**Greene County Bancorp, Inc.  
Announces Fiscal Year and Quarterly Earnings**

Catskill, N.Y. -- (BUSINESS WIRE) - July 31, 2006-- Greene County Bancorp, Inc. (the "Company") (NASDAQ: GCBC), the holding company for The Bank of Greene County (the "Bank"), today reported net income for the quarter and fiscal year ended June 30, 2006. Net income for the fiscal year ended June 30, 2006 amounted to \$2.2 million, or \$0.55 per basic and \$0.54 per diluted share as compared to \$2.9 million or \$0.72 per basic and \$0.70 per diluted share, a decrease of \$0.7 million or 24.1%. Net income for the quarter ended June 30, 2006 amounted to \$486,000 or \$0.12 per basic and diluted share as compared to \$658,000, or \$0.16 per basic and diluted share for the quarter ended June 30, 2005, a decrease of \$172,000, or 26.1%. Net income for the quarter and fiscal year was impacted by a \$300,000 payment to fund a portion of the unfunded liability associated with the Company's defined benefit pension plan, which was frozen effective July 1, 2006. Other items that impacted net income were expenses related to the upgrade of the Bank's loan and deposit system to another platform and the replacement of the Coxsackie branch, as well as slightly lower net interest income.

Net interest income decreased to \$10.7 million for the year ended June 30, 2006 as compared to \$10.8 million for the year ended June 30, 2005, a decline of \$0.1 million or 0.9% when comparing periods. Net interest income was unchanged at \$2.7 million for the quarters ended June 30, 2006 and 2005. The relatively flat yield curve was the leading factor in the net interest income position. Net interest spread decreased 15 basis points to 3.76% as compared to 3.91% when comparing the years ended June 30, 2006 to 2005 and decreased 14 basis points to 3.70% as compared to 3.84% when comparing the quarters ended June 30, 2006 and 2005. Net interest margin decreased 14 basis points to 3.85% as compared to 3.99% when comparing the years ended June 30, 2006 and 2005 and decreased 12 basis points to 3.80% as compared to 3.92% when comparing the quarters ended June 30, 2006 and 2005. The decline was primarily due to the increase in average rate paid on interest-bearing liabilities, which include savings deposits, money market accounts, certificates of deposit and borrowings. The rate paid on interest-bearing liabilities increased 30 basis points to 1.58% for the year ended June 30, 2006 as compared to 1.28% for the year ended June 30, 2005. The rate paid on interest-bearing liabilities increased 52 basis points to 1.84% for the quarter ended June 30, 2006 as compared to 1.32% for the quarter ended June 30, 2005. The increased rate paid on interest-bearing liabilities was partially offset by increased loan volume and higher yielding interest-earning assets. Average loans increased \$20.4 million between the fiscal years ended June 30, 2005 and 2006 to \$175.6 million. The average yield on interest-earning assets increased 15 basis points to 5.34% for the fiscal year ended June 30, 2006 as compared 5.19% for the fiscal year ended June 30, 2005. The average yield on interest-earning assets increased 38 basis points to 5.54% for the quarter ended June 30, 2006 as compared to 5.16% for the quarter ended June 30, 2005.

The provision for loan losses increased to \$200,000 for the fiscal year and \$100,000 for the quarter ended June 30, 2006 as compared to \$71,000 for the year and no provision for the quarter ended June 30, 2005. Loan growth has contributed to the higher provision levels. Also, a charge-off for approximately \$56,700 was taken in the quarter ended June 30, 2006. The historically low level of non-performing assets was partially the reason for the decision to lower the ratio of allowance for loan loss to net loans to 0.69% at June 30, 2006 as compared to 0.75% at June 30, 2005. Non-performing assets were less than \$10,000 as of June 30, 2006.

Noninterest income amounted to \$3.1 million and \$2.7 million for the fiscal years ended June 30, 2006 and 2005, respectively, an increase of \$0.4 million, or 14.8%. Noninterest income amounted to \$787,000 and \$693,000 for the quarters ended June 30, 2006 and 2005, respectively, an increase of \$94,000, or 13.6%. Fees earned from debit card transactions have increased significantly due to more transaction volume, amounting to \$510,000 for the year ended June 30, 2006 as compared to \$377,000 for the year ended June 30, 2005, an increase of \$133,000 or 35.3%. Higher

transaction volume associated with various E-commerce products caused fees earned on such products to increase \$47,000 to \$195,000 for the year ended June 30, 2006. Alternative investment options offered to customers through Essex's Investors Marketplace and Fenimore Asset Management contributed \$86,000 in additional revenue over the prior year, totaling \$233,000 for the year ended June 30, 2006. No gains or losses on REO were recognized during the year ended June 30, 2006 as compared to a \$19,500 gain the prior year. No gains or losses were recognized in either year on sales of investment securities.

Noninterest expense increased to \$10.5 million from \$9.2 million, an increase of \$1.3 million or 14.1% when comparing the years ended June 30, 2006 and 2005. Noninterest expense increased to \$2.7 million from \$2.4 million, an increase of \$0.3 million or 12.5% when comparing the quarters ended June 30, 2006 and 2005. Salaries and employee benefits increased \$841,000 when comparing the fiscal years, and \$309,000 when comparing the quarters ended June 30, 2006 and 2005. The primary factor contributing to both the yearly and quarterly increase in salary and employee benefits was the \$300,000 payment toward the unfunded portion of the defined benefit pension plan. Total expense recognized in association with this plan amounted to \$789,000 for the year ended June 30, 2006 as compared to \$373,000 for the prior year. Occupancy expense increased \$132,000 between the fiscal years and \$34,000 between the quarters ended June 30, 2006 and 2005, due to increased utility costs, insurance, tax and depreciation as a result of the recent branch replacement and other building expansions. Depreciation and other expenses associated with additional computer equipment, including the Bank's OSI loan and deposit system, and new furniture in the replacement branches accounted for the increase of \$163,000 between fiscal years and \$31,500 between quarters ended June 30, 2006 and 2005. Service and data processing fees decreased \$104,000 primarily due to the change from a Fiserv out-sourced loan and deposit platform to an internally run OSI platform. The level of miscellaneous other expense increased by \$245,000 between fiscal years ended June 30, 2006 and 2005. Items impacting miscellaneous expense included expenses associated with the conversion to the OSI platform, the loss on the sale of the old Cairo branch and higher legal expense partially due to fees incurred in the process of converting The Bank of Greene County from a New York State savings bank to a federal savings bank. It is expected this change will be approved during the quarter ended September 2006. Professional fees, another element of miscellaneous expense, were higher due primarily to services performed in association with the conversion of the loan and deposit system as well as assistance in expansion of the Company's primary network for additional branching capacity.

The effective tax rate was 27.0% for the year ended June 30, 2006, compared to 30.0% for the year ended June 30, 2005. The level of tax-free income to total net income increased to 45.8% as of June 30, 2006 as compared to 30.6% as of June 30, 2005.

Total assets of the Company were \$307.6 million at June 30, 2006 as compared to \$294.7 million at June 30, 2005, an increase of \$12.9 million, or 4.4%. The most significant growth occurred in net loans, which increased \$25.8 million, or 15.7%, to \$190.1 million at June 30, 2006 as compared to \$164.3 million at June 30, 2005. Net loans represented 61.8% of the asset composition at June 30, 2006 as compared to 55.8% at prior fiscal year end. Deposit growth of \$15.0 million, a decrease in the investment portfolio of \$11.6 million and the reduction in cash of \$4.1 million helped fund loan growth, net additions of premises and equipment of \$3.0 million, and a repayment of \$2.5 million in borrowings during the fiscal year ended June 30, 2006.

Shareholders' equity increased to \$33.6 million at June 30, 2006 from \$32.8 million at June 30, 2006, as net income of \$2.2 million was partially offset by dividends paid of \$823,000. Accumulated other comprehensive income decreased \$910,000 as a result of the mark-to-market of the available-for-sale investment portfolio, net of tax. The decrease was entirely related to changes in market interest rates, and was not considered by management to be other than temporary. Other changes in equity were the result of activities associated with the various stock-based compensation plans of the Company, including the 2000 Stock Option Plan and ESOP Plan.

Headquartered in Catskill, New York, the Company serves Greene and Columbia Counties, and southern Albany County, New York from seven full-service branch offices in Catskill, Cairo, Coxsackie, Greenville, Hudson, Tannersville and Westerlo. The Bank of Greene County also has branch offices under construction on Catskill's west

side, and on Route 9 in the Town of Greenport in Columbia County. The Company's customers are offered 24-hour services through ATM network systems, an automated telephone banking system and Internet Banking through its web site at <http://www.thebankofgreenecounty.com>.

This press release contains statements about future events that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those projected in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, general economic conditions, changes in interest rates, regulatory considerations, competition, technological developments, retention and recruitment of qualified personnel, and market acceptance of the Company's pricing, products and services.
