Notice of Default Relating to 7/8% Convertible Subordinated Notes due 2008

On May 31, 2007, the Company received a notice of default (the Notice of Default) from U.S. Bank National Association, as indenture trustee (the Trustee), pursuant to which the Trustee asserted that the Company was in default of certain obligations under the Indenture (the Original Indenture), dated as of March 12, 2003, by and between the Company, as issuer, and the Trustee, as trustee, as amended by the First Supplemental Indenture (the First Supplemental Indenture), by and between the Company and the Trustee, dated January 9, 2007 (the Original Indenture as amended by the First Supplemental Indenture, the Indenture) with respect to the Company's 7/8% Convertible Subordinated Notes due 2008 (CUSIP Nos. 918076AA8 and 918076AB6) (collectively, the Notes). The specific purported defaults referred to in the Notice of Default are (i) the Company's failure to file with the Securities and Exchange Commission (SEC) and file with the Trustee its Quarterly Report on Form 10-Q for the fiscal quarter ending September 30, 2006 (the Q3 2006 10-Q), its Annual Report on Form 10-K for the fiscal year ended December 31, 2006 (the 2006 Form 10-K) and its Quarterly Report on Form 10-Q for the fiscal quarter ending March 31, 2007 (the Q1 2007 10-Q), as required by the Indenture and the Trust Indenture Act and (ii) the Company's failure to deliver to the Trustee the officer's certificate of compliance of the Company required by the Indenture.

As previously disclosed in the Company's Current Report on Form 8-K filed January 10, 2007, pursuant to the Supplemental Indenture, any failure by the Company to comply with covenants in the Original Indenture relating to the filing of reports required to be filed with the SEC under the Securities Exchange Act of 1934 (the SEC Reports), as amended and the furnishing of copies of SEC Reports and the officer's certificate of compliance of the Company required by the Original Indenture to the Trustee before 5:30 p.m., New York City time, on May 31, 2007 (the Covenant Reversion Date) would not constitute a default under the Indenture. The Notice of Default states that the Covenant Reversion Date provided for by the First Supplemental Indenture had passed and that the Company's failure to cure the purported defaults within 60 consecutive days after the date of the Notice of Default (such date following the 60 consecutive days, the Demand Date), would constitute an Event of Default under the Indenture.

## Edgar Filing: UTSTARCOM INC - Form 8-K

The Company previously reported in its Notifications of Late Filing on Form 12b-25 filed on November 11, 2006, March 2, 2007 and May 10, 2007, that the filing of the Q3 2006 10-Q, the 2006 Form 10-K and the Q1 2007 10-Q had been delayed for the reasons stated therein.

The Company does not believe it is currently in default under the Indenture. However, if the Company's interpretation of the Indenture is incorrect and a default has occurred under the Indenture and if such default is not cured by the Demand Date, an Event of Default will have occurred under the Indenture. The occurrence of an Event of Default under the Indenture would afford the Trustee or holders of not less than 25% in aggregate principal amount of outstanding Notes the right to declare the full principal amount of all outstanding Notes to be immediately due and payable. The Company cannot be certain that it will be able to file all required reports with the SEC by the Demand Date. Furthermore, the Company cannot be certain that consents from holders of the Notes necessary for an additional waiver of its obligations to comply with the Indenture covenants within the required period can be obtained on reasonable terms.

The Company does not currently have sufficient cash reserves outside of China to pay the principal amount of the Notes, which obligations may become immediately due if an Event of Default were to occur and the trustee or holders of not less than 25% in aggregate principal amount of outstanding Notes were to declare the full principal amount of all outstanding Notes to be immediately due and payable. Because the Company is limited by the Chinese government's imposition of currency exchange controls on transfer of funds outside of China, it may be time-consuming, difficult and/or expensive for the Company to transfer funds from China to repay the Notes. As a result, if an Event of Default on the Notes were to occur, the Company may not have sufficient cash resources to repay the Notes and to continue operations without seeking new financing arrangements. The Company cannot be certain that additional financing for these purposes would be available on acceptable terms or at all, and if such financing is not available, the Company's business could be seriously harmed.
