Form 10-Q
May 16, 2016

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

x Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended March 31, 2016 or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File Number: 000-28383

Table Trac, Inc.

(Exact Name of Registrant as Specified in its Charter)

Nevada 88-0336568
(State or Other Jurisdiction of Incorporation or Organization) (I.R.S. Employer Identification Number)

6101 Baker Road, Suite 206, Minnetonka, Minnesota 55345

(Address of Principal Executive Offices) (Zip Code)

Edgar Filing: TABLE TRAC INC - Form 10-Q

Registrant's telephone number, including area code: (952) 548-8877

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 10, 2016, the registrant had outstanding 4,525,265 shares of common stock, \$.001 par value per share.

TABLE TRAC, INC.

NOTES TO CONDENSED FINANCIAL STATEMENTS

1. Nature of Business and Summary of Significant Accounting Policies –

Basis of Presentation

The accompanying unaudited condensed financial statements of Table Trac, Inc. (the “Company,” or “Table Trac”) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. The balance sheet as of March 31, 2016 and the statements of operations for the three months ended March 31, 2016 and 2015, and the statement of cash flows for the three months ending March 31, 2016 and 2015 are unaudited but include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the financial position at such date and the operating results and cash flows for those periods. Certain information normally included in financial statements and related footnotes prepared in accordance with generally accepted accounting principles has been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. The accompanying financial statements should be read in conjunction with the financial statements and notes included in the Table Trac Annual Report on Form 10-K for the year ended December 31, 2015.

Nature of Business

Table Trac was formed under the laws of the State of Nevada in June 1995. The Company has its offices in Minnetonka, Minnesota. The Company has developed and sells an information and management system that automates and monitors various aspects of the operations of casinos.

Table Trac provides system sales and technical support to casinos. System sales include installation, custom casino system configuration, and training. In addition, license and technical support are provided under separate license and service contracts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The Company uses estimates and assumptions in accounting for the following significant matters, among others: revenue recognition, realizability of accounts receivable, the valuation of deferred tax assets and liabilities, deferred revenue and costs, and other contingencies. Actual results could differ from those estimates.

Revenue Recognition

The Company derives revenues from the sales of systems, licenses and maintenance fees, and services, and rental agreements.

System Sales

Revenue from systems that have been demonstrated to meet customer specifications during installation is recognized when evidence of an arrangement exists, the product has been delivered, title and risk of loss have transferred to the customer and collection of the resulting receivable is reasonably assured. System sales, which are accounted for as multiple-element arrangements, include multiple products and/or services. For multiple-element arrangements, the Company allocates the revenue to each element based on the hierarchy of estimated selling price for the deliverables. The selling price for each deliverable will be based on vendor specific objective evidence (VSOE), Third Party Evidence (“TPE”) if VSOE is not available, or estimated selling price if neither VSOE nor TPE is available. The Company recognizes the associated revenue when all revenue recognition criteria have been met for each element. If there are contracts the Company does not have VSOE or TPE of all elements, the Company would follow the selling price hierarchy to allocate arrangement consideration.

The Company does offer its customers contracts with extended payment terms. The Company must evaluate if any extended payment terms in the contract is an indicator of the revenue not being fixed or determinable. Provided all other revenue recognition criteria have been satisfied, the Company recognizes the revenue if payment of a significant portion of the systems sales is due within 12 months of the delivery of the product. The Company also analyzes its standard business practice of using long-term contracts and the history of collecting on extended payment term contracts without making concessions for determining if revenue should be recognized. Revenue and associated costs of sales are deferred if contract terms exceed historical collection results or if a substantial portion of the contract is not due within 12 months after delivery of the product. The Company analyzes each contract for proper revenue recognition based on that contract's facts and circumstances. Interest is recorded upon receipt to "other income" on the statements of operations.

Maintenance revenue

Maintenance revenue is recognized ratably over the contract period. The VSOE for maintenance is based upon the renewal rate for contracted services.

Service revenue

Service revenue is recognized after the services are performed and collection of the resulting receivable is reasonably assured. The VSOE for service revenue is established based upon actual selling prices for the services.

Rental revenue

The Company may offer customers a rental contract. Revenues are billed monthly on a per-game per-day basis. There is an option to purchase the system after the rental contract expires at a pre-determined residual value.

Deferred System Sales Costs

Deferred system sales costs consist of installed system costs incurred on participation-based contracts. These costs are recognized on a straight-line basis over the term of the contract which is generally 18-48 months beginning when revenues are generated. At the end of the contract period, the customer will usually receive title to the system. These

costs are included in other long-term assets on the balance sheet.

Accounts Receivable / Allowance for Doubtful Accounts

Accounts receivable are recorded at the invoiced amount. Accounts receivable are recorded at net realizable value, which includes foreign currency translation as of each balance sheet date. Accounts receivable include unsecured regular customer receivables and unsecured amounts from financed contracts coming due within 12 months. Amounts from financed contracts due beyond 12 months are recorded as "Long-term accounts receivable – financed contracts." Interest is recorded upon receipt to other income on the statements of operations. An allowance for doubtful accounts is recorded when the Company believes the amounts may not be collected. Management believes that receivables, net of the allowance for doubtful accounts, are fully collectible. Accounts receivable are written off when management determines collection is no longer likely. While the ultimate result may differ, management believes that any write-off not allowed for will not have a material impact on the Company's financial position.

Major Customers

The following tables summarize major customer information for the three months ended March 31, 2016 and 2015:

| | For the Three Months Ended March 31 | | | |
|------------|-------------------------------------|--------|---------|--------|
| | 2016 | | 2015 | |
| | % Sales | % AR | % Sales | % AR |
| A | 8.3 % | 5.8 % | 51.6 % | 21.3 % |
| B | 2.6 % | 0.4 % | 1.8 % | 11.5 % |
| C | 6.0 % | 5.5 % | 4.1 % | 13.9 % |
| D | 10.1 % | 9.8 % | 7.0 % | 3.0 % |
| E | 17.8 % | 30.1 % | 0.0 % | 0.0 % |
| All Others | 55.2 % | 48.4 % | 35.5 % | 50.3 % |
| Total | 100.0% | 100.0% | 100.0% | 100.0% |

The Company does derive a portion of its revenue from foreign customers. For the three month periods ending March 31, 2016 and 2015, sales to customers in South America represent 16.8% and 11.7% of total sales, respectively.

Inventory

Inventory, consisting of finished goods, is stated at the lower of cost or market. The average cost method, which approximates the first in, first out method, is used to value inventory. Inventory is reviewed annually for the lower of cost or market and obsolescence. Any material cost found to be above market value or considered obsolete is written down accordingly. The inventory value as of March 31, 2016 was \$793,273, which included work-in-process of \$109,417. The Company had no obsolescence reserve at March 31, 2016 or December 31, 2015.

Research and Development

The Company expenses all costs related to research and development as incurred. Research and development expense was \$3,865 and \$11,282 for the three months ended March 31, 2016 and 2015, respectively. Research and development expenses are included in selling, general and administrative expenses on the statements of operations.

2. Accounts Receivable –

Accounts receivable consisted of the following at:

| | March 31, 2016 | December 31, 2015 |
|--|-------------------|----------------------|
| Accounts receivable under normal 30 day terms | \$513,886 | \$664,938 |
| Financed contracts: | | |
| Current portion of long-term | 1,679,969 | 2,015,389 |
| Long-term, net of current portion | 2,164,180 | 1,569,285 |
| Total accounts receivable | 4,358,035 | 4,249,612 |
| Less allowance for doubtful accounts | (185,397) | (185,397) |
| Accounts receivable, net | \$4,172,638 | \$4,064,215 |
| Presented on the balance sheet as: | | |
| Accounts receivable, net | \$2,008,458 | \$2,494,930 |
| Long-term accounts receivable - financed contracts | 2,164,180 | 1,569,285 |

The allowance for financed and trade receivable represents management's estimate of probable losses in our trade and financed receivables as of the date of the financial statements. The allowance provides for probable losses that have been identified with specific customer relationships and for probable losses believed to be inherent of the trade and financed receivables, but that have not been specifically identified.

Accounts receivable includes financed contracts at March 31, 2016 and December 31, 2015 which are \$3,844,149 and \$3,584,674, respectively, with an offset accounting for deferred revenues on the balance sheets of \$3,597,535 and \$2,890,467, respectively.

A roll-forward of the Company's allowance for doubtful accounts is as follows:

| | March 31, 2016 | December 31, 2015 |
|--|-------------------|----------------------|
| Accounts receivable allowance, beginning of year | \$ 185,397 | \$ 101,079 |
| Provision adjustment during period | 0 | 84,318 |
| Write-off | 0 | 0 |
| Accounts receivable allowance, end of period | \$ 185,397 | \$ 185,397 |

The allowance for doubtful accounts is \$185,397 for the trade receivables and \$0 for the financed contracts at both March 31, 2016 and December 31, 2015.

3. Stockholders' Equity –

Stock Repurchase Program

On December 23, 2014, the Company's Board of Directors approved the repurchase of its outstanding shares of up to \$100,000 of its common stock from private unsolicited sellers' paper certificate blocks (non-street name) in the open market until September 30, 2015, which was subsequently extended by the Board of Directors. On March 17, 2015, the Company's Board of Directors approved another repurchase of up to \$75,000 for the same program. On September 4, 2015, the Company's Board of Directors approved another repurchase of up to \$50,000 for the same program. The remaining amount approved for repurchasing common stock is \$23,955 as of March 31, 2016. Company insiders are prohibited from participating in the stock repurchase program. Since the beginning of the program, the Company has repurchased 213,969 shares at an average price of \$.94 per share through March 31, 2016.

During the three month period ended March 31, 2016, the Company repurchased 10,000 shares for approximately \$9,200 at an average price of \$.92 per share for its treasury. In March 2016, the Company issued 7,500 shares at a price of \$.85 per share from its treasury to a director, for services rendered during the period July 1, 2015 through December 31, 2015, for a total expense of \$6,375. As of March 31, 2016, the Company holds 125,969 common shares in treasury for future employee issuances for potential bonuses. Such common shares in treasury include shares repurchased pursuant to the stock repurchase program.

4. Income Tax –

The Company accounts for income taxes by following the asset and liability approach to accounting for income taxes. Deferred tax assets and liabilities represent the future tax consequences of the differences between the financial statement carrying amounts of assets and liabilities versus the tax basis of assets and liabilities. Under this method, deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards. Deferred tax liabilities are recognized for taxable temporary differences. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The impact of the tax rate changes on deferred tax assets and liabilities is recognized in the year that the change is enacted. Management believes that any write-off not allowed for will not have a material impact on the Company's financial position.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. Based on its evaluation, the Company believes that it has no significant unrecognized tax positions. The Company's evaluation was performed for the tax years ended December 31, 2012 through 2015, which are the tax years that remain subject to examination by major tax jurisdictions as of March 31, 2016. The Company does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

The Company may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to its financial results. In accordance with current guidance, the Company classifies interest and penalties as income tax expense is incurred.

5. Earnings (Loss) Per Share –

The Company computes earnings (loss) per share under two different methods, basic and diluted, and presents per-share data for all periods in which statements of operations are presented. Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock and common stock equivalents outstanding.

The following table provides a reconciliation of the numerators and denominators used in calculating basic and diluted loss per share for the three months ended March 31, 2016 and 2015:

| | For the Three Months Ended March 31, | |
|--|---|-----------|
| | 2016 | 2015 |
| Basic and diluted earnings per share calculation: | | |
| Net income (loss) to common stockholders | \$(136,854) | \$87,162 |
| Weighted average number of common shares outstanding | 4,525,710 | 4,660,109 |
| Basic and diluted net income (loss) per share | \$(0.03) | \$0.02 |

The Company has no common stock equivalents outstanding as of March 31, 2016 or March 31, 2015.

6. Foreign Currency Exchange Rate Risk

The Company is exposed to foreign currency risks that arise from some of its foreign customers in Colombia, transacted in Colombia Pesos. In addition, exchange rate fluctuations may cause our international results to fluctuate when translated into U.S. dollars. These risks may change over time as business practices evolve and could have an impact on the Company's financial results in the future due to the long term nature of the Company's accounts receivable in Colombia, which totaled approximately \$411,000 at March 31, 2016. The Company monitors its risk associated with the volatility of certain foreign currencies against the U.S. dollar.

7. Commitment and Contingencies

During 2015, the Company entered into an agreement with a contractor to design and execute on a sales and marketing strategy for the Company in key Latin American and Caribbean gaming jurisdictions. The agreement expires July 14, 2016 unless terminated earlier in accordance with the terms of the Agreement. The remaining commitment as of March 31, 2016 is approximately \$22,000.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our Management's Discussion and Analysis of Financial Condition and Results of Operations set forth below should be read in conjunction with our audited financial statements, and notes thereto, contained in our Form 10-K filed with the SEC on March 30, 2016 relating to our year ended December 31, 2015.

Forward-Looking Statements

Some of the statements made in this section of our report are forward-looking statements. These forward-looking statements generally relate to and are based upon our current plans, expectations, assumptions and projections about future events. Our management currently believes that the various plans, expectations, and assumptions reflected in or suggested by these forward-looking statements are reasonable. Nevertheless, all forward-looking statements involve risks and uncertainties and our actual actions or future results may be materially different from our plans, objectives or expectations, or our assumptions and projections underlying our present plans, objectives and expectations, which are expressed in this report.

In light of the foregoing, prospective investors are cautioned that the forward-looking statements included in this filing may ultimately prove to be inaccurate - even materially inaccurate. Because of the significant uncertainties inherent in such forward-looking statements, the inclusion of such information should not be regarded as a representation or warranty by Table Trac or any other person that our objectives, plans, expectations or projections that are contained in this filing will be achieved in any specified time frame, if ever.

General Overview

Table Trac, Inc. is a Nevada corporation, formed on June 27, 1995, with principal offices in Minnetonka, Minnesota.

The Company has developed and patented (U.S. patent # 5,957,776) a proprietary information and management system (called our "Table Trac" system) that automates and monitors the operations of casino table game operations. In addition to its table games management system, Table Trac has been adding functionality to related casino system modules for guest rewards and loyalty club, marketing analysis, guest service, promotions, administration / management, vault / cage management and audit / accounting tasks. Aggregated together, all of these modules have become the "Casino Trac" product, a full-featured Casino Management System (CMS) offering what we believe to be a powerful combination of value, efficiency and reliability for casinos seeking to add or upgrade their casino systems.

The Company sells systems and technical support to casinos. The open architecture of the Table Trac system is designed to provide operators with a scalable and flexible system that can interconnect and operate with most third-party software or hardware. Key products and services include modules designed to drive player tracking programs and kiosk promotions, as well as vault and cage controls. The Company's systems are designed to meet strict auditing, accounting and regulatory requirements applicable to the gaming industry. The Company has developed a patented, real-time system that automates and monitors the operations of casino gaming tables. The Company continues to increase its market share by expanding its product offerings to include new system features, and ancillary products.

During the first quarter of 2016, the Company delivered three casino management systems with an aggregate value of approximately \$864,000, and was in the process of delivering two additional systems to new customers. Approximately \$695,000 of the revenue for the delivered product will be recognized in future periods, since a substantial amount is not due within 12 months, and will build on the current recurring monthly revenues of the Company. At the end of the quarter, the Company had casino management systems, table games management systems and ancillary products installed with on-going support and maintenance contracts at 74 casinos worldwide. In addition, the Company signed four contracts during the first quarter with a total value of approximately \$1,738,000 for product delivery scheduled for the second quarter of 2016. Some revenue from some of these contracts will be recognized immediately, while some will be recognized in future quarters.

Discussion of Critical Accounting Policies

There were no changes to our accounting policies for the quarter. For our existing policies, see Note 1 in our financial statements in our Annual Report on Form 10-K for the year ended December 31, 2015.

Results of Operations - Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

During the three months ended March 31, 2016, loss from operations was \$211,710 compared to income from operations of \$127,574 for the three months ended March 31, 2015. The major components of revenues, cost of sales and selling, general and administrative expenses, and the reasons for changes in each, are discussed below.

Revenues

Revenues totaled \$939,371 for the three months ended March 31, 2016 compared to \$1,347,484 for the three months ended March 31, 2015. The following table summarizes our revenues for the three months ended March 31, 2016 and 2015, respectively:

| | Three Months Ended March 31, | | | |
|------------------------------|------------------------------|-----------|--------|--------|
| | 2016 | 2015 | 2016 | 2015 |
| | (percent of revenues) | | | |
| System sales | \$463,605 | \$961,399 | 49.4 % | 71.3 % |
| License and maintenance fees | 463,653 | 377,217 | 49.4 % | 28.0 % |

Edgar Filing: TABLE TRAC INC - Form 10-Q

| | | | | |
|----------------|-----------|-------------|--------|--------|
| Other sales | 12,113 | 8,868 | 1.3 % | 17.0 % |
| Total revenues | \$939,371 | \$1,347,484 | 100.0% | 100.0% |

During the three months ended March 31, 2016, the Company delivered three systems. The revenue for all three systems was deferred, and will be recognized in future periods, since a substantial amount is not due within 12 months. During the same period in 2015, the Company delivered one larger system, of which the revenues were recognized immediately.

Cost of Sales

Cost of sales for the three months ended March 31, 2016 decreased to \$99,586 from \$400,524 for the three months ended March 31, 2015. The following table summarizes our cost of sales for the three months ended March 31, 2016 and 2015, respectively:

| | Three Months Ended March 31, | | | |
|------------------------------|------------------------------|-----------|-----------------------|--------|
| | 2016 | 2015 | 2016 | 2015 |
| | | | (percent of revenues) | |
| System sales | \$71,823 | \$352,549 | 7.6 % | 26.2 % |
| License and maintenance fees | 25,886 | 44,723 | 2.8 % | 3.3 % |
| Other sales | 1,877 | 3,252 | 0.2 % | 0.2 % |
| Total cost of sales | \$99,586 | \$400,524 | 10.6 % | 29.7 % |
| Gross profit | \$839,785 | \$946,960 | 89.4 % | 70.3 % |

The Company's gross profit was 89.4% and 70.3% for the three months ended March 31, 2016 and 2015, respectively. This increase is primarily due to the mix of hardware sold with the systems. The increase is also attributable to the increase of maintenance revenue, which generally has a higher margin, and the reduced role of a contractor as compared to the same period in 2015.

Selling, General and Administrative Expenses

For the three months ended March 31, 2016, selling, general and administrative expenses were \$1,051,495 compared to \$819,386 for the same period in 2015. Most of the change in operating expenses is related to the costs of the process of attaining state licenses during the first quarter of 2016.

Interest Income

For the three months ended March 31, 2016, interest income was \$19,550 compared to \$7,588 for the same period in 2015. This increase is primarily related to the interest earned on recently signed contracts that have financed payment plans.

Tax Provision

The income tax benefit for the three months ended March 31, 2016 was \$69,000, which was calculated at a 33.5% effective rate, compared to an income tax expense of \$48,000 for the same period in 2015, which was calculated at a 35.5% effective rate.

Net Income (Loss)

Loss before taxes for the three months ended March 31, 2016, was \$205,854 compared to income before taxes of \$135,162 for the same period in 2015. Net loss for the three months ended March 31, 2016 was \$136,854 compared to net income of \$87,162 for the same period in 2015. The basic loss per share was \$0.03 compared to earnings per share of \$0.02 for the three months ended March 31, 2016 and 2015, respectively.

Backlog

The Company's backlog generally consists of incomplete system installations and expansion of offerings for currently installed and supported systems.

The Company had four projects in its backlog at March 31, 2016.

The Company is currently serving gaming establishments in eleven U.S. states, as well as countries in Central and South America, and the Caribbean. The Company aims to pursue opportunities and strategic partnerships.

Liquidity and Capital Resources

At March 31, 2016, the Company had cash of \$361,922 compared to cash of \$957,203 on March 31, 2015. The decrease in cash flows is related primarily to the net loss from operations and repurchases of common stock.

We do not know of any trends, events or uncertainties that are likely to have a material impact on our short or long-term liquidity or our capital resources. We expect that our primary source of liquidity in both the short and long-term will be system sales and the resulting license and maintenance fees generated from existing systems. We anticipate we will be able to manage expenses and cash flow in order to satisfy our monthly expense obligations with cash flow from operations. We believe the Company has adequate cash for at least the next 12 months to meet its obligations and continue operations for both existing and future customers as well as ongoing sales efforts and product development.

Off-Balance Sheet Arrangements

The Company had no off-balance sheet arrangements as of March 31, 2016.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

As of March 31, 2016, our Chief Executive Officer / Chief Financial Officer carried out an evaluation of the effectiveness of our disclosure controls and procedures as such term is defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934. As a result of the material weakness in internal control over financial reporting identified and described in Item 9A of our Annual Report on Form 10-K for the year ended December 31, 2015, our Chief Executive Officer / Chief Financial Officer concluded our disclosure controls and procedures were not effective as of March 31, 2016.

Remediation Plan for Material Weakness in Internal Control over Financial Reporting

We have improved our procedures related to the period end financial reporting and designed more effective controls to remediate the material weakness described in Item 9A of our Annual Report on Form 10-K for the year ended December 31, 2015. Specifically, management has implemented new controls related to the financial reporting of a contractor in Colombia that were previously missing. We believe these measures will strengthen our internal controls over financial reporting and should prevent a reoccurrence of the material weakness described in Item 9A of our Annual report on form 10-K for the year ended December 31, 2016.

Changes in Internal Control over Financial Reporting

Other than the actions taken under *Remediation Plan for Material Weakness in Internal Control over Financial Reporting* discussed above, there has been no change in our internal control over financial reporting during the quarterly period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**Company Repurchases of Registered Common Stock

The Company made the following repurchases of registered common stock during the period covered by this report:

| Period | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs | Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs |
|--------|----------------------------------|------------------------------|--|--|
| Jan-16 | 10,000 | \$ 0.92 | 213,969 | |
| Feb-16 | 0 | | 213,969 | |
| Mar-16 | 0 | | 213,969 | (a) |

(a) Maximum number of shares that may yet be purchased is determined by average price per share and amounts approved by the Company's Board of Directors for the repurchase program. In addition, in the future, the Company's Board of Directors may increase or extend its authorization of the stock repurchase program.

On December 23, 2014, the Company's Board of Directors approved the repurchase of its outstanding shares of up to \$100,000 of its common stock from private unsolicited sellers' paper certificate blocks (non-street name) in the open market until September 30, 2015, which was subsequently extended by the Board of Directors. On March 17, 2015, the Company's Board of Directors approved another repurchase of up to \$75,000 for the same program. On September 4, 2015, the Company's Board of Directors approved another repurchase of up to \$50,000 for the same program. The remaining amount approved for repurchasing common stock is \$23,955 as of March 31, 2016. Company insiders are prohibited from participating in the stock repurchase program.

Item 6. Exhibits

Exhibit Description

- 3.1 Articles of Incorporation, filed with the Nevada Secretary of State on June 2, 1995 (incorporated by reference to Exhibit 3 to the registrant's registration statement on Form 10SB-12G filed on December 6, 1999).
- 3.2 Amendment to Articles of Incorporation, filed with the Nevada Secretary of State on January 26, 2012 (incorporated by reference to Exhibit 3.2 to the registrant's annual report on Form 10-K filed on March 31, 2011).
- 3.3 Amended and Restated Bylaws (incorporated by reference to Exhibit 3.3 to the registrant's annual report on Form 10-K filed on March 31, 2011).
- 31 Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (*filed herewith*).
- 32 Certification pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (*filed herewith*).
