

MIND CTI LTD
Form 20-F
June 22, 2005

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 20-F

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2004

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-31215

MIND C.T.I. LTD.

(Exact name of Registrant as specified in its charter and translation of Registrant's name into English)

ISRAEL

(Jurisdiction of incorporation or organization)

Industrial Park, Building #7, Yoqneam, 20692, Israel

(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act.

Title of each class	Name of each exchange on which registered
	None

Edgar Filing: MIND CTI LTD - Form 20-F

Securities registered or to be registered pursuant to Section 12(g) of the Act.
Ordinary Shares, nominal value NIS 0.01 per share

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act.
None

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

As of December 31, 2004, the Registrant had outstanding 21,281,480 Ordinary Shares, nominal value NIS 0.01 per share.

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark which financial statement item the Registrant has elected to follow.

Item 17 Item 18

PART I

Unless the context requires otherwise, "MIND", "us", "we" and "our" refer to MIND C.T.I. Ltd. and its subsidiaries.

Item 1. Identity of Directors, Senior Management and Advisers

Not applicable.

Item 2. Offer Statistics and Expected Timetable

Not applicable.

Item 3. Key Information

A. Selected Financial Data

The following table presents selected consolidated financial data as of and for each of the five years in the period ended December 31, 2004. The selected consolidated financial data presented below are derived from our audited consolidated financial statements for these periods, and should be read in conjunction with these financial statements and the related notes thereto. Our audited consolidated financial statements as of December 31, 2003 and 2004 and for each of the three years in the period ended December 31, 2004 and the related notes thereto are included elsewhere in this annual report. You should read the selected financial data in conjunction with Item 5 "Operating and Financial Review and Prospects."

Not applicable.

D. Risk Factors

We believe that the occurrence of any one or some combination of the following factors would have a material adverse effect on our business, financial condition and results of operations.

Risks Relating to Our Business

We seek to expand our business through acquisitions that could result in diversion of resources and extra expenses, which could disrupt our business and harm our financial condition.

We pursue acquisitions of business, products and technologies, or the establishment of joint venture arrangements, that could expand our business. The negotiation of potential acquisitions or joint ventures as well as the integration of an acquired or jointly developed business, technology or product could cause diversion of management's attention from the day-to-day operation of our business. This could impair our relationships with our employees, customers, distributors, resellers and marketing allies. Future acquisitions could result in:

- potentially dilutive issuances of equity securities;
- the incurrence of debt and contingent liabilities;
- amortization of intangible assets;
- research and development write-offs; and
- other acquisition-related expenses.

Acquired businesses or joint ventures may not be successfully integrated with our operations or with our technology. If any acquisition or joint venture were to occur, we may not receive the intended benefits of the acquisition or joint venture. In addition, we have limited experience with respect to negotiating an acquisition and operating an acquired business. If future acquisitions disrupt our operations, our business may suffer.

Because some of our customers require a lengthy approval process before they order our products, our sales process is often subject to delays that may decrease our revenues and seriously harm our business.

In 2004, we derived 85% of our revenues from the sale of software and related services to providers of IP services and traditional wireline and wireless telephony services. Before we can sell our software to some of these customers, they must conduct a lengthy and complex approval and purchase process. Prospective customers must make a significant commitment of resources to test and evaluate our products and to integrate them into larger systems. Our revenues for the first quarter of 2005 were lower than those of the preceding quarter due partially to delays in product approval.

The following factors, among others, affect the length of the approval process:

- the time involved for our customers to determine and announce their specifications;
- the complexity of the networks being deployed;
- the timely delivery by telecommunications equipment manufacturers of the hardware comprising the customer's network infrastructure;
- the build-up of the customer's network infrastructure; and
- the timely release of new versions of products comprising the customer's network infrastructure by the vendors of those products.

Additional delays in product approval may decrease our revenues and could seriously harm our business and results of operations.

A slow down in expenditures by telecommunications service providers could have a material adverse effect on our results of operations.

The global deterioration of the economy and economic uncertainty in the telecommunications market resulted in a curtailment of capital investment by telecommunications carriers and service providers beginning late in 2000 and continuing throughout 2002 and into the beginning of 2003. During 2003 the deterioration seemed to have stopped, but there is still uncertainty with respect to the direction of the economy and the telecommunications market. Many new and small service providers have failed and existing service providers have been reducing or delaying expenditures on new equipment and applications. Our revenues for the first quarter of 2005 were lower than those of the preceding quarter due partially to delays in closing potential sales contracts. A continuation of such delays or a decline in capital expenditures by telecommunications service providers may reduce our sales and could result in additional pressure on the price of our products, both of which would have a material adverse effect on our operating results.

If we are unable to compete effectively in the marketplace, we may suffer a decrease in market share, revenues and profitability.

Competition in our industry is intense and we expect competition to increase. We compete both with established billing companies such as Intec Telecom Systems (after the acquisitions by Intec of Digiquant and of the billing division of ADC Telecommunications) and Convergys Corporation (after the acquisition of Geneva Technology by Convergys) as well as with emerging billing companies, such as Commarch. Some of our competitors have greater financial, technical, sales, marketing and other resources, and greater name recognition than we do. Current and potential competitors have established, and may establish in the future, cooperative relationships among themselves or with third parties to increase their ability to address the needs of prospective customers. Accordingly, new competitors or alliances among competitors may emerge and rapidly acquire significant market share. As a result, our competitors may be able to adapt more quickly than us to new or emerging technologies and changes in customer requirements, and may be able to devote greater resources to the promotion and sale of their products. We cannot guarantee that we will be able to compete effectively against current or future competitors or that competitive pressure will not harm our financial results.

Our revenues and operating results may vary significantly from quarter to quarter.

Our revenues and operating results may vary significantly from quarter to quarter due to a number of factors, including the following:

- the timing of orders for our software may be delayed as customers typically order our billing and customer care software only after other vendors have provided the network infrastructure, a process that is subject to delay. It is therefore difficult for us to predict the timing of orders for our products by customers;
- the ability of our customers to expand their operations and increase their subscriber base, including their ability to obtain financing;
- changes in our pricing policies or competitive pricing by our competitors;
- the timing of releases of new products by manufacturers of telecommunications equipment with which our billing and customer care software operates; and
- the timing of product introductions by competitors.

In future quarters, our operating results may be below the expectations of public market analysts and investors, and as a result, the price of our ordinary shares may fall.

If the demand for IP-based services does not continue to grow, the demand for our billing and customer care software would diminish substantially.

A substantial portion of our business depends on the growth in demand for IP-based services. Growth in the demand for IP services is a phenomenon that may not reoccur. If growth in the demand for IP services does not reoccur, we will continue to face substantially diminished demand for our billing and customer care software. The failure of the IP-based services market to grow and develop will have a material and adverse impact on our results of operations and financial condition.

The customer base for our traditional wireline and wireless billing and customer care products is characterized by small to medium size telephony carriers. If this market segment fails to grow, the demand for our billing and customer care software would diminish substantially.

Our traditional wireline and wireless billing and customer care products target small to medium size telephony carriers. Our growth in this field depends on continued growth of these traditional telephony carriers. We cannot be certain that small to medium size telephony carriers will be able to successfully compete with large telephony carriers in existing markets or will successfully develop in new and emerging markets. If this market segment fails to grow, the demand for our billing and customer care software would diminish substantially and our business would suffer. In addition, there may never be significant demand for new billing and customer care software by providers of traditional services.

From time to time, our software and the systems into which it is installed contain undetected errors. This may cause us to experience a significant decrease in market acceptance and use of our software products and we may be subject to warranty and other liability.

From time to time, our software, as well as the systems into which it is integrated, contain undetected errors. Because of this integration, it can be difficult to determine the source of the errors. Also, from time to time, hardware systems we resell contain certain defects or errors. As a result, and regardless of the source of the errors, we could experience one or more of the following adverse results:

- diversion of our resources and the attention of our personnel from our research and development efforts to address these errors;
- negative publicity and injury to our reputation that may result in loss of existing or future customers; and
- loss of or delay in revenue and loss of market share.

In addition, we may be subject to claims based on errors in our software or mistakes in performing our services. Our licenses and agreements generally contain provisions such as disclaimers of warranties and limitations on liability for special, consequential and incidental damages, designed to limit our exposure to potential claims. However, not all of our contracts contain these provisions and we cannot assure you that the provisions that exist will be enforceable. In addition, while we maintain product liability and professional indemnity insurance, we cannot assure you that this insurance will provide sufficient, or any, coverage for these claims. A product liability or professional indemnity claim, whether or not successful, could adversely affect our business by damaging our reputation, increasing our costs, and diverting the attention of our management team.

If our products fail to achieve widespread market acceptance, our results of operations will be harmed.

Our future growth depends on the continued commercial acceptance and success of our products. We first introduced our billing and customer care software for Voice over IP in 1997 and since then we have developed new versions that offer mediation, rating, billing and customer care for multiple services. Accordingly, we cannot be sure that our products will achieve widespread market acceptance. Our future performance will depend on the successful development, introduction and consumer acceptance of new and enhanced versions of our products. We are not certain that we will be able to develop new and enhanced products to meet changing market needs. If our new and enhanced products are not well received in the marketplace, our business and results of operations will be harmed. We cannot assure you that we will be successful in developing and marketing new products.

We depend on our marketing alliances and reseller arrangements with manufacturers of telecommunications equipment to market our products. If we are unable to maintain our existing marketing alliances, or enter into new alliances, our revenues and income will decline.

We have derived, and anticipate that we will continue to derive, a significant portion of our market opportunities and revenues from our marketing alliances and reseller arrangements with major manufacturers of telecommunications equipment, including Alcatel, Cisco and Ericsson, which market our products to their customers. Our marketing alliances and reseller arrangements with these parties are nonexclusive and do not contain minimum sales or marketing performance requirements. In some instances, there is no formal contractual arrangement. As a result, these entities may terminate these arrangements without notice, cause or penalty. There is also no guarantee that any of these parties will continue to market our products. Our arrangements with our resellers and marketing allies do not prevent them from selling products of other companies, including products that compete with ours. Moreover, our marketing allies and resellers may develop their own internal mediation, rating, billing and customer care software products that compete with ours and sell them as part of their equipment. If we are unable to maintain our current marketing alliances and reseller relationships, or if these marketing allies and resellers develop their own competing mediation, rating, billing and customer care software products, our revenues and income will decline.

We depend on a limited number of customers who generate a significant portion of our revenues.

In 2003, two customers accounted for 34% of our revenues, and in 2004, one customer accounted for 36% of our revenues. Our future growth will depend on, among other things, our ability to disperse our revenues among a greater number of customers or to continue to generate revenues from a limited number of customers. Our operating results could be materially adversely affected if we are unable to disperse our revenues among a greater number of customers or to continue to generate revenues from a limited number of customers.

If our software does not continue to integrate and operate successfully with the telecommunications equipment of the leading manufacturers, we may be unable to maintain our existing customer base and/or generate new sales.

The success of our software depends upon the continued successful integration and operation of our software with the telecommunications equipment of the leading manufacturers. We currently target a customer base that uses a wide variety of network infrastructure equipment and software platforms, which are constantly changing. In order to succeed, we must continually modify our software as new telecommunications equipment is introduced. If our product line fails to satisfy these demanding and rapidly changing technological challenges, our existing customers will be dissatisfied. As a result, we may be unable to generate future sales and our business will be materially adversely affected.

If we fail to attract and retain qualified personnel we will not be able to implement our business strategy or operate our business effectively.

Our products require sophisticated research and development, sales and marketing, software programming and technical customer support. Our success depends on our ability to attract, train, motivate and retain highly skilled personnel within each of these areas of expertise. Qualified personnel in these areas are in great demand and are likely to remain a limited resource for the foreseeable future. We cannot assure you that we will be able to retain the skilled employees we require. In addition, the resources required to retain such personnel may adversely affect our operating margins. The failure to retain qualified personnel may harm our business.

We depend on a limited number of key personnel who would be difficult to replace. If we lose the services of these individuals, our business will be harmed.

Because our market is new and evolving, the success of our business depends in large part upon the continuing contributions of our senior management. Specifically, continued growth and success largely depend on the managerial and technical skills of Monica Eisinger, our President and Chief Executive Officer and one of our founders, and other members of senior management. Because the demand for highly qualified senior personnel exceeds the supply of this type of personnel, it will be difficult to replace members of our senior management if one or more of them were to leave us. If either Ms. Eisinger or other members of the senior management team are unable or unwilling to continue their employment with our company, our business will be harmed.

Our success depends on our ability to continually develop and market new and more technologically advanced products and enhancements.

The market for our products and the services they are used to support is characterized by:

- rapid technological advances like the development of new standards for communications protocols;
- frequent new service offerings and enhancements by our customers, such as value-added IP-based services and new rating plans; and
- changing customer needs.

We believe that our future success will largely depend upon our ability to continue to enhance our existing products and successfully develop and market new products on a cost-effective and timely basis. We cannot assure you that we will be successful in developing and marketing new products that respond adequately to technological change. Our failure to do so would have a material adverse effect on our ability to market our own products.

If our billing and customer care software for IP services fails to achieve market acceptance among traditional telecommunications service providers, we may suffer a decrease in market share, revenues and profitability.

We believe that as the demand for IP services grows, traditional telecommunications service providers will increasingly offer IP services to remain competitive and these providers will constitute a growing portion of the IP services market. These companies already have relationships with traditional billing and customer care software providers for their telephony services, and may wish to work with their current providers of billing and customer care software to enhance and modify that software for IP services. If our billing and customer care software for IP services fails to achieve market acceptance among traditional telecommunications service providers, we may suffer a decrease in market share, revenues and profitability.

If we are unable to adequately protect our intellectual property or become subject to a claim of infringement, our business may be materially adversely affected.

Our success and ability to compete depend substantially upon our internally developed technology. Any misappropriation of our technology could seriously harm our business. In order to protect our technology and products, we rely on a combination of trade secret, copyright and trademark law. Despite our efforts to protect our intellectual property rights, unauthorized parties may attempt to copy or otherwise obtain and use our software or technology or to develop software with the same functionality. Policing unauthorized use of our products is difficult and we cannot be certain that the steps we have taken will prevent misappropriation, particularly in foreign countries where the laws may not protect our intellectual property rights as fully as in the United States.

We have received a notice from a third party alleging an infringement claim. Although this claim is not expected to have a material adverse effect on our business, it is possible that additional third parties will claim that our current or future products or technology infringe their proprietary rights. We expect that software developers will increasingly be subject to infringement claims as the number of products and competitors providing software and services in the mediation, rating, billing and customer care industry increase and overlaps occur. Any claim of infringement by a third party could cause us to incur substantial costs defending against the claim, even if the claim is invalid, and could

distract our management from our business. Furthermore, a party making such a claim could secure a judgment that requires us to pay substantial damages. A judgment could also include an injunction or court order that could prevent us from selling our software. Any of these events could seriously harm our business.

If anyone asserts a claim against us relating to proprietary technology or information, we might seek to license their intellectual property or to develop non-infringing technology. We might not be able to obtain a license on commercially reasonable terms or on any terms. Alternatively, our efforts to develop non-infringing technology could be unsuccessful. Our failure to obtain the necessary licenses or other right or to develop non-infringing technology could prevent us from selling our software and could therefore seriously harm our business.

Because a substantial majority of our revenues are generated outside of Israel, our results of operations could suffer if we are unable to manage international operations effectively.

In 2003 and 2004, approximately 92% and 95% of our revenues, respectively, were generated outside of Israel. Our sales outside of Israel are made in more than 25 countries. We currently have sales and support offices located in Hasbrouck Heights, New Jersey and Beijing, China. In addition, we have a technical and support team in Jassy, Romania. We plan to establish additional facilities in other parts of the world, either through acquisitions or internal expansion based on market needs. The expansion of our existing international operations and entry into additional international markets will require significant management attention and financial resources. Our ability to penetrate some international markets may be limited due to different technical standards, protocols and requirements for our products in different markets. We cannot be certain that our investments in establishing facilities in other countries will produce desired levels of revenue. In addition, conducting our business internationally subjects us to a number of risks, including:

- staffing and managing foreign operations;
- increased risk of collection;
- potentially adverse tax consequences;
- the burden of compliance with a wide variety of foreign laws and regulations;
- burdens that may be imposed by tariffs and other trade barriers; and
- political and economic instability.

Our business may be negatively affected by exchange rate fluctuations.

Although most of our revenues are denominated in U.S. dollars, approximately 50% of our expenses are incurred in New Israeli Shekels, or NIS. As a result, we may be negatively affected by fluctuations in the exchange rate between the Euro or the NIS and the U.S. dollar. We cannot predict any future trends in the rate of inflation in Israel or the rate of devaluation or appreciation of the NIS against the U.S. dollar. If the U.S. dollar cost of our operations in Israel increases, our U.S. dollar-measured results of operations will be adversely affected. In addition, devaluation in the Euro or local currencies of our customers relative to the U.S. dollar could cause customers to decrease or cancel orders or default on payment. We may choose to limit these exposures by entering into hedging transactions. However, hedging transactions may not enable us to avoid exchange-related losses, and our business may be harmed by exchange rate fluctuations. The imposition of price or exchange controls or other restrictions on the conversion of foreign currencies could affect our ability to collect payments, which in turn, could have a material adverse effect on our results of operations and financial condition.

Breaches in the security of the data collected by our systems could adversely affect our reputation and hurt our business.

Customers rely on third-party security features to protect due privacy and integrity of customer data. Our products may be vulnerable to breaches in security due to failures in the security mechanisms, the operating system, the hardware platform or the networks linked to the platform. MIND-iPhonEX, which provides web access to

information, presents additional security issues for our customers. Security vulnerabilities could jeopardize the security of information stored in and transmitted through the computer systems of our customers. A party that is able to circumvent our security mechanisms could misappropriate proprietary information or cause interruptions in the operations of our customers. Security breaches could damage our reputation and product acceptance would be significantly harmed, which would cause our business to suffer.

Risks Relating to the Market for our Ordinary Shares

Holders of our ordinary shares who are United States residents face income tax risks.

We believe that we qualified as a passive foreign investment company, or PFIC, for 2002. Our treatment as a PFIC could result in a reduction in the after-tax return to the U.S. holders of our ordinary shares and could cause a reduction in the value of our shares. For U.S. federal income tax purposes, we will be classified as a PFIC for any taxable year in which either:

- 75% or more of our gross income is passive income; or
- 50% or more of the average value of all of our assets for the taxable year produce, or are held for the production of, passive income.

As a result of our substantial cash position and the decline in value of our ordinary shares, we believe that we were deemed a PFIC for 2002 under the asset test. We believe that we were not deemed a PFIC for 2003 and 2004. A separate determination must be made each year as to whether we are a PFIC.

Highly complex rules apply to U.S. holders of our ordinary shares if we are treated as a PFIC for U.S. federal income tax purposes for any year during the U.S. holder's holding period. Accordingly, U.S. holders are urged to consult their tax advisors regarding the application of these tax rules. U.S. residents should carefully read Item 10.E "Taxation - United States Federal Income Tax Considerations" for a more complete discussion of the U.S. federal income tax risks related to owning and disposing of our ordinary shares.

Our share price has fluctuated and could continue to fluctuate significantly.

The market for our ordinary shares, as well as the prices of shares of other technology companies, has been volatile. The price of our ordinary shares has fluctuated significantly since our ordinary shares in our initial public offering in August 2000. A number of factors, many of which are beyond our control, may cause the market price of our ordinary shares to fluctuate significantly, such as:

- fluctuations in our quarterly revenues and earnings and those of our publicly held competitors;
- shortfalls in our operating results from the levels forecast by securities analysts;
- public announcements concerning us or our competitors;
- changes in pricing policies by us or our competitors;
- market conditions in our industry; and
- the general state of the securities market (particularly the technology sector).

We do not control these matters and any of them may adversely affect our business internationally. In addition, trading in shares of companies listed on the Nasdaq National Market in general and trading in shares of technology companies in particular has been subjected to extreme price and volume fluctuations that have been unrelated or disproportionate to operating performance. These broad market and industry factors may depress our share price, regardless of our actual operating results.

Substantial sales of our ordinary shares could adversely affect our share price.

Sales of a substantial number of ordinary shares could adversely affect the market price of our ordinary shares. Given the likely volatility that exists for our ordinary shares, such sales could cause the market price of our ordinary shares to decline.

As of March 1, 2005, we had 21,429,180 outstanding ordinary shares, of which approximately 15 million ordinary shares were freely tradable without restriction or further registration under the federal securities laws unless purchased by our "affiliates", as that term is defined in Rule 144 under the Securities Act. As of March 1, 2005, there were outstanding options to purchase a total of 1,651,800 ordinary shares, of which 651,020 were vested. We were also authorized to grant options to purchase 847,840 additional ordinary shares. We have filed a registration statement on Form S-8 covering all of the ordinary shares issuable upon the exercise of options under our stock option plans, at which time these shares will be immediately available for sale in the public market, subject to the terms of the related options .

Our ordinary shares are listed for trading in more than one market and this may result in price variations.

Our ordinary shares are listed for trading on the Nasdaq National Market, or Nasdaq, and on the Tel Aviv Stock Exchange, or TASE. Trading in our ordinary shares on these markets is made in different currencies (U.S. dollars on Nasdaq and New Israeli Shekels on TASE), and at different times (resulting from different time zones, different trading days and different public holidays in the United States and Israel). The trading prices of our ordinary shares on these two markets often differ, resulting from the factors described above, as well as differences in exchange rates. Any decrease in the trading price of our ordinary shares on one of these markets could cause a decrease in the trading price of our ordinary shares on the other market.

Some of our shareholders continue to be able to control the outcome of matters requiring shareholder approval.

As of March 1, 2005, Monica Eisinger, Lior Salansky and Polar Communications Ltd. owned an aggregate of approximately 6.5 million ordinary shares, representing approximately 30% of our outstanding ordinary shares. These shareholders, if they vote together, may be able to determine the outcome of various actions that require shareholder approval. This concentration of ownership may adversely affect our share price.

Risks Relating to Our Location in Israel

Potential political, economic and military instability in Israel may harm our operating results.

We are organized under the laws of the State of Israel and a substantial portion of our assets, and our principal operations, are located in Israel. Accordingly, our operations, financial position and operating results are directly influenced by economic, political and military conditions in and relating to Israel. Since the establishment of the State of Israel in 1948, a condition of hostility, varying in degree and intensity, has led to security and economic problems for Israel. Since October 2000, there has been a high level of violence between Israel and the Palestinians, which has led to a crisis in the Middle East peace process and affected Israel's relationship with its Arab citizens and several Arab countries. Any armed conflicts or political instability in the region could negatively affect business conditions and harm our results of operations. We cannot predict the effect on the region of the increase in the degree of violence between Israel and the Palestinians. Furthermore, several countries restrict business with Israel and Israeli companies, and additional countries may restrict doing business with Israel and Israeli companies as a result of the recent increase in hostilities. These restrictive laws and policies may seriously harm our operating results, financial condition or the expansion of our business. In addition, the current situation in Israel could adversely affect our operations if our customers and/or strategic allies believe that instability in the region could affect our ability to fulfill our commitments.

We currently participate in or receive tax benefits from government programs. These programs require us to meet certain conditions and these programs and benefits may be terminated or reduced in the future.

We receive tax benefits under Israeli law for capital investments, the Law for Encouragement of Capital Investments, 1959, as amended, or the Investments Law, that are designated as "Approved Enterprises." To maintain our eligibility for these tax benefits, we must continue to meet several conditions including making required investments in fixed assets. If we fail to comply with these conditions in the future, the tax benefits received could be cancelled. From time to time, we submit requests for expansion of our Approved Enterprise programs or for new programs. These requests might not be approved. The Investments Law was recently amended and we are evaluating these amendments. The termination or reduction of the tax benefits under the Investments Law could seriously harm our business, financial condition and operating results. For more information about Approved Enterprises, see Item 10.E "Taxation - Law for the Encouragement of Capital Investments, 1959" and Note 7 to our financial statements contained in Item 18.

Because we have received grants from the Office of the Chief Scientist, we are subject to on-going restrictions that limit the transferability of our technology and of our right to manufacture outside of Israel, and certain of our large shareholders are required to undertake to observe such restrictions.

We have received grants in the past from the Office of the Chief Scientist of the Israeli Ministry of Industry, Trade and Labor. According to Israeli law, generally, any products developed with grants from the Office of the Chief Scientist are required to be manufactured in Israel, unless we obtain prior approval of a governmental committee. As a condition to obtaining this approval, in certain cases, we may be required to pay the Office of the Chief Scientist increased royalties with respect to the grants we received. In addition, we are prohibited from transferring to third-parties the know-how developed with these grants, without the prior approval of a governmental committee, and in certain cases, subject to certain conditions and payments. Approval is not required for the sale or export of any products resulting from the funded know-how. Any shareholder who becomes a controlling shareholder of our company or any non-Israeli who becomes a direct holder of 5% or more of our outstanding ordinary shares will be required to notify the Office of the Chief Scientist and to undertake to observe the law governing the grant programs of the Office of the Chief Scientist, the principal restrictions of which are described above in this paragraph.

Our operating results may be negatively affected by the obligation of some of our key personnel to perform military service.

Some of our executive officers and employees in Israel are obligated to perform military reserve duty, which could accumulate annually from several days to up to two months in special cases and circumstances. The length of such reserve duty depends, among other factors, on an individual's age and prior position in the army. In addition, if a military conflict or war occurs, these persons could be required to serve in the military for extended periods of time. Our operations could be disrupted by the absence for a significant period of one or more of our executive officers or key employees due to military service. Any disruption in our operations would harm our business.

It may be difficult to enforce a U.S. judgment against us, our officers and directors or to assert U.S. securities laws claims in Israel.

We are incorporated in the State of Israel. Substantially all of our executive officers and directors are nonresidents of the United States, and a substantial portion of our assets and the assets of these persons are located outside the United States. We have been informed by our legal counsel in Israel that original actions may not be instituted in Israel to enforce civil liabilities under the Securities Act and the Exchange Act. However, subject to specified time limitations, Israeli courts are authorized to enforce a United States final executory judgment in a civil matter, including a monetary or compensatory judgment in a non-civil matter provided that:

- adequate service of process has been effected and the defendant has had a reasonable opportunity to present his arguments and evidence;

- the judgment and the enforcement thereof are not contrary to the law, public policy, security or sovereignty of the State of Israel;
- the judgment was obtained after due process before a court of competent jurisdiction according to the rules of private international law prevailing in Israel;
- the judgment was not obtained by fraud and does not conflict with any other valid judgment in the same matter between the same parties;
- an action between the same parties in the same matter is not pending in any Israeli court at the time the lawsuit is instituted in the United States court; and
- the U.S. court is not prohibited by law from enforcing judgments of Israel courts.

Therefore, it may be difficult for a shareholder, or any other person or entity, to collect a judgment obtained in the United States against us or any of these persons, or to effect service of process upon these persons in the United States.

Provisions of Israeli law and our articles of association may delay, prevent or make difficult a change of control and therefore may depress the price of our stock.

Some of the provisions of our articles of association and Israeli law could, together or separately:

- discourage potential acquisition proposals;
- delay or prevent a change in control; and
- limit the price that investors might be willing to pay in the future for our ordinary shares.

In particular, our articles of association provide that our board of directors will be divided into three classes that serve staggered three-year terms and authorize our board of directors to adopt protective measures to prevent or delay a coercive takeover, including without limitation the adoption of a "Shareholder Rights Plan". In addition, Israeli corporate law regulates mergers and acquisitions of shares through tender offers, requires approvals for transactions involving significant shareholders and regulates other matters that may be relevant to these types of transactions. See Item 10.B "Memorandum and Articles of Associations -Mergers and Acquisitions under Israeli Law." Furthermore, Israeli tax law treats stock-for-stock acquisitions between an Israeli company and a foreign company less favorably than does U.S. tax law. For example, Israeli tax law may subject a shareholder who exchanges his ordinary shares for shares in another corporation to taxation prior to the sale of the shares received in such stock-for stock swap.

Item 4. Information on the Company

A. History and Development of the Company.

General

Our name is MIND C.T.I. Ltd. for both legal as well as commercial purposes. We were incorporated under the laws of the State of Israel on April 6, 1995 as a company with limited liability, and we are subject to the Israeli Companies Law, 1999 and the regulations promulgated thereunder. Our principal executive offices are located at Industrial Park, Building 7, Yoqneam 20692, Israel. Our telephone number is +972 4 993 6666. Our agent in the United States is MIND C.T.I. Inc. and its principal offices are located at 777 Terrace Avenue, Hasbrouck Heights, New Jersey, 07604.

Principal Capital Expenditures

During 2004, the aggregate amount of our capital expenditures was \$ 1.23 million. These expenditures were principally for the purchase of property and other equipment. Although we have no material commitments for capital expenditures, we anticipate an increase in capital expenditures if we purchase or merge with companies or purchase assets in order to obtain complementary technology and to expand our product offerings, customer base and

geographical presence.

B. Business Overview

Overview

Mediation, Rating, Billing and Customer Care Solutions

We develop, manufacture and market real-time mediation, rating, billing and customer care software for multiple services, including voice, data and content services.

Our billing and customer care software, known as MIND-iPhonEX, is a convergent solution, for voice, data, video and content services, supporting both prepaid and post-paid payment models in a single platform. The solution offers various types of communication providers, wireline and wireless alike, to launch, manage, charge and bill multiple services. Prepaid subscribers can enjoy the full range of services offered by the provider, with their special bundles, rating plans and limits. The system authorizes each service, and controls each session in real time, taking care that the balance is not over used. Post-paid subscribers, including credit-limited and non-limited, mainly business customers and enterprises, represent the loyal and the higher average revenue per user (ARPU) market. The system provides unlimited definition of account hierarchies, with billing and sponsorship relations. All services used by a post-paid subscriber appear in a single bill, which includes all charges, including one-time, recurring and usage-related charges. It interfaces with the IP telecommunications equipment of major manufacturers as well as with traditional telecommunication equipment.

During 2001 we completed the acquisition of the VeraBill line of telephony billing and customer care software solutions from Veramark Technologies Inc. The VeraBill product line is now marketed under the MindBill name. MindBill provides mediation, provisioning and billing solutions for small and medium size wireline and wireless mobile telephony carriers. We incorporated the MindBill functionality into the MIND-iPhonEX product line, offering a convergent solution for traditional voice as well as IP-based services. We plan to continue to support the MindBill product with new maintenance releases as well as customization requests. In addition, we offer a migration path to MIND-iPhonEX to customers who require the addition of new data and content services .

Enterprise Call Management Systems

In addition to our billing and customer care software, we offer two call management systems used by organizations for call accounting, traffic analysis and fraud detection. Our enterprise software, which we call PhonEX, has been installed in many locations throughout the world for customers including BezeqCall Communications Ltd., Credit Suisse First Boston and STMicronics. Our other enterprise software which we call MEIPS, is a product directed towards the same market segment where IP switches are implemented. MEIPS has been installed at a variety of locations around the world.

Professional Services

We also provide professional services, primarily to our billing and customer care customers, consisting of installation, customer support, training and maintenance services, customization and project management. Our professional services also include turnkey project implementation services.

Our Market Opportunity

IP Market - Technology Background

IP is establishing itself as the infrastructure of choice for voice, data and video content transmission. Content is compressed into electronic data packets that are transmitted individually to the final destination. Each packet can follow a different route as each packet contains the IP address of its destination. Upon arrival, the content is decompressed and reconstituted into its original format. Packet-based transmission optimizes a network's capacity by utilizing bandwidth only during the actual transmission. As data networks are not regulated and distance is irrelevant, IP networks represent a cost-efficient infrastructure for telecommunication carriers.

Voice Over IP Industry

Broadband networks are rapidly deployed, enabling service providers to offer convergent services, including voice, to both residential and commercial customers. Voice over IP, also known as Internet telephony, is the technology most commonly used to provide voice services over broadband networks. It can be easily deployed over standard xDSL or cable modems. Providers of Voice over IP services can offer their subscribers enhanced voice and data communications services and applications, such as:

video telephony offering real-time video calls between residential PC users and mobile users or other PC users;

unified messaging services permitting single source retrieval of voice mail, e-mail and faxes through the Internet or by phone or any other Internet-capable devices;

personal computer-to-phone services allowing subscribers to place calls through a personal computer and speak to a party who uses a standard telephone; and

web-based services that allow a live voice connection from any web site to any regular telephone over the Internet while continuing to view the web-site.

For service providers, Voice over IP presents an opportunity to generate revenue by offering additional services over the new broadband networks deployed. Voice over IP networks enable the deployment of most of the services customer receive over traditional networks at a much lower capital cost of infrastructure and reduced management cost of the network. As Voice over IP is distance independent, it allows service providers to offer competitive pricing, as only a small portion of the traffic terminates on traditional networks.

Mobile Broadband Services Industry

The new generations of mobile communication technologies, starting with 2.5G technologies such as general packet radio service (GPRS) and 3G technologies such as universal mobile telecommunications system (UMTS), offer a totally new experience and a variety of services to mobile subscribers. The mobile handset is expanding beyond voice and text-messaging and is expected to become a multimedia, gaming, and advanced communications tool. To fully exploit the technology potential and increase the average revenue per user (ARPU) from the new services, operators and service providers are required to have a flexible environment for creating, enabling, controlling and charging the new and upcoming services.

Billing and Customer Care Industry

Billing and customer care is the largest segment in the operations software market because billing and customer care products enable the service provider to track and bill for usage, manage revenues and customer relations and devise marketing programs and rate plans. Billing systems give operators a competitive advantage by allowing them to deploy and charge for new services and differentiate themselves from competitors who do not have that ability. As service providers deploy convergent IP networks that can offer voice, data, video and content services, the demand for more sophisticated billing software is expected to grow. We believe that as providers of convergent networks continue to expand their service offerings, they will increasingly need products that allow them to monitor and bill their

subscribers based on the type and content of services provided. As a result, we believe that this trend will increase the demand for sophisticated billing and customer care products for what is known as convergent billing.

Many existing billing and customer care software products do not meet the demands of the increasingly competitive and dynamic environment of multiple IP-based services. Traditional billing systems are typically designed to support a particular type of service provider, for instance, either wireline or wireless, and a specific size of network. As a result, these billing systems require time and expense to accommodate a growing subscriber base or new products and features. Traditional billing systems are also generally unable to efficiently support multiple services or convergent networks. In addition, traditional billing systems are typically limited to periodic or "batch-oriented" processing and cannot provide the real-time processing typically required by providers of IP-based services.

Providers of multiple IP-based services typically require billing and customer care products that can handle authentication, authorization and accounting needs in real-time in order to determine the types of services to which the subscriber is entitled, as well as any applicable limits to the availability of the services. This real-time functionality is particularly important for prepaid billing plans. Finally, billing and customer care software products need to be capable of being easily adaptable to changes in the size and configuration of a IP provider's system, or scalable, to enable rapid growth in subscriber base, and to permit easy adaptation to emerging products and services.

Our Mediation, Rating, Billing and Customer Care Solution

We develop, market and support real-time, scalable mediation, rating, billing and customer care software for providers of voice, data and content services that are designed to meet their complex, mission-critical provisioning, authentication, authorization, accounting and reporting needs. Our billing and customer care software provides our customers with the following benefits:

Real-Time Solution . Service providers require a system that enables authentication, authorization and accounting and, if needed, cut-off, all in real-time. We believe that MIND-iPhonEX is one of the few billing and customer care products designed for IP services that offers real-time functionality for both prepaid and postpaid billing plans, and that has a real-time rating engine able to support rating of voice, data and content services simultaneously;

Mediation and Service Fulfillment . IP based networks that can offer voice, data, video and content services are based on various network elements each of which generates billable information. We believe that MIND-iPhonEX is one of the few billing and customer care products that provide real-time collection and correlation of various events from multiple sources that relate to the same session and convert them into billable records. In addition, MIND-iPhonEX enables end-to-end automated flow for service creation and activation, meaning that from the order for service handled by the customer care representative until the service activation, the activities that need to be completed are automatically completed by MIND-iPhonEX.

Scalability . MIND-iPhonEX is designed to be easily adapted to changes in the size and configuration of a service provider's network. Our products enable the network of a service provider to grow from accommodating a small number of subscribers to a large number of subscribers, primarily through the addition of hardware. This feature allows a service provider to expand its infrastructure and its subscriber base without the need to redesign or replace its billing and customer care software. The scalability of our software is important since many IP service providers begin with a relatively small subscriber base and experience rapid growth. For example, we designed and provided a billing and customer care solution for China Unicom, which started offering Voice over IP services in 1999. When China Unicom first deployed our software in May 1999, it was capable of supporting one million users. Our software was upgraded to support five million users in November 1999, 20 million users in June 2000 and 30 million users in June 2001. Increases in the potential number of users have been, and future increases will be, accomplished without the need to modify or replace our installed software;

Interoperability . Currently, there are no industry-accepted standards for the interface between IP telecommunications equipment and IP billing products. Our IP billing system is fully interoperable with the IP telecommunications equipment of most of the leading manufacturers, including Alcatel, Cisco, Ericsson, Sonus and Veraz, for Voice over IP and data services. This interoperability provides us with a competitive advantage, as it enables our customers to use networks composed of equipment manufactured by multiple vendors. It also allows providers to upgrade an existing network with new and different equipment without changing their billing and customer care products; and

Improved Time to Market . MIND-iPhonEX is a modular, extensible software product based on software architecture designed for easy adaptability and implementation. These features allow each of our customers to tailor our products to meet their individual needs in terms of the number of subscribers serviced and the variety of services provided. In addition, due to its adaptable design, MIND-iPhonEX can be customized relatively quickly, enabling our customers to improve their time to market as they initially implement their networks and, later, as they add and modify the services they provide.

Our Strategy

Our objective is to be a leader in the market for billing and customer care software for multiple IP-based services as the market for these products grows. The key elements of our strategy include:

Leverage our brand name recognition and technical expertise . We were one of the first to provide billing and customer care software for IP telephony, introducing MIND-iPhonEX in 1997. We believe that our early position in the market and our reputation for offering high quality, reliable billing and customer care software has provided us with significant brand name recognition among Voice over IP providers. We intend to leverage our reputation, brand name recognition and expertise to be a leader in the market for billing and customer care software for multiple IP-based services;

Enhance alliances with industry leaders . We have established cooperative relationships with leading manufacturers of IP telecommunications equipment such as Cisco. We team with these industry leaders in marketing activities, as well as in the research and development and implementation stages of product development and enhancement. Our alliances allow us to broaden our marketing capabilities significantly, support new features offered by equipment vendors as these features are introduced to the market, and maintain our technology leadership over our competitors. We intend to continue to leverage these alliances in order to solidify and expand our market presence;

Maintain and expand our technological expertise . We believe that our reputation in the market is due in large part to our technological expertise. We make significant investments in our research and development to continually enhance our products to meet the changing needs in the IP industry. We intend to continue our commitment to technology, both to enhance our existing products and to develop new products for growing markets;

Expand professional services opportunities . As our projects are of larger scale and as IP-based service offerings become more complex, our customers increasingly require consulting services, especially for customization, as well as for project management, installation and training, technical support and maintenance. This provides us with the opportunity to increase our revenue base from existing customers. We have begun to capitalize on this opportunity and, as a result, fees from providing professional services are expected to increase.

Our Products and Services

Mediation, Rating, Billing and Customer Care Solutions

MIND-iPhonEX is a real-time, convergent mediation, provisioning, rating, billing and customer care product for voice, data, video and content services that meets the mission-critical needs of service providers and is interoperable with the IP telecommunications equipment of major manufacturers as well as with traditional telecommunications

equipment.

Our highly functional and adaptable product enables our customers to quickly deploy IP services and to rapidly grow and add new services. MIND-iPhonEX supports both prepaid billing plans, in which customers pre-pay for the services, or postpaid billing plans, in which customers pay for the services after using them, on the basis of either limited or unlimited credit lines. The key functionalities of MIND-iPhonEX are as follows:

Mediation. The MIND-iPhonEX mediation platform provides real-time and batch event collection interfacing with the content, data, service delivery and routing network elements . Our mediation platform incorporates an intelligent processing engine to correlate, aggregate, merge and filter raw events into a single valuable usage event;

Provisioning . Provisioning involves setting up the ability of a subscriber to use services. The MIND-iPhonEX customer database includes information regarding customers' personal data, identification parameters and the services provided. This information can be provided in real time or on demand to any external system, such as network elements and legacy billing solutions. The data provided includes service parameters such as enabled features and quantitative limits;

Authentication . MIND-iPhonEX authenticates subscribers who dial into the network to use the service. Authentication is based on a number of methods, including user codes, passwords and caller line identification. The identification information is passed to the MIND-iPhonEX system, where the subscriber is authenticated and then permitted to use the service;

Authorization . The MIND-iPhonEX system authorizes a particular usage, among other ways, by:

reviewing the destination of a call to determine whether a call to this destination is permitted or reviewing the amount of data and the type of content to determine whether the data session is permitted; or

reviewing the amount of money remaining on the subscriber's prepaid card and pre-rating the call or data session that the subscriber desires to make, using the rating engine described below; or

reviewing the balance of a credit limit of a prepaid plan and calculating the resulting cut-off time, if any, of the call or data session;

Accounting . When each session is completed, MIND-iPhonEX uses the rating engine described below to determine the amount to be charged to the subscriber and updates the balance of the account in real-time. In addition, the usage detail records are stored on the MIND-iPhonEX system for invoicing and reporting;

Interconnect Billing . The networks operated by our customers are typically interconnected with the networks of other telecommunications service providers. Interconnecting providers need to charge other providers for carrying each other's services over their networks. MIND-iPhonEX generates reports that enable providers to bill for traffic and services that are being transported across their networks by other providers;

Multiple Services and Products Support . MIND-iPhonEX allows service providers to take advantage of their convergent networks by providing their customers with advanced voice, data, content and video services. Service providers need the ability to bundle groups of services into tailor-made packages for which they can offer special rates, discounts and promotions. There are different classes of customers with respect to the availability, bandwidth, and quality of service requirements for these services. MIND-iPhonEX offers an easy way to define these services, combine them into products, and rate each service and product differently;

Rating . MIND-iPhonEX offers a real-time and flexible rating engine that allows service providers to offer subscribers a wide variety of billing plans. This flexibility also allows service providers to set different tariff parameters. For

example, our billing and customer care software can support different rates for various content and video streaming services and for different customer groups, rates based on the day of the week and time of the day and rates based on the origin and destination of the call. MIND-iPhonEX also allows international service providers to define rates in different currencies using the product's multi-currency functionality;

Subscriber Web Interface . MIND-iPhonEX has a user-friendly subscriber web interface that allows subscribers to resolve billing inquiries themselves. Individual customers can obtain real time information about their account, including details of calls made that have not yet been invoiced, like the time, destination, length and cost of each call. The subscriber can also browse invoices, call details and payment history records. This feature is convenient for subscribers and efficient for service providers as it reduces service costs;

Customer Support Representative Web Interface . MIND-iPhonEX has a user-friendly customer support representative web interface that allows operators of the system to perform customer care from any location. The Customer Support Representative web interface is an extension of the management capabilities of the service provider's system. This feature is of particular significance to service providers who have remote operations centers and are required to provide local support of their system in more than one location;

Cashier Module . The MIND-iPhonEX Cashier module offers the ability to perform cash registration, posting of payments and refunds and direct sales of services and equipment. The module provides cash register management, credit card processing and analysis reporting capabilities;

Resource Management Module . The MIND-iPhonEX Resource Management module automates the management and tracking of the equipment sold to subscribers. The solution keeps track and manages the equipment by serial number, status, and location, providing solutions for the flow management from the reception of the items up to the allocation of the items to the customers;

Operation Management System . MIND-iPhonEX Operations Management System (OMS) is a set of advanced network management, monitoring and verification solutions targeted at service providers deploying our applications. The solution includes a centralized management solution supporting complex management policies and tools for our applications and other network elements. A centralized dashboard presenting real-time performance allows quick and easy identification of performance problems related to critical operations of MIND-iPhonEX;

Call Management and Traffic Analysis Reports . MIND-iPhonEX's Call Management and Traffic Analysis features allow service providers to generate reports and graphic analyses of usage activity. These reports contain information regarding peak hours, usage loads to different destinations, the number of sessions per minute for a specific gateway or group of gateways, the duration of sessions and other parameters. These features enable service providers to analyze subscriber behavior and use the information to improve their marketing and business development strategies. In addition, the traffic analyses reports assist service providers in planning the growth and development of their networks; and

Fraud Detection . MIND-iPhonEX contains a fraud detection tool that enables detection of "stolen" calls and telephone misuse. MIND-iPhonEX Guard detects, locates and warns of any suspicious activity by activating alarms. It is easily customized to suit the needs of each service provider and allows a provider to build fraud inquiries based on a defined set of parameters. When these specific parameters are violated, MIND-iPhonEX Guard activates an alarm at four different alarm levels. Different actions may be implemented at each level. For instance, the operator may be alerted to possible fraud via e-mail, fax, pager, audio or visual alarms.

Enterprise Software

Our enterprise products, known as PhonEX and MEIPS, are used by corporations for call accounting, traffic analysis and fraud detection. PhonEX is a call management system that collects, records and stores all call information in a

customized database. The system:

allows customers to generate near real-time reports on the enterprise's telephone use;

produces sophisticated reports and graphics for easy and effective analysis of call activity; and

allows customers to allocate telephone expenses to specific departments, individual clients or projects.

These functions allow organizations to more effectively manage their telecommunications resources. PhonEX is easy to install and configure, user-friendly and compatible with any switchboard system. PhonEX also performs call management and traffic analysis as well as fraud management in the same manner as MIND-iPhonEX. In addition, PhonEX is a multi-lingual and multi-currency system, which means that reports can be generated in any currency defined in the system, or in two currencies simultaneously.

Manufacturers of IP telecommunications equipment have begun to develop and market Voice over IP systems for enterprises. Our enterprise solution for IP switches, known as MEIPS, is used to provide call accounting, traffic analysis and fraud detection for enterprises that use IP telephony. MEIPS provides substantially the same features as PhonEX. We intend to further develop and market this product as the emerging market for Voice over IP systems for enterprises grows.

Professional Services

We provide professional services to our customers, consisting primarily of project management, customization, installations, customer support, training and maintenance services. As IP-based service offerings become more complex, more customers require customization services to add specialized features to their systems. We typically incorporate additional or specialized features developed for a particular customer into future versions of our products.

Technology

MIND-iPhonEX has an open architecture, which was developed using industry standards-based application programming interfaces that enables it to readily integrate with other software applications. These application program interfaces create an object-oriented, multi-layered architecture that supports a distributed environment. Our object-oriented technology enables the design and implementation of software on the basis of reusable business objects rather than complex procedural code. Our multi-layered architecture organizes these applications in layers of related information that support the top tier interface between the user and the application. We implement our application in a distributed configuration. This allows various modules to be installed on different servers. We believe that our technology allows us to offer products with the following benefits:

fast integration and interoperability with the IP telecommunications equipment of major manufacturers;

modular architecture that allows MIND-iPhonEX to be easily scalable and enables us to customize our software relatively quickly;

reliable products that ensure high availability of the service for mission-critical applications and are designed to support network-operating centers service providers to ensure no single point of failure in their networks. In the case of the failure of a network component, MIND-iPhonEX has an automatic fail-over mechanism to ensure minimum loss of service;

secured at all levels of the architecture. Each user of the system may be assigned to different security groups. Service providers are therefore able to determine and audit who has access to the system. In addition, firewalls can be installed to prevent unauthorized access to the system;

rapid development of new applications, features and services; and

easy interface with legacy systems and external software.

MIND-iPhonEX has a four-tier architecture, consisting of the following tiers:

Client Application Tier: This is the top tier graphic user interface between the user and the application. It includes client applications for customer registration, customer care and billing administration;

Business Object Tier: This tier includes the business logic and rules of the billing system. This tier manages accounts, services, events and tariffs. It includes an object request broker that facilitates the transfer of information requested by the client application tier from the database object tier;

Database Object Tier: This tier brings together data objects that define the accounts, services and tariffs; and

Database Tier: This tier includes the Oracle database server and management software where the actual billing and customer care information is stored.

Sales and Marketing

Sales

Mediation, Rating, Billing and Customer Care Solutions

We conduct our sales and marketing activities primarily through our marketing and co-operative alliances with hardware platform developers and software application developers such as Alcatel, Cisco and Veraz under which we market and sell our software to the customers of those entities. These marketing allies and resellers provide us with a global extension of our direct sales force and are a significant source of leads and referrals. We perform co-development with our marketing allies to support new software and product releases to maintain interoperability of our software with their equipment. We also engage in joint marketing activities with them including joint responses to requests for proposals, sharing booths in trade shows, distributing each others' marketing information and cross links and references to web sites. We believe that these relationships also help validate our technology and facilitate broad market acceptance of our software.

Our contracts with our marketing allies, distributors and resellers are non-exclusive, do not contain minimum sales or marketing performance requirements and may be terminated at any time with notice. For example, we entered into a non-exclusive agreement with Cisco Systems, Inc. on January 1, 2000 under which we agreed to participate in Cisco's New World Ecosystem Program. The Ecosystem Program was established by Cisco to facilitate the establishment of a network of vendors of complementary products and services that are interoperable with Cisco's equipment and each other. Under the terms of the agreement, we cooperate with Cisco in marketing and distributing products and services that Cisco desires to include in the Ecosystem Program from time to time. The agreement is terminable on 60 days' written notice by either party.

Enterprise Software

In Europe, the United States and Israel our enterprise software is sold by our appointed distributors, resellers and directly through our sales force.

Marketing

Edgar Filing: MIND CTI LTD - Form 20-F

Our marketing programs are focused on creating awareness, interest and preference for our products and services. We engage in a variety of marketing activities, including:

- participating in industry trade shows and special events;
- conducting ongoing public and press relations programs; and
- conducting training seminars for vendors and system integrators.

Principal Markets

The following table shows our revenues for each of the past three years classified by activity and geographic market.

	Years Ended December 31, (in thousands)		
	2002	2003	2004
The Americas (total)	\$ 2,869	\$ 2,368	\$ 1,977
Sale of Licenses	1,726	1,299	1,020
Services	1,143	1,069	957
Asia Pacific and Africa (total)	2,860	3,479	2,859
Sale of Licenses	1,802	2,409	1,957
Services	1,058	1,070	902
Europe (total)	3,364	6,005	12,017
Sale of Licenses	2,741	4,001	8,361
Services	623	2,004	3,656
Israel (total)	915	1,084	953
Sale of Licenses	266	394	361
Services	649	690	592
Total	10,008	12,936	17,806
Sale of Licenses	6,535	8,103	11,699
Services	3,473	4,833	6,107

Customers

Mediation, Rating, Billing and Customer Care Solutions

We currently provide traditional telecommunications service providers, Internet telephony service providers and Internet service providers with our billing and customer care software. MIND-iPhonEX and MindBill have been installed for a large base of customers worldwide, including:

Traditional telecommunications service providers that also offer Voice over IP telephony, such as China United Telecommunications Corp. (China Unicom), Marconi Telecom, Singapore Telecommunications Limited (SingTel), Suburban Telecom, Sri Lanka Telecom, Telecom Colombia, VDC, Telefonica del Peru and Verizon;

Internet telephony service providers and ISPs, including AzulTel, BudgetTel Australia Pty. Ltd and Artelecom S.A.;

Traditional wireline telephony providers, such as Gabon Telecom and Telefonía Bonairiano;

GSM wireless telephony providers, including American Samoa Telecommunications Authority, TelCel Tanzania and SouthEast Telephone; and

3rd generation (3G) mobile operators that provide broadband mobile IP services, such as H3G Italy.

Enterprise Software

Our enterprise software has been installed in locations throughout the world, for customers including ABN Amro, Cellcom, a large cellular telecommunications provider in Israel, Cisco Systems, Credit Suisse First Boston, the European Parliament, the Israeli Defense Forces, Israel Electric Corp. Limited and Tenovis.

Competition

Mediation, Rating, Billing and Customer Care Solutions

Competition in the market for billing and customer care software is intense and we expect competition to increase. We compete both with emerging billing companies such as Portal Software Inc. and Intec Telecom Systems (after the acquisition of Digiquant by Intec Telecom Systems) as well as with the more established traditional billing and customer care companies, such as Convergys Corp. (after the acquisition of Geneva Technology by Convergys Corp.).

We believe that our competitive advantage is based on:

our ability to provide a real-time, scalable, interoperable and reliable billing and customer care software;

our ability to rapidly deploy our software; and

our reputation of providing proven, high-quality billing and customer care software; and

our financial strength.

However, we depend on our marketing alliances with manufacturers of telecommunications equipment and reseller arrangements to market our billing and customer care software. Some of our marketing allies and resellers also work with some of our competitors. For example, Intec is an EcoSystem partner of Cisco. Our marketing alliances and reseller arrangements are for the most part non-exclusive and do not contain minimum sales or marketing performance requirements. We may not be able to compete effectively with our competitors under these circumstances. Many of our competitors have greater financial, personnel and other resources, have longer and more established relationships with service providers and may be able to offer more aggressive pricing or devote greater resources to the promotion of their products. In addition, one or more of our competitors could develop superior products and these products could achieve greater market acceptance than our product.

Enterprise Software

Our main competitors in the market for enterprise software products include Avotus Corporation, ISI, Inc., Mer Telemangement Solutions Inc. and Veramark Technologies, Inc. To compete effectively, companies must be able to offer adequate technical support and ongoing product development and customization services. In addition, multinational companies prefer call accounting systems that can be installed at their various offices throughout the world, and therefore require call accounting products that are multilingual and support the local telecommunication requirements. The principal factors upon which we compete are customer support, ease of use, compatibility with major switchboard systems and IP switches and the multi-lingual and multi-currency nature of our system.

Israeli Office of the Chief Scientist

Under the Israeli Law for the Encouragement of Industrial Research and Development, 1984, or the Research and Development Law, research and development programs which meet specified criteria and are approved by the Office of the Chief Scientist are eligible for grants of up to 50% of certain approved expenditures, in exchange for the payment of royalties from the sale of products (and any ancillary services) incorporating or based upon know-how

developed in accordance with such programs, until the repayment in full of the dollar linked amount of the grants received. We have received grants in the past from the Office of the Chief Scientist and have repaid them.

Even after repayment in full of royalty obligations, the Research and Development Law prohibits the transfer of funded know-how to third parties in Israel without the prior approval of the Office of the Chief Scientist, and prohibits the transfer of the funded know-how outside of Israel. Further, the Research and Development Law requires that the manufacture of products incorporating or basing upon funded know-how be performed in Israel, without the prior approval of the Office of the Chief Scientist. Generally, in the event that any of the manufacturing rights are transferred out of Israel, with the approval of the Office of the Chief Scientist, we would be required to pay increased royalties. A failure to obtain the approval by the Office of the Chief Scientist to the transfer of manufacturing rights out of Israel could harm strategic alliances that we enter into in the future that require such transfer.

In March 2005, an amendment to the Research and Development Law was approved by Israel's parliament, which is intended to make the Research and Development Law more compatible with the global business environment by, among other things, relaxing restrictions on the transfer of manufacturing rights outside Israel and on the transfer of funded know-how outside of Israel. The amendment permits the Office of the Chief Scientist to approve the transfer of manufacturing rights outside Israel in exchange for an import of different manufacturing into Israel as a substitute, in lieu of increased royalties. The amendment further permits, under certain circumstances and subject to the Office of the Chief Scientist's prior approval, the transfer of funded know-how outside Israel, in the following cases: (a) the subject company pays to the Office of the Chief Scientist a portion of the sale price paid in consideration for such funded know-how, (b) the subject company receives know-how from a third party in exchange for its funded know-how or (c) such transfer of funded know-how arises in connection with certain types of cooperation in research and development activities. The amendment will come into effect on June 7, 2005.

The Research and Development Law contains reporting requirements with respect to certain changes in the ownership of a grant recipient. The Research and Development Law requires the grant recipient and its controlling shareholders and interested parties to notify the Office of the Chief Scientist of any change in control of the recipient or a change in the holdings of the means of control of the recipient that results in a non-Israeli becoming an interested party directly in the recipient and requires the new interested party to undertake to the Office of the Chief Scientist to comply with the provisions of the Research and Development Law. For this purpose, "control" is defined as the ability to direct the activities of a company other than any ability arising solely from serving as an officer or director of the company. A person is presumed to have control if such person holds 50% or more of the means of control of a company. "Means of control" refers to voting rights and the right to appoint directors or the chief executive officer. An "interested party" of a company includes a holder of 5% or more of its outstanding share capital or voting rights, its chief executive officer and directors, someone who has the right to appoint its chief executive officer or at least one director, and a company with respect to which any of the foregoing interested parties owns 25% or more of the outstanding share capital or voting rights or has the right to appoint 25% or more of the directors. Accordingly, any non-Israeli who acquires directly 5% or more of our ordinary shares will be required to notify the Office of the Chief Scientist that it has become an interested party and to sign an undertaking to comply with the Research and Development Law.

C. Organizational Structure

Set forth below is a list of our significant subsidiaries:

MIND C.T.I. Inc., a wholly owned subsidiary, incorporated in the State of New Jersey; and

MIND Software SRL, a wholly owned subsidiary, incorporated in Romania.

DIROT COMP SRL, a wholly owned subsidiary, incorporated in Romania.

D. Property, Plant and Equipment

Our headquarters are located in Yoqneam, Israel, approximately 50 miles north of Tel Aviv. We lease approximately 16,000 square feet at our Yoqneam headquarters. We also lease 9,000 square feet, of which we sub-lease to a third party 6,500 square feet, of office space in Hasbrouck Heights, New Jersey, 300 square feet in Beijing, China, and 13,000 square feet in Jassy, Romania. The offices in New Jersey and Beijing are used primarily for presales and customer support, while the office in Jassy is used primarily for software development and for customer support. We are currently considering purchasing or constructing a building for our office in Romania.

Item 5. Operating and Financial Review and Prospects

Cautionary Statement Regarding Forward-Looking Information. Statements in this Annual Report concerning our business outlook or future economic performance; anticipated revenues, expenses or other financial items; introductions and advancements in development of products, and plans and objectives related thereto; and statements concerning assumptions made or expectations as to any future events, conditions, performance or other matters, are "forward-looking statements" as that term is defined under the United States Federal Securities Laws. Forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results to differ materially from those stated in such statements. Factors that could cause or contribute to such differences include, but are not limited to, those set forth under "Risk Factors" in this Annual Report as well as those discussed elsewhere in this Annual Report and in our other filings with the Securities and Exchange Commission.

The following discussion and analysis is based on and should be read in conjunction with our consolidated financial statements, including the related notes, contained in Item 18.

Overview

We were incorporated in Israel in 1995 and started providing our enterprise software products in that year. In 1997, we introduced our billing and customer care software for Voice over IP. In 2001, we acquired the VeraBill product line for billing and customer care for traditional wireline and wireless service providers. We generate revenues from the sales of licenses for our billing and customer care and enterprise software and from fees for professional services. In 2004, 66% of our revenues were derived from license fees and 34% were derived from professional services. Of the total fees for licenses and professional services in 2004, 85.5% were derived from providing our billing and customer care software and 14.5% were derived from providing our enterprise software. During 2004, one customer accounted for 36% of total revenues. In 2003, two customers accounted for 34% of total revenues and in 2002, two customers accounted for 21% of total revenues. We expect to continue to derive substantial revenues from a small number of changing customers.

In 2003 and 2004, we experienced incremental revenue growth. After having returned to profitability in the third quarter of 2002, our net income also grew incrementally in 2003 and 2004. Our revenue growth in 2004 was driven primarily by our winning larger projects than in the past, especially in Europe. In our experience, the European telecommunications markets are recovering from the economic slow down more quickly than the U.S. market. At the same time, we have continued to reduce our expenses as a percentage of revenues, as revenues increased more than expenses.

In July 2003, we declared a \$2.9 million cash dividend and adopted a dividend policy, according to which we declare, subject to specific board approval and applicable law, a dividend distribution once per year, commencing in 2004, in the amount of our net income from the previous year. For more information about our dividend policy, please see Item 8 - "Financial Information-Dividend Policy."

Revenues .

We are paid a one-time license fee by our customers for the right to use our billing and customer care or our enterprise call management software products, and additional fees to expand the scale of the network supported by our software.

We price our licenses for our billing and customer care software based on (1) traffic volume, which is measured by factors such as minutes per month, number of lines used and number of subscribers, and (2) the functionality of the system based on application modules that are added to the software. Licenses for our enterprise software are priced based on the number of the customer's extensions, as well as the functionality of the system based on application modules that are added to the software. In relation to our professional services, other than maintenance services, we quote a fixed price based on the type of service offered, estimated direct labor costs and the expenses that we will incur to provide these services. Fees for maintenance services are based on a fixed percentage of the license fee and are paid mainly annually or quarterly.

We provide a revenue breakdown for our customer care and billing software and our enterprise call management software. We believe that this information provides a better understanding of our performance and allows investors to make a more informed judgment about our business.

Cost of Revenues . The cost of revenues relating to providing our billing and customer care and enterprise software consists primarily of direct labor costs and overhead expenses related to software installation and maintenance. Cost of revenues also includes software license fees to Oracle, hardware, amortization of intangible assets, materials, documentation, packaging and shipping costs. Our cost of professional services revenues consists primarily of direct labor costs and travel expenses. Our revenues from the sale of our licenses have a higher gross margin than that from providing our professional services. We incur variable direct labor costs when we provide professional services. There are no comparable variable labor costs incurred when we license our software.

Research and Development Expenses . Our research and development expenses consist primarily of compensation and overhead costs for research and development personnel and depreciation of testing and other equipment. Research and development costs related to software products are expensed as incurred until the "technological feasibility" of the product has been established. Because of the relatively short time period between "technological feasibility" and product release, and the insignificant amount of costs incurred during that period, no software development costs have been capitalized. We expect to continue to make substantial investments in research and development.

Selling Expenses. Our selling expenses consist primarily of compensation, overhead and related costs for sales and marketing personnel, the operation of international sales offices, sales commissions, marketing programs, public relations, promotional materials, travel expenses, trade shows and exhibition expenses.

General and Administrative Expenses. Our general and administrative expenses consist primarily of compensation, overhead and related expenses for executives, accounting, professional fees, insurance, provisions for doubtful accounts and other general corporate expenses.

Financial and Other Income, net . Our financial and other income, net consists primarily of interest earned on bank deposits, gains and losses from the conversion of monetary balance sheet items denominated in non-dollar currencies into U.S. dollars, net of financing costs and bank charges in real terms as well as the devaluation of monetary assets and monetary liabilities.

Taxes on Income . Israeli companies are generally subject to income tax at the corporate tax rate of 35% for the 2004 tax year, 34% for the 2005 tax year, 32% for the 2006 tax year and 30% for the 2007 tax year and thereafter, and are subject to capital gains tax at a rate of 25% for capital gains, other than gains deriving from the sale of listed securities, derived after January 1, 2003. Substantially all of our facilities, however, have been granted "approved enterprise" status under the Law for the Encouragement of Capital Investments, 1959. Income derived from the approved enterprise is tax exempt for a period of ten years commencing in the first year in which we earn taxable income from the approved enterprise, since we have elected the "alternative benefits scheme" (involving a waiver of investment grants) and our approved enterprises are located in a preferred geographic location. In the event of distribution of cash dividends from income that was tax exempt, we would have to pay up to 25% tax in respect of the amount distributed. As a result of dividends paid by us during 1999, 2000, 2004 and 2005 we were subject to this tax

with respect to the amount distributed. During 2003, the Company distributed to its shareholders approximately \$2.9 million. Since at that time we had insufficient retained earnings, the distribution was done by way of reduction of share premium, representing return of amounts paid in by shareholders, after due approval by an Israeli court in accordance with section 303 of the Israeli Companies Law. The Company was tax exempted according to an applicable tax ruling with respect to such distribution. Our effective tax rate after 2005 will continue to be reduced depending upon future incremental revenue growth, capital investments and approved enterprise certifications. These tax benefits may not be applied to reduce the tax rate for any income derived by our foreign subsidiaries.

A. Operating Results

The following discussion of our results of operations for 2002, 2003 and 2004, including the percentage data in the following table, is based upon our statements of operations contained in our financial statements for those periods, and the related notes, included in this annual report:

	Years Ended December 31,		
	2002	2003	2004
Revenues	100.0%	100.0%	100.0%
Cost of revenues	24.8	24.8	24.7
Gross profit	75.2	75.2	75.3
Research and development expenses	37.2	25.7	21.5
Selling, general and administrative expenses:			
Selling expenses	41.5	31.4	25.4
General and administrative expenses	12.8	8.9	10.5
Operating Income (loss)	(16.3)	9.2	17.9
Financial and other income - net	20.8	20.2	21.6
Income (loss) before taxes on income	4.5	29.4	39.5
Taxes on income	1.2	1.3	0.9
Net income (loss) before minority interest	3.3	28.1	38.6
Minority interests in losses of subsidiaries	--	--	--
Net income (loss)	3.3%	28.1%	38.6%

Comparison of 2002, 2003 and 2004

Revenues

	Year ended December 31, % Change			% Change	
	(\$ in millions)				
	2002	2003	2004	2003 vs. 2002	2004 vs. 2003
License sales	6.5	8.1	11.7	24	44
Professional services	3.5	4.8	6.1	39	26
Total revenues	10.0	12.9	17.8	29	38

Revenues in 2004 and 2003 increased due to the continuing acceptance of our solutions in the market of real-time billing for convergent IP networks. Accordingly, revenues from our real-time billing and customer care product solutions for service providers increased from \$7.4 million in 2002 to \$10.4 million in 2003 and \$15.2 million in 2004 while revenues from our enterprise product remained almost unchanged. Revenues from professional services as percentage of our total revenue increased from 35% in 2002 to 37% in 2003 and then decreased to 34% in 2004.

The following table presents the geographic distribution of our revenues:

Years Ended December 31,

Edgar Filing: MIND CTI LTD - Form 20-F

	2002	2003	2004
The Americas	28.7%	18.3%	11.1%
Asia Pacific and Africa	28.6	26.9	16.1
Europe	33.6	46.4	67.5
Israel	9.1	8.4	5.3
Total	100.0%	100.0%	100.0%

Our sales in Asia Pacific decreased as a percentage of sales between 2002 and 2004, but sales in Africa increased in 2003 and remained almost unchanged in 2004. Sales in the Americas decreased between 2002 and 2004 due to the slower recovery of the U.S. telecommunications markets from the economic slow down that began in late 2000. Sales in Europe increased between 2002 and 2004 mainly due to sales for upgrades to one large customer in Europe.

Cost of Revenues .

(\$ in millions)	Year ended December 31, % Change			% Change 2004 vs. 2003
	2002	2003	2004	
Total cost of revenues	2.5	3.2	4.4	29

The increase in 2004 and in 2003 was primarily due to an increase in fees paid by us to our third party suppliers of software and hardware and, for 2004, also to an increase in employee payroll cost, due to an increase in the total number of employees engaged in support and maintenance . Gross profit as a percentage of revenues remained almost constant at 75.2% in 2002 and 2003 and 75.3% in 2004.

Operating Expenses

(\$ in millions)	Year ended December 31, % Change			% Change 2004 vs. 2003
	2002	2003	2004	
Research and development	3.7	3.3	3.8	(11)
Selling	4.2	4.1	4.5	--
General and administrative	1.3	1.1	1.9	(10)
Total operating expenses	9.2	8.5	10.2	(7)

Research and Development . The increase in 2004 was primarily due to increase in the cost attributable to payroll and related expenses of our employees engaged in research and development resulting from increase in the total number of employees engaged in research and development, as well as to an increase in travel expenses and subcontractors. The decrease in 2003 was primarily due to a decrease in the cost attributable to payroll and related expenses of our employees engaged in research and development despite a moderate increase in the total number of employees engaged in research and developments. Such decrease in payroll and related expenses was primarily due to employing lower-cost employees. Research and development expenses decreased as a percentage of revenues from 37.2% in 2002 to 25.7% in 2003 due to the decreases in payroll expenses described above and to 21.5% in 2004 due to an increase in revenues in excess of the increase of research and development expenses in that year.

Selling Expenses . Selling expenses increased in 2004 primarily due to an increase in the cost attributable to payroll and related expenses and commission. Selling expenses decreased as a percentage of revenues from 41.5% in 2002 to 31.4% in 2003 and to 25.4% in 2004 due to increases in revenues in excess of the increases in selling expenses.

General and Administrative Expenses . General and administrative expenses as a percentage of revenues decreased from 12.8% in 2002 to 8.9% in 2003 due to increase in revenues. The increase in 2004 to 10.5% was primarily

attributable to an increase of \$0.7 million in the provision for doubtful accounts.

Corporate Tax Rate

The general corporate tax rate in Israel is 35% for the 2004 tax year, 34% for the 2005 tax year, 32% for the 2006 tax year and 30% for the 2007 tax year and thereafter. Our effective tax rate, however, was 25.9% in 2002, 4.4% in 2003 and 2.3% in 2004. We experienced these lower effective tax rates primarily because of tax reductions to which we are entitled under Israel's Law for Encouragement of Capital Investments, 1959. We cannot assure you that such tax benefits will be available for us in the future at their current levels or at all. In addition, our effective income tax rate increased in 2002 primarily as a result of foreign withholding taxes on revenues and tax generated on our foreign operations. For more information about the taxes to which we are subject, see above under the caption "Overview-Taxes on Income" and below under Item 10.E "Taxation."

Critical Accounting Policies

To improve understanding of our financial statements, it is important to obtain some degree of familiarity with our critical or principal accounting policies. These policies are described in note 1 to the consolidated financial statements contained at the end of this annual report. We review our accounting policies annually to ensure that the financial statements developed, in part, on the basis of these accounting policies provide complete, accurate and transparent information concerning the financial condition of our company. As part of this process, we reviewed the selection and application of our critical accounting policies and financial disclosures as of December 31, 2004, and we believe that the consolidated financial statements contained at the end of this annual report present fairly, in all material respects, the consolidated financial position of our company as of that date.

In preparing our financial statements in accordance with generally accepted accounting policies in the United States of America, our management must often make estimates and assumptions which may affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures as of the date of the financial statements and during the reporting period. Some of those judgments can be subjective and complex, and consequently actual results may differ from those estimates. For any given individual estimate or assumption made by our management, there may be alternative estimates or assumptions which are also reasonable. However, we believe that, given the facts and circumstances before our management at the time of making the relevant judgments, estimates or assumptions, it is unlikely that applying any such other reasonable judgment would cause a material adverse effect on the consolidated results of operations, financial position or liquidity for the periods presented in the consolidated financial statements included in this annual report.

We are also subject to risks and uncertainties that may cause actual results to differ from estimates and assumptions, such as changes in the economic environment, competition, customer claims, foreign exchange, taxation and governmental programs. Certain of these risks, uncertainties and assumptions are discussed under the heading Cautionary Statement Regarding Forward-Looking Information and in Item 3.D - Risk Factors.

We consider our most significant accounting policies to be those discussed below:

Revenue Recognition. As discussed above, we apply the provisions of SOP 97-2, as follows:

Sales of Licenses. Revenue from the sale of a product is recognized when delivery of the product has occurred, persuasive evidence of an arrangement exists, the sales price is fixed or determinable and collectibility is probable. Customization of the product, if any, is performed before delivery occurs. If collectibility is not considered probable, revenue is recognized when the fee is collected. Determination of the probability of collection is based on management's judgments regarding the payments of the sales price. Should changes in conditions cause management to determine that these criteria are not met for certain future transactions, revenue recognized for any reporting period could be adversely affected.

In cases where we install the product, the revenue recognition is deferred until the installation is completed.

We generally do not grant a right of return on products sold to customers, distributors and resellers. In the event any of our customers are granted the right to return the products, we do not recognize revenues from the sale of such products until the right to return the products has expired.

We render maintenance and support services to our customers, mainly for a period of one year from delivery. When revenue on the sale of the products is recognizable, we defer a portion of the revenue from our sale and recognize it as maintenance and support service revenue ratably over the above period. The portion of the sales price that is deferred is determined based on the fair value of the service as priced in transactions in which we render solely maintenance and support services.

Services. The services we provide consist of installation, training, maintenance, support and project management. Project management consists of advice to our customers regarding the implementation of billing and customer care software. Service revenues are priced on a fixed price basis and are recognized ratably over the service period or as services are performed.

Provision for Doubtful Accounts. The provision for doubtful accounts is for estimated losses resulting from the inability of our customers to make required payments. We regularly evaluate the adequacy of this provision by taking into account variables such as past experience, age of the receivable balance, and current economic conditions that may affect a customer's ability to pay. The use of different estimates or assumptions could produce different provision balances. The customer base for our billing and customer care solutions is concentrated in the service provider industries. Several of the companies in these industries have announced liquidity concerns. If collection is not probable at the time the transaction is consummated, we do not recognize revenue until cash collection. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional provision for doubtful accounts may be required.

Taxes on Income.

Substantially all of our production facilities have been granted Approved Enterprise status under the Law for the Encouragement of Capital Investments, 1959. Income we have derived from the Approved Enterprise is tax exempt. In the event of distribution of cash dividends from tax-exempt income, we are required to pay 25% tax in respect of the amount distributed. For more information about Approved Enterprises, see Item 10.E "Taxation - Law for the Encouragement of Capital Investments, 1959" and Note 7 to our financial statements contained in Item 18.

In previous years, we did not provide for deferred taxes because we intended to reinvest the amounts of all such income and not to distribute dividends from such income. Commencing 2003, we changed our policy with regard to distribution of dividends out of earnings derived from tax-exempt income.

Due to the accumulated tax losses from Approved Enterprise activity and according to an agreement with the tax authorities that such losses would offset tax liability in respect of distribution of tax-exempt income, we did not incur additional tax liability as a result of dividend distributions from the balance of undistributed income.

The change in our dividend policy caused an increase in the effective tax rate we use to calculate deferred tax assets in respect of carry forward tax losses. In 2003 and 2004 the effective tax rate used was 25% as opposed to previous years where, due to our tax benefits and our intension to permanently reinvest such income, the effective tax rate was minimal.

Recently Issued Accounting Pronouncements.

Recently issued accounting pronouncements are described in note 1 paragraph q to the consolidated financial statements contained at the end of this annual report. On April 14, 2005, the Securities and Exchange Commission delayed effectiveness of FAS 123R for companies with fiscal years ending December 31 (such as us) to January 1, 2006.

Our Functional Currency

The currency of the primary economic environment in which we operate is the U.S. dollar. More than 94% of our revenues are derived from sales outside Israel, which are denominated primarily in U.S. dollars. In addition, most of our marketing costs are incurred outside Israel, primarily in U.S. dollars. Transactions and balances originally denominated in U.S. dollars are presented at their original amounts. Balances in non-dollar currencies are translated into U.S. dollars using historical and current exchange rates for non-monetary and monetary balances, respectively. For non-dollar transactions and other items reflected in our income statements, the following exchange rates are used:

- for transactions, exchange rates at the transaction dates or average rates; and
- for other items (derived from non-monetary balance sheet items such as depreciation and amortization, changes in inventories or similar items), historical exchange rates.

The resulting currency transaction gains or losses are reported as financial income or expenses as appropriate.

Our financial statements are prepared in accordance with generally accepted accounting principles in the United States of America.

Impact of Foreign Currency Fluctuations on Results of Operations

The U.S. dollar cost of our operations is influenced by the extent to which any inflation in Israel is offset, on a lagging basis, or is not offset by the devaluation of the NIS in relation to the U.S. dollar. When the rate of inflation in Israel exceeds the rate of devaluation of the NIS against the U.S. dollar, companies experience increases in the U.S. dollar cost of their operations in Israel. Unless offset by a devaluation of the NIS, inflation in Israel will have a negative effect on our profitability as we receive payment in U.S. dollars for most of our sales while we incur a portion of our expenses, principally salaries and related personnel expenses, in NIS.

In addition, a portion of our revenues is denominated in Euro derived from sales to customers in Europe. Devaluation in the local currencies of our customers relative to the U.S. dollar could cause our customers to cancel or decrease orders or default on payment. Further, a strengthening of these currencies versus other currencies could make our products less competitive in foreign markets and collection of receivables more difficult.

The following table presents information about the rate of inflation in Israel, the rate of devaluation of the NIS against the U.S. dollar, and the rate of inflation of Israel adjusted for the devaluation:

Years Ended December 31,	Israeli Inflation Rate	Israeli Devaluation Rate	Israel Inflation Adjusted for Devaluation
1998	8.6	17.6	(9.0)
1999	1.3	(0.2)	1.5
2000	0.0	(2.7)	2.7
2001	1.4	9.3	(7.9)
2002	6.5	7.3	(0.8)
2003	(1.9)	(7.6)	5.7
2004	1.2	(1.6)	2.8

We cannot assure you that we will not be materially and adversely affected in the future if inflation in Israel exceeds the devaluation of the NIS against the U.S. dollar or if the timing of the devaluation lags behind inflation in Israel.

A devaluation of the NIS in relation to the U.S. dollar has the effect of reducing the U.S. dollar amount of any of our expenses or liabilities which are payable in NIS, unless these expenses or payables are linked to the U.S. dollar. This devaluation also has the effect of decreasing the U.S. dollar value of any asset, which consists of NIS or receivables payable in NIS, unless the receivables are linked to the U.S. dollar. Conversely, any increase in the value of the NIS in relation to the U.S. dollar has the effect of increasing the U.S. dollar value of any unlinked NIS assets and the U.S. dollar amounts of any unlinked NIS liabilities and expenses.

Because exchange rates between the NIS and the U.S. dollar fluctuate continuously, with a historically declining trend in the value of the NIS, exchange rate fluctuations and especially larger periodic devaluations will have an impact on our profitability and period-to-period comparisons of our results. The effects of foreign currency re-measurements are reported in our consolidated financial statements in current operations.

B. Liquidity and Capital Resources

Since our inception, we have financed our operations mainly through cash generated by operations. We supplemented this source by two private rounds of equity financing and our initial public offering.

Our first round of financing in an amount of \$1.0 million closed in August 1997. A follow-on exercise of a warrant during January 1999 yielded an additional \$2.3 million. Our second round of financing, in a net amount of \$11.1 million, was completed in the first quarter of 2000. We sold 3,450,000 of our ordinary shares in our initial public offering in August 2000, with net proceeds to us of \$29.9 million.

As of December 31, 2004, we had approximately \$48.9 million in cash, cash equivalents and long-term bank deposits, and our working capital was \$18.9 million. In our opinion, our working capital is sufficient for our requirements for the foreseeable future.

Net Cash Provided by/Used in Operating Activities . Net cash provided by operating activities in 2004 was \$7.7 million, primarily attributable to our net income of \$6.9 million, an decrease in operating assets and liability items of \$75,000, and non-cash expenses relating to depreciation and amortization in the amount of \$680,000. Net cash provided by operating activities in 2003 was \$6.15 million, primarily attributable to our net income of \$3.6 million, an increase in operating assets and liability items of \$1.56 million and non-cash expenses relating to depreciation and amortization in the amount of \$806,000. Net cash provided by operating activities in 2002 was \$1.7 million, primarily attributable to our net income of \$334,000, an increase in accounts payables and accruals of \$705,000 and a decrease in account receivables of \$1.2 million depreciation and amortization of \$944,000, offset in part by interest of \$1.6 million accrued on a long term bank deposit.

Cash Deposits . During 2004, most of our cash was deposited with banks in time deposits bearing rates of interest, which varied based on fluctuations in the London Interbank Offered Rate (LIBOR) . During the last quarter of 2003, we deposited an amount of \$40 million with a bank for a period of between seven to ten years. Under the arrangement with the bank, whether or not the deposits bear interest depends upon the rate of the LIBOR, as follows. For each day that the LIBOR is below a fixed agreed rate, the deposits bear interest at a rate of between 8.4% to 9.7% per annum. On all other days, the deposits do not bear any interest at all. In May 2004, we deposited \$10 million in a similar bank deposit. The bank exercised its right to refund the deposits, and terminated this arrangement in November 2004 .

During the last quarter of 2004, we deposited an amount of \$30 million with several banks for periods of between seven and ten years. Under the arrangements with the banks, whether or not the deposits bear interest depends upon the rate of the six-month LIBOR, as follows:

Two amounts of \$10 million each:

For each day in which the six-months LIBOR is below an agreed annual fixed rate of 3.5% in the first year, 4.5% in the second year, 5.5% in the third year and 6.5% in the fourth to seventh year, the deposits bear interest at the rate of 7.05% in the first year and in the second to seventh year at the rate of the six-month LIBOR plus 5% per annum ("the positive interest rate"). On all other days, the deposits do not bear any interest at all. The bank has a right to refund the deposits and terminate these arrangements every six months.

An amount of \$10 million:

For each day in which the six-month LIBOR is below an agreed annual fixed rate of 3.5% in the first year, 4.5% in the second year, 5.5% in the third year and 6.5% in the fourth to tenth year, the deposit bears interest at the rate of 8.6% of the first year and in the second to tenth year at the rate of the six-month LIBOR plus 5% per annum ("the positive interest rate"). On all other days, the deposit does not bear any interest at all. The bank has a right to refund the deposit and terminate this arrangement every six months.

We recognize interest income based on the expected interest rate receivable, which in the reported periods and as of December 31, 2004 is equal to the applicable positive interest rates.

Net Cash Provided by/Used in Investing Activities . In 2004 and 2003, net cash provided by investing activities was \$8.8 million and \$10.5 million, respectively. We used cash in investing activities in the amount of \$30.2 million in 2002. During 2002, 2003 and 2004, our principal investment activity was long-term bank deposits.

Net Cash Provided by/Used in Financing Activities . In 2002, our financing activities provided \$19,000, attributable to the proceeds from the exercise of employee stock options. In 2003, our financing activities used \$2.6 million due to a cash dividend of \$2.9 million, offset by \$354,000 in proceeds from the exercise of employee stock options. In 2004, our financing activities used \$2.2 million due to a cash dividend of \$2.7 million, offset by \$563,000 in proceeds from the exercise of employee stock options.

Capital Expenditures . During 2002, 2003 and 2004, the aggregate amounts of our capital expenditures were \$180,000, \$499,000 and \$1.2 million, respectively. These expenditures were principally for the purchase of property and other equipment. Although we have no material commitments for capital expenditures, we anticipate an increase in capital expenditures if we purchase or merge with companies or purchase assets in order to obtain complementary technology and to expand our product offerings, customer base and geographical presence.

Cash Dividends . In November 2003, we paid a cash dividend in the amount of \$2.9 million. In the first quarter of 2004, we paid a cash dividend in the amount of approximately \$3.6 million (\$2.7 million after taxes), which was equal to our net profits for 2003. In the first quarter of 2005, we paid a cash dividend in the amount of approximately \$6.9 million (\$5.2 million after taxes), which was equal to our net profits for 2004. For information about our dividend policy, please see Item 8 - "Financial Information-Dividend Policy."

C. Research and Development, Patents and Licenses, etc.

We believe that significant investment in research and development is essential for maintaining and expanding our technological expertise in the market for billing and customer care software and to our strategy of being a leading provider of new and innovative convergent billing products. We work closely with our partners, customers and distribution channels, who provide significant feedback for product development and innovation.

We have invested significant time and resources to create a structured process for undertaking research and product development. We believe that the method that we use for our product development and testing is well suited for identifying market needs, addressing the activities required to release new products, and bringing development projects to market successfully. Our product development activities also include the release of new versions of our products. Although we expect to develop new products internally, we may, based upon timing and cost considerations,

acquire or license technologies or products from third parties.

Our research and development personnel include engineers and software developers with experience in the development and design of billing and customer care software. As of December 31, 2004, our research and development department consisted of 154 employees out of a total of 252 employees.

D. Trend Information

The ongoing deterioration of the economy and economic uncertainty in the telecommunications market resulted in a curtailment of capital investment by telecommunications carriers and service providers beginning late in 2000 and continuing throughout 2002 and into the beginning of 2003. During 2003 the deterioration seemed to have stopped, but there was still uncertainty with respect to the direction of the economy and the telecommunications market. Many new and small service providers have failed and existing service providers have been reducing or delaying expenditures on new equipment and applications. We believe that this slow down in telecommunications-related expenditures will continue affecting our sales and putting pressure on the prices of our products.

Integrating voice and data in enterprise switches (the IP private branch exchanges, or IP PBXs) is a trend in which we are participating. Our goal is to develop marketing and sales relationships with the vendors of IP PBXs such as Cisco Systems and 3Com under which our enterprise software will be sold together with these vendors' systems. This requires us to develop new sales channels with the distributors of IP PBXs. This process is time consuming and requires the investment of some resources to sign the necessary agreements and to certify and train these new channel partners.

At the end of 2001, we began offering service-enabling products for the broadband market in general and for the wireless 3G-market space in particular. The emergence of this market segment has been significantly delayed due to technology impediment and the global economic slowdown. This delay has caused the deferral of the deployment of new networks and of the need for new solutions that we provide. This trend has reduced our ability to forecast the acceptance of our solutions in this market segment.

Our new wireless solutions target incumbent wireless operators, where we encounter longer sales cycle, more costs and lower visibility on win timetables. The sales cycle to these operators is significantly longer than the sales cycle we encountered in the past. In most cases we are required to respond to an RFI (Request for Information) and an RFP (Request for Proposal), which require large investments of time of our technical pre-sale team. In most cases, we need to partner with at least one system integrator on a case-by-case basis. The cost of sales is also significantly higher due to the increased resources required in the sales process. Our ability to forecast timing of wins is reduced, as the decision-making process of the wireless operators is unclear and in many cases the decision is either delayed or deferred to an indefinite date.

E. Off-balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

F. Tabular Disclosure of Contractual Obligations

Contractual Obligations	Payment due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-Term Debt Obligations	0	0	0	0	0
Capital (Finance) Lease Obligations	0	0	0	0	0
Operating Lease Obligations	\$ 405,000	\$ 376,000	\$ 29,000	0	0

Edgar Filing: MIND CTI LTD - Form 20-F

Purchase Obligations	0	0	0	0	0
Other Long-Term Liabilities Reflected on our Balance Sheet under U.S. GAAP	0	0	0	0	0
Total	\$ 405,000	\$ 376,000	\$ 29,000	0	0

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

The following table sets forth certain information regarding our directors and executive officers as of the date of filing of this annual report:

Name	Age	Position
Monica Eisinger	47	President, Chairperson of the Board of Directors and Chief Executive Officer
Benny Rosenbaum	46	Chief Operations Officer
Arie Ganot	44	Chief Financial Officer
Doron Segal	40	Chief Technology Officer
Sagee Aran	42	Vice President - Sales for Asia Pacific and Africa
Izik Ben Zaken	31	Vice President - Research and Development
Dudi Avni	43	Vice President - Professional Services
Rimon Ben-Shaoul	60	Director
Amnon Neubach	61	Director
Menahem Shalgi	55	Director
Zamir Bar-Zion	48	Director

The background of each of our directors and executive officers is as follows:

Monica Eisinger . Ms. Eisinger is a founder of our company and has been President, Chairperson and Chief Executive Officer of our company since inception. Prior to founding MIND, Ms. Eisinger served as an information systems consultant to Raphael, the Israeli Armaments Industry and directed over 40 projects. Ms. Eisinger holds a B.Sc. in Computer Sciences and an M.Sc. in Telecommunications (with expertise in Voice and Data Integration over the Ethernet) from the Technion, Israel Institute of Technology.

Dudi Avni . Mr. Avni joined our company in November 2003 as Vice President of Professional Services. From 2000 to 2003, Mr. Avni served as a Vice President at Amdocs, with responsibility for customer care & billing deployments at large operators. Prior to that he served as Chief Information Officer for Osem Group (Nestle Israel) and as a Vice President and partner in OIC Technologies Ltd. Mr. Avni holds a B.Sc. in Mathematics and Computer Science, a B.A. in Economics and an M.B.A. from Tel-Aviv University.

Sagee Aran . Mr. Aran joined our company in March 2000 and has served as our Vice President of Sales for Asia Pacific and Africa since November 2003. Prior to that, Mr. Aran served as our Vice President of Professional Services. Prior to joining our company, he worked for seven years at HISH Ltd., a company specializing in process engineering and management, at which he held a number of positions including Operations Manager and International Sales and Marketing Manager. Mr. Aran holds a B.Sc. in Engineering from the Technion, Israel Institute of Technology.

Izik Ben Zaken . Mr. Ben Zaken has worked at our company since our inception and has served in a number of positions including Head Software Architect. He has served as our Vice President of Research and Development since June 2001. Mr. Ben Zaken holds a B.A. in Computer Science from the Technion, Israel Institute of Technology.

Arie Ganot . Mr. Ganot joined our company in 1998. He has held a number of positions with the company including Vice President - Finance and Comptroller. From 1994 to 1998, Mr. Ganot served as the Chief Financial Officer of S.A.L. Technical Equipment Ltd. and from 1990 to 1994, he worked as an accountant with Kesselman and Kesselman, a member of PricewaterhouseCoopers International Limited. Mr. Ganot holds a B.A. in Accounting and

Economics from Tel Aviv University and is a Certified Public Accountant in Israel.

Doron Segal. Mr. Segal has served as our Chief Technology Officer since October 2004. Prior thereto, he worked for eight years at Comverse, at which he held a number of positions including AVP with responsibility for product requirement definition and product level design. Mr. Segal holds an M.Sc. degree in Computer Sciences from Bar-Ilan University, along with a B.Sc. degree in Physics, Mathematics & Computer Sciences from the Hebrew University.

Benny Rosenbaum has served as our Chief Operations Officer since April 2005. Prior to joining our company Mr. Rosenbaum worked for four years at Vapisoft Ltd. as CEO. Prior thereto he worked for fourteen years at Magic Software, at which he held a number of positions including VP of Business Development with responsibility for Magic Software future directions. Mr. Rosenbaum holds a BA degree in Business from Bar-Ilan University .

Zamir Bar-Zion . Mr. Bar-Zion has served as an external director of our company since June 2002. Mr. Bar-Zion has also served as the Managing Director of Investment Banking at Excellence Nessuah/Piper Jaffray since May 2004. Mr. Bar-Zion was a Managing Director for investment banking at Nessuah Zannex & Co. from 1998 until 2001. Prior thereto, Mr. Bar-Zion served as a private financial consultant and a senior partner at Evergreen Canada - Israel Investments Ltd. Mr. Bar-Zion currently serves as a director of Top Image Systems Ltd., Attunity Ltd. and Lapidot Cheletz Ltd. Mr. Bar-Zion holds a B.S. degree in Computer Science and Finance from the New York Institute of Technology, an M.A. degree in Finance from Pace University and has graduated from the Program of Management Development at Harvard University.

Rimon Ben-Shaoul . Mr. Ben-Shaoul has served as a director of our company since August 2002. Mr. Ben-Shaoul has served as the President and Chief Executive Officer of Polar Communications Ltd. since 2004 and between 2001 and 2004 as the Co-Chairman, President and Chief Executive Officer of Koonras Technologies Ltd., an investment company controlled by Polar Investments Ltd. From 1997 to 2001 Mr. Ben-Shaoul served as the President and Chief Executive Officer of Clal Industries and Investments Ltd. From 1985 to 1997 Mr. Ben-Shaoul was President and Chief Executive Officer of Clal Insurance Company Ltd. From 1997 to 2001 Mr. Ben-Shaoul served as Chairman of Scitex Corporation Ltd. and currently Mr. Ben-Shaoul serves as Chairman of Cimatron Ltd. and as a director of Arel Communications & Software Ltd., Nice Systems Ltd. and B.V.R. Technologies Ltd. Mr. Ben-Shaoul also serves as a director on the boards of several privately held companies. Mr. Ben-Shaoul holds an M.B.A. degree and a B.A. degree in Economics, both from Tel Aviv University.

Amnon Neubach . Mr. Neubach has served as an external director of our company since February 2001. From 2001 until 2003 Mr. Neubach has served as Chairman of the Board of Pelephone Communications Ltd., a company founded by Bezek and Motorola, Mr. Neubach served as an economic consultant to several companies in the private sector since 1997. From 1995-1997, Mr. Neubach served as country advisor to Goldman Sachs in Israel, and from 1990-1994 he served as the Minister of Economic Affairs in the Israeli Embassy in Washington, D.C. Currently Mr. Neubach serves as a director of Arelnet Ltd., Delta Ltd., Direct Insurance Ltd. and Aspen Ltd. Mr. Neubach also serves as a director on the boards of two privately held companies. Mr. Neubach holds a B.A. in Economics and Business Administration and an M.A. in Economics, both from Bar Ilan University.

Menahem Shalgi. Mr. Shalgi has served as an external director of our company since April 2005. Mr. Shalgi served at Amdocs as Vice President of Business Development and M&A from 1998 to 2003 and as Vice President and Executive Account Manager from 1993 to 1998. From 1991 to 1993, Mr. Shalgi served as the Chief Executive Officer of WIZTEC Ltd. Prior thereto, Mr. Shalgi served at Amdocs at which he held a number of positions. Mr. Shalgi holds a B.A. degree in Economics and Statistics from Tel-Aviv University and a M.Sc. degree in Computer Sciences from Weizmann Institute for Science.

B. Compensation of Directors and Executive Officers

The aggregate direct remuneration paid to all persons who served in the capacity of director or executive officer during 2004 was approximately \$1.2 million, including approximately \$98,000 that was set aside for pension and retirement benefits. This does not include amounts expended by us for automobiles made available to our officers or expenses, including business, travel, professional and business association dues and expenses, reimbursed to officers.

During 2004, options to purchase 300,000 ordinary shares were granted to our executive officers under our option plans.

Our shareholders in a meeting held on April 7, 2005, resolved to grant each of our five directors options to purchase 18,000 Ordinary Shares. The exercise price of the options is \$3.82, which is equal to the per share closing price of our Ordinary Shares on the Nasdaq Stock Market on the trading date immediately preceding the shareholders meeting approving the grant. The options will vest in three equal annual installments and will expire on February 8, 2012. The shareholders also approved to pay each non-executive director an annual fee of \$8,000 and a participation fee of \$400 per meeting, which is the same amount of fees paid to our outside directors.

C. Board Practices

Board of Directors

Our board is divided into three classes of directors, denominated Class I, Class II and Class III. The term of Class I will expire in 2007, Class II in 2008 and Class III in 2006. Monica Eisinger is a member of Class I, Rimon Ben-Shaoul is a member of Class II, and currently there is no director who is a member of Class III. At each annual general meeting of shareholders, directors will be elected by a simple majority of the votes cast for a three-year term to succeed the directors whose terms then expire. There is no legal limit on the number of terms that may be served by directors who are not external directors. External directors, who are elected for up to two three-year terms pursuant to the Companies Law, are not members of any class. Mr. Amnon Neubach was re-elected to a second term as an external director on April 13, 2004 and Mr. Zamir Bar-Zion, was re-elected to a second term as an external director in April 2005, effective June 27, 2005. Mr. Menahem Shalgi was elected as an external director in April 2005.

External Directors

We have obtained an exemption from Nasdaq's independent director requirements based on our compliance with the corresponding requirements under the Companies Law, described immediately below. Nevertheless, all of our directors, except Ms. Eisinger, are "independent directors" under the Nasdaq definition.

Under the Companies Law, companies incorporated under the laws of Israel whose shares are listed for trading on a stock exchange or have been offered to the public in or outside of Israel are required to appoint two external directors. The Companies Law provides that a person may not be appointed as an external director if the person or the person's relative, partner, employer or any entity under the person's control has, as of the date of the person's appointment to serve as an external director, or had, during the two years preceding that date, any affiliation with:

- the company;
- any entity controlling the company; or
- any entity controlled by the company or by its controlling entity.
- The term affiliation includes:
 - an employment relationship;
 - a business or professional relationship maintained on a regular basis;
 - control; and
 - service as an office holder.

The Companies Law defines the term "office holder" of a company to include a director, the chief executive officer, the chief business manager, a vice president and any officer that reports directly to the chief executive officer.

No person can serve as an external director if the person's position or other business creates, or may create, conflict of interests with the person's responsibilities as an external director or may otherwise interfere with the person's ability to serve as an external director.

Until the lapse of two years from termination of office, a company may not engage an external director to serve as an office holder and cannot employ or receive services from that person, either directly or indirectly, including through a corporation controlled by that person.

External directors are to be elected by a majority vote at a shareholders' meeting, provided that either:

- at least one third of the shares of non-controlling shareholders voted at the meeting vote in favor of the election; or
- the total number of shares of non-controlling shareholders voted against the election of the external director does not exceed one percent of the aggregate voting rights in the company.

The initial term of an external director is three years and may be extended for an additional three years. External directors may be removed from office only by the same percentage of shareholders as is required for their election, or by a court, and then only if the external directors cease to meet the statutory qualifications for their appointment or if they violate their duty of loyalty to the company. Each committee of a company's board of directors that exercises a power of the board of directors is required to include at least one external director, except for the audit committee, which is required to include all the external directors.

Audit Committee

Under the Companies Law, our board of directors is required to appoint an audit committee, comprised of at least three directors including all of the external directors, but excluding:

- the chairman of the board of directors; and
- a controlling shareholder or a relative of a controlling shareholder and any director employed by the company or who provides services to the company on a regular basis.

Under the Companies Law, the role of the audit committee is to examine flaws in the management of the company's business, in consultation with the internal auditor and the company's independent accountants, suggest remedial measures, and to approve specified related party transactions. Our audit committee consists of all our external director(s) and Mr. Rimon Ben-Shaoul.

The approval of the audit committee is required to effect specified actions and transactions with office holders, controlling shareholders and entities in which they have a personal interest. An audit committee may not approve an action or a transaction with related parties or with its office holders unless at the time of approval at least two external directors are serving as members of the audit committee and at least one of whom was present at the meeting in which any approval was granted.

Under the Nasdaq rules, our audit assists the board in fulfilling its responsibility for oversight of the quality and integrity of our accounting, auditing and financial reporting practices and financial statements and the independence qualifications and performance of our independent auditors. Our audit committee also has the authority and responsibility to oversee our independent auditors, to recommend for shareholder approval the appointment and, where appropriate, replacement of our independent auditors and to pre-approve audit engagement fees and all permitted non-audit services and fees. We have adopted an audit committee charter, which sets forth the

qualifications, powers and responsibilities of our audit committee.

Our audit committee also serves as (i) our compensation committee, authorized to determine the compensation of our executive officers, (ii) our nominations committee, authorized to recommend all director nominees for the selection of the board of directors, provided that no such recommendation is required in cases, if any, where the right to nominate a director legally belongs to a third party, and (iii) our qualified legal compliance committee, responsible for investigating reports, made by attorneys appearing and practicing before the SEC in representing us, of perceived material violations of U.S. federal or state securities laws, breaches of fiduciary duty or similar violations by us or any of our agents.

All four members of our audit committee are "independent directors" under the Nasdaq rules and meet the additional qualifications for membership on an audit committee that apply to us.

Internal Auditor

Under the Companies Law, the board of directors must appoint an internal auditor proposed by the audit committee. The role of the internal auditor is to examine, inter alia, whether the company's actions comply with the law and orderly business procedure. The internal auditor may not be an interested party, an office holder, or a relative of any of the foregoing, nor may the internal auditor be the company's independent accountant or its representative. The Companies Law defines the term "interested party" to include a person who holds 5% or more of the company's outstanding share capital or voting rights, a person who has the right to appoint one or more directors or the general manager, or any person who serves as a director or as the general manager. Mr. Gideon Douvshani, CPA, serves as our internal auditor.

Fiduciary Duties of Office Holders

The Companies Law imposes a duty of care and a duty of loyalty on all office holders of a company. The duty of care requires an office holder to act with the level of care with which a reasonable office holder in the same position would have acted under the same circumstances. The duty of care includes a duty to use reasonable means to obtain:

- information on the advisability of a given action brought for his approval or performed by him by virtue of his position; and
- all other important information pertaining to these actions.

The duty of loyalty of an office holder includes a duty to:

- refrain from any conflict of interest between the performance of his duties in the company and the performance of his other duties or his personal affairs;
- refrain from any activity that is competitive with the company;
- refrain from exploiting any business opportunity of the company to receive a personal gain for himself or others; and
- disclose to the company any information or documents relating to a company's affairs which the office holder has received due to his position as an office holder.

Disclosure of Personal Interest of an Office Holder

The Companies Law requires that an office holder of a company disclose to the company any personal interest that he may have and all related material information known to him, in connection with any existing or proposed transaction by the company. The disclosure is required to be made promptly and in any event no later than the board of directors meeting in which the transaction is first discussed. If the transaction is an extraordinary transaction, the

office holder must also disclose any personal interest held by:

- the office holder's spouse, siblings, parents, grandparents, descendants, spouse's descendants and the spouses of any of these people; or
- any corporation in which the office holder is a 5% or greater shareholder, director or general manager or in which he has the right to appoint at least one director or the general manager.
- Under Israeli law, an extraordinary transaction is a transaction:
 - other than in the ordinary course of business;
 - otherwise than on market terms; or
 - that is likely to have a material impact on the company's profitability, assets or liabilities.

Approval of Related Party Transactions

Once an office holder complies with the above disclosure requirement, the board of directors may approve a transaction between the company and an office holder, or a third party in which an office holder has a personal interest. A transaction that is adverse to the company's interest may not be approved.

If the transaction is an extraordinary transaction, approval of both the audit committee and the board of directors is required. Under specific circumstances, shareholder approval may also be required. A director who has a personal interest in an extraordinary transaction that is considered at a meeting of the board of directors or the audit committee may not be present at this meeting or vote on the matter, unless a majority of the members of the board of directors or the audit committee, as the case may be, has a personal interest in the matter. If a majority of members of the board of directors have a personal interest therein, shareholder approval is also required.

Disclosure of Personal Interests of a Controlling Shareholder

Under the Companies Law, the disclosure requirements which apply to an office holder also apply to a controlling shareholder of a public company. A controlling shareholder is a shareholder who has the ability to direct the activities of a company, including a shareholder that owns 25% or more of the voting rights if no other shareholder owns more than 50% of the voting rights, but excluding a shareholder whose power derives solely from his or her position on the board of directors or any other position with the company. Extraordinary transactions with a controlling shareholder or in which a controlling shareholder has a personal interest, and the engagement of a controlling shareholder as an office holder or employee, require the approval of the audit committee, the board of directors and the shareholders of the company, in that order. The shareholder approval must be by a majority of the shares voted on the matter, provided that either:

- at least one-third of the shares of shareholders who have no personal interest in the transaction and who vote on the matter vote in favor thereof; or
- the shareholders who have no personal interest in the transaction who vote against the transaction do not represent more than one percent of the voting rights in the company.

Shareholders generally have the right to examine any document in the company's possession pertaining to any matter that requires shareholder approval. If this information is made public in Israel or elsewhere, we will file the information with the Securities and Exchange Commission in the United States.

For information concerning the direct and indirect personal interests of an office holder and principal shareholders in specified transactions with us, see Item 7.B "Related Party Transactions."

Remuneration of Members of the Board of Directors

Under the Companies Law, no director may be paid any remuneration by the company for his services as director except as may be approved by our audit committee, board of directors and shareholders. Our external directors are entitled to consideration and reimbursement of expenses only as provided in regulations promulgated under the Companies Law and are otherwise prohibited from receiving any other consideration, directly or indirectly, in connection with their service as external directors. The compensation paid to our directors is described above in Item 6B. Our directors are not entitled to benefits upon termination of service.

Executive Officers

Our executive officers are appointed by our board of directors and serve at the discretion of our board of directors. We maintain written employment agreements with our executive officers. Each agreement terminates upon 30 days' written notice and provides for standard terms and conditions of employment. All of our executive officers have agreed not to compete with us for 12 months (or 24 months in the case of Monica Eisinger) following the termination of their employment with us. Monica Eisinger is entitled to severance pay upon termination of her employment by either her or us (other than by us for cause) and to receive, during each month of the six-month period following termination of her employment by us, or by her for cause, an amount of salary and benefits equal to her former monthly salary and other benefits. Under recent Israeli case law, the non-competition undertakings of employees may not be enforceable.

D. Employees

The numbers and breakdowns of our employees as of the end of the past three years are set forth in the following table:

	As of December 31,		
	2002	2003	2004
Approximate numbers of employees by geographic location			
Israel	94	92	105
Romania	47	76	140
United States	15	11	4
China	7	4	3
Elsewhere	0	0	0
Total workforce	163	183	252
Approximate numbers of employees by category of activity			
General and administration	13	13	14
Research and development	94	111	154

We are subject to Israeli labor laws and regulations with respect to our Israeli employees. These laws principally concern matters such as paid annual vacation, paid sick days, length of the work day and work week, minimum wages, pay for overtime, insurance for work-related accidents and severance payments upon the retirement or death of an employee or termination of employment under specified circumstances. The severance payments may be funded, in whole or in part, through Managers' Insurance or a Pension Fund, as described below. The payments to the Managers' Insurance fund or Pension Fund toward severance amount to 8.3% of wages. Furthermore, Israeli employees and employers are required to pay predetermined sums to the National Insurance Institute, which is similar to the U.S. Social Security Administration. Since January 1, 1995, these amounts also include payments for health insurance. The payments to the National Insurance Institute amount to approximately 14.5% of wages, of

which the employee contributes 66% and the employer contributes 34%.

Our general practice in Israel is to contribute funds on behalf of all of our employees to Managers' Insurance or a Pension Fund. Each employee who agrees to participate in the Managers' Insurance plan contributes 5% of his or her base salary and we contribute 13.3%. Each employee who agrees to participate in the Pension Fund contributes 5.0% or 5.5% of his or her base salary and we contribute 14.3%. Another savings plan we offer some of our employees, although not legally required, is known as the Advanced Studies Fund. Each employee who agrees to participate in the Advanced Studies fund contributes 2.5% of his or her base salary and we contribute 7.5%.

Furthermore, by order of the Israeli Ministry of Labor and Welfare, all employers and employees are subject to provisions of collective bargaining agreements between the Histadrut, Federation of Labor, and the Coordination Bureau of Economic Organizations in Israel. These provisions principally concern cost of living increases, recreation pay, commuting expenses and other conditions of employment. We provide our employees with benefits and working conditions above the required minimums. Our employees are not represented by a labor union. To date, we have not experienced any work stoppages and our relationships with our employees are good.

E. Share Ownership

As of March 1, 2005, Monica Eisinger owns 4,054,000, or 18.92%, of our ordinary shares. In addition, Ms. Eisinger holds options to acquire 40,000 ordinary shares at an exercise price of \$1.65 per share, half of which are vested and half of which vest on December 31, 2005, and expire on December 31, 2008. She also holds options to acquire 18,000 ordinary shares at an exercise price of \$3.82, which vest in equal installments on February 1, 2006, 2007 and 2008 expire on February 8, 2012.

None of our other directors or members of senior management beneficially owns 1% or more of our ordinary shares.

See Item 7A "Major Shareholders" for details of the number of our ordinary shares beneficially owned, or that may be deemed to be beneficially owned, by our directors.

We have established stock option plans to provide for the issuance of options to our directors, officers and employees. Under the plans, options to purchase our ordinary shares may be issued from time to time to our directors, officers and employees at exercise prices and on other terms and conditions as determined by our board of directors. Our board of directors determines the exercise price and the vesting period of options granted.

The option plans permit the issuance of options to acquire up to 4,308,000 ordinary shares. As of March 1, 2005, options to purchase 1,651,800 ordinary shares are outstanding and options for 808,360 ordinary shares have been exercised. The options vest over three to five years, commencing on the date of grant. Generally, options not previously exercised will expire approximately seven years after they are granted. In connection with the recent Israeli tax reform, our board of directors elected capital gains treatment in respect of options awarded under our Israeli option plan after January 1, 2003. Accordingly, gains derived from options awarded after January 1, 2003, and held by a trustee for two years from the end of the tax year in which they were awarded, will be taxed as capital gains at a rate of 25%, and we will generally not be entitled to recognize an expense for the award of such options. On April 13, 2004, our annual general meeting resolved to extend our share option plans until December 31, 2010.

Item 7 Major Shareholders and Related Party Transactions

A. Major Shareholders

The following table sets forth certain information regarding the beneficial ownership of our ordinary shares as of March 1, 2005 by each person who is known to own beneficially more than 5% of the outstanding ordinary shares.

Edgar Filing: MIND CTI LTD - Form 20-F

Name of Beneficial Owners	Total Shares Beneficially Owned(1)	Percentage of Ordinary Shares (
Monica Eisinger	4,074,000 (3)	19.02%
Lior Salansky	1,491,140	6.96%
Oberweis Asset Management, Inc. (4)	1,123,000	5.24%

1. Shares beneficially owned include shares that may be acquired pursuant to options that are exercisable on or within 60 days of March 1 2005 and are treated as outstanding only for purposes of determining the percentage owned by such person.
2. Based on 21,422,500 ordinary shares outstanding on March 1, 2005.
3. Includes 20,000 ordinary shares issuable upon the exercise of options that are exercisable on or within 60 days of March 1 2005.
4. Based on information as of December 31, 2004, set forth in a Schedule 13G filed with the Securities and Exchange Commission on February 14, 2005 by Oberweis Asset Management, Inc., an investment adviser, and its principal stockholders, James D. Oberweis and James W. Oberweis

As of March 1, 2005, there were seven holders of record of our ordinary shares in the United States who collectively held less than 1% of our outstanding ordinary shares. In addition to this amount, there were also 12,147,230 shares held by the Depository Trust Company in the United States. The number of record holders in the United States is not representative of the number of beneficial holders nor is it representative of where such beneficial holders are resident since many of these ordinary shares were held of record by brokers or other nominees

As of the closing of our initial public offering in August 2000, a group of investment partnership known as Summit Partners beneficially owned 2,592,600 ordinary shares, of which 650,000 shares were non-voting shares. On June 27, 2002, the 650,000 non-voting shares were converted into 650,000 ordinary shares. Consequently, Summit Partners owned 12.5% of our outstanding ordinary shares. Between December 1, 2003 and December 17, 2003, Summit Partners sold 1,336,400 ordinary shares. On January 9, 2004, Summit Partners distributed its remaining 1,256,200 ordinary shares to its partners. Consequently, as of that date Summit Partners no longer own any of our ordinary shares.

As of March 31, 2001, Mr. Salansky beneficially owned 3,899,140 ordinary shares, representing 19.0% of our outstanding ordinary shares. Through March 1, 2005, Mr. Salansky sold ordinary shares and, as of March 1, 2005, he beneficially owned 1,491,140 ordinary shares, representing 6.96% of our outstanding ordinary shares.

In 2002, Polar Communications Ltd. reached a total of 5,166,554 ordinary shares, representing 24.98% of our outstanding ordinary shares, after they completed an acquisition of shares in a private transaction. Since then, Polar Communications Ltd. sold more than 4.2 million ordinary shares. Consequently, as of March 1, 2005, Polar Communications Ltd. holds ordinary shares representing less than 5% of our outstanding ordinary shares.

B. Related Party Transactions

In March 2000, we raised \$12 million in a private placement of our securities to a group of investment partnership known as Summit Partners . In connection with the investment, we granted to two of our current principal shareholders, Monica Eisinger and Lior Salansky, and transferees of their shares unlimited incidental registration rights. In addition, we and our principal shareholders entered into a shareholders' agreement. The shareholders' agreement provides, among other things, that if Monica Eisinger or Lior Salansky desire to sell all or any part of the shares owned by them, other than in the public market, Ms. Eisinger or Mr. Salansky, as appropriate, are entitled to sell a pro rata portion of the shares proposed to be sold. Except for these limited co-sale rights, the shareholders agreement terminated immediately prior to the closing of our initial public offering in August 2000.

C. Interests of Experts and Counsel

Not applicable.

Item 8. Financial Information

Financial Statements

See Item 18.

Legal Proceedings

We are not a party to any material legal proceedings.

Dividend Policy

In 2003, we adopted a new dividend policy. According to the new policy, we plan to distribute a cash dividend once in each calendar year in an amount equal to our net profits for the preceding calendar year, if any. The new policy commenced on 2004 with respect to our net profits for 2003. Each dividend under the policy is subject to board approval and the requirements of applicable law. Our board of directors plans to declare the annual dividend when it approves the applicable year-end financial statements. There is no guarantee that we will have net profits in any given year, even if we have operating profit in that year. In the first quarter of 2005, we declared a cash dividend in the amount of \$6.9 million before tax, which was equal to our net profits for 2004.

Item 9. The Offer and Listing**A. Offer and Listing Details**

Our ordinary shares have been quoted on the Nasdaq National Market under the symbol MNDO since August 8, 2000 and on the Tel Aviv Stock Exchange under the symbol MIND since July 15, 2002.

The following table sets forth, for the periods indicated, the high and low closing prices of our ordinary shares as reported on the Nasdaq National Market. The table contains actual prices, without adjustment for dividends paid on our ordinary shares.

	Calendar Year	Price Per Share	
		High	Low
	2004	\$6.33	\$3.86
	2003	6.34	1.24
	2002	1.84	0.79
	2001	8.87	1.11

Item 10. Additional Information

A. Share Capital

Not applicable

B. Memorandum and Articles of Associations

Objects and Purposes

We were first registered under Israeli law on April 6, 1995 as a private company, and on August 11, 2000 became a public company. Our registration number with the Israeli registrar of companies is 51-213448-7. The full details of our objects and purposes can be found in Section 2 of our Memorandum of Association filed with the Israeli registrar of companies. Among the objects and purposes stipulated are the following: "to engage in any kind of commercial and/or productive business and to engage in any action or endeavor which the company's managers consider to be beneficial to the company."

Transfer of Shares and Notices

Fully paid ordinary shares are issued in registered form and may be freely transferred pursuant to our articles of association unless such transfer is restricted or prohibited by another instrument. Unless otherwise prescribed by law, we will provide at least 21 calendar days' prior notice of any general shareholders meeting.

Election of Directors

The ordinary shares do not have cumulative voting rights in the election of directors. Thus, the holders of ordinary shares conferring more than 50% of the voting power have the power to elect all the directors, to the exclusion of the remaining shareholders. Our board is divided into three classes of directors serving staggered three year terms, in addition to our external directors, who are not members of any class.

According to the Israeli Companies Law, the term of a director commences upon his election, unless the company's articles of association permit a later effective date. In order to allow our shareholders to elect a director for a term that commences on a later effective date, our shareholders amended our articles of association on April 7, 2005.

Dividend and Liquidation Rights

Dividends on our ordinary shares may be paid only out of profits and other surplus, as defined in the Companies Law, as of our most recent financial statements or as accrued over a period of two years, whichever is higher, unless otherwise approved by a court order. Our board of directors is authorized to declare dividends, provided that there is no reasonable concern that the dividend will prevent us from satisfying our existing and foreseeable obligations as they become due. In the event of our liquidation, after satisfaction of liabilities to creditors, our assets will be distributed to the holders of ordinary shares in proportion to their respective holdings. Dividend or liquidation right may be affected by the grant of preferential dividends or distribution rights to the holders of a class of shares with preferential rights that may be authorized in the future.

Voting, Shareholders' Meetings and Resolutions

Holders of ordinary shares have one vote for each ordinary share held on all matters submitted to a vote of shareholders.

These voting rights may be affected by the grant of any special voting rights to the holders of a class of shares with preferential rights that may be authorized in the future.

We have two types of general shareholders meetings: the annual general meetings and extraordinary general meetings. These meetings may be held either in Israel or in any other place the board of directors determines. An annual general meeting must be held in each calendar year, but not more than 15 months after the last annual general meeting. Our board of directors may convene an extraordinary meeting, from time to time, at its discretion and is required to do so upon the request of shareholders holding at least 5% of our ordinary shares.

The quorum required for an ordinary meeting of shareholders consists of at least two shareholders present in person or by proxy who hold or represent between them at least 25% of the outstanding voting shares, unless otherwise required by applicable rules. Nasdaq generally requires a quorum of 33-1/3%, but we have received an exemption from that requirement based on the generally accepted business practice for companies in Israel to have a quorum of 25%. A meeting adjourned for lack of a quorum generally is adjourned to the same day in the following week at the same time and place or any time and place as the Chairman may designate with the consent of the shareholders voting on the matter adjourned. We did not request an exemption from Nasdaq with respect to the quorum for such adjourned meetings and therefore, in accordance with Nasdaq rules, the required quorum is 33-1/3% for such meetings.

Under the Companies Law, unless otherwise provided in the articles of association or applicable law, all resolutions of the shareholders require a simple majority of the shares present, in person or by proxy, and voting on the matter. However, our articles of association require approval of 75% of the shares present and voting to remove directors or change the structure of our staggered board of directors.

We have obtained an exemption from Nasdaq's requirement to send an annual report to shareholders prior to our annual general meetings. We file annual reports on Form 20-F electronically with the SEC and post a copy on our

website.

Duties of Shareholders

Under the Companies Law, each and every shareholder has a duty to act in good faith in exercising his rights and fulfilling his obligations towards the company and other shareholders and to refrain from abusing his power in the company, such as in voting in the general meeting of shareholders on the following matters:

- any amendment to the articles of association;
- an increase of the company's authorized share capital;
- a merger; or
- approval of certain actions and transactions which require shareholder approval.

In addition, each and every shareholder has the general duty to refrain from depriving rights of other shareholders. Furthermore, any controlling shareholder, any shareholder who knows that it possesses the power to determine the outcome of a shareholder vote and any shareholder that, pursuant to the provisions of the articles of association, has the power to appoint or to prevent the appointment of an office holder in the company or any other power toward the company is under a duty to act in fairness towards the company. The Companies Law does not describe the substance of this duty of fairness. These various shareholder duties, which typically do not apply to shareholders of U.S. companies, may restrict the ability of a shareholder to act in what the shareholder perceives to be its own best interests.

Restrictions on Non-Israeli Residents

The ownership or voting of our ordinary shares by non-residents of Israel, except with respect to citizens of countries which are in a state of war with Israel, is not restricted in any way by our memorandum of association or articles of association or by the laws of the State of Israel.

Mergers and Acquisitions under Israeli Law

The Companies Law includes provisions that allow a merger transaction and requires that each company that is party to a merger approve the transaction by its board of directors and a vote of the majority of its shares, voting on the proposed merger at a shareholders' meeting called on at least 21 days' prior notice. For purposes of the shareholder vote, unless a court rules otherwise, the merger will not be deemed approved if a majority of the shares held by parties other than the other party to the merger, or by any person who holds 25% or more of the shares or the right to appoint 25% or more of the directors of the other party, vote against the merger. Upon the request of a creditor of either party of the proposed merger, the court may delay or prevent the merger if it concludes that there exists a reasonable concern that as a result of the merger, the surviving company will be unable to satisfy the obligations of any of the parties to the merger. In addition, a merger may not be completed unless at least (i) 70 days have passed from the time that a proposal of the merger has been filed by each party with the Israeli Registrar of Companies and (ii) 30 days have passed since the merger was approved by the shareholders of each party .

The Companies Law also provides that an acquisition of shares of public company must be made by means of tender offer if as a result of the acquisition the purchaser would become a 25% or more shareholder of the company and there is no 25% or more shareholder in the company. In addition, an acquisition of shares of a public company must be made by means of a tender offer if as a result of the acquisition the purchaser would become a 45% or more shareholder of the company and there is no 45% or more shareholder in the company. These requirements do not apply if the acquisition (i) is made in a private placement that received shareholder approval, (ii) was from a 25% shareholder of the company and resulted in the acquirer becoming a 25% shareholder of the company or (iii) was from a 45% shareholder of the company and resulted in the acquirer becoming a 45% shareholder of the company. The tender offer must be extended to all shareholders, but the offeror is not required to purchase more than 5% of

the company's outstanding shares, regardless of how many shares are tendered by shareholders. The tender offer may be consummated only if (i) at least 5% of the company's outstanding shares will be acquired by the offeror and (ii) the number of shares tendered in the offer exceeds the number of shares whose holders objected to the offer.

If as a result of an acquisition of shares the acquirer will hold more than 90% of a company's outstanding shares, the Israeli Act requires that the acquisition be made by means of a tender offer for all of the outstanding shares. If as a result of a full tender offer the acquirer would own more than 95% of the outstanding shares, then all the shares that the acquirer offered to purchase will be transferred to it. The law provides for appraisal rights if any shareholder files a request in court within three months following the consummation of a full tender offer. If as a result of a full tender offer the acquirer would own 95% or less of the outstanding shares, then the acquirer may not acquire shares that will cause his shareholding to exceed 90% of the outstanding shares.

Finally, Israeli tax law treats stock-for-stock acquisitions between an Israeli company and a foreign company less favorably than does U.S. tax law. For example, Israeli tax law subjects a shareholder who exchanges his ordinary shares for shares in another corporation to taxation prior to the sale of the shares received in such stock-for-stock swap.

Modification of Class Rights

Our articles of association provide that the rights attached to any class (unless otherwise provided by the terms of such class), such as voting, rights to dividends and the like, may be varied by a shareholders resolution, subject to the approval of the holders of a majority of the issued shares of that class.

Board of Directors

According to the Companies Law and our articles of association, the oversight of the management of our business is vested in our board of directors. The board of directors may exercise all such powers and may take all such actions that are not specifically granted to our shareholders. As part of its powers, our board of directors may cause the company to borrow or secure payment of any sum or sums of money, at such times and upon such terms and conditions as it thinks fit, including the grants of security interests on all or any part of the property of the company.

A resolution proposed at any meeting of the board of directors shall be deemed adopted if approved by a majority of the directors present and voting on the matter. For additional information, please see Item 6.C "Board Practices".

Exculpation of Office Holders

Under the Companies Law, an Israeli company may not exempt an office holder from liability for a breach of his duty of loyalty, but may exempt in advance an office holder from his liability to the company, in whole or in part, for a breach of his duty of care (except in connection with distributions) provided the articles of association of the company allow it to do so. Our articles allow us to exempt our office holders to the fullest extent permitted by law.

Insurance of Office Holders

Our articles of association provide that, subject to the provisions of the Companies Law, we may enter into a contract for the insurance of the liability of any of our office holders, with respect to an act performed in the capacity of an office holder for:

- a breach of his duty of care to us or to another person;
- a breach of his duty of loyalty to us, provided that the office holder acted in good faith and had reasonable cause to assume that his act would not prejudice our interests; or
- a financial liability imposed upon him in favor of another person.

Indemnification of Office Holders

Our articles of association provide that we may indemnify an office holder against the following obligations and expenses imposed on the office holder with respect to an act performed in the capacity of an office holder:

- a financial obligation imposed on him in favor of another person by a court judgment, including a settlement or an arbitrator's award approved by the court; such indemnification may be approved (i) after the liability has been incurred or (ii) in advance, provided that our undertaking to indemnify is limited to events that our board of directors believes are foreseeable in light of our actual operations at the time of providing the undertaking and to a sum or criterion that our board of directors determines to be reasonable under the circumstances;
- reasonable litigation expenses, including attorneys' fees, expended by the office holder as a result of an investigation or proceeding instituted against him by a competent authority, provided that such investigation or proceeding concluded without the filing of an indictment against him and either (A) concluded without the imposition of any financial liability in lieu of criminal proceedings or (B) concluded with the imposition of a financial liability in lieu of criminal proceedings but relates to a criminal offense that does not require proof of criminal intent; and
- reasonable litigation expenses, including attorneys' fees, expended by the office holder or charged to him by a court in connection with:
 - ◆ proceedings we institute against him or instituted on our behalf or by another person;
 - ◆ a criminal charge from which he was acquitted; or
 - ◆ a criminal proceeding in which he was convicted of an offense that does not require proof of criminal intent.

Limitations on Exculpation, Insurance and Indemnification

The Companies Law provides that a company may not exculpate or indemnify an office holder, or enter into an insurance contract, which would provide coverage for any monetary liability incurred as a result of any of the following:

- a breach by the office holder of his duty of loyalty unless, with respect to indemnification or insurance coverage, the office holder acted in good faith and had a reasonable basis to believe that the act would not prejudice the company;
- a breach by the office holder of his duty of care if the breach was done intentionally or recklessly;
- any act or omission done with the intent to derive an illegal personal benefit; or
- any fine levied against the office holder.

In addition, under the Companies Law, indemnification of, and procurement of insurance coverage for, our office holders must be approved by our audit committee and our board of directors and, if the beneficiary is a director, by our shareholders.

We have agreed to exempt from liability and indemnify our office holders to the fullest extent permitted under the Companies Law. We have obtained directors and officers liability insurance for the benefit of our office holders.

C. Material Contracts

None.

D. Exchange Controls

There are currently no Israeli currency control restrictions on payments of dividends or other distributions with respect to our ordinary shares or the proceeds from the sale of the shares, except for the obligation of Israeli residents to file reports with the Bank of Israel regarding certain transactions. However, legislation remains in effect pursuant to which currency controls can be imposed by administrative action at any time.

E. Taxation

Israeli Tax Considerations

The following is a summary of the current tax structure applicable to companies in Israel, with special reference to its effect on us. Note that this tax structure and any resulting benefit may not apply for any income derived by our foreign subsidiaries, which subsidiaries may be taxed according to tax laws applicable to their country of residence. The following also contains a discussion of the material Israeli and United States tax consequences to persons purchasing our ordinary shares. To the extent that the discussion is based on tax legislation, which has not been subject to judicial or administrative interpretation, we cannot assure you that the tax authorities or courts will accept the views expressed in the discussion in question.

Prospective purchasers of our ordinary shares should consult their own tax advisors as to the United States, Israeli or other tax consequences of the purchase, ownership and disposition of ordinary shares, including, in particular, the effect of any foreign, state or local taxes.

General Corporate Tax Structure

The general rate of corporate tax in Israel to which Israeli companies are subject is 35% for the 2004 tax year, 34% for the 2005 tax year, 32% for the 2006 tax year and 30% for the 2007 tax year and thereafter, and the general rate of capital gains tax in Israel to which Israeli companies are subject is 25%, for capital gains derived after January 1, 2003 other than gains deriving from the sale of listed securities. However, the effective tax rate payable by a company which derives income from an "Approved Enterprise" (as defined below) may be considerably less, as further discussed below.

Law for the Encouragement of Capital Investments, 1959

General

The Law for Encouragement of Capital Investments, 1959, or the Investments Law, provides that upon application to the Investment Center of the Ministry of Industry and Trade of the State of Israel, a proposed capital investment in eligible facilities may be designated as an "Approved Enterprise". Please see discussion below regarding a recent amendment to the Investments Law.

Each certificate of approval for an Approved Enterprise relates to a specific investment program delineated both by its financial scope, including its capital sources, and by its physical characteristics, such as the equipment to be purchased and utilized pursuant to the program. The tax benefits derived from any such certificate of approval relate only to taxable income derived from the specific Approved Enterprise. Tax benefits under the Investments Law will also apply to income generated by a company from the grant of a usage right with respect to know-how developed by the Approved Enterprise, income generated from royalties, and income derived from a service which is auxiliary to such usage right of royalties, provided that such income is generated within the Approved Enterprise's ordinary course of business. If a company has more than one approval or only a portion of its capital investments are approved, its effective tax rate is the result of a weighted combination of the applicable rates. The benefits under the Investments Law are usually not available with respect to income derived from products manufactured outside of Israel.

Taxable income of a company derived from an Approved Enterprise is subject to corporate tax at the maximum rate of 25%, rather than the regular corporate tax rate, for the benefit period. That income is eligible for further reductions in tax rates depending on the percentage of the foreign investment in the company's share capital (conferring rights to profits, voting and appointment of directors) and the percentage of its combined share and loan capital owned by non-Israeli residents ("foreign investment level"). The tax rate is:

- 20% if the foreign investment level is 49% or more but less than 74%;
- 15% if the foreign investment level is 74% or more but less than 90%; and
- 10% if the foreign investment level is 90% or more.

The lowest level of foreign investment during the tax year will be used to determine the relevant tax rate for that year. These tax benefits are granted for a limited period not exceeding seven years, or ten years for a company whose foreign investment level exceeds 25% from the first year in which the Approved Enterprise has taxable income.

The period of benefits may in no event, however, exceed the lesser of 12 years from the year in which production commenced and 14 years from the year of receipt of Approved Enterprise status.

The Investments Law also provides that an Approved Enterprise is entitled to accelerated depreciation on its property and equipment that are included in an approved investment program.

The Alternative Path

A company owning an Approved Enterprise may elect to receive, in lieu of certain grants available to an Approved Enterprise, an alternative package of benefits. Under the alternative package, the company's undistributed income derived from an Approved Enterprise will be exempt from tax for a period of between two and ten years from the first year of taxable income, depending on the geographic location of the Approved Enterprise within Israel, and the company will be eligible for the tax benefits under the Investments Law for the remainder of the benefit period.

General Requirements by the Investment Center

The Investment Center bases its decision of whether to approve or reject a company's application for designation as an Approved Enterprise; among other things, on criteria set forth in the Investments Law and related regulations, the then prevailing policy of the Investment Center and the specific objectives and financial criteria of the applicant. Accordingly, a company cannot be certain in advance whether its application will be approved. In addition, the benefits available to an Approved Enterprise are conditional upon compliance with the conditions stipulated in the Investments Law and related regulations and the criteria set forth in the specific certificate of approval. In the event that a company violates these conditions, in whole or in part, it may be required to refund all or a portion of its tax benefits, linked to the Israeli consumer price index and interest. These conditions include:

- adhering to the business plan contained in the application to the Investment Center;
- financing at least 30% of the investment in property, plant and equipment with the proceeds of the sale of shares;
- filing regular reports with the Investment Center with respect to the Approved Enterprise; and
- obtaining the approval of the Investment Center for changes in the ownership of a company.

The Company's Approved Enterprises

Most of our manufacturing facilities in Yoqneam have been granted the status of Approved Enterprise. Since our manufacturing facilities are located in an area that was designated by the State of Israel as "Area A" at the time of the approval of our two existing Approved Enterprises, and since we elected to receive the alternative package of

benefits (involving waiver of investment grants), our income derived from each Approved Enterprise is tax exempt for a period of ten years commencing in the first year in which we earn taxable income from each Approved Enterprise. In February 2001 the area in which our manufacturing facilities are located was designated by the State of Israel as "Area B", and accordingly, the rules applicable to Area B will apply to any future Approved Enterprise approved by the Investment Center. To date, we have two Approved Enterprises, as follows:

- the first Approved Enterprise commenced operations in 1995 and income derived and not distributed from this Approved Enterprise is exempt from tax for a period of ten years through 2004; and
- the period of tax benefits in respect of the second approved enterprise entitled to the said benefits commenced operations in 2000 and income derived and not distributed from this Approved Enterprise is exempt from tax for a period of ten years through 2009.

Dividends Taxation

When dividends are distributed from the Approved Enterprise, they are generally considered to be attributable to the entire enterprise and their effective tax rate is a result of a weighted combination of the applicable tax rates. A company that has elected the alternative package of benefits is not obliged to distribute exempt retained profits, and may generally decide from which year's profits to declare dividends. In the event that we pay a cash dividend from income that is derived from our Approved Enterprises pursuant to the alternative package of benefits, which income would otherwise be tax-exempt, we would be required to pay tax on the amount of income distributed as dividends at the rate which would have been applicable if we had not elected the alternative package of benefits, that rate is generally 10% to 25%, depending upon the extent of foreign investment in MIND, and to withhold at source on behalf of the recipient of the dividend an additional 15% of the amount distributed. Through May 31, 2000 we distributed most of our income and paid corporate tax at the rate of 25%. In November 2003, we distributed to our shareholders approximately \$2.9 million. Since at that time we had insufficient retained earnings, the distribution was done by way of reduction of share premium, representing return of amounts paid in by shareholders, after due approval by an Israeli court in accordance with Section 303 of the Israeli Companies Law. The Company was tax exempted according to an applicable tax ruling with respect to such distribution. In the first quarter of 2004, we declared a cash dividend in the amount of approximately \$3.6 million, which is equal to our net profits for 2003. We paid corporate tax on such dividend at the rate of 25%. In the first quarter of 2005, we declared a cash dividend in the amount of approximately \$6.9 million before tax, which is equal to our net profits for 2004. We are expected to pay corporate tax on such dividend at the rate of 25%. No tax payment on this dividend was made in accordance with an agreement with the tax authority and with respect to accumulated tax losses from Approved Enterprise activity that such losses would offset tax liability in respect of distribution of tax-exempt income.

Recent Amendment of the Investments Law

On April 1, 2005, an amendment to the Investments Law came into effect. Pursuant to the amendment, a company's facility will be granted the status of "Approved Enterprise" only if it is proven to be an industrial facility (as defined in the Investments Law) that contributes to the economic independence of the Israeli economy and is a competitive facility that contributes to the Israeli gross domestic product. The amendment provides that the Israeli Tax Authority and not the Investment Center will be responsible for an Approved Enterprise under the alternative package of benefits, referred to as a Benefiting Facility. A company wishing to receive the tax benefits afforded to a Benefiting Facility is required to select the tax year from which the period of benefits under the Investment Law are to commence by simply notifying the Israeli Tax Authority within 12 months of the end of that year. In order to be recognized as owning a Benefiting Facility, a company is required to meet a number of conditions set forth in the amendment, including making a minimal investment in manufacturing assets for the Benefiting Facility and having completed a cooling-off period of no less than two to four years from the company's previous year of commencement of benefits under the Investments Law.

Pursuant to the amendment, a company with a Benefiting Facility is entitled, in each tax year, to accelerated depreciation for the manufacturing assets used by the Benefiting Facility and to certain tax benefits, provided that no more than 12 to 14 years have passed since the beginning of the year of commencement of benefits under the Investments Law. The tax benefits granted to a Benefiting Factory are determined according one of the following new tax routes:

- Similar to the currently available alternative route, exemption from corporate tax on undistributed income for a period of two to ten years, depending on the geographic location of the Benefiting Facility within Israel, and a reduced corporate tax rate of 10 to 25% for the remainder of the benefits period, depending on the level of foreign investment in each year. Benefits may be granted for a term of from seven to ten years, depending on the level of foreign investment in the company. If the company pays a dividend out of income derived from the Benefiting Facility during the tax exemption period, such income will be subject to corporate tax at the applicable rate (10%-25%). The company is required to withhold tax at the source at a rate of 15% from any dividends distributed from income derived from the Benefiting Facility.
- A special tax route enabling companies owning facilities in certain geographical locations in Israel to pay corporate tax at the rate of 11.5% on income of the Benefiting Facility. The benefits period is ten years. Upon payment of dividends, the company is required to withhold tax at source at a rate of 15% for Israeli residents and at a rate of 4% for foreign residents.
- A special tax route that provides a full exemption from corporate tax and from tax with respect to dividends for companies with an annual income of at least NIS 13-20 billion that have invested a total of between NIS 600-900 million in facilities in certain geographical locations in Israel.

Generally, a company that is "abundant in foreign investment" (as defined in the Investments Law) is entitled to an extension of the benefits period by an additional five years, depending on the rate of its income that is derived in foreign currency.

The amendment changes the definition of "foreign investment" in the Investments Law so that instead of an investment of foreign currency in the company, the definition now requires a minimal investment of NIS 5 million by foreign investors. Furthermore, such definition now also includes the purchase of shares of a company from another shareholder, provided that the company's outstanding and paid-up share capital exceeds NIS 5 million. Such changes to the aforementioned definition will take effect retroactively from 2003.

The amendment will apply to Approved Enterprise programs in which the year of commencement of benefits under the Investments Law is 2004 or later, unless such programs received approval from the Investment Center on or prior to December 31, 2004, in which case the provisions of the amendment will not apply.

Law for the Encouragement of Industry (Taxes), 1969

Under the Law for the Encouragement of Industry (Taxes), 1969, or the Industry Encouragement Law, a company qualifies as an "Industrial Company" if it is resident in Israel and at least 90% of its income in a given tax year, determined in NIS, exclusive of income from capital gains, interest and dividends, is derived from Industrial Enterprises owned by that company. An "Industrial Enterprise" is defined as an enterprise whose major activity in a particular tax year is industrial production activity.

Industrial Companies qualify for accelerated depreciation rates for machinery, equipment and buildings used by an Industrial Enterprise. An Industrial Company owning an Approved Enterprise, as described above, may choose between the above depreciation rates and the depreciation rates available to Approved Enterprises.

Pursuant to the Industry Encouragement Law, an Industrial Company is also entitled to amortize the purchase price of know-how and patents over a period of eight years beginning with the year in which such rights were first used.

In addition, an Industrial Company is entitled to deduct over a three-year period expenses involved with the issuance and listing of shares on a stock exchange and has the right, under certain conditions, to elect to file a consolidated tax return with related Israeli Industrial Companies that satisfy conditions set forth in the law.

Eligibility for the benefits under the law is not subject to receipt of prior approval from any governmental authority. We believe that we currently qualify as an Industrial Company within the definition of the Industry Encouragement Law. However, the definition may be amended from time to time and the Israeli tax authorities, which reassess our qualifications annually, may determine that we no longer qualify as an Industrial Company. As a result of either of the foregoing, the benefits described above might not be available in the future.

Taxation Under Inflationary Conditions

The Income Tax (Inflationary Adjustment) Law, 1985, commonly referred to as the Inflationary Adjustments Law, attempts to overcome some of the problems presented to a traditional tax system by rapid inflation. The Inflationary Adjustments Law provides tax deductions and adjustments to depreciation deduction and tax loss carry forwards to mitigate the effects resulting from an inflationary economy. Our taxable income is determined under this law. However, the Minister of Finance may, with the approval of the Knesset Finance Committee, determine by order, during a certain fiscal year (or until February 28 of the following year) in which the rate of the increase of the price index would not exceeded, as applicable, 3%, that all or some of the provisions of this law will not apply to such fiscal year, or that the rate of increase of the price index relating to such fiscal year will be deemed to be 0%, and to make the adjustments required to be made as a result of such determination.

The Israeli Income Tax Ordinance and regulations promulgated thereunder allow "Foreign-Invested Companies," which maintain their accounts in U.S. dollars in compliance with the regulations to adjust their tax returns based on exchange rate fluctuations of the NIS against the U.S. dollar rather than changes in the Israeli consumer price index, or CPI, in lieu of the principles set forth by the Inflationary Adjustments Law. For these purposes, a Foreign-Invested Company is a company more than 25% of the share capital of which in terms of rights to profits, voting and appointment of directors, and of the combined share capital of which including shareholder loans and capital notes, is held by persons who are not residents of Israel. A company that elects to measure its results for tax purposes based on the U.S. dollar exchange rate cannot change the election for a period of three years following the election. We adjust our tax returns based on the changes in the Israeli CPI. Because we qualify as a "Foreign-Invested Company," we are entitled to measure our results for tax purposes on the basis of changes in the exchange rate of the U.S. dollar in future tax years.

Capital Gains Tax on the Sale of our Ordinary Shares

General

Israeli law generally imposes a capital gains tax on the sale of any capital assets by residents of Israel, as defined for Israeli tax purposes, and on the sale of assets located in Israel, including shares in Israeli companies, by both residents and non-residents of Israel, unless a specific exemption is available or unless a tax treaty between Israel and the shareholder's country of residence provides otherwise. The law distinguishes between real gain and inflationary surplus. The inflationary surplus is equal to the increase in the purchase price of the relevant asset attributable to the increase in the Israeli consumer price index or, in certain circumstances, a foreign currency exchange rate, between the date of purchase and the date of sale. The real gain is the excess of the total capital gain over the inflationary surplus.

Israeli Residents

Generally, capital gains tax is imposed on Israeli residents at a rate of 15% on real gains derived on or after January 1, 2003, from the sale of shares in (i) companies publicly traded on the Tel Aviv Stock Exchange ("TASE"), (ii)

Israeli companies publicly traded on Nasdaq or on a recognized stock exchange or regulated market in a country that has a treaty for the prevention of double taxation with Israel or (iii) companies traded on both the TASE and Nasdaq or a recognized stock exchange or a regulated market outside of Israel .

This tax rate is contingent upon the shareholder not claiming a deduction for financing expenses in connection with such shares (in which case the capital gain will be taxed at a rate of 25%), and does not apply to: (i) the sale of shares to a relative (as defined in the Income Tax Ordinance); (ii) the sale of shares by dealers in securities who will be taxed at corporate tax rates for corporations and at marginal tax rates of up to 49% for individuals; (iii) the sale of shares by shareholders that report in accordance with the Inflationary Adjustment Law who will be taxed at corporate tax rates for corporations and at marginal tax rates of up to 49% for individuals; or (iv) the sale of shares by shareholders who acquired their shares prior to an initial public offering (that are subject to a different tax arrangement). The tax basis of shares acquired prior to January 1, 2003 will be determined in accordance with the average closing share price in the three trading days preceding January 1, 2003. However, a request may be made to the tax authorities to consider the actual adjusted cost of the shares as the tax basis if it is higher than such average price.

Non-Residents of Israel

Non-Israeli residents are generally exempt from Israeli capital gains tax on any gains derived from the sale of shares publicly traded on the TASE, provided such gains are not derived from a permanent establishment of such shareholders in Israel, and are exempt from Israeli capital gains tax on any gains derived from the sale of shares of Israeli companies publicly traded on a recognized stock exchange or regulated market outside of Israel, provided that such capital gains are not attributed to a permanent establishment in Israel and that such shareholders are not subject to the Inflationary Adjustment Law and did not acquire their shares prior to the issuer's initial public offering. However, non-Israeli corporations will not be entitled to such exemption if an Israeli resident (i) has a controlling interest of 25% or more in such non-Israeli corporation, or (ii) is the beneficiary of or is entitled to 25% or more of the revenues or profits of such non-Israeli corporation, whether directly or indirectly.

Furthermore, under the income tax treaty between the U.S. and Israel, known as the U.S.-Israel Tax Treaty, a holder of ordinary shares who holds the ordinary shares as a capital asset and who qualifies as a U.S. resident within the meaning of the U.S.-Israel Tax Treaty and who is entitled to claim the benefits afforded to such resident by the U.S.-Israel Tax Treaty will be generally exempted from Israeli capital gains tax on the sale, exchange or disposition of ordinary shares unless: (i) the holder owned, directly or indirectly, 10% or more of our voting power at any time during the 12-month period before the sale, exchange or disposition; or (ii) the capital gains from such sale, exchange or disposition can be allocated to a permanent establishment in Israel.

In some instances where our shareholders may be liable to Israeli tax on the sale of their ordinary shares, the payment of the consideration may be subject to the withholding of Israeli tax at the source. However, such residents would be permitted to claim a credit for such taxes against U.S. federal income tax imposed with respect to such sale, exchange or disposition, subject to the limitations in U.S. laws applicable to foreign tax credits. The U.S.-Israel Tax Treaty does not relate to state or local taxes.

A non-resident of Israel who receives interest, dividend or royalty income derived from or accrued in Israel or capital gains derived from the sale of our ordinary shares, from which tax was withheld at the source, is generally exempted from the duty to file tax returns in Israel with respect to such income, provided such income was not derived from a business conducted in Israel by the taxpayer and the taxpayer has no other taxable sources of income in Israel.

Dividend Taxation

Israeli Residents and Non-Israeli Residents

We are generally, required to withhold income tax at the rate of 25%, or 15% for dividends of income generated by an Approved Enterprise, on all distributions of dividends other than bonus shares (stock dividends) to Israeli individuals and non-Israeli residents (individuals and corporations), unless a different tax rate is provided in a treaty between Israel and the shareholder's country of residence. Such distribution of dividends to Israeli corporations is tax exempt, unless the source of such dividends is income derived outside of Israel.

U.S Residents

Under the U.S.-Israel Tax Treaty, the maximum tax on dividends paid to a holder of ordinary shares who is a U.S. resident (as defined in the treaty) is 25%, and if such shareholder is a U.S. corporation holding at least 10% of the issued voting shares throughout the tax year in which the dividend is distributed as well as the previous tax year is 12.5%, or 15% for dividends of income generated from an Approved Enterprise.

United States Federal Income Tax Considerations

Subject to the limitations described in the next paragraph, the following discussion describes the material United States federal income tax consequences of the purchase, ownership and disposition of the ordinary shares to a U.S. holder.

A U.S. holder is:

- an individual citizen or resident of the United States;
- a corporation or another entity taxable as a corporation created or organized under the laws of the United States or any political subdivision thereof;
- an estate, the income of which is includable in gross income for United States federal income tax purposes regardless of its source; or
- a trust, if a United States court is able to exercise primary supervision over its administration and one or more United States persons who have the authority to control all substantial decisions of the trust.

Unless otherwise specifically indicated, this summary does not consider United States tax consequences to a person that is not a U.S. holder and considers only U.S. holders that will own the ordinary shares as capital assets.

This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended, referred to as the Code, current and proposed Treasury regulations promulgated under the Code, and administrative and judicial interpretations of the Code, all as in effect today and all of which are subject to change, possibly with a retroactive effect. This discussion does not address all aspects of U.S. federal income taxation that may be relevant to any particular U.S. holder based on the U.S. holder's particular circumstances, like the tax treatment of U.S. holders who are broker-dealers or who own, directly, indirectly or constructively, 10% or more of our outstanding voting shares, U.S. holders holding the ordinary shares as part of a hedging, straddle or conversion transaction, U.S. holders whose functional currency is not the U.S. dollar, insurance companies, tax-exempt organizations, financial institutions and persons subject to the alternative minimum tax, who may be subject to special rules not discussed below. Additionally, the tax treatment of persons who hold the ordinary shares through a partnership or other pass through entity is not considered, nor are the possible application of U.S. federal estate or gift taxes or any aspect of state, local or non-U.S. tax laws.

You are advised to consult your own tax advisor with respect to the specific tax consequences to you of purchasing, holding or disposing of the ordinary shares.

Distributions on the Ordinary Shares

Subject to the discussion below under "Passive Foreign Investment Company Status", a distribution paid by us with respect to the ordinary shares to a U.S. holder will be treated as ordinary income to the extent that the distribution does not exceed our current and accumulated earnings and profits, as determined for U.S. federal income tax purposes. The amount of any distribution which exceeds these earnings and profits will be treated first as a non-taxable return of capital reducing the U.S. holder's tax basis in its ordinary shares to the extent thereof, and then as capital gain from the deemed disposition of the ordinary shares.

Dividends paid by us in NIS will be included in the income of U.S. holders at the dollar amount of the dividend, based upon the spot rate of exchange in effect on the date of the distributions. U.S. holders will have a tax basis in the NIS for U.S. federal income tax purposes equal to that U.S. dollar value. Any subsequent gain or loss in respect of the NIS arising from exchange rate fluctuations will be taxable as ordinary income or loss and will be U.S. source income or loss.

Subject to the limitations set forth in the Code, U.S. holders may elect to claim as a foreign tax credit against their U.S. federal income tax liability the Israeli income tax withheld from dividends received in respect of the ordinary shares. The limitations on claiming a foreign tax credit include among others, computation rules under which foreign tax credits allowable with respect to specific classes of income cannot exceed the U.S. federal income payable with respect each such class. In this regard, dividends paid by us will generally be foreign source "passive income" for U.S. foreign tax credit purposes or, in the case of a financial services entity, "financial services income." U.S. holders that do not elect to claim a foreign tax credit may instead claim a deduction for the Israeli income tax withheld. The rules relating to foreign tax credits are complex, and you should consult your own tax advisor to determine whether and to what extent you would be entitled to this credit.

Disposition of Ordinary Shares

Subject to the discussion below under "Passive Foreign Investment Company Status", upon the sale or exchange of the ordinary shares, a U.S. holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized on the sale or exchange and the U.S. holder's tax basis in the ordinary shares. The gain or loss recognized on the sale or exchange of the ordinary shares generally will be long-term capital gain or loss if the U.S. holder held the ordinary shares for more than one year at the time of the sale or exchange.

Gain or loss recognized by a U.S. holder on a sale, exchange or other disposition of ordinary shares generally will be treated as U.S. source income or loss for U.S. foreign tax credit purposes.

Passive Foreign Investment Company Status

Generally, a foreign corporation is treated as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for any tax year if, in such tax year, either (i) 75% or more of its gross income is passive in nature, referred to as the "Income Test", or (ii) the average percentage of its assets during such tax year which produce, or are held for the production of, passive income (determined by averaging the percentage of the fair market value of its total assets which are passive assets as of the end of each quarter of such year) is 50% or more, referred to as the "Asset Test".

There is no definitive method prescribed in the Code, U.S. Treasury Regulations or administrative or judicial interpretations thereof for determining the value of a foreign corporation's assets for purposes of the Asset Test. However, the legislative history of the U.S. Taxpayer Relief Act of 1997, referred to as the 1997 Act, indicates that for purposes of the Asset Test, "the total value of a publicly-traded foreign corporation's assets generally will be treated as equal to the sum of the aggregate value of its outstanding stock plus its liabilities." It is unclear under current interpretations of the 1997 Act whether other approaches could be employed to determine the value of our assets. Under the approach set forth in the legislative history to the 1997 Act, we believe that we would be deemed a PFIC for 2001 and for 2002, principally because a significant portion of our assets continued to consist of cash,

cash equivalents and short-term investments from the proceeds of our initial public offering, coupled with the decline in the public market value of our ordinary shares during 2001 and 2002. Based on application of the approach of the 1997 Act, there is a reasonable likelihood that we may not be deemed a PFIC in 2003 and 2004. A separate determination must be made each year as to whether we are a PFIC. As a result, our PFIC status may change.

Because less than 75% of our gross income in 2002 and in prior years constituted passive income, as defined for purposes of the Income Test, we do not believe that application of the Income Test would have resulted in our classification as a PFIC for any of such years. In addition, we do not believe that application of the Asset Test would have resulted in our classification as a PFIC for any tax year prior to 2001.

If we are treated as a PFIC for U.S. federal income tax purposes for any year during a U.S. holder's holding period of ordinary shares and the U.S. holder does not make a QEF election or a "mark-to-market" election (both as described below), any gain recognized by the U.S. holder upon the sale of ordinary shares (or the receipt of certain distributions) would be treated as ordinary income. This income generally would be allocated over a U.S. holder's holding period with respect to our ordinary shares. The amount allocated to prior years will be subject to tax at the highest tax rate in effect for that year and an interest charge would be imposed on the amount of deferred tax on the income allocated to prior taxable years.

Although we generally will be treated as a PFIC as to any U.S. holder if we are a PFIC for any year during the U.S. holder's holding period, if we cease to satisfy the requirements for PFIC classification, the U.S. holder may avoid the consequences of PFIC classification for subsequent years if he elects to recognize gain based on the unrealized appreciation in the ordinary shares through the close of the tax year in which we cease to be a PFIC. Additionally, if we are treated as a PFIC, a U.S. holder who acquires ordinary shares from a decedent would be denied the normally available step-up in tax basis for these ordinary shares to fair market value at the date of death and instead would have a tax basis equal to the decedent's tax basis in these ordinary shares.

A U.S. holder who beneficially owns shares of a PFIC must file Form 8621 (Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund) with the U.S. Internal Revenue Service for each tax year in which he holds shares in a PFIC. This form describes any distributions received with respect to these shares and any gain realized upon the disposition of these shares.

For any tax year in which we are treated as a PFIC, a U.S. holder may elect to treat his, her or its ordinary shares as an interest in a qualified electing fund, referred to as a QEF election. In that case, the U.S. holder would be required to include in income currently his proportionate share of our earnings and profits in years in which we are a PFIC regardless of whether distributions of our earnings and profits are actually distributed to the U.S. holder. Any gain subsequently recognized upon the sale by the U.S. holder of his ordinary shares, however, generally would be taxed as capital gain and the denial of the basis step-up at death described above would not apply.

A shareholder may make a QEF election with respect to a PFIC for any taxable year of the shareholder. A QEF election is effective for the year in which the election is made and all subsequent taxable years of the shareholder. Procedures exist for both retroactive elections and the filing of protective statements. A U.S. holder making the QEF election must make the election on or before the due date, as extended, for the filing of the shareholder's income tax return for the first taxable year to which the election will apply.

A U.S. holder must make a QEF election by completing Form 8621 and attaching it to their U.S. federal income tax return, and must satisfy additional filing requirements each year the election remains in effect. We will provide to each shareholder, upon request, the tax information required to make a QEF election and to make subsequent annual filings.

As an alternative to a QEF election, a U.S. holder generally may elect to mark his ordinary shares to market annually, recognizing ordinary income or loss (subject to certain limitations) equal to the difference between the fair market value of his ordinary shares and the adjusted tax basis of his ordinary shares. Losses would be allowed only to the extent of net mark-to-market gain accrued under the election. If a mark-to-market election with respect to ordinary shares is in effect on the date of a U.S. holder's death, the normally available step-up in tax basis to fair market value will not be available. Rather, the tax basis of the ordinary shares in the hands of a U.S. holder who acquired them from a decedent will be the lesser of the decedent's tax basis or the fair market value of the ordinary shares.

The implementation of many aspects of the Code's PFIC rules requires the issuance of regulations which in many instances have yet to be promulgated and which may have retroactive effect. We cannot be sure that any of these regulations will be promulgated or, if so, what form they will take or what effect they will have on the foregoing discussion.

Accordingly, and due to the complexity of the PFIC rules, U.S. holders should consult their own tax advisors regarding our status as a PFIC for 2001 and 2002 and any subsequent years and the eligibility, manner and advisability of making a QEF election or a mark-to-market election, and the effect of these elections on the calculation of the amount of foreign tax credit that may be available to a U.S. holder.

Backup Withholding

A U.S. holder may be subject to backup withholding at rate of 31% with respect to dividend payments and receipt of the proceeds from the disposition of the ordinary shares. Backup withholding will not apply with respect to payments made to certain exempt recipients, such as corporations and tax-exempt organizations, or if a U.S. holder provides a tax payer identification number (or certifies that he has applied for a taxpayer identification number), certifies that such holder is not subject to backup withholding or otherwise establishes an exemption. Backup withholding is not an additional tax and may be claimed as a credit against the U.S. federal income tax liability of a U.S. holder, or alternatively, the U.S. holder may be eligible for a refund of any excess amounts withheld under the backup withholding rules, in either case, provided that the required information is furnished to the Internal Revenue Service.

Non-U.S. Holders of Ordinary Shares

Except as provided below, a non-U.S. holder of ordinary shares except certain former U.S. citizens and long-term residents of the United States generally will not be subject to U.S. federal income or withholding tax on the receipt of dividends on, and the proceeds from the disposition of, an ordinary share, unless such item is effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States or, in the case of a resident of a country which has an income tax treaty with the United States, such item is attributable to a permanent establishment in the United States or, in the case of an individual, a fixed place of business in the United States. In addition, gain recognized by an individual non-U.S. holder will be subject to tax in the United States if the non-U.S. holder is present in the United States for 183 days or more in the taxable year of the sale and certain other conditions are met.

Non-U.S. holders will not be subject to information reporting or backup withholding with respect to the payment of dividends on ordinary shares unless the payment is made through a paying agent, or an office of a paying agent, in the United States. Non-U.S. holders generally will be subject to information reporting and, under regulations generally effective January 1, 2001, to backup withholding at a rate of 31% with respect to the payment within the United States of dividends on the ordinary shares unless the holder provides its taxpayer identification number, certifies to its foreign status, or otherwise establishes an exemption.

Non-U.S. holders generally will be subject to information reporting and backup withholding at a rate of 31% on the receipt of the proceeds from the disposition of the ordinary shares to, or through, the United States office of a broker, whether domestic or foreign, unless the holder provides a taxpayer identification number, certifies to its foreign status or otherwise establishes an exemption. Non-U.S. holders will not be subject to information reporting or backup withholding with respect to the receipt of proceeds from the disposition of the ordinary shares by a foreign office of a broker; provided, however, that if the broker is a U.S. person or a "U.S. related person," information reporting (but not backup withholding) will apply unless the broker has documentary evidence in its records of the non-U.S. holder's foreign status or the non-U.S. holder certifies to its foreign status under penalties of perjury or otherwise establishes an exemption. For this purpose, a "U.S. related person" is a broker or other intermediary that maintains one or more enumerated U.S. relationships. Backup withholding is not an additional tax and may be claimed as a credit against the U.S. federal income tax liability of a U.S. holder, or alternatively, the U.S. holder may be eligible for a refund of any excess amounts withheld under the backup withholding rules, in either case, provided that the required information is furnished to the Internal Revenue Service.

H. Documents on Display

We are subject to the informational requirements of the Securities Exchange Act of 1934, as amended, applicable to foreign private issuers and fulfill the obligations with respect to such requirements by filing reports with the Securities and Exchange Commission, or SEC. You may read and copy any document we file, including any exhibits, with the SEC without charge at the SEC's public reference room at 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such material may be obtained by mail from the Public Reference Branch of the SEC at such address, at prescribed rates. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Certain of our SEC filings are also available to the public at the SEC's website at <http://www.sec.gov>.

You may request a copy of our SEC filings, at no cost, by writing or calling us at MIND C.T.I. Ltd., Industrial Park, Building 7, Yoqneam, 20692, Israel, Attention: Arie Ganot, Chief Financial Officer, telephone 972-4-993-6666. A copy of each report submitted in accordance with applicable United States law is available for review at our principal executive offices.

I. Subsidiary Information

Not applicable.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

Market risk represents the risk of changes in the value of our financial instruments as a result of fluctuations in foreign currency exchange rates. We endeavor to limit our balance sheet exposure to the changes between the U.S. dollar and other currencies by attempting to maintain a similar level of assets and liabilities in any given currency, to the extent possible. However, this method of matching levels of assets and liabilities of the same currency is not always possible to achieve.

The following table sets forth our consolidated balance sheet exposure with respect to change in foreign currency exchange rates as of December 31, 2004.

Edgar Filing: MIND CTI LTD - Form 20-F

Currency	Current Monetary Assets (Liabilities)-net (In thousands)
NIS	112
Euro	3,109
Pound sterling	2
Romanian lei	36
Other non-dollar currencies	(1)
	<u>3,258</u>
	=====

Our annual expenses paid in NIS are approximately \$7.3 million. Accordingly, we estimate that a hypothetical increase of the value of the NIS against the U.S. dollar by 1% would result in an increase in our operating expenses by approximately \$73,000 for the year ended December 31 2004.

During the last quarter of 2004, we deposited an amount of \$30 million with several banks for periods between seven and ten years. The arrangements with the banks are described above in Item 5B.

As of December 31, 2004, we did not hold any instruments that are subject to risk arising from changes in equity prices. Also, we did not hold any derivative financial instruments for either trading or non-trading purposes.

Item 12. Description of Securities Other Than Equity Securities

Not applicable.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

Not applicable.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

The effective date of our first registration statement, filed on Form F-1 under the Securities Act of 1933 (No. 333-12266) relating to the initial public offering of our ordinary shares, was August 7, 2000. Net proceeds to us were \$29.9 million. From the time of receipt through December 31, 2004, all proceeds have been invested in highly liquid bank deposits.

Item 15. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2004. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be included in our periodic reports to the Securities and Exchange Commission is recorded, processed, summarized and reported in a timely manner.

In addition, there were no changes in our internal control over financial reporting that occurred during 2004 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting .

Item 16A. Audit Committee Financial Expert

Our board of directors has designated Mr. Amnon Neubach as our "audit committee financial expert" as defined by the SEC rules.

Item 16B. Code of Ethics

In April 2004, our board of directors adopted our Code of Ethics, a code that applies to all of our directors and employees.

Item 16C. Principal Accountant Fees And Services

In the annual meeting held in April 2005, our shareholders re-appointed Kesselman & Kesselman, certified public accountants in Israel and a member of PricewaterhouseCoopers International Limited, to serve as our independent auditors. These accountants billed the following fees to us for professional services in each of the last two fiscal years:

	Year Ended December 31,	
	2004	2003
Audit Fees	\$ 35,000	\$ 35,000
Audit-Related Fees	0	0
Tax Fees	5,000	5,000
All Other Fees	0	0
Total	\$40,000	\$40,000

Tax Fees. Services comprising fees disclosed under this category includes: preparation of original and amended tax returns; claims for refund; tax advice and assistance related to: dividend distribution, approved enterprise and tax audits and appeals.

Our audit committee's policy is to approve each audit and non-audit service to be performed by our independent accountant before the accountant is engaged.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

ITEM 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Not applicable.

PART III

Item 17. Financial Statements

Not applicable.

Item 18. Financial Statements

Our consolidated financial statements for the year ended December 31, 2004 are hereby incorporated into this Annual Report by reference to our Report on Form 6-K furnished to the Securities and Exchange Commission on March 18, 2005.

Item 19. Exhibits

EXHIBIT 1.2

THE COMPANIES LAW, 5759 - 1999

A COMPANY LIMITED BY SHARES

THIRD AMENDED AND RESTATED

ARTICLES OF ASSOCIATION

OF

MIND C.T.I. LTD.

GENERAL PROVISIONS

1. Object and Purpose of the Company

The object and purpose of the Company shall be as set forth in the Company's Memorandum of Association, as the same shall be amended from time to time in accordance with applicable law.

2. Limitation of Liability

The liability of the shareholders is limited to the payment of the nominal value of the shares in the Company allotted to them and which remains unpaid, and only to that amount. If the Company's share capital shall include at any time shares without a nominal value, the shareholders' liability in respect of such shares shall be limited to the payment of up to NIS 0.01 for each such share allotted to them and which remains unpaid, and only to that amount.

3. Interpretation

(a) Unless the subject or the context otherwise requires: words and expressions defined in the Companies Law, 5759-1999 (the "Companies Law"), and in those sections of the Companies Ordinance [New Version], 5743-1983 that are still in force (with respect to such sections), in force on the date when these Articles or any amendment thereto, as the case may be, first became effective shall have the same meanings herein; words and expressions importing the singular shall include the plural and vice versa; words and expressions importing the masculine gender shall include the feminine gender; and words and expressions importing persons shall include bodies corporate.

(b) The captions in these Articles are for convenience only and shall not be deemed a part hereof or affect the construction of any provision hereof.

SHARE CAPITAL

4. Share Capital

(a) The share capital of the Company shall be eight hundred eighty thousand New Israeli Shekels (NIS 880,000) divided into eighty-eight million (88,000,000) ordinary shares of a nominal value of one Agora (NIS 0.01) each, which shall be designated as "Ordinary Shares".

(b) Rights of Ordinary Shares . The Ordinary Shares confer upon the holders thereof all rights accruing to a shareholder of the Company, as provided in these Articles, including, *inter alia* , the right to receive notices of, and to attend, meetings of the shareholders; for each share held - the right to one vote at all shareholders' meetings for all purposes, and to share equally, on a per share basis, in such dividends as may be declared by the Board of Directors in accordance with the terms of these Articles and the Companies Law, and upon liquidation or dissolution - in the assets of the Company legally available for distribution to shareholders after payment of all debts and other liabilities of the Company, in accordance with the terms of these Articles and applicable law. All Ordinary Shares rank *pari passu* in all respects with each other.

5. Increase of Share Capital

(a) The Company may, from time to time, by resolution of the shareholders ("Shareholders Resolution"), whether or not all the shares then authorized have been issued, and whether or not all the shares theretofore issued have been called up for payment, increase its share capital by the creation of new shares. Any such increase shall be in such amount and shall be divided into shares of such nominal amounts, and such shares shall confer such rights and preferences, and shall be subject to such restrictions, as such resolution shall provide.

(b) Except to the extent otherwise provided in such resolution, such new shares shall be subject to all the provisions applicable to the shares of the original capital.

6. Special Rights; Modifications of Rights

(a) Without prejudice to any special rights previously conferred upon the holders of existing shares in the Company, the Company may, from time to time, by Shareholders Resolution, provide for shares with such preferred or deferred rights or rights of redemption or other special rights and/or such restrictions, whether in regard to dividends, voting, repayment of share capital or otherwise, as may be stipulated in such resolution.

(b) (i) If at any time the share capital is divided into different classes of shares, the rights attached to any class, unless otherwise provided by these Articles, may be modified or abrogated by the Company, by Shareholders Resolution, subject to the sanction of a resolution passed by the holders of a majority of the shares of such class by written consent or at a separate General Meeting of the holders of the shares of such class.

(ii) The provisions of these Articles relating to General Meetings shall, *mutatis mutandis*, apply to any separate General Meeting of the holders of the shares of a particular class.

(iii) Unless otherwise provided by these Articles, the enlargement of an existing class of shares, or the issuance of additional shares thereof, shall not be deemed, for purposes of this Article 6(b), to modify or abrogate the rights attached to the previously issued shares of such class or of any other class.

7. Consolidation, Subdivision, Cancellation and Reduction of Share Capital

(a) The Company may, from time to time, by Shareholders Resolution (subject, however, to the provisions of Article 6(b) hereof and to applicable law):

(i) consolidate and divide all or any of its issued or unissued share capital into shares of larger nominal value than its existing shares,

(ii) subdivide its shares (issued or unissued) or any of them, into shares of smaller nominal value than is fixed by these Articles of Association (subject, however, to the provisions of the Companies Law), and the Shareholders Resolution whereby any share is subdivided may determine that, as among the holders of the shares resulting from such subdivision, one or more of the shares may, as compared with the others, have any such preferred or deferred rights or rights of redemption or other special rights, or be subject to any such restrictions, as the Company has power to attach to unissued or new shares.

(iii) cancel any shares which, at the date of the adoption of such resolution, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so canceled, or

(iv) reduce its share capital in any manner, and with and subject to any incident authorized, and consent required, by law.

(b) With respect to any consolidation of issued shares into shares of larger nominal value, and with respect to any other action which may result in fractional shares, the Board of Directors may settle any difficulty which may arise with regard thereto, as it deems fit, including, inter alia, resort to one or more of the following actions:

(i) determine, as to the holder of shares so consolidated, which issued shares shall be consolidated into each share of larger nominal value;

(ii) allot, in contemplation of or subsequent to such consolidation or other action, such shares or fractional shares sufficient to preclude or remove fractional share holdings;

(iii) redeem, in the case of redeemable preference shares, and subject to applicable law, such shares or fractional shares sufficient to preclude or remove fractional share holdings;

(iv) cause the transfer of fractional shares by certain shareholders of the Company to other shareholders thereof so as to most expediently preclude or remove any fractional shareholdings, and cause the transferees to pay the transferors the fair value of fractional shares so transferred, and the Board of Directors is hereby authorized to act as agent for the transferors and transferees with power of substitution for purposes of implementing the provisions of this sub-Article 7(b)(iv).

SHARES

8. Issuance of Share Certificates: Replacement of Lost Certificates

(a) Share certificates shall be issued under the seal or stamp of the Company and shall bear the signatures of the Company's chief executive officer and chief financial officer, or of any other person or persons authorized thereto by the Board of Directors.

(b) Each shareholder shall be entitled to one numbered certificate for all the shares of any class registered in his name, and if reasonably requested by such shareholder, to several certificates, each for one or more of such shares.

(c) A share certificate registered in the names of two or more persons shall be delivered to the person first named in the Registrar of Shareholders in respect of such co-ownership.

(d) If a share certificate is defaced, lost or destroyed, it may be replaced, upon payment of such fee, and upon the furnishing of such evidence of ownership and such indemnity, as the Board of Directors may think fit.

(e) The Company may issue bearer shares.

9. Registered Holder

Except as otherwise provided in these Articles, the Company shall be entitled to treat the registered holder of any share as the absolute owner thereof, and, accordingly, shall not, except as ordered by a court of competent jurisdiction, or as required by statute, be bound to recognize any equitable or other claim to, or interest in such share on the part of any other person.

10. Allotment of Shares

The unissued shares from time to time shall be under the control of the Board of Directors, who shall have the power to allot shares or otherwise dispose of them to such persons, on such terms and conditions (including inter alia terms relating to calls as set forth in Article 12(f) hereof), and either at par or at a premium, or, subject to the provisions of the Companies Law, at a discount, and at such times, as the Board of Directors may think fit, and the power to give to any person the option to acquire from the Company any shares, either at par or at a premium, or, subject as aforesaid, at a discount, during such time and for such consideration as the Board of Directors may think fit.

11. Payment in Installments

If by the terms of allotment of any share, the whole or any part of the price thereof shall be payable in installments, every such installment shall, when due, be paid to the Company by the then registered holder(s) of the share of the person(s) entitled thereto.

12. Calls on Shares

(a) The Board of Directors may, from time to time, make such calls as it may think fit upon shareholders in respect of any sum unpaid in respect of shares held by such shareholders which is not, by the terms of allotment thereof or otherwise, payable at a fixed time, and each shareholder shall pay the amount of every call so made upon him (and of each installment thereof if the same is payable in installments), to the person(s) and at the time(s) and place(s) designated by the Board of Directors, as any such time(s) may be thereafter extended and/or such person(s) or place(s) changed. Unless otherwise stipulated in the resolution of the Board of Directors (and in the notice hereafter referred to), each payment in response to a call shall be deemed to constitute a pro rata payment on account of all shares in respect of which such call was made.

(b) Notice of any call shall be given in writing to the shareholder(s) in question not less than fourteen (14) days prior to the time of payment, specifying the time and place of payment, and designating the person to whom such payment shall be made, provided, however, that before the time for any such payment, the Board of Directors may, by notice in writing to such shareholder(s), revoke such call in whole or in part, extend such time, or alter such person and/or place. In the event of a call payable in installments, only one notice thereof need be given.

(c) If, by the terms of allotment of any share or otherwise, any amount is made payable at any fixed time, every such amount shall be payable at such time as if it were a call duly made by the Board of Directors and of which due notice had been given, and all the provisions herein contained with respect to such calls shall apply to each such amount.

(d) The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof and all interest payable thereon.

(e) Any amount unpaid in respect of a call shall bear interest from the date on which it is payable until actual payment thereof, at such rate (not exceeding the then prevailing debitory rate charged by leading commercial banks in Israel), and at such time(s) as the Board of Directors may prescribe.

(f) Upon the allotment of shares, the Board of Directors may provide for differences among the allottees of such shares as to the amount of calls and/or the times of payment thereof.

13. Prepayment

With the approval of the Board of Directors, any shareholder may pay to the Company any amount not yet payable in respect of his shares, and the Board of Directors may approve the payment of interest on any such amount until the same would be payable if it had not been paid in advance, at such rate and time(s) as may be approved by the Board of Directors. The Board of Directors may at any time cause the Company to repay all or any part of the money so advanced, without premium or penalty. Nothing in this Article 13 shall derogate from the right of the Board of Directors to make any call before or after receipt by the Company of any such advance.

14. Forfeiture and Surrender

(a) If any shareholder fails to pay any amount payable in respect of a call, or interest thereon as provided for herein, on or before the day fixed for payment of the same, the Company, by resolution of the Board of Directors, may at any time thereafter, so long as the said amount or interest remains unpaid, forfeit all or any of the shares in respect of which said call had been made. Any expense incurred by the Company in attempting to collect any such amount or interest, including, inter alia, attorneys' fees and costs of suit, shall be added to, and shall, for all purposes (including the accrual of interest thereon), constitute a part of the amount payable to the Company in respect of such call.

(b) Upon the adoption of a resolution of forfeiture, the Board of Directors shall cause notice thereof to be given to such shareholder, which notice shall state that, in the event of the failure to pay the entire amount so payable within a period stipulated in the notice (which period shall not be less than fourteen (14) days and which may be extended by the Board of Directors), such shares shall be ipso facto forfeited, provided, however, that, prior to the expiration of such period, the Board of Directors may nullify such resolution of forfeiture, but no such nullification shall estop the Board of Directors from adopting a further resolution of forfeiture in respect of the non-payment of the same amount.

(c) Whenever shares are forfeited as herein provided, all dividends theretofore declared in respect thereof and not actually paid shall be deemed to have been forfeited at the same time.

(d) The Company, by resolution of the Board of Directors, may accept the voluntary surrender of any share.

(e) Any share forfeited or surrendered as provided herein shall become the property of the Company, and the same, subject to the provisions of these Articles, may be sold, re-allotted or otherwise disposed of as the Board of Directors thinks fit.

(f) Any shareholder whose shares have been forfeited or surrendered shall cease to be a shareholder in respect of the forfeited or surrendered shares, but shall, notwithstanding, be liable to pay, and shall forthwith pay, to the Company, all calls, interest and expenses owing upon or in respect of such shares at the time of forfeiture or surrender, together with interest thereon from the time of forfeiture or surrender until actual payment, at the rate prescribed in Article 12(e) above, and the Board of Directors, in its discretion, may enforce the payment of such moneys, or any part thereof, but shall not be under any obligation to do so. In the event of such forfeiture or surrender, the Company, by resolution of the Board of Directors, may accelerate the date(s) of payment of any or all amounts then owing by the shareholder in question (but not yet due) in respect of all shares owned by such shareholder, solely or jointly with another, and in respect of any other matter or transaction whatsoever.

(g) The Board of Directors may at any time, before any share so forfeited or surrendered shall have been sold, re-allotted or otherwise disposed of, nullify the forfeiture or surrender on such conditions as it thinks fit, but no such

nullification shall estop the Board of Directors from re-exercising its powers of forfeiture pursuant to this Article 14.

15. Lien

(a) Except to the extent the same may be waived or subordinated in writing, the Company shall have a first and paramount lien upon all the shares registered in the name of each shareholder (without regard to any equitable or other claim or interest in such shares on the part of any other person), and upon the proceeds of the sale thereof, for his debts, liabilities and engagements arising from any cause whatsoever, solely or jointly with another, to or with the Company, whether the period for the payment, fulfillment or discharge thereof shall have actually arrived or not. Such lien shall extend to all dividends from time to time declared in respect of such share. Unless otherwise provided, the registration by the Company of a transfer of shares shall be deemed to be a waiver on the part of the Company of the lien (if any) existing on such shares immediately prior to such transfer.

(b) The Board of Directors may cause the Company to sell any shares subject to such lien when any such debt, liability or engagement has matured, in such manner as the Board of Directors may think fit, but no such sale shall be made unless such debt, liability or engagement has not been satisfied within seven (7) days after written notice of the intention to sell shall have been served on such shareholder, his executors or administrators.

(c) The net proceeds of any such sale, after payment of the costs thereof, shall be applied in or toward satisfaction of the debts, liabilities or engagements of such shareholder (whether or not the same have matured), or any specific part of the same (as the Company may determine), and the residue (if any) shall be paid to the shareholder, his executors, administrators or assigns.

16. Sale after Forfeiture or Surrender or in Enforcement of Lien

Upon any sale of shares after forfeiture or surrender or for enforcing a lien, the Board of Directors may appoint some person to execute an instrument of transfer of the shares so sold and cause the purchaser's name to be entered in the Register of Shareholders in respect of such shares, and the purchaser shall not be bound to see to the regularity of the proceedings, or to the application of the purchase money, and after his name has been entered in the Register of Shareholders in respect of such shares, the validity of the sale shall not be impeached by any person, and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.

17. Redeemable Shares

The Company may, subject to applicable law, issue redeemable shares and redeem the same.

18. [reserved]

TRANSFER OF SHARES

19. Effectiveness and Registration

(a) No transfer of shares shall be registered unless a proper instrument of transfer (in form and substance satisfactory to the Board of Directors) has been submitted to the Company or its agent, together with any share certificate(s) and such other evidence of title as the Board of Directors may reasonably require. Until the transferee has been registered in the Register of Shareholders in respect of the shares so transferred, the Company may continue to regard the transferor as the owner thereof. The Board of Directors, may, from time to time, prescribe a fee for the registration of a transfer.

(b) The Board of Directors may, in its discretion and to the extent that it deems necessary, close the Register of Shareholders for the registration of transfer of shares for such periods as may be determined by the Board of Directors, and no transfers of shares shall be registered during any period in which the Register of Shareholders is so closed.

20. Record Date for General Meetings

Notwithstanding any provision to the contrary in these Articles, for the determination of the shareholders entitled to receive notice of and to participate in and vote at a General Meeting, or to express consent to or dissent from any corporate action in writing, or to receive payment of any dividend or other distribution or allotment of any rights or to exercise any rights in respect of shares of the Company, the Board of Directors may fix, in advance, a record date, which, subject to applicable law, shall not be earlier than ninety (90) days prior to the General Meeting or other action, as the case may be. No persons other than holders of record of shares as of such record date shall be entitled to notice of and to participate in and vote at such General Meeting, or to exercise such other right or receive such other benefit, as the case may be. A determination of shareholders of record with respect to a General Meeting shall apply to any adjournment of such meeting, provided that the Board of Directors may fix a new record date for an adjourned meeting.

TRANSMISSION OF SHARES

21. Decedents' Shares

(a) In case of a share registered in the names of two or more holders, the Company may recognize the survivor(s) as the sole owner(s) thereof unless and until the provisions of Article 21(b) have been effectively invoked.

(b) Any person becoming entitled to a share in consequence of the death of any person, upon producing evidence of the grant of probate or letters of administration or declaration of succession (or such other evidence as the Board of Directors may reasonably deem sufficient that he sustains the character in respect of which he proposes to act under this Article or of his title), shall be registered as a shareholder in respect of such share, or may, subject to the regulations as to transfer herein contained, transfer such share.

22. Receivers and Liquidators

(a) The Company may recognize the receiver or liquidator of any corporate shareholder in winding-up or dissolution, or the receiver or trustee in bankruptcy of any shareholder, as being entitled to the shares registered in the name of such shareholder.

(b) The receiver or liquidator of a corporate shareholder in winding-up or dissolution, or the receiver or trustee in bankruptcy of any shareholder, upon producing such evidence as the Board of Directors may deem sufficient that he sustains the character in respect of which he proposes to act under this Article or of his title, shall with the consent of the Board of Directors (which the Board of Directors may grant or refuse in its absolute discretion), be registered as a shareholder in respect of such shares, or may, subject to the regulations as to transfer herein contained, transfer such shares.

GENERAL MEETINGS

23. Annual General Meeting

An Annual General Meeting shall be held once in every calendar year at such time (within a period of not more than fifteen (15) months after the last preceding Annual General Meeting) and at such place either within or without the State of Israel as may be determined by the Board of Directors.

24. Extraordinary General Meetings

All General Meetings other than Annual General Meetings shall be called "Extraordinary General Meetings." The Board of Directors may, whenever it thinks fit, convene an Extraordinary General Meeting at such time and place, within or without the State of Israel, as may be determined by the Board of Directors, and shall be obliged to do so upon a requisition in writing in accordance with Sections 63(b)(1) or (2) of the Companies Law.

25. Notice of General Meetings

The Company is not required to give notice under Section 69(b) of the Companies Law.

PROCEEDINGS AT GENERAL MEETINGS

26. Quorum

(a) Two or more shareholders (not in default in payment of any sum referred to in Article 32(a) hereof), present in person or by proxy and holding shares conferring in the aggregate at least twenty-five percent (25%) of the voting power of the Company (subject to rules and regulations, if any, applicable to the Company), shall constitute a quorum at General Meetings. No business shall be transacted at a General Meeting, or at any adjournment thereof, unless the requisite quorum is present when the meeting proceeds to business.

(b) If within an hour from the time appointed for the meeting a quorum is not present, the meeting, if convened upon requisition under Sections 63(b)(1) or (2), 64 or 65 of the Companies Law, shall be dissolved, but in any other case it shall stand adjourned to the same day in the next week, at the same time and place, or to such day and at such time and place as the Chairman may determine with the consent of the holders of a majority of the voting power represented at the meeting in person or by proxy and voting on the question of adjournment. No business shall be transacted at any adjourned meeting except business which might lawfully have been transacted at the meeting as originally called. At such adjourned meeting, any two (2) shareholders (not in default as aforesaid) present in person or by proxy, shall constitute a quorum (subject to rules and regulations, if any, applicable to the Company).

(c) The Board of Directors may determine, in its discretion, the matters that may be voted upon at the meeting by proxy in addition to the matters listed in Section 87(a) to the Companies Law.

27. Chairman

The Chairman, if any, of the Board of Directors shall preside as Chairman at every General Meeting of the Company. If there is no such Chairman, or if at any meeting he is not present within fifteen (15) minutes after the time fixed for holding the meeting or is unwilling to act as Chairman, the shareholders present shall choose someone of their number to be Chairman. The office of Chairman shall not, by itself, entitle the holder thereof to vote at any General Meeting nor shall it entitle such holder to a second or casting vote (without derogating, however, from the rights of such Chairman to vote as a shareholder or proxy of a shareholder if, in fact, he is also a shareholder or such proxy).

28. Adoption of Resolutions at General Meetings

(a) Unless otherwise provided herein, a Shareholders Resolution shall be deemed adopted if approved by the holders of a majority of the voting power represented at the meeting in person or by proxy and voting thereon.

(b) A Shareholders Resolution approving a merger (as defined in the Companies Law) of the Company shall be deemed adopted if approved by the holders of a majority of the voting power represented at the meeting in person

or by proxy and voting thereon.

(c) Every question submitted to a General Meeting shall be decided by a show of hands, but if a written ballot is demanded by any shareholder present in person or by proxy and entitled to vote at the meeting, the same shall be decided by such ballot. A written ballot may be demanded before the proposed resolution is voted upon or immediately after the declaration by the Chairman of the results of the vote by a show of hands. If a vote by written ballot is taken after such declaration, the results of the vote by a show of hands shall be of no effect, and the proposed resolution shall be decided by such written ballot. The demand for a written ballot may be withdrawn at any time before the same is conducted, in which event another shareholder may then demand such written ballot. The demand for a written ballot shall not prevent the continuance of the meeting for the transaction of business other than the question on which the written ballot has been demanded.

(d) A declaration by the Chairman of the meeting that a resolution has been carried unanimously, or carried by a particular majority, or lost, and an entry to that effect in the minute book of the Company, shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favor of or against such resolution.

29. Resolutions in Writing

A resolution in writing signed by all shareholders of the Company then entitled to attend and vote at General Meetings or to which all such shareholders have given their written consent (by letter, facsimile [telecopier], telegram, telex or otherwise), or their oral consent by telephone (provided that a written summary thereof has been approved and signed by the Chairman of the Board of Directors of the Company) shall be deemed to have been unanimously adopted by a General Meeting duly convened and held.

30. Power to Adjourn

(a) The Chairman of a General Meeting at which a quorum is present may, with the consent of the holders of a majority of the voting power represented in person or by proxy and voting on the question of adjournment (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting except business which might lawfully have been transacted at the meeting as originally called.

(b) It shall not be necessary to give any notice of an adjournment, whether pursuant to Article 26(b) or Article 30(a), unless the meeting is adjourned for thirty (30) days or more in which event notice thereof shall be given in the manner required for the meeting as originally called.

31. Voting Power

Subject to the provisions of Article 32(a) and subject to any provision hereof conferring special rights as to voting, or restricting the right to vote, every shareholder shall have one vote for each share held by him of record, on every resolution, without regard to whether the vote hereon is conducted by a show of hands, by written ballot or by any other means.

32. Voting Rights

(a) No shareholder shall be entitled to vote at any General Meeting (or be counted as a part of the quorum thereat), unless all calls and other sums then payable by him in respect of his shares in the Company have been paid, but this Article shall not apply to separate General Meetings of the holders of a particular class of shares pursuant to Article 6(b).

(b) A company or other corporate body being a shareholder of the Company may, by resolution of its directors or any other managing body thereof, authorize any person to be its representative at any meeting of the Company. Any person so authorized shall be entitled to exercise on behalf of such shareholder all the power which the latter could have exercised if it were an individual shareholder. Upon the request of the Chairman of the meeting, written evidence of such authorization (in form acceptable to the Chairman) shall be delivered to him prior to the conclusion of the meeting.

(c) Any shareholder entitled to vote may vote either personally or by proxy (who need not be a shareholder of the Company), or, if the shareholder is a company or other corporate body, by a representative authorized pursuant to Article 32(b).

(d) If two or more persons are registered as joint holders of any share, the vote of the senior who tenders a vote, in person or by proxy, shall be accepted to the exclusion of the vote(s) of the other joint holder(s); and for this purpose seniority shall be determined by the order in which the names stand in the Register of Shareholders.

PROXIES

33. Instrument of Appointment

(a) The instrument appointing a proxy shall be in writing and shall be substantially in the following form:

"I _____ of _____

(Name of Shareholder) (Address of Shareholder)

being a shareholder of _____ hereby appoint

(Name of the Company)

_____ of _____

(Name of Proxy) (Address of Proxy)

as my proxy to vote for me and on my behalf at the General Meeting of the Company to be held on the ____ day of _____, 19__ and at any adjournment(s) thereof.

Signed this ____ day of _____, 19__.

(Signature of Appointer)"

or in any usual or common form or in such other form as may be approved by the Board of Directors. It shall be duly signed by the appointer or his duly authorized attorney or, if such appointer is a company or other corporate body, under its common seal or stamp or the hand of its duly authorized agent(s) or attorney(s). Upon the request of the Company, written evidence of such authorization (in form acceptable to the Company) shall be delivered to the Company prior to the conclusion of the meeting.

(b) The instrument appointing a proxy (and the power of attorney or other authority, if any, under which such instrument has been signed) shall either be delivered to the Company (at its Registered Office, or at its principal place of business or at the offices of its registrar and/or transfer agent or at such place as the Board of Directors may

specify) not less than seventy two (72) hours (or such shorter period as determined by the Board of Directors) before the time fixed for the meeting at which the person named in the instrument proposes to vote.

(c) For as long as any of the Company's securities are publicly traded on a U.S. market or exchange, all proxy solicitations by persons other than the Board of Directors shall be undertaken pursuant to the U.S. Proxy Rules, whether or not applicable to the Company under U.S. law.

34. Effect of Death of Appointor or Revocation of Appointment

A vote cast pursuant to an instrument appointing a proxy shall be valid notwithstanding the previous death of the appointing shareholder (or of his attorney-in-fact, if any, who signed such instrument), or the revocation of the appointment or the transfer of the share in respect of which the vote is cast, provided no written intimation of such death, revocation or transfer shall have been received by the Company or by the Chairman of the meeting before such vote is cast and provided, further, that the appointing shareholder, if present in person at said meeting, may revoke the appointment by means of a writing, oral notification to the Chairman, or otherwise.

BOARD OF DIRECTORS

35. Powers of Board of Directors

(a) In General

The management of the business of the Company shall be vested in the Board of Directors, which may exercise all such powers and do all such acts and things as the Company is authorized to exercise and do, and are not hereby or by law required to be exercised or done by the Company in General Meeting. The authority conferred on the Board of Directors by this Article 35 shall be subject to the provisions of the Companies Law, of these Articles and any regulation or resolution consistent with these Articles adopted from time to time by the Company in General Meeting, provided, however, that no such regulation or resolution shall invalidate any prior act done by or pursuant to a decision of the Board of Directors which would have been valid if such regulation or resolution had not been adopted.

(b) Borrowing Power

The Board of Directors may from time to time, in its discretion, cause the Company to borrow or secure the payment of any sum or sums of money for the purposes of the Company, and may secure or provide for the repayment of such sum or sums in such manner, at such times and upon such terms and conditions in all respects as it thinks fit, and, in particular, by the issuance of bonds, perpetual or redeemable debentures, debenture stock, or any mortgages, charges, or other securities on the undertaking or the whole or any part of the property of the Company, both present and future, including its uncalled or called but unpaid capital for the time being.

(c) Reserves

The Board of Directors may, from time to time, set aside any amount(s) out of the profits of the Company as a reserve or reserves for any purpose(s) which the Board of Directors, in its absolute discretion, shall think fit, and may invest any sum so set aside in any manner and from time to time deal with and vary such investments, and dispose of all or any part thereof, and employ any such reserve or any part thereof in the business of the Company without being bound to keep the same separate from other assets of the Company, and may subdivide or redesignate any reserve or cancel the same or apply the funds therein for another purpose, all as the Board of Directors may from time to time think fit.

(d) Protective Measures

The Board of Directors may, at any time in its sole discretion, adopt protective measures to prevent or delay a coercive takeover of the Company, including without limitation the adoption of a "Shareholder Rights Plan."

36. Exercise of Powers of Directors

(a) A meeting of the Board of Directors at which a quorum is present (whether in person, by conference call or by any other device allowing the participating Directors to hear each other simultaneously) shall be competent to exercise all the authorities, powers and discretions vested in or exercisable by the Board of Directors,

(b) A resolution proposed at any meeting of the Board of Directors shall be deemed adopted if approved by a majority of the Directors present when such resolution is put to a vote and voting thereon.

(c) A resolution in writing signed by all Directors then in office and lawfully entitled to vote thereon (as conclusively determined by the Chairman of the Audit Committee or, in the absence of such determination, by the Chairman of the Board of Directors) or to which all such Directors have given their consent (by letter, telegram, telex, facsimile, telecopier or otherwise), or their oral consent by telephone (provided that a written summary thereof has been approved and signed by the Chairman of the Board of Directors of the Company) shall be deemed to have been unanimously adopted by a meeting of the Board of Directors duly convened and held.

37. Delegation of Powers

(a) The Board of Directors may, subject to the provisions of the Companies Law, delegate any or all of its powers to committees, each consisting of two or more persons (all of whose members must be Directors), and it may from time to time revoke such delegation or alter the composition of any such committee. Any Committee so formed (in these Articles referred to as a "Committee of the Board of Directors"), shall, in the exercise of the powers so delegated, conform to any regulations imposed on it by the Board of Directors. The meetings and proceedings of any such Committee of the Board of Directors shall, mutatis mutandis, be governed by the provisions herein contained for regulating the meetings of the Board of Directors, so far as not superseded by any regulations adopted by the Board of Directors under this Article. Unless otherwise expressly provided by the Board of Directors in delegating powers to a Committee of the Board of Directors, such Committee shall not be empowered to further delegate such powers.

(b) Without derogating from the provisions of Article 50, the Board of Directors may, subject to the provisions of the Companies Law, from time to time appoint a Secretary to the Company, as well as officers, agents, employees and independent contractors, as the Board of Directors may think fit, and may terminate the service of any such person. The Board of Directors may, subject to the provisions of the Companies Law, determine the powers and duties, as well as the salaries and emoluments, of all such persons, and may require security in such cases and in such amounts as it thinks fit.

(c) The Board of Directors may from time to time, by power of attorney or otherwise, appoint any person, company, firm or body of persons to be the attorney or attorneys of the Company at law or in fact for such purpose(s) and with such powers, authorities and discretions, and for such period and subject to such conditions, as it thinks fit, and any such power of attorney or other appointment may contain such provisions for the protection and convenience of persons dealing with any such attorney as the Board of Directors may think fit, and may also authorize any such attorney to delegate all or any of the powers, authorities and discretions vested in him.

38. Number of Directors

Until otherwise determined by Shareholders Resolution of the Company, the Board of Directors shall consist of not less than three (3) nor more than nine (9) Directors, at least two (2) of which shall be External Directors in accordance with the Companies Law (the "External Directors").

39. Election and Removal of Directors

(a) The Board of Directors of the Company shall be divided into three (3) classes of Directors, designated as Class I, Class II, and Class III, which shall be differentiated by the dates of commencement and expiration of the terms of office of their respective Directors. The number of Directors in each class shall be divided equally, so far as practicable, among the classes. The initial terms of office of the Directors of the respective classes shall be as follows:

- Class I Directors shall serve until the Annual General Meeting to be convened in 2001;
- Class II Directors shall serve until the Annual General Meeting to be convened in 2002; and
- Class III Directors shall serve until the Annual General Meeting to be convened in 2003,

until their respective successors shall be duly elected. At each Annual General Meeting, beginning with the Annual General Meeting to be convened in 2001, the Directors elected or re-elected to the class whose term expires at such meeting shall serve until the Annual General Meeting to be convened in the third year following such election or re-election.

(b) Directors shall be elected at General Meetings by the vote of the holders of a majority of the voting power represented at such meeting in person or by proxy and voting on the election of directors.

(c) Notwithstanding anything to the contrary in these Articles of Association, the affirmative vote of at least 75% of the shares present, in person or by proxy, and voting on the matter shall be required to amend or repeal this Article 39 or to remove any Director prior to the expiration of his or her term.

(d) Notwithstanding anything to the contrary in the foregoing provisions of Article 39, the foregoing provisions of this Article 39 shall not apply to the Company's External Directors, who shall not be members of any class and shall serve pursuant to the provisions of the Companies Law.

(e) Notwithstanding anything to the contrary herein, the term of a Director may commence as of a date later than the date of the Shareholder Resolution electing said Director, if so specified in said Shareholder Resolution.

40. Qualification of Directors

No person shall be disqualified to serve as a Director by reason of his not holding shares in the Company or by reason of his having served as a Director in the past.

41. Continuing Directors in the Event of Vacancies

In the event of one or more vacancies in any class of Directors, the continuing Directors may continue to act in every matter and may temporarily fill any such vacancy in such class, provided, however, that if the continuing Directors number less than a majority of the number provided for pursuant to Article 38 hereof, they may only act in an emergency, and may call a General Meeting of the Company for the purpose of electing Directors to fill any or all vacancies, so that at least a majority of the number of Directors provided for pursuant to Article 38 hereof are in office as a result of said meeting.

42. Vacation of Office

(a) The office of a Director shall be vacated, ipso facto, upon his death, or if he be found lunatic or become of unsound mind, or if he become bankrupt, or, if the Director is a company, upon its winding-up.

(b) The office of a Director shall be vacated by his written resignation. Such resignation shall become effective on the date fixed therein, or upon the delivery thereof to the Company, whichever is later.

43. Remuneration of Directors

No Director shall be paid any remuneration by the Company for his services as Director except as may be approved by a Shareholders Resolution, except for reimbursement of expenses incurred in connection with fulfilling his duties as a Director.

44. Conflict of Interests

Subject to the provisions of the Companies Law, the Company may enter into any contract or otherwise transact any business with any Director in which contract or business such Director has a personal interest, directly or indirectly; and may enter into any contract or otherwise transact any business with any third party in which contract or business a Director has a personal interest, directly or indirectly. Any Director who has such a personal interest shall notify the other Directors with respect thereto prior to any discussion or vote on the matter by the Board of Directors.

45. [reserved]

PROCEEDINGS OF THE BOARD OF DIRECTORS

46. Meetings

The Board of Directors may meet and adjourn its meetings and otherwise regulate such meetings and proceedings as the Board of Directors think fit. Notice of the meetings of the Board of Directors shall be sent to each Director at the last address that the Director provided to the Company.

47. Quorum

Until otherwise unanimously decided by the Board of Directors, a quorum at a meeting of the Board of Directors shall be constituted by the presence of a majority of the Directors then in office who are lawfully entitled to participate in the meeting (as conclusively determined by the Chairman of the Audit Committee and in the absence of such determination - by the Chairman of the Board of Directors), but shall not be less than two.

48. Chairman of the Board of Directors

The Board of Directors may from time to time elect one of its members to be the Chairman of the Board of Directors, remove such Chairman from office and appoint another in its place. The Chairman of the Board of Directors shall preside at every meeting of the Board of Directors, but if there is no such Chairman, or if at any meeting he is not present within fifteen (15) minutes of the time fixed for the meeting, or if he is unwilling to take the chair, the Directors present shall choose one of their number to be the chairman of such meeting. The Chairman shall not have a casting vote.

49. Validity of Acts Despite Defects

Subject to the provisions of the Companies Law, all acts done bona fide at any meeting of the Board of Directors, or of a Committee of the Board of Directors, or by any person(s) acting as Director(s), shall, notwithstanding that it may afterwards be discovered that there was some defect in the appointment of the participants in such meetings or any of them or any person(s) acting as aforesaid, or that they or any of them were disqualified, be as valid as if there were no such defect or disqualification.

GENERAL MANAGER

50. General Manager

The Board of Directors may from time to time appoint one or more persons, whether or not Directors, as General Manager(s) of the Company and may confer upon such person(s), and from time to time modify or revoke, such title(s) (including Managing Director, Director General or any similar or dissimilar title) and such duties and authorities of the Board of Directors as the Board of Directors may deem fit, subject to such limitations and restrictions as the Board of Directors may from time to time prescribe. Such appointment(s) may be either for a fixed term or without any limitation of time, and the Board of Directors may from time to time (subject to the provisions of the Companies Law and of any contract between any such person and the Company) fix his or their salaries and emoluments, remove or dismiss him or them from office and appoint another or others in his or their place or places.

MINUTES

51. Minutes

(a) Minutes of each General Meeting and of each meeting of the Board of Directors shall be recorded and duly entered in books provided for that purpose. Such minutes shall, in all events, set forth the names of the persons present at the meeting and all resolutions adopted thereat.

(b) Any minutes as aforesaid, if purporting to be signed by the chairman of the meeting or by the chairman of the next succeeding meeting, shall constitute prima facie evidence of the matters recorded therein.

DIVIDENDS

52. Declaration and Payment of Dividends

The Board of Directors may from time to time declare, and cause the Company to pay, such dividend as may appear to the Board of Directors to be justified. The Board of Directors shall determine the time for payment of such dividends, and the record date for determining the shareholders entitled thereto.

53. [reserved]

54. Amount Payable by Way of Dividends

Subject to the rights of the holders of shares with special rights as to dividends and without derogating from the provisions of Article 35(d) above, any dividend paid by the Company shall be allocated among the shareholders entitled thereto in proportion to their respective holdings of the shares in respect of which such dividend is being paid.

55. Interest

No dividend shall carry interest as against the Company.

56. Payment in Specie

Upon the declaration of the Board of Directors, a dividend may be paid, wholly or partly, by the distribution of specific assets of the Company or by distribution of paid up shares, debentures or debenture stock of the Company or of any other companies, or in any one or more of such ways.

57. Capitalization of Profits, Reserves etc.

Upon the resolution of the Board of Directors, the Company -

(a) may cause any moneys, investments, or other assets forming part of the undivided profits of the Company, standing to the credit of a reserve fund, or to the credit of a reserve fund for the redemption of capital, or in the hands of the Company and available for dividends, or representing premiums received on the issuance of shares and standing to the credit of the share premium account, to be capitalized and distributed among such of the shareholders as would be entitled to receive the same if distributed by way of dividend and in the same proportion, on the footing that they become entitled thereto as capital, or may cause any part of such capitalized fund to be applied on behalf of such shareholders in paying up in full, either at par or at such premium as the resolution may provide, any unissued shares or debentures or debenture stock of the Company which shall be distributed accordingly, in payment, in full or in part, of the uncalled liability on any issued shares or debentures or debenture stock; and

(b) may cause such distribution or payment to be accepted by such shareholders in full satisfaction of their interest in the said capitalized sum.

58. Implementation of Powers under Articles 56 and 57

For the purpose of giving full effect to any resolution under Articles 56 or 57, and without derogating from the provisions of Article 7(b) hereof, and subject to applicable law, the Board of Directors may settle any difficulty which may arise in regard to the distribution as it thinks expedient, and, in particular, may issue fractional certificates, and may fix the value for distribution of any specific assets, and may determine that cash payments shall be made to any shareholders upon the footing of the value so fixed, or that fractions of less value than the nominal value of one share may be disregarded in order to adjust the rights of all parties, and may vest any such cash, shares, debentures, debenture stock or specific assets in trustees upon such trusts for the persons entitled to the dividend or capitalized fund as may seem expedient to the Board of Directors.

59. Deductions from Dividends

The Board of Directors may deduct from any dividend or other moneys payable to any shareholder in respect of a share any and all sums of money then payable by him to the Company on account of calls or otherwise in respect of shares of the Company and/or on account of any other matter of transaction whatsoever.

60. Retention of Dividends

(a) The Board of Directors may retain any dividend or other moneys payable or property distributable in respect of a share on which the Company has a lien, and may apply the same in or toward satisfaction of the debts, liabilities, or engagements in respect of which the lien exists.

(b) The Board of Directors may retain any dividend or other moneys payable or property distributable in respect of a share in respect of which any person is, under Articles 21 or 22, entitled to become a shareholder, or which any person is, under said Articles, entitled to transfer, until such person shall become a shareholder in respect of such share or shall transfer the same.

61. Unclaimed Dividends

All unclaimed dividends or other moneys payable in respect of a share may be invested or otherwise made use of by the Board of Directors for the benefit of the Company until claimed. The payment by the Directors of any unclaimed dividend or such other moneys into a separate account shall not constitute the Company a trustee in

respect thereof, and any dividend unclaimed after a period of seven (7) years from the date of declaration of such dividend, and any such other moneys unclaimed after a like period from the date the same were payable, shall be forfeited and shall revert to the Company, provided, however, that the Board of Directors may, at its discretion, cause the Company to pay any such dividend or such other moneys, or any part thereof, to a person who would have been entitled thereto had the same not reverted to the Company.

62. Mechanics of Payment

Any dividend or other moneys payable in cash in respect of a share may be paid by check or warrant sent through the post to, or left at, the registered address of the person entitled thereto or by transfer to a bank account specified by such person (or, if two or more persons are registered as joint holders of such share or are entitled jointly thereto in consequence of the death or bankruptcy of the holder or otherwise, to any one of such persons or to his bank account), or to such person and at such address as the person entitled thereto may by writing direct. Every such check or warrant shall be made payable to the order of the person to whom it is sent, or to such person as the person entitled thereto as aforesaid may direct, and payment of the check or warrant by the banker upon whom it is drawn shall be a good discharge to the Company. Every such check or warrant shall be sent at the risk of the person entitled to the money represented thereby.

63. Receipt from a Joint Holder

If two or more persons are registered as joint holders of any share, or are entitled jointly thereto in consequence of the death or bankruptcy of the holder or otherwise, any one of them may give effectual receipts for any dividend or other moneys payable or property distributable in respect of such share.

ACCOUNTS

64. Books of Account

The Board of Directors shall cause accurate books of account to be kept in accordance with the provisions of the Companies Law and of any other applicable law. Such books of account shall be kept at the Registered Office of the Company, or at such other place or places as the Board of Directors may think fit, and they shall always be open to inspection by all Directors. No shareholder, not being a Director, shall have any right to inspect any account or book or other similar document of the Company, except as conferred by law or authorized by the Board of Directors or by a Shareholders Resolution.

65. Audit

At least once in every fiscal year the accounts of the Company shall be audited and the correctness of the profit and loss account and balance sheet certified by one or more duly qualified auditors.

66. Auditors

The appointment, authorities, rights and duties of the auditor(s) of the Company, shall be regulated by applicable law. The Audit Committee of the Company shall have the authority to fix, in its discretion, the remuneration of the auditor(s) for the auditing services.

BRANCH REGISTERS

67. Branch Registers

Subject to and in accordance with the provisions of the Companies Law and to all orders and regulations issued thereunder, the Company may cause branch registers to be kept in any place outside Israel as the Board of Directors may think fit, and, subject to all applicable requirements of law, the Board of Directors may from time to time adopt such rules and procedures as it may think fit in connection with the keeping of such branch registers.

RIGHTS OF SIGNATURE, STAMP AND SEAL

68. Rights of Signature, Stamp and Seal

(a) The Board of Directors shall be entitled to authorize any person or persons (who need not be Directors) to act and sign on behalf of the Company, and the acts and signature of such person(s) on behalf of the Company shall bind the Company insofar as such person(s) acted and signed within the scope of his or their authority.

(b) The Company shall have at least one official stamp.

(c) The Board of Directors may provide for a seal. If the Board of Directors so provides, it shall also provide for the safe custody thereof. Such seal shall not be used except by the authority of the Board of Directors and in the presence of the person(s) authorized to sign on behalf of the Company, who shall sign every instrument to which such seal is affixed.

NOTICES

69. Notices

(a) Any written notice or other document may be served by the Company upon any shareholder either personally or by sending it by prepaid mail addressed to such shareholder at his address as described in the Register of Shareholders or such other address as he may have designated in writing for the receipt of notices and other documents. Any written notice or other document may be served by any shareholder upon the Company by tendering the same in person to the Secretary or the General Manager of the Company at the principal office of the Company or by sending it by prepaid registered mail (airmail if posted outside Israel) to the Company at its Registered Address. Any such notice or other document shall be deemed to have been served (i) in the case of mailing, two (2) business days after it has been posted (seven (7) business days if sent internationally), or when actually received by the addressee if sooner than two (2) days or seven (7) days, as the case may be, after it has been posted; (ii) in the case of overnight air courier, on the third (3rd) business day following the day sent, with receipt confirmed by the courier, or when actually received by the addressee if sooner than three (3) business days after it has been sent; (iii) in the case of personal delivery, on the date such notice was actually tendered in person to such shareholder (or to the Secretary or the General Manager); (iv) in the case of facsimile transmission, on the date on which the sender receives automatic electronic confirmation by the recipient's facsimile machine that such notice was received by the addressee. The mailing date or publication date and the date of the meeting shall be counted as part of the days comprising any notice period. Notice may be sent by cablegram, telex, telecopier (facsimile) or other electronic means and confirmed by registered mail as aforesaid. If a notice is, in fact, received by the addressee, it shall be deemed to have been duly served, when received, notwithstanding that it was defectively addressed or failed, in some respect, to comply with the provisions of this Article 69(a).

(b) All notices to be given to the shareholders shall, with respect to any share to which persons are jointly entitled, be given to whichever of such persons is named first in the Register of Shareholders, and any notice so given shall be sufficient notice to the holders of such share.

(c) Any shareholder whose address is not described in the Register of Shareholders, and who shall not have designated in writing an address for the receipt of notices, shall not be entitled to receive any notice from the Company.

(d) Notwithstanding anything to the contrary herein: notice by the Company of a General Meeting which is published in two daily newspapers in Israel, if at all, shall be deemed to have been duly given on the date of such publication to any shareholder whose address as registered in the Register of Shareholders (or as designated in writing for the receipt of notices and other documents) is located in the State of Israel, and notice by the Company of a General Meeting which is published in one daily newspaper in New York, New York, U.S.A. or in one international wire service shall be deemed to have been duly given on the date of such publication to any shareholder whose address as registered in the Register of Shareholders (or as designated in writing for the receipt of notices and other documents) is located outside Israel.

INSURANCE AND INDEMNITY

70. Exculpation, Indemnity and Insurance

(a) For purposes of these Articles, the term "Office Holder" shall mean every Director and every officer of the Company, including, without limitation, each of the persons defined as "Nosei Misra" in the Companies Law.

(b) Subject to the provisions of the Companies Law, the Company may prospectively exculpate an Office Holder from all or some of the Office Holder's responsibility for damage resulting from the Office Holder's breach of the Office Holder's duty of care to the Company.

(c) Subject to the provisions of the Companies Law, the Company may indemnify an Office Holder in respect of an obligation or expense specified below imposed on the Office Holder in respect of an act performed in his capacity as an Office Holder, as follows:

(i) a financial obligation imposed on him in favor of another person by a court judgment, including a compromise judgment or an arbitrator's award approved by court;

(ii) reasonable litigation expenses, including attorneys' fees, expended by an Office Holder or charged to the Office Holder by a court, in a proceeding instituted against the Office Holder by the Company or on its behalf or by another person, or in a criminal charge from which the Office Holder was acquitted, or in a criminal proceeding in which the Office Holder was convicted of an offense that does not require proof of criminal intent.

The Company may undertake to indemnify an Office Holder as aforesaid, (aa) prospectively, provided that the undertaking is limited to categories of events which in the opinion of the Board of Directors can be foreseen when the undertaking to indemnify is given, and to an amount set by the Board of Directors as reasonable under the circumstances and (bb) retroactively.

(d) Subject to the provisions of the Companies Law, the Company may enter into a contract for the insurance of all or part of the liability of any Office Holder imposed on the Office Holder in respect of an act performed in his capacity as an Office Holder, in respect of each of the following:

(i) a breach of his duty of care to the Company or to another person;

(ii) a breach of his duty of loyalty to the Company, provided that the Office Holder acted in good faith and had reasonable cause to assume that such act would not prejudice the interests of the Company;

(iii) a financial obligation imposed on him in favor of another person.

(e) The provisions of Articles 70(a), 70(b) and 70(c) above are not intended, and shall not be interpreted, to restrict the Company in any manner in respect of the procurement of insurance and/or in respect of indemnification (i) in connection with any person who is not an Office Holder, including, without limitation, any employee, agent,

consultant or contractor of the Company who is not an Office Holder, and/or (ii) in connection with any Office Holder to the extent that such insurance and/or indemnification is not specifically prohibited under law; provided that the procurement of any such insurance and/or the provision of any such indemnification shall be approved by the Audit Committee of the Company.

WINDING UP

71. Winding Up

If the Company be wound up, then, subject to applicable law and to the rights of the holders of shares with special rights upon winding up, the assets of the Company available for distribution among the shareholders shall be distributed to them in proportion to the nominal value of their respective holdings of the shares in respect of which such distribution is being made.

EXHIBIT 8

List of Subsidiaries

Name of Subsidiary	Jurisdiction of Incorporation
MIND C.T.I. Inc.	New Jersey
MIND Software SRL	Romania
DIROT COMP SRL	Romania

EXHIBIT 12.1

Certification of Principal Executive Officer pursuant to 17 CFR 240.13a-14(a), as adopted pursuant to §302 of the Sarbanes-Oxley Act

I, Monica Eisinger, President and Chief Executive Officer of MIND C.T.I. Ltd., certify that :

1. I have reviewed this annual report on Form 20-F of MIND C.T.I. Ltd. :
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this report;
4. The company's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the company and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. evaluated the effectiveness of the company's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

- c. disclosed in this report any change in the company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting; and
5. The company's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the company's auditors and the audit committee of the company's board of directors (or persons performing the equivalent functions):
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the company's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the company's internal control over financial reporting.
