 - o Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

 - o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 1.01. Entry into a Material Definitive Agreement.

On May 2, 2005, the Board of Directors of Sanmina-SCI Corporation (the Company) approved the acceleration of vesting of underwater unvested stock options held by employees, including executive officers and non-employee directors. This approval was based on the recommendation of the Compensation Committee of the Board of Directors. A stock option was considered underwater if the option exercise price was greater than \$7.00 per share. In addition, the vesting of options granted after November 1, 2004 was not accelerated. The Compensation Committee, which consists entirely of independent directors, as well as the independent directors on the full Board of Directors unanimously approved the acceleration of vesting of underwater stock options including those underwater stock options held by the Chief Executive Officer and the other executive officers of the Company. These actions were taken in accordance with the applicable provisions of the Company's stock option plans.

The table below summarizes the outstanding options subject to accelerated vesting.

Summary of Options Subject to Acceleration

	Aggregate number of shares issuable upon accelerated stock options	Weighted average exercise price per share
Executive officers	3,552,288	\$ 9.79
All other employees	14,166,442	\$ 9.66
Directors	177,087	\$ 8.41
Total(1)	17,895,817	\$ 9.68

(1) The accelerated options represent 30% of the Company's currently outstanding stock options.

The decision to accelerate vesting of these underwater stock options was made primarily to avoid recognizing compensation expense in future financial statements upon the adoption of Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123R), which, when effective, will require all share-based payments to employees, including grants of employee stock options, to be recognized on the Company's financial statements based on their fair values. SFAS 123R will become effective as to the Company beginning in the first quarter of the Company's fiscal year 2006. Additionally, the Company believes underwater stock options may not be offering the affected employees sufficient incentive when compared to the potential future compensation expense that would have been attributable to these stock options.
