1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of May 31, 2008, the Trust offered 46 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on May 14, 2008, with the exception of the WisdomTree U.S. Current Income Fund and the WisdomTree Dreyfus Japanese Yen Fund that commenced operations on May 20, 2008 and May 21, 2008, respectively.

These notes relate to the schedule of investments for WisdomTree U.S. Current Income Fund ("U.S. Current Income Fund"), WisdomTree Dreyfus Euro Fund ("Dreyfus Euro Fund"), WisdomTree Dreyfus Japanese Yen Fund ("Dreyfus Japanese Yen Fund"), WisdomTree Dreyfus Brazilian Real Fund ("Dreyfus Brazilian Real Fund"), WisdomTree Dreyfus Chinese Yuan Fund ("Dreyfus Chinese Yuan Fund") and WisdomTree Dreyfus Indian Rupee Fund ("Dreyfus Indian Rupee Fund").

Edgar Filing: WisdomTree Trust - Form N-Q

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation - The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, as the mean between the most recently quoted bid and asked prices. The value of certain portfolio debt securities, other than temporary investments in short-term securities, takes into account various factors affecting market value, including yields and prices of comparable securities, indications as to value from dealers and general market conditions. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

(b) Investment Transactions and Investment Income - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Interest income is accrued daily.

(c) Foreign Currency Translation - The accounting records of the Funds are maintained in U.S. dollars with the exception of Dreyfus Euro Fund and Dreyfus Japanese Yen Fund, which are in Euro and Yen, respectively. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser.

(d) Repurchase Agreements - A Fund's custodian or designated sub-custodians, as the case may be under tri-party repurchase agreements, takes possession of the collateral pledged for investments in repurchase agreements. The underlying collateral is valued daily on a mark-to-market basis to ensure that the value, including accrued interest, is at least equal to the repurchase price. In the event of default of the obligation to repurchase, a Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligations. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings.

(e) Forward Contracts - Each Fund may enter into forward contracts to facilitate settlement of foreign currency denominated portfolio transactions or to manage its foreign currency exposure or to sell, for a fixed amount of U.S. dollars or other currency, the amount of foreign currency approximating the value of some or all of its holdings denominated in such foreign currency or an amount of

Edgar Filing: WisdomTree Trust - Form N-Q

foreign currency other than the currency in which the securities to be hedged are denominated approximating the value of some or all of its holdings to be hedged.

(f) Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

(g) Dividends and Distributions to Shareholders - It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the "Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations, which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes, are reported for tax purposes as a return of capital to the extent of a shareholder's tax basis, and thereafter as capital gain.

The Funds adopted the provisions of Financial Accounting Standards Board ("FASB") Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"). This interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in "Other" expenses on the Statement of Operations. Management has evaluated the application of FIN 48 to the Funds, and has determined that there is no impact resulting from the adoption of this interpretation on the Funds' financial statements.

3. Federal Income Taxes

At May 31, 2008, the cost of investments for Federal income tax purposes was substantially the same as for book purposes, as indicated below:

Edgar Filing: WisdomTree Trust - Form N-Q

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Depreciation
U.S. Current Income Fund	\$20,006,038	\$ 77	\$ (994)	\$ (917)
Dreyfus Euro Fund	20,084,261	9,434	(105,013)	(95,579)
Dreyfus Japanese Yen Fund	20,041,731	--	(244,774)	(244,774)
Dreyfus Brazilian Real Fund	45,898,977	105	(3,096)	(2,991)
Dreyfus Chinese Yuan Fund	43,952,601	18	(3,013)	(2,995)
Dreyfus Indian Rupee Fund	10,358,052	17	(673)	(656)

4. FAS 157

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management does not believe the adoption of FAS 157 will impact the amounts reported in the financial statements; however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain measurements reported in the Statements of Operations for the fiscal period.

5. New Accounting Pronouncement

On March 19, 2008, the FASB released Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities ("FAS 161"). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements has not yet been determined.

Item 2. Controls and Procedures.

- (a) Based on their evaluation of the Registrant's disclosure controls and procedures (as defined in Rule 30a-3 (c) under the Investment Company Act of 1940) as of a date within 90 days prior to the filing date of this report, the President and Treasurer of the Registrant have concluded that such disclosure controls and procedures are reasonably designed and effective to ensure that material
