Crown Equity Holdings Inc.  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of Crown Equity Holdings Inc. ("Crown Equity") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited consolidated financial statements and notes thereto contained in Crown Equity's December 31, 2010 Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year end December 31, 2010 as reported on Form 10-K, have been omitted. Certain prior period amounts have been reclassified to conform to current period presentation.

NOTE 2 - GOING CONCERN

As shown in the accompanying financial statements, Crown Equity has an accumulated deficit of \$5,928,784 as of June 30, 2011. Unless profitability and increase in shareholders equity continues, these conditions raise substantial doubt as to Crown Equity's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if Crown Equity is unable to continue as a going concern.

NOTE 3 – MARKETABLE SECURITIES

Marketable securities are classified as available-for-sale and are presented in the balance sheet at fair market value.

Per Accounting Standards Codification 820 "Fair Value Measurement", fair values defined establishes a framework for measuring fair value under generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820 does not require any new fair value measurements.

ASC 820 establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs that are not corroborated by market data

Crown Equity has classified these marketable securities at level 1 with a fair value of \$2,260,800 and \$1,295,751 as of June 30, 2011 and December 31, 2010, respectively.

Per Accounting Standards Codification 825 “The Fair Value Option for Financial Assets and Financial Liabilities—Including an Amendment of FASB Statement No. 115”, an entity is permitted to irrevocably elect fair value on a contract-by-contract basis for new assets or liabilities within the scope of ASC 825 as the initial and subsequent measurement attribute for those financial assets and liabilities and certain other items including property and casualty insurance contracts. Entities electing the fair value option are required to (i) recognize changes in fair value in earnings and (ii) expense any up-front costs and fees associated with the item for which the fair value option is elected. Entities electing the fair value option are required to distinguish, on the face of the statement of financial position, the fair value of assets and liabilities for which it has elected the fair value option, and similar assets and liabilities measured using another measurement attribute. An entity can accomplish this either by reporting the fair value and non-fair-value carrying amounts as separate line items or by aggregating those amounts and disclosing parenthetically the amount of fair value included in the aggregate amount.

Crown Equity adopted ASC 825 during the third quarter of fiscal 2009 and elected the fair value option for their marketable securities. The related gain/loss based on valuation on the mark to market each balance sheet date is reflected in the income statement.

#### NOTE 4 – REVENUE RECOGNITION

The Company provides various consulting services to companies and individuals dealing with corporate structure and operations globally. Crown Equity’s revenue is recognized pursuant to ASC 605 “Revenue Recognition.” The Company recognizes its revenue from services as those services are performed. Revenue recognition is limited to the amount that is not contingent upon delivery of any future product or service or meeting other specified performance conditions. Product sales, accounted for within fulfillment services, are recognized upon shipment to the customer and satisfaction of all obligations.

Contract revenues include royalties under license and collaboration agreements. Contract revenue related to technology licenses is fully recognized only after the license period has commenced, the technology has been delivered and no further involvement of Crown Equity is required.

Crown Equity receives payment for its services in both cash and equity instruments issued by the customer. The equity instruments are accounted for in accordance with the provisions of ASC 718 “Compensation – Stock Compensation” and is based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date of the fair value of the equity instrument issued is the date on which they are received by Crown Equity.

Amounts received for revenue not earned as of period end are accounted for as deferred revenues. As of June 30, 2011 and December 31, 2010, there was \$343,887 and \$216,095, respectively of deferred revenue.

#### NOTE 5 - RELATED PARTY TRANSACTIONS

On December 2, 2009, the Company signed a one year lease for 2,400 square feet of office space. The rent for the space is \$2,400 per month. The landlord is related to one of the officers of the Company. The lease was renewed on January 1, 2011 for one more year.

On November 20, 2009, the Company converted accounts payable and advances from Montse Zaman, a related party, of \$71,184 to a three-year unsecured note maturing on November 19, 2012. As of June 30, 2010 the balance increased by \$10,000 to \$81,184. During the period ending September 30, 2010 the amount outstanding was reduced by a payment of \$2,000 to \$79,184. Interest is incurred at 12% per annum unless the principal and interest are not paid by maturity at which time the interest rate accelerates to 18% per annum.

During the quarter ended March 31, 2007, the Company borrowed \$12,700 from Phoenix Consulting Services Inc. controlled by a related party. The loan is unsecured and matured on April 1, 2008 and accrued interest at 12% per annum. The note may be converted into common shares of the company at the holder's option at a conversion price to be determined in the future. Amounts outstanding under this agreement subsequent to April 1, 2008 accrued interest at 18% per annum. On November 20, 2009, the note including principal and interest totaling \$16,025 was converted to a long term note due November 19, 2012 with principal and interest due at maturity. If the principal and interest are not paid by maturity, the interest rate accelerates to 18% per annum. As of June 30, 2011 the outstanding principal balance due to the Montse Zaman and Phoenix Consulting Services was \$95,209 plus accrued interest of \$18,787 for a total of \$113,996.

#### NOTE 6 – EQUITY

During March 2011, Crown Equity designated 1,000,000 of its authorized preferred stock as Series A convertible preferred stock. The Series A has a par value of \$0.001 and each share is convertible into 100 common shares at the option of the holder.

During the six months ended June 30, 2011, Crown Equity issued 34,125,913 common shares for services with a total value of \$646,821 as follows:

- 14,125,913 shares of common stock for compensation for \$246,821;
- 20,000,000 shares of common stock for consulting services for \$400,000.

During the six months ending June 30, 2011 the Company issued 600,000 shares of Class A preferred shares for \$600,000 cash. Each share is convertible into 100 common shares at the option of the holder. Crown Equity evaluated the convertible preferred stock under FASB ASC 470-20-30 and determined it contained a beneficial conversion feature. The intrinsic value of the beneficial conversion feature was determined to be \$600,000. The beneficial conversion feature was fully amortized during the six months ended June 30, 2011 and recorded as a deemed dividend.

NOTE 7 - CONTINGENCIES

In November, 2010, the Company, along with other individuals and entities, was named in a lawsuit filed federal court for the District of Nevada. The amended complaint alleges securities violations, breach of contract and defamation. The Company has engaged legal representation and believes the complaint and its allegations to be wholly without merit. The Company has filed a motion to dismiss and intends to vigorously defend itself in this matter, which the Company believes to be wholly without merit. The lawsuit was settled in July 2011 (see Note 8).

NOTE 8 – SUBSEQUENT EVENTS

During July 2011, Crown Equity issued an aggregate of 6,412,500 common shares for services accrued at June 30, 2011 valued at \$128,250.

On July 27, 2011 the Company along with individuals named in the lawsuit filed in the District of Nevada court was settled and dismissed (see Note 7). There is no penalty owed by Crown Equity under the settlement.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS

This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Crown Equity's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in Crown Equity's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

In December, 2010, the Company formed two wholly owned subsidiaries Crown Tele Services, Inc. and Crown Direct, Inc. Crown Tele Services, Inc. was formed to provide voice over internet ("VoIP") services to clients at a competitive price and Crown Direct, Inc. was formed to provide direct sales to customers. Both entities had minimum sales during the quarter.

In March, 2011, the Company formed a wholly owned subsidiary CRWE Real Estate, Inc. as a subsidiary to engage in potential real estate holdings. The entity had minimal activity during the quarter.

The Company has focused its primary vision to using its network of websites to provide advertising and marketing services, as a worldwide online media advertising publisher, dedicated to the distribution of quality branding information. The Company then publishes information concerning these companies on its many websites. The Company is paid in cash and/or stock of the customer companies. The Company has numerous consulting and service customers and is therefore not dependent on any particular customer for a majority of its revenue.

As of June 30, 2011, Crown Equity had 15 employees and utilizing the services of 6 independent contractors and consultants.

## RESULTS OF OPERATIONS

For the three and six month periods ending June 30, 2011, revenues were \$1,043,647 and \$1,388,879, respectively and for the same periods in 2010, revenues were \$349,212 and \$673,988, respectively. Net income of \$1,530,701 and \$29,775 were recorded for the three and six months in the period ending June 30, 2011 compared to net losses of \$74,612 and \$201,658 for the same periods in 2010. The net income for the three and six month period ending June 30, 2011 consisted of operating income of \$609,587 and \$166,448, respectively. This compared to operating losses of \$35,216 and \$26,739 for the same periods in 2010. Other income and expenses for the three and six month periods ending June 30, 2011 was income of \$921,114 and expenses of \$136,673, respectively. This compared to other expenses of \$39,396 and \$174,919 for the same periods in 2010. We incurred unrealized gains in the three months ending June 30, 2011 of \$924,938 compared to unrealized losses of \$35,170 for the three month in 2010. We incurred unrealized losses of \$112,866 for the six months ended June 30, 2011 and \$169,195 for the three month period in 2010. These unrealized gains and losses were a significant part of the variation in income and losses between periods.

General and administrative expense increased to \$1,209,683 from \$603,037 for the six months ended June 30, 2011 and 2010 and to \$426,771 from \$378,083 for the three month periods. Interest expense incurred during the three and six month periods ending June 30, 2011 was \$2,930 and \$5,860, respectively, compared \$2,916 and \$5,832 for the same periods in 2010. Crown Equity will attempt to carry out its business plan as discussed above; however, it cannot predict to what extent its capital resources could hinder its business plan.

## LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2011, Crown Equity had current assets of \$2,844,069 and current liabilities of \$506,173, resulting in working capital of \$2,337,896. Stockholders' equity as of June 30, 2011 was \$2,294,549. The working capital ratio was 5.62 as of June 30, 2011.

Net cash used in operations for the six months ending June 30, 2011 was \$573,998 compared to net cash used of \$28,493 for the same period in 2010, a change of \$545,505. Net cash provided by investing activities for the six months ending June 30, 2011 was \$382,875 compared to \$24,533 for the same period in 2010, a change of \$358,342. The cash provided in investing activities was due to the sale of stock received in payment for work completed by the Company.

Net cash provided by financing activities during the six months ended June 30, 2011 was \$600,000 compared to net cash provided of \$34,678 in 2010, an increase of \$565,322. The change was due primarily to the issuance of Series A convertible preferred shares for \$600,000.

Our existing capital may not be sufficient to meet Crown Equity's cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. This condition raises substantial doubt as to Crown Equity's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if Crown Equity is unable to continue as a going concern.

## EMPLOYEES

As of June 30, 2011, Crown Equity had 15 employees.

## ITEM 3: CONTROLS AND PROCEDURES

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, Crown Equity is not required to provide information required under this Item.

## ITEM 4T: CONTROLS AND PROCEDURES

### (a) Evaluation of Disclosure Controls and Procedures

Based on their evaluation of our disclosure controls and procedures(as defined in Rule 13a-15e under the Securities Exchange Act of 1934 the "Exchange Act"), our principal executive officer and principal financial officer have concluded that as of the end of the period covered by this quarterly report on Form 10-Q such disclosure controls and procedures were not effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms because of the identification of a material weakness in our internal control over financial reporting which we view as an integral part of our disclosure controls and procedures. The material weakness relates to the lack of segregation of duties in financial reporting, as our financial reporting and all accounting functions are performed by an external consultant with no oversight by a professional with accounting expertise. Our CEO and CFO do not possess accounting expertise and our company does not have an audit committee. This weakness is due to the company's lack of working capital to hire additional staff. To remedy this material weakness, we intend to engage another accountant to assist with financial reporting as soon as our finances will allow.

### Changes in Internal Control over Financial Reporting

Except as noted above, there have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our first quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### ITEM 1: LEGAL PROCEEDINGS.

The amended complaint alleges securities violations, breach of contract and defamation. The Company has engaged legal representation and believes the complaint and its allegations to be wholly without merit. The Company has filed a motion to dismiss and intends to vigorously defend itself in this matter. The lawsuit was settled during July 2011.

On March 18, 2011 the Company filed an 8-K that the Board of Directors of the Company approved the filing of an amendment to the Company's previously filed Certificate of Designation for its Series A Preferred Stock. The amendment was filed on March 10, 2011. Previously, the Company had authorized 25,000 shares of its Series A Preferred Stock with each Series A share convertible into ten thousand (10,000) shares of the Company's common stock. The Board of Directors amended the Series A Preferred Stock by increasing the number of shares of the class to 1,000,000 shares, each convertible into 100 shares of common stock at the holder's option. The Company also reported that it sold 600,000 shares of its Series A Preferred Stock to an unrelated third-party for \$600,000. The terms of the Series A Preferred Stock provide that the holder can convert the Preferred A Shares to common at its option. If the Series A Stock were converted to common stock, the number of common shares issuable would be 60,000,000 shares.
