**THE BEAR STEARNS COMPANIES INC.
 INVESTMENT HIGHLIGHTS**

Reverse
 Convertible
 Note
 Securities

- The Note offering is linked to the common stock of Citigroup Inc. (the “Reference Asset”). Please note that the Notes have a one-year term to maturity.
- The Notes pay a fixed rate coupon of [14.30]% per annum, payable as twelve monthly cash payments, each equal to one-twelfth of the Coupon Rate times the principal amount of the Notes, in arrears. Interest will be computed using a 360-day year of twelve 30-day months, unadjusted.
- The Notes are a direct obligation of The Bear Stearns Companies Inc. (Rated A2 by Moody’s / A by S&P / A by DBRS Limited).
- Issue price for the Note offering: [100]% of principal amount (\$1,000).
- The Notes are not principal protected if: (i) the Closing Price of the Reference Asset ever equals or falls below the Contingent Protection Level on any day from the Pricing Date up to and including the Calculation Date; and (ii) the Final Level of the Reference Asset is less than the Initial Level of the Reference Asset.
- The Notes do not participate in the upside of the Reference Asset. Even if the Final Level of the Reference Asset exceeds the Initial Level of the Reference Asset, your return will not exceed the principal amount invested plus the coupon payments.

GENERAL TERMS FOR THE NOTE OFFERING

This free writing prospectus relates to the offering of Notes linked to the common stock of Citigroup Inc. We reserve the right to withdraw, cancel or modify the offering and to reject orders in whole or in part. Although the Note offering relates to the Reference Asset, you should not construe that fact as a recommendation as to the merits of acquiring an investment linked to such Reference Asset or as to the suitability of an investment in the Note. **Defined terms not defined herein shall have the same meaning as in the Prospectus Supplement discussed below.**

ISSUER:	The Bear Stearns Companies Inc.
ISSUER'S RATING:	A2 / A / A (Moody's / S&P/ DBRS Limited)
PRINCIPAL AMOUNT OF OFFERING:	[].
DENOMINATIONS:	\$1,000 per Note and \$1,000 multiples thereafter.
REFERENCE ASSET:	The common stock of Citigroup Inc., traded on the New York Stock Exchange, Inc. ("NYSE") under the symbol "C."
SELLING PERIOD ENDS:	February [], 2008.
PRICING DATE:	February [], 2008.
SETTLEMENT DATE:	February [], 2008.
CALCULATION DATE:	February [], 2009.
MATURITY DATE:	February [], 2009.
COUPON RATE (PER ANNUM):	[14.30]% per annum. Interest will be computed using a 360-day year of twelve 30-day months, unadjusted.
CONTINGENT PROTECTION PERCENTAGE:	[60.00]%.
CONTINGENT PROTECTION LEVEL:	[] (Contingent Protection Percentage x Initial Level).
AGENT'S DISCOUNT:	[]% , to be disclosed in the final pricing supplement.
CASH SETTLEMENT VALUE:	We will pay you 100% of the principal amount of your Notes, in cash, at maturity if either of the following is true: (i) the Closing Price of the Reference Asset never equals or falls below the Contingent Protection Level on any day from the Pricing Date up to and including the Calculation Date; <u>or</u> (ii) the Final Level of the Reference Asset is equal to or greater than the Initial Level of the Reference Asset.

However, if both of the following are true, the amount of principal you receive at maturity will be reduced by the percentage decrease in the Reference Asset: (i) the Closing Price of the Reference Asset ever equals or falls below the Contingent Protection Level on any day from the Pricing Date up to and including the Calculation Date; and (ii) the Final Level of the Reference Asset is less than the Initial Level of the Reference Asset. In that event, we, at our option, will either: (i) physically deliver to you an amount of the Reference Asset equal to the Exchange Ratio plus the Fractional Share Cash Amount (which means that you will receive shares with a market value that is less than the full principal amount of your Notes); or (ii) pay you a cash amount equal to the principal amount you invested reduced by the percentage decrease in the Reference Asset. It is our intent to physically deliver the Reference Asset when applicable, but we reserve the right to settle the Notes in cash.

INTEREST PAYMENT DATES: Commencing on March [], 2008, and payable on the [] day of each month up to and including the Maturity Date.

INITIAL LEVEL: The Closing Price of the Reference Asset on the Pricing Date.

FINAL LEVEL: The Closing Price of the Reference Asset on the Calculation Date.

EXCHANGE RATIO: [], i.e., \$1,000 divided by the Initial Level (rounded down to the nearest whole number, with fractional shares to be paid in cash).

FRACTIONAL SHARE CASH AMOUNT: An amount in cash per Note equal to the Final Level multiplied by the difference between (x) \$1,000 divided by the Initial Level (rounded to the nearest three decimal places), and (y) the Exchange Ratio.

CUSIP: 073902QB7.

LISTING: The Note will not be listed on any U.S. securities exchange or quotation system.

BEAR, STEARNS & CO. INC.

ADDITIONAL TERMS SPECIFIC TO THE NOTES

You should read this document together with the prospectus, dated August 16, 2006 (the “Prospectus”), as supplemented by the prospectus supplement, dated August 16, 2006 (the “Prospectus Supplement”). You should carefully consider, among other things, the matters set forth in “Risk Factors” and “Risk Factors - Additional Risks Relating to Notes with an Equity Security or Equity Index as the Reference Asset” in the Prospectus Supplement, as the Note involves risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the Notes. The Prospectus and Prospectus Supplement may be accessed on the SEC Web site at www.sec.gov as follows:

Prospectus Supplement, dated August 16, 2006:
<http://www.sec.gov/Archives/edgar/data/777001/000104746906011011/a2172742z424b5.htm>

Prospectus, dated August 16, 2006:
<http://www.sec.gov/Archives/edgar/data/777001/000104746906011007/a2172711zs-3asr.htm>

SELECTED RISK CONSIDERATIONS

The following highlights some, but not all, of the risk considerations relevant to investing in the Notes. **The following must be read in conjunction with the sections “Risk Factors” and “Risk Factors - Additional Risks Relating to Notes with an Equity Security or Equity Index as the Reference Asset,” beginning on pages S-7 and S-14, respectively, in the Prospectus Supplement.**

- **Suitability of Note for Investment** — A person should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the Prospectus Supplement. Neither the Issuer nor any dealer participating in the offering makes any recommendation as to the suitability of the Notes for investment.
- **Not Principal Protected** — The Notes are not principal protected. If both of the following are true, the amount of principal you receive at maturity will be reduced by the percentage decrease in the Reference Asset: (i) the Closing Price of the Reference Asset ever equals or falls below the Contingent Protection Level on any day from the Pricing Date up to and including the Calculation Date; and (ii) the Final Level of the Reference Asset is less than the Initial Level of the Reference Asset. In that event, we, at our option, will either: (i) physically deliver to you an amount of the Reference Asset equal to the Exchange Ratio plus the Fractional Share Cash Amount (which means that you will receive shares with a market value that is less than the full principal amount of your Notes); or (ii) pay you a cash amount equal to the principal amount you invested reduced by the percentage decrease in the Reference Asset.
- **Return Limited to Coupon** — Your return is limited to the principal amount you invested plus the coupon payments. You will not participate in any appreciation in the value of the Reference Asset.

- **No Secondary Market** — Because the Notes will not be listed on any securities exchange, a secondary trading market is not expected to develop, and, if such a market were to develop, it may not be liquid. Bear, Stearns & Co. Inc. intends under ordinary market conditions to indicate prices for the Notes on request. However, there can be no guarantee that bids for the outstanding Notes will be made in the future; nor can the prices of any such bids be predicted.
- **No Interest, Dividend or Other Payments** — You will not receive any interest or dividend payments or other distributions on the stock comprising the Reference Asset; nor will such payments be included in the calculation of the Cash Settlement Value you will receive at maturity.
- **Taxes** — We intend to treat the Note as a put option written by you in respect of the Reference Asset and a deposit with us of cash in an amount equal to the issue price of the Note to secure your potential obligation under the put option, and we intend to treat the deposit as a short-term obligation for U.S. federal income tax purposes. Pursuant to the terms of the Notes, you agree to treat the Notes in accordance with this characterization for all U.S. federal income tax purposes. However, because under certain circumstances the Notes may be outstanding for more than one year it is possible that the Notes may not be treated as short-term obligations, in which case the tax treatment of interest payments on the Notes is described in “U.S. Federal Income Tax Considerations — Tax Treatment of U.S. Holders — Tax Treatment of the Deposit on Notes with a Term of More Than a Year” in the prospectus supplement. Moreover, because there are no regulations, published rulings or judicial decisions addressing the characterization for U.S. federal income tax purposes of securities with terms that are substantially the same as those of the Notes, other characterizations and treatments are possible. Recently, the Internal Revenue Service (“IRS”) and the Treasury Department issued Notice 2008-2 under which they requested comments as to whether the purchaser of certain notes (which may include the Notes) should be required to accrue income during its term under a mark-to-market, accrual or other methodology, whether income and gain on such a note or contract should be ordinary or capital, and whether foreign holders should be subject to withholding tax on any deemed income accrual. Accordingly, it is possible that regulations or other guidance could provide that a U.S. Holder of a Note is required to accrue income in respect of the Note prior to the receipt of payments under the Note or its earlier sale. Moreover, it is possible that any such regulations or other guidance could treat all income and gain of a U.S. holder in respect of a note as ordinary income (including gain on a sale). Finally, it is possible that a Non-U.S. Holder of the Note could be subject to U.S. withholding tax in respect of the Note. It is unclear whether any regulations or other guidance would apply to the Notes (possibly on a retroactive basis). Prospective investors are urged to consult with their tax advisors regarding Notice 2008-2 and the possible effect to them of the issuance of regulations or other guidance that affects the federal income tax treatment of the Notes. See “Certain U.S. Federal Income Tax Considerations” below.

BEAR, STEARNS & CO. INC.

- **The Notes Are Subject to Equity Market Risks** — The Notes involve exposure to price movements in the equity securities to which they are linked. Equity securities price movements are difficult to predict, and equity securities may be subject to volatile increases or decreases in value.
- **The Notes May be Affected by Certain Corporate Events and You Will Have Limited Antidilution Protection** — Following certain corporate events relating to the underlying Reference Asset (where the underlying company is not the surviving entity), you will receive at maturity, cash or a number of shares of the common stock of a successor corporation to the underlying company, based on the Closing Price of such successor's common stock. The Calculation Agent for the Notes will adjust the amount payable at maturity by adjusting the Initial Level of the Reference Asset, Contingent Protection Level, Contingent Protection Percentage and Exchange Ratio for certain events affecting the Reference Asset, such as stock splits and stock dividends and certain other corporate events involving the underlying company. However, the Calculation Agent is not required to make an adjustment for every corporate event that can affect the Reference Asset. If an event occurs that is perceived by the market to dilute the Reference Asset but that does not require the Calculation Agent to adjust the amount of the Reference Asset payable at maturity, the market value of the Notes and the amount payable at maturity may be materially and adversely affected.

INTEREST AND PAYMENT AT MATURITY

Interest. The interest rate for the Notes is designated on the cover of this free-writing prospectus. The interest paid will include interest accrued from the Original Issue Date to, but excluding, the relevant Interest Payment Date or the Maturity Date. Interest will be paid to the person in whose name the Note is registered at the close of business on the Record Date before each Interest Payment Date. However, interest payable on the Maturity Date will be payable to the person to whom principal is payable. If the Interest Payment Date is also a day on which principal is due, the interest payable will include interest accrued to, but excluding, the stated Maturity Date. Interest will be computed using a 360-day year of twelve 30-day months, unadjusted.

Payment at Maturity. We will pay you 100% of the principal amount of your Notes, in cash, at maturity if either of the following is true: (i) the Closing Price of the Reference Asset never equals or falls below the Contingent Protection Level on any day from the Pricing Date up to and including the Calculation Date; or (ii) the Final Level of the Reference Asset is equal to or greater than the Initial Level of the Reference Asset.

However, if both of the following are true, the amount of principal you receive at maturity will be reduced by the percentage decrease in the Reference Asset: (i) the Closing Price of the Reference Asset ever equals or falls below the Contingent Protection Level on any day from the Pricing Date up to and including the Calculation Date; and (ii) the Final Level of the Reference Asset is less than the Initial Level of the Reference Asset.

In that event, we, at our option, will either: (i) physically deliver to you an amount of the Reference Asset equal to the Exchange Ratio plus the Fractional Share Cash Amount (which means that you will receive shares with a market value that is less than the full principal amount of your Notes); or (ii) pay you a cash amount equal to the principal amount you invested reduced by the percentage decrease in the Reference Asset. It is our intent to physically deliver

the Reference Asset when applicable, but we reserve the right to settle the Notes in cash.

We will (i) provide written notice to the Trustee and to the Depositary, on or prior to the Business Day immediately prior to the Maturity Date of the amount of cash or number of shares of the Reference Asset (and cash in respect of coupon and cash in respect of any fractional shares of the Reference Asset), as applicable, to be delivered, and (ii) deliver such cash or shares of the Reference Asset (and cash in respect of coupon and cash in respect of any fractional shares of the Reference Asset), if applicable, to the Trustee for delivery to you. The Calculation Agent shall determine the Exchange Ratio.

The following scenarios and graphs generally illustrate how the Cash Settlement Value of the Reverse Convertible Note Securities is determined:

BEAR, STEARNS & CO. INC.

Scenario 1

The price of the underlying shares generally increases over the term of the Note. The Contingent Protection Level is never breached.

Outcome

The Cash Settlement Value equals 100% of the principal amount of the Notes. The share price generally increased over the term of the Note and never breached the Contingent Protection Level.

Scenario 2

The price of the underlying shares generally declines over the term of the Note. The Contingent Protection Level is never breached.

Outcome

The Cash Settlement Value equals 100% of the principal amount of the Notes. The share price decreased over the term of the Note and at maturity was below the Initial Level, but never breached the Contingent Protection Level.

Scenario 3

The price of the underlying shares declines over the term of the Note. The Contingent Protection Level is breached.

Outcome

The Cash Settlement Value is less than the principal amount of the Notes, reflecting the percentage decline in the underlying shares below the

Initial Level. The Contingent Protection Level is breached so there is no principal protection.

Scenario 4

The price of the underlying shares declines below the Contingent Protection Level, but ultimately recovers to finish above its Initial Level.

Outcome

The Cash Settlement Value equals 100% of the principal amount of the Notes. Even though the share price decreased below the Contingent Protection Level during the term of the Note, by the Calculation Date the underlying share price was above the Initial Level.
