Greene County Bancorp, Inc.
Announces Earnings

Catskill, N.Y. -- (BUSINESS WIRE) – April 27, 2010-- Greene County Bancorp, Inc. (the “Company”) (NASDAQ: GCBC), the holding company for The Bank of Greene County and its subsidiary Greene County Commercial Bank, today reported net income for the nine months and quarter ended March 31, 2010. Net income for the nine months ended March 31, 2010 amounted to \$3.6 million or \$0.88 per basic and diluted share as compared to \$3.0 million or \$0.73 per basic and diluted share for the nine months ended March 31, 2009, an increase of \$629,000, or 21.0%. Net income amounted to \$1.2 million for the quarters ended March 31, 2010 and 2009, or \$0.30 per basic and diluted share and \$0.28 per basic and diluted share for the quarters ended March 31, 2010 and 2009, respectively.

Donald E. Gibson, President and CEO said, “Greene County Bancorp’s third quarter financial performance is among the best in the Company’s history, and reflects the continued progress toward achieving our long-term strategic goals, and has strengthened an already solid foundation for growth.”

The most significant factor contributing to the higher earnings was higher net interest income, which increased to \$13.2 million for the nine months ended March 31, 2010 as compared to \$11.6 million for the nine months ended March 31, 2009, an increase of \$1.6 million or 13.8%. Net interest income increased to \$4.6 million for the quarter ended March 31, 2010 as compared to \$3.9 million for the quarter ended March 31, 2009, an increase of \$670,000 or 17.0%. Net interest rate spread increased 16 basis points to 3.72% for the nine months ended March 31, 2010 as compared to 3.56% for the nine months ended March 31, 2009. Net interest rate spread increased 43 basis points to 3.90% for the quarter ended March 31, 2010 as compared to 3.47% for the quarter ended March 31, 2009. Net interest margin increased 8 basis points to 3.92% for the nine months ended March 31, 2010 as compared to 3.84% for the nine months ended March 31, 2009. Net interest margin increased 36 basis points to 4.09% for the quarter ended March 31, 2010 as compared to 3.73% for the quarter ended March 31, 2009. The increases in net interest spread and net interest margin were primarily due to the continued decline in the rates paid on deposits, partially offset by purchases of securities at lower yields. The increase in average balances, along with the widening of the net interest spread and net interest margin led to an increase in net interest income when comparing the nine months and quarters ended March 31, 2010 and 2009.

Management continues to closely monitor asset quality and adjust the level of the allowance for loan losses when necessary. The amount recognized for the provision for loan losses is determined by management based on its ongoing analysis of the adequacy of the allowance for loan losses. During the nine months and quarters ended March 31, 2010 and 2009, the Company increased the level of allowance for loan losses due to an increase in the amount of nonperforming assets and loan charge-offs resulting from a decline in the overall economy, and an increase in local unemployment. As a result, the provision for loan losses amounted to \$984,000 and \$1.8 million for the nine months ended March 31, 2010 and 2009, respectively, a decrease of \$780,000 or 44.2%. The provision for loan losses amounted to \$307,000 and \$1.2 million for the quarters ended March 31, 2010 and 2009, respectively, a decrease of \$844,000. Continued increases in non-performing assets and loan charge-offs has resulted in an increase in the level of allowance for loan losses to total loans receivable to 1.33% as of March 31, 2010 as compared to 1.23% as of March 31, 2009. Nonperforming loans amounted to \$3.1 million and \$1.7 million at March 31, 2010 and 2009, respectively, an increase of \$1.4 million or 82.3%. Net charge-offs amounted to \$540,000 and \$372,000 for the nine months ended March 31, 2010 and 2009, respectively, an increase of \$168,000.

Noninterest income decreased \$1.4 million and \$1.6 million when comparing the nine months and quarters ended March 31, 2010 and 2009, respectively. Noninterest income amounted to \$3.5 million and \$1.1 million for the nine

months and quarter ended March 31, 2010, respectively. Noninterest income for the nine months and quarter ended March 31, 2009 reflected a one-time cash payment of \$1.7 million received from TransFirst LLC. This payment was the result of The Bank of Greene County transferring its merchant bank card processing business to TransFirst LLC. Also reflected in noninterest income for the nine months ended March 31, 2009 was an impairment charge of \$221,000 (\$135,000 net of tax) related to the other-than-temporary impairment of a Lehman Brothers Holdings, Inc. debt security held by the Company. Excluding these nonrecurring items, noninterest income increased \$20,000 when comparing the nine months ended March 31, 2010 and 2009, and increased \$30,000 when comparing the quarters ended March 31, 2010 and 2009. Debit card fees increased \$124,000 and \$49,000 when comparing the nine months and quarters ended March 31, 2010 and 2009, respectively, as a result of a higher volume of transactions due to growth in the number of checking accounts with debit cards. E-commerce fee income decreased \$103,000 and \$26,000 when comparing the nine months and quarters ended March 31, 2010 and 2009, respectively, as a result of the transfer of the Company's merchant bank card processing business to TransFirst LLC during fiscal 2009.

Noninterest expense increased \$218,000 or 2.2% to \$10.2 million for the nine months ended March 31, 2010 as compared to \$10.0 million for the nine months ended March 31, 2009. Noninterest expense was flat at \$3.5 million for the quarters ended March 31, 2010 and 2009. The increase for the nine months ended March 31, 2010 was primarily the result of an increase in FDIC insurance premium expense due to both higher deposit balances and an increase in the rates assessed against the deposits, as well as higher compensation and depreciation due to the opening of the new Ravena branch in January 2009. The Company also has increased staffing as a result of the creation of a new customer service call center and expansion of the marketing department. Partially offsetting the increase for the nine months ended March 31, 2010, was a decrease in pension expense. During the nine months ended March 31, 2009, the Company accrued \$351,000 toward the expected future termination of its currently frozen defined benefit plan. The defined benefit pension plan was transferred to a single-employer plan from the previously existing multi-employer plan during the fourth quarter of the fiscal year ended June 30, 2009. As a result, pension expense decreased by \$345,000 for the nine months ended March 31, 2010 when compared to the nine months ended March 31, 2009.

Total assets grew \$18.4 million or 4.0% to \$478.9 million at March 31, 2010 as compared to \$460.5 million at June 30, 2009. Net loans increased \$20.1 million or 7.5% to \$288.0 million at March 31, 2010 as compared to \$267.9 million at June 30, 2009. Cash and cash equivalents increased \$15.0 million or 159.6% to \$24.4 million at March 31, 2010 as compared to \$9.4 million at June 30, 2009. Securities classified as both available for sale and held to maturity decreased \$17.6 million to \$144.0 million at March 31, 2010 as compared to \$161.6 million at June 30, 2009, as a result of maturities, sales and principal paydowns of \$27.9 million, partially offset by purchases of \$10.5 million. Deposits grew \$17.2 million to \$415.9 million at March 31, 2010 as compared to \$398.7 million at June 30, 2009. Total shareholders' equity amounted to \$43.5 million at March 31, 2010, or 9.1% of total assets compared to \$40.3 million at June 30, 2009, or 8.5% of total assets.
