#### **Notes to Interim Condensed Consolidated Financial Statements**

#### (1) Basis of Presentation

The interim condensed consolidated financial statements of UFP Technologies, Inc. (the Company) presented herein, have been prepared pursuant to the rules of the Securities and Exchange Commission for quarterly reports on Form 10-Q and do not include all the information and note disclosures required by accounting principles generally accepted in the United States of America. These statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2014, included in the Company s 2014 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission.

The condensed consolidated balance sheet as of March 31, 2015, the condensed consolidated statements of income for the three-month periods ended March 31, 2015 and 2014, and the condensed consolidated statements of cash flows for the three-month periods ended March 31, 2015 and 2014 are unaudited but, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments) necessary for a fair presentation of results for these interim periods.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

The results of operations for the three-month period ended March 31, 2015 are not necessarily indicative of the results to be expected for the entire fiscal year ending December 31, 2015.

Revisions

Certain revisions have been made to the Condensed Consolidated Statement of Income for the three-month period ended March 31, 2014 to conform to the current year presentation. These revisions relate to the classification of certain restructuring, rent and indirect labor items. The impact on the Condensed Consolidated Statement of Income for the three-month period ended March 31, 2014 was a decrease to costs of sales, an increase to selling, general and administrative expenses and an increase in restructuring costs in the amounts of \$148,000, \$58,000 and \$90,000, respectively. These revisions had no impact on previously reported operating income, net income or cash flows and are deemed immaterial to the previously issued financial statements.

#### (3) Fair Value Accounting

The Company has financial instruments, such as accounts receivable, accounts payable, and accrued expenses, which are stated at carrying amounts that approximate fair value because of the short maturity of those instruments. The carrying amount of the Company s long-term debt approximates fair value as the interest rate on the debt approximates the estimated borrowing rate currently available to the Company.
