[The following memorandum was sent to Career Education Corporation s ( CEC ) employees by John M. Larson, Chairman, President and Chief Executive Officer of CEC, on February 16, 2006.]

**INTEROFFICE CORRESPONDENCE**

**Date:** February 16, 2006  
**To:** All Employees  
**From:** Jack Larson

As most of you are aware, yesterday we released our earnings for the fourth-quarter and year-end, 2005. I m pleased to say that we continued to grow earnings at a healthy pace overall, in spite of external pressures on both the company and the industry and in spite of some softening of growth for our on-ground schools. This continuing profitable growth is a direct reflection of your efforts, and I want you to know that your hard work is both recognized and appreciated.

As you will note from the press release, which I have attached to this letter, the company also has authorized an additional repurchase of our stock, an important move designed to generate additional value for our shareholders. Providing long-term value to **all** of our stakeholders students, employees, educators, and shareholders will continue to be our goal. We have made a number of key decisions over the past months, not only in terms of corporate governance but also in terms of our operations, our educational offerings, and our strategy that we believe will drive even greater value going forward.

As I have mentioned to you in previous letters, while I am pleased with our growth and our overall financial results, I want to ensure that we stay focused on our primary job: enabling and supporting our students to graduate and pursue successful and satisfying careers. In the end, we are all about education in this company. And, while our results have been good, we have room to improve in a number of areas, both financially and operationally. Continuing strong financial and operational results are a direct outgrowth of doing our jobs well and serving our students and their employers better than anyone else in the industry.

Also attached to this letter is a press release issued today regarding a change in our Board of Directors. Our long-time director, Wally Laub, who has contributed a great deal to the growth and development of our company, is stepping down for personal reasons and is being replaced by Steven Lesnik, a Chicago-area business leader and former education regulator with a strong interest in the overall field of education. We are pleased to welcome Mr. Lesnik to our Board and believe he will make an excellent addition at this important time for our company.

I want you to know that I deeply appreciate the effort each of you continues to put into your jobs and into educating our students. Thank you for the role you have played in generating our strong results for the quarter.

Best regards,

Jack

**CAREER EDUCATION CORPORATION REPORTS SOLID REVENUE AND  
NET INCOME GROWTH FOR 2005 FOURTH QUARTER AND FULL YEAR**

**Board Authorizes Repurchase of Up to \$300 Million of Company Shares**

Hoffman Estates, Ill. (February 15, 2006) Career Education Corporation (NASDAQ: CECO) today reported revenue of \$529.2 million for the quarter ended December 31, 2005, an 8 percent increase from revenue for the fourth quarter of 2004. Net income for the fourth quarter of 2005 was \$70.3 million, an increase of 12 percent from net income for the fourth quarter of 2004. The company also announced that its Board of Directors has approved the repurchase of up to \$300 million of the outstanding shares of the company's common stock.

Our earnings growth and cash flow continue to be significant, driven by the worldwide demand for high-quality career education, said John Larson, Chairman and Chief Executive Officer of Career Education Corporation. Our track record of growth and innovation, coupled with our commitment to outstanding service delivery, has positioned us well, and we remain confident in our strategic direction.

**RESULTS OF OPERATIONS**

**Three Months Ended December 31, 2005**

Consolidated revenue increased 8 percent to \$529.2 million during the fourth quarter of 2005, from \$491.1 million during the fourth quarter of 2004. The increase is primarily attributable to an approximate 8 percent increase in student population from October 31, 2004, to October 31, 2005.

Consolidated income from operations increased 7 percent to \$104.7 million during the fourth quarter of 2005, from \$98.2 million during the fourth quarter of 2004. Operating profit margin percentage was 19.8 percent during the fourth quarter of 2005, a decrease of 20 basis points from 20.0 percent during the fourth quarter of 2004.

Consolidated net income was \$70.3 million, or \$0.70 per diluted share, during the fourth quarter of 2005, an increase of 12 percent from \$62.9 million, or \$0.60 per diluted share, during the fourth quarter of 2004.

**Twelve Months Ended December 31, 2005**

Consolidated revenue increased 18 percent to \$2.035 billion during 2005, from \$1.729 billion during 2004.

Income from operations increased 27 percent to \$369.1 million during 2005, from \$291.6 million during 2004. Operating profit margin percentage for 2005 was 18.1 percent, an increase of 120 basis points from 16.9 percent for 2004.

The company reduced its effective income tax rate from 39.25 percent in 2004 to 37.40 percent in 2005. The change was effected during the third quarter and fourth quarter of 2005. Specifically, we reduced our year-to-date effective tax rate from 39.25 percent to 38.25 percent during the third quarter of 2005 and from 38.25 percent to 37.40 percent during the fourth quarter of 2005. The decrease in our effective tax rate is attributable to the impact of various tax planning strategies and favorable changes in the proportionate

distribution of our total pretax income among the tax jurisdictions in which we operate. The reduction of our effective income tax rate from 39.25 percent to 37.40 percent increased 2005 net income per diluted share by approximately \$0.07, and our fourth quarter 2005 reduction of our effective income tax rate from 38.25 to 37.40 percent increased fourth quarter 2005 net income per diluted share by approximately \$0.03.

Consolidated net income was \$233.9 million, or \$2.26 per diluted share, during 2005, a 30 percent increase from \$179.6 million, or \$1.71 per diluted share, during 2004.

## **CASH FLOWS AND FINANCIAL POSITION**

### **Cash Flows**

Net cash provided by operating activities was \$378.2 million during 2005, compared to net cash provided by operating activities of \$376.2 million during 2004.

Capital expenditures decreased to \$125.6 million during 2005, from \$142.8 million during 2004. Capital expenditures represented approximately 6.2 percent of consolidated revenue in 2005 versus 8.3 percent of consolidated revenue in 2004.

### **Financial Position**

As of December 31, 2005 and 2004, cash and cash equivalents and investments totaled \$404.4 million and \$349.5 million, respectively.

Net student receivables as of December 31, 2005, were \$76.4 million, an 11 percent decrease from \$86.0 million as of December 31, 2004. Allowance for doubtful accounts as a percentage of gross student receivables as of December 31, 2005, decreased to 37.0 percent, from 41.6 percent as of December 31, 2004.

Quarterly days sales outstanding ( DSO ) were 14 days as of December 31, 2005, a 3-day decrease from DSO as of December 31, 2004, of 17 days. DSO is calculated by dividing the sum of net student receivables and net other receivables by average

daily revenue for the quarter. Average daily revenue for the quarter is computed by dividing total revenue by the total number of days in the quarter.

**ADDITIONAL STOCK REPURCHASE AUTHORIZATION**

In January 2006, Career Education Corporation's Board of Directors authorized the use of an additional \$200 million for the repurchase of shares of our outstanding common stock. This authorization is in addition to the approximately \$100 million still available under CEC's \$300 million stock repurchase program authorization in July 2005. Stock repurchases under this program may be made on the open market or in privately negotiated transactions from time to time, depending on factors including market conditions and corporate and regulatory requirements. The stock repurchase program does not have an expiration date and may be suspended or discontinued at any time.

Since inception of the program in July 2005, the company has repurchased approximately 5.3 million shares of its common stock for approximately \$200 million at an average price of approximately \$37.97 per share. Stock repurchases during 2005 reduced 2005 diluted weighted average shares outstanding and fourth quarter 2005 diluted weighted average shares outstanding by approximately 2.0 million shares and 5.3 million shares, respectively, and increased 2005 net income per diluted share and fourth quarter 2005 net income per diluted share by approximately \$0.03 and \$0.02, respectively. The effect of the share repurchases on net income per diluted share was estimated based on the aforementioned reduction in diluted weighted average shares outstanding and estimated interest income forgone.

**POPULATION AND NEW STUDENT START DATA**

CEC total student population and new student start data include the results of both the Online Educational Group ( OEG ) segment and the Colleges, Schools, and University ( CSU ) segment.

### **Student Population**

CEC total student population as of January 31, 2006, was approximately 104,200, representing a 3 percent increase from total student population as of January 31, 2005, of approximately 101,500.

OEG student population as of January 31, 2006, was approximately 32,700, representing a 31 percent increase from OEG student population as of January 31, 2005, of approximately 24,900.

### **New Student Starts**

New student starts during the fourth quarter of 2005, including the results of both our OEG and CSU segments, were approximately 28,200, compared to new student starts during the fourth quarter of 2004 of approximately 28,600.

### **INNOVATIONS**

Innovations during the fourth quarter of 2005 included the advancement of Career Education's hybrid learning model, which capitalizes on the company's strong online technology platform and allows on-ground students to take a portion of their coursework at their physical facility and a portion online. This model will be introduced during the first quarter of 2006.

Our priority will always be customer-focused innovation that provides real value for our students and ultimately increases value for our shareholders, said Larson. By understanding our diverse group of students and their needs, we can successfully target our strategies and ensure that we maximize our investment in innovation and service.

### **BUSINESS OUTLOOK**

Following is guidance with respect to 2006 financial performance. While we may make acquisitions or divestitures, none are contemplated by these forward-looking statements.

**Full Year 2006**

We expect our consolidated 2006 revenue to increase approximately 10 percent from consolidated 2005 revenue.

We expect our consolidated 2006 net income per diluted share, excluding the effect of non-cash stock incentive compensation expense, to increase approximately 10 - 12 percent from consolidated 2005 net income per diluted share.

We expect 2006 non-cash stock incentive compensation expense to be approximately \$17.0 to \$18.0 million, although actual expense may vary from this estimate based on, among other things, the timing, volume, and value of future stock incentive awards.

Career Education Corporation ([www.careered.com](http://www.careered.com)), through its colleges, schools and universities, offers quality higher education to more than 100,000 students both on-campus and online in a variety of career-oriented disciplines. CEC reports and discusses its operating results in two separate segments: the Colleges, Schools and Universities segment, which represents the results of the campuses providing education on-ground, and the Online Education Group, which represents the results of its campuses providing education online.

The Colleges, Schools and Universities segment includes more than 70,000 students attending one of 80-plus campuses owned by CEC. The on-ground campuses are located throughout the U.S. and in Canada, France, the United Kingdom, and the United Arab Emirates and offer doctoral degree, master's degree, bachelor's degree, associate degree, and diploma programs in the career-oriented disciplines of business studies, visual communication and design technologies, health education, information technology, and culinary arts.

The Online Education Group segment includes more than 30,000 students attending the web-based virtual campuses of either American InterContinental University Online or Colorado Technical University Online. The online campuses of these two universities collectively offer a variety of degrees in information technology, computer science, business, visual communication, health sciences, criminal justice, and education.

**CAREER EDUCATION CORPORATION APPOINTS**

**STEVEN H. LESNIK TO BOARD OF DIRECTORS**

**Board Accepts Resignation of Wallace O. Laub**

Hoffman Estates, Ill. (February 16, 2006) Career Education Corporation (NASDAQ: CECO) today announced that Steven H. Lesnik, 65, Chairman and Chief Executive Officer of KemperSports, Inc. has joined the company's Board of Directors. Lesnik will fill the seat vacated by the February 13, 2006 resignation of Wallace Laub, who had been on the company's Board since 1994.

Lesnik is actively committed to education, having served as Chairman of the Illinois Board of Higher Education, as a visiting lecturer at Northwestern University, and as a Director of the Illinois Math & Science Academy Foundation.

KemperSports, based in Northbrook, Illinois, provides development and management services for premier golf facilities as well as athletic clubs and lodging venues nationwide, and includes a marketing communications subsidiary. From 1968 to 1979, Lesnik held numerous positions at Kemper Insurance Companies, including vice president. Prior to his roles at Kemper Insurance, Lesnik spent three years at the Insurance Information Institute. He began his career at The Stamford Advocate, a daily newspaper headquartered in Stamford, Connecticut.

Steve is a seasoned business executive who will be a valuable addition to our Board, said John Larson, Chairman and Chief Executive Officer of Career Education Corporation. We are confident that his experience and insights from many years in executive leadership, and his commitment to educational excellence will prove helpful in guiding the company as it executes its strategies for growth and value creation for shareholders in the for-profit education sector.

Said Lesnik, I have been impressed by the Board's and management's commitment to providing high-quality education, and look forward to working with them as we position Career Education Corporation to meet today's challenges and to deliver value for all of its stakeholders over the long term.

Commenting on Laub's resignation as a Board member, Larson said, I am grateful for the contributions Wally has made as a member of the Board for the past 12 years, and we wish him well. As co-founder of the National Education Corporation, as well as a director of the Distance Education Training Counsel before joining our Board, Wally provided sound counsel based on extensive industry experience.

Said Laub, Serving on the Board of a dynamic industry leader like Career Education Corporation has been an exciting and gratifying experience. Providing quality education to students and enhancing value for shareholders have always been key priorities for the company. I am pleased that Steve Lesnik has joined the Board, and I am confident that he will be a strong contributor to the future success of the company.

#### **About Career Education Corporation**

Career Education Corporation ([www.careered.com](http://www.careered.com)), through its colleges, schools and universities, offers quality higher education to more than 100,000 students both on-campus and online in a variety of career-oriented disciplines. CEC reports and discusses its operating results in two separate segments: the Colleges, Schools and Universities segment, which represents the results of the campuses providing education on-ground, and the Online Education Group, which represents the results of its campuses providing education online.

The Colleges, Schools and Universities segment includes more than 70,000 students attending one of 80-plus campuses owned by CEC. The on-ground campuses are located throughout the United States, Canada, France, the United Kingdom, and the United Arab Emirates and offer doctoral degree, master's degree, bachelor's degree, associate degree, and diploma programs in

the career-oriented disciplines of business studies, visual communication and design technologies, health education, information technology, and culinary arts.

The Online Education Group segment includes more than 30,000 students attending the web-based virtual campuses of either American InterContinental University Online or Colorado Technical University Online. The online campuses of these two universities collectively offer a variety of degrees in information technology, computer science, business, visual communication, health sciences, criminal justice, and education.
