In its financial guidance for the third quarter and full year of 2017 contained in the Release, the Company included \$1.7 million and \$3.4 million, respectively, of amortization on acquired assets in its Adjusted Net Loss and Adjusted Net Loss Per Share calculations, which amounts should have been excluded in accordance with the Company's definitions of Adjusted Net Loss and Adjusted Net Loss Per Share. Weighted-Average Shares of Common Stock Outstanding, Basic and Diluted	48.0	47.8

For convenience, the Company is providing below the following full financial guidance for the third quarter and full year of 2017, reflecting the revisions to Adjusted Net Loss and Adjusted Net Loss Per Share described above:

Non-GAAP Measures

To supplement the Company's consolidated financial statements, which are prepared and presented in accordance with U.S. generally accepted accounting principles (GAAP), we use adjusted EBITDA, adjusted EBITDA margin, adjusted net income (loss) and adjusted net income (loss) per share, which are non-GAAP financial measures.

We define adjusted EBITDA as net income or net loss, as applicable, before net interest income (expense), taxes, depreciation and amortization, foreign currency gains or losses, acquisition-related gains or losses and stock-based compensation expense. Some or all of these items may not be applicable in any given reporting period. Adjusted EBITDA margin represents adjusted EBITDA as a percentage of revenue.

Edgar Filing: 2U, Inc. - Form 8-K

We define adjusted net income (loss) as net income or net loss, as applicable, before foreign currency gains or losses, acquisition-related gains or losses and stock-based compensation expense. Some or all of

these items may not be applicable in any given reporting period. Adjusted net income (loss) per share is calculated as adjusted net income (loss) divided by diluted weighted-average shares of common stock outstanding for periods which result in adjusted net income, and basic weighted-average shares outstanding for periods which result in an adjusted net loss.

The principal limitation of these non-GAAP financial measures is that they exclude significant expenses that are required by GAAP to be recorded in the Company's financial statements. These non-GAAP measures are key metrics Company management uses to compare the Company's performance to that of prior periods for trend analyses and for budgeting and planning purposes. These measures also provide useful information to investors and analysts relating to 2U's financial condition and results of operations. These financial measures are not intended to be considered in isolation or as a substitute for, or superior to, financial information prepared and presented in accordance with GAAP. In addition, these financial measures may be different from non-GAAP financial measures used by other companies, limiting their usefulness for comparison purposes.

For more information on 2U's non-GAAP financial measures and reconciliations of such measures to the nearest GAAP measures, see the reconciliation table below under the heading Reconciliation of Non-GAAP Measures. 2U urges investors to review these reconciliations and not to rely on any single financial measure to evaluate the Company's business.

Moreover, 2U operates in a very competitive and rapidly changing environment. New risks emerge from time to time.
