PROXIES AND VOTING PROCEDURES

Who Can Vote?

You are entitled to vote at the Annual Meeting all shares of the Company’s common stock that you held as of the close of business on July 26, 2011, the record date for the meeting. Each share of common stock is entitled to one vote with respect to each matter properly brought before the meeting.

On July 26, 2011, there were 15,173,880 shares of common stock outstanding.

In accordance with New Jersey law, a list of shareholders entitled to vote at the meeting will be available at the meeting.

Who Is the Record Holder?

You may own common stock either (1) directly in your name, in which case you are the record holder of such shares, or (2) indirectly through a broker, bank or other nominee, in which case such nominee is the record holder.

If your shares are registered directly in your name, we are sending these proxy materials directly to you. If the record holder of your shares is a nominee, you will receive proxy materials from such record holder.

How Do I Vote?

If you are the record holder:

- **By Internet.** You can vote on the Internet. The website address for Internet voting is on your proxy card, and voting is also available 24 hours a day. If you vote by Internet, you do not need to request or return your proxy card. Your vote by Internet must be received by 11:59 p.m., Eastern Daylight time, September 21, 2011. Please be aware that if you vote over the Internet, you may incur costs such as telephone and Internet access charges for which you will be responsible.
- **By Telephone.** You can also vote your shares by telephone, by calling the toll-free telephone number on your proxy card and following the instructions. Telephone voting is also available 24 hours a day. If you vote by telephone, you do not need to request or return your proxy card. Your vote by telephone must be received by 11:59 p.m., Eastern Daylight time, September 21, 2011.
- **By Mail.** If you choose to vote by mail, mark your proxy, date and sign it, and return it in the postage-paid envelope provided. Your vote by mail must be received by the close of voting at the Annual Meeting on September 22, 2011.
 - **By Attending the Annual Meeting.** If you attend the Annual Meeting, you can vote your shares in person.

If your stock is held by brokers, banks or other nominees:

If your common stock is held by a broker, bank or other nominee, you will receive instructions from such nominee that you must follow in order to have your shares voted.

If you plan to attend the Annual Meeting and vote in person, you will need to contact the broker, bank or other nominee to obtain evidence of your ownership of common stock on July 26, 2011.

If you hold your shares through a broker, your shares may be voted even if you do not provide voting instructions to your broker, bank or other nominee. Under the rules governing the voting of shares held in street name, member brokers who do not receive instructions from beneficial owners are permitted to vote shares for which their customers do not provide voting instructions on certain “routine” matters. The Company believes that the ratification of our independent registered public accounting firm is considered a routine matter. On non-routine matters, including the election of members of the board of directors and all proposals submitted to a vote of shareholders at the annual meeting other than the ratification of our independent registered public accounting firm, shares held by your broker will not be voted absent specific instructions from you. This means your shares may go unvoted and not affect the outcome if you do not specify your vote. If a broker does not receive voting instructions from a customer on non-routine matters and accordingly does not vote on these matters, this is called a broker non-vote. Broker non-votes will be counted for the purposes of establishing a quorum to conduct business at the meeting but are not counted as votes cast.

The method by which you vote will in no way limit your right to vote at the meeting if you later decide to attend in person.

How Many Votes Are Required?

A quorum is required to transact business at the Annual Meeting. We will have a quorum and be able to conduct the business of the Annual Meeting if the holders of a majority of the shares entitled to vote are present at the meeting, either in person or by proxy.

If a quorum is present, a plurality of votes cast is required to elect Directors. Thus, a Director may be elected even if the Director receives votes of less than a majority of the shares represented at the meeting. Proxies cannot be voted for a greater number of nominees than are named in this Proxy Statement. To ratify the appointment of our independent registered public accounting firm, the affirmative vote of a majority of the votes cast is required. To approve the advisory vote on executive compensation, the affirmative vote of a majority of the votes cast is required. To approve the frequency of the advisory vote on executive compensation, a plurality of votes cast is required.

In the event that there are not sufficient votes for a quorum or to approve any proposal at the Annual Meeting, the Annual Meeting may be adjourned in order to permit the further solicitation of proxies.

How Are Votes Counted?

All shares that have been properly voted, and not revoked, will be voted at the Annual Meeting in accordance with the instructions given. If you sign and return your proxy card or submit your proxy via the Internet or by telephone, but do not specify how you wish your shares to be voted, your shares represented by that proxy will be voted as recommended by the Board of Directors: (1) “for” the nominees for Director, (2) “for” the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2012, (3) “for” approval of the advisory vote on executive compensation, and (4) for “one year” with respect to the advisory vote on the frequency of an executive compensation advisory vote.

Proxies marked as abstaining or, with respect to the election of directors, withheld, and any proxies returned by brokers as “non-votes” on behalf of shares held in street name because beneficial owners’ discretion has been withheld as to one or more matters to be acted upon at the Annual Meeting, will be treated as present for purposes of determining whether a quorum is present at the Annual Meeting. Broker non-votes will not be counted as votes cast for or against any of the proposals at the Annual Meeting and therefore will have no effect on the outcome of such proposals. Marked abstentions on the election of directors or proposals other than proposal 2 are not considered votes cast and therefore will have no effect on such matters.

How Can I Revoke My Proxy or Change My Vote?

You can revoke your proxy at any time before it is exercised by timely delivery of a properly executed, later-dated proxy (including an Internet or telephone vote) or by voting in person at the meeting (attendance at the meeting will not itself revoke a proxy).

Who Will Pay the Expenses of Proxy Distribution?

The Company will pay the expenses of the preparation of the proxy materials and the solicitation of proxies. Proxies may be solicited on behalf of the Company by Directors, officers or employees of the Company, who will receive no additional compensation for soliciting, in person or by telephone, e-mail or facsimile or other electronic means. In accordance with the regulations of the Securities and Exchange Commission (the “SEC”) and NASDAQ, we will reimburse brokerage firms and other custodians, nominees and fiduciaries for their expenses incurred in sending proxies and proxy materials to beneficial owners of the Company’s common stock.

What Does it Mean if I Get More Than One Set of Proxy Materials?

If you receive more than one set of proxy materials, your shares are probably registered differently or are held in more than one account. Please vote all proxies to ensure that all your shares are voted. Also, unless you intend to have some of your shares registered differently than others, please have all of your accounts registered in the same name and address. You may do this by contacting our transfer agent, American Stock Transfer & Trust Company at (718) 921-8293.

ITEM 1 — ELECTION OF DIRECTORS

The Board of Directors is divided into three classes. One class is elected each year for a term of three years.

Two Directors will be elected at this Annual Meeting to serve for a three-year term expiring at our Annual Meeting in 2014. The Board has nominated Kenneth E. Thompson and Morton L. Topfer to serve for the term expiring at our Annual Meeting in 2014. You can find information about Messrs. Thompson and Topfer below.

The persons named in the proxy card will vote such proxy “for” the election of Messrs. Thompson and Topfer unless you indicate that your vote should be withheld. If elected, each of Messrs. Thompson and Topfer will continue in office until his successor has been duly elected and qualified, or until the earliest of his death, resignation, retirement or removal. Each of Messrs. Thompson and Topfer has indicated to the Company that he will serve if elected. We do not anticipate that either of Messrs. Thompson and Topfer will be unable to stand for election, but, if that happens, your proxy will be voted in favor of another person nominated by the Board.

The Board of Directors has determined that all of our current directors, including Messrs. Thompson and Topfer, are qualified to serve as directors of the Company. In addition to the specific business experience listed below, each of our directors has the tangible and intangible skills and attributes which we believe are required to be an effective Director of the Company, including experience at senior levels in areas of expertise helpful to the Company, a willingness and commitment to assume the responsibilities required of a Director of the Company and the character and integrity we expect of our Directors.

The Board of Directors recommends a vote FOR the election of Messrs. Thompson and Topfer as Directors.

ITEM 2 — RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Appointment of Independent Registered Public Accounting Firm for Fiscal 2012

As part of the Audit Committee's oversight of the Company's independent registered public accountants, the Committee conducted a competitive process to review the selection of the Company's independent registered public accounting firm. Based on the results of that process, the Audit Committee appointed Ernst & Young LLP as our independent registered public accounting firm for fiscal 2012. KPMG LLP, the Company's independent registered public accounting firm for the fiscal year ended March 31, 2010, was dismissed on June 22, 2010. Ernst & Young LLP was engaged as the Company's independent registered public accounting firm on June 22, 2010.

The audit reports of KPMG LLP on the consolidated financial statements of the Company as of and for the fiscal year ended March 31, 2010 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principle.

The audit reports of KPMG LLP on the effectiveness of internal control over financial reporting as of March 31, 2010 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles, except that KPMG LLP's reports on the effectiveness of internal control as of March 31, 2010 indicated that management's assessment of and conclusion on the effectiveness of internal controls over financial reporting excluded the evaluation of internal controls for the Company's joint venture in Japan, Nikkiso-THERM (NT). NT is an entity consolidated pursuant to FIN 46R. The Company does not have the ability to dictate or modify the controls of NT, and the Company does not have the ability, in practice, to assess those controls. At March 31, 2010 and March 31, 2009, NT represented \$5,108,000 and \$5,525,000, respectively, in total assets and \$4,582,000 and \$4,090,000 respectively, in net sales.

During the fiscal year ended March 31, 2010 and the subsequent period through June 22, 2010, there were no disagreements with KPMG LLP on any matter of accounting principles, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to the satisfaction of KPMG LLP would have caused them to make reference thereto in KPMG LLP's audit reports on the financial statements of the Company for such fiscal years. In addition, during the fiscal year ended March 31, 2010 and the subsequent period through June 22, 2010, there were no "reportable events" (as defined in Regulation S-K Item 304(a)(1)(v)).

The Company provided KPMG LLP with a copy of the disclosures above and requested that KPMG LLP furnish the Company with a letter addressed to the Commission stating whether it agreed with the above statements. A copy of KPMG LLP's letter, dated June 28, 2010, was filed as Exhibit 16.1 to the Current Report on Form 8-K filed with the Commission on June 28, 2010.

During the fiscal year ended March 31, 2010 and the subsequent period through June 22, 2010, the Company did not consult with Ernst & Young LLP regarding either: (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, nor did Ernst & Young LLP provide written or oral advice to the Company that Ernst & Young LLP concluded was an important factor considered by the Company in reaching a decision as to the accounting, auditing or financial reporting issue or (ii) any matter that was either the subject of a "disagreement" (as defined in Regulation S-K Item 304(a)(1)(iv) and the related instructions), or a "reportable event" (as defined in Regulation S-K Item 304(a)(1)(v)).

We are not required to have the shareholders ratify the selection of Ernst & Young LLP as our independent registered public accounting firm. We are doing so because we believe it is a matter of good corporate practice. If the shareholders do not ratify the selection, the Audit Committee will reconsider whether or not to retain Ernst & Young LLP but may retain such independent registered public accounting firm. Even if the selection is ratified, the Audit Committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interests of the Company and its shareholders. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting with an opportunity to make a statement if they desire to do so and to be available to respond to appropriate questions.

The Board of Directors recommends a vote FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2012.

Fees Paid to Our Independent Registered Public Accounting Firm During Fiscal 2011 and Fiscal 2010

Audit Fees. The Company was billed the aggregate of \$785,000 for fiscal year 2011 for professional services rendered by Ernst & Young LLP for its audit of our financial statements for such year, review of the financial statements included in our Forms 10-Q during such fiscal year, Sarbanes-Oxley related audits of internal control over financial reporting and its audit of our employee benefit plan. In fiscal 2010, Ernst & Young LLP did not perform any audit services for the Company. The Company was billed the aggregate amount of \$1,199,391 during fiscal year 2010 for professional services rendered by KPMG LLP for its audit of our financial statements for such years, review of the financial statements included in our Forms 10-Q during such respective fiscal years, Sarbanes-Oxley related audits of internal control over financial reporting and its audit of our employee benefit plan.

Audit-Related Fees. In fiscal 2011 and 2010, the Company did not pay any fees for audit-related services rendered by Ernst & Young LLP. In fiscal 2010, the Company did not pay any fees for audit-related services rendered by KPMG LLP.

Tax Fees. The Company was billed the aggregate amount of \$51,608 for fiscal 2011 for tax consulting services rendered by Ernst & Young LLP. The Company was billed the aggregate amount of \$29,273 for fiscal 2010 for tax consulting services rendered by Ernst & Young LLP. The Company was billed the aggregate amount of \$177,396 for fiscal 2010 for tax consulting services rendered by KPMG LLP.

All Other Fees. In fiscal 2011 and fiscal 2010, the Company did not pay Ernst & Young LLP any other fees. In fiscal 2010, the Company was billed the aggregate amount of \$2,100 by KPMG LLP for use of an accounting research tool.

Pre-Approval of Audit and Permissible Non-Audit Services

The Audit Committee pre-approves all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. The Audit Committee has adopted a policy for the pre-approval of services provided by our independent registered public accounting firm. Under the policy, pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is subject to a specific budget. In addition, the Audit Committee may pre-approve particular services on a case-by-case basis. For each proposed service, the independent registered public accounting firm is required to provide detailed back-up documentation at the time of approval. The Audit Committee may, when applicable, form and delegate authority to subcommittees consisting of one or more members who are independent directors of the Board, including the authority to grant pre-approvals of audit and permitted non-audit services, provided that decisions of such subcommittee to grant pre-approvals are required to be presented to the full Audit Committee at its next scheduled meeting. All audit and permissible non-audit services provided to the Company by our independent registered public accounting firm for fiscal 2011 and fiscal 2010, respectively, were pre-approved by the Audit Committee.

GOVERNANCE OF THE COMPANY

Pursuant to New Jersey law and the Company's by-laws, the Company's business, property and affairs are managed by or under the direction of the Board of Directors. Members of the Board are kept informed of the Company's business through discussions with the Chief Executive Officer and other officers, by reviewing materials provided to them and by participating in meetings of the Board and its committees. We currently have six members on our Board. The Board has determined that five of its members, John D. Arnold, R. Barry Uber, Satish Rishi, Morton L. Topfer and Kenneth E. Thompson, are "independent," as defined in the NASDAQ listing standards.

The Board of Directors meets on a regularly scheduled basis during the year to review significant developments affecting the Company and to act on matters requiring Board approval, and may hold special meetings between scheduled meetings when appropriate. During fiscal 2011, the Board held six meetings. Each incumbent Director attended more than 75% of the total number of meetings of the Board of Directors and the Board committees of which he was a member during the period he served as a Director in fiscal 2011. The Company does not have a policy requiring all Directors to attend annual meetings of shareholders. All of the Directors then serving attended the Company's 2010 Annual Meeting.

Board of Directors Leadership Structure

We separate the roles of CEO and Chairman of the Board of Directors in recognition of the differences between the two roles. The CEO is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company, while the Chairman of the Board of Directors provides guidance to the CEO and sets the agenda for Board of Directors meetings and presides over meetings of the full Board of Directors. Our CEO serves on our Board of Directors, which we believe helps the CEO serve as a bridge between management and the Board of Directors, ensuring that both groups act with a common purpose. We believe that the CEO's presence on the Board of Directors enhances his ability to provide insight and direction on important strategic initiatives to both management and the independent directors and, at the same time, ensures that the appropriate level of independent oversight is applied to all decisions by the Board of Directors.

The Role of the Board of Directors in Risk Oversight

The Board of Directors oversees the Company's risk management process directly and through its committees. The role of the Board of Directors in our risk oversight process includes receiving regular reports from members of senior management on areas of material risk, including operational, financial, legal and regulatory, and strategic and reputational risks. The Board of Directors (or the appropriate committee) receives these reports from senior management to enable it to understand our risk identification, risk management and risk mitigation strategies. When a committee receives such a report, the chairman of the relevant committee reports on the discussion to the full Board of Directors at the next meeting of the Board of Directors. This enables the Board of Directors and its committees to coordinate the risk oversight role, particularly with respect to risk interrelationships. As part of its charter, the Audit Committee oversees risks related to financial controls and related compliance risks, as well as discusses our policies with respect to risk assessment and risk management.

COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors has established various committees to assist it with the performance of its responsibilities. These committees and their current members are discussed below.

Audit Committee

During fiscal year 2011, the Audit Committee consisted of John D. Arnold (Chairman), Satish Rishi and Kenneth E. Thompson. All of the Audit Committee members are "independent," as independence for audit committee members is defined in the NASDAQ listing standards, and under the heightened independence standards for audit committee members under Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Board has determined that all Audit Committee members have the financial sophistication and experience required by NASDAQ listing standards. The Board has also determined that Satish Rishi and John Arnold qualify as "audit committee financial experts," as defined in Item 407(d)(5) of SEC Regulation S-K. For additional information regarding the experience and background of Mr. Rishi and Mr. Arnold, see "Item 1 – Election of Directors" above.

During fiscal 2011, the Audit Committee met six times. The functions of the Audit Committee are described in its report, which is included in this proxy statement. The Board has adopted a written charter setting forth the functions of the Audit Committee. This charter is available to shareholders in the “About Us” section on our website, www.meas-spec.com.

Compensation Committee

During fiscal 2011, the Compensation Committee consisted of R. Barry Uber (Chairman), Morton L. Topfer and Kenneth E. Thompson. All of the Compensation Committee Members are “independent,” as independence for Compensation Committee members is defined in the NASDAQ listing standards.

The functions of the Compensation Committee are to (1) develop and maintain compensation policy and strategy that creates a direct relationship between pay levels and corporate performance and returns to shareholders, (2) recommend to our Board of Directors for approval, compensation and benefit plans for executive officers, (3) review and approve annually corporate and personal goals and objectives to serve as the basis for the Chief Executive Officer’s compensation, evaluate the Chief Executive Officer’s performance in light of the goals and, based on such evaluation, determine, or recommend to the Board of Directors for determination, the annual total compensation for our other executive officers, (4) approve the grants of stock options and other equity-based incentives to the extent provided under our compensation plans, and (5) review and recommend to our Board of Directors compensation for non-employee directors.

During fiscal 2011, the Compensation Committee met five times. The Board has adopted a written charter setting forth the functions of the Compensation Committee. This charter is available to shareholders in the “About Us” section on our website, www.meas-spec.com.

Nominating Committee

During fiscal year 2011, the Nominating Committee consisted of R. Barry Uber (Chairman), Morton L. Topfer and Satish Rishi. All of the Nominating Committee members are “independent,” as independence for nominating committee members is defined in the NASDAQ listing standards. The Nominating Committee was formed to evaluate and recommend to the Board the persons to be nominated for election as Directors at any meeting of shareholders, and the persons to be elected by the Board to fill any vacancy on the Board.

During fiscal 2011, the Nominating Committee met one time. The Board has adopted a written charter setting forth the functions of the Nominating Committee. This charter is available to shareholders in the “About Us” section on our website, www.meas-spec.com.

The Nominating Committee carefully considers all Director candidates recommended by our shareholders that are timely submitted in accordance with the procedures for making such recommendations set forth herein, and the Nominating Committee does not and will not evaluate such candidate recommendations any differently from the way it evaluates other candidates. In its evaluation of each proposed candidate, the Nominating Committee considers many factors including, without limitation, the individual's experience, character, diversity, demonstrations of judgment and ability, and financial and other special expertise. The Nominating Committee is also authorized to obtain the assistance of an independent third party to complete the process of finding, evaluating and selecting suitable candidates for director. Any shareholder who wishes to recommend an individual as a nominee for election to the Board should submit such recommendation in writing to the attention of Mark Thomson (who will forward the recommendation to the Nominating Committee) through e-mail (mark.thomson@meas-spec.com) or by mail to the Company (1000 Lucas Way, Hampton, VA 23666, Attn: Chairman of Nominating Committee), together with information regarding the experience, education and general background of the individual and a statement as to why the shareholder believes such individual to be an appropriate candidate for Director of the Company.

COMMUNICATIONS WITH THE BOARD OF DIRECTORS

The Company encourages shareholder communications with the Board of Directors but does not have a formal process. All such communications should be sent to Frank D. Guidone through the Company's website (www.meas-spec.com/myMEAS/investors/ceo_comment.asp) or by mail to the Company (1000 Lucas Way, Hampton, VA 23666). Mr. Guidone will circulate communications to the other members of the Board. If the communication is directed to a particular Director, Mr. Guidone will forward the communication to that Director. The Company does not screen shareholder communications, other than for security purposes.

COMPENSATION OF DIRECTORS

For fiscal 2011, each of our non-employee directors received an annual cash retainer of \$35,000 payable in equal quarterly installments in arrears. In addition, each of our non-employee directors received an annual grant on December 1, 2010 of options to purchase 5,000 shares of our common stock at an exercise price of \$26.91 per share. The options were granted under the Company's 2010 Equity Incentive Plan (the "2010 Equity Incentive Plan"). Directors who are our employees do not receive additional compensation for serving on our Board of Directors or on committees of the Board. Mr. Guidone, as President and Chief Executive Officer, is the only member of the Board of Directors who is also an employee. For fiscal 2011, Directors who are not employees or full-time consultants of the Company each received compensation as follows:

(1) Reflects the aggregate grant date fair value of the 5,000 stock options granted to each non-employee director during fiscal 2011 calculated in accordance with FASB ASC Topic 718. For a more detailed discussion on the assumptions used to calculate the fair value of our options, refer to Notes 2 and 13 of the Notes to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2011.

(6) At March 31, 2011, Mr. Uber held options to purchase 25,000 shares of our common stock.

It is the responsibility of the Compensation Committee to review and recommend to the Board the appropriate structure and amount of Board compensation. The Board makes the final determination with respect to Board compensation. The Compensation Committee will consider whether directors' independence may be jeopardized if director compensation exceeds customary levels, if the Company makes substantial charitable contributions to organizations with which a director is affiliated, or if the Company enters into consulting contracts with (or provides other indirect forms of compensation to) a director or an organization with which the director is affiliated. Under its charter, the Compensation Committee has the authority to retain third-party consultants, including compensation consultants. For fiscal 2011, the Compensation Committee did not engage any compensation consultants for purposes of its review and recommendation of director compensation.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal year 2011, the Compensation Committee consisted of R. Barry Uber (Chairman), Morton L. Topfer and Kenneth E. Thompson. None of the members has ever been an officer or employee of the Company or any of its subsidiaries, and none of our executive officers currently serves, or in the past fiscal year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board of Directors or Compensation Committee.

CODE OF ETHICS

The Company has adopted a Code of Ethics in accordance with SEC regulations, applicable to the Company's Chief Executive Officer, senior financial officers and the Board of Directors. The Code of Ethics is available to shareholders in the "About Us" section on our website, www.meas-spec.com.

RELATED PERSON TRANSACTIONS

The Company has adopted a policy regarding the review and approval of related person transactions. In the event that the Company proposes to enter into a related person transaction, the transaction must be reported to the Audit Committee. As provided in its charter, the Audit Committee is required to review and approve each related person transaction and any disclosures that are required by Item 404 of Regulation S-K. The Audit Committee reviews each related person transaction on a case by case basis.

For purposes of this policy, a “related person transaction” has the same meaning as in Item 404 of Regulation S-K: a transaction, arrangement or relationship (or any series of related transactions, arrangements or relationships) in which the Company is, was or will be a participant and the amount involved exceeds \$120,000 and in which any “related person” has, had or will have a direct or indirect material interest.

For purposes of this policy, a “related person” has the same meaning as in Item 404 of Regulation S-K: any person who was a director, a nominee for director or an executive officer of the Company during the Company’s preceding fiscal year (or an immediate family member of such a director, nominee for director or executive officer of the Company) or a beneficial owner of more than five percent of our outstanding common stock (or an immediate family member of such owner).

REPORT OF THE AUDIT COMMITTEE

The Audit Committee is appointed by the Board to assist the Board in monitoring:

- the integrity of the financial statements of the Company,
- the independent registered public accounting firm's qualifications and independence,
- the performance of the Company's independent registered public accounting firm, and
- the compliance by the Company with legal and regulatory requirements.

The Audit Committee meets with management periodically to consider the adequacy of the Company's internal control over financial reporting and the objectivity of its financial reporting. The Audit Committee discusses these matters with the Company's independent registered public accounting firm and with appropriate Company financial personnel.

The Audit Committee regularly meets privately with the independent registered public accounting firm, which has unrestricted access to the Committee.

The Audit Committee selects, evaluates and, where appropriate, replaces the independent registered public accounting firm, and reviews periodically their performance, fees and independence from management.

Each of the Directors who serves on the Audit Committee is "independent" for purposes of the NASDAQ listing standards, including the heightened independence standards for audit committees under the Exchange Act.

The Board has adopted a written charter setting out the audit related functions the Audit Committee is to perform and reviews the charter on a periodic basis to assure that the functions and duties of the Audit Committee will continue to conform to applicable SEC and stock exchange regulations as they may be amended or modified in the future.

Management has primary responsibility for the Company's financial statements and the overall reporting process, including the Company's system of internal control over financial reporting. The independent registered public accounting firm audits the annual financial statements prepared by management, expresses an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the company in conformity with accounting principles generally accepted in the United States, expresses an opinion on the Company's internal control over financial reporting and discusses with the Audit Committee any issues they believe should be raised with the Committee. The Audit Committee monitors these processes, relying without independent verification on the information provided to the Committee and on the representations made by management and the Company's independent registered public accounting firm.

This year, the Audit Committee reviewed the Company's audited financial statements as of and for the fiscal years ended March 31, 2011 and 2010, respectively, met with management, Ernst & Young LLP, the Company's independent registered public accounting firm for fiscal year 2011, and KPMG LLP, the Company's independent registered public accounting firm for fiscal year 2010 and 2009, to discuss those financial statements and for each of the fiscal years in the three-year period ended March 31, 2011. Management has represented to the Audit Committee that the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The Audit Committee received from Ernst & Young LLP the written disclosure and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, and has discussed with the independent accountant the independent accountant's independence. The Audit Committee also discussed with Ernst & Young LLP any matters required to be discussed by Statement on Auditing Standards No. 61 as amended (AICPA, Professional Standards, Vol 1. AU 380) as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

Based on these reviews and discussions, the Audit Committee recommended to the Board that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2011.

The Audit Committee approved a request for proposal for the audit of the fiscal year ending March 31, 2012, and during the Audit Committee meeting held on June 16, 2011, the Audit Committee approved the selection of Ernst & Young LLP as the Company's independent registered public accounting firm.

ITEM 3 — ADVISORY VOTE ON EXECUTIVE COMPENSATION

Introduction

The Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted in July 2010, requires that we provide our shareholders with the opportunity to vote to approve, on a nonbinding, advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

As described in detail under the heading “Compensation Discussion and Analysis,” the Company’s goal with respect to executive compensation is to provide a comprehensive package that is sufficient to attract, motivate and retain executives of outstanding ability, performance and potential. The Compensation Committee seeks to establish and maintain an appropriate relationship between executive compensation and the creation of shareholder value. The Committee believes that the most effective compensation program is one that provides competitive base pay, rewards the achievement of established annual and long-term goals and objectives, and provides incentives for retention. The Committee seeks a compensation program that is internally consistent and believes that pay differences among jobs should be commensurate with differences in the levels of responsibility between the Chief Executive Officer and the other named executive officers.

We urge you to read the “Compensation Discussion and Analysis” section, the Summary Compensation Table and the related compensation tables and narrative in this proxy statement for additional details on our executive compensation, including our compensation philosophy and objectives and the fiscal 2011 compensation of our named executive officers.

The vote on this resolution is not intended to address any specific element of compensation; rather the vote relates to the compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

Accordingly, we are asking you to vote on the adoption of the following resolution:

BE IT RESOLVED by the shareholders of Measurement Specialties, Inc., that the shareholders approve, on an advisory basis, the compensation of the Company’s named executive officers as set forth in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables and narrative as disclosed in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

As an advisory vote, this proposal is non-binding. Although the vote is non-binding, the Board of Directors and the Compensation Committee value the opinions of our shareholders, and will consider the outcome of the vote when making future compensation decisions for our named executive officers. The Board of Directors recommends a vote FOR approval of the executive compensation of our named executive officers, as disclosed in this proxy statement.

ITEM 4 — ADVISORY VOTE ON FREQUENCY OF ADVISORY VOTE ON EXECUTIVE COMPENSATION

As described in Item 3 above, the Company's shareholders are being provided the opportunity to cast an advisory vote on the compensation of the Company's named executive officers.

The Dodd-Frank Act also enables our shareholders to indicate how frequently we should seek an advisory vote, such as Item 3 included on page 19 of this Proxy Statement, in connection with the compensation of our named executive officers as disclosed pursuant to the SEC's compensation disclosure rules. By voting on this Item 4, shareholders may indicate whether they would prefer an advisory vote on executive officer compensation every one, two or three years.

After careful consideration of this Item, our Board of Directors has determined that an advisory vote on executive compensation that occurs every year is the most appropriate alternative, and therefore our Board of Directors recommends that you vote for a one-year interval for the advisory vote on executive compensation.

In formulating its recommendation, our Board of Directors considered that an annual advisory vote on executive compensation will allow our shareholders to provide us with their direct input on our compensation philosophy, policies and practices as disclosed in the Proxy Statement every year. Additionally, an annual advisory vote on executive compensation is consistent with our policy of seeking input from, and engaging in discussions with, our shareholders on corporate governance matters and our executive compensation philosophy, policies and practices. We understand that our shareholders may have different views as to what is the best approach, and we look forward to hearing from our shareholders on this Item. You may cast your vote on your preferred voting frequency by choosing the option of one year, two years, three years or abstain from voting when you vote on this Item.

The option of one year, two years or three years that receives the highest number of votes cast by shareholders will be the frequency selected by shareholders for the advisory vote on executive compensation. The frequency selected by shareholders will be given due consideration by the Company in its discretion. However, because this vote is advisory and not binding on the Board of Directors or the Company, the Board of Directors may decide that it is in the best interests of our shareholders to hold an advisory vote on executive compensation more or less frequently than the option approved by our shareholders.

The Board of Directors recommends a vote for the option of ONCE EVERY YEAR as the frequency with which shareholders are provided an advisory vote on executive compensation.

COMPENSATION DISCUSSION AND ANALYSIS

Through the following questions and answers, we explain all material elements of our executive compensation program.

General

What are the objectives of our executive compensation programs?

Measurement Specialties, Inc. is a leader in the design, development and manufacture of sensors and sensor-based systems for original equipment manufacturers and end users, based on a broad portfolio of proprietary technologies. We operate in highly fragmented markets that are characterized by high levels of competition. We believe that we need qualified executive officers who are capable of independent thinking and responsible decision making in order to compete in the markets we serve. Under the direction of the Compensation Committee of our Board of Directors, we seek to compensate our executive officers at levels that are competitive so that we may attract, retain and motivate highly capable executive officers. We also seek to design our compensation programs to align our executive officers' interests with those of our shareholders and, in doing so, build long-term value for our shareholders.

Our fiscal 2011 executive compensation, including base compensation and stock option grants awarded for and in fiscal 2011, reflect our efforts to realize the objectives of our executive compensation programs, in spite of reductions in compensation in response to one of the worst global economic recessions in decades.

What impact did the 2008-2009 economic recession have on our executive compensation programs in fiscal 2011?

The 2008-2009 economic recession presented a challenging business environment for the Company and the Company aggressively reduced costs, including reducing executive compensation in the third quarter of fiscal 2009. Executive compensation was restored during fiscal 2011. Overall, executive compensation for fiscal 2011 reflected an increase as compared to the prior year reflecting, among other things, significant improvements in the Company's financial results and the resulting increase in the price of the Company's stock. The Company generated record sales and profits during fiscal 2011 due to the positive impact of the critical measures implemented by management during the recession. The global recession presented a challenging business environment for the Company and we aggressively reduced costs, while at the same time, laying the foundation to position the Company for future growth in sales and profitability, all of which we ultimately expect to continue to translate to enhanced shareholder value.

What are the principal components of our executive compensation programs?

Overview: The Company's policy for compensating our executive officers is intended to support the Company's short-term and long-term goals by providing our executive officers an appropriate mix of compensation elements that effectively balance short-term annual incentives that reward executives for current performance and the achievement of near-term goals with long-term incentives that reward executives for performance over a sustained period. To support this policy, our executive compensation programs consist of three principal components:

- a base salary;
- annual incentives; and
- long-term incentive compensation.

We have selected programs that we believe are commonly used by public companies, both within and outside of our industry, because we believe commonly used programs are well understood by our shareholders, employees and analysts. Moreover, we selected each program only after we first confirmed, with the assistance of outside professional advisors, that the program comports with settled legal and tax rules. We describe each of these principal components below.

Relationship of the principal components: The Compensation Committee exercises its judgment in making executive compensation decisions, and considers various factors within the overall framework of our executive compensation program. While we review each element of compensation individually and in the aggregate, we do not have a specific policy on the percentage of an executive officer's total compensation that should be "short-term" versus "long-term" nor do we have a specific policy on the percentage of total compensation that should be "cash" versus "equity." We allocate the three principal components of our executive compensation programs in a manner that we believe optimizes each executive officer's contribution to us.

Base Salary: We believe base salaries provide basic compensation at a level that allows us to recruit and retain key executive talent. Base salaries are based on a combination of factors, primarily the performance of the executive, relative level of responsibility and experience, salaries of similarly situated executive officers at peer companies and, with respect to the base salaries of executive officers other than our Chief Executive Officer, the recommendations of our Chief Executive Officer. Although our Compensation Committee annually reviews salaries of our executive officers, our Compensation Committee does not automatically adjust base salaries if it concludes that adjustments to other components of the executive's compensation would be more appropriate. In addition, as discussed below, the employment agreements that we have with certain of our executive officers provide for fixed annual base salaries or minimum annual base salaries, thereby limiting the discretion of the Compensation Committee with respect to compensation decisions regarding base salaries.

Annual Incentives: We have provided annual incentive opportunities to executive officers to motivate their performance in achieving our current year business goals. In setting the respective potential bonus levels of the executive officer, the Compensation Committee considers such factors as the executive officer's individual performance and relative level of responsibility. Typically, each year we adopt an annual incentive compensation plan that establishes specifically identified payout opportunities dependent upon achieving pre-determined financial performance targets and personal performance objectives. When payments are made under our annual incentive compensation plan, they are made in cash after the fiscal year-end results are finalized.

Long-Term Incentive Compensation: Our long-term incentive program is focused on rewarding performance that enhances shareholder value through the use of equity-based awards that link compensation to the value of our common stock and strengthen the alignment of management and shareholder interests. Long-term incentive awards granted by the Compensation Committee consist of stock options with performance and extended time-based vesting criteria, as well as a limited number of RSUs with time-based vesting criteria.

The Compensation Committee believes that stock options and RSUs promote the objectives of our executive compensation program in the following ways:

- Time-based vesting encourages officers to take a long-term view of our performance and promote stability within our executive ranks, facilitating realization of our long-term objectives to create shareholder value.
- Notwithstanding the recent stock market declines, given the long tenure of our named executive officers, each holds significant unexercised stock options that are expected to have significant value over the long term.
- Stock options have been one of our most effective tools in overall compensation in recruiting, motivating and retaining skilled officers, and we believe they will continue to be effective tools over the long-term.

The number of stock options subject to an award has been computed by taking into account the Company's performance, the executive officer's individual performance, our retention objectives, and other factors.

Stock options are granted on the first day of the month following the day on which they are approved by the Compensation Committee and are priced at 100% of fair market value on the date of grant, which under the 2008 Equity Incentive Plan and 2010 Equity Incentive Plan is the closing market price of our common stock on the date of the grant. Executive officers benefit from stock option grants only to the extent the price of our common stock appreciates above the exercise price of the stock options.

Other Benefits: In addition to the components of compensation discussed above, we also provide certain other benefits to our executive officers to ensure that our executive compensation program remains competitive. These other benefits include 401(k) matching, and health and life insurance premiums, and in certain cases housing reimbursement and family travel reimbursement, which are specifically disclosed in the “All Other Compensation” column of the Summary Compensation Table on page 34 of this proxy statement. Our Compensation Committee reviews annually the dollar value of these other benefits to the executive officers and the cost of providing these other benefits to the Company. However, such review does not influence the Compensation Committee’s decisions regarding the determination of the principal elements of an executive officer’s current level of compensation.

What do we seek to reward and accomplish through our executive compensation programs?

We provide annual incentive opportunities primarily to provide performance incentives to our key employees to meet annual performance objectives. Our annual corporate objectives are measured by sales increases, net income, Adjusted EBITDA margins (defined as earnings before deduction of interest, taxes, depreciation, amortization, share-based compensation, foreign currency exchange gains and losses, and certain non-recurring items to sales) and other financial metrics of performance, such as working capital reductions. In the case of our Chief Executive Officer, our Compensation Committee has also taken into account the strategic direction he has provided the Company and his stewardship of the Company since the beginning of his involvement with the Company. We provide long-term incentive awards primarily to motivate and reward key employees over longer periods. Through vesting and forfeiture provisions that we include in awards of stock options, we provide an additional incentive to executives to act in furtherance of our longer-term interests. An executive whose employment with us terminates before equity-based awards have vested, either because the executive has not performed in accordance with our expectations or because the executive chooses to leave, will generally forfeit the unvested portion of the award. As a result, the Compensation Committee believes that providing the executive officers with compensation in the form of stock options serves to encourage retention of the executive officers.

How do we determine the amount of each principal component of compensation to our executives?

Our Compensation Committee exercises judgment and discretion in setting compensation for our executive officers. The Committee exercises its judgment and discretion only after it has first reviewed peer company practices, evaluated the recommendations of our Chief Executive Officer and evaluated our corporate performance. See “To what extent do we benchmark total compensation and material elements of compensation and what are the benchmarks that we use?” below.

Our Chief Executive Officer, Chief Financial Officer, Chief Operating Officer and Executive Vice Presidents each have an employment agreement with us that provides for, among other things, an annual salary and for an annual bonus, including, in certain cases, a minimum annual bonus, thereby limiting the discretion of the Compensation Committee with respect to their compensation, as well as certain post-employment severance payments. See “Executive Agreements and Related Transactions” below for a discussion of each of these employment agreements.

What is the role of our executive officers in the compensation process?

Our Compensation Committee meets periodically with our Chief Executive Officer to address executive compensation, including the rationale for our compensation programs and the efficacy of the programs in achieving our compensation objectives. The Compensation Committee also relies on our executive officers to evaluate compensation programs to assure that they are designed and implemented in compliance with laws and regulations, including SEC reporting requirements. The Compensation Committee relies on the recommendations of our Chief Executive Officer regarding the performance of individual executive officers, other than the Chief Executive Officer. At meetings in fiscal 2011, the Compensation Committee received recommendations from our Chief Executive Officer regarding salary adjustments, annual incentive and stock option and RSU awards for our executive officers. The Compensation Committee believes that it is important for it to receive the input of the Chief Executive Officer on compensation matters since he is knowledgeable about the activities of our executive officers and the performance of their duties and responsibilities, as well as their contributions to the growth of the Company and its business.

To what extent do we benchmark and what are the benchmarks that we use?

The Compensation Committee compares each element of total compensation and total compensation in the aggregate to compensation provided by peer groups of publicly-traded companies in the sensory devices and similar industries in evaluating the compensation of our executive officers. The Compensation Committee typically uses peer group comparisons to assess the reasonableness of its executive compensation decisions in an effort to ensure that our compensation program remains competitive.

In March 2010, to assist the Committee in evaluating the competitiveness of the Company's executive compensation program for fiscal 2011, the Company engaged 3C Consulting to complete a market compensation analysis of total compensation for our Chief Executive Officer, our Chief Financial Officer, our Chief Operating Officer and our most senior sales-related executive, Glen MacGibbon, an Executive Vice President, as compared to a peer group of companies. The peer company group was limited by industry and based on revenue and market capitalization ranges of approximately one-half to four times that of the Company. The companies comprising our peer group were Harvard Bioscience, Inc., Hurco Companies Inc., OYO Geospace Corporation, IRIS International, Inc., Caliper Life Sciences, Inc., Faro Technologies, Inc., Cognex Corp., IGP Photonics Corp., Mercury Computer Systems, Inc., X-Rite, Inc., K-Tron International, Inc., American Science & Engineering Inc., Badger Meter, Inc., II-VI Inc., Newport Corp. and MTS Systems Corp. 3C Consulting's analyses included the following data collected from the proxy statements of the peer group companies: (i) base salary, (ii) annual incentive compensation and (iii) long-term incentive compensation including expected value of stock options. In January 2011, 3C Consulting completed a second market compensation analysis of total compensation for the executives listed above, that was used to set executive compensation levels for fiscal 2012.

Under its charter, our Compensation Committee has the sole authority to retain, and terminate, any third-party consultants to assist in the evaluation of executive compensation, and the sole authority to approve such consultant's fees and other retention terms. 3C Consulting was retained to assist our Compensation Committee in its determination of our executive officers' compensation for fiscal 2011 and prepared a market compensation analysis that was used by the Compensation Committee in setting executive compensation for fiscal 2012.

We aim to provide total target compensation for our Chief Executive Officer that approximates the 65th percentile compared to total target compensation for chief executive officers at companies in our industry and of similar size based on data from published surveys. The Board of Directors believes that providing our Chief Executive Officer with total target compensation that approximates the 65th percentile of the peer group is appropriate given his leadership and role in the growth in sales and profitability that we have experienced over the past five fiscal years prior to 2011, and his addressing the many challenges confronting the Company in light of the current global economic recession.

What specific items of corporate performance do we take into account in setting compensation policies and making compensation decisions?

Our corporate performance primarily impacts the annual incentives and long-term incentive compensation that we provide our executive officers. We use or weight items of corporate performance differently in our annual incentive awards and long-term compensation awards and some items are more determinative than others.

Goals for executive officers in fiscal 2011 varied because the scope of responsibility and authority of executive officers differ. Goals are generally developed around metrics tied to our growth and profitability, including increases in revenue, decreases in expenses, completion of developments in accordance with budgets and timelines, execution of acquisitions in accordance with targets, enhanced operational efficiencies and development of additional opportunities for our long-term growth.

How do we determine when awards are granted, including awards of equity-based compensation?

Historically, our Compensation Committee has awarded annual bonuses in the quarter following the fiscal year end. The Compensation Committee makes an annual grant of stock options, following review of pertinent financial information and industry data. In addition, the Compensation Committee conducts a thorough review of stock option awards and grant procedures annually. In the case of newly-hired executive officers or promotions, the Compensation Committee has made awards simultaneous with the executive's hire or promotion date. The date on which the Committee has met has varied from year to year, primarily based on the schedules of Committee members and the timing of compilation of data requested by the Committee.

We have not engaged in backdating options. We do not have any program or plan to time option grants in coordination with the release of material non-public information.

What factors do we consider in decisions to increase or decrease compensation materially?

We decreased the base salaries of our executive officers in 2009 in response to the global economic recession but reinstated the prior annual base salaries effective April 5, 2010. Historically, however, we have generally not decreased the base salaries of our executive officers or reduced their annual incentive compensation targets. In fact, under the terms of the employment agreements with certain of our executive officers, we are unable to do so without consent of the executive. As the employment agreements provide for annual salaries and for an annual incentive payment, including, in certain cases, a minimum annual incentive payment. When an executive officer's performance falls short of our expectations, we believe our interests are best served by replacing the executive officer with an executive who performs at the level we expect. Annual incentive compensation may vary since the amount awarded to an executive officer depends in part upon his individual performance. As a result, total compensation is effectively decreased if individual performance is poor. The factors that we consider in decisions to increase compensation include the individual performance of the executive and our corporate performance, as discussed above.

To what extent does our Compensation Committee consider amounts accumulated or potentially realizable from prior compensation in setting current compensation?

The primary focus of our Compensation Committee in setting executive compensation is the executive officer's current level of compensation. Although the Compensation Committee reviews accumulated or potentially realizable compensation, including from previously granted stock options, such review generally does not influence the Compensation Committee's decisions regarding the determination of an executive officer's current level of compensation. This reflects the Compensation Committee's view that an executive officer's compensation level should reflect the executive's performance, the Company's performance and the executive's contribution to the Company's performance. The Compensation Committee further believes that reducing an executive officer's annual direct compensation based on the value of accumulated or potentially realizable compensation would weaken the competitiveness of the Company's compensation program and make it more difficult to attract and retain key executive talent.

What are our equity or other security ownership requirements for executives?

We provide our executive officers with a commensurate portion of their total compensation in the form of stock options and restricted stock units, which are intended to reward performance that enhances value for all of our shareholders and strengthen the alignment of management and shareholder interests. We generally believe that our executive officers should be able to share in the value that they create for all of our shareholders throughout their careers with us. Therefore, we do not maintain minimum share ownership requirements for our executive officers.

Why have we entered into agreements with executive officers that provide for post-employment payments, including following a change-in-control?

The employment agreements with our Chief Executive Officer and our Chief Financial Officer, as well as with other executive officers of the Company, provide for post-employment severance absent a change of control if we terminate the applicable executive (other than for cause) prior to the expiration of the stated employment term. We believe this approach provides us with the flexibility to terminate the applicable executive at any time and for any reason while providing the executive with the benefit of his or her bargained for compensation. The Company's obligations under these agreements would be assumed by a successor to the Company following a change in control. We believe it is in our best interest to have agreements with certain of our executive officers that maintain their focus on, and commitment to, us notwithstanding a potential merger or other change of control. The terms of these employment agreements, including the compensation payable thereunder, were based on our review of the market for key executive talent at the time of hiring and negotiations with the executive officer. Additionally, these agreements contain confidentiality and non-competition provisions.

Do we have a policy regarding the recovery of awards or payments if corporate performance measures upon which awards or payments are based are restated or adjusted in a manner that would reduce the size of an award or payment?

We have not adopted a policy that provides for recovery of an award if a performance measure used to calculate the award is subsequently adjusted in a manner that would have reduced the size of the award. Although we have not previously experienced any such adjustment, if we were to experience such an adjustment, our Compensation Committee would assess the circumstances relating to the adjustment and take such actions as it believes to be appropriate, including, potentially, an action to recover the excess portion of the award.

How do accounting considerations impact our compensation practices?

Accounting consequences are not a material consideration in designing our compensation practices. However, we designed our fiscal 2011 equity awards so that their overall cost fell within a budgeted dollar amount and so that the awards would qualify for classification as equity awards under FASB ASC Topic 718. Under FASB ASC Topic 718 the compensation cost recognized for an award classified as an equity award is fixed for the particular award and, absent modification, is not revised with subsequent changes in market prices of our common shares or other assumptions used for purposes of the valuation.

How do tax considerations impact our compensation practices?

Prior to implementation of a compensation program and awards under the program, we evaluate the federal income tax consequences, both to us and to our executives, of the program and awards. In certain cases, we have adjusted the form or manner of some of our compensation programs in light of tax planning considerations. Before approving a program, our Compensation Committee receives an explanation from our outside professionals as to the tax treatment of the program and awards under the program and assurances from our outside professionals that the tax treatment should be respected by taxing authorities.

Section 162(m) of the Code limits our tax deduction each year for compensation to each of our Chief Executive Officer and our four other highest paid executive officers to \$1 million unless, in general, the compensation is paid under a plan that is performance-related, non-discretionary and has been approved by our shareholders. Generally, Section 162(m) has not had a significant impact on our compensation programs.

How do risk considerations impact our compensation practices?

While risk-taking is a necessary part of growing a business, the Committee believes that the Company's executive compensation program supports the objectives described above without encouraging inappropriate or excessive risk-taking. In reaching this conclusion, the Committee considered in particular the following attributes and risk-mitigation features of our program:

- Our program's emphasis on long-term, equity-based compensation, which discourages risk-taking that produces positive short-term results at the expense of building long-term shareholder value;
- The balance between options and full-value RSUs, which on a combined basis results in what we believe is an appropriate degree of leverage;
- Our program's use of a time horizon over which our executives realize their compensation consistent with achieving long-term shareholder value;
- Our annual cash incentive plan, which encourages annual performance that sustains rather than detracts from future performance;

Fiscal 2011 Executive Compensation

Base Salaries

As noted above, our Compensation Committee annually reviews salaries of our executive officers. However, as discussed above, the employment agreements that we have with certain of our executive officers provide for annual base salaries. Under their employment agreements, Messrs. Guidone, Thomson, Smith and MacGibbon are entitled to minimum annual base salaries of \$450,000, \$240,000, \$200,000 and \$213,000, respectively. However, the annual base salaries for Messrs. Guidone, Thomson, Smith and MacGibbon were reduced in fiscal 2009 to \$396,000, \$216,000, \$180,000, and \$191,700, respectively, in response to the global economic recession. These reductions were in effect through March 2010, with such individuals' prior annual base salaries reinstated effective April 5, 2010.

In making base salary decisions for fiscal 2011 for our executive officers listed in the Summary Compensation Table on page 34 of this proxy statement ("named executive officers"), the Compensation Committee considered (1) the terms of the named executive officer's employment agreement, if any, (2) the performance of the named executive officer, (3) his level of responsibility and experience and (4) overall Company performance levels. The relative weight given to each of these factors varied by position and individual and was within the sole discretion of the Compensation Committee. As noted above, although the Compensation Committee reviews base salaries annually, it does not automatically adjust base salaries on an annual basis. In response to on the economic recession, as noted, the Compensation Committee approved certain decreases in the annual base salaries, but reinstated the prior annual base salaries on April 5, 2010.

Annual Incentive Compensation

For fiscal 2011, we adopted the fiscal year 2011 Bonus Plan (the “2011 Bonus Plan”). The 2011 Bonus Plan determined the amount of annual incentive compensation to be awarded to Company’s named executive officers and certain other eligible employees of the Company as follows. The 2011 Bonus Plan established an aggregate target bonus amount for fiscal year 2011 of \$3.3 million (the “2011 Aggregate Target Bonus”). Pursuant to the 2011 Bonus Plan, the Company would accrue an aggregate bonus amount only if the Company’s fiscal 2011 EBITDA exceeds \$38 million and fiscal 2011 EBITDA margin as a percentage of sales (“2011 EBITDA Margin”) exceeded 17.5%. The actual aggregate bonus amount would be based on the amount by which the Company’s fiscal 2011 EBITDA (excluding the bonus accrual) exceeds the EBITDA (excluding the bonus accrual) that would have resulted if 2011 EBITDA Margin at such level of sales were equal to 17.5% (the “2011 Excess Amount”). Under the 2011 Bonus Plan, the following amounts will be accrued to the aggregate bonus amount: (i) 100% of the 2011 Excess Amount up to a maximum accrual equal to the 2011 Aggregate Target Bonus, plus (ii) 33% of the 2011 Excess Amount above the 2011 Aggregate Target Bonus up to an aggregate accrual of \$4,000,000, plus (iii) 15% of the 2011 Excess Amount above \$4,000,000. The actual aggregate bonus amount accrued by the Company under the 2011 Bonus Plan was then subject to adjustment by the Compensation Committee following the end of the Company’s 2011 fiscal year to determine the amount (if any) that would actually be paid.

The Compensation Committee determined the portion of an actual accrued aggregate bonus amount that would be paid to the Company’s Chief Executive Officer, and determined, in consultation with the Company’s Chief Executive Officer, the amount that will be paid to the other named executive officers and other eligible employees of the Company. For fiscal 2011, the Compensation Committee granted discretionary cash bonuses totaling \$3.7 million and granting restricted stock units (“RSUs”) having a total value of \$0.6 million.

For fiscal 2012, we adopted the fiscal year 2012 Bonus Plan (the “2012 Bonus Plan”). The 2012 Bonus Plan will determine the amount of annual incentive compensation to be awarded to Company’s named executive officers and certain other eligible employees of the Company as follows.

Accrual Calculation. The 2012 Bonus Plan establishes an aggregate target bonus amount for fiscal year 2012 of \$4.0 million (the “2012 Aggregate Target Bonus”). Pursuant to the 2012 Bonus Plan, the Company will accrue an aggregate bonus amount only if the Company’s fiscal 2012 EBITDA margin as a percentage of sales (“2012 EBITDA Margin”) exceeds 19.0%. The actual aggregate bonus amount will be based on the amount by which the Company’s fiscal 2012 EBITDA (excluding the bonus accrual) exceeds the EBITDA (excluding the bonus accrual) that would have resulted if EBITDA Margin at such level of sales were equal to 19.0% (the “2012 Excess Amount”). Under the 2012 Bonus Plan, the following amounts will be accrued to the aggregate bonus amount: (i) 45% of the 2012 Excess Amount up to a maximum accrual equal to the 2012 Aggregate Target Bonus, plus (ii) 20% of the 2012 Excess Amount above the Aggregate Target Bonus.

Adjustment. The actual aggregate bonus amount accrued by the Company under the 2012 Bonus Plan is then subject to adjustment by the Compensation Committee following the end of the Company's 2012 fiscal year to determine the amount (if any) that will actually be paid.

Discretionary Allocation and Employee Distribution. The Compensation Committee will determine the portion of an actual accrued aggregate bonus amount that will be paid to the Company's Chief Executive Officer, and will determine, in consultation with the Company's Chief Executive Officer, the amount that will be paid to the other named executive officers and other eligible employees of the Company.

Long-Term Incentive Compensation

The Compensation Committee uses stock options and restricted stock units as an important part of the long-term incentive compensation program and believes such awards continue to be an effective way to link an executive officer's compensation to the performance of the Company. Awards are intended to encourage each of the executive officers to achieve established performance goals, to continue in the employ of the Company, to enhance their incentive to perform at the highest level, and in general, to further the best interests of the Company and its shareholders.

For fiscal 2011, the Compensation Committee considered the following factors in determining the size of each stock option and restricted stock unit grant awarded to each named executive officer:

- the executive officer's individual performance;
- the executive officer's potential future contributions to the Company and level of responsibility;
 - retention issues and concerns; and
 - the cost of the awards to the Company.

Based on the foregoing, the Compensation Committee awarded the named executive officers the number of stock options set forth in the "Grants of Plan-Based Awards in Fiscal Year 2011" table beginning on page 36 of this proxy statement.

EXECUTIVE AGREEMENTS AND RELATED TRANSACTIONS

Agreement with Frank Guidone

The Company entered into an employment agreement with Frank Guidone, the Company's current Chief Executive Officer, effective as of March 31, 2006. From June 2002 through March 2006, Mr. Guidone served as Chief Executive Officer through consulting arrangements with consulting firms of which Mr. Guidone was a principal. Mr. Guidone's employment agreement is for an initial term of two years with automatic renewal for successive one-year terms unless either party gives timely notice of non-renewal. Under the terms of Mr. Guidone's employment agreement, Mr. Guidone will continue to serve as the Chief Executive Officer at an annual base salary of \$450,000 subject to annual increases at the discretion of the Board of Directors. In response to the economic recession, Mr. Guidone's salary was reduced in fiscal 2009 to \$396,000. Mr. Guidone's prior salary was restored effective April 5, 2010. Mr. Guidone is eligible to receive an annual bonus pursuant to the Company's Bonus Plan, payable in accordance with the terms thereof, based upon annual performance criteria and goals established by the Compensation Committee. Effective April 5, 2010, the Compensation Committee established a target bonus amount of 95% of Mr. Guidone's annual salary. If earned, such target bonus together with Mr. Guidone's base salary would have resulted in total cash compensation of approximately the 75th percentile of the Company's identified peer group. However, a relatively higher portion of such total cash compensation would be earned by Mr. Guidone through incentive compensation as compared to the identified peer group. In addition, Mr. Guidone received a guaranteed bonus in the amount of \$50,000 paid in April 2006 in connection with the execution of his employment agreement. Further, pursuant to Mr. Guidone's employment agreement, upon the termination of employment by Mr. Guidone for good reason, or termination of employment by the Company other than for cause (as such events are described in Mr. Guidone's employment agreement), Mr. Guidone will be entitled to receive a lump sum payment of 150% of his then annual salary. Further, pursuant to the terms of his employment agreement, Mr. Guidone received an option to purchase 300,000 shares of the Company's common stock at an exercise price per share equal to the fair market value of a share of the Company's common stock on March 30, 2006. Upon a change of control of the Company, all unvested options will immediately vest. Mr. Guidone's option was granted pursuant to the Company's 2006 Stock Option Plan and is subject to the terms, conditions and provisions thereof and of the related option award agreement.

On November 6, 2007, the Company and Mr. Guidone entered into an amendment and restatement of Mr. Guidone's employment agreement. The restated employment agreement was approved by the Compensation Committee. The Restated employment agreement, among other things, (1) removes the target bonus amount of 55% of Mr. Guidone's annual salary and provides that the amount of any bonus payable to Mr. Guidone will be determined by the Compensation Committee or the Board, (2) removes the fixed employment term (previously an initial term of two years continuing through March 31, 2008 and automatic renewal terms of one year thereafter) and (3) provides for the payment of severance benefits in the event that Mr. Guidone's employment is terminated by the Company without cause or by Mr. Guidone for good reason. Such severance benefits include a lump sum payment in the amount of (1) accrued but unpaid salary, (2) earned but unpaid bonus, (3) incurred but unreimbursed business expenses plus (4) 150% of Mr. Guidone's annual salary.

On June 6, 2011, the Company and Mr. Guidone entered into an Amendment to Mr. Guidone's amended and restated employment agreement. The amendment was approved by the Compensation Committee. The amendment provides that, in the event severance is due to Mr. Guidone as a result of a termination of employment under the terms of his employment agreement, then the Company shall pay to Mr. Guidone, as additional severance, the amount of unpaid bonus earned by him in the fiscal year preceding such termination and a pro-rata portion of the accrued annual bonus for the fiscal year of termination, the amount of which will be the amount determined by the Board of Directors based on actual performance, multiplied by a fraction, the numerator of which is the number of days during the fiscal year of Mr. Guidone's termination before the date of termination, and the denominator of which is 365.

Effective in July 2011, the Compensation Committee increased Mr. Guidone's base salary to \$500,000 and established a target bonus amount of 100% of Mr. Guidone's annual salary for fiscal 2012.

Agreement with Mark Thomson

The Company entered into an employment agreement with Mark Thomson, the Company's current Chief Financial Officer, effective as of April 2, 2007. Pursuant to his employment agreement, Mr. Thomson will receive an annual base salary of \$230,000, subject to annual increases at the discretion of the Board of Directors or Compensation Committee. During fiscal 2009, Mr. Thomson's salary was increased to \$240,000, but in response to the economic recession, Mr. Thomson's salary was subsequently reduced to \$216,000. Mr. Thomson's prior salary was restored effective April 5, 2010. Effective April 5, 2010, the Compensation Committee increased Mr. Thomson's base salary to \$250,000, or slightly less than the 50th percentile of the Company's identified peer group. Mr. Thomson will be eligible for an annual bonus of up to 40% of his annual salary based on minimum Company and individual performance standards to be determined on an annual basis by management of the Company, except that, with respect to the first year of Mr. Thomson's employment, he was entitled to receive and did receive a guaranteed minimum bonus of \$45,000. Effective April 5, 2010, the Compensation Committee increased Mr. Thomson's target bonus amount to 55% of annual salary. If earned, such target bonus together with Mr. Thomson's base salary would result in total cash compensation of between the 50th and 75th percentiles of the Company's identified peer group. In addition, pursuant to Mr. Thomson's employment agreement, on April 2, 2007 the Company granted Mr. Thomson an option to purchase up to 75,000 shares of the Company's common stock at an exercise price per share equal to the fair market value of a share of the Company's common stock on the date of such grant. A portion of Mr. Thomson's options equal to 50,000 shares will vest over a five year period in equal 20% installments on each of the successive five year anniversaries of the date of the grant contingent on the continued employment of Mr. Thomson with the Company. The remaining 25,000 options are subject to vesting conditions based upon performance targets to be determined by the Compensation Committee, up to a maximum of 5,000 options vesting per year on each of the successive five year anniversaries of the date of the grant. Upon a change of control of the Company, all unvested options will immediately vest. Mr. Thomson's option was granted pursuant to the Company's 2006 Stock Option Plan and will be subject to the terms, conditions and provisions thereof and of the related option award agreement. Furthermore, pursuant to Mr. Thomson's employment agreement, upon the termination of employment by Mr. Thomson for good reason, or termination of employment by the Company other than for cause (as such events are described in the employment agreement), Mr. Thomson will be entitled to receive 100% of his annual salary in effect at the time of such termination to be paid in equal installments over the course of one year in accordance with the Company's payroll practices then in effect.

On June 6, 2011, the Company and Mr. Thomson entered into an Amendment to Mr. Thomson's employment agreement. The amendment was approved by the Compensation Committee. The amendment provides that, in the event severance is due to Mr. Thomson as a result of a termination of employment under the terms of his employment agreement, then the Company shall pay to Mr. Thomson, as additional severance, the amount of unpaid bonus earned by him in the fiscal year preceding such termination and a pro-rata portion of the accrued annual bonus for the fiscal year of termination, the amount of which will be the amount determined by the Board of Directors of the Company based on actual performance, multiplied by a fraction, the numerator of which is the number of days during the fiscal year of Mr. Thomson's termination before the date of termination, and the denominator of which is 365.

Effective in July 2011, the Compensation Committee increased Mr. Thomson's base salary to \$265,000.

Agreement with Steve Smith

The Company entered into an employment agreement with Steve Smith, then its Vice President and General Manager – Asia (now Chief Operating Officer), effective as of December 7, 2005. Pursuant to Mr. Smith's employment agreement, Mr. Smith receives an annual base salary of \$190,000, subject to annual increases at the discretion of the Board of Directors, a moving allowance/sign-on bonus of \$30,000, a housing allowance, reimbursement for return airfare for four (4) trips per year from Shenzhen to the United States, and a "gross-up" payment for any tax and tax preparation obligations incurred as a result of his assignment in China that are less favorable to Mr. Smith than the tax obligations he would incur had he worked at the Company's principal office in Virginia. During fiscal 2009, Mr. Smith's salary was increased to \$200,000, but in response to the economic recession, Mr. Smith's salary was subsequently reduced to \$180,000. Mr. Smith's prior salary was restored effective April 5, 2010. Effective April 5, 2010, the Compensation Committee increased Mr. Smith's base salary to \$215,000, or slightly less than the 50th percentile of the Company's identified peer group. Mr. Smith is eligible for an annual bonus of up to 25% of his annual salary based on minimum Company and individual performance standards to be determined on an annual basis by the Board of Directors. Effective April 5, 2010, the Compensation Committee increased Mr. Smith's target bonus amount to 55% of annual salary. If earned, such target bonus together with Mr. Smith's base salary would result in total cash compensation of between the 50th and 75th percentiles of the Company's identified peer group. In addition, pursuant to Mr. Smith's employment agreement, on November 30, 2005 the Company granted Mr. Smith an option to purchase up to 100,000 shares of the Company's common stock at an exercise price per share equal to the fair market value of a share of the Company's common stock on the date of such grant. Mr. Smith's option vests over a five year period in equal 20% installments on each of the successive five year anniversaries of the date of the grant contingent on the continued employment of Mr. Smith with the Company. Upon a change of control of the Company, all unvested options will immediately vest. Mr. Smith's option was granted pursuant to the Company's 2003 Stock Option Plan and is subject to the terms, conditions and provisions thereof and of the related option award agreement. Furthermore, pursuant to Mr. Smith's employment agreement, upon the termination of employment by Mr. Smith for good reason, or termination of employment by the Company other than for cause (as such events are described in the employment agreement), Mr. Smith will be entitled to receive 100% of his annual salary in effect at the time of such termination to be paid semi-monthly and an allowance of up to \$10,000 for repatriation and relocation to the United States.

On June 6, 2011, the Company and Mr. Smith entered into an Amendment to Mr. Smith's employment agreement. The amendment was approved by the Compensation Committee. The amendment provides that, in the event severance is due to Mr. Smith as a result of a termination of employment under the terms of his employment agreement, then the Company shall pay to Mr. Smith, as additional severance, the amount of unpaid bonus earned by him in the fiscal year preceding such termination and a pro-rata portion of the accrued annual bonus for the fiscal year of termination, the amount of which will be the amount determined by the Board of Directors of the Company based on actual performance, multiplied by a fraction, the numerator of which is the number of days during the fiscal year of Mr. Smith's termination before the date of termination, and the denominator of which is 365.

Effective in July 2011, the Compensation Committee increased Mr. Smith's base salary to \$225,000.

During fiscal 2009, Mr. MacGibbon's salary was increased to \$213,000, but in response to the economic recession, Mr. MacGibbon's salary was subsequently reduced to \$191,700. Mr. MacGibbon's prior salary was restored effective April 5, 2010. Effective April 5, 2010, the Compensation Committee increased Mr. MacGibbon's base salary to \$230,000, or slightly more than the 75th percentile of the Company's identified peer group. Mr. MacGibbon is eligible for an annual bonus of up to 60% of his annual salary based on minimum Company and individual performance standards to be determined on an annual basis by management of the Company. Effective April 5, 2010, the Compensation Committee increased Mr. MacGibbon's target bonus amount to 65% of annual salary. If earned, such target bonus together with Mr. Smith's base salary would result in total cash compensation of approximately the 75th percentile of the Company's identified peer group. However, a relatively higher portion of such total cash compensation would be earned by Mr. MacGibbon through incentive compensation as compared to the identified peer group. In addition, pursuant to Mr. MacGibbon's employment agreement, Mr. MacGibbon is eligible for an annual grant of options to purchase up to 15,000 shares of the Company's common stock as the Company may determine from time to time. Mr. MacGibbon's options granted pursuant to his employment agreement shall vest over a three year period in equal installments on each of the successive three year anniversaries of the date of the grant contingent on the continued employment of Mr. MacGibbon with the Company. On June 6, 2011, the Company and Mr. MacGibbon entered into an Amendment to Mr. MacGibbon's employment agreement. The amendment was approved by the Compensation Committee. The amendment provides that, in the event severance is due to Mr. MacGibbon as a result of a termination of employment under the terms of his employment agreement, then the Company shall pay to Mr. MacGibbon, as additional severance, the amount of unpaid bonus earned by him in the fiscal year preceding such termination and a pro-rata portion of the accrued annual bonus for the fiscal year of termination, the amount of which will be the amount determined by the Board of Directors of the Company based on actual performance, multiplied by a fraction, the numerator of which is the number of days during the fiscal year of Mr. MacGibbon's termination before the date of termination, and the denominator of which is 365.

SHAREHOLDER PROPOSALS FOR THE 2012 ANNUAL MEETING

Shareholders who wish to present proposals to be considered for inclusion in the Company's proxy materials for the 2012 Annual Meeting of Shareholders must submit such proposals to our Secretary at Measurement Specialties, Inc., 1000 Lucas Way, Hampton, VA 23666 by March 31, 2012. For any proposal that is not submitted for consideration for inclusion in next year's proxy materials, but is instead sought to be presented directly at the 2012 Annual Meeting, SEC rules permit us to exercise discretionary voting authority to the extent conferred by proxy if we: (1) receive notice of the proposal before June 25, 2012 and advise shareholders in the 2011 proxy statement of the nature of the proposal and how management intends to vote on such matter or (2) do not receive notice of the proposal before June 25, 2012. Notices of intention to present proposals at the 2012 Annual Meeting should be submitted to our Secretary at Measurement Specialties, Inc., 1000 Lucas Way, Hampton, VA 23666.

Our by-laws provide that a shareholder entitled to vote for the election of directors may nominate persons for election to our Board of Directors by delivering written notice to our Secretary. With respect to an election to be held at an annual meeting of shareholders, such notice generally must be received by our Secretary not later than the close of business on the 90th day nor earlier than the close of business on the 120th day before the first anniversary of the preceding year's annual meeting. In the event that the date of an annual meeting is more than 30 days before or more than seventy days after the first anniversary of the preceding year's annual meeting, such notice must be received by our Secretary not earlier than the close of business on the 120th day before the annual meeting and not later than the close of business on the later of the 90th day before the annual meeting or the 10th day following the day on which we publicly announce the date of the annual meeting. With respect to an election to be held at a special meeting of shareholders, such notice must be received by our Secretary not earlier than the close of business on the 120th day before such special meeting, and not later than the close of business on the later of the 90th day before such special meeting or the 10th day following the day on which we publicly announce the date of the special meeting and the nominees proposed by our Board of Directors to be elected at such special meeting.

The shareholder's notice must include:

- as to each person whom the shareholder proposes to nominate for election as a director:
 - all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest or is otherwise required pursuant to Regulation 14A under the Exchange Act; and
 - such person's written consent to being named in the proxy statement as a nominee and to serving as such a director if elected; and
 - as to the shareholder giving the notice and the beneficial owner, if any, on whose behalf the nomination is made:

- the name and address of such shareholder, as they appear on our books, and of such beneficial owner;
- (a) the class and number of shares of capital stock of the Company that are owned beneficially and of record by such shareholder and such beneficial owner, and (b) any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege or a settlement payment or mechanism at a price related to any class or series of shares of the Company or with a value derived in whole or in part from the value of any class or series of shares of the Company, whether or not such instrument or right shall be subject to settlement in the underlying class or series of capital stock of the Company or otherwise directly or indirectly owned beneficially by such shareholder and any other direct or indirect opportunity to profit or share in any profit derived from any increase or decrease in the value of shares of the Company;
- a representation that the shareholder is a holder of record of the Company's common stock entitled to vote at such meeting and intends to appear in person or by proxy at the annual meeting to propose such nomination; and
- a representation whether the shareholder or the beneficial owner, if any, intends or is part of a group that intends (1) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the Company's common stock required to elect the nominee and/or (2) otherwise to solicit proxies from shareholders in support of such nomination.

Because the 2011 annual meeting is to be held on September 22, 2011, written notice of a shareholder proposal to be acted upon at the 2011 annual meeting must be received by our Secretary not later than the close of business on June 25, 2012, nor earlier than the close of business on May 25, 2012.

In order for a shareholder to bring other business before a shareholder meeting, notice must be received by our Secretary within the time limits described in the immediately preceding paragraph. The shareholder's notice must contain:

- as to each matter:
 - a brief description of the business desired to be brought before the annual meeting;
 - the text of the proposal or business (including the text of any resolutions proposed for consideration and in the event that such business includes a proposal to amend our by-laws, the language of the proposed amendment);
 - the reasons for conducting such business at the annual meeting; and

- any material interest in such business of such shareholder and for the beneficial owner, if any, on whose behalf the proposal is made; and
- as to the shareholder giving the notice and the beneficial owner, if any, on whose behalf the proposal is made, the information described above with respect to the shareholder proposing such business.

The requirements found in our by-laws are separate from and in addition to the requirements of the Securities and Exchange Commission that a shareholder must meet to have a proposal included in our proxy statement.

OTHER MATTERS

The Board of Directors is not aware of any matters other than those set forth in this proxy statement that will be presented for action at the Annual Meeting. However, if any other matter should properly come before the meeting, the persons authorized by the accompanying proxy will vote and act with respect thereto, in what according to their judgment, is in the interests of the Company and its shareholders.
