ORIX Announces Annual Results for the Year Ended March 31, 2004

TOKYO, Japan - April 26, 2004 ORIX Corporation (TSE: 8591; NYSE: IX), a leading integrated financial services group, today announced that revenues for the fiscal year ended March 31, 2004 increased 6% year on year to 720,773 million yen, income before income taxes* rose 126% to 102,157 million yen, and net income grew 79% to 54,020 million yen.

Revenues for direct financing leases and interest on loans and investment securities were down compared to the same period of the previous fiscal year as ORIX continued to focus on the profitability of each transaction and carefully selected new assets. However, revenues from operating leases increased due mainly to improvements in the precision measuring equipment rental and automobile rental businesses, residential condominium sales grew due to the increase in the number of condominiums sold to buyers, while brokerage commissions and net gains on investment securities also increased as a result of improvements in the stock and bond markets. In addition, lower interest expense and fewer write-downs of long-lived assets and write-downs of securities, and an increase in equity in net income of affiliates contributed to the significantly higher earnings.

Table of Contents

The Equipment Operating Leases segment had higher segment profits thanks to improved profitability of the precision measuring and other equipment rental operations, while the Real Estate segment also did well with contributions from gains from the sale of office buildings and the condominium development business. The Life Insurance segment posted higher earnings as a result of the continued shift to highly profitable insurance-only life insurance products. In the Asia and Oceania segment, the contribution from an equity method affiliate and the strong performance of the automobile leasing operations of a number of companies in the region added to segment profits, while The Americas segment posted higher profits largely as a result of lower provisions and fewer write-downs of securities.

Operating assets were down 6% to 4,849,194 million yen and total assets were also down 5% to 5,624,957 million yen compared to March 31, 2003 due to our continued attempt to grow profits without increasing assets. Shareholders equity increased 12% on March 31, 2003 to 564,047 million yen and the shareholders equity ratio was 10.0% compared to 8.5% at March 31, 2003. ROE rose from 6.0% to 10.1% and ROA improved from 0.49% to 0.93% compared to the fiscal year ended March 31, 2003.

These documents may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on our current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under "Risk Factors" in the Company's annual report on Form 20-F filed with the United States Securities and Exchange Commission.

Table of Contents

1) Announcement Regarding a Stock Option Program

At a meeting of ORIX Corporation's Board of Directors held on April 26, 2004, a proposal was made to issue stock acquisition rights as part of a stock option program to directors, executive officers, corporate auditors and employees of the Company and its subsidiaries and affiliates, in order to further increase incentives to raise corporate profits. This matter will be raised for approval at the 41st Annual General Meeting of Shareholders of the Company, which is scheduled to be held on June 23, 2004.

1. Overview of the Stock Option Program

Stock acquisition rights that can be exercised to acquire common shares of the Company will be offered in accordance with the provisions contained in Article 280-20 and 280-21 of the Japanese Commercial Code.

2. Recipients

The stock acquisition rights are to be issued to directors, executive officers, corporate auditors and employees of the Company and its subsidiaries and affiliates.

3. Reason for the Need to Issue Stock Acquisition Rights to Non-Shareholders with Advantageous Terms

In order to further increase the incentive of the aforementioned recipients to raise corporate profits.

4. Outline of the Stock Acquisition Rights

- (1) Type and number of shares to be issued upon exercise of the stock acquisition rights Maximum of 640,000 common shares.
- (2) Number of the stock acquisition rights to be issued Maximum of 6,400 (100 shares per one stock acquisition right).
- (3) Issue price of the stock acquisition rights None.
- (4) Amount to be paid upon exercise of the stock acquisition rights (exercise price). The exercise price of one stock acquisition right shall be the exercise price per share as stipulated below multiplied by 100 (as per (2) above)).

The exercise price per share shall be the average closing price of common shares on the Tokyo Stock Exchange for the 30 trading days commencing 45 days previous to, and not including, the date on which the Company decides the exercise price (excluding days in which no shares are traded) and rounded upwards to the nearest yen. However, if this average price is less than the closing price on the date on which the Company decides the exercise price, the closing price of such date, or, if there is no closing price on such date, the closing price of the closest preceding day, shall be used.

- (5) Exercise period of the stock acquisition rights From June 24, 2006 to June 23, 2014.
- (6) Conditions for exercising the stock acquisition rights The conditions for exercising the stock acquisition rights shall be stipulated in a contract between ORIX Corporation and the recipients of the stock acquisition rights.
