(Charley's Fund), a nonprofit organization that funds drug discovery and development initiatives specific to Duchenne muscular dystrophy (DMD), entered into the First Amendment to an existing Sponsored Research Agreement (the Amendment). The Amendment pertains to certain provisions of that certain Sponsored Research Agreement by and between the Company and Charley's Fund entered into effective October 12, 2007 (the Agreement). Under the terms of the Agreement, the Company was awarded a \$2.45 million research contract from Charley's Fund to support a new product development program using proprietary exon skipping technologies developed by the Company to overcome the effects of certain genetic errors in the dystrophin gene.
