Our business involves a high degree of risk. Potential investors should carefully consider the risks and uncertainties described below and the other information in this prospectus before deciding whether to invest in shares of our common stock. If any of the following risks actually occur, our business, financial condition, and results of operations could be materially and adversely affected. This could cause the trading price of our common stock to decline, with the loss of part or all of an investment in our common stock.

RISKS RELATED TO OUR BUSINESS

WE HAVE INCURRED LOSSES SINCE OUR INCEPTION AND THERE IS NO ASSURANCE THAT PROFITABLE OPERATIONS, IF ACHIEVED, CAN BE SUSTAINED ON A CONTINUING BASIS. For the years ended December 31, 2003 and 2002, and for the period from April 2001 (date of inception) until December 31, 2001, we incurred net losses of \$442,412, \$487,716 and \$6,638, respectively. For the nine months ended September 30, 2004, we incurred a net loss of \$890,204. At September 30, 2004, we had a working capital surplus of \$439,680 and an accumulated deficit of \$1,840,556. These historical financial losses and financial condition could make it more difficult for us to obtain financing in the future or could reduce the value the market places on our common stock.

WE DERIVE A SIGNIFICANT PORTION OF OUR REVENUES FROM THREE CUSTOMERS. THE LOSS OF A MAJOR CUSTOMER WOULD MATERIALLY AND ADVERSELY AFFECT OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS. As of September 30, 2004, we derived approximately 78% of our revenues from three major customers, The Gaming Channel Limited (34%), Winner.com (UK) Ltd. (31%) and RCN Telecom Services of Illinois LLC (13%). Our Chief Executive Officer, Shimon Citron, owns 60% of Winner.com (UK) Ltd. - of which half of the shares are being held as a trustee to other shareholders. We expect to continue to generate a significant percentage of our future revenues from The Gaming Channel Limited. Our revenues from Winner.com (UK) Ltd. in the nine months ended September 30, 2004 were from a one-time transaction that took place during 2002. Our management believes that the loss of Winner.com (UK) Ltd. as a customer will not adversely affect our financial condition and our future operations. Our revenues from RCN Telecom Services during this period were mostly derived from a one-time fee for supplying a software application. Concentration of a large percentage of total revenues with a limited number of customers poses significant risks to our business. Our financial condition and results of operations could be materially adversely affected by the termination of or failure to renew contracts with us and by a significant reduction in the number of subscribers to the services of The Gaming Channel Limited.

OUR REVENUE MODEL IS DEPENDENT UPON THE REVENUES OF OUR CUSTOMERS. IF OUR TECHNOLOGY AND GAMES ARE NOT WIDELY ACCEPTED BY OUR CUSTOMERS' SUBSCRIBERS, OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS WILL BE MATERIALLY ADVERSELY AFFECTED. We typically enter into agreements with our customers under which they offer our applications to subscribers and we receive a percentage of our customers' revenues. The subscribers are charged a one-time, monthly or per-use subscription fee for the application. Our customers retain a percentage of the fee and remit the balance to us. If our technology and games are not widely accepted by our customers' subscribers, our financial condition and results of operations will be materially adversely affected.

RAPID TECHNOLOGICAL CHANGES MAY ADVERSELY AFFECT OUR FUTURE REVENUES AND PROFITABILITY. The software industry is subject to rapid technological change. We need to anticipate the emergence of new hardware and software technologies, assess their market acceptance, and make substantial development and related investments. New technologies in software programming or operations could render our technology obsolete or unattractive to our customers, thereby limiting our ability to recover development costs and potentially adversely affecting our future revenues and profitability.

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

INFRINGEMENT ON INTELLECTUAL PROPERTY RIGHTS COULD LEAD TO COSTLY LITIGATION AND/OR THE NEED TO ENTER INTO LICENSE AGREEMENTS, WHICH MAY RESULT IN INCREASED OPERATING EXPENSES. Existing or future infringement claims by or against us may result in costly litigation or require us to license the proprietary rights of third parties, which could have a negative impact on our results of operations, liquidity and profitability. While we have not been subject to infringement claims to date, we cannot guarantee that future infringement claims will not occur or that they will not negatively impact our ability to develop, publish or distribute our software. We believe that our proprietary rights do not infringe upon the proprietary rights of others. Further, while we have trademark and patent applications currently pending with the United States Patent and Trademark Office, our core technology is protected only by common law intellectual property rights. These rights may not be adequate to protect our proprietary rights in our technology. Any failure by us to adequately protect our technology from infringement could have a material adverse effect on our financial condition and results of operations.

2

IF WE ARE NOT ABLE TO MANAGE GROWTH OF OUR BUSINESS, OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS WILL BE NEGATIVELY AFFECTED. We believe that rapid growth and expansion could cause significant strains on our managerial, operational, financial and other resources. Any failure to manage the anticipated growth and expansion of our business could have a material adverse effect on our financial condition and results of operations.

IF WE ARE UNABLE TO HIRE AND RETAIN SKILLED PERSONNEL OUR BUSINESS AND FINANCIAL RESULTS COULD BE NEGATIVELY AFFECTED. Our success depends to a significant extent on our ability to identify, hire and retain skilled personnel. The software industry is characterized by a high level of employee mobility and aggressive recruiting among competitors for personnel with technical, marketing, sales, product development and management skills. We may not be able to attract and retain skilled personnel or may incur significant costs in order to do so. If we are unable to attract additional qualified employees or retain the services of key personnel, our business and financial results could be negatively impacted.

OUR OFFICERS, DIRECTORS AND FOUNDING SHAREHOLDERS CONTROL A SIGNIFICANT PORTION OF OUR OUTSTANDING COMMON STOCK. ACCORDINGLY, OUR OUTSIDE SHAREHOLDERS MAY NOT COLLECTIVELY OWN ENOUGH SHARES TO SIGNIFICANTLY INFLUENCE MATTERS THAT ARE VOTED UPON BY OUR SHAREHOLDERS, INCLUDING THE ELECTION OF DIRECTORS. Our officers, directors and founding shareholders own approximately 15.9% of our issued and outstanding stock. We do not have cumulative voting in the election of directors. Thus, purchasers of our common stock may not be able to affect the election of any directors to our Board of Directors.

THE GAMES INDUSTRY IS INTENSELY COMPETITIVE; WE HAVE MANY WELL-ESTABLISHED COMPETITORS WITH SUBSTANTIALLY GREATER FINANCIAL AND OTHER RESOURCES THAN US. THESE FACTORS MAY MAKE IT MORE DIFFICULT FOR US TO SUCCESSFULLY IMPLEMENT OUR BUSINESS PLAN AND MAY ADVERSELY AFFECT OUR RESULTS OF OPERATIONS. The games industry is highly competitive, fragmented and subject to rapid change. There are numerous other companies that provide games services, a number of which are as large or larger than us. Certain of these competitors operate in several of our existing or target markets, and others may choose to enter those markets in the future. As a result of these factors, we may in the future lose customers or have difficulty acquiring new customers which may adversely affect our results of operations.

RISKS RELATED TO OUR COMMON STOCK

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

THE LIMITED MARKET FOR OUR SHARES WILL MAKE OUR STOCK PRICE MORE VOLATILE; THEREFORE YOU MAY HAVE DIFFICULTY SELLING OUR COMMON STOCK. The market for our common stock is limited and we cannot assure you that a larger market will ever be developed or maintained. Currently, our common stock is traded on the Over-The-Counter Bulletin Board. Market fluctuations and volatility, as well as general economic, market and political conditions, could reduce our market price. As a result, this may make it difficult or impossible for you to sell our common stock.

FUTURE SALES OF OUR SHARES OF COMMON STOCK MAY IMPAIR OUR ABILITY TO RAISE ADDITIONAL CAPITAL THROUGH THE SALE OF EQUITY SECURITIES WHEN NEEDED TO FINANCE OUR CONTINUING OPERATIONS. We presently have 29,812,711 shares of common stock and no shares of preferred stock issued and outstanding (assuming the exercise of all outstanding warrants and options). In addition to the 2,788,198 shares of common stock registered hereby, up to 16,553,530 shares of common stock have been registered for resale under an effective registration statement and 7,500,000 shares of common stock (after giving effect to a 10:1 stock split) were previously sold by us under a registration statement. All of such shares are freely tradeable and substantial amounts of these shares of common stock may be sold in the public market. Sales of substantial numbers of shares, as well as the possibility that substantial shares could be sold, could negatively affect the market price of our common stock and could impair our ability to raise additional capital through the sale of equity securities.

3

OUR COMMON STOCK MAY BE SUBJECT TO THE "PENNY STOCK" RULES OF THE SECURITIES AND EXCHANGE COMMISSION AND THE TRADING MARKET IN OUR SECURITIES IS LIMITED, WHICH MAKES TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK. The Securities and Exchange Commission ("SEC") has adopted Rule 3a51-1 under the Securities and Exchange Act of 1934 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, Rule 15c-9 under the Securities and Exchange Act of 1934 requires:

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- o obtain financial information and investment experience objectives of the person; and
- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the SEC relating to the penny stock market, which, in highlight form:

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written statement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

FORWARD-LOOKING STATEMENTS

Information in this prospectus contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended ("Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements can be identified by the use of words such as "believes," "estimates," "could," "possibly," "probably," "anticipates," "projects," "expects," "may," "will," or "should" or other variations or similar words. No assurances can be given that the future results anticipated by the forward-looking statements will be achieved. The following matters constitute cautionary statements identifying important factors with respect to those forward-looking statements, including certain risks and uncertainties that could cause actual results to vary materially from the future results anticipated by those forward-looking statements. Among the key factors that have a direct bearing on our results of operations are the effects of various governmental regulations, the fluctuation of our direct costs and the costs and effectiveness of our operating strategy, as well as the matters discussed under "Risk Factors."

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by the selling stockholders. We will not receive any proceeds from the sale of shares of common stock in this offering. We expect to use the proceeds received from the exercise of the warrants, if any, for general working capital purposes.

PLAN OF DISTRIBUTION

The selling stockholders and any of their respective pledgees, donees, assignees and other successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- o ordinary brokerage transactions and transactions in which the broker-dealer solicits the purchaser;
- o block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately-negotiated transactions;
- o broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- o through the writing of options on the shares;
- o a combination of any such methods of sale; and
- o any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 of the Securities Act, if available, rather than under this prospectus. The selling stockholders shall have the sole and absolute discretion not to accept any purchase offer or make any sale of shares if it deems the purchase price to be unsatisfactory at any particular time.

The selling stockholders or their respective pledgees, donees, transferees or other successors in interest, may also sell the shares directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal or both, which compensation as to a particular broker-dealer might be in excess of customary commissions. Market makers and block purchasers purchasing the shares will do so for their own account and at their own risk. It is possible that a selling stockholder will attempt to sell shares of common stock in block transactions to market makers or other

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

purchasers at a price per share which may be below the then existing market price. We cannot assure that all or any of the shares offered in this prospectus will be issued to, or sold by, the selling stockholders. The selling stockholders and any brokers, dealers or agents, upon effecting the sale of any of the shares offered in this prospectus, may be deemed to be "underwriters" as that term is defined under the Securities Act, or the rules and regulations thereunder. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

7

We are required to pay all fees and expenses incident to the registration of the shares, including fees and disbursements of counsel to the selling stockholders, but excluding brokerage commissions or underwriter discounts.

The selling stockholders, alternatively, may sell all or any part of the shares offered in this prospectus through an underwriter. To our knowledge, the selling stockholders have not entered into any agreement with a prospective underwriter and there is no assurance that any such agreement will be entered into.

The selling stockholders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling stockholder defaults on a margin loan, the broker may, from time to time, offer and sell the pledged shares.

The selling stockholders and any other persons participating in the sale or distribution of the shares will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations under such Act, including, without limitation, Regulation M. These provisions may restrict certain activities of, and limit the timing of purchases and sales of any of the shares by, the selling stockholders or any other such person. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. All of these limitations may affect the marketability of the shares.

If a selling stockholder notifies us that it has a material arrangement with a broker-dealer for the resale of the common stock, then we may be required to amend the registration statement of which this prospectus is a part, and file a prospectus supplement to describe the agreements between the selling stockholder and the broker-dealer.

We and the selling stockholders have each agreed to indemnify the other against certain liabilities, including certain liabilities arising under the Securities Act, or, in the alternative, that each party will be entitled to contribution in connection with those liabilities. We will bear all fees and expenses incurred in connection with the registration of the securities, except that selling stockholders will pay all broker's commissions and, in connection with any underwritten offering, underwriting discounts and commissions.

OUR BUSINESS

We develop interactive games technology that provides an end-to-end solution for multiple platforms that allows service providers to deliver games to their subscribers. Our customers include cable and satellite television service providers, wireless operators, Internet services providers and hospitality service providers. Among our customers are AVAGO TV (Sky UK), NTL (UK), Telewest (UK), Cablevision (US), Lodgenet (US), RCN (US), The Poker Channel (UK) and Eurobet (UK).

Our technology allows service providers to generate additional revenue from their existing infrastructure and subscriber base by launching additional services quickly. Our technology allows a subscriber to switch from one platform to another using a single account with the same virtual account balance and user information. To our knowledge, our technology is unique in its ability to utilize a single account to play a game on different platforms, such as interactive TV, wireless or Internet. With this capability, our technology increases the variety of services that our customers can offer, which can help reduce subscriber turnover.

10

Our customers typically enter into revenue-share agreements with us under which they use our technology to offer games to their subscribers and pay us a percentage of the revenues or income generated from those games.

We devote substantially all of our efforts toward conducting research, development and marketing of our software. In the course of these activities, we have sustained operating losses and expect such losses to continue in the foreseeable future. To date, we have not generated sufficient revenues to achieve profitable operations or positive cash flow from operations. On September 30, 2004, we had a working capital surplus of \$439,680 and an accumulated deficit of \$1,840,556. There is no assurance that profitable operations, if ever achieved, will be sustained on a continuing basis. During the nine months ended September 30, 2004, we derived 78% of our revenues from three major customers.

RESULTS OF OPERATIONS - THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2004

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

COMPARED TO THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2003

REVENUES AND COST OF REVENUES

Total revenues for the nine months ended September 30, 2004 increased by 30% to \$628,883 from \$482,940 for the nine months ended September 30, 2003. Total revenues for the three months ended September 30, 2004 increased by 145% to \$140,364 from \$57,277 for the three months ended September 30, 2003. Revenues from sales of software applications for the nine months ended September 30, 2004 increased by 321% to \$432,883 from \$102,940 for the nine months ended September 30, 2003. Revenues from sales of software applications for the three months ended September 30, 2004 increased by 145% to \$140,364 from \$57,277 for the three months ended September 30, 2003. Revenues from one-time sales of software applications to related parties decreased by 48% to \$196,000 in the nine months ended September 30, 2004 compared to \$380,000 in the same period in 2003. For the three months ended September 30, 2004 and 2003, revenues from one-time sales of software applications to related parties were \$0. The increase in revenues from software applications was due to new contracts, mainly in the United Kingdom. Also, in 2004, we had revenues from United States customers, such as Cablevision, Lodgenet, and RCN, which we did not have in 2003. The revenues from one time sale of software applications to related parties in 2004 are from the delivery of software to related parties from order that were placed during 2002. Going forward, we expect that revenues from sale of software applications to related parties will be nominal.

Cost of revenues for the nine months ended September 30, 2004 decreased by 37% to \$113,296 from \$180,637 for the nine months ended September 30, 2003. Cost of revenues for the three months ended September 30, 2004 increased by 64% to \$13,372 from \$8,154 for the three months ended September 30, 2003. Gross profit increased by 71% for the nine months ended September 30, 2004 to \$515,587 from \$302,303 for the same period in 2003. For the three months ended September 30, 2004, gross profit increased by 159% to \$126,992 when compared to gross profit of \$49,123 for the three months ended September 30, 2003. The decrease in cost of revenues for the nine months ended September 30, 2004 is mostly attributable to a one-time software application agreement, which included customization of the software, which required allocation of employees of our R&D department. As a result, some R&D expenses were allocated to cost of sales. The increased cost of revenues for the three months ended September 30, 2004 is a result of hosting expenses allocation.

RESEARCH AND DEVELOPMENT

Research and development expenses for the nine months ended September 30, 2004 increased by 137% to \$812,436 from \$342,154 for the nine months ended September 30, 2003. Research and development expenses for the three months ended September 30, 2004 increased 120% to \$358,915 from \$162,821 for the three months ended September 30, 2003. The increase in research and development expenses is primarily attributable to an increase in employee recruiting during 2003 and 2004, an increase in salary expenses and expenses allocated to sale of software due to the fact that in the 2nd quarter of 2004, there were no sales of software applications, no expenses allocated to the cost of sales, and the research and development costs increased.

SALES AND MARKETING

Sales and marketing expenses for the nine months ended September 30, 2004 increased by 261% to \$293,563 from \$81,221 for the nine months ended September 30, 2003. Sales and marketing expenses for the three months ended September 30,

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

2004 increased by 221% to \$142,012 from \$44,263 for the three months ended September 30, 2003. The increase in sales and marketing expenses during 2004 are a result of increased marketing efforts, mainly in the United Kingdom and the United States, using our Israeli marketing team. Sales and marketing expenses consist mainly of labor costs, trade shows and travel expenses to the United Kingdom and to the United States.

GENERAL AND ADMINISTRATIVE

General and administrative expenses for the nine months ended September 30, 2004 increased by 238% to \$277,726 from \$82,074 for the nine months ended September 30, 2003. General and administrative expenses for the three months ended September 30, 2004 increased by 727% to \$139,441 from \$16,867 for the three months ended September 30, 2003. The increase in general and administrative expenses is primarily attributable to the recruitment of employees, additional legal and audit expenses associated with being a reporting company with the U.S. SEC and investor relations expenses.

NET LOSS AND NET LOSS PER SHARE

For the three and nine months ended September 30, 2004, we incurred a net loss of \$525,213 (\$0.026 per share) and \$890,204 (\$0.049 per share), respectively. This compares with a net loss for the three and nine months ended September 30, 2003 of \$202,183 (\$0.019 per share) and \$240,936 (\$0.023 per share), respectively. The increased net loss is primarily attributable to increased operating expenses and due to the fact that the weighted average number of shares of common stock outstanding at September 30, 2003 were only 10,426,190 shares, versus 18,262,350 at September 30, 2004.

RESULTS OF OPERATIONS - FISCAL YEAR ENDED DECEMBER 31, 2003 COMPARED TO THE FISCAL YEAR ENDED DECEMBER 31, 2002

REVENUES AND COST OF REVENUES

Total revenues for the year ended December 31, 2003 increased by 193% to \$553,707 from \$189,008 for the year ended December 31, 2002. Revenues from sales of software applications to unrelated third parties for the year ended December 31, 2003 increased by 186% to \$173,707 from \$60,668 for the year ended December 31, 2002. Revenues from sales of software applications to related parties for the year ended December 31, 2003 increased by 196% to \$380,000 compared to \$128,340 for the year ended December 31, 2002. The increase in revenues from sales of software applications was due to new contracts, mainly in the United Kingdom. The revenues from sale of software applications to related parties in 2003 are from a one-time sale of credit card clearing software to a related party. Going forward, we expect that revenues from sale of software applications to related parties will be nominal.

Cost of revenues for the year ended December 31, 2003 increased by 100% to \$194,904 from \$97,192 for the year ended December 31, 2002. Gross profit increased by 291% for the year ended December 31, 2003 to \$358,803 from \$91,816 for the same period in 2002. The increase in cost of revenues is mostly attributable to the one time sale of software to a related party, which included customization of the software and required allocation of employees in our R&D department. As a result, some R&D expenses were allocated to cost of sales.

RESEARCH AND DEVELOPMENT

Research and development expenses for the year ended December 31, 2003 increased by 1% to \$504,153 from \$497,523 for the year ended December 31, 2002. The increase in research and development expenses was minor and was a result of the one time sale of software to a related party, which included customization of software and required allocation of employees in our R&D department.

SALES AND MARKETING

Selling and marketing expenses for the year ended December 31, 2003 increased by 142% to \$144,919 from \$59,811 for the year ended December 31, 2002. The increase in sales and marketing expenses is mostly attributable to increases in labor costs and travel expenses to the United Kingdom and the United States.

GENERAL AND ADMINISTRATIVE

General and administrative expenses for the year ended December 31, 2003 increased by 399% to \$108,471 from \$21,735 for the year ended December 31, 2002. The increase in general and administrative expenses is primarily attributable to the recruitment of employees and additional legal and audit expenses.

NET LOSS AND NET LOSS PER SHARE

For the years ended December 31, 2003 and 2002, we incurred net losses of \$442,412 (\$0.042 per share) and \$487,716 (\$0.047 per share), respectively. The increased net loss is primarily attributable to increased operating expenses.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2004, our total current assets were \$840,357 and our total current liabilities were \$400,677. At September 30, 2004, we had a working capital surplus of \$439,680 and an accumulated deficit of \$1,840,556. We finance our operations with a combination of stock issuances and revenues from product sales.

In April 2004, we completed a \$1.2 million private placement, consisting of units offered at a price of \$0.80 per unit, with each unit comprised of one share of common stock and two common stock purchase warrants. One warrant is exercisable for 24 months at a price of \$1.85 per share and one warrant is exercisable for 36 months at a price of \$2.50 per share. The private placement agreement was signed with a group of institutional and other accredited investors.

On August 17, 2004, we completed a \$1.0 million private placement of common stock and warrants. The private placement consisted of units offered at a price of \$1.00 per unit, with each unit comprised of one share of common stock and two common stock purchase warrants. One warrant is exercisable for 24 months at a price of \$2.00 per share and one warrant is exercisable for 36 months at a price of \$2.50 per share. The private placement agreement was signed with a group of institutional and other accredited investors.

On January 27, 2005, we completed a private offering to accredited investors under Section 4(2) of the Securities Act, pursuant to which we sold an aggregate of 2,659,998 shares of common stock for aggregate gross proceeds of \$4.0 million. We agreed to prepare and file with the SEC a registration statement covering the resale of the common stock on or before February 17, 2005. If such registration statement is not declared effective on or before May 3, 2005, then we must pay to investors liquidated damages equal to 1.5% of the aggregate purchase price paid by them.

Our management believes that we have sufficient funds to operate for the next 12 months, with additional funds anticipated from the performance of agreements that we have entered with our current customers, and from contracts that we expect to execute in the near future. Nonetheless, we intend to raise

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

additional funds in order to broaden our financial strength and liquidity.

OUTLOOK

We believe that our future success will depend upon our ability to enhance our existing products and solutions and introduce new commercially viable products and solutions addressing the demands of the evolving markets. As part of the product development process, we work closely with current and potential customers, distribution channels and leaders in our industry segments to identify market needs and define appropriate product specifications. Our current anticipated levels of revenue and cash flow are subject to many uncertainties and cannot be assured. In order to have sufficient cash to meet our anticipated requirements for the next twelve months, we may be dependent upon our ability to obtain additional financing. The inability to generate sufficient cash from operations or to obtain the required additional funds could require us to curtail operations.

OFF BALANCE SHEET ARRANGEMENTS

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

We were incorporated under the laws of the State of Nevada on April 23, 2002, as Old Goat Enterprises, Inc. On February 1, 2004, we acquired Zone4Play, Inc., a Delaware corporation, and subsequently changed our name to Zone 4 Play, Inc., a Nevada corporation. The acquisition was accounted for as a reverse acquisition, whereby Old Goat was treated as the acquiree and Zone4Play, Inc. (Delaware) as the acquirer. The historical financial statements of Zone4Play, Inc. (Delaware) became our historical financial statements. We conduct our operations through our wholly owned subsidiaries, Zone4Play (Israel) Ltd., an Israeli corporation incorporated in July 2001, Zone4Play (UK) Limited, a United Kingdom corporation incorporated in November 2002 and Zone4Play, Inc., a

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

Delaware corporation. We also own a %50.1 interest in MixTv, Ltd.

OUR PRODUCTS AND TECHNOLOGY

Our interactive games technology provides an end-to-end solution for multiple platforms and features a single user account that enables switching across iTV, wireless and Internet platforms. Our solution includes game engine server applications, client applications and our e-management back-office solution for play-for-real gaming. We have developed a modular application architecture that allows us to quickly and easily develop applications for each platform. We also offer Zone4Play-branded games and games we license from third-party developers.

We have integrated our products to work with most common middleware platforms. Our iTV products are capable of integrating with the following middleware platforms:

- o Liberate, NDS Core, Sony, Microsoft and CCTV (HTML, JavaScript and Flash);
- o Open TV and Power TV (C/C++); and
- o NDS Core and Liberate (Java Virtual Machine).

Our modular application architecture allows:

1. Easy modification of applications for specific uses;
2. Simple and fast creation of new applications; and
3. Addition of new functionalities.

14

A typical application is split into code and data sections.

The code section includes:

1. The application's business logics;
2. Dial-up module;
3. HTTP module;
4. Audio / video module; and
5. Gadgets and controls.

The data section includes:

1. Screen scenarios;
2. Texts;
3. Images for on-screen display;
4. MPEG still images; and
5. Sounds.

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

Any element of a data or code section can be loaded with the main code module or requested for dynamic loading on the fly. Depending on our customers' requirements, our application can either complete a full download all at once or in download increments with a quick initial module so that a subscriber can interact with the application immediately while the rest of the resources continue to be downloaded. We have two groups of on-screen controls: "PC style" and "TV style." PC style controls resemble standard PC user interface elements, such as edit boxes, drop-down menus, checkboxes, and scrollers. The TV style controls are more intuitive and do not require that subscribers be familiar with computers, which makes our applications more widely accessible to subscribers.

MIX-TV

The MIXTV system includes software components to enable the seamless integration of various communication standards, including wireless networks, iTV, message boards and others. The MIXTV system uses wireless text messaging to enable interactive games and communities on regular TV broadcasting to subscribers without a return-path. MIXTV enables a cross-media interaction between the mobile phone and broadcast TV through text messaging. This solution overcomes the issue of no return path which previously prevented interactive applications in broadcast television. Our proprietary technologies allow for two-way communication between the media. The end-user is able to participate in voting, games and chat by sending text messages from their handsets to their broadcast TV provider. MIXTV uses standard mobile SMS to facilitate playing, chatting and voting by TV viewers. MIXTV is a fast, easy way for TV broadcasters to transform existing content into revenue-generating interactive channels without the capital expenditures needed to upgrade entire networks.

THE INTERACTIVE ENTERTAINMENT MARKET

The interactive entertainment market has emerged as a result of the rapid growth and significant technological advancement in the communications industry. Service providers are launching new data services, including downloadable games, ring tones and images, to drive revenues and retain subscribers. They invest heavily in technology to take advantage of advanced networks and next-generation devices, including 3G mobile phones and new set-top cable and satellite boxes.

Our primary markets include:

- o iTV - (interactive cable and satellite television service providers) Our iTV packages have been deployed by cable and satellite TV service providers all around the world, including Cablevision and RCN in the US, and Telewest and NTL in the UK. Mix-TV enables iTV features in broadcast television.
- o Wireless service providers - We provide online games and support SMS, WAP, J2ME, PDA and 3G technologies. We offer a single user account feature which allows a user to utilize the wireless platform to play the same games as on other platforms, including iTV and Internet, under a single account with the same virtual account balance and user information.

- o Internet service providers - our products are being deployed by ISP's and are available for IPTV (Internet Protocol TV based on technologies such as xDSL and FTTx) to offer our interactive games platform solutions.
- o Hospitality service providers (Games on demand). Our products

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

are currently deployed by LodgeNet (US), a hotel in-room service providers' platform.

Within the interactive entertainment market, we serve two market segments:

- o Play for Fun - Includes service providers offering interactive games that do not involve the direct transaction of money between the service provider and the subscriber. This is a rapidly growing market which holds great potential and opportunities for innovative gaming applications providers. Our solutions for the play for fun market include Zone4Play branded skill games, multi player games, trivia games, casino games and sports games. We can also develop tailor-made games as required by our customers. Additionally, we provide content we license from third-party developers such as Slingo and Game Universe.
- o Play for Real - Includes service providers that operate interactive gaming and gambling applications which involve monetary transactions between the service provider and the subscriber. Industry trends indicate that this market will continue to grow and offer subscribers a broad range of access possibilities to place real-money bets. This market is heavily regulated. Our current operations in this market are conducted exclusively in the United Kingdom.

OUR COMPETITIVE STRENGTHS

We believe that our competitive strengths include:

Proprietary, Award Winning, Technology, and Commitment to Research and Development. We invest in research and development to create applications and technologies that incorporate the advanced capabilities of next-generation networks. We have developed proprietary technologies that enable us to distribute our solutions across different platforms. In 2002, our innovative technology won 1st place at the "Neddies," an international competition for iTV applications developers organized by NDS Ltd. We offer our cross-platform technologies through revenue-sharing arrangements with our customers. The cross-platform nature of our technologies allows us to remain neutral to the network choices made by our customers, and enables our customers to reach the broadest number of subscribers possible.

Customer Relationships across Multiple Platforms. Service providers are our primary customers and the distributors of our applications. Over the past two years, we have established agreements to distribute our applications through major wireless operators, Internet service providers, and cable and satellite service providers. We believe we have been able to build our distribution channels as a result of our focus on customer service, the quality of our applications and our ability to deploy those applications on a broad range of devices and networks. We believe that the time and difficulty involved in building a global distribution channel represents a significant barrier to entry for our potential competitors.

Diverse Portfolio of Original and Licensed Properties. We publish a diverse portfolio of interactive entertainment applications. Our applications span over multiple categories and are based on intellectual properties that we create and own, and well-established brands that we license from third parties. We believe our approach to develop branded content for our platform has broad customer appeal and reduces our reliance on any particular application. In addition to introducing new applications, we continuously update our existing applications to take advantage of enhanced functionality of new media platforms.

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

Recurring Revenue-Generating Business Model. Our business strategy emphasizes the collaborative nature of our approach to customers. We prefer to enter into revenue-share agreements with our customers, rather than license our technology. We believe this approach will continue to generate revenue long after the technology's initial release. The market data we collect from sales and usage of our applications also provides us with valuable insight into carrier and subscriber preferences and guides the development of future application.

OUR STRATEGY

Our goal is to become a leading global provider of interactive games technology to the iTV, wireless and Internet markets. We believe that developing a diversified portfolio of high quality, innovative applications is critical to our business. We intend to:

- o Develop Innovative Applications. We will continue to devote significant resources to the development of high-quality, innovative applications and work with the best content developers. As the interactive entertainment landscape continuously evolves, we expect to extend our cross-platform solutions to accommodate advancements in network and device technology.
- o Emphasize Zone4Play-Branded Technology. We plan to emphasize the unique features of Zone4Play-branded applications, which typically generate higher margins for us. We intend to broaden our applications to highlight the community aspects of our content, thereby offering our customers the opportunity to increase subscriber satisfaction, leading to reduction in subscriber turnover.
- o License Third Party Brands. We will continue to license well-known, third party brands and collaborate with major media companies and other brand holders to introduce third party branded applications. We believe that familiar titles facilitate the adoption of our applications by our customers and their subscribers, and create strong marketing opportunities.

COMPETITION

ITV MARKET

The interactive entertainment applications market is highly competitive and characterized by frequent product introductions, new technologies, and evolving platforms in iTV, wireless and Internet. As demand for applications continues to increase, we expect new competitors to enter the market and existing competitors to allocate more resources to develop and market their applications. As a result, we expect competition in the interactive entertainment market to intensify.

The current and potential competition in the interactive entertainment applications market includes major media companies, traditional video game publishing companies, service providers in the iTV, wireless and Internet markets, iTV, wireless and Internet software applications providers, and other pure-play interactive entertainment companies. Currently, we consider our primary competitors in the iTV market to be Orbis UK/Visionik, , and Betting Corp/Connect TV.

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

ORBIS UK/VISIONIK - NDS owned companies, specializing together in iTV betting applications. Orbis develops a management server gaming engines and Visionik develops front-end gaming graphics and presentation layers to the end-user. Some of Orbis's iTV customers are Blue Square, Ladbrokes and Littlewoods, all in the United Kingdom market).

BETTING CORP/CONNECT TV - An OpenTV owned company, this is an integrated entity that jointly specializes in iTV betting applications. Betting Corp develops the server and gaming engines and Connect TV develops the front-end gaming applications to the end-user.

WIRELESS MARKET

The wireless entertainment applications market is highly competitive and characterized by frequent product introductions, evolving wireless platforms and new technologies. As demand for applications continues to increase, we expect new competitors to enter the market and existing competitors to allocate more resources to develop and market applications. As a result, we expect competition in the wireless entertainment market to intensify.

The current and potential competition in the wireless entertainment applications market includes major media companies, traditional video game publishing companies, wireless carriers, wireless software providers and other pure-play wireless entertainment companies. Larger, more established companies are increasingly focused on developing and distributing wireless applications that directly compete with us.

We also compete with wireless content aggregators, who combine applications from multiple developers (and sometimes publishers) and offer them to carriers or through other sales channels. We generally differentiate ourselves from aggregators in several key respects. Unlike us, aggregators do not typically fund development, provide design input or provide quality assurance for their applications. Also, since aggregators usually do not own an application's copyright, they often retain less than a majority of the revenues generated from application sales. We consider our primary competitor in the wireless market to be Chartwell Technologies.

21

To our knowledge, none of our competitors offer a cross-platform solution that can be used for iTV, wireless and internet communications. Each of our competitors focuses exclusively on its target network environment. Based on the versatility of our technology, we believe that we have a competitive edge over our competitors.

CHARTWELL TECHNOLOGIES - (CWH - Toronto Stock Exchange) A known brand for Web development of internet gambling sites. Chartwell is also approaching the mobile market with its customized applications to mobile devices.

INTELLECTUAL PROPERTY

On April 2, 2003, we filed an application with the United States Patent and Trademark Office for a trademark of the name ZONE4PLAY. This application is currently pending registration. On September 14, 2004, we filed an application with the United State Patent and Trademark Office for a patent on a multiplayer Blackjack betting game.

GOVERNMENT REGULATION

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

We currently market and sell our interactive games technology for use in gaming activities in the United Kingdom. Gaming activities are strictly regulated in the United States. Gaming regulations are based on policies that are concerned with, among other things: (i) the prevention of unsavory or unsuitable persons from having a direct or indirect involvement with gaming; (ii) the establishment and maintenance of responsible accounting practices and procedures; (iii) the maintenance of effective controls over the financial practices of licensees, including the establishment of minimum procedures for internal fiscal affairs and the safeguarding of assets and revenues, providing reliable record keeping and requiring the filing of periodic reports with the governing jurisdictions; (iv) the prevention of cheating and fraudulent practices; and (v) the provision of a source of government revenue through taxation and licensing fees.

The United Kingdom recently released a report that will greatly enhance its gambling business, including Internet gaming. Sports betting is currently regulated by the government, and to be more attractive to operators, the government is eliminating a nine percent tax on wagers, payable by bettors, with a 15 percent tax on gross profits, to be paid for by the bookmakers, both Internet and telephonic. The reforms will require primary legislation, and we expect the United Kingdom government to bring a Bill before Parliament in the near future.

ZONE4PLAY, INC. AND ITS SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. DOLLARS

NOTE 1:- GENERAL

- a. Zone4Play Inc. ("the Company") was incorporated under the laws of the State of Nevada on April 23, 2002 as Old Goat Enterprises, Inc. On February 1, 2004, the company acquired Zone4Play, Inc. ("Zone4Play (Delaware)"), which was incorporated under the laws of the State of Delaware on April 2, 2001, and subsequently changed the Company name to Zone4Play, Inc., a Nevada corporation. The Company develops and markets interactive games applications for Internet, portable devices and interactive TV platforms.

The Company conducts its operations and business with and through its wholly-owned subsidiaries, Zone4Play Limited, an Israeli corporation incorporated in July 2001, which is engaged in research and development and marketing of the applications, Zone4Play (UK) Limited, a United Kingdom corporation, incorporated in November 2002, which is engaged in marketing of the applications.

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

The Company's shares are currently traded on the OTC Bulletin Board under the trading symbol "ZFPI.OB."

- b. The Company and its subsidiaries are devoting substantially all of its efforts toward conducting research, development and marketing of its software. The Company's and its subsidiaries' activities also include raising capital and recruiting personnel. In the course of such activities, the Company and its subsidiaries have sustained operating losses and expect such losses to continue in the foreseeable future. The Company and its subsidiaries have not generated sufficient revenues and have not achieved profitable operations or positive cash flow from operations. The Company's accumulated deficit aggregated to \$ 936,766 as of December 31, 2003. There is no assurance that profitable operations, if ever achieved, could be sustained on a continuing basis.

The Company plans to continue to finance its operations with a combination of stock issuance and private placements and revenues from product sales.

- c. Acquisition of Zone4Play (Delaware):

According to the agreement between the Company and Zone4Play (Delaware), the Company issued 10,426,190 Common stock to the former holders of equity interest in Zone4Play (Delaware).

The acquisition has been accounted for as a reverse acquisition, whereby the Company was treated as the acquiree and Zone4Play (Delaware) as the acquirer, primarily because Zone4Play (Delaware) shareholders owned a majority, approximately 58% of the Company's Common stock, upon completion of the acquisition. Immediately prior the consummation of the transaction Zone4play Inc. had no material assets and liabilities, hence the reverse acquisition is treated as a capital stock transaction in which Zone4Play (Delaware) is deemed to have issued the Common stock held by the Company shareholders for the net assets of the Company. The historical financial statements of the Company became the historical financial statements of Zone4Play (Delaware).

NOTE 1:- GENERAL (CONT.)

- d. Concentration of risk that may have a significant impact on the Company:

In the year ended December 31, 2003, the Company derived most of its revenues from two major customers (see Note 8).

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements are prepared in accordance with

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

generally accepted accounting principles in the United States ("U.S. GAAP").

a. Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Financial statements in U.S. dollars:

All of the revenues of the Company and its subsidiaries are generated in U.S. dollars ("dollar"). In addition, a substantial portion of the Company's and its subsidiaries costs are incurred in dollars. Company's management believes that the dollar is the primary currency of the economic environment in which the Company and its subsidiaries operate. Thus, the functional and reporting currency of the Company and its subsidiaries is the dollar.

Accordingly, monetary accounts maintained in currencies other than the dollar are remeasured into U.S. dollars in accordance with Statement of Financial Accounting Standard No. 52, "Foreign Currency Translation" ("SFAS No. 52"). All transactions gains and losses of the remeasurement of monetary balance sheet items are reflected in the consolidated statements of income as financial income or expenses as appropriate, and have not been significant to date for all years presented.

c. Principles of consolidation:

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Intercompany transactions and balances, have been eliminated upon consolidation.

d. Cash equivalents:

Cash equivalents are short-term highly liquid investments that are readily convertible to cash with original maturities of three months or less.

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES (CONT.)

e. Property and equipment, net:

Property and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method, over the estimated useful lives of the assets, at the following annual rates:

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

	%

Computers and peripheral equipment	20 - 33
Electronic devices	15

The Company's long-lived assets are reviewed for impairment in accordance with Statement of Financial Accounting Standard No. 144 "Accounting for the Impairment or Disposal of Long- Lived Assets" ("SFAS No. 144") whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. As of December 31, 2003, no impairment losses have been identified.

f. Severance pay:

The Company's liability for severance pay in respect to its Israeli employees is calculated pursuant to Israeli severance pay law based on the most recent salary of the employees multiplied by the number of years of employment as of the balance sheet date. Israeli employees are entitled to one month's salary for each year of employment, or a portion thereof. The subsidiary's liability for its employees is fully provided by monthly deposits with severance pay funds, insurance policies and by an accrual. The value of these policies is recorded as an asset in the Company's balance sheet.

The deposited funds may be withdrawn only upon the fulfillment of the obligation pursuant to Israeli severance pay law or labor agreements. The value of the deposited funds is based on the cash surrendered value of these policies, and includes immaterial profits.

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Severance expenses for the years ended December 31, 2003 and December 31, 2002 amounted to \$ 37,674 and \$ 66,844, respectively.

g. Revenue recognition:

The Company generates revenues mainly from the sale of software applications, from customization services and from revenue sharing agreements.

The Company generates revenues through its direct sales force.

The Company accounts for revenues from software applications agreements in accordance with Statement of Position 97-2, "Software

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

Revenue Recognition", as amended ("SOP 97-2"). The revenue from license fees is recognized when persuasive evidence of an agreement exists, delivery of the product has occurred, no significant obligations with regard to implementation remain, the fee is fixed or determinable and collectibility is probable.

Revenues from software licenses that require significant customization, integration and installation are recognized in accordance with Statement of Position 81-1, "Accounting for Performance of Construction - Type and Certain Production Type Contracts" ("SOP 81-1"), using contract accounting on a completed contract method. After delivery, if uncertainty exists about customer acceptance of the software, license revenue is not recognized until acceptance. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are first determined, in the amount of the estimated loss on the entire contract. As of December 31, 2003, no such estimated losses were identified.

Estimated gross profit or loss from long-term contracts may change due to changes in estimates resulting from differences between actual performance and original forecasts. Such changes in estimated gross profit are recorded in results of operations when they are reasonably determinable by management, on a cumulative catch-up basis.

The Company is entitled to royalties from revenue sharing arrangement upon sublicensing of the Company's products to end-users. Royalties out of revenue sharing arrangements are recognized when such royalties are reported to the Company.

h. Research and development costs:

Research and development costs are charged to the Statement of Operations as incurred. Statement of Financial Accounting Standard No. 86 "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed" ("SFAS No. 86"), requires capitalization of certain software development costs subsequent to the establishment of technological feasibility.

Based on the Company's product development process, technological feasibility is established upon completion of a working model. Costs incurred by the Company between completion of the working models and the point at which the products are ready for general release have been insignificant. Therefore, all research and development costs have been expensed.

NOTE 2:- SIGNIFICANT ACCOUNTING POLICIES (CONT.)

i Income taxes:

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

The Company and its subsidiaries account for income taxes in accordance with Statement of Financial Accounting Standards, "Accounting for Income Taxes" ("SFAS No. 109"). This statement prescribes the use of the liability method whereby deferred tax assets and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company and its subsidiaries provide a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value.

j. Concentrations of credit risk:

Financial instruments that potentially subject the Company and its subsidiaries to concentrations of credit risk consist principally of cash and cash equivalents and trade receivables. The majority of the Company's cash and cash equivalents are invested in dollar instruments with major banks in Israel, the United Kingdom and the United States. Management believes that the financial institutions that hold the Company's investments are financially sound and accordingly, minimal credit risk exists with respect to these investments. Such cash and cash equivalents in the United States may be in excess of insured limits and are not insured in other jurisdictions. However, management believes that such financial institutions are financially sound.

The Company's trade receivables are derived mainly from sales to two organizations located in Cyprus and in the United Kingdom, one of which (Cyprus) is related party. The Company performs ongoing credit evaluations of its customers and to date has not experienced any material losses.

The Company and its subsidiaries have no off-balance-sheet concentration credit risk such as foreign exchange contracts, option contracts or other foreign hedging arrangements.

k. Fair value of financial instruments:

The following methods and assumptions were used by the Company and its subsidiaries in estimating their fair value disclosures for financial instruments:

The carrying amounts of cash and cash equivalents, trade receivables, other accounts receivable, short-term bank credit, short-term loans, trade payables and other accounts payable approximate their fair value due to the short-term maturity of such instruments.

Long-term loans are estimated by discounting the future cash flows using current interest rates for loans or similar terms and maturities. The carrying amount of the long-term liabilities approximates their fair value.

NOTE 11:- INCOME TAXES

- a. Measurement of taxable income under the Income Tax Law (Inflationary Adjustments), 1985:

Results for tax purposes of the Israeli subsidiary are measured in terms of earnings in NIS, after certain adjustments for increases in the Israeli Consumer Price Index ("CPI"). As explained in Note 2b, the financial statements are measured in U.S. dollars. The difference between the annual change in the Israeli CPI and in the NIS/dollar exchange rate causes a further difference between taxable income and the income before taxes shown in the financial statements. In accordance with paragraph 9(f) of SFAS No. 109, the Israeli subsidiary has not provided deferred income taxes on the difference between the functional currency and the tax bases of assets and liabilities.

Israeli tax reform:

On January 1, 2003, a comprehensive tax reform took effect in Israel. Pursuant to the reform, resident companies are subject to Israeli tax on income accrued or derived in Israel or abroad. In addition, the concept of "controlled foreign corporation" was introduced, according to which an Israeli company may become subject to Israeli taxes on certain income of a non-Israeli subsidiary if the subsidiary's primary source of income is passive income (such as interest, dividends, royalties, rental income or capital gains). The tax reform also substantially changed the system of taxation of

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

capital gains.

b. Deferred income taxes:

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company and its subsidiaries' deferred tax assets are as follows:

	DECEMBER 31,	
	2003	2002
Operating loss carryforward	\$ 327,293	\$ 173,273
Reserves and allowances	38,350	25,860
Net deferred tax asset before valuation allowance	365,643	199,133
Valuation allowance	(365,643)	(199,133)
Net deferred tax asset	\$ --	\$ --

As of December 31, 2003, the Company and its subsidiaries have provided valuation allowances of \$ 365,643, in respect of deferred tax assets resulting from tax loss carryforwards and other temporary differences. Management currently believes that since the Company and its subsidiaries have a history of losses it is more likely than not that the deferred tax regarding the loss carryforwards and other temporary differences will not be realized in the foreseeable future. The change in valuation allowance was \$ 166,510.

c. Net operating losses carryforwards:

The Company has accumulated losses for tax purposes as of December 31, 2003, in the amount of \$ 760,497, which may be carried forward and offset against taxable income, and which expire during the years 2021-2023.

Utilization of U.S. net operating losses may be subject to substantial annual limitation due to the "change in ownership" provisions of the Internal Revenue Code of 1986 and similar state provisions. The annual limitation may result in the expiration of

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

net operating losses before utilization.

The Israeli subsidiary, a subsidiary of Zone4Play Inc. in Israel, has accumulated losses for tax purposes as of December 31, 2003, in the amount of approximately \$ 141,915, which may be carried forward and offset against taxable income in the future, for an indefinite period.

The United Kingdom subsidiary, a subsidiary of Zone4Play Inc. in United Kingdom, has accumulated losses for tax purposes as of December 31, 2003, in the amount of approximately \$ 28,656, which may be carried forward and offset against taxable income in the future, for an indefinite period.

- d. The main reconciling items between the statutory tax rate of the Company and the effective tax rate are the non-recognition of the benefits from accumulated net operating losses carry forward among the various subsidiaries worldwide due to the uncertainty of the realization of such tax benefits.

ITEM 28. UNDERTAKINGS

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which it offers or sells securities, a post-effective amendment to this Registration Statement to:

(i) include any prospectus required by Section 10(a)(3) of the Securities Act;

Edgar Filing: ZONE 4 PLAY INC - Form SB-2

(ii) reflect in the prospectus any facts or events which, individually, or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement; and

(iii) include any additional or changed material information on the plan of distribution.

II-4

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new Registration Statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(5) For determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this Registration Statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or Rule 497(h) under the Securities Act as part of this Registration Statement as of the time the Commission declared it effective.

(6) For determining any liability under the Securities Act, treat each such post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the Registration Statement, and that offering of the securities at that time as the initial bona fide offering of those securities.
