Cautionary Statement Concerning
Forward-Looking Statements

USE OF NAMES

In this quarterly report, the terms “BNH,” “Company,” “we,” or “our,” unless the context otherwise requires, mean BNH Inc.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and other reports that we file with the SEC contain statements that are considered forward-looking statements. Forward-looking statements give the Company’s current expectations, plans, objectives, assumptions, or forecasts of future events. All statements other than statements of current or historical fact contained in this quarterly report, including statements regarding the Company’s future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “anticipate,” “estimate,” “plans,” “potential,” “projects,” “ongoing,” “expects,” “management believes,” “we believe,” “we intend,” and similar expressions. These statements are based on the Company’s current plans and are subject to risks and uncertainties, and as such the Company’s actual future activities and results of operations may be materially different from those set forth in the forward looking statements. Any or all of the forward-looking statements in this quarterly report may turn out to be inaccurate and as such, you should not place undue reliance on these forward-looking statements. The Company has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs. The forward-looking statements can be affected by inaccurate assumptions or by known or unknown risks, uncertainties, and assumptions due to a number of factors, including:

- dependence on key personnel;
- competitive factors;
- degree of success of research and development programs
- the operation of our business; and
- general economic conditions in the United States and Israel.

These forward-looking statements speak only as of the date on which they are made, and except to the extent required by federal securities laws, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the cautionary statements contained in this Quarterly Report.

1. Summary of Significant Accounting Policies

Basis of Presentation and Organization

BNH Inc. (the “Company”) is a Nevada corporation in the development stage, and has limited operations. The Company was incorporated under the laws of the State of Nevada on September 4, 2007. The proposed business plan of the Company is to establish the Company as a distributor of bio-degradable plastic utensils. The accompanying financial statements of the Company were prepared from the accounts of the Company under the accrual basis of accounting.

On September 4, 2007, pursuant to the terms of a subscription agreement, the Company sold 250,000 shares of common stock to Mrs. Goldy Klein, Secretary, for cash payment of \$250 (par value). The Company believes this issuance was deemed to be exempt under Regulation S of the Securities Act.

On October 18, 2007, the Company issued 1,500,000 shares of common stock, valued at \$1,500, to an officer of the Company for services rendered.

On October 25, 2007, the Company issued 250,000 shares of common stock, valued at \$250, to an officer of the Company for services rendered.

On November 12, 2007, the Company issued 3,000,000 shares of common stock, valued at \$3,000, to an officer of the Company for services rendered.

In addition, on November 30, 2007, the Company began a capital formation activity through a PPO, exempt from registration under the Securities Act of 1933, to raise up to \$50,000 through the issuance of 2,000,000 shares of its common stock, par value \$0.001 per share, at an offering price of \$0.025 per share. As of December 27, 2007, the Company had received \$26,000 in proceeds from the PPO. As of January 23, 2008, the Company had fully subscribed the PPO and raised \$50,000 in proceeds with the issuance of 2,000,000 shares of its common stock.

The Company also submitted a Registration Statement on Form S-1 to the Securities and Exchange Commission (“SEC”) to register 2,000,000 of its outstanding shares of common stock on behalf of selling stockholders. The Company will not receive any of the proceeds of this registration activity once the shares of common stock are sold. The Registration Statement on Form S-1 was filed with the SEC on April 16, 2008, and declared effective on April 30, 2008.

Unaudited Interim Financial Statements

The interim financial statements of the Company as of March 31, 2009, and for the periods ended March 31, 2009 and 2008, and cumulative from inception, are unaudited. However, in the opinion of management, the interim financial statements include all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the Company’s financial position as of March 31, 2009, and the results of its operations and its cash flows for the periods ended March 31, 2009 and 2008, and cumulative from inception. These results are not necessarily indicative of the results expected for the calendar year ending December 31, 2009. The accompanying financial statements and notes thereto do not reflect all disclosures required under accounting principles generally accepted in the United States. Refer to the Company’s audited financial statements as of December 31, 2008, filed with the SEC, for additional information, including significant accounting policies.

Cash and Cash Equivalents

For purposes of reporting within the statement of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

F-6

Revenue Recognition

The Company is in the development stage and has yet to realize revenues from operations. Once the Company has commenced operations, it will recognize revenues when delivery of goods or completion of services has occurred provided there is persuasive evidence of an agreement, acceptance has been approved by its customers, the fee is fixed or determinable based on the completion of stated terms and conditions, and collection of any related receivable is probable.

Loss per Common Share

Basic loss per share is computed by dividing the net loss attributable to the common stockholders by the weighted average number of shares of common stock outstanding during the period. Fully diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were no dilutive financial instruments issued or outstanding for the period ended March 31, 2009.

Income Taxes

The Company accounts for income taxes pursuant to SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"). Under SFAS 109, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

The Company maintains a valuation allowance with respect to deferred tax assets. The Company establishes a valuation allowance based upon the potential likelihood of realizing the deferred tax asset and taking into consideration the Company's financial position and results of operations for the current period. Future realization of the deferred tax benefit depends on the existence of sufficient taxable income within the carryforward period under the federal tax laws.

Changes in circumstances, such as the Company generating taxable income, could cause a change in judgment about the realizability of the related deferred tax asset. Any change in the valuation allowance will be included in income in the year of the change in estimate.

Fair Value of Financial Instruments

The Company estimates the fair value of financial instruments using the available market information and valuation methods. Considerable judgment is required in estimating fair value. Accordingly, the estimates of fair value may not be indicative of the amounts the Company could realize in a current market exchange. As of December 31, the carrying value of accounts payable-trade and accrued liabilities approximated fair value due to the short-term nature and maturity of these instruments.

Deferred Offering Costs

The Company defers as other assets the direct incremental costs of raising capital until such time as the offering is completed. At the time of the completion of the offering, the costs are charged against the capital raised. Should the offering be terminated, deferred offering costs are charged to operations during the period in which the offering is terminated.

Concentration of Risk

As of March 31, 2009, the Company maintained its cash account at one commercial bank. The balance in the account was subject to FDIC coverage.

F-7

Common Stock Registration Expenses

The Company considers incremental costs and expenses related to the registration of equity securities with the SEC, whether by contractual arrangement as of a certain date or by demand, to be unrelated to original issuance transactions. As such, subsequent registration costs and expenses are reflected in the accompanying financial statements as general and administrative expenses, and are expensed as incurred.

Lease Obligations

All noncancellable leases with an initial term greater than one year are categorized as either capital leases or operating leases. Assets recorded under capital leases are amortized according to the methods employed for property and equipment or over the term of the related lease, if shorter.

Estimates

The financial statements are prepared on the basis of accounting principles generally accepted in the United States. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of March 31, 2009, and expenses for the period ended March 31, 2009, and cumulative from inception. Actual results could differ from those estimates made by management.

Recent Accounting Pronouncements

In June 2008, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position No. EITF No. 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" ("FSP EITF No. 03-6-1"). According to FSP EITF No. 03-6-1, unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are considered participating securities under SFAS No. 128. As such, they should be included in the computation of basic earnings per share ("EPS") using the two-class method. FSP EITF No. 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, as well as interim periods within those years. Once effective, all prior-period EPS data presented must be adjusted retrospectively. The Company does not expect FSP EITF No. 03-6-1 to have a material impact on the Company's financial position or results of operations.

In March 2008, the FASB issued Statement No. 161, "Disclosures about Derivative Instruments and Hedging Activities", an amendment of FASB Statement No. 133 ("SFAS No. 161"). SFAS No. 161 applies to all derivative instruments and non-derivative instruments that are designated and qualify as hedging instruments and related hedged items accounted for under SFAS No. 133. SFAS No. 161 requires entities to provide greater transparency through additional disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, results of operations, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company does not expect SFAS No. 161 to have a material impact on the Company's financial position or results of operations.

In December 2007, the FASB issued Statement No. 141 (revised), "Business Combinations" ("SFAS No. 141(R)"). SFAS No. 141(R) significantly changes the accounting for business combinations and establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree and recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period

beginning on or after December 15, 2008.

F-8

In December 2007, the FASB issued Statement No. 160, "Noncontrolling Interests in Consolidated Financial Statements" - an amendment of ARB No. 51 ("SFAS No. 160"). SFAS No. 160 changes the accounting for noncontrolling (minority) interests in consolidated financial statements including the requirements to classify noncontrolling interests as a component of consolidated shareholders' equity, the elimination of "minority interest" accounting in results of operations and changes in the accounting for both increases and decreases in a parent's controlling ownership interest. SFAS No. 160 is effective for fiscal years beginning after December 15, 2008, and early adoption is prohibited. The Company does not expect SFAS No. 160 to have a material impact on the Company's financial position or results of operations.

In February 2007, the FASB issued Statement No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities" including an amendment of FASB Statement No. 115 ("SFAS No. 159"), which allows an entity the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities under an instrument-by-instrument election. If the fair value option is elected for an instrument, subsequent changes in fair value for that instrument will be recognized in earnings. SFAS No. 159 also establishes additional disclosure requirements and is effective for fiscal years beginning after November 15, 2007, with early adoption permitted provided that the entity also adopts Statement No. 157, "Fair Value Measurements" ("SFAS No. 157"). SFAS No. 159 is not expected to have a material impact on its results of operations or financial position.

In September 2006, the FASB issued SFAS No. 157 which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 applies under other accounting pronouncements that require or permit fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued FASB Staff Position No. SFAS No. 157-2, Effective Date of FASB Statement No. 157, which provides a one-year deferral of the effective date of SFAS No. 157 for non-financial assets and non-financial liabilities, except those that are recognized or disclosed in the financial statements at fair value on a recurring basis (at least annually). The adoption of SFAS No. 157 for financial assets and financial liabilities is not expected to have a material impact on the Company's results of operations or financial position.

2. Development Stage Activities and Going Concern

The Company is currently in the development stage, and has not commenced operations. The business plan of the Company is to establish the Company as a distributor of bio-plastic utensils.

During the period ended June 30, 2008 and December 31, 2007, the Company began a capital formation activity through a PPO, exempt from registration under the Securities Act of 1933, to raise up to \$50,000 through the issuance of 2,000,000 shares of its common stock, par value \$0.001 per share, at an offering price of \$0.025 per share. As of January 23, 2008, the Company had fully subscribed the PPO and raised \$50,000 in proceeds with the issuance of 2,000,000 shares of its common stock.

The Company also commenced an activity to submit a Registration Statement on Form S-1 to the Securities and Exchange Commission ("SEC") to register 2,000,000 of its outstanding shares of common stock on behalf of selling stockholders. The Company will not receive any of the proceeds of this registration activity once the shares of common stock are sold. The Registration Statement on Form S-1 was filed with the SEC on April 16, 2008, and declared effective on April 30, 2008.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States, which contemplate continuation of the Company as a going concern. The Company has not established any source of revenues to cover its operating costs, and as such, has incurred an operating loss since inception. Further, as of March 31, 2009 and December 31, 2007, the cash resources of the Company were insufficient to meet its current business plan. These and other factors raise substantial doubt about the Company's ability to

continue as a going concern. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

F-9

3. Loan from Stockholder

As of March 31, 2009, a loan from an individual who is a stockholder of the Company amounted to \$1,750. The loan was provided for working capital purposes, and is unsecured, non-interest bearing, and has no terms for repayment.

4. Common Stock

On September 4, 2007, pursuant to the terms of a subscription agreement, the Company sold 250,000 shares of common stock to Mrs. Goldy Klein, Secretary, for cash payment of \$250 (par value). The Company believes this issuance was deemed to be exempt under Regulation S of the Securities Act.

On October 18, 2007, the Company issued 1,500,000 shares of common stock, valued at \$1,500, to an officer of the Company for services rendered.

On October 25, 2007, the Company issued 250,000 shares of common stock, valued at \$250, to an officer of the Company for services rendered.

On November 12, 2007, the Company issued 3,000,000 shares of common stock, valued at \$3,000, to an officer of the Company for services rendered.

In addition, on November 30, 2007, the Company began a capital formation activity through a PPO, exempt from registration under the Securities Act of 1933, to raise up to \$50,000 through the issuance of 2,000,000 shares of its common stock, par value \$0.001 per share, at an offering price of \$0.025 per share. As of December 27, 2007, the Company had received \$26,000 in proceeds from the PPO. As of January 23, 2008, the Company had fully subscribed the PPO and raised \$50,000 in proceeds with the issuance of 2,000,000 shares of its common stock.

The Company also submitted a Registration Statement on Form S-1 to the Securities and Exchange Commission ("SEC") to register 2,000,000 of its outstanding shares of common stock on behalf of selling stockholders. The Company will not receive any of the proceeds of this registration activity once the shares of common stock are sold. The Registration Statement on Form S-1 was filed with the SEC on April 16, 2008, and declared effective on April 30, 2008.

5. Income Taxes

The provision (benefit) for income taxes for the period ended March 31, 2009 was as follows (assuming a 23% effective tax rate):

2009

Current Tax Provision:	
Federal-	
Taxable income	\$ -
Total current tax provision	\$ -
Deferred Tax Provision:	
Federal-	
Loss carryforwards	\$ 1,061
Change in valuation allowance	(1,061)

Total deferred tax provision	\$	-
------------------------------	----	---

F-10

The Company had deferred income tax assets as of March 31, 2009 as follows:

	2009
Loss carryforwards	\$ 13,552
Less - Valuation allowance	(13,552)
Total net deferred tax assets	\$ -

The Company provided a valuation allowance equal to the deferred income tax assets for the period ended March 31, 2009 because it is not presently known whether future taxable income will be sufficient to utilize the loss carry-forwards.

As of March 31, 2009, the Company had approximately \$58,920 in tax loss carry-forwards that can be utilized in future periods to reduce taxable income, and expire by the year 2029.

6. Related Party Transactions

On September 4, 2007, pursuant to the terms of a subscription agreement, the Company sold 250,000 shares of common stock to Mrs. Goldy Klein, Secretary, for cash payment of \$250 (par value). The Company believes this issuance was deemed to be exempt under Regulation S of the Securities Act.

On October 18, 2007, the Company issued 1,500,000 shares of common stock, valued at \$1,500 to an officer of the Company for services rendered.

On October 25, 2007, the Company issued 250,000 shares of common stock, valued at \$250 to an officer of the Company for services rendered.

On November 12, 2007, the Company issued 3,000,000 shares of common stock, valued at \$3,000 to an officer of the Company for services rendered.

As described in Note 3, as of March 31, 2009, the Company owed \$1,750 to an individual who is a stockholder of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Overview

We have not generated any revenue since our inception. We are a development stage company with limited operations. Our auditors have issued a going concern opinion. This means that our auditors believe there is substantial doubt that we can continue as an ongoing business for the next twelve months.

Plan of Operation

We have not had any revenues since our inception on September 4, 2007. Over the next twelve months we intend to continue to pursue our activities in the bioplastic market, namely the purchase and sale of bioplastic utensils. In addition, we plan to expand our involvement in the field of green commerce by entering the emerging greenhouse gas (GHG) carbon credit market as a provider of matching services for corporations looking to address their emission outputs in light of increased environmental regulations with emission credit specialists who can assist such corporations in reducing their emissions and in earning and/or trading carbon credits. Our plan is to identify project and joint venture opportunities in the emerging carbon credit market. Our activities and plans in the bioplastic market and carbon credit market are described in more detail below.

The Bioplastic Market

Our objective in the bioplastic market is to purchase bioplastic utensils from Far-East manufacturers and import these bioplastic utensils initially to Israel for distribution to both retail and foodservice industry customers. We intend to purchase and distribute both a private label line and our own branded products. The Company plans to store the utensils and ultimately sell and ship them to Israel. Ultimately, the Company's goal is to become an industry leader in the marketing and reselling of bioplastic utensils first in Israel, and eventually in the United States.

We plan to sign purchasing agreements with manufacturers which will take into account a reduced price based on order quantities. We plan on negotiating volume-based contracts with suppliers. Thus, as sales increase, we hope that our purchase price per unit will decrease. We intend to purchase only from suppliers that commit to adhere to our packaging requirements; suppliers must have the ability to source their own materials for the printing of the packages. It is our intent to order from manufacturers that can provide us with all of our product/service needs. Such facilities will be responsible for sourcing, printing, and packaging materials, and for shipping the finished products to our customers.

In the event that due to stock outages only products with generic packaging are available to purchase, we intend to receive a discount for non-branded products. In such a scenario, we may ship the bioplastic products to third party vendors for re-branding or have the supplier re-brand the products via a special project kitting process. Costs may increase slightly for these scenarios.

Consulting Services – Carbon Credits

Current legislation and regulatory measures to reduce atmospheric concentrations of greenhouse gases have their roots in climate change challenges presented by the United Nations Framework Convention on Climate Change and the Kyoto Protocol. United States President Barack Obama has indicated that he plans to depart from the previous administration in the field of energy policy, and he places a high priority on the enactment of a climate bill implementing a cap-and-trade regime for GHG emissions in 2009. We believe that the carbon market is in an expansion phase, and that in the coming years it will grow as U.S. federal regulation of GHG emissions becomes a reality. Any cap-and-trade system will most likely include provisions relating to allowances issued to regulated entities by the government, emission reduction certificates generated by clean development projects outside the

regulated entities, and market-based incentives for Reduced Emissions from Deforestation and Degradation (REDD), such as forestry offsets.

3

As corporations that produce GHG emissions become subject to increased regulation, they will be interested in effective and relatively inexpensive ways to reduce their GHG emissions to comply with, as well as benefit from, any applicable cap-and-trade system. We foresee the development of a new service market in which brokers would match GHG emissions specialists with corporations with high GHG emissions which are interested in receiving advice on how to earn and trade carbon credits.

Our management has decided to enter this field and we plan to provide leads to GHG emissions consultants to assist these GHG emissions consultants with locating and contracting with potential GHG emissions producing clients. In exchange for our services, we plan to receive a percentage of the revenues earned by such consultants on each client that we match.

As a preliminary step, we intend to increase the size of our Board of Directors and our advisory board to include experts in the field of climate technologies. Our goal is to raise up to \$100,000 in additional capital in order to fund our activities in this field, including the retention of professionals to assist us in matching GHG emissions producers with GHG emissions consultants.

Results of Operations

Revenues

We had no revenues for the period from September 4, 2007 (date of inception) through March 31, 2009.

Expenses

Our expenses for the three month period ended March 31, 2009 were \$4,611 compared with \$10,301 for the same period in 2008. Our expenses since our inception were \$58,920. These expenses were comprised primarily of professional fees and general and administrative expenses.

Net Income (Loss)

Our net loss for the three month period ended March 31, 2009 was \$4,611 compared with \$10,301 for the same period in 2008. During the period from September 4, 2007 (date of inception) through March 31, 2009, we incurred a net loss of \$58,920. This loss consisted primarily of professional fees and administrative expenses. Since inception, we have sold 7,000,000 shares of common stock.

Liquidity and Capital Resources

Our balance sheet as of March 31, 2009, reflects assets of \$6,296. Cash and cash equivalents from inception to date have been insufficient to provide the working capital necessary to operate to date.

We anticipate generating losses and, therefore, may be unable to continue operations in the future. If we require additional capital, we would have to issue debt or equity or enter into a strategic arrangement with a third party. There can be no assurance that additional capital will be available to us. We currently have no agreements, arrangements or understandings with any person to obtain funds through bank loans, lines of credit or any other sources.

Going Concern Consideration

The financial statements contained herein for the fiscal quarter ended March 31, 2009, have been prepared on a "going concern" basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. For the reasons discussed herein and in the footnotes to our financial statements included herein, there is a

significant risk that we will be unable to continue as a going concern. Our audited financial statements included in our Annual Report on Form 10-K for the period ended December 31, 2008, contain additional note disclosures describing the circumstances that lead to this disclosure by our registered independent auditors.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

None.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, based on an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e) under the Exchange Act), our Chief Executive Officer and the Chief Financial Officer has concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the applicable time periods specified by the SEC's rules and forms.

There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 4T. Controls and Procedures

This report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Identified in connection with the evaluation required by paragraph (d) of Rule 240.13a-15 or Rule 240.15d-15 of this chapter that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

PART II

Item 1. Legal Proceedings.

None.

Item 1A. Risk Factors.

There have been no material changes from the risk factors disclosed in our annual report on Form 10-K for the year ended December 31, 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.
