Forward Looking Statements

This presentation includes forward-looking statements within the meaning of the U.S. federal securities laws. Forward-looking statements are commonly identified by such terms and phrases as would, may, will, expects or expected to and other terms with similar meaning indicating possible future events or actions or potential impact on the businesses or shareholders of Adolph Coors Company and Molson Inc. (separately and together the Companies). Such statements include, but are not limited to, statements about the anticipated benefits, savings and synergies of the merger between Adolph Coors Company and Molson, Inc., including future financial and operating results, Coors' and Molson's plans, objectives, expectations and intentions, the markets for Coors' and Molson's products, the future development of Coors' and Molson's business, and the contingencies and uncertainties to which Coors and Molson may be subject and other statements that are not historical facts. The presentation also includes information that has not been reviewed by the Companies' independent auditors. There is no assurance the transaction contemplated in this presentation will be completed at all, or completed upon the same terms and conditions described. All forward-looking statements in this presentation are expressly qualified by information contained in each company's filings with regulatory authorities. The Companies do not undertake to publicly update forward-looking statements, whether as a result of new information, future events or otherwise.

The following factors, among others, could cause actual results to differ materially from those set forth in the forward-looking statements: the ability to obtain required approvals of the merger on the proposed terms and schedule; the failure of Coors and Molson stockholders to approve the merger; the risk that the businesses will not be integrated successfully; the risk that the cost savings and any revenue synergies from the merger may not be fully realized or may take longer to realize than expected; and disruption from the merger making it more difficult to maintain relationships with customers, employees or suppliers. Additional factors that could cause Coors' and Molson's results to differ materially from those described in the forward-looking statements can be found in the periodic reports filed by Coors with the Securities and Exchange Commission and available at the Securities and Exchange Commission's internet site (<http://www.sec.gov>). Neither Coors nor Molson undertakes and each specifically disclaims, any obligation to update or revise any forward-looking information, whether as a result of new information, future developments or otherwise.

Stockholders are urged to read the joint proxy statement/management information circular regarding the proposed transaction when it becomes available, because it will contain important information. Stockholders will be able to obtain a free copy of the joint proxy statement/management information circular, as well as other filings containing information about Coors, without charge, at the Securities and Exchange Commission's internet site (<http://www.sec.gov>). Copies of the joint proxy statement/prospectus and the filings with the Securities and Exchange Commission that will be incorporated by reference in the joint proxy statement/management information circular can also be obtained, without charge, by directing a request to Adolph Coors Company, 311 10th Street, Golden, Colorado 80401, Attention: Investor Relations, (303) 279-6565. The respective directors and executive officers of Coors and Molson and other persons may be deemed to be participants in the solicitation of proxies in respect of the proposed merger. Information regarding Coors' directors and executive officers is available in the 2003 Annual Report on Form 10-K filed with the Securities and Exchange Commission by Coors on March 12, 2004, and information regarding Molson's directors and executive officers will be included in the joint proxy statement/management information circular. Other information regarding the participants in the proxy solicitation and a description of their direct and indirect interests, by security holdings or otherwise, will be contained in the joint proxy statement/prospectus and other relevant materials to be filed with the Securities and Exchange Commission when they become available.

Canada Strategy Focus on Light Beer Dominance

Strategy

Based on current percentage of Light market (58%), we expect Coors Light could grow from 8.5% (1.82MM HL) of the Canadian market today to 14.5% (3.10MM HL) long-term

Strategy would be to market heavily both Canadian and Coors Light to stabilize Canadian and drive Coors Light share from other domestic brands (principally Labatt Blue) as A-B did with Bud Light and Bud, both of which have dominant U.S. market share of 18.3% and 14.9%, respectively(1)
