value and the estimated fair value of the assets using discounted future cash flows. Most stores are fully impaired in the period that the impairment charge is originally recorded.

The Company recorded impairment charges for active stores of \$11,748 in fiscal 2014, \$23,973 in fiscal 2013 and \$43,353 in fiscal 2012.

The Company reviews key performance results for active stores on a quarterly basis and approves certain stores for closure. Impairment for closed stores, if any (many stores are closed on lease expiration), are recorded in the quarter the closure decision is made and approved. Closure decisions are made on an individual store or regional basis considering all of the macro-economic, industry and other factors discussed above, in addition to, the active store's individual operating results. The Company currently has no plans to close a significant number of operating stores in future periods. In the next fiscal year, the Company currently expects to close fewer than 40 stores, primarily as a result of lease expirations. The Company recorded impairment charges for closed facilities of \$1,329 in fiscal 2014, \$919 in fiscal 2013 and \$8,645 in fiscal 2012.

Included in the impairment charges noted above, the Company recorded charges of \$798 in fiscal 2014, \$594 in fiscal 2013 and \$5,863 in fiscal 2012 for existing owned surplus property. Assets to be disposed of are evaluated quarterly to determine if an additional impairment charge is required. Fair value estimates are provided by independent brokers who operate in the local markets where the assets are located.

Existing surplus properties	7	798	5	594	12	5,863
<b>Total impairment charges-closed facilities</b>	<b>38</b>	<b>1,329</b>	<b>34</b>	<b>919</b>	<b>69</b>	<b>8,645</b>
<b>Active stores:</b>						
Additional current period charges for stores previously impaired in prior periods(1)	378	4,162	469	5,835	591	9,822
Charges for new, relocated and remodeled stores that did not meet their asset recoverability test in the current period(2)	1	4,028	14	9,190	19	18,926
Charges for the remaining stores that did not meet their asset recoverability test in the current period(3)	17	3,558	47	8,948	53	14,605
<b>Total impairment charges active stores</b>	<b>396</b>	<b>11,748</b>	<b>530</b>	<b>23,973</b>	<b>663</b>	<b>43,353</b>
<b>Total impairment charges all locations</b>	<b>434</b>	<b>\$ 13,077</b>	<b>564</b>	<b>\$ 24,892</b>	<b>732</b>	<b>\$ 51,998</b>
Total number of active stores	4,587		4,623		4,667	
Stores impaired in prior periods with no current charge	709		588		428	
Stores with a current period charge	396		530		663	
<b>Total cumulative active stores with impairment charges</b>	<b>1,105</b>		<b>1,118</b>		<b>1,091</b>	

(1)

These charges are related to stores that were impaired for the first time in prior periods. Most active stores, requiring an impairment charge, are fully impaired in the first period that they do not meet their asset recoverability test. However, in each prior period

## Edgar Filing: RITE AID CORP - Form 10-K

presented, a minority of stores were partially impaired since their fair value supported a reduced net book value. Accordingly, these stores may be further impaired in the current and future periods as a result of changes in their actual or projected cash flows, or changes to their fair value estimates. Also, the Company makes ongoing capital additions to certain stores to improve their operating results or to meet geographical competition, which if later are deemed to be unrecoverable, will be impaired in

Table of Contents

**RITE AID CORPORATION AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012**

**(In thousands, except per share amounts)**

**3. Lease Termination and Impairment Charges (Continued)**

future periods. Of this total, 375, 464 and 583 stores for fiscal years 2014, 2013 and 2012 respectively have been fully impaired.

(2)

These charges are related to new stores (open at least 3 years) and relocated stores (relocated in the last 2 years) and significant strategic remodels (remodeled in the last year) that did not meet their recoverability test during the current period. These stores have not met their original return on investment projections and have a historical loss of at least 2 years. Their future cash flow projections do not recover their current carrying value. Of this total, 1, 14 and 19 stores for fiscal years 2014, 2013 and 2012 respectively have been fully impaired.

(3)

These charges are related to the remaining active stores that did not meet the recoverability test during the current period. These stores have a historical loss of at least 2 years. Their future cash flow projections do not recover their current carrying value. Of this total, 14, 43 and 43 stores for fiscal years 2014, 2013 and 2012 respectively have been fully impaired.

The primary drivers of its impairment charges are each store's current and historical operating performance and the assumptions that the Company makes about each store's operating performance in future periods. Projected cash flows are updated based on the next year's operating budget which includes the qualitative factors noted above. The Company is unable to predict with any degree of certainty which individual stores will fall short or exceed future operating plans. Accordingly, the Company is unable to describe future trends that would affect its impairment charges, including the likely stores and their related asset values that may fail their recoverability test in future periods.

The Company utilizes the three-level valuation hierarchy for the recognition and disclosure of fair value measurements. The categorization of assets and liabilities within this hierarchy is based upon the lowest level of input that is significant to the measurement of fair value. The three levels of the hierarchy consist of the following:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument.

Level 3 Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk.

Long-lived non-financial assets are measured at fair value on a nonrecurring basis for purposes of calculating impairment using Level 2 and Level 3 inputs as defined in the fair value hierarchy. The fair value of long-lived assets using Level 2 inputs is determined by evaluating the current economic conditions in the geographic area for similar use assets. The fair value of long-lived assets using Level 3 inputs is determined by estimating the amount and timing of net future cash flows (which are unobservable inputs) and discounting them using a risk-adjusted rate of interest (which is Level 1). The Company estimates future cash flows based on its experience and knowledge of the market in which

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****3. Lease Termination and Impairment Charges (Continued)**

the store is located. Significant increases or decreases in actual cash flows may result in valuation changes.

The table below sets forth by level within the fair value hierarchy the long-lived assets as of the impairment measurement date for which an impairment assessment was performed and total losses as of March 1, 2014 and March 2, 2013:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Values as of Impairment Date	Total Charges March 1, 2014
Long-lived assets held and used	\$	\$ 42	\$ 15,051	\$ 15,093	\$ (12,279)
Long-lived assets held for sale		14,656		14,656	(798)
<b>Total</b>	<b>\$</b>	<b>\$ 14,698</b>	<b>\$ 15,051</b>	<b>\$ 29,749</b>	<b>\$ (13,077)</b>

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Values as of Impairment Date	Total Charges March 2, 2013
Long-lived assets held and used	\$	\$ 1,018	\$ 21,739	\$ 22,757	\$ (24,298)
Long-lived assets held for sale		1,842		1,842	(594)
<b>Total</b>	<b>\$</b>	<b>\$ 2,860</b>	<b>\$ 21,739</b>	<b>\$ 24,599</b>	<b>\$ (24,892)</b>

*Lease Termination Charges*

## Edgar Filing: RITE AID CORP - Form 10-K

Charges to close a store, which principally consist of continuing lease obligations, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in ASC 420, "Exit or Disposal Cost Obligations." The Company calculates the liability for closed stores on a store-by-store basis. The calculation includes the discounted effect of future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease term, net of estimated cost recoveries that may be achieved through subletting or favorable lease terminations. The Company evaluates these assumptions each quarter and adjusts the liability accordingly.

In fiscal 2014, 2013 and 2012, the Company recorded lease termination charges of \$28,227, \$45,967 and \$48,055, respectively. These charges related to changes in future assumptions, interest accretion and provisions for 15 stores in fiscal 2014, 14 stores in fiscal 2013, and 23 stores in fiscal 2012. Of the approximate 40 store closures for fiscal 2015, the Company anticipates that 15 will require a store lease closing provision.

As part of its ongoing business activities, the Company assesses stores and distribution centers for potential closure. Decisions to close or relocate stores or distribution centers in future periods would

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****3. Lease Termination and Impairment Charges (Continued)**

result in lease termination charges for lease exit costs and liquidation of inventory, as well as impairment of assets at these locations. The following table reflects the closed store and distribution center charges that relate to new closures, changes in assumptions and interest accretion:

	<b>March 1, 2014 (52 Weeks)</b>	<b>Year Ended March 2, 2013 (52 Weeks)</b>	<b>March 3, 2012 (53 Weeks)</b>
Balance beginning of year	\$ 323,757	\$ 367,864	\$ 405,350
Provision for present value of noncancellable lease payments of closed stores	11,646	14,440	11,832
Changes in assumptions about future sublease income, terminations and change in interest rates	(4,343)	9,023	11,305
Interest accretion	21,250	23,246	26,084
Cash payments, net of sublease income	(68,040)	(90,816)	(86,707)
Balance end of year	\$ 284,270	\$ 323,757	\$ 367,864

The Company's revenues and income (loss) before income taxes for fiscal 2014, 2013, and 2012 included results from stores that have been closed or are approved for closure as of March 1, 2014. The revenue, operating expenses and income (loss) before income taxes of these stores for the periods are presented as follows:

	<b>March 1, 2014</b>	<b>Year Ended March 2, 2013</b>	<b>March 3, 2012</b>
Revenues	\$ 89,416	\$ 139,082	\$ 258,263
Operating expenses	100,889	153,187	284,803
Gain from sale of assets	(13,074)	(19,894)	(12,206)
Other (income) expenses	(8,268)	622	(7,874)
Income (loss) before income taxes	9,869	5,167	(6,460)
Included in these stores' income (loss) before income taxes are:			
Depreciation and amortization	607	1,342	3,038
Inventory liquidation charges	621	708	598

The above results are not necessarily indicative of the impact that these closures will have on revenues and operating results of the Company in the future, as the Company often transfers the business of a closed store to another Company store, thereby retaining a portion of these revenues and operating expenses.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****4. Fair Value Measurements**

The Company utilizes the three-level valuation hierarchy as described in Note 3, *Lease Termination and Impairment Charges*, for the recognition and disclosure of fair value measurements.

As of March 1, 2014 and March 2, 2013, the Company did not have any financial assets measured on a recurring basis. Please see Note 3 for fair value measurements of non-financial assets measured on a non-recurring basis.

***Other Financial Instruments***

Financial instruments other than long-term indebtedness include cash and cash equivalents, accounts receivable and accounts payable. These instruments are recorded at book value, which we believe approximate their fair values due to their short term nature.

The fair value for LIBOR-based borrowings under the Company's senior secured credit facility and first and second lien term loans are estimated based on the quoted market price of the financial instrument which is considered Level 1 of the fair value hierarchy. The fair values of substantially all of the Company's other long-term indebtedness are estimated based on quoted market prices of the financial instruments which are considered Level 1 of the fair value hierarchy. The carrying amount and estimated fair value of the Company's total long-term indebtedness was \$5,649,732 and \$6,094,285, respectively, as of March 1, 2014. The carrying amount and estimated fair value of the Company's total long-term indebtedness was \$5,918,352 and \$6,188,597, respectively, as of March 2, 2013. There were no outstanding derivative financial instruments as of March 1, 2014 and March 2, 2013.

**5. Income Taxes**

The provision for income tax expense (benefit) was as follows:

	<b>March 1, 2014 (52 Weeks)</b>	<b>Year Ended March 2, 2013 (52 Weeks)</b>	<b>March 3, 2012 (53 Weeks)</b>
<b>Current tax:</b>			
Federal	\$	\$ (6,305)	\$
State	4,748	7,928	3,654
	4,748	1,623	3,654
<b>Deferred tax and other:</b>			
Federal		(61,544)	1,729
State	(30,609)	(50,679)	(29,069)
Tax expense recorded as an increase of additional paid-in-capital	26,665		
	(3,944)	(112,223)	(27,340)
<b>Total income tax expense (benefit)</b>	<b>\$ 804</b>	<b>\$ (110,600)</b>	<b>\$ (23,686)</b>

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****5. Income Taxes (Continued)**

A reconciliation of the expected statutory federal tax and the total income tax expense (benefit) was as follows:

	<b>March 1, 2014 (52 Weeks)</b>	<b>Year Ended March 2, 2013 (52 Weeks)</b>	<b>March 3, 2012 (53 Weeks)</b>
Expected federal statutory expense at 35%	\$ 87,576	\$ 2,626	\$ (137,279)
Nondeductible expenses	857	1,897	2,408
State income taxes, net	44,366	39,470	11,492
Decrease of previously recorded liabilities	(21,101)	(91,881)	(17,771)
Nondeductible compensation	44,244		
Recoverable federal tax due to special 5-year NOL carryback		(6,305)	
Release of indemnification asset	5,941	37,324	
Indemnification receipt		587	
Valuation allowance	(161,079)	(94,318)	117,464
<b>Total income tax expense (benefit)</b>	<b>\$ 804</b>	<b>\$ (110,600)</b>	<b>\$ (23,686)</b>

Net Income for fiscal 2014 included income tax expense of \$804 resulting from an increase in the deferred tax valuation allowance for the windfall tax benefits recorded in additional paid-in capital ("APIC") pursuant to the tax law ordering approach offset by adjustments to unrecognized tax benefits due to the lapse of statute of limitations. ASC 740, "Income Taxes" requires a company to evaluate its deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. A cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, ASC 740 precludes relying on projections of future taxable income to support the recognition of deferred tax assets.

Net Income for fiscal 2013 included income tax benefit of \$110,600 primarily comprised of adjustments to unrecognized tax benefits for the appellate settlements of the Brooks Eckerd IRS Audit for the fiscal years 2004 - 2007 and the Commonwealth of Massachusetts Audit for fiscal years 2005 - 2007 as well as for the lapse of statute of limitations. The appellate settlements were offset by a reversal of the related tax indemnification asset which was recorded in selling, general and administrative expenses as these audits were related to pre-acquisition periods. Net loss for fiscal 2012 included income tax benefit of \$23,686 and was primarily comprised of adjustments to unrecognized tax benefits due to the lapse of statute of limitations.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****5. Income Taxes (Continued)**

The tax effect of temporary differences that gave rise to significant components of deferred tax assets and liabilities consisted of the following at March 1, 2014 and March 2, 2013:

	2014	2013
Deferred tax assets:		
Accounts receivable	\$ 62,973	\$ 62,745
Accrued expenses	204,346	214,110
Liability for lease exit costs	116,803	142,456
Pension, retirement and other benefits	174,917	219,515
Long-lived assets	424,290	374,101
Other	1,989	2,079
Credits	60,951	62,121
Net operating losses	1,428,751	1,558,694
Total gross deferred tax assets	2,475,020	2,635,821
Valuation allowance	(2,060,811)	(2,223,675)
Total deferred tax assets	414,209	412,146
Deferred tax liabilities:		
Inventory	414,209	412,146
Total gross deferred tax liabilities	414,209	412,146
Net deferred tax assets	\$	\$

A reconciliation of the beginning and ending amount of unrecognized tax benefits was as follows:

	2014	2013	2012
Unrecognized tax benefits	\$ 30,020	\$ 247,722	\$ 286,952
Increases to prior year tax positions		6,305	
Decreases to tax positions in prior periods	(3,215)	(196,214)	(11,125)
Increases to current year tax positions			
Settlements		(3,655)	
Lapse of statute of limitations	(16,662)	(24,138)	(28,105)
Unrecognized tax benefits balance	\$ 10,143	\$ 30,020	\$ 247,722

## Edgar Filing: RITE AID CORP - Form 10-K

The amount of the above unrecognized tax benefits at March 1, 2014, March 2, 2013 and March 3, 2012 which would impact the Company's effective tax rate, if recognized, was \$876, \$14,651 and \$83,804, respectively. Additionally, any impact on the effective rate may be mitigated by the valuation allowance that is maintained against the Company's net deferred tax assets.

The Company is indemnified by Jean Coutu Group for certain tax liabilities incurred for all years ended up to and including the acquisition date of June 4, 2007, related to the Brooks Eckerd acquisition. Although the Company is indemnified by Jean Coutu Group, the Company remains the primary obligor to the tax authorities with respect to any tax liability arising for the years prior to the

Table of Contents

**For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012**

**(In thousands, except per share amounts)**

**5. Income Taxes (Continued)**

acquisition. Accordingly, as of March 1, 2014, March 2, 2013 and March 3, 2012, the Company had a corresponding recoverable indemnification asset of \$195, \$30,710 and \$156,797 from Jean Coutu Group, included in the "Other Assets" line of the Consolidated Balance Sheets, to reflect the indemnification for such liabilities.

While it is expected that the amount of unrecognized tax benefits will change in the next twelve months, management does not expect the change to have a significant impact on the results of operations or the financial position of the company.

The Company recognizes interest and penalties related to tax contingencies as income tax expense. Prior to the adoption of ASC 740, "Income Taxes," the Company included interest as income tax expense and penalties as an operating expense. The Company recognized (benefit) for interest and penalties in connection with tax matters of (\$16,833), (\$43,069) and (\$2,113) for fiscal years 2014, 2013 and 2012, respectively. As of March 1, 2014 and March 2, 2013 the total amount of accrued income tax-related interest and penalties was \$5,364 and \$22,197, respectively.

The Company files U.S. federal income tax returns as well as income tax returns in those states where it does business. The consolidated federal income tax returns have been subject to examination by the IRS through fiscal 2008, including the Brooks Eckerd pre-acquisition periods. However, any net operating losses that were generated in these prior closed years may be subject to examination by the IRS upon utilization. Tax examinations by various state taxing authorities could generally be conducted for a period of three to five years after filing of the respective return. However, as a result of filing amended returns, the Company has statutes open in some states from fiscal year 2005.

***Net Operating Losses and Tax Credits***

At March 1, 2014, the Company had federal net operating loss (NOL) carryforwards of approximately \$3,507,186. Of these, \$1,906,013 will expire, if not utilized, between fiscal 2020 and 2022. An additional \$1,519,062 will expire, if not utilized, between fiscal 2028 and 2032.

At March 1, 2014, the Company had state NOL carryforwards of approximately \$4,476,975, the majority of which will expire between fiscal 2019 and 2027.

The Company's federal and state net operating loss carryforwards include deductions of \$18,365 for windfall tax benefits that have not yet been recognized in the financial statements at March 1, 2014. These tax benefits will be credited to additional paid-in capital when they reduce current taxable income consistent with the tax law ordering approach.

At March 1, 2014, the Company had federal business tax credit carryforwards of \$50,595, the majority of which will expire between 2019 and 2021. In addition to these credits, the Company had alternative minimum tax credit carryforwards of \$3,221.

***Valuation Allowances***

The valuation allowances as of March 1, 2014 and March 2, 2013 apply to the net deferred tax assets of the Company. The Company maintained a full valuation allowance of \$2,060,811 and \$2,223,675 against net deferred tax assets as a result of a three year cumulative loss at March 1, 2014 and March 2, 2013, respectively.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****6. Accounts Receivable**

The Company maintains an allowance for doubtful accounts receivable based upon the expected collectability of accounts receivable. The allowance for uncollectible accounts at March 1, 2014 and March 2, 2013 was \$26,873 and \$28,271 respectively. The Company's accounts receivable are due primarily from third-party payors (e.g., pharmacy benefit management companies, insurance companies or governmental agencies) and are recorded net of any allowances provided for under the respective plans. Since payments due from third-party payors are sensitive to payment criteria changes and legislative actions, the allowance is reviewed continually and adjusted for accounts deemed uncollectible by management.

**7. Inventory**

At March 1, 2014 and March 2, 2013, inventories were \$1,018,581 and \$915,241, respectively, lower than the amounts that would have been reported using the first-in, first-out ("FIFO") cost flow assumption. The Company calculates its FIFO inventory valuation using the retail method for store inventories and the cost method for distribution facility inventories. The Company recorded a LIFO charge for fiscal year 2014 of \$104,142, compared to a LIFO credit of \$147,882 for fiscal year 2013 and a LIFO charge of \$188,722 for fiscal year 2012. During fiscal 2014, 2013 and 2012, a reduction in inventories related to working capital initiatives resulted in the liquidation of applicable LIFO inventory quantities carried at lower costs in prior years. This LIFO liquidation resulted in a \$13,894, \$4,316 and \$11,004 cost of sales decrease, with a corresponding reduction to the adjustment to LIFO for fiscal 2014, fiscal 2013 and fiscal 2012, respectively.

**8. Property, Plant and Equipment**

Following is a summary of property, plant and equipment, including capital lease assets, at March 1, 2014 and March 2, 2013:

	<b>2014</b>	<b>2013</b>
Land	\$ 233,098	\$ 243,413
Buildings	753,633	753,952
Leasehold improvements	1,890,369	1,733,607
Equipment	2,194,339	2,079,372
Construction in progress	69,388	55,013
	5,140,827	4,865,357
Accumulated depreciation	(3,183,498)	(2,969,707)
Property, plant and equipment, net	\$ 1,957,329	\$ 1,895,650

Depreciation expense, which included the depreciation of assets recorded under capital leases, was \$284,603, \$286,374 and \$296,792 in fiscal 2014, 2013 and 2012, respectively.

Included in property, plant and equipment was the carrying amount of assets to be disposed of totaling \$1,887 and \$14,702 at March 1, 2014 and March 2, 2013, respectively.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****9. Other Intangibles**

The Company's intangible assets are finite-lived and amortized over their useful lives. Following is a summary of the Company's intangible assets as of March 1, 2014 and March 2, 2013.

	2014			2013		
	Gross Carrying Amount	Accumulated Amortization	Remaining Weighted Average Amortization Period	Gross Carrying Amount	Accumulated Amortization	Remaining Weighted Average Amortization Period
Favorable leases and other	\$ 634,320	\$ (447,608)	9 years	\$ 623,541	\$ (413,556)	10 years
Prescription files	1,353,057	(1,108,542)	4 years	1,286,087	(1,031,668)	4 years
<b>Total</b>	<b>\$ 1,987,377</b>	<b>\$ (1,556,150)</b>		<b>\$ 1,909,628</b>	<b>\$ (1,445,224)</b>	

Also included in other non-current liabilities as of March 1, 2014 and March 2, 2013 are unfavorable lease intangibles with a net carrying amount of \$62,687 and \$70,195, respectively.

Amortization expense for these intangible assets and liabilities was \$119,138, \$127,737 and \$143,790 for fiscal 2014, 2013 and 2012, respectively. The anticipated annual amortization expense for these intangible assets and liabilities is 2015 \$105,149; 2016 \$93,337; 2017 \$80,052; 2018 \$42,113 and 2019 \$16,322.

**10. Accrued Salaries, Wages and Other Current Liabilities**

Accrued salaries, wages and other current liabilities consisted of the following at March 1, 2014 and March 2, 2013:

	2014	2013
Accrued wages, benefits and other personnel costs	\$ 449,585	\$ 437,222
Accrued interest	69,193	76,164

***Credit Facility***

The Company has a senior secured credit facility that consists of a \$1,795,000 revolving credit facility and a \$1,152,293 senior secured term loan (the "Tranche 7 Term Loan"). Borrowings under the revolving credit facility bear interest at a rate per annum between LIBOR plus 2.25% and LIBOR plus 2.75%, if the Company chooses to make LIBOR borrowings, or between Citibank's base rate plus 1.25% and Citibank's base rate plus 1.75% in each case based upon the amount of revolver availability

**(In thousands, except per share amounts)**

**11. Indebtedness and Credit Agreement (Continued)**

as defined in the senior secured credit facility. The Company is required to pay fees between 0.375% and 0.50% per annum on the daily unused amount of the revolver, depending on the amount of revolver availability. Amounts drawn under the revolver become due and payable on February 21, 2018. On March 14, 2014, the Company amended and restated its credit agreement governing its senior secured credit facility, pursuant to which, it prepaid its outstanding Tranche 6 Term Loan with the proceeds of a new \$1,152,293 Tranche 7 Term Loan. The Tranche 7 Term Loan matures on February 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 2.75%, if the Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 1.75%. The Tranche 7 Term Loan is subject to a 0.75% LIBOR floor per annum.

The Company's ability to borrow under the revolver is based upon a specified borrowing base consisting of accounts receivable, inventory and prescription files. At March 1, 2014, the Company had \$400,000 of borrowings outstanding under the revolver and had letters of credit outstanding against the revolver of \$79,874, which resulted in additional borrowing capacity of \$1,315,126.

The senior secured credit facility contains certain restrictions on the ability of the Company and the subsidiary guarantors to accumulate cash on hand, and under certain circumstances, requires the funds in the Company's deposit accounts to be applied first to the repayment of outstanding revolving loans under the senior secured credit facility and then to be held as collateral for the senior obligations.

The senior credit facility restricts the amount of secured and unsecured debt the Company may have outstanding. The senior secured credit facility allows the Company to incur an unlimited amount of unsecured debt with a maturity beyond May 21, 2020. However, the Company's second priority secured term loan facilities and the indentures that govern the Company's secured and guaranteed unsecured notes contain restrictions on the amount of additional secured and unsecured debt that can be incurred by the Company. Pursuant to certain of the Company's existing indentures, the Company could not incur any additional secured debt assuming a fully drawn revolver and the outstanding letters of credit. The ability to issue additional unsecured debt under the second priority secured term loan facilities and the indentures is generally governed by an interest coverage ratio test. As of March 1, 2014, the Company had the ability to issue additional unsecured debt under the second lien credit facilities and other indentures.

The senior secured credit facility contains additional covenants which place restrictions on the incurrence of debt, the payments of dividends, sale of assets, mergers and acquisitions and the granting of liens. The credit facility has a financial covenant, which is the maintenance of a fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150,000, the Company must maintain a minimum fixed charge coverage ratio of 1.00 to 1.00. As of March 1, 2014, availability under the revolving credit facility was in excess of \$150,000 and our fixed charge coverage ratio was greater than 1.00 to 1.00. The senior secured credit facility also provides for customary events of default.

The Company also has a second priority secured term loan facility, which includes a \$470,000 second priority secured term loan (the "Tranche 1 Term Loan"). The Tranche 1 Term Loan matures on August 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 4.75%, if the

Table of Contents

**(In thousands, except per share amounts)**

**11. Indebtedness and Credit Agreement (Continued)**

Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 3.75%. The Tranche 1 Term Loan is subject to a 1.00% LIBOR floor per annum.

On June 21, 2013, the Company entered into a new second priority secured term loan facility, which includes a \$500,000 second priority secured term loan (the "Tranche 2 Term Loan"). The Tranche 2 Term Loan matures on June 21, 2021 and currently bears interest at a rate per annum equal to LIBOR plus 3.875% with a LIBOR floor of 1.00%, if the Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 2.875%.

Substantially all of Rite Aid Corporation's 100 percent owned subsidiaries guarantee the obligations under the senior secured credit facility, second priority secured term loan facilities, secured guaranteed notes and unsecured guaranteed notes. The senior secured credit facility, second priority secured term loan facilities and secured guaranteed notes are secured, on a senior or second priority basis, as applicable, by a lien on, among other things, accounts receivable, inventory and prescription files of the subsidiary guarantors. The subsidiary guarantees related to the Company's senior secured credit facility, second priority secured term loan facilities and secured guaranteed notes and, on an unsecured basis, the unsecured guaranteed notes are full and unconditional and joint and several, and there are no restrictions on the ability of the Company to obtain funds from its subsidiaries. Also, the Company has no independent assets or operations, and subsidiaries not guaranteeing the credit facility, second priority secured term loan facilities and applicable notes are minor. Accordingly, condensed consolidating financial information for the Company and subsidiaries is not presented.

***Other 2014 Transactions***

In June 2013, the Company completed a tender offer for its 7.5% senior secured notes due 2017 in which \$419,237 aggregate principal amount of the outstanding 7.5% notes were tendered and repurchased. In July 2013, the Company redeemed the remaining 7.5% notes for \$85,154, which included the call premium and interest to the redemption date. The tender offer for, and redemption of, the 7.5% notes were funded using the proceeds from the Tranche 2 Term Loan, borrowings under the Company's revolving credit facility and available cash.

On July 2, 2013, the Company issued \$810,000 of its 6.75% senior notes due 2021. The Company's obligations under the notes are fully and unconditionally guaranteed, jointly and severally, on an unsubordinated basis, by all of its subsidiaries that guarantee the Company's obligations under the senior secured credit facility, the second priority secured term loan facilities and the outstanding 8.00% senior secured notes due 2020, 10.25% senior secured notes due 2019 and 9.25% senior notes due 2020. The Company used the net proceeds of the 6.75% notes, borrowings under its revolving credit facility and available cash to repurchase and repay all of the Company's outstanding \$810,000 aggregate principal of 9.5% senior notes due 2017.

In July 2013, the Company completed a tender offer for its 9.5% notes in which \$739,642 aggregate principal amount of the outstanding 9.5% notes were tendered and repurchased. In August 2013, the Company redeemed the remaining 9.5% notes for \$73,440, which included the call premium and interest to the redemption date.

**11. Indebtedness and Credit Agreement (Continued)**

In connection with these refinancing transactions, the Company recorded a loss on debt retirement, including tender and call premium and interest, unamortized debt issue costs and unamortized discount of \$62,172.

As of March 2, 2013, Rite Aid Lease Management Company, a 100 percent owned subsidiary of the Company, had 213,000 shares of its Cumulative Preferred Stock, Class A, par value \$100 per share ("RALMCO Cumulative Preferred Stock"), outstanding. The carrying amount of the RALMCO Cumulative Preferred Stock as of November 29, 2013 was \$20,763 and was recorded in Other Noncurrent Liabilities. On November 29, 2013, the Company repurchased all of the outstanding RALMCO Cumulative Preferred Stock for \$21,034. In connection with this transaction, the Company recorded a loss on debt retirement of \$271.

**2013 Transactions**

In February 2013, the Company repurchased all of its outstanding \$410,000 aggregate principal of 9.750% senior secured notes, \$470,000 aggregate principal of 10.375% senior secured notes and \$180,277 aggregate principal amount of 6.875% senior debentures. In February 2013, \$257,261 aggregate principal amount of the 9.750% notes, \$401,999 aggregate principal amount of the 10.375% notes and \$119,119 aggregate principal amount of the 6.875% debentures, respectively, were tendered and repurchased by the Company. The Company redeemed the remaining 9.750% notes and 10.375% notes for \$171,432 and \$72,901, respectively, which included the call premium and interest through the redemption date. Additionally, the Company discharged the remaining 6.875% debentures for \$63,416, which included interest through maturity.

In February 2013, the Company redeemed \$6,015 aggregate principal amount of 9.25% senior notes for \$6,147, which included interest through the redemption date.

In connection with the above transactions, the Company recorded a loss on debt retirement, including tender and call premium and interest, unamortized debt issue costs and unamortized discount of \$122,660.

In February 2012, the Company issued \$481,000 of its 9.25% senior notes and in May 2012, the Company issued an additional \$421,000 of its 9.25% senior notes. The proceeds of the notes, together with available cash, were used to repurchase the 8.625% senior notes and the 9.375% senior notes, respectively. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. The Company's obligations under the notes are fully and unconditionally guaranteed, jointly and severally, on an unsubordinated basis, by all of its subsidiaries that guarantee the Company's obligations under the senior secured credit facility, the second priority secured term loan facility and the outstanding 8.00% senior secured notes, 7.5% senior secured notes, 10.25% senior secured notes and 9.5% senior notes.

In May 2012, the Company completed a tender offer for the 9.375% notes in which \$296,269 aggregate principal amount of the outstanding 9.375% notes were tendered and repurchased. In June 2012, the Company redeemed the remaining 9.375% notes for \$108,731, which included the call premium and interest through the redemption date. The May 2012 refinancing resulted in an aggregate loss on debt retirement of \$17,842.

***2012 Transactions***

In February 2012, the Company completed a tender offer for the 8.625% notes in which \$404,844 aggregate principal amount of the outstanding 8.625% notes were tendered and repurchased, resulting in an aggregate loss on debt retirement of \$16,066, recorded in the fourth quarter of fiscal 2012. In March 2012, the Company redeemed the remaining 8.625% notes for \$55,644, which included the call premium and interest through the redemption date.

During August 2011, the Company repurchased \$41,000 of its 8.625% notes, \$5,000 of its 9.375% notes and \$4,496 of its 6.875% debentures. These repurchases resulted in a gain for the period of \$4,924.

***Interest Rates and Maturities***

The annual weighted average interest rate on the Company's indebtedness was 6.4%, 7.1%, and 7.4% for fiscal 2014, 2013, and 2012, respectively.

The aggregate annual principal payments of long-term debt for the five succeeding fiscal years are as follows: 2015 \$16,934; 2016 \$75,798; 2017 \$11,610; 2018 \$411,610 and \$5,130,853 in 2019 and thereafter.

**12. Leases**

The Company leases most of its retail stores and certain distribution facilities under noncancellable operating and capital leases, most of which have initial lease terms ranging from 5 to 22 years. The Company also leases certain of its equipment and other assets under noncancellable operating leases with initial terms ranging from 3 to 10 years. In addition to minimum rental payments, certain store leases require additional payments based on sales volume, as well as reimbursements for taxes, maintenance and insurance. Most leases contain renewal options, certain of which involve rent increases. Total rental expense, net of sublease income of \$8,369, \$8,536, and \$8,866, was \$952,777, \$951,239, and \$976,892 in fiscal 2014, 2013, and 2012, respectively. These amounts include contingent rentals of \$18,679, \$21,026 and \$22,659 in fiscal 2014, 2013, and 2012, respectively.

During fiscal 2014, the Company sold one owned operating store to an independent third party. Net proceeds from the sale were \$3,989. Concurrent with this sale, the Company entered into an agreement to lease the store back from the purchaser over a minimum lease term of 20 years. The Company accounted for this lease as an operating lease. The transaction resulted in a gain of \$269 which is included in the gain on sale of assets, net for the fifty-two weeks ended March 1, 2014.

During fiscal 2013, the Company sold two owned operating stores to independent third parties. Net proceeds from the sale were \$6,355. Concurrent with these sales, the Company entered into agreements to lease the stores back from the purchasers over a minimum lease term of 12 to 20 years. The Company accounted for these leases as operating leases. The transactions resulted in a gain of \$1,818 which is included in the gain on sale of assets, net for the fifty-two weeks ended March 2, 2013.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****12. Leases (Continued)**

During fiscal 2012, the Company sold two owned operating stores to independent third parties. Net proceeds from the sale were \$6,038. Concurrent with these sales, the Company entered into agreements to lease the stores back from the purchasers over a minimum lease term of 7 to 10 years. The Company accounted for these leases as operating leases. The transactions resulted in a loss of \$3,896 which is included in the gain on sale of assets, net for the fifty-three weeks ended March 3, 2012.

The net book values of assets under capital leases and sale-leasebacks accounted for under the financing method at March 1, 2014 and March 2, 2013 are summarized as follows:

	2014	2013
Land	\$ 5,063	\$ 6,692
Buildings	135,581	137,206
Leasehold improvements	1,446	1,691
Equipment	34,305	21,316
Accumulated depreciation	(113,536)	(103,381)
	\$ 62,859	\$ 63,524

Following is a summary of lease finance obligations at March 1, 2014 and March 2, 2013:

	2014	2013
Obligations under financing leases	\$ 102,671	\$ 107,308
Sale-leaseback obligations	4,740	7,876
Less current obligation	(32,240)	(23,334)
Long-term lease finance obligations	\$ 75,171	\$ 91,850

Following are the minimum lease payments for all properties under a lease agreement that will have to be made in each of the years indicated based on non-cancelable leases in effect as of March 1, 2014:

Fiscal year	Lease Financing Obligations	Operating Leases
2015	\$ 40,030	\$ 996,495
2016	21,228	953,607
2017	19,330	892,261
2018	13,496	810,267
2019	12,370	713,914

**13. Stock Option and Stock Award Plans**

The Company recognizes share-based compensation expense in accordance with ASC 718, "Compensation Stock Compensation." Expense is recognized over the requisite service period of the award, net of an estimate for the impact of forfeitures. Operating results for fiscal 2014, 2013 and 2012 include \$16,194, \$17,717 and \$15,861 of compensation costs related to the Company's stock-based compensation arrangements.

In November 1999, the Company adopted the 1999 Stock Option Plan (the 1999 Plan), under which 10,000 shares of common stock are authorized for the granting of stock options at the discretion of the Board of Directors.

In December 2000, the Company adopted the 2000 Omnibus Equity Plan (the 2000 Plan) under which 22,000 shares of common stock are reserved for granting of restricted stock, stock options, phantom stock, stock bonus awards and other stock awards at the discretion of the Board of Directors.

In February 2001, the Company adopted the 2001 Stock Option Plan (the 2001 Plan) which was approved by the shareholders under which 20,000 shares of common stock are authorized for granting of stock options at the discretion of the Board of Directors.

In April 2004, the Board of Directors adopted the 2004 Omnibus Equity Plan, which was approved by the shareholders. Under the plan, 20,000 shares of common stock are authorized for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors.

In January 2007, the stockholders of Rite Aid Corporation approved the adoption of the Rite Aid Corporation 2006 Omnibus Equity Plan. Under the plan, 50,000 shares of Rite Aid common stock are available for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors.

In June 2010, the stockholders of Rite Aid Corporation approved the adoption of the Rite Aid Corporation 2010 Omnibus Equity Plan. Under the plan, 35,000 shares of Rite Aid common stock are available for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors. The adoption of the 2010 Omnibus Equity Plan became effective on June 23, 2010.

In June 2012, the stockholders of Rite Aid Corporation approved the adoption of the Rite Aid Corporation 2012 Omnibus Equity Plan. Under the plan, 28,500 shares of Rite Aid common stock are available for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors. The adoption of the 2012 Omnibus Equity Plan became effective on June 21, 2012.

All of the plans provide for the Board of Directors (or at its election, the Compensation Committee) to determine both when and in what manner options may be exercised; however, it may not be more than 10 years from the date of grant. All of the plans provide that stock options may be granted at prices that are not less than the fair market value of a share of common stock on the date of grant. The aggregate number of shares authorized for issuance for all plans is 62,103 as of March 1, 2014.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****13. Stock Option and Stock Award Plans (Continued)***Stock Options*

The Company determines the fair value of stock options issued on the date of grant using the Black-Scholes-Merton option-pricing model. The following weighted average assumptions were used for options granted in fiscal 2014, 2013 and 2012:

	2014	2013	2012
Expected stock price volatility(1)	85%	85%	79%
Expected dividend yield(2)	0.00%	0.00%	0.00%
Risk-free interest rate(3)	1.45%	0.71%	1.45%
Expected option life(4)	5.5 years	5.5 years	5.5 years

- (1) The expected volatility is based on the historical volatility of the stock price over the most recent period equal to expected life of the option.
- (2) The dividend rate that will be paid out on the underlying shares during the expected term of the options. The Company does not currently pay dividends on its common stock, as such, the dividend rate is assumed to be zero percent.
- (3) The risk free interest rate is equal to the rate available on United States Treasury zero-coupon issues as of the grant date of the option with a remaining term equal to the expected term.
- (4) The period of time for which the option is expected to be outstanding. The Company analyzed historical exercise behavior.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****13. Stock Option and Stock Award Plans (Continued)**

The weighted average fair value of options granted during fiscal 2014, 2013 and 2012 was \$1.91, \$0.91 and \$0.82, respectively. Following is a summary of stock option transactions for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012:

	Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at February 26, 2011	74,298	\$ 2.47		
Granted	23,200	1.19

Cancelled	(3,283)	2.08		
Outstanding at March 2, 2013	81,000	\$ 1.48		
Granted	4,828	2.76		
Exercised	(26,873)	1.24		
Cancelled	(2,989)	2.46		
Outstanding at March 1, 2014	55,966	\$ 1.65	6.48	\$ 276,320
Vested or expected to vest at March 1, 2014	51,761	\$ 1.67	6.38	\$ 254,692
Exercisable at March 1, 2014	29,881	\$ 1.77	5.27	\$ 143,971

## Edgar Filing: RITE AID CORP - Form 10-K

As of March 1, 2014, there was \$15,251 of total unrecognized pre-tax compensation costs related to unvested stock options, net of forfeitures. These costs are expected to be recognized over a weighted average period of 2.32 years.

Cash received from stock option exercises for fiscal 2014, 2013 and 2012 was \$33,217, \$1,646 and \$914, respectively. The income tax benefit from stock options for fiscal 2014, 2013 and 2012 was \$23,660, \$0 and \$0, respectively. The total intrinsic value of stock options exercised for fiscal 2014, 2013 and 2012 was \$80,598, \$714 and \$255, respectively.

Typically, stock options granted vest, and are subsequently exercisable in equal annual installments over a four-year period for employees.

### ***Restricted Stock***

The Company provides restricted stock grants to associates under plans approved by the stockholders. Shares awarded under the plans vest in installments up to three years. Beginning in fiscal 2011, stock awards granted to non-employee directors vest 80% in year one, 10% in year two and 10% in year three. Unvested shares are forfeited upon termination of employment. Following is a summary

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****13. Stock Option and Stock Award Plans (Continued)**

of restricted stock transactions for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012:

	Shares	Weighted Average Grant Date Fair Value
Balance at February 26, 2011	7,078	\$ 1.12
Granted	8,525	1.23
Vested	(3,366)	1.11
Cancelled	(731)	1.16
Balance at March 3, 2012	11,506	\$ 1.20
Granted	5,450	1.31
Vested	(3,917)	1.18

Reclassifications from Accumulated Other Comprehensive Loss (Continued)**

The following table summarizes the effects on net income (loss) of significant amounts classified out of each component of accumulated other comprehensive loss for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012:

Details about accumulated other comprehensive loss components	Fiscal Years Ended March 1, 2014, March 2, 2013 and March 3, 2012			Amount reclassified from accumulated other comprehensive loss	Affected line item in the consolidated statements of operations
	March 1, 2014 (52 Weeks)	March 2, 2013 (52 Weeks)	March 3, 2012 (53 Weeks)		
Defined benefit pension plans					
Amortization of unrecognized prior service cost(a)	\$ (240)	\$ (240)	\$ (639)		Selling, general and administrative expenses
Amortization of unrecognized net loss(a)	(4,584)	(4,792)	(1,853)		Selling, general and administrative expenses
	(4,824)	(5,032)	(2,492)		Total before income tax expense
					Income tax expense(b)
	\$ (4,824)	\$ (5,032)	\$ (2,492)		Net of income tax expense

(a) See Note 15, Retirement Plans for additional details.

(b) Income tax expense is \$0 due to the valuation allowance. See Note 5, Income Taxes for additional details.

**15. Retirement Plans*****Defined Contribution Plans***

The Company and its subsidiaries sponsor several retirement plans that are primarily 401(k) defined contribution plans covering nonunion associates and certain union associates. The Company does not contribute to all of the plans. In accordance with those plan provisions, the Company matches 100% of a participant's pretax payroll contributions, up to a maximum of 3% of such participant's pretax annual compensation. Thereafter, the Company will match 50% of the participant's additional pretax payroll contributions, up to a maximum of 2% of such participant's additional pretax annual compensation. Total expense recognized for the above plans was \$57,857 in fiscal 2014, \$56,480 in fiscal 2013 and \$57,036 in fiscal 2012.

The Company sponsors a Supplemental Executive Retirement Plan ("SERP") for its officers, which is a defined contribution plan that is subject to a five year graduated vesting schedule. The expense recognized for the SERP was \$11,531 in fiscal 2014, \$7,469 in fiscal 2013 and \$4,582 in fiscal 2012.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****15. Retirement Plans (Continued)***Defined Benefit Plans*

The Company and its subsidiaries also sponsor a qualified defined benefit pension plan that requires benefits to be paid to eligible associates based upon years of service and, in some cases, eligible compensation. The Company's funding policy for The Rite Aid Pension Plan (The "Defined Benefit Pension Plan") is to contribute the minimum amount required by the Employee Retirement Income Security Act of 1974. However, the Company may, at its sole discretion, contribute additional funds to the plan. The Company made contributions of \$8,000 in fiscal 2014, \$5,583 in fiscal 2013 and \$14,878 in fiscal 2012.

The Company also maintains a nonqualified executive retirement plan for certain former employees who, pursuant to their employment agreements, did not participate in the SERP. The Company no longer enrolls new participants into this plan. These participants generally receive an annual benefit payable monthly over fifteen years. This nonqualified defined benefit plan is unfunded.

Net periodic pension expense and other changes recognized in other comprehensive income for the defined benefit pension plans and the nonqualified executive retirement plan included the following components:

	Defined Benefit Pension Plan			Nonqualified Executive Retirement Plan		
	2014	2013	2012	2014	2013	2012
Service cost	\$ 3,341	\$ 2,908	\$ 2,988	\$	\$	\$ 21

Actuarial (gain) loss	(11,710)	(159)	(351)	110
Benefit obligation at end of year	\$ 148,596	\$ 158,522	\$ 12,865	\$ 14,332
<b>Change in plan assets:</b>				
Fair value of plan assets at beginning of year	\$ 114,773	\$ 108,196	\$	\$
Employer contributions	8,000	5,583	1,655	1,659
Actual return on plan assets	13,888	9,067		
Distributions (including expenses paid by the plan)	(7,677)	(8,073)	(1,655)	(1,659)
Fair value of plan assets at end of year	\$ 128,984	\$ 114,773	\$	\$
Funded status	\$ (19,612)	\$ (43,749)	\$ (12,865)	\$ (14,331)
Net amount recognized	\$ (19,612)	\$ (43,749)	\$ (12,865)	\$ (14,331)
<b>Amounts recognized in consolidated balance sheets consisted of:</b>				
Prepaid pension cost	\$	\$	\$	\$

Edgar Filing: RITE AID CORP - Form 10-K

Accrued pension liability	(19,612)	(43,749)	(12,865)	(14,331)
Net amount recognized	\$ (19,612)	\$ (43,749)	\$ (12,865)	\$ (14,331)
Amounts recognized in accumulated other comprehensive loss consist of:				
Net actuarial loss	\$ (35,348)	\$ (59,143)	\$	\$
Prior service cost	(307)	(547)		
Amount recognized	\$ (35,655)	\$ (59,690)	\$	\$

The estimated net actuarial loss and prior service cost amounts that will be amortized from accumulated other comprehensive loss into net periodic pension expense in fiscal 2015 are \$2,399 and \$240, respectively.

The accumulated benefit obligation for the defined benefit pension plan was \$148,596 and \$158,368 as of March 1, 2014 and March 2, 2013, respectively. The accumulated benefit obligation for

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****15. Retirement Plans (Continued)**

the nonqualified executive retirement plan was \$12,865 and \$14,331 as of March 1, 2014 and March 2, 2013, respectively.

The significant actuarial assumptions used for all defined benefit plans to determine the benefit obligation as of March 1, 2014, March 2, 2013 and March 3, 2012 were as follows:

	Defined Benefit Pension Plan			Nonqualified Executive Retirement Plan		
	2014	2013	2012	2014	2013	2012
Discount rate	4.50%	4.00%	4.50%	4.50%	4.00%	4.50%
Rate of increase in future compensation levels	4.50%	4.50%	5.00%	N/A	N/A	3.00%

Weighted average assumptions used to determine net cost for the fiscal years ended March 1, 2014, March 2, 2013 and March 3, 2012 were:

	Defined Benefit Pension Plan			Nonqualified Executive Retirement Plan		
	2014	2013	2012	2014	2013	2012
Discount rate	4.00%	4.50%	5.50%	4.00%	4.50%	5.50%
Rate of increase in future compensation levels	4.50%	5.00%	5.00%	N/A	N/A	3.00%
Expected long-term rate of return on plan assets	7.75%	7.75%	7.75%	N/A	N/A	N/A

To develop the expected long-term rate of return on assets assumption, the Company considered the historical returns and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio. This resulted in the selection of the 7.75% long-term rate of return on plan assets assumption for fiscal 2014, 2013 and 2012.

The Company's pension plan asset allocations at March 1, 2014 and March 2, 2013 by asset category were as follows:

	March 1, 2014	March 2, 2013
Equity securities	62%	60%
Fixed income securities	38%	40%
Total	100%	100%

The investment objectives of the Defined Benefit Pension Plan, the only defined benefit plan with assets, are to:

Achieve a rate of return on investments that exceeds inflation over a full market cycle and is consistent with actuarial assumptions;

## Edgar Filing: RITE AID CORP - Form 10-K

Balance the correlation between assets and liabilities by diversifying the portfolio among various asset classes to address return risk and interest rate risk;

**(In thousands, except per share amounts)**

**15. Retirement Plans (Continued)**

Balance the allocation of assets between the investment managers to minimize concentration risk;

Maintain liquidity in the portfolio sufficient to meet plan obligations as they come due; and

Control administrative and management costs.

The asset allocation established for the pension investment program reflects the risk tolerance of the Company, as determined by:

the current and anticipated financial strength of the Company;

the funded status of the plan; and

plan liabilities.

Investments in both the equity and fixed income markets will be maintained, recognizing that historical results indicate that equities (primarily common stocks) have higher expected returns than fixed income investments. It is also recognized that the correlation between assets and liabilities must be balanced to address higher volatility of equity investments (return risk) and interest rate risk.

The following targets are to be applied to the allocation of plan assets.

<b>Category</b>	<b>Target Allocation</b>
U.S. equities	46%
International equities	16%
U.S. fixed income	38%
Total	100%

The Company expects to contribute \$0 to the Defined Benefit Pension Plan and make payments of \$1,722 to participants of the Nonqualified Executive Retirement Plan during fiscal 2015.

## Edgar Filing: RITE AID CORP - Form 10-K

The following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

### *Common and Collective Trusts*

Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****15. Retirement Plans (Continued)**

2019	8,068	1,204
2020 - 2024	42,793	4,424
<b>Total</b>	<b>\$ 81,275</b>	<b>\$ 11,802</b>

***Other Plans***

The Company participates in various multi-employer union pension plans that are not sponsored by the Company. Total expenses recognized for the multi-employer plans were \$26,617 in fiscal 2014, \$19,787 in fiscal 2013 and \$14,594 in fiscal 2012.

**16. Multiemployer Plans that Provide Pension Benefits**

The Company contributes to a number of multiemployer defined benefit pension plans under the terms of collective-bargaining agreements that cover certain of its union-represented employees. The risks of participating in these multiemployer plans are different from single-employer plans. Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers. If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers. Additionally, if the Company chooses to stop participating in some of its multiemployer plans, the Company may be required to pay those plans an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The Company's participation in these plans for the annual period ended March 1, 2014 is outlined in the table below. The "EIN/Pension Plan Number" column provides the Employer Identification Number (EIN) and the three-digit plan number, if applicable. The most recent Pension Protection Act (PPA) zone status available for fiscal 2014 and fiscal 2013 is for the plan year-ends as indicated below. The zone status is based on information that the Company received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded. The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. In addition to regular plan contributions, the Company may be subject to a surcharge if the plan is in the red zone. The "Surcharge Imposed" column indicates whether a surcharge has been imposed on contributions to the plan. The last two columns list the expiration date(s) of the

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****16. At the date the Company's financial statements were issued, certain Forms 5500 were not available.

During fiscal 2014, the Company incurred an additional withdrawal liability of \$1,000 associated with the withdrawal from the Central Ohio Locals 1059 and 75 effective March 31, 2013.

During fiscal 2013, the Company withdrew from the 1360 New Jersey Pension effective August 2011 and incurred a \$2,032 withdrawal liability and Central Ohio Locals 1059 and 75 effective March 31, 2013 and incurred a liability of \$3,000.

During fiscal 2012, the Company withdrew from the NW OH Pension Fund effective December 2011 and incurred a \$1,300 withdrawal liability.

**17. Commitments, Contingencies and Guarantees**

*Legal Matters*

The Company is a party to legal proceedings, investigations and claims in the ordinary course of its business, including the matters described below. The Company records accruals for outstanding legal matters when it believes it is probable that a loss will be incurred and the amount can be reasonably estimated. The Company evaluates, on a quarterly basis, developments in legal matters that could affect the amount of any accrual and developments that would make a loss contingency both probable and reasonably estimable. If a loss contingency is not both probable and estimable, the Company does not establish an accrued liability.

The Company's contingencies are subject to significant uncertainties, including, among other factors: (i) proceedings are in early stages; (ii) whether class or collective action status is sought and the likelihood of a class being certified; (iii) the outcome of pending appeals or motions; (iv) the extent of potential damages, fines or penalties, which are often unspecified or indeterminate; (v) the impact of discovery on the matter; (vi) whether novel or unsettled legal theories are at issue; (vii) there are significant factual issues to be resolved; and/or (viii) in the case of certain government agency investigations, whether a sealed qui tam lawsuit ("whistleblower" action) has been filed and whether the government agency makes a decision to intervene in the lawsuit following investigation.

The Company has been named in a collective and class action lawsuit, *Indergit v. Rite Aid Corporation et al* pending in the United States District Court for the Southern District of New York, filed purportedly on behalf of current and former store managers working in the Company's stores at various locations around the country. The lawsuit alleges that the Company failed to pay overtime to store managers as required under the FLSA and under certain New York state statutes. The lawsuit also seeks other relief, including liquidated damages, punitive damages, attorneys' fees, costs and injunctive relief arising out of state and federal claims for overtime pay. On April 2, 2010, the Court conditionally certified a nationwide collective group of individuals who worked for the Company as store managers since March 31, 2007. The Court ordered that Notice of the *Indergit* action be sent to the purported members of the collective group (approximately 7,000 current and former store managers) and approximately 1,550 joined the *Indergit* action. Discovery as to certification issues has been completed. On September 26, 2013, the Court granted Rule 23 class certification of the New York

**17. Commitments, Contingencies and Guarantees (Continued)**

store manager claims as to liability only, but denied it as to damages, and denied the Company's motion for decertification of the nationwide collective action claims. The Company has filed a motion seeking reconsideration of the Court's September 26, 2013 decision and briefing on that motion is complete and awaiting a ruling. Once approved by the Court, notice of the Rule 23 class certification as to liability only will be sent to approximately 1,750 current and former store managers in the state of New York. At this time, the Company is not able to either predict the outcome of this lawsuit or estimate a potential range of loss with respect to the lawsuit. The Company's management believes, however, that this lawsuit is without merit and not appropriate for collective or class action treatment and is vigorously defending this lawsuit.

The Company is currently a defendant in several putative class action lawsuits filed in state courts in California alleging violations of California wage and hour laws, rules and regulations pertaining primarily to failure to pay overtime, pay for missed meals and rest periods and failure to provide employee seating. These suits purport to be class actions and seek substantial damages. The Company has aggressively challenged both the merits of the lawsuits and the allegations that the cases should be certified as class or representative actions. With respect to cases involving meal and rest periods (*Chase and Scherwin v. Rite Aid Corporation* pending in Los Angeles County Superior Court and *Kyle v. Rite Aid Corporation* pending in Sacramento County Superior Court), in light of the cost and uncertainty involved in these lawsuits, the Company is involved in ongoing discussions with counsel for the Plaintiffs concerning a possible resolution of these matters. During the period ended March 1, 2014, the Company recorded a legal accrual with respect to these matters. With respect to the other lawsuits described in this paragraph, the Company, at this time, is not able to predict either the outcome of these lawsuits or estimate a potential range of loss with respect to said lawsuits.

The Company was served with a United States Department of Health and Human Services Office of the Inspector General ("OIG") subpoena dated March 5, 2010 in connection with an investigation being conducted by the OIG and the United States Attorney's Office for the Central District of California. The subpoena requests records related to any gift card inducement programs for customers who transferred prescriptions for drugs or medicines to the Company's pharmacies, and whether any customers who receive federally funded prescription benefits (e.g. Medicare and Medicaid) may have benefited from those programs. The Company has substantially completed its production of records in response to the subpoena. In June 2013, the government contacted the Company, and the Company is involved in ongoing discussions with the government regarding the matter. The Company is unable to predict the timing or outcome of any review by the government of such information.

The Company was served with a Civil Investigative Demand Subpoena Duces Tecum dated August 26, 2011 by the United States Attorney's Office for the Eastern District of Michigan. The subpoena requests records regarding Rite Aid's Rx Savings Program and the reporting of usual and customary charges to publicly funded health programs. In connection with the same investigation, the Company was served with a Civil Subpoena Duces Tecum dated February 22, 2013 by the State of Indiana Office of the Attorney General. The Company has substantially completed its response to both of the subpoenas and is unable to predict the timing or outcome of any review by the government of such information.

**17. Commitments, Contingencies and Guarantees (Continued)**

In April 2012, the Company received an administrative subpoena from the Drug Enforcement Administration ("DEA"), Albany, New York District Office, requesting information regarding the Company's sale of products containing pseudoephedrine ("PSE"). In April 2012, it also received a communication from the United States Attorneys Office ("USAO") for the Northern District of New York concerning an investigation of possible civil violations of the Combat Methamphetamine Epidemic Act of 2005 ("CMEA"). In April 2013, the Company received additional administrative subpoenas from DEA concerning certain retail PSE transactions at New York stores and the USAO commenced discussions with the Company regarding whether, from 2009 (upon implementation of an electronic PSE transaction logbook system) through the present, the Company sold products containing PSE in violation of the CMEA. Violations of the CMEA could result in the imposition of administrative, civil and/or criminal penalties against the Company. The Company is cooperating with the government and continues to provide information responsive to the subpoenas. The Company has entered into a tolling agreement with the USAO. The Company is unable to predict the timing or outcome of any review by the government of such information.

The Company received an additional administrative subpoena from the DEA in December 2013 requesting information in connection with an investigation of violations of the CMEA in West Virginia. The Company is unable to predict the timing or outcome of any review by the government of such information.

In January 2013, the DEA, Los Angeles District Office, served an administrative subpoena on the Company seeking documents related to prescriptions by a certain prescriber. The USAO, Central District of California, also contacted the Company about a related investigation into allegations that Rite Aid pharmacies filled certain controlled substance prescriptions for a number of practitioners after their DEA registrations had expired or otherwise become invalid in violation of the federal Controlled Substances Act and DEA regulations. The Company responded to the administrative subpoena and subsequent informal requests for information from the USAO. The Company met with the USAO and DEA in January 2014 and is involved in ongoing discussions with the government regarding this matter. The Company recorded a legal accrual during the period ended March 1, 2014.

The Company was served with a Civil Investigative Demand dated June 21, 2013 by the USAO for the Eastern District of California. The CID requests records and responses to interrogatories regarding Rite Aid's Drug Utilization Review and prescription dispensing protocol and the dispensing of drugs designated "Code 1" by the State of California. The Company is in the process of producing responsive documents and interrogatory responses and is unable to predict the timing or outcome of any review by the government of such information.

In addition to the above described matters, the Company is subject from time to time to various claims and lawsuits and governmental investigations arising in the ordinary course of business. While the Company's management cannot predict the outcome of any of the claims, the Company's management does not believe that the outcome of any of these legal matters will be material to the Company's consolidated financial position. It is possible, however, that the Company's results of operations or cash flows in a particular fiscal period could be materially affected by an unfavorable resolution of pending litigation or contingencies.

Commitments, Contingencies and Guarantees (Continued)***Contingencies*

The California Department of Health Care Services ("DHCS"), the agency responsible for administering the State of California Medicaid program, implemented retroactive reimbursement rate reductions effective June 1, 2011, impacting the medical provider community in California, including pharmacies. Numerous medical providers, including representatives of both chain and independent pharmacies, filed suits against DHCS in federal district court in California and obtained preliminary injunctions against the rate cuts, subject to a trial on the merits. DHCS appealed the preliminary injunctions to the Ninth Circuit Court of Appeals, which Court vacated the injunctions. Based upon the actions of DHCS and the decision of the appeals court, the Company recorded an appropriate accrual. In January 2014, the Center for Medicare and Medicaid Services approved a state plan amendment that excluded certain drugs from the retroactive reimbursement rate reductions effective March 31, 2012. Accordingly, the Company adjusted its accrual to take into account this exclusion at year end. As pertinent facts and circumstances develop, this accrual may be adjusted further.

### 19. Related Party Transactions

There were receivables from related parties of \$19 and \$23 at March 1, 2014 and March 2, 2013, respectively.

On July 22, 2013, the Jean Coutu Group announced that it had sold all of its 65,401,162 shares of Rite Aid's common stock. As a result of this sale, the Jean Coutu Group was required to cause its last designee to resign from Rite Aid's board of directors and, accordingly, Francois J. Coutu resigned from Rite Aid's board of directors effective November 8, 2013.

**(In thousands, except per share amounts)**

**19. Related Party Transactions (Continued)**

On September 26, 2013, the Company agreed to exchange eight shares of 7% Series G Convertible Preferred Stock (the "Series G preferred stock") and 1,876,013 shares of 6% Series H Convertible Preferred Stock (the "Series H preferred stock", collectively the "Preferred Stock") of the Company (the "Exchange"), held by Green Equity Investors III, L.P. ("LGP") for 40,000,000 shares of the Company's common stock, par value \$1.00 per share, with a market value of \$190,400 at the \$4.76 per share closing price on the Settlement Date (as hereinafter defined), pursuant to an individually negotiated exchange transaction. The Exchange settled on September 30, 2013 (the "Settlement Date"). The Preferred Stock, including additional shares representing earned but unpaid dividends as of the Settlement Date, was redeemable by the Company for cash at 105% of the Preferred Stock's \$100 per share liquidation preference or \$199,937. The Company agreed to the Exchange as it was prohibited under several of its debt instruments from using cash to effect the redemption of the Preferred Stock. Following the Settlement Date, no shares of the Series G preferred stock or Series H preferred stock remained outstanding and the Company's restated certificate of incorporation was amended to eliminate all references to the Series G preferred stock and Series H preferred stock. In accordance with the terms of the Exchange, John M. Baumer, a member of the board of directors of the Company and a limited partner of Leonard Green & Partners, L.P., an affiliate of the LGP, resigned from the Company's board of directors.

The Series G preferred stock had a liquidation preference of \$100 per share and paid quarterly dividends in additional shares at 7% of liquidation preference and could be redeemed at the Company's election. The Series H preferred stock paid quarterly dividends in additional shares at 6% of liquidation preference and could be redeemed at the Company's election. The Series G preferred stock and Series H preferred stock were convertible into common stock of the Company, at the holder's option, at a conversion rate of \$5.50 per share.

As of the Settlement Date, LGP held 1,904,161 shares of Series G preferred stock and Series H preferred stock, which included 28,140 shares of earned and unpaid dividends. The Series G preferred stock and Series H preferred stock would have converted into 34,621,117 shares of common stock at the contracted conversion rate of \$5.50 per share. Accordingly, income attributable to common stockholders was reduced by \$25,603, or \$0.03 per diluted share, the value of the additional 5,378,883 shares of common stock issued upon conversion at the \$4.76 per share closing price on the Settlement Date.

The Company had a financial advisory services agreement with Leonard Green & Partners, L.P. to pay a monthly fee of \$12.5 plus out-of-pocket expenses which was terminated in fiscal 2012. The Company paid fees of \$38 for financial advisory services and expense reimbursements of \$67 in fiscal 2012.

**20. Subsequent Events**

On April 1, 2014, the Company acquired Boston based Health Dialog Services Corporation, which is engaged in providing health coaching, shared decision making and healthcare analytics from Bupa, a London based international healthcare services group. Health Dialog will operate as a 100 percent owned subsidiary of the Company.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****20. Subsequent Events (Continued)**

On April 10, 2014, the Company acquired Houston based RediClinic, which is engaged in the operation of 30 retail clinics in the greater Houston, Austin and San Antonio areas. RediClinic will operate as a 100 percent owned subsidiary of the Company.

The Company paid a combined amount of \$86.0 million and assumed debt of \$2.5 million related to the acquisitions noted above.

Selling, general and administrative expenses	1,688,066	1,618,169	1,612,198	1,682,332	6,600,765	
Lease termination and impairment charges	12,143	7,783	14,366	36,567	70,859	
Interest expense	130,588	129,054	128,371	127,408	515,421	
Loss on debt retirements, net	17,842			122,660	140,502	
(Gain) loss on sale of assets, net	(10,051)	(2,954)	(6,262)	2,491	(16,776)	
	6,558,104	6,272,515	6,175,199	6,378,940	25,384,758	
(Loss) income before income taxes	(89,817)	(41,631)	62,648	76,305	7,505	
Income tax (benefit) expense	(61,729)	(2,866)	777	(46,782)	(110,600)	
Net (loss) income	\$ (28,088)	\$ (38,765)	\$ 61,871	\$ 123,087	\$ 118,105	
Basic (loss) income per share(1)	\$ (0.03)	\$ (0.05)	\$ 0.07	\$ 0.14	\$ 0.12	
Diluted (loss) income per share(1)	\$ (0.03)	\$ (0.05)	\$ 0.07	\$ 0.13	\$ 0.12	

(1)

Income (loss) per share amounts for each quarter may not necessarily total to the yearly income (loss) per share due to the weighting of shares outstanding on a quarterly and year-to-date basis.

## Edgar Filing: RITE AID CORP - Form 10-K

During the second quarter of 2014, the Company recorded a loss on debt retirement related to the July 2013 refinancing as discussed in Note 11. During the fourth quarter of fiscal 2014, the Company recorded facilities impairment charges of \$7,877 and LIFO expense of \$44,142 due to higher pharmacy inflation rates at year end as compared to significant deflation associated with generic products recognized at prior year end.

During the fourth quarter of 2013, the Company recorded a loss on debt retirement related to the February 2013 refinancing as discussed in Note 11. During the fourth quarter of fiscal 2013, the Company recorded facilities impairment charges of \$24,012 and a LIFO credit of \$175,384 due to significant deflation associated with generic products, partially offset by normal brand inflation.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Years Ended March 1, 2014, March 2, 2013 and March 3, 2012****(In thousands, except per share amounts)****22. Financial Instruments**

The carrying amounts and fair values of financial instruments at March 1, 2014 and March 2, 2013 are listed as follows:

	2014		2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Variable rate indebtedness	\$ 2,522,293	\$ 2,524,508	\$ 2,296,001	\$ 2,275,694
Fixed rate indebtedness	\$ 3,127,439	\$ 3,569,777	\$ 3,622,351	\$ 3,912,903

Cash, trade receivables and trade payables are carried at market value, which approximates their fair values due to the short-term maturity of these instruments.

The following methods and assumptions were used in estimating fair value disclosures for financial instruments:

***LIBOR-based borrowings under credit facilities:***

The carrying amounts for LIBOR-based borrowings under the credit facilities, term loans and term notes are estimated based on the quoted market price of the financial instruments.

***Long-term indebtedness:***

The fair values of long-term indebtedness are estimated based on the quoted market prices of the financial instruments. If quoted market prices were not available, the Company estimated the fair value based on the quoted market price of a financial instrument with similar characteristics.
