1. Basis of Presentation and Business Description

The accompanying consolidated financial statements include the accounts of WWE. "WWE" refers to World Wrestling Entertainment, Inc. and its subsidiaries, unless the context otherwise requires. References to "we," "us," "our" and the "Company" refer to WWE and its subsidiaries. We are an integrated media and entertainment company, principally engaged in the production and distribution of content through various channels including our recently launched digital over-the-top WWE Network, television rights agreements, pay-per-view event programming, live events, feature films, licensing of various WWE themed products and the sale of consumer products featuring our brands. Our operations are organized around the following four principal activities:

Media Division:

Network

•Revenues consist principally of subscriptions to WWE Network and fees for viewing our pay-per-view and video-on-demand programming.

Television

•Revenues consist principally of television rights fees and television advertising fees.

Home Entertainment

•Revenues consist principally of sales of WWE produced content via home entertainment platforms.

Digital Media

•Revenues consist principally of advertising sales on our websites, rights fees received for digital content, sales of various broadband and mobile content and magazine publishing.

Live Events

•Revenues consist principally of ticket sales and travel packages for live events.

Consumer Products Division:

Licensing

•Revenues consist principally of royalties or license fees related to various WWE themed products such as video games, toys and apparel.

Venue Merchandise

•Revenues consist of sales of merchandise at our live events.

WWEShop

•Revenues consist of sales of merchandise on our website through our WWEShop internet storefront.

WWE Studios

•Revenues consist of amounts earned from the production and/or distribution of filmed entertainment.

In our prior reports filed with the Securities Exchange Commission ("SEC") through fiscal year 2013, we presented five reportable segments: Live and Televised Entertainment, Consumer Products, Digital Media, WWE Studios and Unallocated Corporate and Other. Effective January 1, 2014, we now present ten reportable segments. Information presented for the three months ended March 31, 2013 included in the unaudited consolidated financial statements herein and elsewhere in this Quarterly Report has been recast to reflect our new segment presentation. See Note 2, Segment Information, for further details on our reportable segments. Such revisions have no impact on our consolidated financial condition, results of operations or cash flows for the periods presented.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share data)

(Unaudited)

Within the Consolidated Statements of Cash Flows from operating activities, certain prior year amounts were reclassified to conform to the current period presentation.

The accompanying consolidated financial statements are unaudited. All adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations of any interim period are not necessarily indicative of the results of operations for the full year. All intercompany balances are eliminated in consolidation.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Certain information and note disclosures normally included in annual financial statements have been condensed or omitted from these interim financial statements; these financial statements should be read in conjunction with the financial statements and notes thereto included in our Form 10-K for the year ended December 31, 2013.

Recent Accounting Pronouncements

There are no accounting standards or interpretations that have been issued, but which we have not yet adopted, that we believe will have a material impact on our financial statements.

2. Segment Information

During the three months ended March 31, 2014, the Company launched WWE Network, which changed the way that certain content is delivered to our customers. The launch of WWE Network coupled with the continued convergence within the media landscape, has resulted in a change in the Company's management reporting to its chief operating decision maker. These changes necessitated a change in the Company's segment reporting to align with management's operational view. As discussed in Note 1, the Company currently classifies its operations into ten reportable segments. The ten reportable segments of the Company now include the following: Network (which includes our pay-per-view business), Television, Home Entertainment and Digital Media, individual segments that comprise the Media Division; Live Events; Licensing, Venue Merchandise, WWEShop, individual segments that comprise the Consumer Products Division; WWE Studios and Corporate and Other (as defined below).

We do not disclose assets by segment information. In general, assets of the Company are leveraged across its reportable segments and we do not provide assets by segment information to our chief operating decision maker, as that information is not typically used in the determination of resource allocation and assessing business performance of each reportable segment.

The Company presents OIBDA as the primary measure of segment profit (loss). The Company believes the presentation of OIBDA is relevant and useful for investors because it allows investors to view our segment performance in the same manner as the primary method used by management to evaluate segment performance and make decisions about allocating resources. The Company defines OIBDA as operating income before depreciation and amortization, excluding feature film and television production asset amortization and impairments.

We do not allocate certain costs included in OIBDA of our Corporate and Other segment to the other reportable segments. Corporate and Other expense primarily includes corporate overhead and certain expenses related to sales and marketing, international, and talent development functions, including costs associated with our recently opened WWE Performance Center. These costs benefit the Company as a whole and are therefore not allocated. Revenues

from transactions between our operating segments are not material.

Geographic Information

Net revenues by major geographic region are based upon the geographic location of where our content is distributed. The information below summarizes net revenues to unaffiliated customers by geographic area:

	Three Months Ended	
	March 31, 2014	March 31, 2013
North America	\$101,718	\$97,824
Europe/Middle East/Africa	12,849	16,253
Asia Pacific	8,990	7,885
Latin America	2,015	2,039
Total net revenues	\$125,572	\$124,001

Revenues generated from the United Kingdom, our largest international market, totaled \$7,072 and \$7,703 for the three months ended March 31, 2014 and 2013, respectively. The Company's property and equipment was almost entirely located in the United States at March 31, 2014 and 2013.

3. Stock-based Compensation

Restricted Stock Units

The Company grants restricted stock units ("RSUs") to officers and employees under the 2007 Amended and Restated Omnibus Incentive Plan (the "2007 Plan"). Stock-based compensation costs associated with our RSUs are determined using the fair market value of the Company's common stock on the date of the grant. These costs are recognized over the requisite service period using the graded vesting method, net of estimated forfeitures. RSUs have a service requirement typically over a three-year to three and one half year vesting schedule. We estimate forfeitures based on historical trends, when recognizing compensation expense and adjust the estimate of forfeitures when they are expected to differ. Unvested RSUs accrue dividend equivalents at the same rate as are paid on our shares of Class A common stock. The dividend equivalents are subject to the same vesting schedule as the underlying RSUs.

The following table summarizes the RSU activity during the three months ended March 31, 2014:

	Units	Weighted-Average Grant-Date Fair Value
Unvested at January 1, 2014	107,034	\$ 9.87
Granted	99,796	\$ 24.07
Vested	(14,882)) \$ 12.27
Forfeited	(3,681)) \$ 8.39
Dividend equivalents	760	\$ 17.23
Unvested at March 31, 2014	189,027	\$ 17.23

Performance Stock Units

Stock-based compensation costs associated with our performance stock units ("PSUs") are initially determined using the fair market value of the Company's common stock on the date the awards are approved by our Compensation Committee (service inception date) and are granted under the 2007 Plan. The vesting of these PSUs are subject to certain performance conditions and a service requirement of approximately three and one half years. Until such time as the performance conditions are met, stock compensation costs associated with these PSUs are re-measured each reporting period based upon the fair market value of the

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Company's common stock and the probability of attainment on the reporting date. The ultimate number of PSUs that are issued to an employee is the result of the actual performance of the Company at the end of the performance period compared to the performance conditions. Stock compensation costs for our PSUs are recognized over the requisite service period using the graded vesting method, net of estimated forfeitures. Unvested PSUs accrue dividend equivalents once the performance conditions are met at the same rate as are paid on our shares of Class A common stock. The dividend equivalents are subject to the same vesting schedule as the underlying PSUs.

The following table summarizes the PSU activity during the three months ended March 31, 2014:

	Units	Weighted-Average Grant-Date Fair Value
Unvested at January 1, 2014	1,259,629	\$ 13.46
Granted	278,281	\$ 28.88
Achievement adjustment	(387,633)	\$ 23.99
Vested	—	\$ —
Forfeited	(5,617)	\$ 23.99
Dividend equivalents	3,498	\$ 15.31
Unvested at March 31, 2014	1,148,158	\$ 18.60

During the year ended December 31, 2013, we granted 804,896 PSUs which were subject to performance conditions.

During the three months ended March 31, 2014, the certain performance conditions related to these PSUs were partially met which resulted in a reduction of 387,633 PSUs in 2014 relating to the initial 2013 PSU grant.

During the three months ended March 31, 2014, we granted 278,281 PSUs which are subject to certain performance conditions.

Stock-based compensation costs totaled \$3,130 and \$1,215 for the three months ended March 31, 2014 and 2013, respectively.

4. Property and Equipment

Property and equipment consisted of the following:

	As of March 31, 2014	December 31, 2013
Land, buildings and improvements	\$105,631	\$106,749
Equipment	108,131	107,305
Corporate aircrafts	52,131	51,757
Vehicles	244	244
	266,137	266,055
Less accumulated depreciation	(137,185)	(132,575)
Total	\$128,952	\$133,480

During the first quarter of 2014, the Company received tax credits relating to our infrastructure improvements in conjunction with capital projects to support our increased content production efforts. Depreciation expense for property and equipment totaled \$4,607 and \$4,846 for the three months ended March 31, 2014 and 2013, respectively. Depreciation expense in the current year quarter reflects a benefit of \$1,202 from the recognition of the infrastructure tax credit noted above. The credit was used to reduce the carrying value of the assets as of their in-service date and consequently the adjustment to depreciation expense reflects the revised amount incurred to date. The credit was received in the current year but related to assets placed in service in prior years.

5. Feature Film Production Assets, Net

Feature film production assets consisted of the following:

	As of March 31, 2014	December 31, 2013
Feature film productions:		
In release	\$9,210	\$9,413
Completed but not released	7,017	3,130
In production	2,083	2,686
In development	706	789
Total	\$19,016	\$16,018

Approximately 42% of "In release" film production assets are estimated to be amortized over the next 12 months and approximately 76% of "In release" film production assets are estimated to be amortized over the next three years. We anticipate amortizing 80% of our "In release" film production asset within four years as we receive revenues associated with international distribution of our licensed films.

During the three months ended March 31, 2014, we released one film direct to DVD, Scooby Doo at WrestleMania, which comprises \$1,090 of our "In release" feature film assets as of March 31, 2014. Third-party distributors control the distribution and marketing of co-distributed films, and as a result, we recognize revenue on a net basis after the third-party distributor recoups distribution fees and expenses and results are reported to us. Results are typically reported to us in periods subsequent to the initial release of the film. During the first quarter of 2013, we released two feature films via theatrical distribution, The Call and Dead Man Down, and released The Marine 3: Homefront direct to DVD, which aggregate \$2,668 of our "In release" feature film assets as of March 31, 2014.

Unamortized feature film production assets are evaluated for impairment each reporting period. We review and revise estimates of ultimate revenue and participation costs at each reporting period to reflect the most current information available. If estimates for a film's ultimate revenue are revised and indicate a significant decline in a film's profitability or if events or circumstances change that indicate we should assess whether the fair value of a film is less than its unamortized film costs, we calculate the film's estimated fair value using a discounted cash flows model. If fair value is less than unamortized cost, the film asset is written down to fair value.

We did not record any impairment charges during the three months ended March 31, 2014 related to our feature films. During the three months ended March 31, 2013, we recorded an impairment charge of \$4,696 related to the feature film, Dead Man Down. These impairment charges represent the excess of the recorded net carrying value over the estimated fair value.

We currently have three theatrical films designated as "Completed but not released". We also have capitalized certain script development costs for various other film projects designated as "In development". Capitalized script development costs are evaluated at each reporting period for impairment and to determine if a project is deemed to be abandoned. During the three months ended March 31, 2014, we expensed \$135 related to previously capitalized development costs related to abandoned projects. We did not incur any comparable expense in the prior year quarter.

6. Television Production Assets, Net

Television production assets consist primarily of episodic content series we have produced for distribution through a variety of platforms including on WWE Network. Amounts capitalized primarily include development costs, production costs, production overhead and employee salaries. We have \$13,171 and \$10,772 capitalized as of March 31, 2014 and December 31, 2013, respectively, related to this type of programming. Costs to produce our live event programming are expensed when the event is first broadcast. Costs to produce episodic programming for television or distribution on WWE Network are amortized in the proportion that revenues bear to management's estimates of the ultimate revenue expected to be recognized from exploitation, exhibition or sale. During the three months ended March 31, 2014, we amortized \$2,831 related to the airings of the television series, Total Divas on the E! Network and WWE Countdown and WrestleMania Rewind which are aired on WWE Network. We did not amortize any expenses during the three months ended March 31, 2013. Unamortized television production assets are evaluated for impairment each reporting period. If conditions indicate a potential impairment, and the estimated future cash flows are not sufficient to recover the unamortized asset, the asset is written down to fair value. In addition, if we determine that a program will not likely air, we will write-off the remaining unamortized asset. During the three months ended March 31, 2014 and 2013, we did not record any impairments related to our television production assets.

7. Investment Securities and Short-Term Investments

Investment Securities:

On March 14, 2014, the Company invested \$2,000 in Series E Preferred Stock of a software application developer. On May 30, 2013, the Company made an investment of \$2,200 in a live event touring business. On June 25, 2012, the Company invested \$5,000 in Tout Industries, Inc.'s ("Tout") Series B Preferred Stock. Additionally, the Investment in Tout includes shares received in conjunction with a strategic partnership of which approximately \$1,098 was in prior periods and \$220 was received during the three months ended March 31, 2014. These investments are accounted for under the cost method. We evaluate our cost method investments for impairment if factors indicate that a significant decrease in value has occurred. No such indicators were noted during the three months ended March 31, 2014.

Included in Investment Securities in our Consolidated Balance Sheets as of March 31, 2014 and December 31, 2013 are \$10,518 and \$8,299, respectively, related to these investments.

Short-Term Investments:

Short-term investments measured at fair value consisted of the following:

	March 31, 2014			Fair Value	December 31, 2013			Fair Value
	Amortized Cost	Gross Unrealized			Amortized Cost	Gross Unrealized		
		Gain	(Loss)			Gain	(Loss)	
Municipal bonds	\$39,289	\$164	\$(57)	\$39,396	\$44,636	\$176	\$(91)	\$44,721
Corporate bonds	26,473	89	(92)	26,470	31,825	104	(174)	31,755
Total	\$65,762	\$253	\$(149)	\$65,866	\$76,461	\$280	\$(265)	\$76,476

We classify the investments listed in the above table as available-for-sale securities. Such investments consist primarily of corporate and municipal bonds, including pre-refunded municipal bonds. These investments are stated at fair value as required by the applicable accounting guidance. Unrealized gains and losses on such securities are reflected, net of tax, as other comprehensive income (loss) in the Consolidated Statements of Comprehensive Income.

8. Fair Value Measurement

Fair value is determined based on the exchange price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement based on assumptions that "market participants" would use to price the asset or liability. Accordingly, the framework considers markets or observable inputs as the preferred source of value followed by assumptions based on hypothetical transactions, in the absence of market inputs. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of assets and liabilities should include consideration of non-performance risk including the Company's own credit risk. Additionally, the accounting guidance establishes a three-level hierarchy that ranks the quality and reliability of information used in developing fair value estimates. The hierarchy gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. In cases where two or more levels of inputs are used to determine fair value, a financial instrument's level is determined based on the lowest level input that is considered significant to the fair value measurement in its entirety. The three levels of the fair value hierarchy are summarized as follows:

Level 1- quoted prices in active markets for identical assets or liabilities;

Level 2- quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or

Level 3- unobservable inputs, such as discounted cash flow models or valuations

The following assets are required to be measured at fair value on a recurring basis and the classification within the hierarchy was as follows:

	Fair Value at March 31, 2014				Fair Value at December 31, 2013			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Municipal bonds	\$39,396	\$—	\$39,396	\$—	\$44,721	\$—	\$44,721	\$—

(Unaudited)

Certain financial instruments are carried at cost on the Consolidated Balance Sheets, which approximates fair value due to their short-term, highly liquid nature. The carrying amounts of cash and cash equivalents, money market accounts, accounts receivable and accounts payable approximate fair value because of the short-term nature of such instruments.

We have classified our investment in municipal and corporate bonds within Level 2 as their valuation requires quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and/or model-based valuation techniques for which all significant inputs are observable in the market or can be corroborated by observable market data. The municipal and corporate bonds are valued based on model-driven valuations. A third party service provider assists the Company with compiling market prices from a variety of industry standard data sources, security master files from large financial institutions and other third-party sources that are used to value our municipal and corporate bond investments.

The Company's long lived property and equipment, feature film and television production assets are required to be measured at fair value on a non-recurring basis if it is determined that indicators of impairment exist. These assets are recorded at fair value only when an impairment is recognized. During the three months ended March 31, 2014, the Company did not record any impairment charges on these assets. During the three months ended March 31, 2013, the Company recorded an impairment charge of \$4,696 on a feature film production asset based on a fair value measurement of \$989. See Note 5, Feature Film Production Assets, for further discussion. The Company classifies these assets as Level 3 within the fair value hierarchy due to significant unobservable inputs. The Company utilizes a discounted cash flows model to determine the fair value of impaired films where indicators of impairment exist. The significant unobservable inputs to this model are the Company's expected cash flows for the film, including projected home video sales, pay and free TV sales and international sales, and a discount rate of 13% that we estimate market participants would seek for bearing the risk associated with such assets. The Company utilizes an independent third party valuation specialist who assists us in gathering the necessary inputs used in our model.

The fair value of the Company's long-term debt, consisting of a promissory note payable to RBS Asset Finance, Inc. is estimated based upon quoted price estimates for similar debt arrangements. At March 31, 2014, the face amount of the note approximates its fair value.

9. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consisted of the following:

	As of March 31, 2014	December 31, 2013
Trade related	\$7,598	\$8,565
Payroll and related benefits	10,597	11,291
Talent related	5,079	6,304
Accrued WWE Network related expenses	10,418	2,477
Accrued event and television production	4,306	4,429
Accrued home entertainment expenses	1,470	1,341
Accrued legal and professional	2,376	1,903
Accrued purchases of property and equipment and other assets	632	1,700
Accrued film liability	2,654	2,654
Accrued other	8,751	7,218
Total	\$53,881	\$47,882

Accrued other includes accruals for our publishing and licensing business activities and other miscellaneous accruals, none of which categories individually exceeds 5% of current liabilities. The increase in the balance of Accrued WWE Network related expenses from year end primarily reflects the Company's activities associated with the launch of WWE Network, including advertising and promotions, costs in support of the network launch and operations of the network.

10. Debt

On August 7, 2013, the Company entered into a \$31,568 promissory note (the "Note") with RBS Asset Finance, Inc., for the purchase of a 2007 Bombardier Global 5000 aircraft and refurbishments. The Note bears interest at a rate of 2.18% per annum, is payable in monthly installments of \$406, inclusive of interest, beginning in September 2013 and has a final maturity of August 7, 2020. The Note is secured by a first priority perfected security interest in the newly purchased aircraft. As of March 31, 2014, the amount outstanding related to the Note was \$29,117.

In September 2011, the Company entered into a \$200,000 senior unsecured revolving credit facility with a syndicated group of banks, with JPMorgan Chase acting as administrative agent. In April 2013, the Company amended and restated the revolving credit facility. Under the terms of the amended credit facility, (i) the maturity date was extended to September 9, 2016, (ii) changes were made to the applicable margin for borrowings under the facility, and (iii) restrictions on certain financial covenants were amended to provide for greater financial flexibility. Applicable interest rates for the borrowings under the revolving credit facility are based on the Company's current consolidated leverage ratio. As of March 31, 2014, the LIBOR-based rate plus margin was 2.23%. As of March 31, 2014 and December 31, 2013, there were no amounts outstanding under the credit facility. The Company is required to pay a commitment fee calculated at a rate per annum of 0.375% on the average daily unused portion of the credit facility.

Under the terms of the revolving credit facility, as amended, the Company is subject to certain financial covenants and restrictions, including restrictions on our ability to pay dividends and limitations with respect to our indebtedness, liens, mergers and acquisitions, dispositions of assets, investments, capital expenditures, and transactions with affiliates. On May 1, 2014, the Company entered into a First Amendment to its Amended and Restated Credit Facility ("the Amendment") and further modified certain financial covenants to provide for greater financial flexibility. See Note 14, Subsequent Event, for further discussion. As of March 31, 2014, given effect to such Amendment, the Company is in compliance with the provisions of the credit facility and had available debt capacity under the terms of the revolving credit facility of approximately \$90,000.

11. Concentration of Credit Risk

We continually monitor our position with, and the credit quality of, the financial institutions that are counterparties to our financial instruments. Our accounts receivable relate principally to a limited number of distributors, including our network, television, pay-per-view and home video distributors and licensees that produce consumer products containing our intellectual trademarks. We closely monitor the status of receivables with these customers and maintain allowances for anticipated losses as deemed appropriate. At March 31, 2014, our largest single customer balance was approximately 14% of our gross accounts receivable balance.

12. Film and Television Production Incentives

The Company has access to various governmental programs that are designed to promote film and television production within the United States of America and certain international jurisdictions. Incentives earned with respect to expenditures on qualifying film, television and other production activities, including qualifying capital projects, are included as an offset to the related asset or as an offset to production expenses when we have reasonable assurance regarding the realizable amount of the incentives. During the three months ended March 31, 2014, we received \$3,080 for infrastructure improvement incentives relating to qualifying capital projects. Of this amount \$2,937, was recorded as a reduction in property and equipment. We did not receive any similar incentives for the three months ended March 31, 2013. During the three months ended March 31, 2014 and 2013, we did not receive any incentives relating

to film or television production activities.

13. Commitments and Contingencies

Legal Proceedings

We are involved in several litigations and claims that we consider to be in the ordinary course of our business. By its nature, the outcome of litigation is not known but the Company does not currently expect its pending litigation to have a material adverse effect on our financial condition, results of operations or liquidity. We may from time to time become a party to other legal proceedings.

14. Subsequent Event

On May 1, 2014, the Company entered into a First Amendment to its Amended and Restated Credit Facility with a syndicated group of banks, with JPMorgan Chase, as administrative agent. The Amendment, among other things, (a) adjusts the consolidated EBITDA calculation for the four quarterly periods in 2014 and the first and second quarters of 2015 by permitting the add-back of WWE Network Expenses subject to specified maximum amounts in such periods, and (b) increases the consolidated EBITDA calculation by the amount of any net investments in respect of feature film production, subject to specified maximum amounts for the quarters ending September 30, 2014 and December 31, 2014 and (c) reduces the consolidated fixed charge coverage ratio for four quarters in 2014 and the first two quarters in 2015 such that the consolidated fixed charge coverage ratio may not be less than 1.0:1.0 for the respective quarterly periods ending March 31, 2014, June 30, 2014, September 30, 2014 and December 31, 2014, increasing to 1.10:1.0 for the quarter ending March 31, 2015, to 1.15:1.0 for the quarter ending June 30, 2015, and to 1.25:1.0 for the quarter ending September 30, 2015 and thereafter. The Amendment also includes certain additional allowances for the Company to make investments in special film entities. The Company has no outstanding borrowings under the credit facility for the periods presented and as of March 31, 2014, is currently in compliance with the provisions of the revolving credit facility and is not restricted from paying dividends to our stockholders.

•Revenues consist of amounts earned from talent appearances. Expenses include corporate overhead and certain expenses related to sales and marketing, international, and talent development functions.

Results of Operations

The Company presents OIBDA as the primary measure of segment profit (loss). The Company believes the presentation of OIBDA is relevant and useful for investors because it allows investors to view our segment performance in the same manner as the primary method used by management to evaluate segment performance and make decisions about allocating resources. The Company defines OIBDA as operating income before depreciation and amortization, excluding feature film and television production asset amortization and impairments. OIBDA is a non-GAAP financial measure and may be different than similarly-

Table of Contents

titled non-GAAP financial measures used by other companies. A limitation of OIBDA is that it excludes depreciation and amortization, which represents the periodic charge for certain fixed assets and intangible assets used in generating revenues for our business. OIBDA should not be regarded as an alternative to operating income or net income as an indicator of operating performance, or to the statement of cash flows as a measure of liquidity, nor should it be considered in isolation or as a substitute for financial measures prepared in accordance with GAAP. We believe that operating income is the most directly comparable GAAP financial measure to OIBDA. See Note 2, Segment Information in the accompanying Consolidated Financial Statements for a reconciliation of OIBDA to operating income for the periods presented.

In the prior year quarter, our results were impacted by \$4.7 million of impairment charges related to the feature film, Dead Man Down, partially offset by an approximate \$3.4 million positive impact from the transition of our video game to a new licensee. There were no such charges in the current year quarter.

Our Media division revenues increased 12% driven primarily by increases from our Home Entertainment and Television segments and the impact of the launch of our new WWE Network. Our Live Events segment experienced a 3% increase in revenues primarily driven by higher attendance and higher average ticket prices. Our Consumer Products division experienced a 29% decline in revenues, primarily driven by lower licensing revenues from our video games. Our WWE Studios segment reflected a \$2.4 million increase in revenues driven by the timing of our film releases and the related revenue from our movie portfolio.

Network revenues, which include revenues generated by the WWE Network, pay-per-view and video-on-demand, increased by \$2.4 million in the current year quarter as compared to the prior year quarter. WWE Network, which launched on February 24, 2014, accounted for \$4.4 million in new digital subscription revenues in the current year quarter with 495,000 subscribers as of March 31, 2014. The subscription to WWE Network is \$9.99 per month with a 6 month commitment. WWE Network is a 24/7 streaming network that provides access to live and scheduled programming, including all 12 of WWE's live pay-per-view events, as well as access to its comprehensive video-on-demand library. The \$4.4 million of revenues generated by WWE Network in the current year quarter was partially offset by the decline in pay-per-view revenue of \$1.3 million due primarily to a 10% decline in pay-per-view buys for Royal Rumble and Elimination Chamber with average revenue per buy remaining relatively flat at

Table of Contents

approximately \$20.00 per buy. In addition, video-on-demand revenues decreased by \$0.6 million due to the cessation of our Classics On Demand offering in January 2014 in anticipation of the launch of WWE Network in February.

Total Network OIBDA as a percentage of revenues decreased to a loss of 20% in the current year quarter as compared to a profit of 31% in the prior year quarter driven mainly by the costs associated with the launch and ongoing support of our WWE Network. In support of the network launch, we incurred \$4.8 million of advertising and \$3.8 million of customer service costs in anticipation of initial customer demand and inquiries.

Television revenues, which include revenues generated from television rights fees and advertising, increased by \$2.9 million in the current year quarter as compared to the prior year quarter. Our domestic television rights fees increased by \$1.4 million, primarily due to the production and licensing of the second season of Total Divas, which is carried on the E! Network and which did not air in the prior year quarter. Additionally, our international television rights fees increased by \$1.1 million. The television OIBDA as a percentage of revenues decreased to 27% from 32% in the prior year quarter primarily due to television amortization expenses related to the airings of Total Divas with no airings in the prior year quarter as well as costs associated with the new corporate aircraft which is used primarily as transportation to the various television production sites.

Home entertainment revenues, which include revenues generated from the sale of WWE produced content via home entertainment platforms such as DVD and Blu-Ray discs, increased by \$3.5 million in the current year quarter compared to the prior year quarter. This increase was due in part to increased sell through rates at retail and the recognition of a \$2.5 million minimum guarantee from our home video distribution and a \$2.2 million adjustment for higher current sell-through rates than anticipated for our fourth quarter 2013 releases. As a result of the latter adjustment, returns represented 24% of gross domestic retail revenue as compared to 49% in the prior year quarter. These factors were partially offset by a 17% decline in the average effective price to \$7.88 and an 11% decline in units shipped. Home entertainment OIBDA as a percentage of revenues increased to 60% in the current year quarter compared to 46% in the prior year quarter driven by the increase in revenues and lower variable costs associated with distribution and fulfillment expenses.

Digital media revenues, which primarily include revenues generated from WWE.com and from our magazine publishing business, decreased by \$0.4 million driven mainly by a decline in publishing revenues of \$0.5 million due primarily to the publishing of one less issue in the current year quarter compared to the prior year quarter. WWE.com revenues increased by \$0.1 million in the current year quarter compared to the prior year quarter due to higher webcast revenue as it relates to pay-per-view webcasts on the website, increased sales of advertising across various digital platforms, partially offset by a decrease in WWE.com rights fees. Digital media OIBDA as a percentage of revenues decreased to a loss of 6% in the current year quarter from a profit of 18% in the prior year quarter driven by lower publishing revenues with higher costs incurred as well as higher costs to support WWE.com initiatives.

Live events revenues, which include revenues from ticket sales and travel packages, increased by \$0.7 million in the current year quarter as compared to the prior year quarter. Revenues from our North America live events business increased \$1.7 million or 9%, primarily due to increases in the number of events, and average ticket prices in the current year quarter as compared to the prior year quarter. Our international live events business decreased \$1.0 million in the current year quarter compared to the prior year quarter, driven by timing of when events are held with three events held in the prior year quarter versus none in the current year quarter. Live events OIBDA as a percentage of revenues decreased to 18% in the current year quarter compared to 21% in the prior year quarter, driven in part, by higher event venue costs and increases in advertising and promotional expenses.
