**SIMCERE PHARMACEUTICAL GROUP REPORTS UNAUDITED THIRD QUARTER 2008 RESULTS
AND ANNOUNCES SHARE REPURCHASE**

NANJING, CHINA, November 6, 2008 Simcere Pharmaceutical Group (Simcere or the Company) (NYSE: SCR), a leading manufacturer and supplier of branded generic pharmaceuticals and manufacturer of the patented anti-cancer biotech product Endu in China, today reported unaudited financial results for the quarter ended September 30, 2008 and announced that its Board of Directors has approved a share repurchase program.

Highlights

- ² **Total revenue** increased to RMB443.4 million (US\$65.3 million) for the third quarter, representing a 37.1% year-over-year growth;
- ² **Net income** was RMB91.2 million (US\$13.4 million) for the third quarter, representing a 24.7% year-over-year growth;
- ² **Gross margin** was 78.3% for the third quarter, which was impacted by a one-off contract sale transaction involving the resale of generic drugs for other pharmaceutical companies, which is now ceased; and
- ² The board of directors has approved a share repurchase program under which Simcere Pharmaceutical Group may purchase up to US\$50 million worth of its issued and outstanding American depositary shares (ADSs) in the following twelve months.

Mr. Jinsheng Ren, Chairman and CEO of Simcere Pharmaceutical Group, commented: We are pleased to report solid year on year growth for the third quarter. We are encouraged by the continued growth of our edaravone products, although our Endu sales continued to be affected by the sales team restructuring and an expanded program to supply Endu free of charge in clinical studies. Our other branded generic products grew steadily this quarter. In October, we successfully launched Anxin, our first-to-market biapenem for injection, which is used to treat serious infections.

Simcere is one of China's leading pharmaceutical companies with a unique business strategy and established distribution network. Combined with our healthy balance sheet and strong cash position, we are confident that Simcere will benefit from the continued growth of China's healthcare industry, as well as the long-term trend towards industry consolidation. Our share repurchase program demonstrates Simcere's confidence in the long term growth and commitment to maximize shareholder value.

2008 Third Quarter Financial Results

Total revenue for the third quarter of 2008 was RMB443.4 million (US\$65.3 million), representing a growth of 37.1% from RMB323.4 million for the same period in 2007. For the first nine months of 2008, total revenue was RMB1,274.2 million (US\$187.7 million), representing an increase of 31.4% from RMB970.1 million for the same period in 2007.

Revenue from Endu, the Company's patented anti-cancer pharmaceutical launched in July 2006, totaled RMB54.4 million (US\$8.0 million) in the third quarter of 2008, representing an increase of 3.0% from RMB52.8 million for the same period in 2007. Endu sales growth slowed down this quarter due to the restructuring of the Endu sales force and an expanded program to supply Endu free of charge to existing and new patients participating in a series of clinical studies. For the first nine months of 2008, revenue from Endu totaled RMB181.3 million (US\$26.7 million), representing an increase of 19.2% from RMB152.2 million in the first nine months of 2007.

Revenue from first-to-market Edavarone injection products under the brand names Bicun and Yidasheng totaled

Table of Contents

RMB158.8 million (US\$23.4 million) in the third quarter of 2008, representing an increase of 49.5% from RMB106.2 million for the same period in 2007. While more edaravone products enter the market, Simcere's Bicun and Yidasheng remain the most established brands and are the market leaders in China. For the first nine months of 2008, revenue from Bicun and Yidasheng totaled RMB458.4 million (US\$67.5 million), representing an increase of 54.6% from RMB296.5 million in the first nine months of 2007.

Revenue from other first-to-market products, Jiebaishu, a nedaplatin product and Sinofuan, a 5-FU sustained release implant for the treatment of cancer, totaled RMB20.7 million (US\$3.1 million) in the third quarter of 2008. There was no revenue generated from these two new products for the same period in 2007. For the first nine months of 2008, revenue from Jiebaishu and Sinofuan totaled RMB34.1 million (US\$5.0 million).

Revenue from other branded generic products totaled RMB207.3 million (US\$30.5 million) in the third quarter of 2008, representing an increase of 26.9% from RMB163.4 million for the same period in 2007. For the first nine months of 2008, revenue from other branded generic products totaled RMB596.2 million (US\$87.8 million), representing an increase of 15.4% from RMB516.3 million in the first nine months of 2007.

Gross margin for the third quarter of 2008 decreased to 78.3%, as compared to 81.7% for the same period in 2007. The decrease was primarily due to a lower margin contract sale transaction in the resale of drugs for other pharmaceutical companies, which is now ceased. For the first nine months of 2008, gross margin decreased to 80.9% compared to 82.4% for the first nine months of 2007.

Research and development expenses for the third quarter of 2008 totaled RMB21.1 million (US\$3.1 million), an increase of 9.5% from RMB19.3 million for the corresponding period a year ago. This was primarily due to the expansion in headcount of our research and development team. As a percentage of total revenue, research and development expenses were 4.8% compared to 6.0% for the same period in 2007. For the first nine months of 2008, research and development expenses totaled RMB52.1 million (US\$7.7 million), compared to RMB52.4 million for the same period in 2007.

Sales, marketing and distribution expenses for the third quarter of 2008 were RMB194.7 million (US\$28.7 million), an increase of 32.9% from RMB146.6 million for the corresponding period a year ago. As a percentage of total revenue, sales, marketing and distribution expenses, were 43.9% compared to 45.3% for the same period in 2007. For the first nine months of 2008, sales and marketing expenses were RMB557.2 million (US\$82.1 million), an increase of 26.1% from RMB441.7 million in the first nine months of 2007.

General and administrative expenses were RMB44.6 million (US\$6.6 million) for the third quarter of 2008, representing an increase of 16.7% from RMB38.2 million for the third quarter of 2007. The increase was primarily due to the increased headcount and the professional service fees associated with the compliance work on Section 404 of the Sarbanes-Oxley Act of 2002. However, general and administrative expenses, as a percentage of total revenue, decreased to 10.1% in the third quarter of 2008 from 11.8% in the same period of 2007 as a result of increased economies of scale. For the first nine months of 2008, general and administrative expenses were RMB138.6 million (US\$20.4 million), an increase of 20.2% from RMB115.3 million in the corresponding period in 2007.

Share-based compensation expenses, which were allocated to research and development expenses, sales, marketing and distribution expenses, and general and administrative expenses, based on the nature of the work the Company's employees were assigned to perform, totaled RMB6.5 million (US\$1.0 million) for the third quarter of 2008. Share-based compensation expenses for the third quarter of 2007 were RMB7.5 million. For the first nine months of 2008, share-based compensation expenses totaled RMB19.9 million (US\$2.9 million), a decrease of 9.8% from RMB22.0 million for the first nine months of 2007.

Operating income was RMB87.0 million (US\$12.8 million) for the third quarter of 2008, representing an increase of 44.4% as compared to RMB60.2 million for the corresponding period of 2007. For the first nine months of 2008, operating income was RMB284.3 million (US\$41.9 million), an increase of 49.1% as compared to RMB190.7 million in the corresponding period in 2007.

Income tax expense for the third quarter of 2008 totaled RMB1.5 million (US\$0.2 million) compared to an income tax credit of RMB0.3 million for the corresponding period of 2007. For the first nine months of 2008, income tax expense was RMB36.3 million (US\$5.4 million) compared to an income tax benefit of RMB2.8 million for the first nine months of 2007. In addition to the overall increase in taxable income, the increased income tax expense in 2008

Table of Contents

was primarily due to the expiration of tax holidays enjoyed by two PRC subsidiaries.

Net income was RMB91.2 million (US\$13.4 million) for the third quarter of 2008, compared to RMB73.1 million in the corresponding period a year ago and representing growth of 24.7%. The Company's net income margin was 20.6% for the third quarter of 2008 compared to 22.6% for the third quarter of 2007. For the first nine months of 2008, net income was RMB298.4 million (US\$44.0 million), an increase of 33.7% as compared to RMB223.2 million for the first nine months of 2007. Net margin for the first nine months of 2008 was 23.4% as compared to 23.0% for the first nine months of 2007.

Basic earnings per share for the third quarter of 2008 and the first nine months of 2008 were RMB0.73 (US\$0.11) and RMB2.39 (US\$0.35) respectively, and diluted earnings per share for the third quarter of 2008 and the first nine months of 2008 were RMB0.72 (US\$0.11) and RMB2.37 (US\$0.35) respectively. One American Depository Share (ADS) represents two ordinary shares. Basic earnings per ADS for the third quarter of 2008 and the first nine months of 2008 were RMB1.46 (US\$0.21) and RMB4.77 (US\$0.70) respectively, and diluted earnings per ADS for the third quarter of 2008 and the first nine months of 2008 were RMB1.44 (US\$0.21) and RMB4.73 (US\$0.70) respectively. As of September 30, 2008, the Company had **cash and cash equivalents (including pledged bank deposits), and short term investments** of RMB831.3 million (US\$122.4 million) compared to RMB968.3 million as of December 31, 2007.

Financial Outlook

Based on its first nine months performance, the Company maintains its targeted total revenue for the full year 2008 to be in the range between RMB1.7 billion and RMB1.8 billion. The Company also maintains its targeted net income for the full year 2008 to be in the range between RMB390.0 million and RMB400.0 million.

The above targets are based on the Company's current views on the operating and marketing conditions which are subject to change.

Share Repurchase Program

Under the terms of the share repurchase program approved by the board of directors, Simcere Pharmaceutical Group may purchase up to US\$50 million worth of its issued and outstanding ADSs. The repurchases will be made from time to time on the open market at prevailing market prices or in block trades and subject to restrictions relating to volume, price and timing. The Company may effect buyback transactions pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. The timing and extent of any purchases will depend upon market conditions, the trading price of its ADSs and other factors. The Company expects to implement this share repurchase program over the course of the next 12 months, in a manner consistent with market conditions and the interest of the shareholders. The Company's board of directors will review the share repurchase program periodically, and may authorize adjustment of its terms and size accordingly. The Company plans to fund repurchases made under this program from its available cash balance.
