Item 7.01 Regulation FD Disclosure

The Board of Directors (the Board) of Ares Dynamic Credit Allocation Fund, Inc. (the Fund) (NYSE: ARDC) has authorized the repurchase of shares of common stock of the Fund (the Common Shares) on the open market when the Common Shares are trading on the New York Stock Exchange at a discount of 10% or more (or such other percentage as the Board may determine from time to time) from the net asset value (NAV) of the Common Shares. Upon completion of required shareholder notifications, the Fund may repurchase its outstanding Common Shares in open-market transactions at the Fund management's discretion. The Fund is not required to effect share repurchases. Any future purchases of Common Shares may not materially impact the discount of the market price of the Common Shares relative to their NAV and any narrowing of this discount that does result may not be maintained.

Risk Factors

Share Repurchases Risk. There can be no assurance that repurchases of the Common Shares, if any, will cause the Common Shares to trade at a narrower discount to NAV or at a price equal to or in excess of NAV or prevent or reduce any decline in the market price of the Common Shares. Any acquisition of Common Shares by the Fund would decrease the managed assets of the Fund and therefore tend to have the effect of increasing the Fund's gross expense ratio and decreasing the asset coverage with respect to any leverage outstanding. Further, the Fund will incur transaction costs in connection with any share repurchases, which will be borne by the Fund. Any repurchases of the Common Shares will be subject to certain conditions under Rule 10b-18 of the Securities Exchange Act of 1934 and other applicable laws, including Regulation M, which may prohibit such repurchases under certain circumstances.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
