1 These tables depict the long-term, credit-quality ratings assigned to the Fund's portfolio holdings by Standard & Poor's (S&P) and Moody's Investors Service (Moody's), each of which is a nationally recognized statistical rating organization (NRSRO). These credit-quality ratings are shown without regard to gradations within a given rating category. For example, securities rated "A-" have been included in the "A" rated category. Holdings that are rated only by a different NRSRO than the one identified have been included in the "Not rated by..." category. Rated securities that have been prerefunded, but not rated again by the NRSRO, also have been included in the "Not rated by..." category.

Rated securities include a security with an obligor and/or credit enhancer that has received a rating from an NRSRO with respect to a class of debt obligations that is comparable in priority and security with the security held by the Fund. Credit-quality ratings are an assessment of the risk that a security will default in payment and do not address other risks presented by the security. Please see the descriptions of credit-quality ratings in the Fund's Statement of Additional Information.

These tables depict the long-term, credit-quality ratings as assigned only by the NRSRO identified in each table. Of the portfolio's total net assets, 20.0% do not have long-term ratings by either of these NRSROs or by Fitch Ratings.

2 Percentages are based on total investments, which may differ from the Fund's total net assets used in computing the percentages in the portfolio of investments which follows.

3 Less than 0.01%.

4 Sector classifications, and the assignment of holdings to such sectors, are based upon the economic sector and/or revenue source of the underlying borrower, as determined by the Fund's adviser. For securities that have been enhanced by a third-party, such as a guarantor, sector classifications are based upon the economic sector and/or revenue source of the third-party, as determined by the Fund's adviser. Securities that are insured by a bond insurer are assigned to the "Insured" sector. Prerefunded securities are those whose debt service is paid from escrowed funds, usually U.S. government securities.

1 These tables depict the long-term, credit-quality ratings assigned to the Fund's portfolio holdings by Standard & Poor's (S&P) and Moody's Investors Service (Moody's), each of which is a nationally recognized statistical rating organization (NRSRO). These credit-quality ratings are shown without regard to gradations within a given rating category. For example, securities rated "A-" have been included in the "A" rated category. Holdings that are rated only by a different NRSRO than the one identified have been included in the "Not rated by..." category. Rated securities that have been prerefunded, but not rated again by the NRSRO, also have been included in the "Not rated by..." category.

Rated securities include a security with an obligor and/or credit enhancer that has received a rating from an NRSRO with respect to a class of debt obligations that is comparable in priority and security with the security held by the Fund. Credit-quality ratings are an assessment of the risk that a security will default in payment and do not address other risks presented by the security. Please see the descriptions of credit-quality ratings in the Fund's Statement of Additional Information.

These tables depict the long-term, credit-quality ratings as assigned only by the NRSRO identified in each table. Of the portfolio's total net assets, 19.1% do not have long-term ratings by either of these NRSROs or by Fitch Ratings.

2 Percentages are based on total investments, which may differ from the Fund's total net assets used in computing the percentages in the portfolio of investments which follows.

3 Sector classifications, and the assignment of holdings to such sectors, are based upon the economic sector and/or revenue source of the underlying borrower, as determined by the Fund's adviser. For securities that have been enhanced by a third-party, such as a guarantor, sector classifications are based upon the economic sector and/or revenue source of the third-party, as determined by the Fund's adviser. Securities that are insured by a bond insurer are assigned to the "Insured" sector.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. These policies are in conformity with generally accepted accounting principles (GAAP) in the United States of America.

Investment Valuation

Municipal bonds are valued by an independent pricing service, taking into consideration yield, liquidity, risk, credit quality, coupon, maturity, type of issue, and any other factors or market data the pricing service deems relevant. Short-term securities are valued at the prices provided by an independent pricing service. However, short-term securities with remaining maturities of 60 days or less at the time of purchase may be valued at amortized cost, which approximates fair market value. Securities for which no quotations are readily available are valued at fair value as

determined in accordance with procedures established by and under general supervision of the Board of Trustees (the "Trustees").

Investment Income, Expenses and Distributions

Interest income and expenses are accrued daily. Non-cash dividends included in dividend income, if any, are recorded at fair value. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and paid weekly at a rate set through auction procedures. The dividend rate to preferred shareholders for Federated Premier Municipal Income Fund and Federated Premier Intermediate Municipal Income Fund at November 30, 2004 was 1.45% and 1.63%, respectively.

Each auction requires the participation of one or more Broker-Dealers. The auction agent, currently Deutsche Bank Trust Company Americas, will enter into agreements with one or more Broker-Dealers selected by the Fund, which provide for the participation of those Broker-Dealers in auctions for preferred shares. The auction agent will pay each Broker-Dealer after each auction, from funds provided by the Fund. The trailer commissions for Federated Premier Municipal Income Fund and Federated Premier Intermediate Municipal Income Fund for the fiscal year ended November 30, 2004 were \$136,424 and \$155,105, respectively.

Premium and Discount Amortization

All premiums and discounts on fixed-income securities are amortized/accreted for financial statement purposes.

Federal Taxes

It is the Funds' policy to comply with the Subchapter M provision of the Internal Revenue Code (the "Code"), applicable to regulated investment companies and to distribute to shareholders each year substantially all of their income. Accordingly, no provision for federal income tax is necessary.

When-Issued and Delayed Delivery Transactions

The Funds may engage in when-issued or delayed delivery transactions. The Funds record when-issued securities on the trade date and maintain security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked to market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

Restricted Securities

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from such registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale, at the issuer's expense either upon demand by the Fund or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Trustees. The Funds will not incur any registration costs upon such resales. The Funds' restricted securities are valued at the price provided by dealers in the secondary market or, if no market prices are available, at the fair value as determined in accordance with procedures established by and under general supervision of the Trustees.

Additional information on restricted securities, excluding securities purchased under Rule 144A that have been deemed liquid by the Trustees, held at November 30, 2004, is as follows:

Futures Contracts

The Funds periodically may sell bond interest rate futures contracts to manage duration and to potentially reduce transaction costs. Upon entering into bond interest rate futures contracts with brokers, the Funds are required to deposit in a segregated account a specified amount of cash or U.S. government securities. Futures contracts are valued daily and unrealized gains or losses are recorded in a "variation margin" account. Daily, the Funds receive from or pay to the broker a specified amount of cash based upon changes in the variation margin account. When a contract is closed, each Fund recognizes a realized gain or loss. Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with the changes in the value of the underlying securities. For the year ended November 30, 2004, the Funds had realized losses on futures contracts as follows:

Federated Premier Municipal Income Fund	(\$171,328)
Federated Premier Intermediate Municipal Income Fund	(\$120,522)

At November 30, 2004, Federated Premier Municipal Income Fund had no open futures contracts.

At November 30, 2004, Federated Premier Intermediate Municipal Income Fund had the following open futures contract:

Expiration Date	Contracts To Receive	Position	Unrealized Depreciation
------------------------	-----------------------------	-----------------	--------------------------------

March 2005 70 U.S. Treasury Note 10-Year Futures Short \$(4,834)

Swap Contracts

The Funds may enter into swap contracts. A swap is an exchange of cash payments between the Fund and another party, which is based on a specific financial index. The value of the swap is adjusted daily and the change in value is recorded as unrealized appreciation or depreciation. When a swap contract is closed, the Fund recognizes a realized gain or loss. The swap contracts entered into by the Funds are on a forward settling basis. For the year ended November 30, 2004, the Funds had realized losses on swap contracts as follows:

Federated Premier Municipal Income Fund \$(2,151,098)

Federated Premier Intermediate Municipal Income Fund \$(1,725,902)

Risks may arise upon entering into these agreements from the potential inability of the counterparties to meet the terms of their contract and from unanticipated changes in the value of the financial index on which the swap agreement is based. The Funds use swaps for hedging purposes to reduce their exposure to interest rate fluctuations.

At the year ended November 30, 2004, the Funds had the following open swap contracts:

Federated Premier Municipal Income Fund

Description	Expiration	Notional Principal Amount	Swap Contract Fixed Rate	Current Market Fixed Rate	Unrealized Depreciation
BMA Swap 10 Year	01/20/2015	\$10,000,000	4.053% Fixed	4.371%	\$(231,324)

BMA Swap 10 Year	01/20/2015	\$24,000,000	4.053% Fixed	3.729%	\$(555,176)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, expenses, and revenues reported in the financial statements.

Actual results could differ from those estimated.

Other

Investment transactions are accounted for on a trade date basis. Realized gains and losses from investment transactions are recorded on an identified cost basis.

3. COMMON SHARES

Shares issued to shareholders in payment of distributions declared	3,144	2,690
<i>NET CHANGE RESULTING FROM SHARE TRANSACTIONS</i>	3,144	6,109,671

4. FEDERAL TAX INFORMATION

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are due to differing treatments for discount accretion/premium amortization on debt securities.

For the year ended November 30, 2004, permanent differences identified and reclassified among the components of net assets were as follows:

	Increase (Decrease)	
	Undistributed Net Investment Income	Accumulated Net Realized Loss
Federated Premier Municipal Income Fund	\$(194)	\$194

Edgar Filing: FEDERATED PREMIER MUNICIPAL INCOME FUND - Form N-CSR

Federated Premier Intermediate Municipal Income Fund	\$(186)	\$186
--	---------	-------

Net investment income (loss), net realized gains (losses), and net assets were not affected by this reclassification.

The tax character of distributions as reported on the Statements of Changes in Net Assets for the year ended November 30, 2004 and the period ended, November 30, 2003, was as follows:

	2004 Tax Exempt Income	2003 Tax Exempt Income
Federated Premier Municipal Income Fund	\$6,743,716	\$5,539,680
Federated Premier Intermediate Municipal Income Fund	\$6,112,035	\$4,914,288

As of November 30, 2004, the components of distributable earnings on a tax basis were as follows:

	Undistributed Tax Exempt Income	Net Unrealized Appreciation	Capital Loss Carryforward
Federated Premier Municipal Income Fund	\$1,107,821	\$4,897,621	\$2,519,574
Federated Premier Intermediate Municipal Income Fund	\$1,070,988	\$3,484,708	\$1,656,055

The difference between book-basis and tax-basis net unrealized appreciation/depreciation is attributable to differing treatments for discount accretion/premium amortization on debt securities.

At November 30, 2004, the following amounts apply for federal income tax purposes:

	Cost of Investments	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation¹
Federated Premier Municipal Income Fund	\$136,535,345	\$5,626,496	\$(191,430)	\$5,435,066
Federated Premier Intermediate Municipal Income Fund	\$156,731,585	\$4,108,516	\$(68,631)	\$4,039,885

1 Excluding any unrealized depreciation resulting from Swap contracts.

At November 30, 2004, Federated Premier Municipal Income Fund and Federated Premier Intermediate Municipal Income Fund had capital loss carryforwards of \$2,519,574 and \$1,656,055, respectively, which will reduce the Funds' taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Code and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Funds of any liability for federal tax. Pursuant to the Code, such capital loss carryforwards will expire as follows:

Capital Loss Carryforward to Expire in:	2011	2012	Total Capital Loss Carryforward
--	-------------	-------------	--

Fund:

Federated Premier Municipal Income Fund	\$207,100	\$2,312,474	\$2,519,574
Federated Premier Intermediate Municipal Income Fund	\$ 57,890	\$1,598,165	\$1,656,055

5. INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Investment Adviser Fee

Each Fund has entered into an Investment Management Agreement (the "Agreement") with Federated Investment Management Company (the "Adviser") to serve as investment manager to the Fund. Pursuant to the Agreement, each Fund pays the Adviser an annual management fee, payable daily, at the annual rate of 0.55% of the Fund's managed assets.

In order to reduce fund expenses, the Adviser has contractually agreed to waive a portion of its investment adviser fee at the annual rate of 0.20% of the average daily value of each Fund's managed assets, inclusive of any assets attributable to any preferred shares that may be issued, from the commencement of operations through December 31, 2007, and at a declining rate thereafter through December 31, 2010.

Administrative Fee

Federated Administrative Services (FAS), under the Administrative Services Agreement, provides each Fund with administrative personnel and services. The fee paid to FAS is based on the average aggregate daily net assets of all Federated funds as specified below:

Maximum Administrative Fee	Average Aggregate Daily Net Assets of the Federated Funds
0.150%	on the first \$5 billion
0.125%	on the next \$5 billion
0.100%	on the next \$10 billion
0.075%	on assets in excess of \$20 billion

The administrative fee received during any fiscal year shall be at least \$150,000 per portfolio and \$40,000 per each additional class of Shares. FAS may voluntarily choose to waive any portion of its fee. FAS can modify or terminate this voluntary waiver at any time at its sole discretion.

Portfolio Accounting Fees

Prior to January 1, 2004, Federated Services Company (FServ) maintained the Funds' accounting records for which it received a fee. The fee was based on the level of each Funds' average daily net assets for the period, plus out-of-pocket expenses. The fee paid by each Fund to FServ during the reporting period was as follows, after voluntary waiver, if applicable:

Federated Premier Municipal Income Fund	\$5,943
<hr/>	
Federated Premier Intermediate Municipal Income Fund	\$4,882
<hr/>	

Organizational Expenses

Each Fund paid its organizational and offering expenses of up to \$0.03 per common share. The Adviser paid organizational expenses and offering costs of each Fund that exceeded \$0.03 per Common Share.

Interfund Transactions

During the year ended November 30, 2004, the Funds engaged in purchase and sale transactions with funds that have a common investment adviser (or affiliated investment advisers), common Directors/Trustees, and /or common Officers. These purchase and sale transactions complied with Rule 17a-7 under the Act and were as follows:

	Purchases	Sales
Federated Premier Municipal Income Fund	\$ 8,700,000	\$10,749,185
Federated Premier Intermediate Municipal Income Fund	\$12,550,000	\$14,500,915

General

Certain of the Officers and Trustees of the Funds are Officers and Directors or Trustees of the above companies.

6. PREFERRED SHARES

On February 13, 2003, Federated Premier Municipal Income Fund and Federated Premier Intermediate Municipal Income Fund offered and currently have outstanding 2,147 and 2,441 Auction Market Preferred Shares (AMPS), respectively. The AMPS are redeemable at the option of the Funds at the redemption price of \$25,000 per share plus an amount equal to accumulated, but unpaid dividends thereon through the redemption date.

Whenever AMPS are outstanding, common shareholders will not be entitled to receive any distributions from the Funds unless all accrued dividends on preferred shares have been paid, the Funds satisfy the 200% asset coverage requirement, and certain other requirements imposed by any nationally recognized statistical ratings organizations (NRSROs) rating the preferred shares have been met. Should these requirements not be met, or should dividends accrued on the AMPS not be paid, the Funds may be restricted in their ability to declare dividends to common shareholders or may be required to redeem certain of the AMPS. At November 30, 2004, there were no such restrictions on the Funds.

7. INVESTMENT TRANSACTIONS

Purchases and sales of investments, excluding long-term U.S. government securities and short-term obligations (and in-kind contributions), for the year ended November 30, 2004, were as follows:

	Purchases	Sales
--	-----------	-------

Federated Premier Municipal Income Fund	\$17,173,287	\$19,033,493
Federated Premier Intermediate Municipal Income Fund	\$17,898,880	\$17,750,024

8. LEGAL PROCEEDINGS

Beginning in October 2003, Federated Investors, Inc. and various subsidiaries thereof (including the advisers and distributor for various investment companies, collectively, "Federated"), along with various investment companies sponsored by Federated ("Funds") were named as defendants in several class action lawsuits now pending in the United States District Court for the District of Maryland seeking damages of unspecified amounts. The lawsuits were purportedly filed on behalf of people who purchased, owned and/or redeemed shares of Federated-sponsored mutual funds during specified periods beginning November 1, 1998. The suits are generally similar in alleging that Federated engaged in illegal and improper trading practices including market timing and late trading in concert with certain institutional traders, which allegedly caused financial injury to the mutual fund shareholders. Federated and various Funds have also been named as defendants in several additional lawsuits, the majority of which are now pending in the United States District Court for the Western District of Pennsylvania, alleging, among other things, excessive advisory and Rule 12b-1 fees, and seeking damages of unspecified amounts. The Board of the Funds has retained the law firm of Dickstein Shapiro Morin & Oshinsky LLP to represent the Funds in these lawsuits. Federated and the Funds, and their respective counsel, are reviewing the allegations and will respond appropriately. Additional lawsuits based upon similar allegations may be filed in the future. The potential impact of these recent lawsuits and future potential similar suits is uncertain. Although we do not believe that these lawsuits will have a material adverse effect on the Funds, there can be no assurance that these suits, the ongoing adverse publicity and/or other developments resulting from the regulatory investigations will not result in increased Fund redemptions, reduced sales of Fund shares, or other adverse consequences for the Funds.

9. SUBSEQUENT DIVIDEND DECLARATIONS--COMMON SHARES

On December 13, 2004, the Funds declared common share dividend distributions from their respective tax-exempt net investment income which were paid on January 3, 2005, to shareholders of record on December 23, 2004, as follows:

	Federated Premier Municipal Income Fund	Federated Premier Intermediate Municipal Income Fund
Dividend per share	\$0.08375	\$0.06500

10. FEDERAL TAX INFORMATION (UNAUDITED)

At November 30, 2004, 100% of the distributions from net investment income for each Fund are exempt from federal income tax, other than the federal AMT.

DIVIDEND REINVESTMENT PLAN

The following description of each Fund's Dividend Reinvestment Plan (the "Plan") is furnished to you annually as required by federal securities laws.

Unless the registered owner of a Fund's common shares elects to receive cash by contacting EquiServe Trust Co., N.A. (the "Plan Administrator"), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator, as agent for shareholders in the Plan, in additional common shares of the Fund. Common shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash. You may elect not to participate in the Plan and to receive all dividends in cash by contacting the Plan Administrator at the address set forth below if your Shares are registered in your name, or by contacting your bank, broker, or other nominee if your Shares are held in street or other nominee name. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice to the Plan Administrator. Such notice will be effective for a dividend if received and processed by the Plan Administrator prior to the dividend record date; otherwise the notice will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may reinvest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which the shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution payable in cash (together, a "dividend"), non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either: (1) through receipt from the Fund of additional authorized but unissued common shares ("newly issued common shares"); or (2) by purchase of outstanding common shares on the open market ("open-market purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for a dividend, the closing market price plus estimated brokerage commissions per common share is equal to or greater than the net asset value (NAV) per common share, the Plan Administrator will invest the dividend amount on behalf of the participants in newly issued common shares. The number of newly issued common shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV per common share on the payment date; provided that, if the NAV is less than or equal to 95% of the closing market

value on the payment date, the dollar amount of the dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any dividend, the NAV per common share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the dividend amount in common shares acquired on behalf of the participants in open-market purchases.

In the event of a market discount on the payment date for any dividend, the Plan Administrator will have until the last business day before the next date on which the common shares trade on an "ex-dividend" basis or 30 days after the payment date for such dividend, whichever is sooner (the "last purchase date"), to invest the dividend amount in common shares acquired in open-market purchases. It is contemplated that the Funds will pay monthly income dividends. Therefore, the period during which open-market purchases can be made will exist only from the payment date of each dividend through the day before the next "ex-dividend" date, which will be approximately ten days. If, before the Plan Administrator has completed its open-market purchases, the market price per common share exceeds the NAV per common share, the average per share purchase price paid by the Plan Administrator may exceed the NAV of the common shares, resulting in the acquisition of fewer common shares than if the dividend had been paid in newly issued common shares on the dividend payment date. Because of the foregoing difficulty with respect to open-market purchases, the Plan provides that if the Plan Administrator is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making open-market purchases and may invest the uninvested portion of the dividend amount in newly issued common shares at the NAV per common share at the close of business on the last purchase date; provided that, if the NAV is less than or equal to 95% of the then current market price per common share, the dollar amount of the dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of record shareholders such as banks, brokers, or nominees which hold common shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of common shares certified from time to time by the record holder as held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with open-market purchases. The automatic reinvestment of dividends will not relieve participants of any federal, state, or local income tax that may be payable (or required to be withheld) on such dividends. Participants that request a sale of shares through the Plan Administrator are subject to a \$15.00 sales fee and a \$0.12 per share sold brokerage commission.

Each Fund reserves the right to amend or terminate its Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, each Fund reserves the right to amend its Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, EquiServe Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011 or by telephone at (800) 730-6001.

IMPORTANT NOTICE ABOUT FUND DOCUMENT DELIVERY

In an effort to reduce costs and avoid duplicate mailings, the Fund(s) intend to deliver a single copy of certain documents to each household in which more than one shareholder of the Fund(s) resides (so-called "householding"), as permitted by applicable rules. The Fund's "householding" program covers its/their Prospectus and Statement of Additional Information, and supplements to each, as well as Semi-Annual and Annual Shareholder Reports and any Proxies or information statements. Shareholders must give their written consent to participate in the "householding" program. The Fund is also permitted to treat a shareholder as having given consent ("implied consent") if (i) shareholders with the same last name, or believed to be members of the same family, reside at the same street address or receive mail at the same post office box, (ii) the Fund gives notice of its intent to "household" at least sixty (60) days before it begins "householding" and (iii) none of the shareholders in the household have notified the Fund(s) or their agent of the desire to "opt out" of "householding." Shareholders who have granted written consent, or have been deemed to have granted implied consent, can revoke that consent and opt out of "householding" at any time: shareholders who purchased shares through an intermediary should contact their representative; other shareholders may call the Fund at 1-800-341-7400.

(e) (1) Audit Committee Policies regarding Pre-approval of Services.

The Audit Committee is required to pre-approve audit and non-audit services performed by the independent auditor in order to assure that the provision of such services do not impair the auditor's independence. Unless a type of service to be provided by the independent auditor has received general pre-approval, it will require specific pre-approval by the Audit Committee. Any proposed services exceeding pre-approved cost levels will require specific pre-approval by the Audit Committee.

Certain services have the general pre-approval of the Audit Committee. The term of the general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period. The Audit Committee will annually review the services that may be provided by the independent auditor without obtaining specific pre-approval from the Audit Committee and may grant general pre-approval for such services. The Audit Committee will revise the list of general pre-approved services from time to time, based on subsequent determinations. The Audit Committee will not delegate its responsibilities to pre-approve services performed by the independent auditor to management.

The Audit Committee has delegated pre-approval authority to its Chairman. The Chairman will report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Committee will designate another member with such pre-approval authority when the Chairman is unavailable.

AUDIT SERVICES

The annual Audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. The Audit Committee must approve any changes in terms, conditions and fees resulting from changes in audit scope, registered investment company (RIC) structure or other matters.

Edgar Filing: FEDERATED PREMIER MUNICIPAL INCOME FUND - Form N-CSR

In addition to the annual Audit services engagement specifically approved by the Audit Committee, the Audit Committee may grant general pre-approval for other Audit Services, which are those services that only the independent auditor reasonably can provide. The Audit Committee has pre-approved certain Audit services, all other Audit services must be specifically pre-approved by the Audit Committee.

AUDIT-RELATED SERVICES

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements or that are traditionally performed by the independent auditor. The Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor, and has pre-approved certain Audit-related services, all other Audit-related services must be specifically pre-approved by the Audit Committee.

TAX SERVICES

The Audit Committee believes that the independent auditor can provide Tax services to the Company such as tax compliance, tax planning and tax advice without impairing the auditor's independence. However, the Audit Committee will not permit the retention of the independent auditor in connection with a transaction initially recommended by the independent auditor, the purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee has pre-approved certain Tax services, all Tax services involving large and complex transactions must be specifically pre-approved by the Audit Committee.

ALL OTHER SERVICES

With respect to the provision of services other than audit, review or attest services the pre-approval requirement is waived if:

- (1) The aggregate amount of all such services provided constitutes no more than five percent of the total amount of revenues paid by the registrant, the registrant's adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant to its accountant during the fiscal year in which the services are provided;
- (2) Such services were not recognized by the registrant, the registrant's adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant at the time of the engagement to be non-audit services; and
- (3) Such services are promptly brought to the attention of the Audit Committee of the issuer and approved prior to the completion of the audit by the Audit Committee or by one or more members of the Audit Committee who are members of the board of directors to whom authority to grant such approvals has been delegated by the Audit Committee.

The Audit Committee may grant general pre-approval to those permissible non-audit

Edgar Filing: FEDERATED PREMIER MUNICIPAL INCOME FUND - Form N-CSR

services classified as All Other services that it believes are routine and recurring services, and would not impair the independence of the auditor.

The SEC's rules and relevant guidance should be consulted to determine the precise definitions of prohibited non-audit services and the applicability of exceptions to certain of the prohibitions.

PRE-APPROVAL FEE LEVELS

Pre-approval fee levels for all services to be provided by the independent auditor will be established annually by the Audit Committee. Any proposed services exceeding these levels will require specific pre-approval by the Audit Committee.

PROCEDURES

Requests or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditor and the Principal Accounting Officer and/or Internal Auditor, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

Voting Proxies on Registrant Portfolio Securities

The registrant's Board of Trustees has delegated to the registrant's Adviser authority to vote proxies on the securities held in the registrant's portfolio. The Board has also approved the Adviser's policies and procedures for voting the proxies, which are described below.

Proxy Voting Policies

The Adviser's general policy is to cast proxy votes in favor of proposals that the Adviser anticipates will enhance the long-term value of the securities being voted. Generally, this will mean voting for proposals that the Adviser believes will: improve the management of a company; increase the rights or preferences of the voted securities; and/or increase the chance that a premium offer would be made for the company or for the voted securities.

Edgar Filing: FEDERATED PREMIER MUNICIPAL INCOME FUND - Form N-CSR

The following examples illustrate how these general policies may apply to proposals submitted by a company's board of directors. However, whether the Adviser supports or opposes a proposal will always depend on the specific circumstances described in the proxy statement and other available information.

On matters of corporate governance, generally the Adviser will vote for proposals to: require independent tabulation of proxies and/or confidential voting by shareholders; reorganize in another jurisdiction (unless it would reduce the rights or preferences of the securities being voted); and repeal a shareholder rights plan (also known as a "poison pill"). The Adviser will generally vote against the adoption of such a plan (unless the plan is designed to facilitate, rather than prevent, unsolicited offers for the company). On matters of capital structure, generally the Adviser will vote: against proposals to authorize or issue shares that are senior in priority or voting rights to the securities being voted; for proposals to grant preemptive rights to the securities being voted; and against proposals to eliminate such preemptive rights. On matters relating to management compensation, generally the Adviser will vote: for stock incentive plans that align the recipients' interests with the interests of shareholders without creating undue dilution; and against proposals that would permit the amendment or replacement of outstanding stock incentives with new stock incentives having more favorable terms.

On matters relating to corporate transactions, the Adviser will vote proxies relating to proposed mergers, capital reorganizations, and similar transactions in accordance with the general policy, based upon its analysis of the proposed transaction. The Adviser will vote proxies in contested elections of directors in accordance with the general policy, based upon its analysis of the opposing slates and their respective proposed business strategies. Some transactions may also involve proposed changes to the company's corporate governance, capital structure or management compensation. The Adviser will vote on such changes based on its evaluation of the proposed transaction or contested election. In these circumstances, the Adviser may vote in a manner contrary to the general practice for similar proposals made outside the context of such a proposed transaction or change in the board. For example, if the Adviser decides to vote against a proposed transaction, it may vote for anti-takeover measures reasonably designed to prevent the transaction, even though the Adviser typically votes against such measures in other contexts.

The Adviser generally votes against proposals submitted by shareholders without the favorable recommendation of a company's board. The Adviser believes that a company's board should manage its business and policies, and that shareholders who seek specific changes should strive to convince the board of their merits or seek direct representation on the board.

In addition, the Adviser will not vote if it determines that the consequences or costs outweigh the potential benefit of voting. For example, if a foreign market requires shareholders casting proxies to retain the voted shares until the meeting date (thereby rendering the shares "illiquid" for some period of time), the Adviser will not vote proxies for such shares.

Proxy Voting Procedures

The Adviser has established a Proxy Voting Committee (Proxy Committee), to exercise all voting discretion granted to the Adviser by the Board in accordance with the proxy voting policies. The Adviser has hired Investor Responsibility Research Center (IRRC) to obtain, vote, and record proxies in accordance with the Proxy Committee's directions. The Proxy Committee directs IRRC by means of Proxy Voting Guidelines, and IRRC may vote any proxy as directed in the Proxy Voting Guidelines without further direction from the Proxy Committee (and may make any determinations required to implement the Proxy Voting Guidelines). However, if the Proxy Voting Guidelines require case-by-case direction for a proposal, IRRC will provide the Proxy Committee with all information that it has obtained regarding the proposal and the Proxy Committee will provide specific direction to IRRC. The Adviser's proxy voting procedures generally permit the Proxy Committee to amend the Proxy Voting Guidelines, or override the directions provided in such Guidelines, whenever necessary to comply with the proxy voting policies.

Conflicts of Interest

The Adviser has adopted procedures to address situations where a matter on which a proxy is sought may present a potential conflict between the interests of the Fund (and its

Edgar Filing: FEDERATED PREMIER MUNICIPAL INCOME FUND - Form N-CSR

shareholders) and those of the Adviser or Distributor. This may occur where a significant business relationship exists between the Adviser (or its affiliates) and a company involved with a proxy vote. A company that is a proponent, opponent, or the subject of a proxy vote, and which to the knowledge of the Proxy Committee has this type of significant business relationship, is referred to as an "Interested Company."

The Adviser has implemented the following procedures in order to avoid concerns that the conflicting interests of the Adviser have influenced proxy votes. Any employee of the Adviser who is contacted by an Interested Company regarding proxies to be voted by the Adviser must refer the Interested Company to a member of the Proxy Committee, and must inform the Interested Company that the Proxy Committee has exclusive authority to determine how the Adviser will vote. Any Proxy Committee member contacted by an Interested Company must report it to the full Proxy Committee and provide a written summary of the communication. Under no circumstances will the Proxy Committee or any member of the Proxy Committee make a commitment to an Interested Company regarding the voting of proxies or disclose to an Interested Company how the Proxy Committee has directed such proxies to be voted. If the Proxy Voting Guidelines already provide specific direction on the proposal in question, the Proxy Committee shall not alter or amend such directions. If the Proxy Voting Guidelines require the Proxy Committee to provide further direction, the Proxy Committee shall do so in accordance with the proxy voting policies, without regard for the interests of the Adviser with respect to the Interested Company. If the Proxy Committee provides any direction as to the voting of proxies relating to a proposal affecting an Interested Company, it must disclose to the Fund's Board information regarding: the significant business relationship; any material communication with the Interested Company; the matter(s) voted on; and how, and why, the Adviser voted as it did.

If the Fund holds shares of another investment company for which the Adviser (or an affiliate) acts as an investment adviser, the Proxy Committee will vote the Fund's proxies in the same proportion as the votes cast by shareholders who are not clients of the Adviser at any shareholders' meeting called by such investment company, unless otherwise directed by the Board.

Proxy Voting Report

A report on "Form N-PX" of how the Fund voted any proxies during the most recent 12-month period ended June 30 is available through Federated's website. Go to www.federatedinvestors.com; select "Products;" select the Fund; then use the link to "Prospectuses and Regulatory Reports" to access the link to Form N-PX.
