Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On November 30, 2010, SCBT Financial Corporation's subsidiary bank, SCBT, N.A., approved an amended and restated deferred income plan applicable on an elective basis to selected members of its senior management group, including executive officers, and/or other selected employees who are highly compensated. We amended and restated the deferred income plan effective as of December 1, 2010, to add the capability for SCBT, N.A. to make discretionary contributions, should it so desire in the future, and to clarify some administrative and participant elective matters.

Deferred Income Plan

We make available to selected members of our senior management group, including executive officers, and/or other selected employees who are highly compensated the opportunity to elect to defer current compensation for retirement income or other future financial needs. The plan is a nonqualified deferred compensation plan that is designed to be exempt from certain ERISA requirements as a plan that covers a select group of management and certain other highly compensated employees. Each year, participants can choose to have their compensation for the upcoming year reduced by a certain whole percentage amount ranging between 5% and 80%, or by a specific dollar amount (in all cases, subject to a minimum value established by the bank). In addition, the employer may make matching or partially-matching contributions for participant deferrals. The employer may also make discretionary contributions for any or all participant(s). Both of these types of employer contributions would be subject to certain vesting requirements. The plan also contains forfeiture provisions, which can result from unvested amounts existing at terminations or from materially incorrect earnings that are subsequently adjusted or corrected. Deferrals may be held by a trustee in a grantor (rabbi) trust and may be invested in funds that mirror deemed investments selected by the participants and offered pursuant to the plan. Such a trust would not isolate assets for the benefit of the participants. Consequently, distributions made under the plan will be made from the general assets of the bank which could be subject to claims of its creditors. Amounts deferred under the plan will generally be subject to income taxes payable by the participant in the year in which received (end of the deferral period), but these deferred amounts are subject to employment taxes in the year of deferral. The above summary of the amended and restated deferred income plan is qualified in its entirety by reference to the provisions of the Amended and Restated Deferred Income Plan, which is attached as Exhibit 10.1 and incorporated by reference herein.
