FORWARD LOOKING STATEMENTS

In this annual report references to "the Company" "we," "us," and "our" refer to Table Trac, Inc.

This annual report contains certain forward-looking statements and for this purpose any statements contained in this

annual report that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as "may," "expect," "believe," "anticipate," "estimate" or "continue" or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within the Company's control. These factors include but are not limited to economic conditions generally and in the markets in which the Company may participate; competition within the Company's chosen industry, including competition from much larger competitors; technological advances and failure by the Company to successfully develop business relationships.

PART I

Item 1. - BUSINESS

Table Trac, Inc. (the "Company" or "Table Trac") is a Nevada Corporation, formed on June 27, 1995, with principal offices in Minnetonka, Minnesota. The Company has developed and commenced the commercialization of a proprietary information and management system (Table Trac(tm)) that automates and monitors the operations of casino table games. The general intent of Table Trac is a system to acquire, evaluate, and provide immediate access to a new level of detailed Table Games Management and Player Tracking information.

The Company has also developed related systems for casino management, including promotions administration and delivery systems, self service customer kiosks, marketing analysis, and vault operations module for chip banks, all of which are in use at its customer's facilities.

Table Trac sells systems on high end multi-processor Linux based servers, serving PC based graphical user interfaces, ODBC database access for desktop applications, and a SQL database server for complex marketing analysis.

The heart of the system is the patented (U.S. patent # 5,957,776) table top hardware design which gathers table drop, inventories, dealer, floor manager, player, security and drop box information using an unobtrusive dealer-activated keypad, and on-table magnetic card reader. The dealer depresses various keys that correspond with the various denominations of bills being dropped into the drop box, and swipes his or player's magnetic cards to verify and identify individuals involved in transactions. The use and operation of Table Trac does not alter either the pace or routine of the game, which is important to both management and customers.

Many casinos currently try to monitor these numbers using manager's estimates with varying degrees of accuracy. The Table Trac system provides upper management, for the first time, with real time win/loss and drop figures, and a verifiable check and balance for the count room. The system gives upper management access to not only the table numbers by shift, but to data on individual dealers and supervisors, which has game security value as well as management/employee value.

With over 9 years of on-table experience, Table Trac is a simple, reliable solution for casinos looking to improve the accountability of their table games operations, and a key means to secure detailed transactional records to satisfy casinos regulators and all overseers.

TABLE TRAC INSTALLATIONS

Table Trac currently is installed and has contracts with 8 casinos in Minnesota and Wisconsin.

AVAILABILITY OF TABLE TRAC

Table Trac is available for an installation and monthly license fee from the Company for casinos with a minimum number of tables. System sales includes installation, custom system configuration, and training. License and technical support are provided under annual service contract. Custom screens and reports will be designed, if requested by the casino, at additional cost.

MANUFACTURING CAPABILITIES

The Company manufactures its own Table Trac units. The Company is aware of other local electronic manufacturers offering equivalent manufacturing capability whose services the Company could readily hire as needed.

TRADEMARKS AND PATENTS

Table Trac's management has actively pursued trademark and patent protection for the Company and its products. In the course of its existence, Table Trac has spent in excess of \$24,000 to secure those protections.

The Company filed its provisional patent application in August of 1995, and filed its Final Application in August 1996. This application was approved and issued on September 28, 2000, as patent number 5,957,776.

The Company filed to register its Trademark ("TABLE TRAC") in September of 1996. The Trademark was issued on September 7, 2000, as Trademark number 2,275,137.

Environmental Compliance

The Company believes that it is in compliance with all current federal and state environmental laws.

Employees

As of December 31, 2004 the Company had three full-time employees.

Competition

The Company is unaware of any other systems that compete directly with the table games management and "on table" table player tracking and game management that the Table Trac system offers. Others offer substantially the same functions for player tracking in various forms, primarily as "off table" functions performed at the pit podium. The Company is aware of two companies pursuing a technology which automates player ratings completely. If successfully completed, the Company does not expect these systems to compete with Table Trac's solution in the markets it pursues due to a prohibitive product cost that is projected. The Company is aware of other "players club" systems that compete. These companies have greater resources than the Company.

RECENT DEVELOPMENTS

Late in the 4th quarter the Company installed the first customer trial of its new casino online management system product on a live casino floor. As of the date of this report the system has been running with 0 downtime and Table Trac and the customer are very pleased with the results of these operational tests. The Company anticipates that the customer will approve and purchase this system from the Company late 1st quarter or early second quarter of 2005. The Company has also received its second order for the new online system to be delivered early April. Revenues from these system sales will nearly equal all sales from 2004. Development continues in hardware, firmware and software to enhance the product and to provide product functionality for departments outside of the table games arena. Self-service kiosks for customer promotions and players club services, vault and cage operation additions, and enhanced promotional capabilities make Table Trac a significant value when compared to other products in the industry.

Item 2. - PROPERTY

Table Trac's operations are headquartered in Minnetonka, Minnesota. The Company lease for its facility expires in November 2005 and requires monthly payments of \$1,200.

Item 3. - LEGAL PROCEEDINGS

None

Item 4. - SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None

PART II**Item 5. - MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS**

The Company's common stock has been traded since July 17, 2000 on the OTC Bulletin Board, before that time there was no activity.

Price per Share Calendar Year 2003	High	Low
First Quarter	\$0.45	\$0.10
Second Quarter	\$0.55	\$0.30
Third Quarter	\$0.33	\$0.16
Fourth Quarter	\$0.25	\$0.14

Price per Share Calendar Year 2004	High	Low
First Quarter	\$0.35	\$0.20
Second Quarter	\$0.75	\$0.35
Third Quarter	\$0.35	\$0.42
Fourth Quarter	\$1.00	\$0.40

There are more than 100 holders of record of the common stock of the Company. There have never been any dividends, cash or otherwise, paid on the common shares of the Company.

RECENT SALE OF UNREGISTERED SECURITIES

None.

Item 6. - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Years Ended December 31, Income Statement Data	2004	2003
Net Sales	\$ 595,229	\$ 183,921
Net Income (loss)	\$ 104,284	\$(96,718)
Basic earnings (loss) per share	\$ 0.027	\$(0.026)

As of December 31, Balance Sheet Data	2004	2003
Total Assets	\$ 67,902	\$ 42,961
Total Liabilities	\$ 16,951	\$ 96,294
Stockholders' Equity (Deficit)	\$ 50,951	\$ (53,333)

The Company substantially upgraded its existing table games technology and players club capabilities to the degree that three of its first customer casinos, dating back to 1996, provided a percentage of sales revenues for 2004 by installing these upgrades. In addition, the Company created sales through new products and new technologies, which opened up new customers, new markets, and new opportunities. (See RECENT DEVELOPMENTS in PART 1)

Providing expanded services to more casino users results in more exposure of the Company's products and the Company continues to hear from new casinos that are requesting information and quotes, indicating that the increase in sales trend established in the fourth quarter of 2003 may continue into 2005. No assurance can be given that this increase in inquiries will result in sales.

Results of Operations YEAR ENDED DECEMBER 31, 2004 COMPARED TO YEAR ENDED DECEMBER 31, 2003.

Revenues increased in 2004 by 224% over 2003, reaching \$595,229 up from \$183,921

Cost of sales increased in 2004 to \$90,776 from \$13,524 in 2003. Gross margin in 2004 is \$504,453 or 85% compared with 93% in 2003.

Operating expenses increased from \$266,329 in 2003 to \$399,801 in 2004, a 50% increase in relationship to a 224% increase in revenues.

As a result the net income for 2004 was \$104,284 as compared to a net loss for 2003 of (\$96,718). This was a net gain of over \$200,000 in the twelve-month period.

Basic earnings per share in 2004 was \$0.027 compared to a basic loss per share in 2003 of \$0.026.

On December 31, 2004, the total stockholders equity was \$50,951. This compared to a stockholders deficit for the prior year, of \$(53,333).

LIQUIDITY AND CAPITAL RESOURCES

In 2004 the Company continued to maintain a positive cash position through system sales, customer deposits and re-occurring license and maintenance fee revenues. This is a departure from the Company's development stage operations where the Company relied on reserves from financing activities.

The Company is not capital intensive. The basic product of the Company is its computer software developed by its employees, and manufacturing is done after the Company receives an order, so there is little inventory held by the Company of its product. After an order is completed, the Company's personnel do the installation.

There are no known trends, events or uncertainties that are likely to have a material impact on the short or long-term liquidity. The primary source of liquidity in both the short term and the long term will be from sales of new systems and monthly revenues from existing contracts. Based on sales trends management will manage its expenditure levels. Management believes that the Company has adequate cash to meet its obligations and continue operations for both existing customer contracts and ongoing product development.

Item 7. -FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The 2004 and 2003 audited financial statements of the Company are filed as part of this Form 10-KSB.

Item 8. - CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

Item 8A. - CONTROLS AND PROCEDURES

Our Chief Executive Officer has reevaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report and determined that there continued to be no significant deficiencies in these procedures. Also, there were no changes made or corrective actions to be taken related to our internal control over financial reporting.

PART III

Item 9. - DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT.

The executive officers and directors of the Company, with a brief description, are as follows:

Name	Age	Position	
Chad B. Hoehne	42	Chairman, President	Mr. Hoehne is the Chairman, President and founder of the Company. He has a BS degree in Business Administration from Mankato State University. Mr. Hoehne was employed by Micro Control Company from 1985 to 1993.
Robert R Siqueland	60	Secretary	Mr. Siqueland is the Director of Marketing and the Corporate Secretary. He was an investment advisor and venture capitalist for twenty-five years. Mr. Siqueland has worked with Table Trac in various capacities for the past six years.
Vic Taucer	50	Director	Mr. Taucer consults for over 200 gaming casinos, primarily in the area of table games, and has over 26 years of experience in the industry. He recently served as director of casino training for the new Paris resort in Las Vegas. Earlier, Taucer was the casino training director and the casino table pit manager at Caesars Palace, and was a casino floor supervisor at the MGM Grand Casino. He is also a Professor of Casino Management for the University & Community College Systems of Nevada.

The directors of the Company are elected annually by the stockholders for a term of one year or until their successors are elected and qualified. The officers serve at the pleasure of the Board of Directors.

Audit Committee Financial Expert

Due to the Company's size and number of employees, it does not currently have a serving audit committee and, accordingly, we do not have an audit committee financial expert serving on an audit committee.

Compliance with Section 16(a) of the Exchange Act.

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, executive officers and persons who own more than five percent of our common stock to file initial reports of ownership and reports of changes in ownership of our common stock with the SEC. Officers, directors and ten-percent or greater beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) reports they file. Based upon review of the copies of such

forms furnished to us during the fiscal year ended December 31, 2004, and representations from these reporting persons that no Forms 5 were required.

Code of Ethics

Table Trac has adopted a code of ethics for our principal executive and financial officers. The management promotes honest and ethical conduct, full and fair disclosure in our reports to the SEC, and compliance with applicable governmental laws and regulations.

Item 10. - EXECUTIVE COMPENSATION.

The President's total compensation was \$149,485 and \$77,000 respectively in 2004 and 2003. All officers and employees receive bonuses for successful casino system installations.

Item 11. - SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

There are presently 3,831,534 shares of the Company's common shares outstanding. The following table sets forth the information as to the ownership of each person who, as of this date, owns of record, or is known by the Company to own beneficially, more than five per cent of the Company's common stock, and the officers and directors of the Company.

Name	Shares of Common Stock	Percent of Ownership
Chad and Sally Hoehne (1)	1,241,100	32%
Robert Siqveland, Director	25,000	0.65%
Vic Taucer, Director	15,000	0.4%
Directors and Officers as a group	1,281,100	33%

Chad Hoehne holds employee stock options in the amount of 125,000 shares.

Robert Siqveland holds employee stock options of 225,000 shares.

(1) Sally Hoehne is the wife of the President of the Company Chad Hoehne.

Securities Authorized Under Equity Compensation Plans

The following table lists the securities authorized for issuance under any equity compensation plans approved by our shareholders and any equity compensation plans not approved by our shareholders. This chart also includes individual compensation arrangements. Descriptions of these plans are provided below.

Equity Compensation Plan Information

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities
---------------	---	---	--

reflected in
column a) (c)

Equity compensation plans approved by security holders	492,500	\$0.1298	507,500
Equity compensation plans not approved by security holders	- 0 -	- 0 -	- 0 -

Item 12. - CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

None

PART IV

Item 13. - EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K.

- (a) Attached are the Financial Statements and the Report of the Independent Public Accounting Firm.
- (b) The Company reported the engagement of the auditors, Carver, Moquist & Associates, LLC on Form 8-K in 2004.
- (c) There are no exhibits.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our independent auditor, Carver Moquist & O'Connor, LLC (formerly known as Carver Moquist & Associates, LLC), billed an aggregate of \$15,500 for audit services, including the quarterly review of the Company's Form 10-QSB. No additional fees were paid to Carver Moquist & O'Connor, LLC.

The Company does not have an audit committee and as a result our board of directors performs the duties of an audit committee. Our board of directors evaluates the scope and cost of the engagement of an auditor before the auditor renders audit and non-audit services. As a result, we do not rely on established pre-approval policies and procedures.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934 the registrant has duly caused this report to be signed on its behalf by the undersigned, there unto duly authorized.

Dated March 22, 2005

TABLE TRAC, INC.

Table Trac, Inc. _____/s/ Chad B. Hoehne_____
Chad B. Hoehne, Chief Executive Officer

Edgar Filing: TABLE TRAC INC - Form 10KSB

I, Chad B. Hoehne, certify that:

1. I have reviewed this annual report on Form 10-KSB for the year ended December 31, 2004 of Table Trac, Inc.;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this annual report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - a) Designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
 - b) Evaluated the effectiveness of the registrant's disclosure controls and procedures as of the date within 90 days prior to the filing date of this annual report (the "Evaluation Date"); and
 - c) Presented in this annual report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this annual report whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Certified Public Accountants and Consultants

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Table Trac, Inc.
Minnetonka, Minnesota

We have audited the accompanying balance sheets of Table Trac, Inc. as of December 31, 2004 and 2003 and the related statements of operations, stockholders' equity (deficit), and cash flows for the years then ended December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Table Trac, Inc. as of December 31, 2004 and 2003, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Section 6 Notes to Financial Statements

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Company

Table Trac, Inc. (the Company) was formed under the laws of the State of Nevada in June 1995. The Corporation has its offices in Minnetonka, Minnesota. The Company has developed and sells an information and management system that automates various aspects of the operations of casino table games, Table Trac .

Table Trac is available for an installation and monthly license fee from the Company for casinos with a minimum number of tables. System sales include installation, custom casino system configuration, and training. In addition license and technical support are provided under an annual license and service contract. Custom screens and reports can be designed, if requested by the casino, at additional cost.

The Company was formed on June 27, 1995, and was in the development stage through December 31, 2002. 2003 was the first year during which it is considered an operating company.

Revenue Recognition

The Company derives revenues from the sale of systems, license and maintenance and services.

System sales: Revenue from systems that have been demonstrated to meet customer specifications during installation is recognized when the product has been installed, title and risk of loss have transferred to the customer and collection of the resulting receivable is probable.

System sales are accounted for as multiple-element arrangements. In transactions that include multiple products and/or services, the Company allocates the revenue to each element based on their relative fair value (or in the absence of fair value, the residual method) and recognizes the associated revenue when all revenue recognition criteria have been met for each element.

License and maintenance revenue: Software and maintenance revenue are recognized ratably over the contract period.

Service revenue: Service revenue is recognized after the services are performed and collection of the resulting receivable is probable.

Research and Development

Research and development costs are charged to expense as incurred.

Furniture and Equipment

Furniture and equipment are recorded at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of two to five years. Expenditures for maintenance and repairs are charged to operations when

incurred. Deduction is made for retirements resulting from renewals or betterments. Furniture and fixtures were fully depreciated as of December 31, 2001.

Intangible Asset

In March 1999, the Company received patent number 5,957,776 relating to its table game control system. Management feels strongly that the extent of the patent will enable the Company to adequately protect its technology. Expenses incurred in obtaining this patent are carried at cost and are being amortized over seventeen years using the straight-line method.

Stock-Based Consideration

The Company has applied the fair value-based method of accounting for employee and nonemployee stock-based consideration and/or compensation in accordance with FASB Statement 123 (based on quoted market prices at the date of grant and/or as earned).

Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" which requires the use of the "liability method" of accounting for income taxes. Accordingly, deferred tax liabilities and assets are determined based on the differences between the financial statement and tax bases of assets and liabilities, using enacted tax rates in effect for the year in which the differences are expected to reverse.

The Company's net operating loss carry forwards are fully allowed for December 31, 2004 and 2003. See Note 5.

Prior to 1999 the Company was treated as a Subchapter S corporation whereby revenues and expenses flow through to stockholders for inclusion on their individual returns. Accordingly, no income tax provision was provided in the Company's financial statements through December 31, 1999.

Concentrations, Risks and Uncertainties

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Customer Concentrations and Receivables

The Company sells to domestic and international companies and grants limited uncollateralized credit to customers based on credit worthiness.

100% of the Company's revenues from installation and licensing fees from installations of the Company's Table Trac system in 2004 and 2003 were from 8 customers. 2 customers accounted for 78% and 66% of revenues and 71% and 0% of accounts receivable in 2004 and 2003, respectively.

Management believes that receivables are fully collectible. While the ultimate loss may differ, management believes that any additional loss will not have a material impact on the Company's financial position. Due to uncertainties in the collection process, however, it is at least reasonably possible that management's estimate of the outcome will

change during the next year.

No Supplier Concentration

The Company has developed the ability to manufacture its own Table Trac units. The Company is aware of local electronic manufacturers offering equivalent manufacturing capability whose services the Company could readily hire as needed.

Inventory

Inventory is recorded at the lower of cost (determined on a first-in, first-out basis) or market.

Impairment of Long Lived Assets

The Company reviews long-lived assets for impairment annually or more frequently if the occurrence of events or changes in circumstances indicates that the carrying amount of the assets may not be fully recoverable or the useful lives of these assets are no longer appropriate. Each impairment test is based on a comparison of the carrying amount of an asset to future net undiscounted cash flows. If an impairment is indicated, the asset is written down to its estimated fair value on a discounted cash flow basis.

Basic and Diluted Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average shares outstanding during the reporting period. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the weighted average shares outstanding are increased to include additional shares from the assumed exercise of stock options or warrants, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options or warrants were exercised and that the proceeds from the exercise were used to acquire shares of common stock at the average market price during the reporting period. All potentially dilutive common shares were excluded from the calculation of diluted earnings per share for 2003 because they were anti-dilutive.

New Accounting Pronouncements

In December 2003, the FASB issued FASB Interpretation ("FIN") No. 46R, "Consolidation of Variable Interest Entities," which addresses how a business enterprise should evaluate whether it has a controlling financial interest in an entity through means other than voting rights and accordingly should consolidate the entity. FIN 46R replaces FASB Interpretation No. 46, "Consolidation of Variable Interest Entities," which was issued in January 2003. The Company is required to apply FIN 46R to variable interests in variable interest entities ("VIE") created after December 31, 2003. For variable interests in VIEs created before January 1, 2004, the Interpretation will be applied beginning on January 1, 2005. For any VIEs that must be consolidated under FIN 46R that were created before January 1, 2004, the assets, liabilities and noncontrolling interests of the VIE initially would be measured at their carrying amounts with any difference between the net amount added to the balance sheet and any previously recognized interest being recognized as the cumulative effect of an accounting change. If determining the carrying amounts is not practicable, fair value at the date FIN 46R first applies may be used to measure the assets, liabilities and noncontrolling interest of the VIE. The Company believes it has no variable interest entities and, therefore, FIN 46R did not have an impact on the Company's consolidated financial statements.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." The Statement establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. The Statement also includes required disclosures for financial instruments within its scope. For the Company, the Statement was effective for instruments entered into or modified after May 31, 2003, and otherwise will be effective as of January 1, 2004, except for

mandatorily redeemable financial instruments. For certain mandatorily redeemable financial instruments, the Statement will be effective for the Company on January 1, 2005. The effective date has been deferred indefinitely for certain other types of mandatorily redeemable financial instruments. The Company currently does not have any financial instruments that are within the scope of SFAS No. 150.

2 OPERATING LEASE

The Company leases its office facilities under an operating lease expiring in November 2005. Future minimum lease payments are as follows:

2005 \$ 13,200

Rent expense was \$14,400 and \$28,800 in 2004 and 2003, respectively.

3 STOCKHOLDERS' EQUITY

Stock Options and Warrants

In October 2001 the Company implemented an Employee Stock Incentive Plan. This plan provides for the issuance of options to employees to purchase shares of the Company's common stock at an exercise price at least equal to the fair value of the Company's common stock at the grant date. These options are exercisable for a period of seven years from the date of grant. The Company has reserved 1,000,000 shares of its common stock for potential issuance under this plan. The following is a summary of all activity involving options and warrants:

		Weighted Average Exercise Price
	Outstanding Options	
Balance, December 31, 2002	143,353	\$ 0.83
Granted	467,500	0.13
Exercised	-	
Cancelled	(40,167)	1.59
Balance, December 31, 2003	570,686	0.20
Granted	-	
Exercised	-	
Cancelled	(78,186)	0.64
Balance, December 31, 2004	492,500	\$ 0.13

All options were exercisable as of December 31, 2004 and expire between May 2007 and October 2001

4 SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest was \$368 and \$977 for the years ended December 31, 2004 and 2003, respectively. There were no cash payments for income taxes for the years ending December 31, 2004 and 2003.

5 INCOME TAXES

The Company was treated as a subchapter S corporation from inception through December 31, 1998. Current and deferred income taxes for 2004 and 2003 were \$0.

The reconciliation between expected federal income tax rates is as follows:

	2004		2003	
	Amount	Percent	Amount	Percent
Expected federal tax \$	\$35,457	34%	\$(32,884)	(34%)
Surtax exemption	(3,129)	(3)	2,900	3
State income tax, net of federal tax benefit	6,257	6	(4,183)	(6)
Valuation and utilization of net operating loss carryforwards	\$38,585	37	34,167	(37)
Total	-	-%	-	-%

The Company has fully allowed for its net operating carryforwards as follows:

	2004	2003
Allowance for doubtful accounts	\$- 0 -	\$10,000
Inventory valuation allowance	\$6,000	6,000
Deferred tax asset relating to net operating loss carryforwards	323,000	362,000
Valuation allowance	329,000	378,000
Deferred tax asset	\$-	\$-

At December 31, 2004, the Company has carryforwards available to offset future taxable income as follows

Year ending December 31,	Federal	State
2019	\$33,000	\$33,000
2020	141,000	141,000
2021	340,000	340,000
2022	194,000	194,000
2023	<u>90,000</u>	<u>90,000</u>
Totals	\$798,000	\$798,000
