**Forward Looking Statements**

**The information contained in this quarterly report on Form 10-Q is not a complete description of our business or the risks associated with an investment in Arbor Realty Trust, Inc. We urge you to carefully review and consider the various disclosures made by us in this report.**

This report contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, among other things, the operating performance of our investments and financing needs. We use words such as anticipates, expects, believes, intends, should, will, may and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain projections of results of operations or of financial condition or state other forward-looking information. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. These forward-looking statements involve risks, uncertainties and other factors that may cause our actual results in future periods to differ materially from forecasted results. Factors that could have a material adverse effect on our operations and future prospects include, but are not limited to, changes in economic conditions generally and the real estate market specifically; adverse changes in the financing markets we access affecting our ability to finance our loan and investment portfolio; changes in interest rates; the quality and size of the investment pipeline and the rate at which we can invest our cash; impairments in the value of the collateral underlying our loans and investments; legislative/regulatory changes; the availability and cost of capital for future investments; competition; and other risks detailed from time to time in our reports filed with the Securities and Exchange Commission ( SEC ). Readers are cautioned not to place undue reliance on any of these forward-looking statements, which reflect management's views as of the date of this report. The factors noted above could cause our actual results to differ significantly from those contained in any forward-looking statement. For a discussion of our critical accounting policies, see Management's Discussion and Analysis of Financial Condition and Results of Operations of Arbor Realty Trust, Inc. and Subsidiaries Significant Accounting Estimates and Critical Accounting Policies in our Annual Report on Form 10-K for the year ended December 31, 2015 (the 2015 Annual Report ).

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We are under no duty to update any of the forward-looking statements after the date of this report to conform these statements to actual results.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

**March 31, 2016**

**Note 1 Description of Business**

Arbor Realty Trust, Inc. is a Maryland corporation that was formed in 2003 to invest in a diversified portfolio of structured finance assets in the multifamily and commercial real estate markets, primarily consisting of bridge and mezzanine loans, including junior participating interests in first mortgages, preferred and direct equity. We may also directly acquire real property and invest in real estate-related notes and certain mortgage-related securities. We conduct substantially all of our operations through our operating partnership, Arbor Realty Limited Partnership ( ARLP ), and ARLP 's subsidiaries. We are externally managed and advised by Arbor Commercial Mortgage, LLC ( ACM or our Manager ). We organize and conduct our operations to qualify as a real estate investment trust ( REIT ) for federal income tax purposes.

***Proposed Acquisition of our Manager 's Agency Platform***

On February 25, 2016, we entered into an asset purchase agreement ( Purchase Agreement ) to acquire the agency platform (the ACM Agency Business ) of our Manager for \$250.0 million (the Proposed Acquisition ). The purchase price is to be paid 50% in cash and 50% in units of limited partnership interest in ARLP which are redeemable for cash, or at our option, for shares of our common stock on a one-for-one basis ( OP Units ). The equity component of the purchase price consists of 19.23 million OP Units which was based on a stock price of \$6.50 per share. Each of the OP Units will be paired with a share of our newly-designated special voting preferred stock which will entitle ACM to one vote per share on any matter submitted to a vote of our stockholders. The OP Units are entitled to receive distributions if and when our Board of Directors authorizes and declares common stock distributions. The purchase price is subject to potential adjustment based on changes in the value of ACM 's servicing portfolio being acquired on the closing date. ACM has offered the option, at the discretion of the special committee of our Board of Directors, to provide for up to \$50.0 million of financing to satisfy a portion of the cash consideration to be paid by us. All ACM employees directly related to the ACM Agency Business (approximately 230 employees) will become our employees following the consummation of the Proposed Acquisition.

The ACM Agency Business is comprised of its (i) underwriting, originating, selling and servicing multifamily mortgages under the Federal National Mortgage Association ( Fannie Mae ) delegated underwriting and servicing ( DUS ), U.S. Department of Housing and Urban Development ( HUD )/Federal Housing Administration ( FHA ), Government National Mortgage Association ( GNMA ), Federal Home Loan Mortgage Corporation ( Freddie Mac ) and conduit/commercial mortgage-backed securities ( CMBS ) programs, and (ii) certain assets and liabilities primarily consisting of the mortgage servicing rights related to the agency servicing portfolio, agency loans held for sale, warehouse financing of agency loans held for sale and other assets and liabilities directly related to the ACM Agency Business.

In addition, pursuant to the Purchase Agreement, ACM has provided a two year option for us to purchase the existing management agreement and fully internalize our management structure for \$25.0 million (increasing to \$27.0 million in the second year). The exercise of this option is at the discretion of the special committee of our Board of Directors, which has no obligation to exercise its option.

## Edgar Filing: ARBOR REALTY TRUST INC - Form 10-Q

The transaction contemplated pursuant to the Purchase Agreement will require certain government and government-sponsored enterprise ( GSE ) approvals as well as a vote of our stockholders and other third party approvals. To date, the Federal Trade Commission has granted us early termination of the mandatory waiting period for our Hart-Scott-Rodino filing, we filed our definitive proxy statement with the SEC and we have scheduled our special shareholder meeting to vote on the Proposed Acquisition for June 1, 2016. We are also pursuing the other approvals needed to close the Proposed Acquisition. This transaction is expected to close by the third quarter of 2016; however, there can be no assurances that this transaction will be completed during this period or at all. In connection with evaluating this potential transaction, we incurred advisory fees totaling \$3.1 million during the three months ended March 31, 2016 and fees totaling \$7.6 million to date.

**March 31, 2016**

**Note 2 Summary of Significant Accounting Policies**

***Basis of Presentation and Principles of Consolidation***

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ( GAAP ), for interim financial statements and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in the consolidated financial statements prepared under GAAP have been condensed or omitted. In the opinion of management, all adjustments considered necessary for a fair presentation of our financial position, results of operations and cash flows have been included and are of a normal and recurring nature. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. These consolidated financial statements should be read in conjunction with our consolidated financial statements and notes thereto included in our 2015 Annual Report, which was filed with the SEC.

The accompanying unaudited consolidated financial statements include our financial statements, our wholly owned subsidiaries, and partnerships or other joint ventures in which we own a voting interest of greater than 50 percent, and variable interest entities ( VIEs ) of which we are the primary beneficiary. VIEs are defined as entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. A VIE is required to be consolidated by its primary beneficiary, which is the party that (i) has the power to control the activities that most significantly impact the VIE's economic performance and (ii) has the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. Current accounting guidance requires us to present a) assets of a consolidated VIE that can be used only to settle obligations of the consolidated VIE, and b) liabilities of a consolidated VIE for which creditors (or beneficial interest holders) do not have recourse to the general credit of the primary beneficiary. As a result of this guidance, we have separately disclosed parenthetically the assets and liabilities of our collateralized loan obligation ( CLO ) subsidiaries on our consolidated balance sheets. Entities in which we have significant influence are accounted for primarily under the equity method.

As a REIT, we are generally not subject to federal income tax on our REIT taxable income that we distribute to our stockholders, provided that we distribute at least 90% of our REIT taxable income and meet certain other requirements. As of March 31, 2016 and 2015, we were in compliance with all REIT requirements and, therefore, have not provided for income tax expense for the three months ended March 31, 2016 and 2015. Certain of our assets that produce non-qualifying income are owned by our taxable REIT subsidiaries, the income of which is subject to federal and state income taxes. During the three months ended March 31, 2016 and 2015, we did not record any provision for income taxes for these taxable REIT subsidiaries as we expect any income to be offset by available federal and state net operating loss carryforwards.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that could materially affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

### *Significant Accounting Policies*

As of March 31, 2016, our significant accounting policies, which are detailed in our 2015 Annual Report, have not changed materially.

### *Recently Issued Accounting Pronouncements*

In March 2016, the Financial Accounting Standards Board ( FASB ) amended its guidance on stock compensation, which is intended to simplify several aspects of the accounting for share-based payment award transactions. The guidance is effective for the first quarter of 2017 and we are currently evaluating the impact it may have on our consolidated financial statements.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

**March 31, 2016**

In March 2016, the FASB amended its guidance on accounting for equity method investments. Among other things, the amended guidance eliminates the requirement that when an investment qualifies for use of the equity method as a result of an increase in the level of ownership interest or degree of influence, an investor must adjust the investment, results of operations, and retained earnings retroactively on a step-by-step basis as if the equity method had been in effect during all previous periods that the investment had been held. The guidance is effective for the first quarter of 2017 and we are currently evaluating the impact it may have on our consolidated financial statements.

In February 2016, the FASB amended its guidance on accounting for leases that requires an entity to recognize balance sheet assets and liabilities for leases with terms of more than 12 months and also requires disclosure of key information about an entity's leasing arrangements. The guidance is effective for the first quarter of 2019 with early adoption permitted. A modified retrospective approach is required. We are currently evaluating the impact this guidance may have on our consolidated financial statements.

In January 2016, the FASB amended its guidance on the recognition and measurement of financial assets and liabilities. The amended guidance requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. This update also, among other things, eliminates the requirement for an entity to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. The guidance is effective for the first quarter of 2018 and we are currently evaluating the impact it may have on our consolidated financial statements.

In September 2015, the FASB amended its guidance on measurement-period adjustments arising from business combinations. The guidance was effective for the first quarter of 2016 and it did not have a material impact on our consolidated financial statements.

In April 2015, the FASB amended its guidance on the balance sheet presentation of debt issuance costs. The guidance was effective for the first quarter of 2016. We early adopted this guidance in the fourth quarter of 2015 and it did not have a material effect on our consolidated financial statements.

In February 2015, the FASB amended its guidance on the consolidation analysis of VIEs. The guidance was effective for the first quarter of 2016 and it did not have a material impact on our consolidated financial statements.

(1) **Weighted Average Pay Rate** is a weighted average, based on the unpaid principal balances of each loan in our portfolio, of the interest rate that is required to be paid monthly as stated in the individual loan agreements. Certain loans and investments that require an additional rate of interest **Accrual Rate** to be paid at the maturity are not included in the weighted average pay rate as shown in the table.

(2) **The First Dollar LTV Ratio** is calculated by comparing the total of our senior most dollar and all senior lien positions within the capital stack to the fair value of the underlying collateral to determine the point at which we will absorb a total loss of our position.

(3) **The Last Dollar LTV Ratio** is calculated by comparing the total of the carrying value of our loan and all senior lien positions within the capital stack to the fair value of the underlying collateral to determine the point at which we will initially absorb a loss.

**Concentration of Credit Risk**

We operate in one portfolio segment, commercial mortgage loans and investments. Commercial mortgage loans and investments can potentially subject us to concentrations of credit risk. We are subject to concentration risk in that, at March 31, 2016, the unpaid principal balance ( **UPB** ) related to 23 loans with five different borrowers represented 23% of total assets. At

December 31, 2015, the UPB related to 22 loans with five different borrowers represented 22% of total assets. We measure our relative loss position for our mezzanine loans, junior participation loans, and preferred equity investments by determining the point where we will be exposed to losses based on our position in the capital stack as compared to the fair value of the underlying collateral. We determine our loss position on both a first dollar loan-to-value ( LTV ) and a last dollar LTV basis.

We assign a credit risk rating to each loan and investment. Individual ratings range from one to five, with one being the lowest risk and five being the highest. Each credit risk rating has benchmark guidelines that pertain to debt-service coverage ratios, LTV ratios, borrower strength, asset quality, and funded cash reserves. Other factors such as guarantees, market strength, remaining loan term, and borrower equity are also reviewed and factored into determining the credit risk rating assigned to each loan. This metric provides a helpful snapshot of portfolio quality and credit risk. Given our asset management approach, however, the risk rating process does not result in differing levels of diligence contingent upon credit rating. That is because all portfolio assets are subject to the level of scrutiny and ongoing analysis consistent with that of a high-risk loan. Assets are subject to, at minimum, a thorough quarterly financial evaluation in which historical operating performance and forward-looking projections are reviewed. Generally speaking, given our typical loan and investment profile, a risk rating of three suggests that we expect the loan to make both principal and interest payments according to the contractual terms of the loan agreement, and is not considered impaired. A risk rating of four indicates we anticipate that the loan will require a modification of some kind. A risk rating of five indicates we expect the loan to underperform over its term, and there could be loss of interest and/or principal. Ratings of 3.5 and 4.5 generally indicate loans that have characteristics of both the immediately higher and lower classifications. Further, while the above are the primary guidelines used in determining a certain risk rating, subjective items such as borrower strength, condition of the market of the underlying collateral, additional collateral or other credit enhancements, or loan terms, may result in a rating that is higher or lower than might be indicated by any risk rating matrix.

As a result of the loan review process at March 31, 2016 and December 31, 2015, we identified loans and investments that we consider higher-risk loans that had a carrying value, before loan loss reserves, of \$155.3 million and \$154.7 million, respectively, and a weighted average last dollar LTV ratio of 94% for each period.

*Impaired Loans and Allowance for Loan Losses*

We perform an evaluation of the loan portfolio quarterly to assess the performance of our loans and whether a reserve for impairment should be recorded. We consider a loan impaired when, based upon current information and events, it is probable that we will be unable to collect all amounts due for both principal and accrued interest according to the contractual terms of the loan agreement.

During the three months ended March 31, 2016, we recorded a recovery of a previously recorded loan loss of less than \$0.1 million.

During the three months ended March 31, 2015, we recognized a provision for loan losses totaling \$1.0 million. During the period, we also recorded net recoveries of previously recorded loan losses totaling less than \$0.1 million, resulting in a provision for loan losses, net of recoveries totaling \$1.0 million. The provision for loan losses recorded in the three months ended March 31, 2015 was comprised of two loans with an aggregate carrying value before reserves of \$4.8 million.

There were no loans for which the fair value of the collateral securing the loan was less than the carrying value of the loan for which we had not recorded a provision for loan loss as of March 31, 2016 and 2015.

We have six loans with a carrying value totaling \$118.6 million at March 31, 2016, which mature in September 2017, that are collateralized by a land development project. The loans do not carry a current pay rate of interest, but four of the loans with a carrying value totaling \$97.2 million entitle us to a weighted average accrual rate of interest of 9.60%. We suspended the recording of the accrual rate of interest on these loans, as these loans were impaired and we deemed

the collection of this interest to be doubtful. We have recorded cumulative allowances for loan losses of \$49.1 million related to these loans as of March 31, 2016. The loans are subject to certain risks associated with a development project including, but not limited to, availability of construction financing, increases in projected construction costs, demand for the development's outputs upon completion of the project, and litigation risk. Additionally, these loans were not classified as non-performing as the borrower is in compliance with all of the terms and conditions of the loans.

There were no loans in which we considered the modifications to be troubled debt restructurings that were subsequently considered non-performing as of March 31, 2016 and 2015 and no additional loans were considered to be impaired due to our troubled debt restructuring analysis for the three months ended March 31, 2016 and 2015. These loans were modified to increase the total recovery of the combined principal and interest from the loan.

Given the transitional nature of some of our real estate loans, we may require funds to be placed into an interest reserve, based on contractual requirements, to cover debt service costs. As of March 31, 2016, we had total interest reserves of \$16.1 million on 59 loans with an aggregate UPB of \$787.8 million.

Arbor Residential Investor LLC (ARI) In the first quarter of 2015, we invested \$9.6 million for 50% of our Manager's indirect interest in a joint venture with a third party that was formed to invest in a residential mortgage banking business. As a result of this transaction, we had an initial indirect interest of 22.5% in the mortgage banking business, which is subject to dilution upon attaining certain profit hurdles of the business. During the three months ended March 31, 2016 and 2015, we recorded \$1.6 million and \$3.1 million, respectively, to income from equity affiliates in our consolidated statements of income related to this investment.

In 2015, we also invested \$9.7 million into a joint venture through ARI, in which we own a 50% non-controlling interest that invests in non-qualified residential mortgages purchased from the mortgage banking business's origination platform. We also funded \$2.4 million of additional mortgage purchases during the three months ended March 31, 2016, for a total investment of \$12.1 million as of March 31, 2016. During the three months ended March 31, 2016 and 2015, we recorded income and a loss of less than \$0.1 million, respectively, to income from equity affiliates in our consolidated statements of income related to this investment.

*Real Estate Held-For-Sale*

In the first quarter of 2016, we sold a property in the Hotel Portfolio for \$9.7 million and recognized a gain of \$0.6 million. We also reclassified the three remaining properties in the Multifamily Portfolio with an aggregate carrying value of \$28.6 million and an aggregate debt balance of \$27.1 million as held-for-sale due to a proposed sale that was completed in April 2016. The properties were sold for \$41.0 million and we expect to recognize a total gain of approximately \$11.0 million. A portion of the proceeds from this sale were used to pay off the outstanding debt on these properties. See Note 7 Debt Obligations for further details.

At March 31, 2016 and December 31, 2015, the weighted average interest rate for our credit facilities and repurchase agreements was 2.65% and 2.69%, respectively. Including certain fees and costs, such as structuring, commitment, non-use and warehousing fees, the weighted average interest rate was 3.18% and 3.42% at March 31, 2016 and December 31, 2015, respectively. There were no interest rate swaps on these facilities at March 31, 2016 and December 31, 2015.

We have a \$150.0 million warehouse repurchase facility with a financial institution initially used to finance a significant portion of the unwind of two of our collateralized debt obligation ( CDO ) vehicles in the first quarter of 2015. See *Collateralized Debt Obligations* below. The facility bears interest at a rate of 212.5 basis points over LIBOR on senior mortgage loans, 350.0 basis points over LIBOR on junior mortgage loans, and matures in January 2017 with a one-year extension option. If the estimated market value of the loans financed in this facility decrease, we may be required to pay down borrowings under this facility. Debt carrying value is net of \$0.5 million and \$0.7 million of deferred financing fees at March 31, 2016 and December 31, 2015, respectively.

We have a \$100.0 million warehouse facility with a financial institution to finance first mortgage loans on multifamily properties that bore interest at a rate of 225 basis points over LIBOR and was to mature in April 2015. In May 2015, we amended the facility decreasing the rate of interest to 215 basis points over LIBOR and extended the maturity to May 2017 with a one-year extension option, subject to certain conditions. The facility has a maximum advance rate of 75% and also has a compensating balance requirement of \$50.0 million to be maintained by us and our affiliates. Debt carrying value is net of \$0.2 million and \$0.3 million of deferred financing fees at March 31, 2016 and December 31, 2015, respectively

We have a \$75.0 million warehouse facility with a financial institution to finance first mortgage loans on multifamily properties that bore interest at a rate of 225 basis points over LIBOR and was to mature in June 2015. In June 2015, we amended the facility, extending the maturity to June 2016, decreasing the rate of interest to 212.5 basis points over LIBOR, and added a new \$25.0 million sublimit to finance healthcare related loans. The healthcare related loans will have an interest rate ranging from 225 basis points to 250 basis points over LIBOR depending on the type of healthcare facility financed. The facility has a maximum advance rate of 75%. Debt carrying value is net of \$0.1 million of deferred financing fees at March 31, 2016 and December 31, 2015, respectively.

We have another \$75.0 million warehouse facility with a financial institution to finance first mortgage loans on multifamily and commercial properties that bears interest at a rate of 200 basis points over LIBOR and was to mature in April 2016. In April 2016, the facility was extended to June 2016. The facility has a maximum advance rate of 70% or 75%, depending on the property type. Debt carrying value is net of less than \$0.1 million of deferred financing fees at both March 31, 2016 and December 31, 2015.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

**March 31, 2016**

We have a \$50.0 million warehouse facility with a financial institution to finance first mortgage loans on multifamily properties. The facility bears interest at a rate of 200 basis points over LIBOR and was to mature in February 2016. In February 2016, we amended the facility, increasing the committed amount by \$25.0 million to \$50.0 million and extending the maturity to February 2017 with two one-year extension options, subject to certain conditions. Debt carrying value is net of less than \$0.1 million of deferred financing fees at both March 31, 2016 and December 31, 2015.

In September 2015, we entered into a \$16.5 million term facility with a financial institution to finance a first mortgage loan. The facility bears interest at a rate of 275 basis points over LIBOR, matures in December 2016 and has a compensating balance requirement of \$3.0 million to be maintained by us and our affiliates. Debt carrying value is net of \$0.1 million of deferred financing fees at March 31, 2016 and December 31, 2015, respectively.

Our warehouse credit facilities generally allow for an original warehousing period of up to 24 months from the initial advance on an asset. In addition, our credit facilities and repurchase agreements contain several restrictions including full repayment of an advance if a loan becomes 60 days past due, is in default or is written down by us. Our credit facilities and repurchase agreements also contain representations, warranties, covenants, conditions precedent to funding, events of default and indemnities that are customary for agreements of these types. See Debt Covenants below for details.

*Collateralized Loan Obligations (CLOs)*

In August 2015, we completed a collateralized securitization vehicle ( CLO V ), issuing to third party investors three tranches of investment grade CLOs through two newly-formed wholly-owned subsidiaries totaling \$267.8 million, of which we purchased \$12.5 million of Class C notes that we subsequently sold at par for \$12.5 million. As of the CLO closing date, the notes were secured by a portfolio of loan obligations with a face value of approximately \$302.6 million, consisting primarily of bridge loans that were contributed from our existing loan portfolio. The financing has an approximate three year replacement period that allows the principal proceeds and sale proceeds (if any) of the loan obligations to be reinvested in qualifying replacement loan obligations, subject to the satisfaction of certain conditions set forth in the indenture. Thereafter, the outstanding debt balance will be reduced as loans are repaid. Initially, the proceeds of the issuance of the securities also included \$47.4 million for the purpose of acquiring additional loan obligations for a period of up to 120 days from the closing date of the CLO. In September 2015, the additional proceeds were fully utilized resulting in the issuer owning loan obligations with a face value of approximately \$350.0 million. We retained a residual interest in the portfolio with a notional amount of approximately \$82.3 million. The notes have an initial weighted average interest rate of approximately 2.44% plus one-month LIBOR and interest payments on the notes are payable monthly. Including certain fees and costs, the initial weighted average note rate was 3.07%.

In March 2015, we completed the unwinding of CLO II, redeeming \$177.0 million of our outstanding notes which were repaid primarily from the refinancing of the remaining assets within our new and existing financing facilities as well as with cash held by the CLO and expensed \$1.5 million of deferred fees in the first quarter of 2015 into interest expense on the consolidated statements of

income.

In February 2015, we completed a collateralized securitization vehicle ( CLO IV ), issuing to third party investors three tranches of investment grade CLOs through two newly-formed wholly-owned subsidiaries totaling \$219.0 million. At closing, the notes were secured by a portfolio of loan obligations with a face value of \$250.0 million, consisting primarily of bridge loans that were contributed from our existing loan portfolio, as well as \$50.0 million for the purpose of acquiring additional loan obligations. The financing has an approximate 2.5 year replacement period from closing that allows the principal proceeds and sale proceeds (if any) of the loan obligations to be reinvested in qualifying replacement loan obligations, subject to the satisfaction of certain conditions set forth in the indenture. Thereafter, the outstanding debt balance will be reduced as loans are repaid. We retained a residual interest in the portfolio with a notional amount of approximately \$81.0 million. The notes had an initial weighted average interest rate of approximately 2.24% plus one-month LIBOR and interest payments on the notes are payable monthly. Including certain fees and costs, the initial weighted average note rate was 2.96%.
