On September 14, 2006 Team Financial, Inc. (the Company), through its wholly owned statutory trust, Team Financial Capital Trust II, issued \$22 million of pooled trust preferred securities. The pooled trust preferred securities were offered by Bear, Stearns & Co. Inc. The trust preferred security has a variable interest rate of 1.65% over the 90-day LIBOR, a 30-year term and a callable option, in whole or in part, after five years of the issuance date. There is not a placement or annual trustee fee associated with the issuance. The securities are subordinate to all other debt of the Company and interest may be deferred up to five years.

The Company used the proceeds from the issuance to pay down approximately \$6 million on a line of credit which bore a higher interest rate than the trust preferred securities, and used the remainder to fund the redemption of the trust preferred securities offered in August 2001 through Team Financial Capital Trust I, a wholly owned statutory trust of the Company. As a result of this redemption, the Company incurred a pretax charge to earnings of approximately \$824,000 on the redemption date. This charge was the unamortized portion of the offering cost that was being amortized over the original life of the trust preferred securities that were issued in 2001. The Company expects to save approximately \$338,000 annually based on the reduction in interest rate on the new trust preferred securities.
