Each outstanding share of our common stock is entitled to one vote on each matter properly brought before the Annual Meeting.

Table of Contents

What is the difference between holding shares as a stockholder of record or as a beneficial owner?

If your shares are registered directly in your name with our transfer agent, Wells Fargo Shareowner Services, you are considered the stockholder of record. In this case, you receive your dividend check from Wells Fargo Shareowner Services. This year we have engaged the services of Broadridge Financial Solutions (Broadridge) to mail our proxy materials to our registered holders.

If your shares are held in a brokerage account, or by a bank or other holder of record, you are considered the beneficial owner of shares held in street name. These proxy materials have been forwarded to you by your broker, bank, or other holder of record. As the beneficial owner, you have the right to direct your broker, bank, or other holder of record on how to vote your shares by using the voting instruction form included in the mailing or by following their instructions for authorizing your proxy by telephone or on the internet.

Is it necessary to vote if my shares are held in my brokerage account?

It is important to vote your shares even if your shares are held in a brokerage account. Otherwise, your shares may not be voted on certain matters unless you have a Legal Proxy in place authorizing them to vote your shares on your behalf, or you provide voting instructions to your broker, bank or other holder of record. If you are unsure, then please vote your Realty Income shares using the voting information provided.

How do I vote?

You may vote using any of the following methods:

By Mail

Be sure to complete, sign and date the proxy card or voting instruction form and return it in the prepaid envelope. If you are a stockholder of record, and the prepaid envelope is missing, please mail your completed proxy to: Realty Income Corporation, c/o Broadridge Financial Solutions, Inc., 51 Mercedes Way, Edgewood, NY 11717, Attn: Vote Processing.

By Telephone

Stockholders may authorize their proxies by telephone. The telephone voting procedures are designed to authenticate your identity, to allow you to authorize your proxy, to give your voting instructions and to confirm that those instructions have been properly recorded. You may authorize your proxy by calling the toll-free number on the proxy card or your broker's voting

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

instruction form. Please have your card or form available when you call as it contains your control number, which will be required to identify yourself and authorize your proxy to vote your shares. Telephone facilities will be available 24 hours a day and will close at 11:59 P.M. Central Daylight Time on May 5, 2014. If you authorize your proxy by telephone, you do not have to return your proxy or voting instruction form.

By Internet

Stockholders may authorize their proxies on the internet by going to the website indicated on the proxy card or your broker's voting instruction form. Step-by-step instructions on how to authorize or vote your proxy are provided on the voting sites.

In person at the Annual Meeting

All stockholders of record may vote in person at the Annual Meeting. You may also be represented by another person at the meeting by executing a proper proxy designating that person as your representative. If you are a beneficial owner of shares, you must obtain a Legal Proxy from your broker, bank or other holder of record and present it to the inspector of election at the Annual Meeting to be able to vote at the Annual Meeting.

What happens if I do not indicate my voting preferences?

If you are a stockholder of record and you submit your proxy card or authorize your proxy by telephone or internet, but do not indicate your voting preferences, the persons named in the proxy will vote the shares represented by that proxy FOR the election to the Board of Directors of the seven nominees listed in this proxy statement, FOR the ratification of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2014, FOR the say on pay vote, and in the discretion of the proxy holders on any other matter that may properly come before the Annual Meeting.

If you hold your shares through a broker and do not instruct your broker on how to vote your shares, your broker cannot vote your shares on the election of directors or the say on pay vote, but can vote your shares on the proposal regarding ratification of the appointment of our auditor.

Table of Contents

Can I change my vote after I submit my proxy?

If you are a stockholder of record, you may revoke your proxy at any time before it is voted at the Annual Meeting by doing any one of the following:

- delivering to our Corporate Secretary a written notice of revocation prior to or at the Annual Meeting;

- signing and returning to our Corporate Secretary a proxy bearing a later date;

- authorizing another proxy by telephone or on the internet (your most recent telephone or internet authorization is used);
or

- voting in person at the Annual Meeting.

If your shares are held in the name of a broker, bank, trust or other nominee, you may change your voting instructions by following the instructions provided by your broker, bank or other record holder in the voting instruction form.

Your attendance at the Annual Meeting will not by itself be sufficient to revoke a proxy unless you vote in person or give written notice of revocation to our Corporate Secretary before the polls are closed. Any written notice revoking a proxy should be sent to Michael R. Pfeiffer, our Corporate Secretary, at our corporate offices at 600 La Terraza Boulevard, Escondido, California 92025-3873.

How does our Board of Directors recommend you vote on the proposals?

Our Board of Directors recommends a vote FOR the election of the seven director nominees listed in this proxy to serve until the 2015 annual meeting and until their respective successors are duly elected and qualify. Our Board of Directors recommends a vote FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the year ended December 31, 2014 and FOR the say on pay vote.

What are the quorum and voting requirements on our three proposals mentioned in this Proxy Statement?

The presence of the holders of a majority of outstanding shares of common stock entitled to vote at the Annual Meeting, present in person or represented by proxy, is necessary to constitute a quorum. Abstentions and broker non-votes are counted as present for purposes of determining a quorum. A broker non-vote occurs when a bank, broker or other holder of record holding shares for

a beneficial owner properly executes and returns a proxy card, but does not vote because the broker or other holder does not have discretionary voting power and has not received voting instructions from the beneficial owner.

Proposal 1 Election of Directors. Our Bylaws include a majority voting standard for the election of directors in uncontested elections, which are generally defined as elections in which the number of nominees does not exceed the number of directors to be elected at the meeting. In the election of directors, you may either vote FOR, AGAINST or ABSTAIN as to each nominee. Cumulative voting is not permitted. Under the majority voting standard, in uncontested elections of directors, such as this election, each director must be elected by the affirmative vote of a majority of the votes cast by the shares present in person or represented by proxy and entitled to vote. A majority of the votes cast means that the number of votes cast FOR a candidate for director exceeds the number of votes cast AGAINST that candidate for director. Brokers do not have discretionary authority to vote for directors. Abstentions and broker non-votes will not count as a vote cast FOR or AGAINST a nominee's election and thus will have no effect in determining whether a director nominee has received a majority of the votes cast.

In accordance with the policy adopted by our Board of Directors, in this election, an incumbent candidate for director who does not receive the required votes for re-election is expected to offer his or her resignation to the Board of Directors. The Nominating/Corporate Governance Committee of the Board of Directors, or a committee of independent directors in the event the incumbent is a member of the Nominating/ Corporate Governance Committee, will then make a determination as to whether to accept or reject the tendered resignation, generally within 90 days after certification of the election results of the stockholder vote. Following such determination, we will publicly disclose the decision regarding any tendered resignation and the rationale behind such decision in a filing of a Current Report on Form 8-K with the Securities and Exchange Commission (SEC). If a director's offer to resign is not accepted by the Board of Directors (or properly constituted committee) or such director does not otherwise submit his or her resignation to the Board of Directors, such director shall continue to serve until his or her successor is duly elected, or his or her earlier resignation or removal.

Table of Contents

Proposal 2 Ratification of Selection of Independent Registered Public Accounting Firm. The affirmative vote of a majority of all the votes cast is necessary for the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2014. Accordingly, abstentions will have no effect on the outcome of the vote with respect to ratification of the independent registered public accounting firm for the year ending December 31, 2014. If you are a beneficial owner, your bank, broker or other holder of record is permitted to vote your shares on the ratification of accountants if the broker does not receive voting instructions from you, and thus broker non-votes are not expected to result from this proposal.

Proposal 3 Say on Pay Vote. The affirmative vote of a majority of all the votes cast is necessary for the approval of the say on pay vote. Brokers do not have discretionary authority to vote your shares on the say on pay vote. Abstentions and broker non-votes will not be counted as votes cast and will have no effect on the outcome of the vote.

Will any other business be conducted at the Annual Meeting?

Our Board of Directors does not know of any matters to be presented at the meeting other than those mentioned in this Proxy Statement. If any other matters are properly brought before the meeting, it is intended that the proxies will be voted in accordance with the discretion of the person or persons voting the proxies. Under the New York Stock Exchange rules, if you are a beneficial owner, your bank, broker or other holder of record may not vote your shares on any contested stockholder proposal without instructions from you.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent convening or resumption of the Annual Meeting, all proxies will be voted in the same manner as such proxies would have been voted at the Annual Meeting as originally convened (except for any proxies that have effectively been revoked or withdrawn).

Who will count the vote?

Representatives of Broadridge will tabulate the votes and act as inspector of election.

Can I access the Notice of Annual Meeting, Proxy Statement and 2013 Annual Report on the internet?

These materials are available on our website and can be accessed at www.realtyincome.com/investing/2014-annual-docs.shtml.

Who bears the cost of soliciting proxies?

We will bear the cost of soliciting proxies from our stockholders. In addition to solicitation by mail, our directors, officers, employees and agents may solicit proxies by telephone, telegram, internet or otherwise. These directors, officers and employees will not be additionally compensated for the solicitation, but may be reimbursed for out-of-pocket expenses incurred in connection with the solicitation. Copies of solicitation material will be furnished to brokerage firms, fiduciaries and other custodians who hold shares of

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

our common stock of record for beneficial owners for forwarding to such beneficial owners. We may also reimburse persons representing beneficial owners for their reasonable expenses incurred in forwarding such material.

Stockholders who authorize their proxies through the internet should be aware that they may incur costs to access the internet, such as usage charges from telephone companies or internet service providers and these costs must be borne by the stockholder.

Our common stock is traded on the New York Stock Exchange, or NYSE, under the ticker symbol **O**. On March 6, 2014, the last reported sale price for our common stock on the NYSE was \$42.75 per share.

No person is authorized to make any representation with respect to the matters described in this Proxy Statement other than those contained herein and, if given or made, such information or representation must not be relied upon as having been authorized by us or any other person.

You are encouraged to read this Proxy Statement in its entirety.

PROPOSAL 1

ELECTION OF DIRECTORS

Director Nominees

Based upon the recommendation of our Nominating/Corporate Governance Committee, our Board of Directors has nominated seven directors for re-election at the Annual Meeting to serve for a one-year term expiring at the annual meeting in 2015 and until their respective successors have been duly elected and qualify:

1. Kathleen R. Allen, Ph.D.
2. John P. Case
3. A. Larry Chapman
4. Priya Cherian Huskins
5. Michael D. McKee
6. Gregory T. McLaughlin
7. Ronald L. Merriman

For more information regarding our nominees, please see Board of Directors below.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR EACH OF THE NOMINEES LISTED ABOVE.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has appointed KPMG LLP as the independent registered public accounting firm to audit our financial statements and internal control over financial reporting for the year ending December 31, 2014. Representatives of KPMG LLP are expected to be present at the Annual Meeting and will be provided an opportunity to make a statement if the representatives desire to do so. The representatives are also expected to be available to respond to appropriate questions.

Although ratification by our stockholders is not a prerequisite to the power of the Audit Committee to appoint KPMG LLP as our independent registered public accounting firm, our Board and the Audit Committee believes such ratification to be advisable and in the best interests of the company. Accordingly, stockholders are being requested to ratify, confirm and approve the appointment of KPMG LLP as our independent registered public accounting firm to conduct the annual audit of our consolidated financial statements for fiscal year 2014. If the stockholders do not ratify the appointment of KPMG LLP, the appointment of an independent registered public accounting firm will be reconsidered by the Audit Committee; however, the Audit Committee has appointed KPMG LLP notwithstanding the failure of the stockholders to ratify its appointment. If the appointment of KPMG LLP is ratified, the Audit Committee will continue to conduct an ongoing review of KPMG LLP's scope of engagement, pricing and work quality, among other factors, and will retain the right to replace KPMG LLP at any time.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR ENDING DECEMBER 31, 2014.

PROPOSAL 3

ADVISORY VOTE TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

Our Board of Directors has determined to hold an annual say on pay advisory vote. In accordance with our Board of Director's determination and Section 14A of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and as a matter of good corporate governance, we are asking our stockholders to approve on a non-binding, advisory basis the compensation of our named executive officers (which consist of our Chief Executive Officer, former Chief Executive Officer, Chief Financial Officer and our next three highest paid executives), as such compensation is described in the Compensation Discussion and Analysis section beginning on page 22, the tabular disclosure regarding such compensation beginning on page 40 and the accompanying narrative disclosure set forth in this proxy statement.

We believe that our compensation policies and procedures are competitive, are focused on pay-for-performance principles and are strongly aligned with the long-term interests of our stockholders. The following is a summary of the key highlights of our executive compensation program:

Almost all of our named executive officers' 2013 pay was tied to performance. In 2013, approximately 67% of our CEO's total direct compensation and approximately 79%-88% of our other named executive officers' total direct compensation consisted of compensation that is at risk based on our performance. Included in the CEO's 2013 compensation is a time-based promotion equity grant. Excluding this one-time grant, approximately 93% of our CEO's total direct compensation was considered at risk. In determining compensation we focus on both short and long-term performance based on company financial and operational metrics as well as stockholder returns. Typically 100% of the annual equity awards we grant to our executive officers are based on our performance.

Our named executive officers delivered extraordinary, and in some cases record-setting, performance in 2013.

The most notable results that influenced 2013 compensation included:

Substantial increase in dividend per share. Our executives delivered operating results that enabled our Board of Directors to increase the dividends paid per common share to our stockholders in 2013 by 21.2% over dividends paid per share in 2012, which is the largest increase in our company's history and is over 16x greater than the average of the per share dividend increase during the last three years.

Significant increase in funds from operations (FFO) per share. Our executives delivered a 19.4% increase in FFO per share for 2013 compared to 2012 and a 19.3% increase in Normalized FFO per share for 2013 compared to 2012. These represent the largest increases in our company's history. We define normalized FFO as FFO excluding the merger related costs for our January 2013 acquisition of American Realty Capital Trust, Inc., or ARCT.

Record acquisitions. Our executives delivered a record year for new property acquisitions as we invested \$4.7 billion in real estate, including \$3.2 billion of real estate acquired in January in connection with the acquisition of ARCT and an additional \$1.5 billion invested in 459 new properties and properties under development at an initial lease yield of 7.1%.

Capital rating upgrade. Standard & Poor's Ratings Services upgraded our senior unsecured debt ratings to BBB+ from BBB and our preferred stock ratings to BBB- from BB+, with a stable outlook.

We paid certain executives special compensation related to two events outside the ordinary course of business that had an impact on 2013 compensation for our named executive officers. The non-recurring payments were:

Restricted stock awards granted in connection with our acquisition of American Realty Capital Trust, Inc.

Restricted stock awards granted in connection with the appointment of our new CEO.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR APPROVAL, ON A NON-BINDING ADVISORY BASIS THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DESCRIBED IN THE COMPENSATION DISCUSSION AND ANALYSIS SECTION AND THE RELATED TABULAR AND NARRATIVE DISCLOSURE SET FORTH IN THIS PROXY STATEMENT.

Corporate Governance

We believe that nothing is more important than a company's reputation for integrity and serving as a responsible fiduciary for its stockholders. We are committed to managing the company for the benefit of our stockholders and are focused on maintaining good corporate governance. Practices that illustrate this commitment include:

- Our Board of Directors is currently comprised of eight directors, six of which are independent, non-employee directors;
- Our Board of Directors is elected on an annual basis;
- We employ a majority vote standard for director elections;
- Our Compensation Committee works with independent consultants, in conducting annual compensation reviews for our key executives, and compensates each individual based on reaching certain performance metrics that determine the success of the company;
- We adhere to all other corporate governance principles outlined in our Corporate Governance Guidelines document;
- We have established an anti-hedging and anti-pledging policy; and
- We have a stock ownership program for our directors and executive officers.
- We have adopted a clawback policy that enables us to recover incentive compensation awards in the event of negligence or misconduct directly related to a material restatement of our financial or operating results, or miscalculated performance metrics that, if calculated correctly, would have resulted in a lower payment.

The Charters of each of our standing committees, our Code of Business Ethics and our Corporate Governance Guidelines are posted on our website at www.realtyincome.com and will be provided without charge upon request to the Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. During 2013, in accordance with the terms of

each of our Committee Charters, each of our respective committees reviewed its charter. Our Audit Committee, Nominating/Corporate Governance Committee, and Compensation Committee made minor updates to their charters in February 2014. The Strategic Planning Committee determined that no updates to its charter were needed in 2013.

Code of Business Ethics. We have adopted a Code of Business Ethics that applies to our employees, officers and directors. The Board of Directors adopted the Code of Business Ethics to codify and formalize certain of our long-standing policies and principles that help ensure our business is conducted in accordance with the highest standards of moral and ethical behavior. Our Code of Business Ethics covers all areas of professional conduct, including conflicts of interest, insider trading and confidentiality, as well as requiring strict adherence to all laws and regulations applicable to our business and industry. We conduct annual training of employees regarding ethical behavior and require all employees to acknowledge the terms of, and abide by, our Code of Business Ethics. We intend to disclose any future amendments to or waivers of certain provisions of our Code of Business Ethics applicable to our principal executive officer, principal financial officer, principal accounting officer, controller and individuals performing similar functions on our website at www.realtyincome.com within five business days following such waiver or as otherwise required by the SEC or the NYSE.

Table of Contents

Our Board of Directors has adopted a whistleblower policy, which outlines a procedure for all interested parties, including employees, to submit confidential complaints, concerns, unethical business practices, violations or suspected violations for any and all matters pertaining to accounting, internal control or auditing.

Anti-Hedging and Anti-Pledging Policy. We have established policies that prohibit our directors, officers, other employees and their family members from engaging in any transaction that might allow them to realize gains from declines in our securities. Specifically, we prohibit transactions using derivative securities, or otherwise participating in hedging, stop loss, or other speculative transactions involving our securities by officers, directors, other employees and their family members. Short selling our securities, trading in any puts, calls, covered calls or other derivative products involving our securities, or the writing of purchase or call options, short sales and other similar transactions are also prohibited for our officers, directors, other employees and family members.

In addition, margin purchases of our securities and pledging any of our securities as collateral to secure loans is also prohibited. This prohibition means that directors, officers, other employees and their family members cannot hold our securities in a margin account nor can they pledge any of our securities for any loans or indebtedness.

Adoption of Compensation Clawback Policy. Although the SEC still has not issued regulations regarding clawback policies, as required by the Dodd-Frank Act, we have recently voluntarily adopted our own formal clawback policy which applies to outstanding awards and will apply to future awards. Our clawback policy provides that we may recoup all cash or equity-based incentive compensation paid or granted to an executive officer as defined pursuant to Rule 3b-7 under the Securities Exchange Act of 1934, as amended, during the three-year period preceding the triggering event that was in excess of what would have been paid or granted to such executive officer after giving effect, as applicable, to the accounting restatement that resulted from the triggering event or to what would have been the correct calculation of the performance metric(s) used in determining that a triggering event had occurred. A triggering event includes: i) a decision by the audit committee to effect an accounting restatement of previously published financial statements caused by material non-compliance by the company with any financial reporting requirement under the federal securities laws due to fraud, misconduct, negligence, or lack of sufficient oversight on the part of any executive officer; and ii) a decision by the compensation committee that one or more performance metrics used for determining previously paid compensation was incorrectly calculated and, if calculated, correctly would have resulted in a lower payment to one or more executive officers. However, the requirement to repay the incentive compensation that is recoverable under this policy shall only exist if the board has actively taken steps to evaluate restating the financials or operating results or recalculating other associated metrics prior to the end of the fifth year following the year in question. The company will not be bound by the three-year recoupment period or this five-year limitation in cases involving fraud or intentional misconduct. Once applicable SEC regulations are adopted, we will reassess our clawback policy in light of the new rules and will implement appropriate changes to ensure that our policy is fully compliant with SEC regulations.

Stock Ownership Program. We have adopted a stock ownership program for our directors, and executive vice presidents and above, with our CEO required to own a fixed number of shares based on five times his base salary. A detailed description of each of these programs and the minimum share ownership requirements is included on page 20 and page 38 for directors and executives, respectively.

Committee Charters. Our Board of Directors has adopted a charter for each of the Audit Committee, the Compensation Committee, the Nominating/Corporate Governance Committee and the Strategic Planning Committee. Each of our charters is reviewed annually. Our Board of Directors may, from time to time, establish certain other committees to facilitate our management. We have also adopted Corporate Governance Guidelines that promote the functioning of the Board of Directors and its committees and sets

forth expectations as to how the Board of Directors should perform its functions. The guidelines include information about the composition of the Board of Directors, orientation and continuing education, director compensation, Board of Directors meetings, Board of Directors committees, management succession, evaluation and compensation of senior officers, expectations of directors and information regarding the annual performance evaluation of the Board of Directors.

Social Responsibility and Ethical Standards. We are committed to being socially responsible and conducting our business according to the highest ethical standards. Our employees enjoy compensation that is in line with those of our peers and competitors, including healthcare benefits for employees and their families; participation in a 401(k) plan with a matching contribution by Realty Income; competitive vacation and time-off benefits; paid maternity leave and an infant-at-work program for new parents. Our employees also have access to members of our Board of Directors to report anonymously, if desired, any suspicion of misconduct, by any member of our senior management or executive team. We also have a long-standing commitment to equal employment opportunity and adhere to all Equal Employer Opportunity Policy guidelines.

We apply the principles of full and fair disclosure in all of our business dealings, as outlined in our Corporate Code of Business Ethics. We are also committed to dealing fairly with all of our customers, suppliers and competitors.

Environmental Practices. Our focus on energy related matters is demonstrated by how we manage our day-to-day activities in our corporate headquarters building. In our headquarters building we promote energy conservation and encourage the following practices:

- Powering down office equipment at the end of the day;
- Setting fax and copier machines to energy saver mode ;
- Encouraging employees to reduce paper usage whenever possible, by storing documents electronically and using duplex copy mode;
- Employing an automated lights out system that is activated 24/7; and
- Programming HVAC to only operate during normal business operating hours.

In addition, our headquarters building was constructed according to the State of California energy standards and we have installed solar panels on our roof to fulfill our energy requirements. All of the windows on our building are dual-paned to increase energy efficiency and reduce our carbon footprint.

With respect to recycling and reuse practices, we encourage the use of recycled products and the recycling of materials during our operations. Recycling bins are placed in all areas where materials are regularly disposed of and at the individual desks of our employees. Cell phones, wireless devices and office equipment is recycled or donated whenever possible. We also continue to pursue a paperless environment since this reduces costs and saves trees. As a result, we encourage file-sharing networks and environments to produce and edit documents in order to reduce the dissemination of hard copy documents, and have implemented an electronic invoice approval system.

With respect to the properties that we own, these properties are net-leased to our tenants who are responsible for maintaining the buildings and are in control of their own energy usage and environmental sustainability practices.

More information on our corporate responsibility efforts can be found at <http://www.realtyincome.com/invest/investing-resources/corporate-responsibility.shtml>.

Board Independence

Our Board of Directors has determined that each of our current directors, except for Messrs. Case and Lewis, has no material relationship with us (either directly or indirectly through an immediate family member or as a partner, stockholder or officer of an organization that has a relationship with us) and is independent within the meaning of our director independence standards and NYSE director independence standards. Our Board of Directors established and employed categorical standards in determining whether a relationship is material and thus would disqualify such director from being independent. Our categorical standards of independence mirror NYSE independence requirements, except that our categorical standards additionally consider a director to be not independent if:

- The director (or an immediate family member of the director) was, within the last three years, an affiliate or executive officer of another company which was indebted to us, or to which we were indebted, where the total amount of either company's indebtedness to the other was five percent (5%) or more of our total consolidated assets or the total consolidated assets of such other company; and
- The director (or an immediate family member of the director) was, within the last three years, an officer, director or trustee of a charitable organization where our (or an affiliated charitable foundation's) annual

Table of Contents

discretionary charitable contributions to the charitable organization exceeded the greater of \$1 million, or five percent (5%) of that organization's consolidated gross revenues.

Affiliate includes any person beneficially owning in excess of 10% of the voting power of, or a general partner or managing member of, a company.

Audit Committee

The Audit Committee of our Board of Directors was established in accordance with Section 10A-3 of the Exchange Act and is comprised of Dr. Allen and Messrs. Chapman, McLaughlin and Merriman (Chairman). Our Board of Directors has determined that Messrs. Merriman and McLaughlin qualify as audit committee financial experts, as defined in Item 407(d) of Regulation S-K and that all members of the Audit Committee are financially literate under the current listing standards of the NYSE. All of the members of the Audit Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards, as discussed above, and the audit committee requirements of the SEC. Additionally, our Board of Directors has considered Mr. Merriman’s concurrent service on the audit committees of four public companies and has determined that such simultaneous service does not impair his ability to effectively serve as Chairman of our Audit Committee.

The Audit Committee’s principal responsibilities include:

- Compliance with legal and regulatory requirements;
- The integrity of our financial statements;
- The appointment, approval and engagement of our independent registered public accounting firm, approval of any special assignments given to the independent registered public accounting firm and review of:
 - o The scope and results of the audit engagement with the independent registered public accounting firm, including the independent registered public accounting firm’s letters to the Audit Committee;
 - o The independence and qualifications of the independent registered public accounting firm;
 - o The effectiveness and efficiency of our internal accounting function; and

o Any proposed significant accounting changes; and

- As necessary, meeting with the Compensation Committee regarding the performance goals for key financial, internal control and risk management personnel.

Compensation Committee

The Compensation Committee of our Board of Directors is comprised of Dr. Allen and Messrs. Chapman, McKee and McLaughlin (Chairman). All of the members of the Compensation Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards as discussed above, are non-employee directors within the meaning of Rule 16b-3 of the Exchange Act, and are outside directors under the regulations promulgated under Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code.

Table of Contents

The Compensation Committee's principal responsibilities include:

- Establishing remuneration levels for our senior officers;
- Reviewing management organization and development;
- Reviewing significant employee benefits programs; and
- Establishing and administering executive compensation programs, including bonus plans, stock option and other equity-based programs, deferred compensation plans and any other cash or stock incentive programs.

The Compensation Committee regularly reviews and approves our executive compensation strategies and principles to ensure that they (i) are aligned with our business strategies and objectives, (ii) encourage high performance, (iii) promote accountability and (iv) assure that employee interests are aligned with the interests of our stockholders. In addition, the Compensation Committee:

- Conducts an annual review of our compensation philosophy, including a review of our company-wide incentive programs to assess whether the incentive programs encourage desirable behavior as it relates to our long-term growth and reflect our risk management philosophies, policies and processes;
- Conducts an annual review of and approves the goals and objectives relating to the compensation of the Chief Executive Officer, evaluates the performance of the Chief Executive Officer in light of our business strategies and performance and determines and approves the compensation of the Chief Executive Officer based on such evaluation;
- Conducts an annual review of and approves all compensation for all other senior officers (as such term is defined in Rule 16a-1 promulgated under the Exchange Act), all of our other employees and the employees of our subsidiaries with a base salary greater than or equal to \$200,000;
- Reviews and approves all officers' employment agreements and severance arrangements;
- Manages and annually reviews executive annual bonus and long-term incentive compensation;

- Manages and annually reviews employee pension and welfare benefit plans (including 401(k) and other plans);
- Sets performance metrics under all annual bonus and long-term incentive compensation plans as appropriate; and
- As necessary, meets with the Audit Committee and/or senior management regarding the role risk management plays in setting appropriate performance objectives and incentives.

The Compensation Committee's charter reflects these various responsibilities, and the Compensation Committee periodically reviews and revises its charter. To assist in carrying out its responsibilities, the Compensation Committee regularly receives reports and recommendations from the Chief Executive Officer and management, from outside independent compensation consultants it selects and retains and, as appropriate, in consultation with its own legal or other advisors, all in accordance with the authority granted to the Compensation Committee in its charter.

To assist in its efforts to meet the objectives outlined above, the Compensation Committee has retained FPL Associates, LP, or FPL, a nationally-known executive compensation and benefits consulting firm specializing in real estate companies, to advise it on a regular basis on the amount and form of our executive compensation and benefit programs. During 2013, the Compensation Committee engaged the consultant to provide peer group compensation data, compensation and benchmarking analysis, general executive compensation consulting services, and to respond to any Compensation Committee member's questions as further described in the Compensation Discussion and Analysis section. Additionally, during 2013 the Nominating and Corporate Governance Committee engaged FPL to review the competitiveness of the compensation program for non-employee directors.

After review and consultation with FPL, the Compensation Committee assessed the independence of FPL in light of, among other factors, the independence factors established by the NYSE. As a result of this assessment, the Compensation Committee has determined that FPL's work raised no conflict of interest currently or during the year ended December 31, 2013. Additionally, during 2013, advisory services were obtained from Latham & Watkins LLP and Hogan Lovells. After review of the services performed and consultation with these law firms, the Compensation Committee assessed the independence of these firms in light of, among other factors, the independence factors established by the NYSE, and determined to continue directly or indirectly receive advice from these firms.

Table of Contents

The Chief Executive Officer, as well as the President, Chief Operating Officer, annually assist in the review of the compensation of the other officers and members of senior management. The Chief Executive Officer makes recommendations with respect to salary adjustments, annual bonuses and restricted stock awards to the Compensation Committee based on his review of each executive's performance in relation to the guidelines and metrics established at the commencement of the year, compensation for similar positions at peer companies and the company's performance for that year.

Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee of our Board of Directors is comprised of Ms. Huskins (Chairwoman) and Messrs. McKee and Merriman. All of the members of the Nominating/Corporate Governance Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards, as previously discussed. The Nominating/Corporate Governance Committee's principal purpose is to provide counsel to our Board of Directors on the broad range of issues surrounding the composition and operation of the Board of Directors, including:

- Development and review of the qualifications and competencies required for membership on our Board of Directors;
- Reviewing and interviewing qualified candidates to serve on our Board of Directors;
- Structure and membership of the committees of our Board of Directors; and
- Succession planning for our executive management.

The Nominating/Corporate Governance Committee also provides recommendations to the Board of Directors in the areas of committee selection and rotation practices, evaluation of the overall effectiveness of the Board of Directors and management, review of Board of Director compensation, and review and consideration of developments in corporate governance practices. The Nominating/Corporate Governance Committee retains the sole authority to retain and terminate any search firm to be used to identify director candidates, including sole authority to approve the search firm's fees and other retention terms. Strategic Planning Committee

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

The Strategic Planning Committee of our Board of Directors is comprised of Dr. Allen (Chairwoman), Ms. Huskins and Messrs. Case, Lewis, McLaughlin, and Merriman. With the exception of Mr. Lewis and Mr. Case, our Chief Executive Officer, all of the other members of the Strategic Planning Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards as previously discussed. The Strategic Planning Committee works with management to review initiatives designed to achieve continued growth and to enhance stockholder value. The Strategic Planning Committee also assists management in looking beyond traditional quarterly and annual perspectives in considering our longer-term goals.

Director Qualifications

The director qualifications developed to date focus on what the Nominating/Corporate Governance Committee believes to be the essential competencies required to effectively serve on the Board of Directors. In reviewing and considering potential nominees for the Board of Directors, the Nominating/Corporate Governance Committee looks at the following qualities, skills and attributes:

- Personal and professional integrity, ethics, values and absence of conflicts of interest;
- Experience in corporate governance, for example as an officer or former officer of a publicly-held company;
- Experience in our industry and a general business understanding of major issues facing public companies;
- Experience as a member of the board of directors of another publicly-held company;
- Ability to fairly and equally represent all stockholders of the company and time to devote to being a director;

Table of Contents

- Practical and mature business judgment, including the ability to make independent analytical inquiries and function effectively in an oversight role;
- Academic expertise in an area of our operations and achievement in one or more applicable fields;
- Background in financial and accounting matters; and
- Diversity in terms of background, expertise, perspective, age, gender and ethnicity.

Identifying and Evaluating Nominees for Directors

The Nominating/Corporate Governance Committee identifies nominees for directors by first evaluating the current members of our Board of Directors willing to continue in service. Current members with qualifications and skills that are consistent with the Nominating/Corporate Governance Committee's criteria for Board of Directors service are re-nominated. As to new candidates, the Nominating/Corporate Governance Committee will generally poll members of our Board of Directors and members of management for their recommendations. The Nominating/Corporate Governance Committee has in the past retained a search firm to assist with identifying new candidates for membership on our Board of Directors, and in the future may hire a search firm if deemed appropriate. An initial slate of candidates will be presented to the chairwoman of the Nominating/Corporate Governance Committee, who will then make an initial determination as to the qualification and fit of each candidate. Final candidates will be interviewed by one or more members of the Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee will then approve final director candidates and, after review and deliberation of all feedback and data, will make its recommendation to our Board of Directors. Recommendations received from stockholders will be considered and processed and are subject to the same criteria as are candidates nominated by the Nominating/Corporate Governance Committee.

Stockholder Recommendations

The Nominating/Corporate Governance Committee's policy is to consider candidates recommended by stockholders. The stockholder must submit a detailed resume of the candidate and an explanation of the reasons why the stockholder believes the candidate is qualified for service on our Board of Directors and how the candidate satisfies our Board of Directors' criteria. The stockholder must also provide such other information about the candidate as would be required by the SEC rules to be included in a proxy statement and as is required by our Bylaws. In addition, the stockholder must include the consent of the candidate and describe any arrangements or undertakings between the stockholder and the candidate regarding the recommendation. The stockholder must submit proof of Realty Income stockholdings and must also comply with the advance notice provisions of our Bylaws. All communications are to be directed to the chairwoman of the Nominating/Corporate Governance Committee, c/o Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. Recommendations received before October 22, 2014 or after November 21, 2014 (more than 150 days or less than 120 days prior to the first anniversary of the date of the Proxy Statement for the previous year's annual meeting of stockholders) will not be considered timely for consideration at next year's annual meeting of stockholders. See "Stockholder Proposals for 2015 Annual Meeting" in this Proxy Statement. Properly submitted stockholder recommendations will be evaluated by the Nominating/Corporate Governance

Committee using the same criteria used to evaluate other director candidates.

Board Leadership/Independent Chairman of the Board

The Nominating/Corporate Governance Committee also evaluates the Board of Directors leadership structure. Since 1997, the positions of Chairman of the Board of Directors and Chief Executive Officer have been separated in recognition of the differences between the two roles. Mr. McKee serves as our Chairman of the Board of Directors and presides as lead Independent Director, while Mr. Case serves as our Chief Executive Officer. The Board of Directors believes this is the most appropriate structure at this time because it enables the independent directors to participate meaningfully in the leadership of our Board of Directors while utilizing most efficiently the leadership skills of both Mr. McKee and Mr. Case. In addition, separating the roles of Chairman and Chief Executive Officer allows our Chairman to serve as a liaison between the Board of Directors and management, while providing our Chief Executive Officer with the flexibility and focus needed to oversee our operations.

Board Risk Oversight

Our Board of Directors has overall responsibility for risk oversight with a focus on the more significant risks facing us. The Board of Directors reviews and oversees our enterprise risk management, or ERM,

Table of Contents

program, which is a company-wide program designed to enable effective and efficient identification of and management visibility into critical company risks and to facilitate the incorporation of risk considerations into decision making. The ERM program was established to clearly define risk management roles and responsibilities, bring together senior management to discuss risk, promote visibility and constructive dialogue around risk at the senior management and Board of Director levels, and facilitate appropriate risk response strategies. During the year, as part of the ERM program, management and the Board of Directors jointly discuss major risks that they feel face our business. Throughout the year, the Board of Directors, and the committees to which it has delegated responsibility, dedicate a portion of their meetings to review and discuss specific risk topics in greater detail. Strategic and operational risks are presented and discussed in the context of the Chief Executive Officer's report on operations to the Board of Directors at regularly scheduled Board of Directors meetings and at presentations to the Board of Directors and its committees by senior management. The Board of Directors has delegated responsibility for the oversight of specific risks to Board of Directors committees as follows:

- The Audit Committee oversees our risk policies and processes relating to the financial statements and financial reporting processes, as well as key credit risks, liquidity risks, market risks and compliance, and the guidelines, internal controls, policies and processes for monitoring and mitigating those risks;
- The Strategic Planning Committee monitors the risks associated with meeting long-term goals, including evaluating the impact that future initiatives may have on risk decisions;
- The Nominating/Corporate Governance Committee oversees the risk related to our governance structure and processes and risks arising from related party transactions; and
- The Compensation Committee monitors the risks associated with management resources and structure, including evaluating the effect the compensation structure may have on risk decisions.

Compensation Risk Assessment

The Compensation Committee reviews our company-wide incentive programs to assess whether the incentive programs encourage desirable behavior as it relates to our long-term growth and reflect our risk management philosophies, policies and processes. The total compensation of our executive officers is established after consideration of performance metrics and is compared to the company's peer group by the Compensation Committee. The incentive program metrics include absolute and relative performance, single year and multi-year performance and a diversification and balance of metrics across financial, portfolio and value creation goals.

In addition to the compensation awarded to management, which is authorized by the Compensation Committee, management monitors incentive awards made to our staff and reviews those awards in light of the risks to which we may be subject. Our investor relations team receives bonuses based on their communications with financial advisors, and their time is monitored and approved by the Vice President, Corporate Communications. Our portfolio management team receives bonuses based on the re-leasing and sales of properties in our portfolio. All of these transactions are approved by the Executive Vice President, Portfolio Management.

We do not believe that the compensation programs give rise to any risks that are reasonably likely to have a material adverse effect on us. Non-management employees are largely compensated on a fixed salary basis. Any additional bonuses or other compensation awards are unlikely to encourage the taking of unnecessary or excessive risks that threaten our long-term value. The Compensation Committee has sought to align the interests of our employees with that of our stockholders through grants of restricted stock awards, thereby giving employees additional incentives to protect and align with our long-term value. In addition, as discussed above, we have adopted a clawback policy that enables us to recover incentive compensation awards in the event of negligence or misconduct directly related to a material restatement of our financial or operating results or miscalculated performance metrics that, if calculated correctly, would have resulted in a lower payment.

Meetings and Attendance

Our Board of Directors met 22 times during 2013. In 2013, the Audit Committee met seven times, the Compensation Committee met eleven times, the Nominating/Corporate Governance Committee met six times and the Strategic Planning Committee met three times. All directors attended at least 75% of the aggregate of (i) the total number of meetings of our Board of Directors while they were on our Board of Directors and (ii) the total number of meetings of the committees of our Board of Directors on which such

directors served. Although we have no policy with regard to Board of Director members' attendance at our annual meeting of stockholders, it is customary for, and we expect, all Board of Director members to attend. All of our directors attended the 2013 annual meeting of stockholders.

To ensure free and open discussion among the independent directors, only independent directors attend executive sessions of our Board of Directors and Committee meetings. As the non-executive Independent Chairman of our Board of Directors, Mr. McKee presided at each of the five executive sessions held during 2013.

Communications with the Board

Stockholders and other interested parties may communicate with the chairman of our Board of Directors or with the non-employee directors, as a group, by sending an email to mpfeiffer@realtyincome.com or by regular mail addressed to the Chairman of the Board of Directors, c/o the Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. All correspondence will be forwarded promptly by the Corporate Secretary to the chairman of our Board of Directors.

Compensation of the Company's Directors for 2013

Compensation for our Independent Directors during 2013 consisted of an annual retainer, an additional retainer for acting as Chair of one of our Board's committees, committee meeting fees, and an annual equity award. 2013 fees included (i) an annual retainer of \$15,000 for each Board of Director member, other than the chairman of our Board of Directors, who receives a \$35,000 annual retainer, (ii) an Audit Committee chair retainer of \$18,000, (iii) a Compensation Committee chair retainer of \$15,000, (iv) a Nominating/Corporate Governance Committee chair retainer of \$10,000 and (v) a Strategic Planning Committee chair retainer of \$10,000. Board of Director and committee meeting fees are \$1,000 per meeting attended in person and \$500 for telephonic attendance.

Both Mr. Lewis and Mr. Case are directors who were also members of management during 2013, and as non-independent employee directors, do not receive any compensation for serving as members of our Board of Directors or any of its committees. Our non-employee directors received the following aggregate amounts of compensation for the year ended December 31, 2013:

Stock Awards for Directors

The 2012 Incentive Award Plan provides that typically, upon the initial election to our Board of Directors, and at each annual meeting of stockholders thereafter, if the director continues to serve as a director after the meeting, each non-employee director is automatically granted 4,000 shares of restricted stock. The vesting schedule for restricted shares granted to non-employee directors is as follows:

- For directors with less than six years of service at the date of grant, shares vest in 33.33% increments on each of the first three anniversaries of the date the shares of stock are granted;
- For directors with six years of service at the date of grant, shares vest in 50% increments on each of the first two anniversaries of the date the shares of stock are granted;
- For directors with seven years of service at the date of grant, shares are 100% vested on the first anniversary of the date the shares of stock are granted; and
- For directors with eight or more years of service at the date of grant, there is immediate vesting as of the date the shares of stock are granted.

Other Payments for Directors

The members of our Board of Directors are also entitled to reimbursement of their travel expenses incurred in connection with attendance at Board of Director and committee meetings and conferences, in accordance with our travel policy. Additionally, our Board of Director members are reimbursed for expenses incurred in connection with attending continuing education programs to assist them in remaining abreast of developments in corporate governance and other critical issues relating to the operation of public company boards.

Director Stock Ownership Guidelines

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

Our non-employee directors are subject to stock ownership guidelines. Under these guidelines, each non-employee director will be required, within five years of January 1, 2013, to hold stock valued at no less than five times the amount of the annual cash retainer paid to such director for service as a member of the Board of Directors, without reference to committee service. For each of our non-employee directors, the stock ownership goal was determined using five times their annual cash retainers as of January 1, 2013 of \$15,000, or \$75,000, divided by the closing price of our common stock as of December 31, 2012 of \$40.21, which equals a minimum share ownership requirement of 1,865 shares.

All vested and unvested restricted stock awards qualify towards satisfaction of the requirement. For any new director, compliance with the guidelines will be required within five years after being elected to the Board of Directors. As of January 1, 2014, each director subject to the guidelines met or exceeded the stock ownership requirements.

Stock ownership guidelines for our executive officers, including Messrs. Case and Lewis, are described below under Executive Compensation Compensation Discussion and Analysis Executive Stock Ownership Requirements.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the compensation policies and programs for the company's executive officers, including named executive officers, as such term is defined in the Summary Compensation Table in this Proxy Statement. The Compensation Committee administers the compensation policies and programs for our executive officers and certain other officers. The Compensation Committee regularly reviews and approves our executive compensation principles and programs to ensure that they are aligned with our business strategies and objectives, encourage high performance, promote accountability, minimize risk taking, and assure that management's interests are aligned with the interests of our stockholders.

Executive Summary

2013 was an eventful year for Realty Income Corporation. There were two significant events that occurred during the year that were outside the ordinary course of business and that had an impact on the annual compensation of our named executive officers. These events included the acquisition of ARCT which dramatically increased the size of our company at the very start of the year, and triggered a change to our peer group due to a significant increase in our total market capitalization and real estate portfolio. Additionally, after 17 years, Tom Lewis, retired as CEO in September 2013 and John Case, our prior Executive Vice President, Chief Investment Officer, was promoted to CEO. As a result of this shift in leadership, equity-based awards were granted to Mr. Case as compensation for his promotion and Mr. Lewis' 2013 performance compensation was awarded during 2013, as opposed to January of the following fiscal year when we customarily award performance compensation. It is important to understand these items and the impact of these non-recurring payments and awards on 2013 executive compensation and its comparability to prior years compensation as you read through the following executive compensation discussion.

The primary objectives of the company's compensation program are to align the interests of management with those of the stockholders, to link executive compensation to company performance, and to attract, motivate and retain Realty Income's executive officers through competitive compensation arrangements that, within appropriate risk parameters, provide strong financial incentives for executives to maximize stockholder value.

2013 Strong Performance

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

Realty Income delivered extraordinary operating performance results in 2013, including the following accomplishments:

- *Increased Monthly Dividend.* Increased monthly dividends paid per common share in 2013 five times for a year over year increase of 21.2% to \$2.147 per share in 2013 from \$1.772 per share for 2012, which is the largest increase in our company's history and is over 16x greater than the average of the per share dividend increase during the last 3 years.
- *Increased FFO per share.* Achieved a 19.4% increase in FFO per share for 2013 compared to 2012 and a 19.3% increase in normalized FFO per share for 2013 compared to 2012. These represent the largest increases in our company's history.
- *Increased FFO.* Achieved a 72.1% increase in FFO for 2013 compared to 2012. Achieved a 71.9% increase in normalized FFO available to common stockholders for 2013 compared to 2012. Refer to page 49 of our Form 10-K for the year ended December 31, 2013 for a reconciliation of net income available to common stockholders (which we believe is the most comparable GAAP measure) to FFO and normalized FFO.
- *Record Acquisitions.* Recorded a record year for new property acquisitions as we invested \$4.7 billion in real estate, including \$3.2 billion of real estate acquired in January in connection with the acquisition of ARCT and an additional \$1.5 billion invested in 459 new properties and properties under development or expansion at an initial lease yield of 7.1%.

Table of Contents

- *Improved Credit Quality and Diversification of Revenues.* We made progress on our strategic initiatives of improving the credit quality of our revenue stream and diversifying our portfolio to include non-retail properties, whereby 65% of the revenues generated by our 2013 investments in real estate are from investment grade tenants and 16% of the investments are in non-retail properties.
- *Maintained a Very High Occupancy Rate.* At December 31, 2013, we had 70 properties available for lease out of 3,896 properties in our portfolio, which represents a 98.2% occupancy rate.
- *Access to Capital.* Accessed the capital markets to raise approximately \$4.0 billion in gross capital during 2013. This new capital consisted primarily of approximately \$3.2 billion of common equity and also included approximately \$820.0 million of debt. This capital raising activity allowed us to fund our acquisitions during 2013.
- *Increased Capacity on Credit Facility.* We expanded our credit facility to a capacity of \$1.5 billion, providing us with ample access to funds which allows us to pursue additional real estate investment opportunities. Throughout the year, we maintained a conservative capital structure with debt as a percentage of total market capitalization of 33.2% at December 31, 2013.
- *Credit Rating Upgrade.* Standard & Poor's Ratings Services upgraded our senior unsecured debt ratings to BBB+ from BBB and our preferred stock ratings to BBB- from BB+, with a stable outlook.

We have also achieved relatively strong long-term performance, including the following accomplishments:

- Achieved three-year and five-year total stockholder returns at the 59th and 44th percentile, respectively, compared to our peer group. Our year-end total return is based on our share price at December 31, 2013. During 2013, the price of our shares fluctuated between a high of \$55.48 and a low of \$36.58, closing at \$37.33 on December 31, 2013. Factors that can play a role in the pricing of our shares include, but are not limited to, perceptions in the market place of unfolding economic events, as well as conditions in the stock market in general, which are unrelated to our outstanding operating performance. Of note is the fact that the decline in our shares did not occur in isolation as the broader REIT indices, including the share prices for many in our peer group, also declined during the second half of 2013, resulting in share price declines of 1.3% for the NAREIT Equity REIT Index in 2013. Considering these fluctuations and the fluctuations of total stockholder returns within our peer group and the general REIT industry, we believe our three-year and five-year total stockholder returns have been favorable;
- Since listing on the NYSE in October 1994, our compounded average annual total stockholder return, as of December 31, 2013, was 16.3%. As illustrated in the graph below, our performance far exceeded the following indices during the same period: FTSE NAREIT US Equity REIT index, the Dow Jones Industrial Average, the S&P 500 and the NASDAQ Composite. Each of these compounded average annual total stockholder return rates are calculated in the same manner, assuming reinvestment of dividends, except for NASDAQ.

Overview of Compensation Philosophy

Executive compensation consists of the following elements; base salary, annual cash incentive bonus, equity based long-term incentive awards, severance and change in control payments and benefits. We believe each of these elements support the company's overall compensation objectives.

The Compensation Committee's philosophy is that executive compensation should reflect the value created for our stockholders, while supporting our business strategies, operational goals, and long-range plans. Such compensation should also assist the company in attracting and retaining key executives critical to our long-term success.

- **We emphasize pay for performance.** The company's compensation program is designed to align company-wide financial, operational and total return achievements with the annual cash bonuses and equity awards granted to its named executive officers. Annual cash bonuses are paid based upon the Compensation Committee's assessment of each executive's individual performance and company-wide performance under the following key short-term and long-term performance metrics of: (i) short-term stockholder returns (weighted 15%); (ii) the strength of its balance sheet (weighted 20%); (iii) short-term growth in earnings metrics (weighted 15%); (iv) portfolio performance (weighted 10%); (v) acquisitions (weighted 10%); (vi) long-term (3 year and 5 year) stockholder returns (weighted 20%); and (vii) long-term (3 year and 5 year) growth in earnings metrics (weighted 10%), with an available rating of poor, average, good, excellent or outstanding for each measure. Individual metrics within each category are equally weighted. Equity awards, which are typically granted after fiscal year end, in recognition of the company's prior year performance under these performance metrics as well as each executive officer's individual performance for the prior fiscal year, consist of annual grants of restricted stock.
- **Alignment of executive compensation with the creation of value for our stockholders.** The combination of annual cash bonuses and restricted stock grants, which generally vest over a period of five years, except for officers approaching retirement age, creates a balanced focus on the achievement of short-term and long-term financial and operational goals and total return performance. The Compensation Committee believes that this at risk and variable compensation of annual bonuses and long-term equity incentives play a significant role in aligning management's interests with those of the company's stockholders. In 2013, approximately 67% of our CEO's total direct compensation (as shown in the following chart) and approximately 79%-88% for our other named executive officer's total direct compensation, consisted of compensation that is at risk based on our performance. Included in the CEO's 2013 compensation is a time-based promotion equity grant. Excluding this one-time grant, approximately 93% of our CEO's total direct compensation was considered at risk. Typically 100% of the annual equity awards we grant to our executive officers are based on our performance.

CEO Total Direct Compensation(1)

(1) The term total direct compensation means the aggregate amount of Mr. Case's 2013 actual base salary, actual annual cash incentive bonus for 2013 performance (paid in January 2014), and the grant date fair value of long-term incentive awards based on 2013 performance (granted in 2013 and January 2014), calculated as prescribed by Accounting Standards Codification 718. The performance equity awards consist of grants made in March 2013 related to the successful completion of the ARCT merger, performance-based awards granted in September 2013 upon Mr. Case's promotion to CEO, and annual performance grants for 2013. A portion of the promotion equity award consists of a time-based equity award granted in September 2013 upon Mr. Case's promotion to CEO, and the remainder of the promotion equity award is performance based.

Table of Contents

- **A flexible approach to annual cash incentive compensation and equity based long-term incentive awards.** The Compensation Committee has established targeted goals under each of the performance metrics to guide it in its evaluation of company performance and its determination of annual cash bonuses and equity awards. While the program provides structure to the Compensation Committee's determinations, it also preserves the Compensation Committee's flexibility to exercise its discretion in assessing company performance (including a comparison to our peer group's performance), market conditions and any other relevant data. This ultimately helps to ensure that the incentive bonus program is both responsive to market conditions and linked to the actual performance of the company. In addition to these performance metrics, the Compensation Committee employs targeted multiples of salary as guidelines for determination of cash bonuses and equity award values when performance approximates targeted (or good) performance and pay in excess of these multiples for excellent or outstanding performance. For 2013, based on extraordinary accomplishments under its performance metrics, the company paid above-target multiples for cash bonuses and equity awards for each of its named executive officers.

- **Competitive Aggregate Total Direct Compensation.** The Compensation Committee, with the assistance of its independent compensation consultant, annually reviews the executive compensation program to ensure that it provides competitive pay opportunities. The Compensation Committee believes it is important to provide aggregate total direct compensation to named executive officers as a group that is targeted within a range of median aggregate total direct compensation paid by the company's peer group during the same time frame.

- **We are mindful of the concerns of our stockholders regarding executive compensation pay practices.** To address these concerns we have adopted the following policies during the last year:

- A clawback policy that enables us to recover incentive compensation awards in the event of negligence or misconduct directly related to a material restatement of our financial or operating results, or miscalculated performance metrics that, if calculated correctly, would have resulted in a lower payment; and

- An anti-pledging policy that prohibits directors, officers, employees and their families from holding our securities in a margin account, and pledging any of our securities for any loans or indebtedness.

Additionally, the Compensation Committee is considering certain modifications to the company's existing compensation program for the 2014 calendar year which would result in distinct short-term and long-term plans based on separate metrics. Under the long-term incentive plan, an individual's award would be granted in performance-vesting equity awards, based strictly on achieving future performance goals. See further detail of the anticipated changes to the compensation program on page 32.

- **Other Highlights of Our Compensation Practices.** The Compensation Committee seeks to ensure good corporate governance practices are a key element of our executive compensation program. Highlights include:

- A stock ownership program for our directors and executive officers with a position of executive vice president and above, with the Named Executive Officers required to own a fixed number of shares based on three to five times their base salaries,

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

depending on their position. All executive officers are in compliance with the stock ownership guidelines;

- An anti-hedging policy is in place that prohibits directors, officers, employees and their families from entering into speculative transactions involving the company's stock;
- In the event of a change in control, without termination, no cash payments will be made to our named executive officers, including our CEO;
- There are no tax gross up payments;
- The Compensation Committee employs the services of an independent compensation consultant, who assists the Committee in its review of the market competitiveness of the compensation program and appraises the Committee of market trends; and
- The Compensation Committee carefully considers the risks associated with all of the compensation programs.

Table of Contents*Favorable Stockholder Say on Pay Vote*

The company provides its stockholders an advisory say on pay vote on the compensation of named executive officers on an annual basis. At our 2013 Annual Meeting of Stockholders, stockholders expressed substantial support for the compensation of named executive officers, with approximately 95% of the votes cast approving the advisory say on pay vote. Following our 2013 Annual Meeting of Stockholders, our Compensation Committee evaluated the results of the 2013 advisory say on pay vote. The Compensation Committee also considered many other factors in evaluating our executive compensation programs as discussed in this Compensation Discussion and Analysis, including the Compensation Committee's assessment of the interaction of the company's compensation programs with its financial and operational objectives, evaluations of its programs by an external consultant, and review of data of a comparator group of peers, each of which is evaluated in the context of the Compensation Committee's responsibility to act in the company's best interests. While each of these factors had a bearing on the Compensation Committee's decisions regarding our named executive officers' compensation, the Compensation Committee did not make any material changes to our executive compensation program in 2013 and policies as a result of the 2013 advisory say on pay vote. The Compensation Committee will continue to consider the outcome of say on pay proposals when making future compensation decisions for the named executive officers.

Elements of Compensation

To achieve its goals, the Compensation Committee offers executive officers a compensation package that is primarily comprised of the elements described in the table below. In structuring executive compensation packages, the Compensation Committee considers how each component promotes retention and motivates performance. Base salaries and severance and other termination benefits are primarily intended to attract and retain highly qualified executives. We believe that in order to attract and retain top executives, we need to provide them with compensation levels that reward their continued service.

Annual bonuses and long-term equity incentives are the elements of the executive compensation program that are designed to reward performance and provide incentives to create stockholder value. Annual bonuses are primarily intended to motivate named executive officers to achieve specific strategies and operating objectives, although we also believe it helps us attract and retain top executives. Our long-term equity incentives are primarily intended to align named executive officers' long-term interests with stockholders' long-term interests, although we believe they also play a role in helping us reward performance and to attract and retain top executives.

Element	Objective Served
<i>Base Salary</i>	Fixed base pay that rewards performance of core job duties, and recognizes individual achievements, contributions and tenure.
<i>Annual Cash Incentive Bonus</i>	Variable cash awards based on performance and responsibility levels to compensate each executive for achieving our corporate goals and achievement of our short-term and long-term objectives.
<i>Equity Based Long-term Incentive Awards Restricted Stock</i>	Variable equity awards also granted based on performance and responsibility levels and designed to foster retention and align the executive officers' interests with the long-term interests of our stockholders.
<i>Severance and Change in Control Payments and Benefits</i>	Promotes executive recruitment and retention. Ensures best efforts for the benefit of our stockholders in the event of an actual or threatened change of control.

Compensation Process

Compensation Consultant

To assist in its efforts to meet the objectives outlined above, the Compensation Committee has retained FPL Associates, LP, or FPL, a nationally-known executive compensation and benefits consulting firm specializing in real estate companies, to provide general executive compensation consulting services and to respond to any Compensation Committee member's questions. In addition, the consultant performs special executive compensation projects and consulting services from time to time, as directed by the Compensation Committee. In 2013, as in the prior year, the Compensation Committee continued to review its program designs and guidelines, and conducted its annual review of the competitiveness of its compensation program and the market practices of our peer group. The consulting services provided by FPL in connection with these reviews included:

Table of Contents

- Evaluating the current compensation program in place for the named executive officers and assistance in structuring a compensation program that meets the objectives outlined by the Compensation Committee;
- Providing competitor information to assist the Compensation Committee in selecting the appropriate peer group;
- Benchmarking the compensation for the named executive officers against the appropriate peer group;
- Identifying the appropriate mix between compensation components, including base salary, annual incentives, and long-term incentive compensation;
- Discussing market-based incentive programs, including performance metrics and targets, within the peer group companies, and providing guidance and recommendations for design modifications to program elements; and
- Reviewing an overview of industry trends as it relates to human capital across the entire real estate industry.

FPL reports only to the chairman of the Compensation Committee and the other committee members and works with management as directed by the Compensation Committee. The Compensation Committee retains the right to terminate or replace the consultant at any time. Pursuant to the Compensation Committee's charter, the Compensation Committee has the power to engage such consultants and other advisors as it deems necessary.

Peer Group Data

The Compensation Committee uses comparison data from various companies in certain peer groups as a guide in its review and determination of base salaries, annual cash bonuses and restricted stock awards. From November 2013 through January 2014, the Compensation Committee reviewed peer group data to assist in its determination regarding cash bonuses and equity awards to be earned for 2013 performance, as well as any salary increases for 2014. A similar process was conducted at the end of 2012 for the salaries established for 2013 and for the cash bonus and equity awards granted on January 4, 2013. The Compensation Committee evaluates our performance and determines whether the compensation elements and levels that are provided to our executive officers are generally appropriate relative to the compensation elements and levels provided to their counterparts at our peer companies, in light of our performance relative to our peers and in light of each executive officer's contribution to our performance. This approach enables us to respond to dynamics in the labor market and provides us with flexibility in maintaining and enhancing our executive officers' engagement, focus, and motivation for the future.

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

The Compensation Committee, with the help of the compensation consultant, periodically reviews the composition of our peer group and the criteria and data used in compiling our peer group list, and considers modifications to this group. At the end of 2012, our total market capitalization placed us in the 67th percentile of our peer group. Despite the fact that our total market capitalization was above the targeted median of the peer group, the Compensation Committee felt that it was not necessary to change the members of our peer group last year, but anticipated changing the members of the peer group for 2013 based on the increase in our market capitalization subsequent to the \$3.2 billion acquisition of ARCT that was completed in January 2013 and the level of acquisition activity projected for the remainder of the year.

During 2013, in addition to completion of the \$3.2 billion ARCT acquisition in January, we invested \$1.5 billion directly in real estate properties. The capital raised to fund these acquisitions, combined with our year-end share price, resulted in a \$3.7 billion, or 42%, increase in our total market capitalization as of December 31, 2013 compared to December 31, 2012. Consequently, Realty Income ranked amongst the 20 largest publicly traded equity REITs in the U.S. by total enterprise value. As a result of this substantial increase in our size, the Compensation Committee decided to change the relatively consistent composition of peer groups we have used over the past several years. The Compensation Committee, with assistance from FPL, undertook a comprehensive new peer group review during the latter part of 2013 with the aim of optimizing the company's peer group for benchmarking and determining executive compensation.

Table of Contents

The new peer group was selected based on various criteria considered by the Compensation Committee including industry (public REITs, and where applicable, net-lease), size, defined by both market capitalization and total capitalization, and portfolio scale, defined by number of properties. As a result of this peer group review and evaluation, the Compensation Committee selected the new 2013 peer group shown below to be used in its assessment of our 2013 and 2014 executive compensation.

The new peer group recommended by the compensation consultant and approved by the Compensation Committee consists of 15 public real estate companies that focus on a variety of asset classes, including those having a net lease component to the extent available, and those that are similar in size to us in terms of total market capitalization (common and preferred stock, partnership units convertible into stock and long-term debt). Only a size-based peer group was used because public real estate companies of the same size have similar characteristics to our company with respect to the demands and complexity of managing a large property portfolio, a significant acquisition pipeline and extensive capital markets activities. The companies were selected so that our total market capitalization approximates the median. As of September 30, 2013, this peer group had total market capitalization ranging from approximately \$9.4 billion to \$30.0 billion. At September 30, 2013 our total market capitalization placed us in the 56th percentile of our new peer group. Our previous geographic-based peer group was eliminated in 2013 as a result of our total capitalization exceeding the total market capitalization of all but one of the companies in the geographic-based peer group. Additionally, geographic-based peer groups are not standard in our market and given our size and scale, we now complete for executive talent on a national basis. Five companies from our prior peer group, including Digital Realty Trust, Federal Realty Investment Trust, HCP, Inc., Macerich Company, and UDR, Inc., remain in our current peer group.

Management Involvement

In setting compensation for executive officers, the Compensation Committee solicits appropriate input from the Chief Executive Officer and President, Chief Operating Officer, concerning each of the other executive officers. In addition, from time to time, the Compensation Committee will direct management to work with its consultant in providing proposals, program design, and compensation recommendations. Each year, the Chief Executive Officer provides the Compensation Committee with a report regarding performance for the past fiscal year under the company's performance metrics and discusses his personal assessment of individual performance of each executive officer. In addition, at the request of the Compensation Committee, the Chief Executive Officer makes recommendations regarding salary, bonus and equity awards for each executive officer other than himself. The

Compensation Committee considers these recommendations and other factors as discussed below in making the final determinations.

Compensation Decisions and Programs

Base Salaries

Base salaries provide our executive officers with a degree of financial certainty and stability, reward them for performing their core job duties and responsibilities, recognize their tenure and are used to attract and retain highly qualified individuals. The Compensation Committee annually reviews and determines the base salaries of our executive officers at the commencement of each year, after review of performance over the prior year. Base salaries are also evaluated at the time of a promotion or other significant change in responsibilities. Increases in base salaries are based on the Compensation Committee's evaluation of such factors as an executive officer's level of responsibility and development potential, the results previously achieved by the executive officer, and the level of pay of the executive officer relative to other similarly situated executive officers at our peer companies.

Table of Contents

In connection with its review of fiscal 2013 performance and setting of compensation in January 2014, the Compensation Committee decided to increase the base salaries paid to all of our named executive officers commencing on January 1, 2014. The Compensation Committee's decision to increase 2014 salaries was based on its review of peer compensation data with the objective of aligning the base salaries of our named executive officers with those of their peers. FPL provided the Compensation Committee with 2013 base salary averages and medians of our peer group for each executive position. The Compensation Committee established a 2014 base salary for each named executive officer that was within a range of 83% to 101% of the median average 2013 base salary of each executive position of our 2013 peer group, as reported by FPL. The increases in 2014 base salaries reflect the named executive officers' increased responsibilities from the significant growth and outstanding 2013 operating performance of the company. The base salaries are shown on the following table:

Named Executive Officer	Title	2012 Salary	2013 Salary	2014 Salary
John P. Case	Chief Executive Officer (1)	\$ 350,000	\$ 527,361	\$ 800,000
Thomas A. Lewis	Vice Chairman of the Board and Former Chief Executive Officer(2)	650,000	700,000	-
Gary M. Malino	President, Chief Operating Officer	400,000	425,000	450,000
Sumit Roy	Executive Vice President, Chief Investment Officer (3)	250,000	326,042	400,000
Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	325,000	350,000	400,000
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	325,000	350,000	375,000

(1) Mr. Case was promoted to President, Chief Investment Officer in March 2013 and subsequently promoted to his current position in September 2013. His 2013 salary reflects the amounts earned during 2013 while serving in each of these roles. His ending 2013 salary of \$750,000 was effective as of September 3, 2013, the date of his promotion to CEO.

(2) Mr. Lewis retired from his position of Chief Executive Officer on September 3, 2013 and served as an Executive Advisor through January 7, 2014. He continues to serve as Vice Chairman of the Board of Directors and his 2014 compensation will be based on those services as a director.

(3) Mr. Roy was promoted to Executive Vice President, Acquisitions in March 2013 and subsequently promoted to his current position in September 2013. His ending 2013 salary of \$350,000 was effective as of September 15, 2013, the date of his promotion to CIO.

Performance Metrics

The Compensation Committee has established certain performance metrics, weightings and, target guidelines, to provide a formal structure to guide management in its performance and to guide the Compensation Committee in its determinations. During 2013, the Compensation Committee performed a review of the existing performance metrics and elected to use the same metrics as used

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

during 2012. To continue to enhance the existing structure and align compensation with performance, the Compensation Committee added a numerical scoring mechanism to the assessment process during 2013 which provides guidelines for clearly linking performance results to the concluded assessment for each category.

At the end of each year, the Chief Executive Officer provides the Compensation Committee with his personal assessment of the performance of each executive officer, excluding himself, for the year. He also presents the following tables which delineate the performance in each metric based on the numerical targets set at the beginning of the year for each metric. The results of how the actual performance compares to the target determines a rating based on a scale of poor, average, good, excellent and outstanding for each metric. Performance under each metric is assigned a numerical score on a scale of one to five, five being awarded for outstanding performance and one awarded for poor performance. Average scores are calculated for each of the categories as well as an overall weighted average across all short-term and long-term metrics. Individual metrics within each category are weighted equally to arrive at an average for each category. The Compensation Committee evaluates both actual performance under these metrics and the CEO's assessment of each officer's individual performance, and considers this information in determining the executive officer's annual cash bonuses and equity awards. In determining the amount of bonus and equity earned, the Compensation Committee employs guidelines, based on a multiple of the officer's base salary and a rating of good performance.

The acquisition of ARCT resulted in performance which far exceeded targeted levels for a number of performance metrics; including dividend per share growth, short-term and long-term FFO per share growth, and acquisition levels. Although the performance targets did not contemplate an acquisition of this size when established, we believe that performance above targeted levels would have been achieved nonetheless based on the additional \$1.5 billion that we invested in real estate during 2013, exclusive of the acquisition of ARCT.

The 2013 guideline performance metrics, their weightings and the Compensation Committee's ultimate assessment at the end of 2013 based on 2013 performance are as follows:

Table of Contents*Anticipated Changes to 2014 Compensation Program*

Although the Compensation Committee feels the current plan achieves the goal of aligning the executive officers' interests with the long-term interests of our stockholders, changes in investors' acceptance of plans that do not include strictly formulaic components has prompted the Compensation Committee to consider certain modifications to the company's existing compensation program. The modified compensation program would result in distinct short-term and long-term incentive plans based on separate metrics. The redesigned short-term incentive plan would include a mix of cash and equity awards, which will depend on the executive and desired compensation mix. Short-term performance includes both objective and subjective performance measures and may include individual performance metrics. Under the long-term incentive plan, an individual's award would be granted in performance-vesting equity awards, based strictly on achieving future performance goals. With respect to the performance based restricted stock, the award will be purely based on objective performance metrics and determined primarily by relative stockholder return metrics with a smaller component based on balance sheet metrics. The table below highlights the major components of the existing compensation program and the proposed changes thereto.

Factors Affecting Compensation Decisions

As previously noted, the ARCT acquisition closed on January 22, 2013 and added total assets of approximately \$3.2 billion to our portfolio. An additional \$1.5 billion was invested directly in real estate during the year. Of the \$4.7 billion invested during 2013, \$4.0 billion occurred during the first six months of the year, evidencing that approximately 85% of our asset growth occurred during the first half of 2013. The effect of these acquisitions resulted in a 42% increase to our total market capitalization during 2013. As a result of this significant increase in our total market capitalization, we identified early in the year that our 2012 peer groups were no longer reflective of the increased size and operations of our company.

2013 bonus and equity-based award targets were previously established and driven by base salaries that were in-line with median salaries of our 2012 peer group, which was made up substantially of companies that were significantly smaller than our larger company, after the completion of the ARCT acquisition in January 2013 and after additional acquisition activity throughout 2013.

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

The executive officers' responsibilities for operating and managing our larger, more complex company during 2013 were not reflected in these original targets. Accordingly, the Compensation Committee determined that compensation for our named executive officers should exceed the targeted amounts, because these targets were not reflective of the efforts required to grow and operate the significantly larger company. Although the amounts of cash bonuses paid and equity awards granted for 2013 for each of our named executive officers are in excess of our prior years' target levels, total compensation falls between 75% and 142% of the 2012 performance year median amounts of total compensation for our 2013 peer group.

Considering the increased size and complexity of our company for the vast majority of 2013, excellent and outstanding performance under our performance metrics were still achieved. During 2013, our company achieved a 19.4% increase in FFO per share and increased monthly dividends per share by

Table of Contents

21.2%, both annual records for our company. This FFO per share growth is over 8x greater than the average FFO per share growth experienced over the last 3 years and the dividend per share growth is over 16x greater than the average dividend per share growth over the last 3 years. 2013 has been a record year for new investments, growth and the total amount of dollars invested in real estate, of \$4.7 billion, during the year, is approximately 5x greater than the historical 3-year average annual amount of dollars invested in real estate. These high growth factors evidence our achievement of multiple years of growth within just one year. Each of our executive officers were instrumental in achieving the growth and successful operating results that were realized during 2013 and, accordingly, the Compensation Committee determined that their actual bonuses and equity-based awards should reflect their results relative to the performance benchmarks.

Compensation for the Chief Executive Officers in 2013

Mr. Lewis, who served as Chief Executive Officer through September 2013 and served as an Executive Advisor through January 7, 2014, received total compensation for 2013 equal to 101% of the 2012 median paid by our new peer group. Mr. Lewis' annual cash bonus is 64% above his target multiple and his annual performance equity award is 43% above his target multiple. However, these targets were based on a base salary that was established to be in-line with our 2012 peer group which consisted of substantially smaller companies. As our Chief Executive Officer, until September 3, 2013, Mr. Lewis guided us during a time of extraordinary growth whereby Realty Income became the largest net lease REIT and the 18th largest REIT in the industry. He provided the leadership needed for our acquisition of ARCT and he successfully transitioned his responsibilities as CEO to Mr. Case.

In light of Mr. Lewis' retirement as our Chief Executive Officer in September 2013 and his performance as an Executive Advisor through January 7, 2014, the Compensation Committee reviewed our performance through the date of Mr. Lewis' retirement in determining his cash bonus and equity awards for 2013 performance. In December 2013, the Compensation Committee granted Mr. Lewis 80,364 shares for his service as our Chief Executive Officer and Executive Advisor during 2013. In determining the amount of this equity award, the Compensation Committee considered the \$3.2 billion acquisition of American Realty Capital Trust that occurred in January 2013, the additional acquisitions of \$1.4 billion of real estate that closed through September 30, 2013, the 21.1% increase in FFO per share and the 21.6% increase in dividends paid per common share that occurred through September 30, 2013, shortly after Mr. Lewis retired as Chief Executive Officer. Similar to the growth factors discussed above, this acquisition growth was nearly 5x greater than the 3-year average amount of acquisitions and the dividend per share growth is over 16x greater than the average dividend per share growth over the last 3 years, evidencing significant growth during 2013 when he was Chief Executive Officer. These unprecedented and extraordinary achievements that occurred before Mr. Lewis' retirement from CEO resulted in an increase in his cash bonus and annual stock grant award. The stock award granted to Mr. Lewis for his 2013 performance vested immediately, in accordance with our policy.

In order to provide a clearer picture as to compensation awarded for a particular year, we are providing additional compensation information not required by the SEC, which we believe is meaningful to our stockholders. The following tables for Mr. Lewis and Mr. Case, show each CEO's total compensation for services performed in 2013. In accordance with SEC rules, the Summary Compensation Table discloses the grant date value of equity awards granted in the listed years, even though such awards were for service in prior years. In contrast, these tables show the grant date value of such awards for the actual year in which services were performed. In the case of Mr. Lewis, due to his retirement as our Chief Executive Officer in September 2013, his annual equity awards for both the 2012 and 2013 performance years were granted during 2013, and accordingly, both are presented in the stock awards column of the Summary Compensation Table. The table below summarizes his total compensation for services performed in 2013.

(1) Excludes \$2,438,015 of equity awards granted to Mr. Lewis in 2013 for services performed in 2012. This amount is included in the Stock Awards column of the Summary Compensation Table.

Mr. Case's total compensation for 2013 was 94% of the 2012 median paid by our new peer group. Mr. Case's annual cash bonus is 42% above his target multiple and his annual performance equity award is 58% above his target multiple. However, these targets were based on a base salary that was

established to be in-line with our 2012 peer group which consisted of substantially smaller companies. Mr. Case's total compensation for purposes of this calculation includes the value of the ARCT transaction-related equity awards and excludes the value of time- and performance-based equity awards related to his promotion to CEO. Mr. Case, after serving as Chief Investment Officer for the first three months of the year, served as President, Chief Investment Officer beginning in March 2013, and was responsible for the successful execution of our expanded acquisitions strategy focused on increasing the size, quality and diversity of our real estate portfolio. During this time, we invested over \$1.4 billion in real estate through September 30, 2013. Additionally, during his tenure as Executive Vice President, Chief Investment Officer, Mr. Case successfully negotiated and managed our \$3.2 billion acquisition of ARCT in January 2013. These acquisitions collectively increased the diversification and quality of our portfolio, while significantly increasing revenue, earnings and dividends. During the last four months of 2013, while serving as Chief Executive Officer, Mr. Case has successfully continued the execution of our business plan helping lead the company to its record operating results. The following table shows Mr. Case's total compensation for services performed in 2013.

	Base Salary	Cash Bonus	Annual Equity Award	Other Compensation	Normalized Compensation	Non-recurring Equity Award(1)	Total Compensation
John P. Case	\$527,361	\$1,500,000	\$2,499,991	\$33,640	\$4,560,992	\$6,150,115	\$10,711,107

(1) Includes the value of time-based and performance-based equity awards granted in connection with Mr. Case's promotion to CEO as well as equity awards granted for his role in the ARCT acquisition. Further detail of these awards is included on page 37.

Compensation for the Other Named Executive Officers in 2013

Mr. Malino's total compensation for 2013 was 100% of the 2012 median paid by our new peer group. Mr. Malino's annual cash bonus is 65% above his target multiple and his annual performance equity awards is 29% above his target multiple. However, these targets were based on a base salary that was established to be in-line with our 2012 peer group which consisted of substantially smaller companies. Mr. Malino was responsible for overseeing the operating activities of our significantly larger company during the year. He successfully managed the operations of our company through the integration of ARCT and the \$1.5 billion of additional properties acquired, while managing our staffing needs.

Mr. Roy's total compensation for 2013 was 142% of the 2012 median paid by our new peer group. Mr. Roy's annual cash bonus is 99% above his target multiple and his annual performance equity award is 53% above his target multiple. However, these targets were based on a base salary that was established to be in-line with our 2012 peer group which consisted of substantially smaller companies. Mr. Roy's total compensation for purposes of this calculation includes the value of ARCT transaction-related equity awards. Mr. Roy did an outstanding job in his roles as both our Senior and Executive Vice President, Acquisitions, which he held through October 2013. During that time he was integral to the successful negotiations, closing, and integration of our acquisition of ARCT. In October 2013, he was promoted to Executive Vice President, Chief Investment Officer, and has continued to expand our acquisition strategy and build on key relationships that we have in the marketplace.

Mr. Meurer's total compensation for 2013 was 75% of the 2012 median paid by our new peer group. Mr. Meurer's annual cash bonus is 86% above his target multiple and his annual performance equity award is 39% above his target multiple. However, these targets were based on a base salary that was established to be in-line with our 2012 peer group which consisted of substantially smaller companies. Mr. Meurer was instrumental in expanding our credit facility, securing our credit rating upgrade, and accessing the capital markets to raise over \$4.0 billion in gross capital during 2013. This capital raising activity allowed us to fund our

acquisitions during 2013. Additionally, the increase above his target makes his total compensation more comparable with other CFOs within our peer group.

Mr. Pfeiffer's total compensation for 2013 was 97% of the 2012 median paid by our new peer group. Mr. Pfeiffer's annual cash bonus is 21% above his target multiple and his annual performance equity award is 14% above his target multiple. However, these targets were based on a base salary that was established to be in-line with our 2012 peer group which consisted of substantially smaller companies. Mr. Pfeiffer's total compensation for purposes of this calculation includes the value of ARCT transaction related equity awards. Mr. Pfeiffer had a large role in the diligence and negotiations that occurred in conjunction with the ARCT acquisition and continued to provide oversight and legal expertise for an acquisition of this magnitude.

Table of Contents*Annual Cash Bonuses*

Annual cash bonuses are designed to supplement the pay of our executive officers (and our key management personnel) so that their total compensation is competitive and properly rewards the participants for their efforts in achieving our objectives. As in prior years, the Compensation Committee employed targeted cash bonus payments, expressed as a multiple of base salary for targeted performance, ranging from one times to two times the officer's base salary based on position, to guide it in its determinations regarding the amount of bonus to be paid to each executive officer. The Compensation Committee, in its discretion, may pay higher or lower amounts than these targeted bonus amounts based on company short-term and long-term performance, the status of our industry, market conditions, individual performance, peer group practices and other factors as it deems relevant.

As previously discussed, at the end of the performance year, the Chief Executive Officer presented the performance metrics table included above on page 31 which delineates the performance in each metric and made recommendations to the Compensation Committee regarding the amount of cash bonuses to be paid to the executive officers, other than himself. The Compensation Committee evaluated both actual performance under these metrics and the CEO's assessment of each officer's individual performance, and considered this information in determining the executive officer's annual cash bonuses. Additionally, the Compensation Committee seeks to maintain a consistent ratio of cash-based and equity-based awards in their determination of the total annual performance compensation. In determining the amount of bonus earned, the Compensation Committee employed guidelines, based on a multiple of the officer's base salary. The guideline percentages for 2013 and the actual percentages paid for 2013 are in the following table.

Named Executive Officer	Title	Targeted Base Salary Multiple	Targeted Cash Bonus	Actual Base Salary Multiple	Actual 2013 Bonus⁽¹⁾
John P. Case	Chief Executive Officer	2.00x	\$ 1,054,722	2.84x	1,500,000
Thomas A. Lewis	Vice Chairman of the Board and Former Chief Executive Officer	2.00x	1,400,000	3.29x	2,300,000
Gary M. Malino	President, Chief Operating	1.25x	531,250	2.06x	875,000
Sumit Roy	Officer Executive Vice President, Chief Investment Officer	1.00x	326,042	1.99x	650,000
Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	1.00x	350,000	1.86x	650,000
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	1.00x	350,000	1.21x	425,000

(1) The bonuses shown for 2013 were paid in January 2014 to each of the named executive officers based on 2013 performance, except for Mr. Lewis's bonus which was paid in December 2013.

Equity Based Long-Term Incentive Awards

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

The Compensation Committee grants restricted stock awards on an annual basis, generally in January, in recognition of individual executive and company performance for the prior fiscal year as well as long-term achievements. Additional awards can be granted from time-to-time based on non-recurring events or transactions where the Compensation Committee deems additional compensation in the form of equity awards to be warranted.

The restricted stock awards are designed to increase executive officers' common stock ownership, motivate our executive officers to improve long-term common stock dividend performance, align their interests with the interests of stockholders, encourage long-term dedication and operate as a retention mechanism for key members of our management.

Our common stock grants typically vest over a period of five years. The Compensation Committee approved, effective July 1, 2013, changing the accelerated vesting of each restricted stock award that had originally been granted from January 1, 2001 to January 1, 2007 with ten-year vesting to five-year vesting from the issuance date. This decision was made based on our determination that a 10-year vesting period for equity awards was not in-line with market terms. Since all grants were made more than five years ago, all of the remaining unvested shares under these grants vested. On July 1, 2013, 212,827 restricted shares vested due to this action, resulting in additional compensation expense of \$3.7 million in 2013, which was primarily related to our executive officers.

Table of Contents*Annual Performance Grants*

For the annual performance grants, the determination of the amount of restricted stock awards granted each January is based on how we performed under our performance metrics for the just completed year, as well as market data for that fiscal year. The Compensation Committee considers the equity awards granted in January each year as earned for our performance during the prior fiscal year.

SEC disclosure rules require that the restricted stock awards shown in the Grants of Plan Based Award table for 2013 reflect those shares granted in the most recently completed fiscal year which, in our case, includes grants made in January 2013 which are reflective of the 2012 performance year. As such, to provide a more complete and relevant disclosure of compensation for the 2013 performance year, we have provided supplemental information in the footnotes to the table regarding restricted stock earned, based on 2013 performance and granted in January 2014, as discussed below.

As part of its process of implementing its objectives to target aggregate total direct compensation at or around the median of our peer group, and to increase the percentage of compensation that is variable, at risk and tied to the interests of our stockholders, the Compensation Committee employs targeted base salary multiples, ranging from 1.75 times to 3 times the officer's base salary that varies based on position, for the restricted stock awards to be granted to each executive officer. Actual awards depend on our accomplishments in accordance with the performance metrics reviewed by the Compensation Committee, at the close of each year as noted in the performance matrix on page 31, and other factors that the Compensation Committee determines are relevant. The targeted base salary multiples and awards for the grants made for our 2013 performance, to our named executive officers, are set forth in the table below, along with the actual base salary multiples and awards granted to these officers in early 2014. The Compensation Committee may, in its discretion, choose to grant shares either below or above this multiple.

The guideline percentages for 2013 and the actual percentages paid for 2013 are in the following table.

Named Executive Officer	Title	Targeted Base Salary Multiple (2013)	Targeted Equity Award (in shares)(1)	Actual Base Salary Multiple(2)	2014 Award for 2013 Performance (in shares) (3)
John P. Case	Chief Executive Officer	3.00x	40,257	4.74x	63,613
Thomas A. Lewis	Vice Chairman of the Board and Former Chief Executive Officer	3.00x	56,255	4.29x	80,364
Gary M. Malino	President, Chief Operating Officer	2.00x	21,628	2.59x	27,990
Sumit Roy	Executive Vice President, Chief Investment Officer	1.75x	14,518	2.68x	22,265
Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	1.75x	15,585	2.43x	21,628
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	1.75x	15,585	2.00x	17,812

(1) The targeted equity award represents the value calculated by multiplying the base salary paid to the respective executive officer in 2013 by the targeted base salary multiple, and then dividing by the closing price of our common stock on January 21, 2014 of \$39.30. For Mr. Lewis, the value was calculated by multiplying his base salary in 2013 by his targeted base salary multiple, and then dividing by the closing price of our

common stock on December 31, 2013, the date of the award, of \$37.33.

(2) The actual base salary multiple represents the value of the January 21, 2014 award of restricted stock, calculated by multiplying the number of shares awarded times the closing price of our common stock on such date, as a percentage of the base salary paid to the respective executive officer in 2013. Mr. Lewis' award was granted on December 31, 2013; the actual base salary multiple represents the value on the grant date, calculated by multiplying the number of shares awarded times the closing price of our common stock on such date, as a percentage of his 2013 base salary.

(3) The grants of restricted stock represent the awards to each of the named executive officers based on 2013 performance.

Non-recurring Promotion and Transaction Related Grants

During 2013, additional grants were made to certain named executive officers as compensation for non-recurring events and transactions that occurred during the year. During March 2013, grants were made to Mr. Case, Mr. Roy, and Mr. Pfeiffer as compensation for their roles in the successful completion of the ARCT acquisition. Additionally, during September 2013, grants were made to Mr. Case in connection with his promotion to CEO.

Table of Contents

The number of non-recurring shares granted during 2013 is summarized in the following table:

Named Executive Officer	Title	ARCT Equity Award (in shares)	Promotion Time-based Equity Award (in shares)	Promotion Performance-based Equity Award (in shares)	Total non-recurring Equity Award (in shares)
John P. Case	Chief Executive Officer	22,989	77,180	51,454	151,623
Sumit Roy	Executive Vice President, Chief Investment Officer	9,195	-	-	9,195
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	4,598	-	-	4,598

As a result of Mr. Case's promotion to Chief Executive Officer, as described in his employment agreement, the Compensation Committee set Mr. Case's salary level at \$800,000 beginning in 2014, and set a target cash bonus amount of 200% of salary. In keeping with our broader compensation philosophy, the salary level and resulting level of cash compensation is materially consistent with the peer market median for both such components. Additionally, although Mr. Case is an internal promotion as opposed to an external CEO hire, recognizing Mr. Case's relatively short tenure at the company, the Compensation Committee determined it was appropriate and in stockholders' best interests to provide a one-time equity grant that partially vests subject to ongoing future performance (as further detailed below) and one that vests separately over time. The Compensation Committee believes that this promotes ongoing retention amidst a very competitive environment in the net-lease sector, further aligns Mr. Case's interests with those of our stockholders, and continually motivates him to focus on a variety of key performance metrics.

Typically 100% of equity awards granted to our executive officers are based on our performance, however, the Compensation Committee determined that it was appropriate to award a portion of the equity awards granted to our CEO upon his promotion in September 2013 as a time-vesting equity award. In connection with Mr. Case's appointment as Chief Executive Officer, he was granted 77,180 shares of restricted common stock (the 2013 Time Award). The 2013 Time Award vests ratably on December 31 of 2013, 2014, 2015 and 2016, subject to Mr. Case's continued employment through the applicable vesting date. Additionally, Mr. Case was granted 51,454 shares of restricted common stock (the 2013 Performance Award). The 2013 Performance Award vests over the term of his employment agreement on December 31 of 2013, 2014, 2015 and 2016 based on the performance metrics set forth below, with a maximum of 12,864 shares that can vest at each date. The vesting of such shares will be based on our achievement relative to the following seven annual performance metrics (with a range of 0 to 3,676 shares per performance metric): (i) adjusted funds from operations available to common stockholders per share growth, (ii) dividend per share growth, (iii) interest coverage ratio, (iv) fixed charge coverage ratio, (v) debt to adjusted earnings before interest, taxes, depreciation and amortization, (vi) portfolio occupancy and (vii) acquisitions (each, a Performance Metric).

If the company achieves at or below the poor threshold for the applicable calendar year with respect to an applicable Performance Metric, then none of the shares of our restricted common stock subject to such Performance Metric's tranche will vest. If we achieve within the range of the average, good, excellent or outstanding threshold for the applicable calendar year with respect to an applicable Performance Metric, then 75%, 125%, 150% or 200%, respectively, of a targeted 1,838 shares subject to such Performance Metric's tranche will vest. However, in no event will more than an aggregate of 12,864 shares of our common restricted stock vest with respect to any calendar year, and no more than 51,454 shares will vest, in the aggregate, pursuant to the 2013 Performance Award.

Other Benefits

We provide medical and other benefits to our named executive officers that are similar to those benefits offered to our full-time employees, including employer matching contributions to their 401(k) savings accounts and coverage under a health and disability insurance program.

When the Compensation Committee believes that it is necessary, we will occasionally supply perquisites to a Named Executive Officer. During 2013, we reimbursed Mr. Case for legal fees and expenses of \$25,000 incurred in connection with the negotiation of his Amended and Restated Employment Agreement. The Compensation Committee reviews such perquisites and other benefits provided to our executive officers as part of its overall review of executive compensation. The

Table of Contents

Compensation Committee has determined the type and amount paid in perquisites to be within the appropriate range of competitive compensation practices.

Severance and Change in Control Arrangements

We have employment agreements with each of our named executive officers, and other executive officers, which provide for severance payments and other benefits to the officers if their employment is terminated by us without cause or by the executive due to a constructive termination, including any such termination following a change of control of us. We do not provide any tax gross-up payments.

In general, the employment agreements provide that in the event of a change in control, without termination, no cash payments will be made to our named executive officers. The only benefit they are entitled to is the accelerated vesting of their outstanding equity awards. In the event of a change in control and a qualifying termination within 12 months after the change in control, we will provide severance equal to 18 months of base salary plus the average bonus paid over the past three years, and we will provide continued medical insurance for 18 months (or, with respect to Mr. Case, 12 months) following termination. In the event a qualifying termination occurs prior to, or later than 12 months following a change of control, the benefits equal 12 months of base salary plus the average bonus paid over the past three years, and we will provide continued medical insurance for 12 months following termination. Also in general, in accordance with the terms of our restricted stock agreements, upon a qualifying termination or change of control, the vesting of all unvested shares of restricted stock accelerates.

In the event of a change in control termination, Mr. Case's employment agreement also provides for a severance equal to (a) 36 months of base salary, plus three times his bonus amount, which is generally defined to mean (i) Mr. Case's target bonus (for a termination in 2013, 2014, or 2015), (ii) the average of the last two years' cash bonus paid to Mr. Case (for a termination in 2016) or (iii) the average of the last three years' cash bonus paid to Mr. Case (for a termination in 2017 or later); (b) a prorated portion of his target bonus for the partial fiscal year; (c) any accrued but unpaid wages and accrued but unused vacation pay; and (d) any unearned but unpaid annual bonus with respect to the prior fiscal year. In the event of a qualifying termination, Mr. Case's employment agreement also provides for a severance equal to (a) 24 months of base salary, plus two times his bonus amount, as defined above; (b) any accrued but unpaid wages and accrued but unused vacation pay; and (c) any unearned but unpaid annual bonus with respect to the prior fiscal year.

The Compensation Committee believes these benefit levels are reasonable. The payments and benefit levels under the employment agreements did not influence and were not influenced by other elements of compensation. The agreements were designed to help attract and retain key employees, preserve employee morale and productivity and promote continuity of management in the event of an actual or threatened change in the control of us. These change in control benefits allow executives to assess takeover bids objectively without regard to the potential impact on their individual job security.

Executive Stock Ownership Requirements

The Board of Directors has implemented stock ownership requirements for the company's CEO, President, and the Executive Vice Presidents, to more closely align the interests of these individuals with the interests of our stockholders and to further promote the

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

long-term growth of the price of our common stock. The minimum share requirements were established as follows:

<u>Position</u>	<u>Guideline(1)</u>	<u>Minimum Share Ownership Requirement</u>
Chief Executive Officer	5 times base salary	87,565
President	4 times base salary	42,821
Executive Vice President	3 times base salary	26,488

(1) The requirement for each person subject to these Guidelines is determined on an individual basis, first in dollars as a multiple of the executive's annual base salary, and then by converting such amount to a fixed number of shares.

As of January 1, 2014, each executive subject to the guidelines met or exceeded the stock ownership requirements.

For each of these executives, the stock ownership requirement was determined using their base salaries as of January 1, 2013 and the average closing price of the company's common stock for the period November 1, 2012 through December 31, 2012, and they have until January 1, 2018 to satisfy

Table of Contents

their ownership level. For persons assuming an Executive-level position after January 1, 2013, the stock ownership requirement under these guidelines will be determined using their base salaries as of the date they become subject to these guidelines and using the average closing common stock price for the 60 trading days prior to such date, with five years to achieve the requirement. If an individual's share ownership requirement increases because of a change in position, a five-year period to achieve the incremental amount of shares will begin on the effective date of the change in position. All vested and unvested restricted stock awards qualify towards satisfaction of the requirement. Compliance will be evaluated on an annual basis, as of December 31 of each year.

Tax Considerations

Section 162(m) of the Code limits the deductibility of compensation paid to our Chief Executive Officer, former Chief Executive Officer and our three other most highly compensated executive officers, other than the Chief Financial Officer. To qualify for deductibility under Section 162(m), compensation (including base salary, annual bonus, stock option exercises, compensation attributable to vesting of stock grants and nonqualified benefits) in excess of \$1,000,000 per year, paid to each of these executive officers, generally must be performance-based compensation as determined under Section 162(m). While the Compensation Committee considers whether to structure compensation so that it satisfies the performance-based compensation requirements under Section 162(m), the Compensation Committee balances the costs and burdens involved in doing so against the value to us, and our stockholders, of the potential tax benefits. Accordingly, the Compensation Committee reserves the right to design programs that recognize a full range of performance criteria important to our success, even where the compensation paid under such programs may not be fully deductible as a result of Section 162(m).

Despite the fact that the incentive bonuses and stock-related awards for 2013 were determined by taking into consideration certain financial and strategic goals, the Compensation Committee did not apply these factors on a strict formulaic basis. As a result, incentive bonuses and stock-related awards, granted or earned in 2013, did not satisfy the performance-based compensation requirements of Section 162(m). As a result, compensation of \$22.3 million, in aggregate, was not deductible from a tax perspective for 2013. We believe that we qualify as a REIT under the Code and generally are not subject to federal income taxes, provided we distribute to our stockholders at least 90% of our taxable income each year. As a result of the company's tax status as a REIT, the loss of this deduction did not affect the amount of federal income tax payable by the company for its 2013 taxable year. However, the loss of this deduction increased the portion of the company's 2013 distributions that were taxed as dividends to its stockholders and reduced the portion of such distributions treated as a return of capital. The Compensation Committee will continue to evaluate the advisability of providing performance-based compensation under Section 162(m).

(1) The amounts shown include amounts earned, but a portion of which may be deferred, at the election of the officer under our 401(k) retirement plan.

(2) The bonuses shown were paid in January of the following year, for performance during the year shown, except for Mr. Lewis' 2013 bonus which was paid in 2013.

(3) Represents the grant date fair value of restricted stock grants, which is calculated by multiplying the applicable shares by the closing market price of our common stock on the date of grant as prescribed by Accounting Standards Codification Topic 718.

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

The stock awards shown reflect the grants of restricted stock during each of the fiscal years presented above. Our general practice is to grant our equity awards in January of each year for performance during the previous fiscal year. However, during 2013, our restricted stock grants reflect grants for annual performance, the closing of the ARCT acquisition, and awards related to promotions (See Grants of Plan-Based Awards Table.) Additionally, due to Mr. Lewis' retirement as our Chief Executive Officer in September 2013 and his executive advisory services through January 2014, Mr. Lewis' stock award for 2013 performance was granted in December 2013 instead of January 2014, resulting in the grant of two stock awards during fiscal 2013 shown in the table above; 1) \$2,438,015 grant date fair value of shares granted on January 4, 2013 related to the 2012 performance year and 2) \$2,999,988 grant date fair value of shares granted on December 31, 2013 related to the 2013 performance year.

(4) The stock awards shown reflect the grants of restricted stock during each of the fiscal years presented above. Because we believe that the information is relevant to our investors, we have chosen to present supplemental disclosure regarding the grant of restricted stock on January 21, 2014, which represents the award to each of the named executive officers based on their 2013 performance, with the exception of Mr. Lewis. See footnote 4 to the Grants of Plan-Based Awards Table.

(5) The following table sets forth matching contributions by us to the named executive officer's 401(k) savings account and the cost of term life premiums paid by us in 2013. During 2013, we reimbursed Mr. Case for legal fees and expenses of \$25,000 incurred in connection with the negotiation of his Amended and Restated Employment Agreement, as listed in the table below:

Name	401(k) Matching Contributions	Group Term Life Insurance Payments	Legal Expenses
John P. Case	\$7,650	\$ 990	25,000
Thomas A. Lewis	7,650	4,356	-
Gary M. Malino	7,650	2,838	-
Sumit Roy	7,650	660	-
Paul M. Meurer	7,650	990	-
Michael R. Pfeiffer	7,650	1,518	-

(6) Mr. Case was the President, Chief Investment Officer until September 3, 2013 when he became Chief Executive Officer. Mr. Case's compensation for 2013 includes equity incentive awards associated with this promotion and his achievements on the ARCT acquisition.

Table of Contents

(7) Mr. Lewis was Chief Executive Officer until September 3, 2013. He remained with us until early 2014 to assist with the transition to Mr. Case, and continues to serve as Vice Chairman of our Board of Directors.

(8) Mr. Roy's employment with us began on September 6, 2011. The amount shown for 2011 in the table above represents the pro-rated portion of his base salary of \$250,000, as actually paid to him in 2011.

Grants of Plan-Based Awards Table

The following table sets forth summary information concerning all grants of plan-based awards made to the named executive officers during the 2013 fiscal year.

(1) The grant date fair value has been calculated by multiplying the closing market price of our common stock at the grant date by the number of restricted stock awards, as prescribed under Accounting Standards Codification Topic 718.

(2) One-fourth of the performance units vest annually on December 31, 2013, 2014, 2015 and 2016, based on the achievement of seven annual performance metrics discussed on page 37. Represents the threshold, target and maximum number of shares that may vest.

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

(3) Typically 100% of equity awards we grant to our executive officers are based on our performance. The 77,180 shares of restricted stock that were granted to Mr. Case on September 3, 2013 were not awarded based on specific past or future performance metrics. The remainder of the plan-based awards granted to Mr. Case and the other executive officers were based on performance metrics.

(4) The stock awards shown in the table above reflect the grants of restricted stock during 2013 based on our 2012 performance, the closing of the ARCT acquisition, and awards related to promotions. With respect to Mr. Lewis, this also includes his stock award for our 2013 performance, which was made in December 2013, reflecting his services as our Chief Executive Officer until in September 3, 2013 and his executive advisory services through January 7, 2014. Consistent with our vesting policy his annual grant of restricted stock for his 2013 fiscal year performance vested immediately. The grants of restricted stock for our other named executive officers for our 2013 performance were made in January 2014 consistent with past practices. We do not provide any retirement benefits, other than the opportunity to participate in a 401(k) plan. We do not currently sponsor any qualified or non-qualified defined benefit plans, any non-qualified defined contribution plans or deferred compensation plans. The Compensation Committee may elect to adopt such benefits if they determine that doing so is in the company's best interest.

Potential Payments upon Termination or Change in Control

Each of the named executive officers has the right to receive severance compensation upon the occurrence of certain events as specified in their employment agreements. The employment agreements provide that the executive officers will be entitled to receive severance payments, upon a termination by us without cause or a good reason or constructive termination by the executive, as applicable (each a *Qualifying Termination*), including a *Qualifying Termination* that occurs within 12 months after a change in control.

Qualifying Termination Not in Connection with a Change in Control. For a *Qualifying Termination* not in connection with a change in control each of our named executive officers is entitled to receive the following:

- a severance payment equal to twelve months' base salary, with twenty-four months' base salary for our CEO;
- an amount equal to the average of the last three years' cash bonus paid, and for our CEO, an amount equal to two times his bonus amount, which is generally defined to mean (i) Mr. Case's target bonus (for a termination in 2013, 2014 or 2015), (ii) the average of the last two years' cash bonus paid to Mr. Case (for a termination in 2016) or (iii) the average of the last three years' cash bonus paid to Mr. Case (for a termination in 2017 or later);
- payment of any accrued but unpaid wages and accrued but unused vacation pay to which the executive officer may be entitled through the date of termination and, with respect to Mr. Case, any earned but unpaid annual bonus with respect to the prior fiscal year; and
- continuation of group medical insurance coverage, at our expense, for a period of twelve months from the date of termination or until the executive officer becomes covered under another group medical insurance plan, whichever occurs first.

In addition, our time-based vesting restricted stock agreements for all employees provide that in the event of an employee's *Qualifying Termination* all unvested time-based restricted stock shall immediately become vested. If Mr. Case experiences a *Qualifying Termination* then (i) Mr. Case's 2013 Performance Award will also vest in full.

Change in Control. In the event of a Qualifying Termination on or within twelve months after a change in control, each of our named executive officers is entitled to receive the following:

- a severance payment equal to eighteen months' base salary, with thirty-six months' base salary for our CEO;
- an amount equal to the average of the last three years' cash bonuses paid, for our CEO, an amount equal to three times Mr. Case's bonus amount, as defined above;
- payment of any accrued but unpaid wages and accrued but unused vacation pay to which the executive officer may be entitled, through the date of termination; and, with respect to Mr. Case, any earned but unpaid annual bonus with respect to the prior fiscal year and a pro-rated portion of his target bonus for the year of termination; and
- continuation of group medical insurance coverage, at our expense, for a period of eighteen months (or, with respect to Mr. Case, twelve months) from the date of termination or until the executive officer becomes covered under another group medical insurance plan, whichever occurs first.

In addition, outstanding restricted stock awards would be treated as set forth above in the event of a Qualifying Termination not in connection with a Change in Control.

Termination for Death or Disability. In the event that the executive officer dies, or is physically or mentally unable to perform his or her duties, the executive officer is entitled to receive his accrued but unpaid wages and accrued but unused vacation pay, if any, as of the date of his death or disability. If Messrs. Malino, Roy, Meurer, and Pfeiffer dies, pursuant to the terms of the applicable employment agreement, his heirs will be entitled to life insurance benefits under our group life insurance program. In

Table of Contents

accordance with the terms of our time-based restricted stock agreements for all employees other than Mr. Case, upon termination of employment as a result of death, all shares of unvested time-based restricted stock held by the employee will immediately vest in full, and upon termination of employment as a result of disability, all shares of unvested time-based restricted stock will continue to vest as scheduled.

In regards to Mr. Case, in the event of a termination due to death or disability, his heirs are entitled to receive the following:

- a payment equal to twelve months' base salary;
- a payment equal to Mr. Case's bonus amount, as defined above;
- payment of any accrued but unpaid wages and accrued but unused vacation pay to which the executive officer may be entitled, through the date of termination; and any earned but unpaid annual bonus with respect to the prior fiscal year;
- company-paid healthcare continuation coverage for Mr. Case and his dependents for a period of 12 months after the termination date, or until Mr. Case or his dependents, as applicable, become covered under another group medical insurance plan, whichever occurs first; and
- accelerated vesting of all outstanding time-based vesting restricted stock awards and the 2013 Performance Award.

Termination due to Company Non-Renewal. Mr. Case's employment agreement provides that if Mr. Case's employment is terminated because the company elects not to renew the term of the agreement or the agreement's extended term expires, then, in each case, he would become entitled to receive the severance payments and benefits described above (for a termination due to death or disability) except Mr. Case would be entitled to receive (i) cash severance equal to the sum of (A) 18 months' of Mr. Case's then-current base salary and (B) 1.5 times the bonus amount, as defined above, and (ii) accelerated vesting of all time-based company equity awards and prorated vesting of all performance-based equity awards.

Retirement. Upon Mr. Case's retirement (as defined in his employment agreement), all then-outstanding company equity awards held by Mr. Case will vest in full. Mr. Case must attain the age of at least 60 and he must have completed at least 10 consecutive years of service as an employee of the company in order to be eligible to retire.

Termination For Cause. Upon termination for failure to perform duties, the executive officer is not entitled to any payment or benefit other than the payment of accrued but unpaid wages and accrued but unused vacation pay as of the date of such termination, and the prorated vesting of the portion of unvested restricted shares that are scheduled to vest at the next vesting date.

Termination by Executive Officer. The executive officer may also terminate the agreement at any time, upon two weeks' notice to us, which will not result in any severance payments other than the payment of any accrued but unpaid wages and accrued but unused vacation pay to which the employee may be entitled, prorated through the date of termination.

The employment agreements provide that the executive officer must devote his or her full time, attention and energy to our business and may not engage in any other business activity which would interfere with the performance of his or her duties or be competitive with us, unless specifically permitted by our Board of Directors. This restriction does not prevent the executive officer from making passive investments, so long as the investment does not require the executive officer's services in a manner that would impair the performance of his or her duties under the employment agreement.

Definitions. A change in control means (i) an acquisition in one transaction, or a series of related transactions of the company's voting securities, by any individual or entity, immediately after which such person has beneficial ownership of fifty percent (50%) or more of the combined voting power of the company's then outstanding voting securities; (ii) a contested election of directors resulting in a change in composition of at least a majority of the members of the Board of Directors; or (iii) with limited exceptions, the consummation of a merger, consolidation or reorganization involving the company.

A constructive termination means an employee's resignation of employment within 60 days of one or more of the following events which remain uncured 30 days after employee's delivery of written notice thereof, and which resignation is effective not more than 30 days following the expiration of such cure period: (a) a material diminution in employee's authority, duties or responsibilities from those in effect immediately prior to such diminution; (b) a material reduction in employee's base salary in effect

immediately prior to such reduction; or (c) a material relocation by the company of employee's principal office location greater than 40 miles from the company's headquarters.

Termination Scenario Table

The table below estimates the payments and benefits to each of the named executive officers assuming that on December 31, 2013: (i) a Qualifying Termination occurred, not in connection with a change in control (as defined) or any other merger or consolidation of the company, (ii) a change in control and Qualifying Termination (Change in Control Termination) occurred, (iii) a change in control occurred, (iv) employment terminated due to death (and disability for Mr. Case), (v) with respect to Mr. Case only, his employment terminated due to his retirement or (vi) with respect to Mr. Case only, his employment terminated due to the company's non-renewal of the employment agreement. Not included are the effects of a termination of employment as a result of disability for all named executive officers other than Mr. Case, in which case, all shares of unvested restricted stock held by the executive officer will continue to vest as scheduled, as set forth under the Outstanding Equity Awards Table as of December 31, 2013 on page 42. Excluded from the table below are certain benefits provided to all employees, such as accrued vacation, and benefits provided under our other insurance policies. With the exception of medical benefits, which are to be paid monthly, the following amounts represent lump-sum payments and benefits. Mr. Lewis, our former CEO, is not included in this table because he is no longer a named executive officer entitled to termination or change in control payment or benefits.

Pre-Approval Policies and Procedures

The Audit Committee's charter provides that the Audit Committee has the sole authority and responsibility to pre-approve all audit and permitted non-audit services to be provided to us. Pursuant to its charter, the Audit Committee has established pre-approval policies and procedures for permitted non-audit services. The Audit Committee considers each engagement on a case-by-case basis according to certain required criteria, including the skill set necessary for the engagement and that the engagement should not involve work that would result in our registered public accounting firm eventually auditing their own work. The Audit Committee is regularly updated on the status of all outstanding engagements. If we anticipate that the fees for specific engagements may

exceed the amount initially approved by the Audit Committee, the Audit Committee will consider proposals to increase the fees for such engagements on a case-by-case basis. The Audit Committee has delegated authority to its chairman to approve certain non-audit engagement fees, provided that the decisions made pursuant to this delegated authority must be presented to the full Audit Committee at its next scheduled meeting. All of the services performed by KPMG LLP in 2013 were approved in advance by the Audit Committee pursuant to the foregoing pre-approval policy and procedures.

HOUSEHOLDING OF PROXY MATERIALS

SEC rules permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies.

A number of banks and brokers with account holders who are our stockholders will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. If you have received notice from your bank or broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your bank or broker, direct your written request to Investor Relations, 600 La Terraza Blvd., or contact Investor Relations by telephone at (760) 741-2111. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should contact their bank or broker.

INCORPORATION BY REFERENCE

Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933, as amended, or the Exchange Act, which might incorporate future filings made by us under those statutes, neither the preceding Compensation Committee Report nor the Audit Committee Report will be incorporated by reference into any of those prior filings, nor will any such report be incorporated by reference into any future filings made by us under those statutes. In addition, information on our website, other than our proxy statement, Notice of Annual Meeting and form of proxy, is not part of the proxy soliciting material and is not incorporated herein by reference.
