**ASX Announcement**

*Tuesday, 24 October 2006*

**National Australia Bank Full Year Reporting Template**

National Australia Bank today released its reporting template extract for the 2006 financial year profit announcement.

The template is provided to allow analysts to update financial models to take into account the impact of businesses disposed during 2006.

To facilitate comparison on a like for like basis, prior period cash earnings have been reduced to reflect operations that have been sold. These include Custom Fleet and the MLC life insurance operations in Hong Kong and Indonesia.

The template also includes refinements to the March 2006 disclosure of fair value movements for financial instruments. This is associated with the introduction of the Australian equivalents of International Financial Reporting Standards and does not change the reported profit.

National Australia Bank will announce its 2006 financial results on Friday 3 November.

## Summary of Changes

The attached templates incorporate the following changes to the disclosures made at the 31 March 2006 half:

Prior period comparatives have been amended to exclude the impact of the businesses disposed during the year;

Prior period comparatives have been updated to reflect the impact of a minor business re-organisation of the Australian Treasury business moving from Group Funding into the Australia Region;

Reclassification within Gains less losses on financial instruments has been made to reclassify the fair value movements on derivatives designated under the Fair Value Option out of Trading income and into Other fair value movements .

The definition of Cash Earnings has been updated to reflect how it will be determined for the 30 September 2006 half year.

Distributions	(127)	(204)
<b>Earnings attributable to ordinary shareholders</b>	1,867	3,788

(1) *Cash earnings is a performance measure used by the management of the Group. Refer to Non-GAAP financial measures for a complete discussion of cash earnings.*

## NON-GAAP FINANCIAL MEASURES

### *Cash earnings*

Cash earnings is defined as follows:

Net profit  
Less:  
Minority interests  
Minority interests Life businesses  
Distributions  
Revaluation gains/losses on exchangeable capital units  
Treasury shares  
Net profit/loss on sale of controlled entities  
Revaluation gains/losses on economic hedge of the proceeds on  
sale of controlled entities  
IoRE discount rate variation  
Add:  
Impairment of goodwill  
Cash earnings

Cash earnings is a key performance measure and financial target used by the Group. Dividends paid by the Company are based on after-tax cash earnings (adjusted for significant items).

Cash earnings is a key performance measure used by the investment community, as well as by those Australian peers of the Group with a similar business portfolio.

Cash earnings does not refer to, or in any way purport to represent the cash flows, funding or liquidity position of the Group. It does not refer to any amount represented on a Cash Flow Statement.

Adjustments are made between net profit and cash earnings as follows:

Minority interests reflects the allocation of profit to minority interests in the Group, and is adjusted from net profit to reflect the amount of net profit that is attributable to ordinary shareholders

Minority interests Life Businesses reflects the allocation of profit to controlled unit trusts of life companies

Distributions this reflects payments to holders of National Income Securities, Trust Preferred Securities, and Trust Preferred Securities II, and is adjusted from net profit to reflect the amount of net profit that is attributable to ordinary shareholders

## Edgar Filing: NATIONAL AUSTRALIA BANK LTD - Form 6-K

Revaluation gains/losses on exchangeable capital units the Group's exposure to foreign exchange risk is eliminated through the existence of certain conversion features that convert the ExCaps to equity at pre-determined exchange rates

Treasury shares relates to the movement in treasury share assets (direct investments in National Australia Bank Limited) caused by the movement in the share price

Net profit/loss on sale of controlled entities relates to profits or losses on the sale of controlled entities.

Revaluation gains/losses on economic hedge of the proceeds on sale of controlled entities represents the fair value movement on derivatives taken out to protect against foreign exchange rate movements and relates directly to the profit/loss on sale of controlled entities.

IoRE discount rate variation relates to the movement in Investment Earnings on Shareholders Retained Profits (IoRE) attributable to the variation between applying the short term and long term discount rates when calculating the IoRE. This adjustment has been made for the 30 September 2006 half only. It had an insignificant impact on the March 2006 half.

Impairment of goodwill relates to the impairment expense recognised on the application of an annual impairment test. Financial statement users generally do not regard impairment of goodwill as being useful information in analysing investments. As it relates to an intangible asset, management believes it is prudent to isolate this amount from the underlying operating result.

**Cash earnings before significant items and Net profit before significant items**

Under Australian accounting standards AASB101 Presentation of Financial Statements additional line items shall be presented when such presentation is relevant to an understanding of the entity's performance. Such items have been identified as significant revenue or expenses and are included on the face of the Income Statement when this is necessary to explain the elements of financial performance. Factors to consider in their identification include materiality and the nature and function of the components of income and expenses.

Specific provision to gross impaired assets		31.7%		29.4%		

(1) Risk weighted Assets are calculated on internal model rather than standard model to enable a more representative comparison between periods.

(2) Impact to the March 2006 half margin arising under AIFRS was an increase of 19 basis points.

(3) Core lending includes loans and advances at amortised cost and at fair value.

(4) Gross loans and acceptances represents core lending and bill acceptances.

(5) Internal interest-earning assets include short-term funding of the Group's operations.
