

Edgar Filing: ENERGY PARTNERS LTD - Form 8-K

Management discloses discretionary cash flow. This non-GAAP financial measure and reconciliation to the most comparable GAAP financial measure for the second quarter of 2003 are included in Exhibit 99.1 to this Current Report, furnished to the Securities and Exchange Commission.

Discretionary cash flow is defined as cash flow from operations before changes in working capital and exploration expenditures. Discretionary cash flow is widely accepted as a financial indicator of an oil and natural gas company's ability to generate cash, which is used to internally fund exploration and development activities, pay dividends and service debt. Discretionary cash flow is presented based on management's belief that this non-GAAP measure is useful information to investors because it is widely used by professional research analysts in the valuation, comparison, rating and investment recommendations of companies within the oil and natural gas exploration and production industry. The Company does not use this non-GAAP measure for any other purpose. Many investors use the published research of these analysts in making their investment decisions. Discretionary cash flow is not a measure of financial performance under GAAP and should not be considered as an alternative to cash flows from operating activities, as defined by GAAP, or as a measure of liquidity, or an alternative to net income.

EXHIBIT INDEX

Exhibit No.	Description
99.1	Press release, dated August 7, 2003 announcing earnings for the quarter ended June 30, 2003.
