For the Three Months and Six Months Ended June 30, 2006**Note A: Basis of Presentation

The accompanying unaudited consolidated financial statements of Harbor Bankshares Corporation and subsidiaries (The "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all the information required for complete financial statements. In the opinion of management, all adjustments and reclassifications considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Operating results for the three month and six month periods ended June 30, 2006, are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. The enclosed unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto incorporated by reference in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2005. Certain reclassifications have been made to amounts previously reported to conform to the classifications made in 2006.

Note B: Comprehensive Income

The Company's comprehensive income consists of its net income and unrealized holding losses on its available for sale securities, net of taxes.

Presented below is a reconciliation of net income to comprehensive income.

Note C: Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Basic earnings per share does not include the effect of potentially dilutive transactions or conversions. The computation of diluted earnings per share reflects the potential dilution of earnings per share under the treasury stock method, which could occur if contracts to issue common stock, such as stock options, were exercised and shared in corporate earnings. At June 30, 2006 and 2005, there were no antidilutive options to purchase common shares.

The following table presents a summary of per share data and amounts for the period indicated:

Note D:

EMPLOYEE STOCK-BASED COMPENSATION

Effective on January 1, 2006, the Company adopted Financial Accounting Standards Board Statement No. 123R, "Share-Based Payment" (Statement 123R), which requires an entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. Previously, the Company accounted for stock-based compensation plans and the employee stock purchase plan in accordance with Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees" and related Interpretations and provided the required pro forma disclosures of Financial Accounting Standards Board Statement No. 123, "Accounting for Stock-Based Compensation". The Company elected to adopt the modified prospective-transition method as provided by Statement 123R. Under this transition method, compensation cost recognized during 2006 includes (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006 based on the grant-date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123R. The effect of applying Statement 123R was a decrease in net income of \$17 and \$26 thousand net of taxes for the three and six month period ended June 30, 2006, or \$0.02 and \$0.04 per basic and diluted share respectively. Results for prior periods have not been restated.

The following table illustrates the effect on net loss and loss per share as if the Company had applied the fair value recognition provisions of Statement 123R to stock-based employee compensation for the period ended June 30, 2005:

	Three months Ended June 30, 2005	Six Months Ended June 30, 2005

Average expected volatility	20%	20%	20%	20%
Weighted average fair value of granted options	7.44	6.78	7.44	6.78

Expected volatilities are based on historical volatility of the Company's stock. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The Company uses historical data to estimate option exercise and employee termination within the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

A summary of stock option activity during the six months ended June 30, 2006 and related information is included in the table below:

	Options	Weighted-Average Exercise Price	Aggregate Intrinsic Value

Exercisable at June 30, 2006	123,284	16.70	2,059,430
Weighted-average remaining contractual life	7.6		

The weighted average grant date fair value of options granted during the six month period ended June 30, 2006 was \$25.00 per share. All options granted have an exercise price equal to the fair value of the Company's common stock on the date of grant. Exercise prices for options outstanding as of June 30, 2006 ranged from \$15.24 to \$25.00 as follows:

Note E:

NEW ACCOUNTING PRONOUNCEMENTS

SFAS No. 154, "Accounting Changes and Error Corrections, a Replacement of APB Opinion No. 20 and FASB Statement No. 3." SFAS 154 establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to a newly adopted accounting principle. Previously, most changes in accounting principle were recognized by including the cumulative effect of changing to the new account principle in net income of the period of the change. Under SFAS 154, retrospective application requires (i) the cumulative effect of the change to the new accounting principle on periods prior to those presented to be reflected in the carrying amounts of assets and liabilities as of the beginning of the first year presented, (ii) an offsetting adjustment, if any, to be made to the opening balance of retained earnings (or other appropriate complements of equity) for that period, and (iii) financial statements for each individual prior period presented to be adjusted to reflect the direct period-specific effects of applying the new accounting principle. Special retroactive application rules apply in situation where it is impracticable to determine either the period □ specific effects or the cumulative effect of the change. Indirect effects of a change in accounting principle are required to be reported in the period in which the accounting change is made. SFAS 154 carries forward the guidance in APB Opinion 20 "Accounting Changes," requiring justification of a change in accounting principle on the basis of preferability. SFAS 154 also carries forward without change the guidance contained in APB Opinion 20, for reporting the correction of an error in previously issued financial statements and for a change in an accounting estimate. SFAS is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of SFAS 154 did not significantly impact the Company's financial statements.

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments", an amendment of SFAS No. 133 and SFAS No. 140. This statement permits fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. It establishes a requirement to evaluate interests in securitized financial assets to identify interest that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation. In addition, SFAS 155 clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133. It also clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives. SFAS 155 amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company is evaluating the impact, if any, of the adoption of this Statement on its financial results.

In March 2006, the FASB issued SFAS No. 156 "Accounting for Servicing of Financial Assets": This Statement amends SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities", and requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable and permits the entities to elect either fair value measurement with changes in fair value reflected in earnings or the amortization and impairment requirements of SFAS No. 140 for

subsequent measurement. The subsequent measurement of separately recognized servicing assets and servicing liabilities at fair value eliminates the necessity for entities that manage the risks inherent in servicing assets and servicing liabilities with derivative to qualify for hedge account treatment and eliminates the characterization of declines in fair value as impairments or direct write-downs. This Statement is effective as of the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company is evaluating the impact, if any, of the adoption of this Statement on its financial results.

Part I. FINANCIAL INFORMATION

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements. This management's discussion and analysis of financial condition and results of operations and other portions of this report include forward-looking statements such as: statements of the Company's goals, intentions, and expectations; estimates of risks and of future costs and benefits; assessments of loan quality, and probable loan losses, liquidity, and interest risk; and statements of the Company's ability to achieve financial and other goals. These forward-looking statements are subject to significant uncertainties because they are based upon: the amount and timing of future changes in interest rates, market behaviors, and other economic conditions; future laws and regulations; and a variety of other matters. Because of these uncertainties, the actual future results may be materially different from the results indicated by these forward-looking statements. In addition, the Company's past growth and performance do not necessarily indicate its future results.

Harbor Bankshares Corporation earnings for the second quarter of 2006 totaled \$448 thousand, a decrease of \$90 thousand or 16.7 percent when compared to the second quarter of 2005. Net interest income increased by \$65 thousand or 2.4 percent. Non-interest income decreased by \$38 thousand or 8.5 percent and non-interest expenses increased by \$238 thousand or 10.7 percent. The provisions for loan losses decreased by \$40 thousand or 33.3 percent.

Year to date earning as of June 30, 2006 were \$895 thousand, reflecting an increase of \$63 thousand or 7.6 percent when compared to the first six months of 2005. The annualized return on average assets (ROAA) and average stockholders equity (ROAE) were .70 percent and 10.6 percent respectively, compared to .71 percent and 10.3 percent achieved during the first six months of 2005.

For the first six months of 2006, net interest income increased by \$178 thousand or 3.3 percent. Interest and fees on loans increased by \$1.2 million or 19.3 percent as a result of the growth in the portfolio and interest rate increases. Investment income decreased by \$12 thousand or 2.8 percent. Interest on federal funds sold increased by \$132 thousand or 74.2 percent resulting from higher balances and rates. Interest expense increased by \$1.2 million or 73.9 percent. Interest on time deposits increased by \$457 thousand or 57.4 percent. Interest expense on saving accounts increased by \$644 thousand or 111.2 percent. Time deposits increased by \$9.9 million or 14.9 percent when compared to December 31, 2005. This increase, combined with higher rates for both, time and savings deposits were the main reason for overall increase in interest expense. The interest expense on borrowed funds was \$41 thousand. The interest expense for the junior subordinated floating rate debentures increased by \$68 thousand or 33.5 percent due to higher interest rates.

For the second quarter of 2006, when compared to the same period for 2005, net interest income increased by \$65 thousand or 2.4 percent. Interest and fees on loans increased by \$654 thousand or 19.3 percent resulting from portfolio growth and rate increases. Investment income at \$209 thousand remained the same for both periods. Federal fund sold income increased by \$7 thousand or 35.0 percent. Interest expense increased by \$593 thousand or 67.8 percent mainly due to higher rates on time and savings deposits. Interest expense on time deposits increased by \$229 thousand or 53.1 percent due to higher rates and increased balances. Interest expense on savings accounts increased by \$298 thousand or 94.3 percent mainly due to higher interest rates. The interest expense on borrowed funds for the period was \$40 thousand. The interest expense for the junior subordinated debentures increased by \$35 thousand or 33.0 percent due to higher interest rates.

As of June 30, 2006, the provision for loan losses was \$135 thousand compared to \$240 thousand for the same period in 2005. Charge-offs totaled \$58 thousand reflecting an increase of \$24 thousand when compared to the \$34 thousand charged-off during the same period in 2005. Recoveries for the period were \$9 thousand, compared to \$72 thousand recovered during the first six months of 2005.

Future provisions for loan losses will continue to be based upon our assessment of the overall loan portfolio and its underlying collateral, the mix of loans within the portfolio, delinquency trends, economic conditions, current and prospective trends in real estate values, and other relevant factors under our allowance methodology.

Our allowance for loan loss methodology is a loan classification-based system. We base the required allowance on a percentage of the loan balance for each type of loan classification level. Allowance percentages are based on each individual lending program, its loss history and underwriting characteristics including loan value, credit score, debt coverage, collateral, and capacity to service debt.

This analysis is used to validate the loan loss reserve matrix as well as assist in establishing overall lending direction. In Management's opinion, the allowance for loan losses as of June 30, 2006 is adequate. There were no changes in estimation methods or assumptions that affected the methodology for assessing the appropriateness of the allowance during the period.

Non-performing assets consist of non-accruing loans, loans past due 90 days or more but still accruing, restructured loans, and foreclosed real estate.

The following table shows the non-performing assets as of June 30, 2006 compared to December 31, 2005.

	June 30, 2006	December 31, 2005
	<u> </u>	<u> </u>
	(In Thousands)	
Non-accruing Loans	\$ 349	\$ 558
Past Due 90 days or more	21	18
Restructured loans	□	□
	<u>370</u>	<u>576</u>
Total non-performing loans		
Foreclosed real estate	□	□
	<u>370</u>	<u>576</u>
Total non-performing assets	\$ 370	\$ 576
	<u> </u>	<u> </u>
Non-performing loans to total loans	0.18%	0.30%
Non-performing assets to total assets	0.14%	0.22%
Allowance for loan losses to non-performing loans	579.73%	357.50%

Non-interest income decreased by \$155 thousand or 16.5 percent. Service charges on deposit accounts decreased by \$131 thousand or 26.9 percent, mainly related to decreases in the returned check fees charges. Other income decreased by \$22 thousand or 4.9 percent. There was a loss of \$2 thousand on the sale of loans. Salary and employee benefits at \$2.3 million increased by \$146 thousand or 6.6 percent when compared to the same period of 2005. Advertising cost of \$196 thousand remained the same for both periods. Occupancy expense increased by \$189 thousand or 41.1 percent reflecting the cost associated with the renovation of the Company's headquarters building and the opening of a new branch facility in October, 2005. Equipment expenses increased by \$4 thousand or 2.4 percent. Professional costs decreased by \$112 thousand or 46.5 percent. Data processing fees increased by \$23 thousand or 4.4 percent. Included in this non-interest expense for 2005, is a loss of \$255 thousand resulting from the final settlement of the ATM shortage matter.

For the second quarter of 2006, when compared to the same period for 2005, non-interest income decreased by \$38 thousand or 8.5 percent. Service charges on deposit accounts decreased by \$61 thousand or 24.5 percent mainly related to the returned check fees charges. Other income increased by \$23 thousand or 11.6 percent. Salary and employee benefits increased by \$81 thousand or 7.5 percent and advertising cost decreased by \$2 thousand or 1.8 percent. Occupancy expenses increased by \$73 thousand or 29.7 percent reflecting the cost associated with renovation expenses and branch expansion. Equipment expenses increased by \$5 thousand or 6.3 percent. Professional costs increased by \$21 thousand or 39.6 percent. Data processing expense increased by \$10 thousand or 3.8 percent and other expenses increased by \$50 thousand or 12.6 percent.

As of June 30, 2006, total deposits were \$228.5 million, reflecting a decrease of \$1.3 million when compared to deposits as of December 31, 2005. Non-interest bearing deposits decreased by \$3.7 million or 7.3 percent. Interest bearing transaction accounts decreased by \$2.0 million or 7.7 percent. Savings accounts which included money market accounts decreased by \$5.6 million or 6.4 percent and time deposits increased by \$9.9 million or 14.9 percent. There was a \$3.0 million short term borrowing from the Federal Home Loan Bank as of June 30, 2006.

Total loans, including loans held for sale, increased by \$15.2 million or 8.1 percent. The increase was mainly the result of growth in the commercial loans and commercial real estate categories. Stockholders' equity increased by \$276 thousand, resulting from earnings of \$895 thousand offset by an increase of \$64 thousand of unrealized losses on available-for-sale securities, cash dividend paid in the amount of \$343 thousand, and the retirement of 10,000 shares or \$250 thousand of common stock. Primary and risk based capital were 7.4 percent and 11.1 percent, respectively.

As of June 30, 2006, based on borrowing arrangements with the Federal Home Loan Bank there was unused credit availability of \$22.8 million, the Company has sufficient liquidity to withstand any unusual demand for funds without the liquidation of its securities.

The Harbor Bank CDC ("CDC") and The Harbor Bank of Baltimore LLC ("LLC") were established in 2003. The Harbor Bank CDC is a non-profit company established for the purpose of bringing financial assistance to underserved areas in the City of Baltimore. The Corporation has no investments in this company. The Harbor Bank of Maryland, one of the Company's subsidiaries has a \$1.3 million loan to the CDC. As of June 30, 2006, the CDC had \$9 thousand in operating income and a \$25 thousand loss since inception. These numbers exclude any tax benefit that may be available.

The Harbor Bank of Baltimore LLC was established for the purpose of taking advantage of the New Markets Tax Credit program offered by the U.S. Treasury Department for the development of certain targeted markets in the country. In the case of the LLC, the targeted market is the City of Baltimore. The LLC received a \$50 million New Market Tax Credit award in September 2004. The LLC funded a \$25.0 million loan through a partnership with General Motors Corporation. The Corporation has no investment in this company.

The financial data from these companies is not included in the Company's financial statements.

The Corporation's stock is traded from time to time over the counter, but is not listed on Nasdaq or any exchange or quoted on the OTC Bulletin Board. The last trade of which the Corporation is aware was on June 14, 2006 at a price of \$28.00. During the first six months of 2006, other trades are believed to have been made at prices ranging from \$25.00 to \$29.73.

ITEM 3 Controls and Procedures

The Company's management, under the supervision and with the participation of its Chief Executive Officer and the Chief Financial Officer, evaluated as of the last day of the period covered by this report, the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rule 13a-15 under the Securities Exchange Act of 1934. Based on that evaluation, the Chief Executive Officer and Treasurer concluded that the Company's disclosure controls and procedures were effective. There were no significant changes in the Company's internal controls over financial reporting (as defined in Rule 13a-15 under the Securities Act of 1934) for the period ending June 30, 2006 that have materially affected, or are reasonably likely

to materially affect, the Company's internal control over financial reporting.
