Overview (unaudited)

Letter to Stockholders

Performance

For the year ended December 31, 2007, the Malaysia Fund, Inc. (the Fund) had total returns, based on net asset value and market price per share (including reinvestment of distributions), of 60.19%, net of fees and 55.48%, respectively, compared to its benchmark, the Kuala Lumpur Stock Exchange Composite (KLSE) Index (the Index) expressed in U.S. dollars which returned 40.63%. On December 31, 2007, the closing price of the Fund's shares on the New York Stock Exchange was \$10.85, representing a 10.6% discount to the Fund's net asset value per share. Past performance is no guarantee of future results.

Factors Affecting Performance

The Malaysian equity market started on a strong note in 2007, as the government continued to drum up interest in the 9th Malaysian Plan, a mid-term economic stimulus measure to boost the economy via infrastructure projects. The government also unveiled a series of 20-year plans for the various regions of the country over the year, which helped to shore up sentiment. However, interest began waning in the later part of 2007 as the government failed to provide follow-up details on these measures.

The political situation took a turn for the worse as various groups took advantage of the coming elections to air their grievances. The minority Indian and Chinese communities took to the streets to demand better treatment and a review of the preferential rights of Malays. Several religious incidents further increased tensions among the populace.

On the economic front, the economy continued to grow at a stable rate of 6.0% (based on consensus estimates), compared to a real gross domestic product growth of 5.2% in 2006. Despite the 7.0% appreciation of the Malaysian Ringgit, exports continued to do well. This was especially true for palm oil, which benefited from strong global demand for edible oils. In fact, at the end of the period the largest Malaysian stocks by capitalization were palm oil stocks, overtaking the banks.

Management Strategies

The Fund benefited from an overweight position in palm oil stocks, which did well due to strong earnings growth, as palm oil prices more than doubled during the period. Another positive contributor was the Fund's underweight in government-linked companies, which continued to underperform owing to their disappointing results.

Detractors from performance included the Fund's overweight in a construction company, which underperformed as investor interest shifted from construction stocks with overseas exposure towards those with domestic businesses. However, we remain confident in the execution ability of the company's management.

The Fund seeks long-term capital appreciation and integrates top-down sector allocation and bottom-up stock selection with a growth bias. The team utilizes a rigorous fundamental research approach that considers dynamics, valuation, and sentiment and focuses on companies with strong management and solid earnings.

Sincerely,

Ronald E. Robison
President and Principal Executive Officer

Notes to Financial Statements

The Malaysia Fund, Inc. (the Fund) was incorporated on March 12, 1987 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is long-term capital appreciation through investment in equity securities of Malaysian companies.

A. Accounting Policies: The following significant accounting policies are in conformity with U.S. generally accepted accounting principles. Such policies are consistently followed by the Fund in the preparation of its financial statements. U.S. generally accepted accounting principles may require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.

1. Security Valuation: Securities listed on a foreign exchange are valued at their closing price. Unlisted securities and listed securities not traded on the valuation date for which market quotations are readily available are valued at the mean between the current bid and asked prices obtained from reputable brokers. Equity securities listed on a U.S. exchange are valued at the latest quoted sales price on the valuation date. Equity securities listed or traded on NASDAQ, for which market quotations are available, are valued at the NASDAQ Official Closing Price. Debt securities purchased with remaining maturities of 60 days or less are valued at amortized cost, if it approximates value.

All other securities and investments for which market values are not readily available, including restricted securities, and those securities for which it is inappropriate to determine prices in accordance with the aforementioned procedures, are valued at fair value as determined in good faith under procedures adopted by the Board of Directors (the Directors), although the actual calculations may be done by others. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

Most foreign markets close before the New York Stock Exchange (NYSE). Occasionally, developments that could affect the closing prices of securities and other assets may occur between the times at which valuations of such securities are determined (that is, close of the foreign market on which the securities trade) and the close of business on the NYSE. If these developments are expected to materially affect the value of the securities, the valuations may be adjusted to reflect the estimated fair value as of the close of the NYSE, as determined in good faith under procedures established by the Directors.

2. Repurchase Agreements: The Fund may enter into repurchase agreements under which the Fund lends excess cash and takes possession of securities with an agreement that the counterparty will repurchase such securities. In connection with transactions in repurchase agreements, a bank as custodian for the Fund takes possession of the underlying securities (collateral), with a market value at least equal to the amount of the repurchase transaction, including principal and accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to determine the adequacy of the collateral. In the event of

default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

The Fund, along with other affiliated investment companies, may utilize a joint trading account for the purpose of entering into one or more repurchase agreements. At December 31, 2007, the Fund did not have any outstanding repurchase agreements.

3. Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the mean of the bid and asked prices of such currencies against U.S. dollars last quoted by a major bank as follows:

- investments, other assets and liabilities at the prevailing rates of exchange on the valuation date;

- investment transactions and investment income at the prevailing rate of exchange on the dates of such transactions.

Although the net assets of the Fund are presented at the foreign exchange rates and market values at the close of the period, the Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at period

The Malaysia Fund, Inc.

December 31, 2007

Notes to Financial Statements (cont d)

end. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of securities sold during the period. Accordingly, realized and unrealized foreign currency gains (losses) due to securities transactions are included in the reported net realized and unrealized gains (losses) on investment transactions and balances.

Net realized gains (losses) on foreign currency transactions represent net foreign exchange gains (losses) from sales and maturities of foreign currency exchange contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amount of investment income and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains (losses) from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of unrealized appreciation (depreciation) on investments and foreign currency translations in the Statement of Assets and Liabilities. The change in net unrealized currency gains (losses) on foreign currency translations for the period is reflected in the Statement of Operations.

A significant portion of the Fund's net assets consist of Malaysian equity securities and foreign currency. Future economic and political developments in Malaysia could adversely affect the liquidity or value, or both, of securities in which the Fund is invested. Changes in currency exchange rates will affect the value of and investment income from such investments. Foreign securities may be subject to greater price volatility, lower liquidity and less diversity than equity securities of companies based in the United States. In addition, foreign securities may be subject to substantial governmental involvement in the economy and greater social, economic and political uncertainty.

4. Derivatives: The Fund may use derivatives to achieve its investment objectives. The Fund may engage in transactions in futures contracts on foreign currencies, stock indices, as well as in options, swaps and structured products. Consistent with the Fund's investment objectives and policies, the Fund may use derivatives for non-hedging as well as hedging purposes.

Following is a description of derivative instruments that the Fund has utilized and their associated risks:

Foreign Currency Exchange Contracts: The Fund may enter into foreign currency exchange contracts generally to attempt to protect securities and related receivables and payables against changes in future foreign exchange rates and, in certain situations, to gain exposure to a foreign currency. A foreign currency exchange contract is an agreement between two parties to buy or sell currency at a set price on a future date. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized gain or loss. The Fund records realized gains or losses when the contract is closed equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Risk may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and is generally limited to the amount of unrealized gain on the contracts, if any, at the date of default. Risks may also arise from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. At December 31, 2007, the Fund did not have any outstanding foreign currency exchange contracts.

5. New Accounting Pronouncement: In September 2006, Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), was issued and is effective for fiscal years beginning after

November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. As of December 31, 2007, the Adviser does not believe the adoption of SFAS 157 will impact the amounts reported in the financial statements, however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported in the Statement of Operations for a fiscal period.

6. **Other:** Security transactions are accounted for on the date the securities are purchased or sold. Realized gains and losses on the sale of investment securities are determined on the specific identified cost basis. Interest income is recognized on the accrual basis. Dividend income and distributions are recorded on the ex-dividend date (except certain dividends which may be recorded as soon as the Fund is informed of such dividends) net of applicable withholding taxes.

Notes to Financial Statements (cont d)

B. Investment Advisory Fees: Morgan Stanley Investment Management Inc. (the U.S. Adviser or MS Investment Management) provides investment advisory services to the Fund under the terms of an Investment Advisory Agreement (the Agreement). Under the Agreement, the U.S. Adviser is paid a fee computed weekly and payable monthly at an annual rate of 0.90% of the Fund's first \$50 million of average weekly net assets, 0.70% of the Fund's next \$50 million of average weekly net assets and 0.50% of the Fund's average weekly net assets in excess of \$100 million.

AMMB Consultant Sdn Bhd (the Malaysian Adviser) provides investment related research and assistance on behalf of the Fund to Morgan Stanley Investment Management Inc. under terms of a contract. Under the contract, the Malaysian Adviser is paid a fee computed weekly and payable monthly at an annual rate of 0.25% of the Fund's first \$50 million of average weekly net assets, 0.15% of the Fund's next \$50 million of average weekly net assets and 0.10% of the Fund's average weekly net assets in excess of \$100 million.

Effective January 31, 2008, the Adviser has terminated the agreement with the Malaysian Adviser.

C. Administration Fees: MS Investment Management also serves as Administrator to the Fund pursuant to an Administration Agreement. Effective July 1, 2007 the Administration Agreement has been amended to 0.08% of the Fund's average weekly net assets. Prior to July 1, 2007, under the Administration Agreement, the administration fee was 0.08% of the Fund's average daily net assets. MS Investment Management has agreed to limit the administration fee so that it will be no greater than the previous administration fee (prior to November 1, 2004) of 0.02435% of the Fund's average weekly net assets plus \$24,000 per annum. This waiver is voluntary and may be terminated at any time. For the year ended December 31, 2007, approximately \$31,000 of administration fees were waived pursuant to this arrangement. Under a sub-administration agreement between the Administrator and JPMorgan Investor Services Co. (JPMIS), a corporate affiliate of JPMorgan Chase Bank, N.A., JPMIS provides certain administrative services to the Fund. For such services, the Administrator pays JPMIS a portion of the fee the Administrator receives from the Fund. Administration costs (including out-of-pocket expenses) incurred in the ordinary course of providing services under the agreement, except pricing services and extraordinary expenses, will be covered under the administration fee.

D. Custodian Fees: JPMorgan Chase Bank, N.A. (the Custodian) serves as Custodian for the Fund. The Custodian holds cash, securities, and other assets of the Fund as required by the 1940 Act. Custody fees are payable monthly based on assets held in custody, investment purchases and sales activity and account maintenance fees, plus reimbursement for certain out-of-pocket expenses.

The Fund has entered into an arrangement with its Custodian whereby credits realized on uninvested cash balances were used to offset a portion of the Fund's expenses. These custodian credits are shown as Expense Offset on the Statement of Operations.

Edgar Filing: MALAYSIA FUND INC - Form N-CSR

E. Federal Income Taxes: It is the Fund's intention to continue to qualify as a regulated investment company and distribute all of its taxable income. Accordingly, no provision for Federal income taxes is required in the financial statements. The Fund files tax returns with the U.S. Internal Revenue Service and various states. Generally, the tax authorities can examine all tax returns filed for the last three years.

The Fund may be subject to taxes imposed by countries in which it invests. The Fund is currently not subject to Malaysian withholding taxes on dividends and/or capital gains.

The Fund adopted the provisions of the Financial Accounting Standards Board's (FASB) Interpretation number 48 *Accounting for Uncertainty in Income Taxes (the Interpretation)*, on June 30, 2007. The Interpretation is to be applied to all open tax years as of the date of effectiveness. As of December 31, 2007, this did not result in an impact to the Fund's financial statements.

The tax character of distributions paid may differ from the character of distributions shown on the Statements of Changes in Net Assets due to short-term capital gains being treated as ordinary income for tax purposes. The tax character of distributions paid during 2007 and 2006 were as follows:

	2007 Distributions Paid From: (000)			2006 Distributions Paid From: (000)	
	Ordinary Income	Long-term Capital Gain		Ordinary Income	Long-term Capital Gain
	\$1,748	\$		\$796	\$

The amount and character of income and capital gain distributions to be paid by the Fund are determined in accordance with Federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These book/tax differences are considered either temporary or permanent in nature.

The Malaysia Fund, Inc.

December 31, 2007

Notes to Financial Statements (cont d)

Temporary differences are generally due to differing book and tax treatments for the timing of the recognition of gains (losses) on certain investment transactions and the timing of the deductibility of certain expenses.

Permanent differences, primarily due to differing treatments of gains (losses) related to foreign currency transactions, expired capital loss carryforward and excess distribution, resulted in the following reclassifications among the components of net assets at December 31, 2007:

	Increase (Decrease)	
Accumulated Undistributed (Distributions in Excess of) Net Investment Income (Loss) (000) \$ 179		Accumulated Net Realized Gain (Loss) (000) \$ (43)
		Paid-in Capital (000) \$(136)

At December 31, 2007, the Fund had no distributable earnings on a tax basis.

At December 31, 2007, the U.S. Federal income tax cost basis of investments was \$53,669,000 and, accordingly, net unrealized appreciation for U.S. Federal income tax purposes was \$64,528,000, of which \$65,671,000 related to appreciated securities and \$1,143,000 related to depreciated securities.

At December 31, 2007, the Fund had a capital loss carryforward for U.S. Federal income tax purposes of approximately \$3,119,000 available to offset future capital gains of which \$2,005,000 will expire on December 31, 2009, and \$1,114,000 will expire on December 31, 2013. At December 31, 2007, the Fund had expired capital loss carryforward for U.S. Federal income tax purposes of approximately \$94,000. During the year ended December 31, 2007, the Fund utilized capital loss carryforwards for U.S. Federal income tax purposes of approximately \$2,625,000.

To the extent that capital loss carryforwards are used to offset any future capital gains realized during the carryover period as provided by U.S. Federal income tax regulations, no capital gains tax liability will be incurred by the Fund for gains realized and not distributed. To the extent that capital gains are offset, such gains will not be distributed to the stockholders.

F. Contractual Obligations: The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

G. Security Transactions and Transactions with Affiliates: The Fund invests in the Institutional Class of the Morgan Stanley Institutional Liquidity Money Market Portfolio, an open-end management investment company managed by the Adviser. Investment Advisory fees paid by the Fund are reduced by an amount equal to its pro-rata share of advisory and administration fees paid by the Morgan Stanley Institutional Liquidity Money Market Portfolio. For the year ended December 31, 2007, advisory fees paid were reduced by approximately \$1,000 relating to the Fund's investment in the Morgan Stanley Institutional Liquidity Money Market Portfolio.

A summary of the Fund's transactions in shares of the affiliated issuer during the year ended December 31, 2007 is as follows:

Market Value December 31, 2006 (000) \$	Purchases at Cost (000) \$3,109	Sales Proceeds (000) \$840	Dividend Income (000) \$44	Market Value December 31, 2007 (000) \$2,269
--	--	---	---	---

During the year ended December 31, 2007, the Fund made purchases and sales totaling approximately \$6,843,000 and \$7,267,000, respectively, of investment securities other than long-term U.S. Government securities and short-term investments. There were no purchases or sales of long-term U.S. Government securities.

H. Other: On July 15, 2002, the Fund commenced a share repurchase program for purposes of enhancing stockholder value and reducing the discount at which the Fund's shares traded from their net asset value. During the year ended December 31, 2007, the Fund repurchased 23,828 of its shares at an average discount of 11.42% from net asset value per share. Since the inception of the program, the Fund has repurchased 80,801 of its shares at an average discount of 13.80% from net asset value per share. The Fund expects to continue to repurchase its outstanding shares at such time and in such amounts as it believes will further the accomplishment of the foregoing objectives, subject to review by the Directors.

On July 1, 2007, the Stockholder Servicing Agent changed from American Stock Transfer & Trust Company to Computershare Trust Company, N.A. Requests for information or any correspondence concerning the Dividend Reinvestment and Cash Purchase Plan after July 1, 2007 should be directed to Computershare Trust Company, N.A., P.O. Box 43010, Providence, Rhode Island 02940-3010, 1 (800) 231-2608.

For More Information About Portfolio Holdings (unaudited)

The Fund provides a complete schedule of portfolio holdings in its semi-annual and annual reports within 60 days of the end of the Fund's second and fourth fiscal quarters. The semi-annual reports and the annual reports are filed electronically with the Securities and Exchange Commission (SEC) on Form N-CSRS and Form N-CSR, respectively. Morgan Stanley also delivers the semi-annual and annual reports to Fund stockholders and makes these reports available on its public website, www.morganstanley.com/msim. Each Morgan Stanley fund also files a complete schedule of portfolio holdings with the SEC for the Fund's first and third fiscal quarters on Form N-Q. Morgan Stanley does not deliver the reports for the first and third fiscal quarters to stockholders, nor are the reports posted to the Morgan Stanley public website. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's website, <http://www.sec.gov>. You may also review and copy them at the SEC's public reference room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at 1(800) SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the public reference section of the SEC, Washington, DC 20549-0102.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, the Fund makes portfolio holdings information available by periodically providing the information on its public website, www.morganstanley.com/msim.

The Fund provides a complete schedule of portfolio holdings on the public website on a calendar-quarter basis approximately 31 calendar days after the close of the calendar quarter. The Fund also provides Top 10 holdings information on the public website approximately 15 business days following the end of each month. You may obtain copies of the Fund's monthly or calendar-quarter website postings, by calling 1(800) 231-2608.

**Report of Independent Registered Public
Accounting Firm
To the Stockholders and Board of Directors of
The Malaysia Fund, Inc.**

We have audited the accompanying statement of assets and liabilities of The Malaysia Fund, Inc. (the Fund), including the portfolio of investments, as of December 31, 2007, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2007, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The Malaysia Fund, Inc. at December 31, 2007, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S generally accepted accounting principles.

The Malaysia Fund, Inc.

Dividend Reinvestment and Cash Purchase Plan

Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the Plan), each stockholder will be deemed to have elected, unless Computershare Trust Company, N.A. (the Plan Agent) is otherwise instructed by the stockholder in writing, to have all distributions automatically reinvested in Fund shares. Participants in the Plan have the option of making additional voluntary cash payments to the Plan Agent, annually, in any amount from \$100 to \$3,000, for investment in Fund shares.

Dividend and capital gain distributions will be reinvested on the reinvestment date in full and fractional shares. If the market price per share equals or exceeds net asset value per share on the reinvestment date, the Fund will issue shares to participants at net asset value or, if net asset value is less than 95% of the market price on the reinvestment date, shares will be issued at 95% of the market price. If net asset value exceeds the market price on the reinvestment date, participants will receive shares valued at market price. The Fund may issue shares of its Common Stock in connection with dividend reinvestment requirements at the discretion of the Board of Directors. Should the Fund declare a dividend or capital gain distribution payable only in cash, the Plan Agent will purchase Fund shares for participants in the open market as agent for the participants.

The Plan Agent's fees for the reinvestment of dividends and distributions will be paid by the Fund. However, each participant's account will be charged a pro rata share of brokerage commissions incurred on any open market purchases effected on such participant's behalf. A participant will also pay brokerage commissions incurred on purchases made by voluntary cash payments. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax which may be payable on such dividends or distributions.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the stockholder's name and held for the account of beneficial owners who are participating in the Plan.

Stockholders who do not wish to have distributions automatically reinvested should notify the Plan Agent in writing. There is no penalty for non-participation or withdrawal from the Plan, and stockholders who have previously withdrawn from the Plan may rejoin at any time. Requests for additional information or any correspondence concerning the Plan should be directed to the Plan Agent at:

U.S. Privacy Policy (unaudited)**

We are required by federal law to provide you with a copy of our Privacy Policy annually.

The following Policy applies to current and former individual investors in Morgan Stanley Institutional closed-end funds. This Policy is not applicable to partnerships, corporations, trusts or other non-individual clients or account holders. Please note that we may amend this Policy at any time, and will inform you of any changes to this Policy as required by law.

We Respect Your Privacy

We appreciate that you have provided us with your personal financial information. We strive to maintain the privacy of such information while we help you achieve your financial objectives. This Policy describes what non-public personal information we collect about you, why we collect it, and when we may share it with others. We hope this Policy will help you understand how we collect and share non-public personal information that we gather about you. Throughout this Policy, we refer to the non-public information that personally identifies you or your accounts as personal information.

1. What Personal Information Do We Collect About You?

To serve you better and manage our business, it is important that we collect and maintain accurate information about you. We may obtain this information from applications and other forms you submit to us, from your dealings with us, from consumer reporting agencies, from our Web sites and from third parties and other sources.

For example:

- We may collect information such as your name, address, e-mail address, telephone/fax numbers, assets, income and investment objectives through applications and other forms you submit to us.
- We may obtain information about account balances, your use of account(s) and the types of products and services you prefer to receive from us through your dealings and transactions with us and other sources.
- We may obtain information about your creditworthiness and credit history from consumer reporting agencies.

- We may collect background information from and through third-party vendors to verify representations you have made and to comply with various regulatory requirements.
- If you interact with us through our public and private Web sites, we may collect information that you provide directly through online communications (such as an e-mail address). We may also collect information about your Internet service provider, your domain name, your computer's operating system and Web browser, your use of our Web sites and your product and service preferences, through the use of cookies. Item 3. Audit Committee Financial Expert.

The Fund's Board of Trustees has determined that Joseph J. Kearns, an independent Trustee, is an audit committee financial expert serving on its audit committee. Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an expert for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as

a member of the audit committee and Board of Trustees in the absence of such designation or identification.

Item 4. Principal Accountant Fees and Services.

(e)(1) The audit committee's pre-approval policies and procedures are as follows:

APPENDIX A

**AUDIT COMMITTEE
AUDIT AND NON-AUDIT SERVICES
PRE-APPROVAL POLICY AND PROCEDURES
OF THE
MORGAN STANLEY RETAIL AND INSTITUTIONAL FUNDS**

AS ADOPTED AND AMENDED JULY 23, 2004,(1)

1. Statement of Principles

The Audit Committee of the Board is required to review and, in its sole discretion, pre-approve all Covered Services to be provided by the Independent Auditors to the Fund and Covered Entities in order to assure that services performed by the Independent Auditors do not impair the auditor's independence from the Fund.

The SEC has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Audit Committee (general pre-approval); or require the specific pre-approval of the Audit Committee or its delegate (specific pre-approval). The Audit Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to pre-approve services performed by the Independent Auditors. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee (or by any member of the Audit Committee to which pre-approval authority has been delegated) if it is to be provided by the Independent Auditors. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Audit Committee.

The appendices to this Policy describe the Audit, Audit-related, Tax and All Other services that have the general pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit

(1) This Audit Committee Audit and Non-Audit Services Pre-Approval Policy and Procedures (the Policy), adopted as of the date above, supersedes and replaces all prior versions that may have been adopted from time to time.

Committee considers and provides a different period and states otherwise. The Audit Committee will annually review and pre-approve the services that may be provided by the Independent Auditors without obtaining specific pre-approval from the Audit Committee. The Audit Committee will add to or subtract from the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the policy and procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the Independent Auditors to management.

The Fund's Independent Auditors have reviewed this Policy and believes that implementation of the Policy will not adversely affect the Independent Auditors' independence.

2. Delegation

As provided in the Act and the SEC's rules, the Audit Committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

3. Audit Services

The annual Audit services engagement terms and fees are subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the Independent Auditors to be able to form an opinion on the Fund's financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. The Audit Committee will approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund structure or other items.

In addition to the annual Audit services engagement approved by the Audit Committee, the Audit Committee may grant general pre-approval to other Audit services, which are those services that only the Independent Auditors reasonably can provide. Other Audit services may include statutory audits and services associated with SEC registration statements (on Forms N-1A, N-2, N-3, N-4, etc.), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

The Audit Committee has pre-approved the Audit services in Appendix B.1. All other Audit services not listed in Appendix B.1 must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated).

4. Audit-related Services

Edgar Filing: MALAYSIA FUND INC - Form N-CSR

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements and, to the extent they are Covered Services, the Covered Entities or that are traditionally performed by the

Independent Auditors. Because the Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Audit Committee may grant general pre-approval to Audit-related services. Audit-related services include, among others, accounting consultations related to accounting, financial reporting or disclosure matters not classified as "Audit services"; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Forms N-SAR and/or N-CSR.

The Audit Committee has pre-approved the Audit-related services in Appendix B.2. All other Audit-related services not listed in Appendix B.2 must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated).

5. Tax Services

The Audit Committee believes that the Independent Auditors can provide Tax services to the Fund and, to the extent they are Covered Services, the Covered Entities, such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the Independent Auditors may provide such services.

Pursuant to the preceding paragraph, the Audit Committee has pre-approved the Tax Services in Appendix B.3. All Tax services in Appendix B.3 must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated).

6. All Other Services

The Audit Committee believes, based on the SEC's rules prohibiting the Independent Auditors from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Audit Committee has pre-approved the All Other services in Appendix B.4. Permissible All Other services not listed in Appendix B.4 must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated).

7. Pre-Approval Fee Levels or Budgeted Amounts

Edgar Filing: MALAYSIA FUND INC - Form N-CSR

Pre-approval fee levels or budgeted amounts for all services to be provided by the Independent Auditors will be established annually by the Audit Committee. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services.

8. Procedures

All requests or applications for services to be provided by the Independent Auditors that do not require specific approval by the Audit Committee will be submitted to the Fund's Chief Financial Officer and must include a detailed description of the services to be rendered. The Fund's Chief Financial Officer will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the Independent Auditors. Requests or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the Independent Auditors and the Fund's Chief Financial Officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the Fund's Chief Financial Officer to monitor the performance of all services provided by the Independent Auditors and to determine whether such services are in compliance with this Policy. The Fund's Chief Financial Officer will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the Fund's Chief Financial Officer and management will immediately report to the chairman of the Audit Committee any breach of this Policy that comes to the attention of the Fund's Chief Financial Officer or any member of management.

9. Additional Requirements

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the Independent Auditors and to assure the auditor's independence from the Fund, such as reviewing a formal written statement from the Independent Auditors delineating all relationships between the Independent Auditors and the Fund, consistent with Independence Standards Board No. 1, and discussing with the Independent Auditors its methods and procedures for ensuring independence.

10. Covered Entities

Covered Entities include the Fund's investment adviser(s) and any entity controlling, controlled by or under common control with the Fund's investment adviser(s) that provides ongoing services to the Fund(s). Beginning with non-audit service contracts entered into on or after May 6, 2003, the Fund's audit committee must pre-approve non-audit services provided not only to the Fund but also to the Covered Entities if the engagements relate directly to the operations and financial reporting of the Fund. This list of Covered Entities would include:

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Fund s/Trust s and its Investment Advisor s Proxy Voting Policies and Procedures are as follows:

POLICY APPROVED MARCH 15, 2007

MORGAN STANLEY INVESTMENT MANAGEMENT

PROXY VOTING POLICY AND PROCEDURES

I. POLICY STATEMENT

Introduction - Morgan Stanley Investment Management s (MSIM) policy and procedures for voting proxies (Policy) with respect to securities held in the accounts of clients applies to those MSIM entities that provide discretionary investment management services and for which a MSIM entity has authority to vote proxies. This Policy is reviewed and updated as necessary to address new and evolving proxy voting issues and standards.

The MSIM entities covered by this Policy currently include the following: Morgan Stanley Investment Advisors Inc., Morgan Stanley AIP GP LP, Morgan Stanley Investment Management Inc., Morgan Stanley Investment Management Limited, Morgan Stanley Investment Management Company, Morgan Stanley Asset & Investment Trust Management Co., Limited, Morgan Stanley Investment Management Private Limited, Van Kampen Asset Management, and Van Kampen Advisors Inc. (each an MSIM Affiliate and collectively referred to as the MSIM Affiliates or as we below).

Each MSIM Affiliate will use its best efforts to vote proxies as part of its authority to manage, acquire and dispose of account assets. With respect to the MSIM registered management investment companies (Van Kampen, Institutional and Advisor Funds collectively referred to herein as the MSIM Funds), each MSIM Affiliate will vote proxies under this Policy pursuant to authority granted under its applicable investment advisory agreement or, in the absence of such authority, as authorized by the Board of Directors/Trustees of the MSIM Funds. An MSIM Affiliate will not vote proxies if the named fiduciary for an ERISA account has reserved the authority for itself, or in the case of an account not governed by ERISA, the investment management or investment advisory agreement does not authorize the MSIM Affiliate to vote proxies. MSIM Affiliates will vote proxies in a prudent and diligent manner and in the best interests of clients, including beneficiaries of and participants in a client s benefit plan(s) for which the MSIM Affiliates manage assets, consistent with the objective of maximizing long-term investment

returns (Client Proxy Standard). In certain situations, a client or its

fiduciary may provide an MSIM Affiliate with a proxy voting policy. In these situations, the MSIM Affiliate will comply with the client's policy.

Proxy Research Services - Institutional Shareholder Services (ISS) and Glass Lewis (together with other proxy research providers as we may retain from time to time, the Research Providers) are independent advisers that specialize in providing a variety of fiduciary-level proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors. The services provided include in-depth research, global issuer analysis, and voting recommendations. While we may review and utilize the recommendations of the Research Providers in making proxy voting decisions, we are in no way obligated to follow such recommendations. In addition to research, ISS provides vote execution, reporting, and recordkeeping.

Voting Proxies for Certain Non-U.S. Companies - Voting proxies of companies located in some jurisdictions, particularly emerging markets, may involve several problems that can restrict or prevent the ability to vote such proxies or entail significant costs. These problems include, but are not limited to: (i) proxy statements and ballots being written in a language other than English; (ii) untimely and/or inadequate notice of shareholder meetings; (iii) restrictions on the ability of holders outside the issuer's jurisdiction of organization to exercise votes; (iv) requirements to vote proxies in person; (v) the imposition of restrictions on the sale of the securities for a period of time in proximity to the shareholder meeting; and (vi) requirements to provide local agents with power of attorney to facilitate our voting instructions. As a result, we vote clients' non-U.S. proxies on a best efforts basis only, after weighing the costs and benefits of voting such proxies, consistent with the Client Proxy Standard. ISS has been retained to provide assistance in connection with voting non-U.S. proxies.

II. GENERAL PROXY VOTING GUIDELINES

To promote consistency in voting proxies on behalf of its clients, we follow this Policy (subject to any exception set forth herein), including the guidelines set forth below. These guidelines address a broad range of issues, and provide general voting parameters on proposals that arise most frequently. However, details of specific proposals vary, and those details affect particular voting decisions, as do factors specific to a given company. Pursuant to the procedures set forth herein, we may vote in a manner that is not in accordance with the following general guidelines, provided the vote is approved by the Proxy Review Committee and is consistent with the Client Proxy Standard. Morgan Stanley AIP GP LP will follow the procedures as described in Appendix A.

We endeavor to integrate governance and proxy voting policy with investment goals and to follow the Client Proxy Standard for each client. At times, this may result in split votes, for example when different clients have varying economic interests in the outcome of a particular voting matter (such as a case in which varied ownership interests in two companies involved in a merger result in different stakes in the outcome). We also may split votes at times based on differing views of portfolio managers, but such a split vote must be approved by the Proxy Review Committee.

A. Routine Matters. We generally support routine management proposals. The following are examples of routine management proposals:

- Approval of financial statements and auditor reports.
- General updating/corrective amendments to the charter.
- Most proposals related to the conduct of the annual meeting, with the following exceptions. We may oppose proposals that relate to the transaction of such other business which may come before the meeting, and open-ended requests for adjournment. However, where management specifically states the reason for requesting an adjournment and the requested adjournment is necessary to permit a proposal that would otherwise be supported under this Policy to be carried out (i.e. an uncontested corporate transaction), the adjournment request will be supported. Finally, we generally support shareholder proposals advocating confidential voting procedures and independent tabulation of voting results.

B. Board of Directors

1. Election of directors: In the absence of a proxy contest, we generally support the board's nominees for director except as follows:

a. We withhold or vote against interested directors if the company's board does not meet market standards for director independence, or if otherwise we believe board independence is insufficient. We refer to prevalent market standards, generally as promulgated by a stock exchange or other authority within a given market (e.g., New York Stock Exchange or Nasdaq rules for most U.S. companies, and The Combined Code on Corporate Governance in the United Kingdom). Thus, for a NYSE company with dispersed ownership, we would expect that at a minimum a majority of directors should be independent as defined by NYSE. Non-independent directors under NYSE standards include an employee or an individual with an immediate family member who is an executive (or in either case was in such position within the previous three years). A director's consulting arrangements with the company, or material business relationships between the director's employer and the company, also impair independence. Market standards notwithstanding, we generally do not view long board tenure alone as a basis to classify a director as non-independent. Where we view market standards as inadequate, we may withhold votes based on stronger independence standards.

b. Depending on market standards, we consider withholding support from or voting against a nominee who is interested and who is standing for election as a member of the company's compensation, nominating or audit committees.

c. We consider withholding support or voting against a nominee if we believe a direct conflict exists between the interests of the nominee and the public shareholders. This includes consideration for withholding support or voting against individual board members or an entire slate if we believe the board is entrenched and dealing inadequately with performance problems, and/or with insufficient independence between the board and management.

d. We consider withholding support from or voting against a nominee standing for election if the board has not taken action to implement generally accepted governance practices for which there is a bright line test. In the context of the U.S. market, these would include elimination of dead hand or slow hand poison pills, requiring audit, compensation or nominating committees to be composed of independent directors and requiring a majority independent board.

e. We generally withhold support from or vote against a nominee who has failed to attend at least 75% of board meetings within a given year without a reasonable excuse.

f. We consider withholding support from or voting against a nominee who serves on the board of directors of more than six companies (excluding investment companies). We also consider voting against a director who otherwise appears to have too many commitments to serve adequately on the board of the company.

2. Board independence: We generally support proposals requiring that a certain percentage (up to 66²/₃%) of the company's board members be independent directors, and promoting all-independent audit, compensation and nominating/governance committees.

3. Board diversity: We consider on a case-by-case basis proposals urging diversity of board membership with respect to social, religious or ethnic group.

4. Majority voting: We generally support proposals requesting or requiring majority voting policies in election of directors, so long as there is a carve-out for plurality voting in the case of contested elections.

5. Proposals to elect all directors annually: We generally support proposals to elect all directors annually at public companies (to declassify the Board of Directors) where such action is supported by the board, and otherwise consider the issue on a case-by-case basis.

6. Cumulative voting: We generally support proposals to eliminate cumulative voting (which provides that shareholders may concentrate their votes for one or a handful of

candidates, a system that can enable a minority bloc to place representation on a board). Proposals to establish cumulative voting in the election of directors generally will not be supported.

7. Separation of Chairman and CEO positions: We vote on shareholder proposals to separate the Chairman and CEO positions and/or to appoint a non-executive Chairman based in part on prevailing practice in particular markets, since the context for such a practice varies. In many non-U.S. markets, we view separation of the roles as a market standard practice, and support division of the roles in that context.

8. Director retirement age: Proposals recommending set director retirement ages are voted on a case-by-case basis.

9. Proposals to limit directors liability and/or broaden indemnification of directors. Generally, we will support such proposals provided that the officers and directors are eligible for indemnification and liability protection if they have acted in good faith on company business and were found innocent of any civil or criminal charges for duties performed on behalf of the company.

C. Corporate transactions and proxy fights. We examine proposals relating to mergers, acquisitions and other special corporate transactions (i.e., takeovers, spin-offs, sales of assets, reorganizations, restructurings and recapitalizations) on a case-by-case basis. However, proposals for mergers or other significant transactions that are friendly and approved by the Research Providers generally will be supported and in those instances will not need to be reviewed by the Proxy Review Committee, where there is no portfolio manager objection and where there is no material conflict of interest. We also analyze proxy contests on a case-by-case basis.

D. Changes in legal and capital structure. We generally vote in favor of management proposals for technical and administrative changes to a company's charter, articles of association or bylaws. We review non-routine proposals, including reincorporation to a different jurisdiction, on a case-by-case basis.

1. We generally support the following:

- Proposals that eliminate other classes of stock and/or eliminate unequal voting rights.

- Proposals to increase the authorization of existing classes of common stock (or securities convertible into common stock) if: (i) a clear and legitimate business purpose is stated; (ii) the number of shares requested is

reasonable in relation to the purpose for which authorization is requested; and (iii) the authorization does not exceed 100% of shares currently authorized and at least 30% of the new authorization will be outstanding.

- Proposals to create a new class of preferred stock or for issuances of preferred stock up to 50% of issued capital.

- Proposals to authorize share repurchase plans.

- Proposals to reduce the number of authorized shares of common or preferred stock, or to eliminate classes of preferred stock.

- Proposals to effect stock splits.

- Proposals to effect reverse stock splits if management proportionately reduces the authorized share amount set forth in the corporate charter. Reverse stock splits that do not adjust proportionately to the authorized share amount generally will be approved if the resulting increase in authorized shares coincides with the proxy guidelines set forth above for common stock increases.

- Proposals for higher dividend payouts.

2. We generally oppose the following (notwithstanding management support):

- Proposals that add classes of stock that would substantially dilute the voting interests of existing shareholders.

- Proposals to increase the authorized number of shares of existing classes of stock that carry preemptive rights or supervoting rights.

- Proposals to create blank check preferred stock.

- Proposals relating to changes in capitalization by 100% or more.

E. Takeover Defenses and Shareholder Rights

1. Shareholder rights plans: We support proposals to require shareholder approval or ratification of shareholder rights plans (poison pills).

 2. Supermajority voting requirements: We generally oppose requirements for supermajority votes to amend the charter or bylaws, unless the provisions protect minority shareholders where there is a large shareholder. In line with this view, in the absence of a large shareholder we support reasonable shareholder proposals to limit such supermajority voting requirements.

 3. Shareholder rights to call meetings: We consider proposals to enhance shareholder rights to call meetings on a case-by-case basis.
-

4. **Anti-greenmail provisions:** Proposals relating to the adoption of anti-greenmail provisions will be supported, provided that the proposal: (i) defines greenmail; (ii) prohibits buyback offers to large block holders (holders of at least 1% of the outstanding shares and in certain cases, a greater amount, as determined by the Proxy Review Committee) not made to all shareholders or not approved by disinterested shareholders; and (iii) contains no anti-takeover measures or other provisions restricting the rights of shareholders.

F. Auditors. We generally support management proposals for selection or ratification of independent auditors. However, we may consider opposing such proposals with reference to incumbent audit firms if the company has suffered from serious accounting irregularities, or if fees paid to the auditor for non-audit-related services are excessive. Generally, to determine if non-audit fees are excessive, a 50% test will be applied (i.e., non-audit-related fees should be less than 50% of the total fees paid to the auditor). Proposals requiring auditors to attend the annual meeting of shareholders will be supported. We generally vote against proposals to indemnify auditors.

G. Executive and Director Remuneration.

1. We generally support the following proposals:

- Proposals relating to director fees, provided the amounts are not excessive relative to other companies in the country or industry.
- Proposals for employee stock purchase plans that permit discounts up to 15%, but only for grants that are part of a broad-based employee plan, including all non-executive employees.
- Proposals for employee equity compensation plans and other employee ownership plans, provided that our research does not indicate that approval of the plan would be against shareholder interest. Such approval may be against shareholder interest if it authorizes excessive dilution and shareholder cost, particularly in the context of high usage (run rate) of equity compensation in the recent past; or if there are objectionable plan design and provisions.
- Proposals for the establishment of employee retirement and severance plans, provided that our research does not indicate that approval of the plan would be against shareholder interest.

2. Blanket proposals requiring shareholder approval of all severance agreements will not be supported, but proposals that require shareholder approval for agreements in excess of three times the annual compensation (salary and bonus) generally will be supported.

3. Proposals advocating stronger and/or particular pay-for-performance models will be evaluated on a case-by-case basis, with consideration of the merits of the individual proposal within the context of the particular company and its current and past practices.
4. Proposals to U.S. companies that request disclosure of executive compensation in addition to the disclosure required by the Securities and Exchange Commission (SEC) regulations generally will not be supported.
5. We generally support proposals advocating reasonable senior executive and director stock ownership guidelines and holding requirements for shares gained in option exercises.
6. Management proposals effectively to re-price stock options are considered on a case-by-case basis. Considerations include the company's reasons and justifications for a re-pricing, the company's competitive position, whether senior executives and outside directors are excluded, potential cost to shareholders, whether the re-pricing or share exchange is on a value-for-value basis, and whether vesting requirements are extended.

H. Social, Political and Environmental Issues. We consider proposals relating to social, political and environmental issues on a case-by-case basis to determine whether they will have a financial impact on shareholder value. However, we generally vote against proposals requesting reports that are duplicative, related to matters not material to the business, or that would impose unnecessary or excessive costs. We may abstain from voting on proposals that do not have a readily determinable financial impact on shareholder value. We generally oppose proposals requiring adherence to workplace standards that are not required or customary in market(s) to which the proposals relate.

I. Fund of Funds. Certain Funds advised by an MSIM Affiliate invest only in other MSIM Funds. If an underlying fund has a shareholder meeting, in order to avoid any potential conflict of interest, such proposals will be voted in the same proportion as the votes of the other shareholders of the underlying fund, unless otherwise determined by the Proxy Review Committee.

III. ADMINISTRATION OF POLICY

The MSIM Proxy Review Committee (the Committee) has overall responsibility for creating and implementing the Policy, working with an MSIM staff group (the Corporate Governance Team). The Committee, which is appointed by MSIM's Chief Investment Officer of Global Equities (CIO), consists of senior investment professionals who represent the different investment disciplines and geographic locations of the firm. Because proxy voting is an investment responsibility and impacts shareholder value, and because of their knowledge of companies and markets, portfolio managers and

other members of investment staff play a key role in proxy voting, although the Committee has final authority over proxy votes.

The Committee Chairperson is the head of the Corporate Governance Team, and is responsible for identifying issues that require Committee deliberation or ratification. The Corporate Governance Team, working with advice of investment teams and the Committee, is responsible for voting on routine items and on matters that can be addressed in line with these Policy guidelines. The Corporate Governance Team has responsibility for voting case-by-case where guidelines and precedent provide adequate guidance, and to refer other case-by-case decisions to the Proxy Review Committee.

The Committee will periodically review and have the authority to amend, as necessary, the Policy and establish and direct voting positions consistent with the Client Proxy Standard.

A. Committee Procedures

The Committee will meet at least monthly to (among other matters) address any outstanding issues relating to the Policy or its implementation. The Corporate Governance Team will timely communicate to ISS MSIM's Policy (and any amendments and/or any additional guidelines or procedures the Committee may adopt).

The Committee will meet on an ad hoc basis to (among other matters): (1) authorize split voting (i.e., allowing certain shares of the same issuer that are the subject of the same proxy solicitation and held by one or more MSIM portfolios to be voted differently than other shares) and/or override voting (i.e., voting all MSIM portfolio shares in a manner contrary to the Policy); (2) review and approve upcoming votes, as appropriate, for matters for which specific direction has been provided in this Policy; and (3) determine how to vote matters for which specific direction has not been provided in this Policy.

Members of the Committee may take into account Research Providers' recommendations and research as well as any other relevant information they may request or receive, including portfolio manager and/or analyst research, as applicable. Generally, proxies related to securities held in accounts that are managed pursuant to quantitative, index or index-like strategies (Index Strategies) will be voted in the same manner as those held in actively managed accounts, unless economic interests of the accounts differ. Because accounts managed using Index Strategies are passively managed accounts, research from portfolio managers and/or analysts related to securities held in these accounts may not be available. If the affected securities are held only in accounts that are managed pursuant to Index Strategies, and the proxy relates to a matter that is not described in this Policy, the Committee will consider all available information from the Research Providers, and to the extent that the holdings are significant, from the portfolio managers and/or analysts.

B. Material Conflicts of Interest

In addition to the procedures discussed above, if the Committee determines that an issue raises a material conflict of interest, the Committee will request a special committee to review, and recommend a course of action with respect to, the conflict(s) in question (Special Committee).

The Special Committee shall be comprised of the Chairperson of the Proxy Review Committee, the Chief Compliance Officer or his/her designee, a senior portfolio manager (if practicable, one who is a member of the Proxy Review Committee) designated by the Proxy Review Committee, and MSIM's relevant Chief Investment Officer or his/her designee, and any other persons deemed necessary by the Chairperson. The Special Committee may request the assistance of MSIM's General Counsel or his/her designee who will have sole discretion to cast a vote. In addition to the research provided by Research Providers, the Special Committee may request analysis from MSIM Affiliate investment professionals and outside sources to the extent it deems appropriate.

C. Identification of Material Conflicts of Interest

A potential material conflict of interest could exist in the following situations, among others:

1. The issuer soliciting the vote is a client of MSIM or an affiliate of MSIM and the vote is on a material matter affecting the issuer.
2. The proxy relates to Morgan Stanley common stock or any other security issued by Morgan Stanley or its affiliates except if echo voting is used, as with MSIM Funds, as described herein.
3. Morgan Stanley has a material pecuniary interest in the matter submitted for a vote (e.g., acting as a financial advisor to a party to a merger or acquisition for which Morgan Stanley will be paid a success fee if completed).

If the Chairperson of the Committee determines that an issue raises a potential material conflict of interest, depending on the facts and circumstances, the Chairperson will address the issue as follows:

1. If the matter relates to a topic that is discussed in this Policy, the proposal will be voted as per the Policy.
2. If the matter is not discussed in this Policy or the Policy indicates that the issue is to be decided case-by-case, the proposal will be voted in a manner consistent with the Research Providers, provided that all the Research

Providers have the same recommendation, no portfolio manager objects to that vote, and the vote is consistent with MSIM's Client Proxy Standard.

3. If the Research Providers' recommendations differ, the Chairperson will refer the matter to the Committee to vote on the proposal. If the Committee determines that an issue raises a material conflict of interest, the Committee will request a Special Committee to review and recommend a course of action, as described above. Notwithstanding the above, the Chairperson of the Committee may request a Special Committee to review a matter at any time as he/she deems necessary to resolve a conflict.

D. Proxy Voting Reporting

The Committee and the Special Committee, or their designee(s), will document in writing all of their decisions and actions, which documentation will be maintained by the Committee and the Special Committee, or their designee(s), for a period of at least 6 years. To the extent these decisions relate to a security held by a MSIM Fund, the Committee and Special Committee, or their designee(s), will report their decisions to each applicable Board of Trustees/Directors of those Funds at each Board's next regularly scheduled Board meeting. The report will contain information concerning decisions made by the Committee and Special Committee during the most recently ended calendar quarter immediately preceding the Board meeting.

The Corporate Governance Team will timely communicate to applicable portfolio managers and to ISS, decisions of the Committee and Special Committee so that, among other things, ISS will vote proxies consistent with their decisions.

MSIM will promptly provide a copy of this Policy to any client requesting it. MSIM will also, upon client request, promptly provide a report indicating how each proxy was voted with respect to securities held in that client's account.

MSIM's Legal Department is responsible for filing an annual Form N-PX on behalf of each MSIM Fund for which such filing is required, indicating how all proxies were voted with respect to such Fund's holdings.

APPENDIX A

The following procedures apply to accounts managed by Morgan Stanley AIP GP LP ("AIP").

Generally, AIP will follow the guidelines set forth in Section II of MSIM's Proxy Voting Policy and Procedures. To the extent that such guidelines do not provide specific direction, or AIP determines that consistent with the Client Proxy Standard, the guidelines should not be followed, the Proxy Review Committee has delegated the voting authority to vote securities held by accounts managed by AIP to the Liquid Markets investment team and the Private Markets investment team of AIP. A summary of decisions made by the investment teams will be made available to the Proxy Review Committee for its information at the next scheduled meeting of the Proxy Review Committee.

In certain cases, AIP may determine to abstain from determining (or recommending) how a proxy should be voted (and therefore abstain from voting such proxy or recommending how such proxy should be voted), such as where the expected cost of giving due consideration to the proxy does not justify the potential benefits to the affected account(s) that might result from adopting or rejecting (as the case may be) the measure in question.

Waiver of Voting Rights

For regulatory reasons, AIP may either 1) invest in a class of securities of an underlying fund (the Fund) that does not provide for voting rights; or 2) waive 100% of its voting rights with respect to the following:

1. Any rights with respect to the removal or replacement of a director, general partner, managing member or other person acting in a similar capacity for or on behalf of the Fund (each individually a Designated Person, and collectively, the Designated Persons), which may include, but are not limited to, voting on the election or removal of a Designated Person in the event of such Designated Person's death, disability, insolvency, bankruptcy, incapacity, or other event requiring a vote of interest holders of the Fund to remove or replace a Designated Person; and

2. Any rights in connection with a determination to renew, dissolve, liquidate, or otherwise terminate or continue the Fund, which may include, but are not limited to, voting on the renewal, dissolution, liquidation, termination or continuance of the Fund upon the occurrence of an event described in the Fund's organizational documents; provided, however, that, if the Fund's organizational documents require the consent of the Fund's general partner or manager, as the case may be, for any such termination or continuation of the Fund to be effective, then AIP may exercise its voting rights with respect to such matter.

Item 8. Portfolio Managers of Closed-End Management Investment Companies

FUND MANAGEMENT

As of the date of this report, the Fund is managed by members of the Asian Equity team. The team consists of portfolio managers and analysts. The member of the team primarily responsible for the day-to-day operation of the Fund is Sebastian Chia, a Vice President of the Sub-Adviser. Mr. Chia has been associated with the Sub-Adviser in an investment management capacity since April 2000 and joined the team managing the Fund in April 2000.

The composition of the team may change without notice from time to time.

OTHER ACCOUNTS MANAGED BY THE PORTFOLIO MANAGER

The following information is as of December 31, 2007.

Mr. Chia managed two registered investment companies with a total of approximately \$321.4 million in assets; no pooled investment vehicles other than registered investment companies; and no other accounts.

Because the portfolio manager manages assets for other investment companies, pooled investment vehicles, and/or other accounts (including institutional clients, pension plans and certain high net worth individuals), there may be an incentive to favor one client over another resulting in conflicts of interest. For instance, the Adviser and/or Sub-Adviser may receive fees from certain accounts that are higher than the fee it receives from the Fund, or it may receive a performance-based fee on certain accounts. In those instances, the portfolio managers may have an incentive to favor the higher and/or performance-based fee accounts over the Fund. In addition, a conflict of interest could exist to the extent the Adviser and/or Sub-Adviser has proprietary investments in certain accounts, where portfolio managers have personal investments in certain accounts or when certain accounts are investment options in the Adviser's and/or Sub-Adviser's employee benefits and/or deferred compensation plans. The portfolio manager may have an incentive to favor these accounts over others. If the Adviser and/or Sub-Adviser manage accounts that engage in short sales of securities of the type in which the Fund invests, the Adviser and/or Sub-Adviser could be seen as harming the performance of the Fund for the benefit of the accounts engaged in short sales if the short sales cause the market value of the securities to fall. The Adviser has adopted trade allocation and other policies and procedures that it believes are reasonably designed to address these and other conflicts of interest.

PORTFOLIO MANAGER COMPENSATION STRUCTURE

Portfolio managers receive a combination of base compensation and discretionary compensation, comprised of a cash bonus and several deferred compensation programs described below. The methodology used to determine portfolio manager compensation is applied across all accounts managed by the portfolio managers.

BASE SALARY COMPENSATION. Generally, portfolio managers receive base salary compensation based on the level of their position with the Adviser and/or Sub-Adviser.

DISCRETIONARY COMPENSATION. In addition to base compensation, portfolio managers may receive discretionary compensation.

Discretionary compensation can include:

- Cash Bonus;

- Morgan Stanley's Long-Term Incentive Compensation Program awards a mandatory program that defers a portion of discretionary year-end compensation into restricted stock
-

units or other awards or other investments based on Morgan Stanley common stock that are subject to vesting and other conditions;

- **Investment Management Alignment Plan (IMAP) awards** a mandatory program that defers a portion of discretionary year-end compensation and notionally invests it in designated funds advised by the Adviser and/or Sub-Adviser or its affiliates. The award is subject to vesting and other conditions. Portfolio managers must notionally invest a minimum of 25% to a maximum of 100% of the IMAP deferral into a combination of the designated open-end funds they manage that are included in the IMAP Fund menu;
- **Voluntary Deferred Compensation Plans** voluntary programs that permit certain employees to elect to defer a portion of their discretionary year-end compensation and directly or notionally invest the deferred amount: (1) across a range of designated investment funds, including funds advised by the Adviser or its affiliates; and/or (2) in Morgan Stanley stock units.

Several factors determine discretionary compensation, which can vary by portfolio management team and circumstances. In order of relative importance, these factors include:

- **Investment performance.** A portfolio manager's compensation is linked to the pre-tax investment performance of the funds/accounts managed by the portfolio manager. Investment performance is calculated for one-, three- and five-year periods measured against an appropriate securities market index (or indices) for the funds/accounts managed by the portfolio manager. The assets managed by the portfolio managers in funds, pooled investment vehicles and other accounts are described in **Other Accounts Managed by the Portfolio Managers** above. Generally, the greatest weight is placed on the three- and five-year periods.
- **Revenues generated by the investment companies, pooled investment vehicles and other accounts managed by the portfolio manager.**
- **Contribution to the business objectives of the Adviser and/or Sub-Adviser.**
- **The dollar amount of assets managed by the portfolio manager.**
- **Market compensation survey research by independent third parties.**

- Other qualitative factors, such as contributions to client objectives.

- Performance of Morgan Stanley and Morgan Stanley Investment Management Inc., and the overall performance of the investment team(s) of which the portfolio is a member.

SECURITIES OWNERSHIP OF PORTFOLIO MANAGER

As of December 31, 2007, the portfolio manager did not own any shares of the Fund.
