QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
COMMISSION FILE NUMBER 333-176382

SYNIVERSE HOLDINGS, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)
8125 Highwoods Palm Way
Tampa, Florida 33647
(Address of principal executive office)
(Zip code)
(813) 637-5000
(Registrant's telephone number, including area code)

30-0041666
(I.R.S. Employer Identification No.)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulations S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company

(Do not check if a smaller
reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of common stock of the registrant outstanding at November 7, 2014 was 1,000.

SYNIVERSE HOLDINGS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

Syniverse is the leading global transaction processor that connects mobile network operators (“MNOs”) and enterprises in nearly 200 countries enabling seamless mobile communications across disparate and rapidly evolving networks, devices and applications. We process transactions that include the authorization and delivery of end-user traffic, clearing of billing records and settlement of payments. We also analyze a unique portfolio of real-time data generated by these transactions to deliver a wide range of intelligence tools to our customers. Our portfolio of mission-critical services enables our customers to connect to the mobile ecosystem, optimize their businesses and enhance and personalize the mobile experience for their end-users. We process nearly 3 billion billable transactions daily and settle approximately \$17 billion annually between our customers. We are the leader in long term evolution (“LTE”) roaming and interconnect, offering superior connectivity critical for delivering the advanced mobile experiences end-users expect in 4G and beyond, including voice over LTE (“VoLTE”). We currently enable direct reach to nearly half of the global mobile population and cover 16 of the top 20 international roaming routes. We believe our global footprint and operational scale are unmatched in our industry. As a trusted partner with over 25 years of experience and a history of innovation, we believe we are well positioned to solve the technical, operational and financial complexities of the mobile ecosystem.

Our diverse and growing customer base includes a broad range of participants in the mobile ecosystem, including over 1,000 MNOs and over 550 over-the-top providers (“OTTs”) and enterprises. Our customers include 97 of the top 100 MNOs globally, such as Verizon Wireless, América Móvil, Vodafone, Telefónica, China Unicom and Reliance Communications; OTTs, including 4 of the top 10 global social networking sites, including one of the largest social networking sites in China; blue-chip enterprise customers, including 7 of the 10 largest U.S. banks, 3 major banks in Asia, the top 3 credit card networks worldwide, top travel and hospitality companies including 3 of the top 5 airlines and 2 multinational hotel brands, the top global e-commerce provider and one of the top 5 department store retailers globally.

Founded in 1987, Syniverse now provides approximately 60 mission-critical services to manage the real-time exchange of information and traffic across the mobile ecosystem, enhance our customers’ brands and provide valuable intelligence about end-users. Our customers demand, and we deliver, a high quality of service as evidenced by our over 99.999% network availability.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements of Syniverse Holdings, Inc. have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and on a basis that is consistent with the accounting principles applied in our audited financial statements for the fiscal year ended December 31, 2013 (the “2013 financial statements”). In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal, recurring nature. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes included in our 2013 financial statements. Operating results for the interim periods noted herein are not necessarily indicative of the results that may be achieved for a full year.

The unaudited condensed consolidated financial statements include the accounts of Syniverse Holdings, Inc. and all of its wholly owned subsidiaries and a variable interest entity for which Syniverse Holdings, Inc. is deemed to be the primary beneficiary. References to “Syniverse,” “the Company,” “us,” or “we” include all of the consolidated companies. Redeemable and nonredeemable noncontrolling interest is recognized for the portion of consolidated joint ventures not owned by us. All significant intercompany balances and transactions have been eliminated.

Use of Estimates

We have prepared our financial statements in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported revenues and expenses during the period. Actual results could differ from those estimates.

Table of Contents

Restricted Cash

On occasion, we are required to maintain cash or certificates of deposit with certain banks with respect to contractual obligations related to acquisitions or other collateral required under certain contractual or other terms. As of September 30, 2014, the amount of restricted cash was \$1.1 million, of which \$0.9 million was included in Prepaid and other current assets and \$0.2 million was included in Other assets in the unaudited condensed consolidated balance sheets. As of December 31, 2013, the amount of restricted cash was \$6.2 million, of which \$5.5 million was included in Prepaid and other current assets and \$0.7 million was included in Other assets in the unaudited condensed consolidated balance sheets.

Customer Accounts

We provide financial settlement services to wireless operators to support the payment of roaming related charges to their roaming network partners. In accordance with our customer contracts, funds are held by us as an agent on behalf of our customers to settle their roaming related charges to other operators. These funds and the corresponding liability are not reflected in our unaudited condensed consolidated balance sheets. The off-balance sheet amounts totaled approximately \$544.6 million and \$492.9 million as of September 30, 2014 and December 31, 2013, respectively.

Capitalized Software Costs

We capitalize the cost of externally purchased software, internal-use software and developed technology that has a useful life in excess of one year. Subsequent additions, modifications or upgrades to internal-use software are capitalized only to the extent that they enable the software to perform a task it previously was unable to perform. Software maintenance and training costs are expensed in the period in which they are incurred. Capitalized software and developed technology are amortized using the straight-line method over a period of 3 years and 3 to 7 years, respectively.

Foreign Currencies

We have operations through subsidiaries in Europe (primarily the United Kingdom, Germany and Luxembourg), India and the Asia-Pacific region, each of whose functional currency is their local currency. Gains and losses on transactions denominated in currencies other than the relevant functional currencies are included in Other, net in the unaudited condensed consolidated statements of operations. For the three and nine months ended September 30, 2014, we recorded foreign currency transaction gains of \$1.0 million and \$0.7 million, respectively. For the three and nine months ended September 30, 2013, we recorded foreign currency transaction losses of \$3.3 million and \$4.5 million, respectively.

The assets and liabilities of subsidiaries whose functional currency is other than the U.S. dollar are translated at the period-end rate of exchange. The resulting translation adjustment is recorded as a component of Accumulated other comprehensive (loss) income and is included in Stockholder equity in the unaudited condensed consolidated balance sheets. Transaction gains and losses on intercompany balances which are deemed to be of a long-term investment nature are also recorded as a component of Accumulated other comprehensive (loss) income. Items within the unaudited condensed consolidated statements of operations are translated at the average rates prevailing during the period.

Segment Information

We have evaluated our portfolio of service offerings, reportable segment and the financial information reviewed by our chief operating decision maker for purposes of making resource allocation decisions. We operate as a single

operating segment, as our Chief Executive Officer serving as our chief operating decision maker, reviews financial information on the basis of our consolidated financial results for purposes of making resource allocation decisions.

Revenues by service offerings were as follows:

(in thousands)	Three Months Ended September 30,	
	2014 (Unaudited)	2013
Mobile Transaction Services	\$205,794	\$207,451
Enterprise & Intelligence Solutions	34,028	31,439

Asia Pacific	68,832	56,071
Caribbean and Latin America	47,787	48,379
Revenues	\$686,658	\$616,042

Acquisitions

The Acquisitions line item in our unaudited condensed consolidated statements of operations includes professional services costs, such as legal, tax, audit and transaction advisory costs related to the MACH (defined below) acquisition completed in 2013 and the Aicent (defined below) acquisition completed in 2014 (collectively, the “Acquisitions”). See Note 4 for additional details regarding the Acquisitions.

Reclassifications of Prior Year Presentation

Certain reclassifications of 2013 financial information have been made to conform to the current year presentation. The reclassifications had no effect on our reported results of operations. For the three and nine months ended September 30, 2013, we reclassified certain non-retirement post-employment benefits out of Restructuring into the Employee termination benefits line item in our unaudited condensed consolidated statements of operations. For the nine months ended September 30, 2013, we reclassified Borrowings under Initial Term Loans and Borrowings under Tranche B Term Loans into the Proceeds from issuance of long-term debt line item and Principal payments on Initial Term Loans and Principal payments on Tranche B Term Loans into the Principal payments on long-term debt line items in our unaudited condensed consolidated statements of cash flows.

3. Recent Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2013-05, Parent’s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity, which is included in the Accounting Standard Codification (“ASC”) in Topic 830 “Foreign Currency Matters”. ASU 2013-05 clarifies the

treatment of cumulative translation adjustment (“CTA”) for entities that cease to hold a controlling financial interest in a subsidiary or group of assets within a foreign entity

and those that acquire a business in stages by increasing an investment in a foreign entity from one accounted for under the equity method to one accounted for as a consolidated investment. The amendments in this update provide for the release of the CTA into net income only if a sale or transfer represents a sale or complete or substantially complete liquidation of an investment in a foreign entity. Additionally, the amendments in this ASU clarify that the sale of an investment in a foreign entity includes both (1) events that result in the loss of a controlling financial interest in a foreign entity (that is, irrespective of any retained investment) and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date (sometimes also referred to as a step acquisition). Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events. This accounting standard was effective for our financial statements beginning January 1, 2014 and was applied prospectively. The adoption of this standard did not have a material impact on our unaudited condensed consolidated financial statements and related disclosures.

In July 2013, the FASB issued ASU 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, which is included in the ASC in Topic 740 "Income Taxes". ASU 2013-11 eliminates the diversity in practice in the presentation of unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. Under this guidance, an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except in certain circumstances. This accounting standard was effective for our financial statements beginning January 1, 2014. The adoption of this standard was applied prospectively and did not have a material impact on our unaudited condensed consolidated financial statements and related disclosures.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements and Property, Plant, and Equipment, which is included in the ASC in Topic 205 and 360. ASU 2014-08 changes the requirement for reporting discontinued operations. Under this guidance, a disposal of a component of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has or will have a major effect on an entity's operations and financial results. Fewer disposals are expected to qualify as discontinued operations under the new guidance. It also requires the disclosure of pretax income of disposals that do not qualify as discontinued operations. The new guidance is effective for us with disposals that occur after January 1, 2015.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which is included in the ASC in Topic 606 "Revenue from Contracts with Customers". ASU 2014-09 was issued as a converged guidance with the International Accounting Standards Board ("IASB") on recognizing revenue in contracts with customers and is intended to improve the financial reporting requirements for revenue from contracts with customers by providing a principle based approach to the recognition of revenue. The update includes a five-step framework with applicable guidance, which supersedes existing revenue recognition guidance. This accounting standard is effective for our financial statements beginning January 1, 2017 and can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. Early application of the standard is not permitted. We are currently assessing the impact of implementing this guidance on our consolidated financial position, results of operations, and cash flows.

4. Acquisitions

Aicent Acquisition

On August 4, 2014 (the "Aicent Acquisition Date"), Syniverse Technologies, LLC, a Delaware limited liability company and a wholly-owned subsidiary of Syniverse Holdings, Inc. acquired all of the outstanding equity interests of Aicent Holdings Corporation, a Delaware corporation ("Aicent") from its existing stockholders in accordance with the terms of an agreement and plan of merger for approximately \$292.2 million (the "Aicent Acquisition"). The Aicent

Acquisition was funded with cash of \$192.2 million and a draw down of Syniverse's existing revolving credit facility with Barclays Bank PLC in the amount of \$100.0 million.

Table of Contents

The Aicent Acquisition is expected to further expand our global communications network, drive increased service and value to customers through real-time intelligence, and extend our global reach to mobile subscribers, enterprises and mobile operators in Asia.

The Aicent Acquisition was accounted for under the purchase method of accounting. The total purchase price was allocated to the acquired assets and liabilities assumed based on their estimated fair values at the Aicent Acquisition Date. The fair value of the net assets acquired was based on a preliminary valuation and our estimates and assumptions are subject to change within the measurement period. The Company is continuing to evaluate (i) valuation of intangible assets; (ii) deferred tax assets and liabilities; (iii) income tax and non-income tax accruals; and (iv) other long-term liabilities including certain employee related accruals. Syniverse will finalize the purchase price allocation as soon as practicable within the measurement period, but in no event later than one year following the Aicent Acquisition Date.

The following table summarizes the preliminary allocation of the purchase price to the estimated fair values of the assets acquired and liabilities assumed in connection with the Aicent Acquisition based on their fair values on the Aicent Acquisition Date:

(in thousands)		
Total purchase price		\$292,162
Less: cash acquired		2,039
Cash consideration		290,123
Fair value of net assets acquired:		
Cash		\$2,039
Accounts receivable		11,858
Prepaid and other current assets		807
Property and equipment		3,266
Customer relationships		85,300
Capitalized Software		16,209
Other identifiable intangible assets		2,500
Deferred tax assets		1,960
Other assets		241
Accounts payable	(4,437)
Income taxes payable	(634)
Accrued liabilities	(4,525)
Deferred revenues	(126)
Deferred tax liabilities	(33,788)
Other long-term liabilities	(801)
Net assets acquired		79,869
Allocation to goodwill		\$212,293

The excess of the purchase price over the fair value of the net assets acquired resulted in goodwill of \$212.3 million, which is primarily attributable to operating synergies and potential expansion into other global markets. We do not expect goodwill to be deductible for tax purposes. We incurred Aicent Acquisition related expenses of \$0.5 million and \$2.0 million for the three and nine months ended September 30, 2014, respectively. These costs were recorded in the Acquisitions line item in our unaudited condensed consolidated statements of operations.

Customer relationships were valued using discounted future cash flows. The future cash flows for the customer relationships were discounted using a weighted-average cost of capital, which was based on an analysis of the cost of

capital for guideline companies within the technology industry. We determined useful lives of the customer relationships based on the period over which we expect those assets to contribute directly or indirectly to future cash flows. Customer relationships are amortized using the straight-line method over a shortened useful life of 10 years.

Table of Contents

The results of operations of Aicent have been included in our operating results subsequent to the Aicent Acquisition Date. During the three and nine months ended September 30, 2014, the Aicent Acquisition contributed \$8.0 million to revenue.

MACH Acquisition

On June 28, 2013 (the “MACH Acquisition Date”), we completed our acquisition of WP Roaming III S.à r.l. (“WP Roaming”), for a total purchase price of approximately \$712.0 million. WP Roaming is a holding company which conducted the business of MACH S.à r.l. (“MACH”). As part of the transaction, we acquired from WP Roaming, a Luxembourg limited liability company (the “Seller”), all the shares and preferred equity certificates (whether convertible or not) in WP Roaming (the “MACH Acquisition”). The purchase price was funded through a portion of the net proceeds from a new \$700.0 million senior secured credit facility and a deposit of €30.0 million paid to the Seller on July 2, 2012.

The MACH Acquisition was accounted for under the purchase method of accounting. The total purchase price was allocated to the acquired assets and liabilities assumed based on their estimated fair values at the MACH Acquisition Date. The following table summarizes the allocation of the purchase price, including adjustments to previously reported figures on June 30, 2013, to the estimated fair values of the assets acquired and liabilities assumed in connection with the MACH Acquisition based on their fair values on the MACH Acquisition Date:

	As initially reported on June 30, 2013	Measurement period adjustments	June 30, 2013 (as adjusted)
(in thousands)			
Total purchase price	\$712,009	\$—	\$712,009
Less: cash acquired	44,644	—	44,644
Cash consideration	\$667,365	\$—	\$667,365
Fair value of net assets acquired:			
Cash	\$44,644	\$—	\$44,644
Accounts receivable	26,887	(1,011) 25,876
Prepaid and other current assets	10,456	(530) 9,926
Assets held for sale	11,046	(226) 10,820
Property and equipment	7,157	—	7,157
Capitalized software	74,229	(1,952) 72,277
Customer relationships	207,037	(41,381) 165,656
Other identifiable intangible assets	2,103	—	2,103
Deferred tax assets	897	2,752	3,649
Other assets	5,657	(390) 5,267
Accounts payable	(8,847) —	(8,847
Income taxes payable	(1,993) 584	(1,409
Accrued liabilities	(32,638) (15,021) (47,659
Deferred revenues	(1,484) —	(1,484
Liabilities related to assets held for sale	(2,693) 226	(2,467
Deferred tax liabilities	(27,636) 2,890	(24,746
Redeemable noncontrolling interest	(203) (298) (501
Net assets acquired	314,619	(54,357) 260,262
Allocation to goodwill	\$397,390	\$54,357	\$451,746

The excess of the purchase price over the fair value of the net assets acquired resulted in goodwill of \$451.7 million, which is primarily attributable to assembled workforce, operating synergies and potential expansion into other global

markets. Goodwill is not deductible for tax purposes. We incurred MACH Acquisition related expenses of \$0.7 million and \$21.6 million for the three and nine months ended September 30, 2013, respectively. These costs were recorded in the Acquisitions line item in our unaudited condensed consolidated statements of operations. We did not incur any MACH Acquisition related expenses for the three and nine months ended September 30, 2014, nor do we expect to incur any further costs in the future.

Table of Contents

Discontinued Operations

During the fourth quarter of 2013, we completed the sale of certain assets supporting MACH's data clearing and near real-time roaming data exchange business in the European Economic Area, including technology platforms, necessary employees, customer contracts and the MACH brand (the "Divestment Business"). During the second quarter of 2014, we received \$0.7 million in proceeds related to a purchase price adjustment allowed for under the purchase agreement, and recognized a loss of \$0.6 million in Loss from discontinued operations, net of tax, in the unaudited condensed consolidated statement of operations.

Supplemental Pro Forma Financial Information

The following unaudited pro forma financial information for the nine months ended September 30, 2013 represent combined revenue and loss from continuing operations as if the MACH Acquisition had taken place on January 1, 2013. The unaudited pro forma results reflect certain adjustments including additional estimated amortization expense associated with acquired intangible assets and interest expense associated with debt used to fund the MACH Acquisition. The pro forma financial information does not purport to be indicative of the results of operations that would have been achieved had the MACH Acquisition taken place on the date indicated or the results of operations that may result in the future.

(in thousands)	Nine Months Ended September 30, 2013
Revenues	\$690,382
Income from continuing operations attributable to Syniverse Holdings, Inc.	\$(14,536)

5. Detail of Accrued Liabilities

Accrued liabilities consisted of the following:

(in thousands)	September 30, 2014 (Unaudited)	December 31, 2013
Accrued payroll and related benefits	\$25,865	\$41,036
Accrued interest	15,519	27,245
Accrued network payables	10,469	8,596
Accrued revenue share expenses	6,413	3,560
Other accrued liabilities	26,360	33,320
Total accrued liabilities	\$84,626	\$113,757

6. Debt and Credit Facilities

Our total outstanding debt as of September 30, 2014 and December 31, 2013 was as follows:

(in thousands)	September 30, 2014 (Unaudited)	December 31, 2013
Senior Credit Facility:		
Initial Term Loans, due 2019	\$911,835	\$911,835
Original issue discount	(9,530)	(11,166)
Tranche B Term Loans, due 2019	678,665	678,665
Original issue discount	(2,695)	(3,086)
Revolving Credit Facility	100,000	—

Edgar Filing: SYNIVERSE HOLDINGS INC - Form 10-Q

Senior Notes:

9.125% senior unsecured notes, due 2019	475,000	475,000
Total debt	2,153,275	2,051,248
Total long-term debt	\$2,153,275	\$2,051,248

14

Table of Contents

Amortization of original issue discount and deferred financing fees for the three and nine months ended September 30, 2014 was \$3.2 million and \$9.3 million, respectively, and was related to our Senior Credit Facility (as defined below) and senior unsecured notes bearing interest at 9.125% that will mature on January 15, 2019 (the “Senior Notes”). Amortization of original issue discount and deferred financing fees for the three and nine months ended September 30, 2013 was \$5.1 million and \$9.5 million, respectively. Amortization is included in interest expense in the unaudited condensed consolidated statements of operations.

Senior Credit Facility

On April 23, 2012, we entered into a Credit Agreement with Buccaneer LLC (as successor by merger to Buccaneer), Barclays Bank PLC, as administrative agent, swing line lender and letters of credit issuer, and the other financial institutions and lenders from time to time party thereto, providing for a new senior credit facility (the “Senior Credit Facility”) consisting of (i) a \$950.0 million term loan facility (the “Initial Term Loans”); and (ii) a \$150.0 million revolving credit facility (the “Revolving Credit Facility”) for the making of revolving loans, swing line loans and issuance of letters of credit.

On June 28, 2013, the Company borrowed \$700.0 million of incremental term loans (the “Tranche B Term Loans”), pursuant to an incremental amendment to its Credit Agreement. The proceeds of the Tranche B Term Loans were used to refinance, in full, the Escrow Term Loans (as defined below), a portion of which were used to fund the MACH Acquisition.

On September 23, 2013, the Company made a prepayment of \$50.0 million on the Term Loan Facilities, of which \$28.7 million was applied to the Initial Term Loans and \$21.3 million was applied to the Tranche B Term Loans. In relation to the prepayment, Syniverse accelerated the amortization of \$0.4 million of original issue discount and \$0.6 million of deferred financing costs. In addition, on September 23, 2013 we refinanced the Initial Term Loans under the Credit Agreement to reduce the interest rate. We recorded \$2.8 million of debt extinguishment costs and \$1.7 million of debt modification costs associated with the refinancing of the Initial Term Loans.

On August 4, 2014, the Company drew \$100.0 million on the Revolving Credit Facility to fund a portion of the Aicent Acquisition. See Note 4 for additional details regarding the Aicent Acquisition.

Tranche B Term Loans

On June 28, 2013, we received net proceeds of \$696.5 million under the Tranche B Term Loans, the proceeds of which were used to refinance the Escrow Term Loans (as defined below) in full. We paid upfront fees of \$3.5 million associated with the Escrow Term Loans which were recorded as original issue discount to be amortized over the life of the Tranche B Term Loans using the effective interest method. We incurred \$25.2 million of debt issuance costs which were recorded as deferred financing costs to be amortized over the life of the Tranche B Term Loans using the effective interest method.

Delayed Draw Credit Agreement

On February 4, 2013, Syniverse Magellan Finance, LLC (the “Finance Sub”), our wholly owned subsidiary, entered into a delayed draw credit agreement (the “Delayed Draw Credit Agreement”) with Barclays Bank PLC, as administrative agent, and the other financial institutions and lenders from time to time party thereto, providing for a new senior credit facility consisting of a \$700.0 million delayed draw term loan facility (the “Delayed Draw Facility”). On May 28, 2013, Finance Sub entered into an amendment to the Delayed Draw Credit Agreement. Upon the closing of this amendment, the lenders funded the Delayed Draw Facility into an escrow account (“Escrow Term Loans”) and the Company

pre-funded the interest, upfront fees and ticking fees of \$7.2 million, \$3.5 million and \$3.6 million, respectively (the "Escrowed Funds"). The Escrowed Funds were released to Finance Sub on June 28, 2013 (the "Release"). In addition to the pre-funded amount, we paid additional ticking fees of \$1.0 million during the second quarter of 2013. These fees were paid to our committing arranger banks to compensate for a backstop commitment during the time lag between the commitment allocation and actual funding for the Delayed Draw Facility.

7. Stock-Based Compensation

Effective April 6, 2011, our parent established the 2011 Equity Incentive Plan (the "2011 Plan") for the employees, consultants, and directors of Syniverse Corporation and its subsidiaries. The 2011 Plan provides incentive compensation through grants of incentive or non-qualified stock options, stock purchase rights, restricted stock awards, restricted stock units, or any

Table of Contents

combination of the foregoing, Syniverse Corporation will issue shares of its common stock to satisfy equity based compensation instruments.

Stock-based compensation expense for the three and nine months ended September 30, 2014 and 2013 was as follows:

	Three Months Ended September 30,	
	2014	2013
(in thousands)	(Unaudited)	
Cost of operations	\$ 79	\$ 86
Sales and marketing	1,001	641
General and administrative	1,942	1,329
Total stock-based compensation	\$ 3,022	\$ 2,056
	Nine Months Ended September 30,	
	2014	2013
(in thousands)	(Unaudited)	
Cost of operations	\$ 222	\$ 455
Sales and marketing	2,701	2,793
General and administrative	4,012	3,988
Total stock-based compensation	\$ 6,935	\$ 7,236

In February 2013, the Compensation Committee of our Board of Directors, utilizing the discretion afforded under the 2011 Plan, approved the vesting of the 2012 performance-based stock options resulting in a modification of the vesting terms, for which we recorded additional stock compensation expense of \$2.1 million.

The following table summarizes our stock option activity under the 2011 Plan for the nine months ended September 30, 2014:

Stock Options	Shares	Weighted-Average Exercise Price
Outstanding at December 31, 2013	9,203,082	\$ 11.07
Granted	651,663	15.00
Exercised	(431,666) 10.87
Canceled or expired	(970,334) 11.70
Outstanding at September 30, 2014	8,452,745	\$ 11.32

The fair value of options granted during the nine months ended September 30, 2014 was estimated at the date of grant using a Black-Scholes option-pricing model with the following weighted-average assumptions:

Risk-free interest rate	2.18%
Volatility factor	50.00%
Dividend yield	—%
Weighted average expected life of options (in years)	6.43

Table of Contents

Restricted stock awards are issued and measured at market value on the date of grant. Vesting of restricted stock is based solely on time vesting. The following table summarizes our restricted stock activity under the 2011 Plan for the nine months ended September 30, 2014:

Restricted Stock	Shares	Weighted-Average Grant-Date Fair Value
Balance at December 31, 2013	86,205	\$14.50
Vested	(22,988) 14.50
Forfeited	(17,241) 14.50
Balance at September 30, 2014	45,976	\$14.50

8. Employee Termination Benefits and Restructuring

The following table summarizes the activity in our employee termination benefit liabilities for the nine months ended September 30, 2014:

(in thousands)	December 31, 2013 Balance	Additions	Payments	Adjustments	September 30, 2014 Balance
Employee termination benefits	\$2,698	9,416	(6,480) (19) \$5,615

Employee termination benefits represents non-retirement post-employment benefit costs including severance, benefits and other employee related costs.

The following table summarizes the activity in our restructuring liabilities for the nine months ended September 30, 2014:

(in thousands)	December 31, 2013 Balance ⁽¹⁾	Additions	Payments	Adjustments	September 30, 2014 Balance
December 2011 Plan	264	40	1	—	305
December 2010 Plan	619	—	—	(49) 570
Total	\$883	\$40	\$1	\$(49) \$875

(1) December 31, 2013 balance has been adjusted to exclude Employee termination benefits, which has been reclassified into a single line item in our unaudited condensed consolidated statements of operations.

In December 2011, we implemented a restructuring plan primarily to regionalize our customer support workforce for better alignment with our customers' needs. As a result of this plan, we incurred severance related costs of \$3.7 million and contract termination costs of \$0.4 million related to the exit of a leased facility. We have paid \$3.8 million related to this plan as of September 30, 2014.

In December 2010, we implemented a restructuring plan primarily to realign certain senior management functions. As a result of this plan, we incurred severance related costs of \$2.6 million. As of September 30, 2014, we have paid \$2.1 million related to this plan.

We expect to pay the remainder of the benefits outstanding under each of these plans by the end of the second quarter of 2016.

9. Income Taxes

We provide for federal, state and foreign income taxes currently payable, as well as for those deferred due to timing differences between reporting income and expenses for financial statement purposes versus tax purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected

Table of Contents

to be recovered or settled. The effect of a change in income tax rates is recognized as income or expense in the period that includes the enactment date. The effective tax rate for the three and nine months ended September 30, 2014, was a benefit of 357.8% and 69.9%, respectively. The effective tax rate for the three and nine months ended September 30, 2013, was a benefit of 55.5% and 13.2%, respectively. The tax benefit recognized for the nine months ended September 30, 2013 was limited to the amount that would be recognized if the ordinary loss was the anticipated loss for the fiscal year. The change in our effective tax rate was chiefly attributable to (i) the inclusion of a full year of the actual and forecasted earnings impact of the MACH entities in our 2014 effective tax rate, (ii) the prior year effects of costs related to the acquisition of MACH, some of which were nondeductible for income tax purposes, (iii) the prior year effects of the loss limitation described above, and (iv) a shift of taxable income to lower foreign tax rate jurisdictions.

We, and our eligible subsidiaries, file a consolidated U.S. federal income tax return under Syniverse Corporation. All subsidiaries incorporated outside of the U.S. are consolidated for financial reporting purposes; however, they are not eligible to be included in our consolidated U.S. federal income tax return. Separate provisions for income taxes have been recorded for these entities. We intend to reinvest substantially all of the unremitted earnings of our non-U.S. subsidiaries and postpone their remittance indefinitely. Accordingly, no provision for U.S. income taxes for these non-U.S. subsidiaries was recorded in the accompanying unaudited condensed consolidated statements of operations.

10. Commitments and Contingencies

We are currently a party to various claims and legal actions that arise in the ordinary course of business. We believe such claims and legal actions, individually and in the aggregate, will not have a material adverse effect on our business, financial condition, results of operations or cash flows. As of September 30, 2014, we have considered all of the claims and disputes of which we are aware and have provided for probable losses, which are not significant.

11. Fair Value Measurements

The accounting standards for fair value require disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs. The three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies, is as follows:

Level 1—Quoted prices for identical assets and liabilities in active markets.

Level 2—Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3—Unobservable inputs for the asset or liability.

Transfers between levels are determined at the end of the reporting period. No transfers between levels have been recognized for the three and nine months ended September 30, 2014 and 2013.

Cash, accounts receivable, accounts payable and accrued liabilities are reflected in the financial statements at their carrying value, which approximate their fair value due to their short maturity.

Restricted cash included \$1.1 million and \$4.8 million of certificates of deposit at September 30, 2014 and December 31, 2013, respectively. The fair value of certificates of deposit is the balance at the reporting date less early withdrawal penalties, if applicable, and is based on observable inputs of rates offered on deposits of similar remaining maturities (Level 2). Certificates of deposit are reflected in the financial statements at their carrying value, which

approximates their fair value, due to the insignificant nature of early withdrawal penalties.

At December 31, 2013, restricted cash also included \$1.3 million of cash held in escrow related to additional cash payments that will be made to the former owner of an entity acquired by MACH in 2011 as required under a purchase agreement existing at the Acquisition Date. This amount is reflected in the financial statements at its carrying value, which approximates its fair value (Level 3).

Table of Contents

From time to time, we measure certain assets at fair value on a non-recurring basis, specifically long-lived assets evaluated for impairment. We estimate the fair value of our long-lived assets using company-specific assumptions which would be categorized within Level 3 of the fair value hierarchy.

The carrying amounts and fair values of our long-term debt as of September 30, 2014 and December 31, 2013 were as follows:

	September 30, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(in thousands)	(Unaudited)			
Initial Term Loans	\$911,835	\$898,157	\$911,835	\$916,394
Tranche B Term Loans	678,665	668,485	678,665	683,331
Revolving Credit Facility	100,000	100,000	—	—
Senior Notes	475,000	498,750	475,000	520,125

The fair values of the Initial Term Loans, the Tranche B Term Loans and the Senior Notes were based upon quoted market prices in inactive markets for similar instruments (Level 2). The Revolving Credit Facility bore interest at a floating rate, therefore the Company believes that the carrying value approximates fair value and is classified within Level 3 of the fair value hierarchy.

12. Related Party Transactions

Consulting Agreement with Carlyle

On January 13, 2011, we entered into a ten-year consulting agreement with investment funds affiliated with The Carlyle Group (along with its associated investment funds, or any successor to its investment management business, “Carlyle”) under which we pay Carlyle a management fee for consulting services Carlyle provides to us and our subsidiaries. Under this agreement, subject to certain conditions, we pay an annual management fee to Carlyle of \$3.0 million and reimburse their out-of-pocket expenses. During the three and nine months ended September 30, 2014, we recorded \$0.8 million and \$2.4 million, respectively, associated with the management fee and the reimbursement of out-of-pocket expenses. During the three and nine months ended September 30, 2013, we recorded \$0.7 million and \$2.6 million, respectively.

Carlyle, from time to time, participates as a debt holder within the syndicate under our Initial Term Loans and Tranche B Term Loans. As of September 30, 2014 and December 31, 2013, Carlyle held \$49.0 million and \$17.5 million of our Initial Term Loans and Tranche B Term Loans, respectively.

13. Supplemental Consolidating Financial Information

We have presented supplemental condensed consolidating balance sheets, statements of operations, statements of comprehensive (loss) income and statements of cash flows for Syniverse Holdings, Inc., which we refer to in this footnote only as Syniverse, Inc., the subsidiary guarantors and the subsidiary non-guarantors for all periods presented to reflect the guarantor structure under the Senior Notes. The supplemental financial information reflects the investment of Syniverse, Inc. using the equity method of accounting.

Syniverse, Inc.’s payment obligations under the Senior Notes are guaranteed by the 100% owned subsidiary guarantors. Syniverse, Inc.’s other subsidiaries are included as non-guarantors (collectively, the “Subsidiary Non-Guarantors”). Such guarantees are irrevocable, full, unconditional and joint and several.

ITEM 2: MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Certain of the statements in this Quarterly Report on Form 10-Q, including, without limitation, those under the caption entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” may constitute “forward-looking statements” for purposes of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Some of the forward-looking statements can be identified by the use of terms such as “believes,” “expects,” “may,” “will,” “should,” “could,” “seeks,” “intends,” “plans,” “estimates,” “anticipates” or other comparable terms. These forward-looking statements include all matters that are not related to present facts or current conditions or that are not historical facts. They appear in a number of places throughout this Quarterly Report on Form 10-Q and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our consolidated results of operations, financial condition, liquidity, prospects and growth strategies and the industries in which we operate and including, without limitation, statements relating to our future performance.

Forward-looking statements are subject to known and unknown risks and uncertainties, many of which are beyond our control. We caution you that forward-looking statements are not guarantees of future performance and that our actual consolidated results of operations, financial condition and liquidity, and industry development may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report on Form 10-Q. In addition, even if our consolidated results of operations, financial condition and liquidity, and industry development are consistent with the forward-looking statements contained in this Quarterly Report on Form 10-Q, those results or developments may not be indicative of results or developments in subsequent periods. A number of important factors could cause actual results to differ materially from those contained in or implied by the forward-looking statements, including the risks and uncertainties described in “Risk Factors.” Factors that could cause actual results to differ from those reflected in forward-looking statements relating to our operations and business include:

- system failures or delays which could harm our reputation;
- our reliance on third-party providers for communications software, hardware and infrastructure;
- our ability to acquire and integrate complementary business and technologies and realize the expected benefits from those acquisitions;
- our ability to realize the expected benefits of the MACH (defined below) and Aicent (defined below) acquisitions;
- our ability to adapt quickly to technological change;
- our newly offered services may not perform as anticipated;
- the loss of any of our significant customers;
- the failure to achieve or sustain desired pricing levels;
- consolidation among, or network build-outs by, customers could cause us to lose transaction volume and affect pricing;
- the reduction of services by existing customers;
- our customers may develop in-house solutions and no longer use our services;
- the success of our international expansion is uncertain, including our ability to receive or retain the required licenses or authorizations;
- political instability in certain countries where we operate;
- our compliance with anti-corruption laws and regulations;
- our ability to receive and retain licenses or authorizations required to conduct our business internationally, including in countries targeted by economic sanctions;
- security breaches which could result in significant liabilities;
- changes in the regulatory landscape affecting us and our customers;
- additional costs and liabilities for maintaining customer privacy;

failure to protect our intellectual property rights or claims by third parties that we infringe on their intellectual property rights;
our ability to achieve desired organic growth
our ability to service our debt; and
the significant influence Carlyle has over corporate decisions.

All forward-looking statements are made only as of the date of this Quarterly Report on Form 10-Q and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking statements to reflect

Table of Contents

future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends, or indications of future performance, unless expressed as such, and should only be viewed as historical data.

Business

Syniverse is the leading global transaction processor that connects mobile network operators (“MNOs”) and enterprises in nearly 200 countries enabling seamless mobile communications across disparate and rapidly evolving networks, devices and applications. We process transactions that include the authorization and delivery of end-user traffic, clearing of billing records and settlement of payments. We also analyze a unique portfolio of real-time data generated by these transactions to deliver a wide range of intelligence tools to our customers. Our portfolio of mission-critical services enables our customers to connect to the mobile ecosystem, optimize their businesses and enhance and personalize the mobile experience for their end-users. We process nearly 3 billion billable transactions daily and settle approximately \$17 billion annually between our customers. We are the leader in long term evolution (“LTE”) roaming and interconnect, offering superior connectivity critical for delivering the advanced mobile experiences end-users expect in 4G and beyond, including voice over LTE (“VoLTE”). We currently enable direct reach to nearly half of the global mobile population and cover 16 of the top 20 international roaming routes. We believe our global footprint and operational scale are unmatched in our industry. As a trusted partner with over 25 years of experience and a history of innovation, we believe we are well positioned to solve the technical, operational and financial complexities of the mobile ecosystem.

Our diverse and growing customer base includes a broad range of participants in the mobile ecosystem, including over 1,000 MNOs and over 550 over-the-top providers (“OTTs”) and enterprises. Our customers include 97 of the top 100 MNOs globally, such as Verizon Wireless, América Móvil, Vodafone, Telefónica, China Unicom and Reliance Communications; OTTs, including 4 of the top 10 global social networking sites, including one of the largest social networking sites in China; blue-chip enterprise customers, including 7 of the 10 largest U.S. banks, 3 major banks in Asia, the top 3 credit card networks worldwide, top travel and hospitality companies including 3 of the top 5 airlines and 2 multinational hotel brands, the top global e-commerce provider and one of the top 5 department store retailers globally.

Founded in 1987, Syniverse now provides approximately 60 mission-critical services to manage the real-time exchange of information and traffic across the mobile ecosystem, enhance our customers’ brands and provide valuable intelligence about end-users. Our customers demand, and we deliver, a high quality of service as evidenced by our over 99.999% network availability. Our comprehensive suite of Mobile Transaction Services and Enterprise & Intelligence Solutions includes the services described below.

Mobile Transaction Services: Transaction-based services that are designed to support the long-term success of our MNO customers. Through Mobile Transaction Services, we:

- Clear, process, and exchange end-user billing records between MNOs.
- Process and settle payments between participants in the mobile ecosystem.
- Activate, authenticate and authorize end-user mobile activities.
- Manage the routing and delivery of text (SMS), multimedia (MMS) and next generation messaging.
- Provide data transport services over our global IP data network regardless of technology protocol.
- Enable real-time policy management for improved end-user experience.
- Provide business intelligence tools to MNOs for fraud control.

Enterprise & Intelligence Solutions: Solutions that bridge OTTs and enterprises with MNOs and incorporate our real-time intelligence capabilities to enable all of our customers to serve their end-users. Through Enterprise & Intelligence Solutions, we:

- Connect enterprises to the mobile ecosystem to allow them to reliably reach and interact with their customers and employees via mobile devices.

- Bridge OTTs to the mobile ecosystem allowing OTT end-users to seamlessly interact with traditional mobile end-users.

- Provide mobile campaign management services that enable enterprises to optimize their mobile communications strategies through the delivery of customized offers and information to end-users.

- Provide data analytics and business intelligence services designed to measure, enhance and secure the end-user experience for our enterprise and OTT customers.

Table of Contents

• Provide data collection and analysis services to enable MNOs to measure and manage the subscriber experience across networks.

Executive Overview

Financial Highlights

For the three months ended September 30, 2014, revenues increased \$0.9 million, or 0.4%, to \$239.8 million from \$238.9 million for the comparable prior year period. Mobile Transaction Services revenue decreased \$1.7 million, or 0.8%, to \$205.8 million for the three months ended September 30, 2014, from \$207.5 million for the same period in 2013. Enterprise & Intelligence Solutions revenue increased \$2.6 million, or 8.2%, to \$34.0 million for the three months ended September 30, 2014, from \$31.4 million for the same period in 2013. Operating income decreased \$15.8 million to \$23.7 million for the three months ended September 30, 2014 from \$39.5 million for the same period in 2013. Net income (loss) from continuing operations increased \$17.2 million to income of \$15.7 million for the three months ended September 30, 2014, from a loss of \$1.5 million for the same period in 2013. Net loss from continuing operations for the three months ended September 30, 2014 includes an increase in benefit from income taxes of \$20.0 million. Adjusted EBITDA decreased \$8.1 million, or 7.6%, to \$98.8 million for the three months ended September 30, 2014 from \$106.9 million for the same period in 2013. See “Non-GAAP Financial Measures” below for a reconciliation of Adjusted EBITDA to Net income (loss) from continuing operations.

Business Developments

Aicent Acquisition

On August 4, 2014 (the “Aicent Acquisition Date”), Syniverse Technologies, LLC, a Delaware limited liability company and a wholly-owned subsidiary of Syniverse Holdings, Inc. acquired all of the outstanding equity interests of Aicent Holdings Corporation, a Delaware corporation (“Aicent”) from its existing stockholders in accordance with the terms of an agreement and plan of merger for approximately \$292.2 million. The Aicent Acquisition was funded with cash of approximately \$192.2 million and a draw down of Syniverse’s existing Revolving Credit Facility with Barclays Bank PLC in the amount of \$100.0 million.

See Note 4 to our unaudited condensed consolidated financial statements for additional information regarding the Aicent Acquisition.

Sprint Renewal

As of June 30, 2014, our service contracts with Sprint were due to expire during the fourth quarter of 2014. Effective July 1, 2014, we entered into an early renewal agreement with Sprint which provides for a broad range of products and services, including products and services covered under the existing service contracts as well as new offerings. The renewed service contract has a term of five years.

MACH Acquisition

On June 28, 2013, we completed our acquisition of WP Roaming III S.à r.l. (“WP Roaming”), for a total purchase price of approximately \$712.0 million. WP Roaming is a holding company which conducted the business of MACH S.à r.l. (“MACH”). As part of the transaction, we acquired from WP Roaming S.à r.l., a Luxembourg limited liability company (the “Seller”), all the shares and preferred equity certificates (whether convertible or not) in WP Roaming (the “MACH Acquisition”). The purchase price was funded through a portion of the net proceeds from a new \$700.0 million senior secured credit facility and a deposit of €30.0 million.

See Note 4 to our unaudited condensed consolidated financial statements for additional information regarding the MACH Acquisition.

Factors and Trends Affecting Our Results of Operations

Our results of operations have been, and we expect them to continue to be, affected by the following factors, which may cause our future results of operations to differ from our historical results of operations discussed under “Results of Operations”:

34

Table of Contents

rapid technological change in the industries we serve, including the increasing demand for seamless and ubiquitous connectivity, personalized mobile services and the proliferation of new and increasingly complex mobile devices, which could lead to growth in our potential customer base, increased opportunities to provide new services to our customers and increased transaction volumes. We may also increase investment in our business in order to develop new technologies and services to effectively serve our customers in light of these developments. In addition, our failure or inability to respond to these developments through the provision of new or updated services or otherwise could have a negative effect on our ability to grow or retain our customer base and on our transaction volumes; the rate at which new entrants to the mobile ecosystem adopt our services in order to connect to other mobile participants which will affect the extent to which new entrants potentially seek to utilize our services, which will affect growth in transaction volumes and revenue;

- downward pressure on the prices we charge for our services from our existing customers as we enter into contract renewals, which could have a negative impact on our revenues and margin;
- the extent to which our customers build-out or expand their own networks, which could have a negative impact on transaction volume from those customers and on our revenue;
- our ability to realize some or all of the anticipated benefits, including cost savings and synergies from our ongoing integration of the MACH and Aicent businesses;
- costs associated with our international operations, including integration of acquired international operations, compliance with applicable foreign regulations and fluctuations in foreign currency exchange rates may differ from historical experience and our projections, which could impact our earnings;
- the rate of growth associated with our expanded international operations and geographic reach, which may lead to an increase in our number of customer and transaction volumes and would affect our future revenue growth;
- our ability to execute on currently pending and future cost savings initiatives, including efficient resource allocation, management realignment and other activities;
- the extent to which current or future customers develop in-house solutions to provide analogous services or seek alternative providers of our services, which could reduce the number of services we provide their customers and our overall termination volumes which would have a negative impact on our revenue;
- consolidation in the mobile industry which may result in reduced transaction volumes, and, as a result, have a negative impact on our revenue;
- the extent to which increasingly complex requirements and changes in the regulatory landscape drive the need for enhancements to our existing services and infrastructure, the development of new compliance oriented services and the design and implementation of internal control procedures and processes, any of which may increase operational costs and burdens which could reduce our operating margins. Our ability to adapt to these new requirements and provide compliant services also could improve our competitive position and generally drive growth in demand for our services, which would drive growth in our revenue; and
- proposed European Commission regulations that may affect our MNO customers' roaming charges and increase downward pressure on the prices we charge for our data clearing services, which could negatively affect our revenue. A decrease in roaming charges may also lead to an increase in the number of roaming transactions, as the cost to end-users for such transactions would be reduced, and such an increase could drive growth in the number of transactions we process, which could positively affect our revenue.

Revenues

Revenue is recognized when persuasive evidence of an arrangement exists, service has been rendered or delivery has occurred, the selling price is fixed or determinable and collectability is reasonably assured. The majority of our revenues are derived from transaction-based charges under long-term contracts, typically with three-year terms. From time to time, if a contract expires and we have not previously negotiated a new contract or renewal with the customer, we continue to provide services under the terms of the expired contract as we negotiate new agreements or renewals. A majority of the services we offer to our customers are provided through applications, connectivity, and technology platforms owned and operated by us.

Revenues for our services are generated primarily on transaction-based fees, such as the number of records or transactions processed or the size of data records processed. Approximately 83% of our revenues were generated by transaction-based fees during the first nine months of 2014. For all of our transaction-based services, we recognize revenues at the time the transactions are processed. We also recognize fixed fees as revenues on a monthly basis as the related services are performed. We defer

35

Table of Contents

revenues and incremental customer-specific costs related to customer implementations and recognize related fees and costs on a straight-line basis over the life of the initial customer contract.

Costs and Expenses

Our costs and expenses consist of cost of operations, sales and marketing, general and administrative, depreciation and amortization, employee termination benefits, restructuring and acquisitions expense.

Cost of operations includes data processing costs, network costs, variable costs, such as revenue share service provider arrangements and message termination fees, facilities costs, hardware costs, licensing fees, personnel costs associated with service implementation, training and customer care and off-network database query charges. Variable costs are paid to third party providers and are direct costs that fluctuate either as a percentage of revenue or by the number of transactions processed.

Sales and marketing includes personnel costs, advertising and website costs, trade show costs and related marketing costs.

General and administrative includes research and development expenses, a portion of the expenses associated with our facilities, business development expenses, and expenses for executive, finance, legal, human resources and other administrative departments and professional service fees relating to those functions. Our research and development expenses, consisting primarily of personnel costs, relate to technology creation, enhancement and maintenance of new and existing services.

Depreciation and amortization relate primarily to our property and equipment and identifiable intangibles including our Signaling System 7 network, computer equipment, infrastructure facilities related to information management, capitalized software and other intangible assets recorded as a result of purchase accounting.

Employee termination benefits represents non-retirement post-employment benefit costs including severance, benefits and other employee related costs.

Restructuring represents costs related to certain exit activities such as involuntary termination costs and contract termination costs associated with the exit of a leased facility.

Acquisitions include professional services costs, such as legal, tax, audit and transaction advisory costs related to the MACH Acquisition and the Aicent Acquisition (collectively, the "Acquisitions").

Revenues

Revenues increased \$0.9 million to \$239.8 million for the three months ended September 30, 2014 from \$238.9 million for the same period in 2013, driven by \$8.0 million contributed by the Aicent Acquisition and continued volume growth in our advanced network interoperability services and enterprise connectivity services, offset by volume declines in our North American code division multiple access (“CDMA”) portfolio and competitive pricing pressure for certain renewals.

Revenues increased \$70.6 million to \$686.7 million for the nine months ended September 30, 2014 from \$616.0 million for the same period in 2013, driven primarily by revenues of \$63.0 million contributed by the MACH Acquisition during the first half of 2014 and \$8.0 million contributed by the Aicent Acquisition during the third quarter. Excluding the impact of the Acquisitions, revenue for the nine months ended September 30, 2014, decreased \$0.4 million, resulting from volume declines in our North American CDMA services and pricing declines associated with our clearing and settlement services, partially offset by new contract wins and continued volume growth across our global IP network and enterprise connectivity services.

Revenue from Mobile Transaction Services decreased \$1.7 million, or 0.8%, to \$205.8 million for the three months ended September 30, 2014 from \$207.5 million for the same period in 2013. Excluding the impact of the Aicent Acquisition, which contributed \$7.5 million during the third quarter, revenues declined \$9.2 million resulting from a decline in revenues from our clearing and settlement services driven primarily by the continued impact of a network build out by a significant North American customer and competitive pricing pressure across our global system for mobiles (“GSM”) clearing and settlement suite. The decline was partially offset by continued volume growth in our advanced network interoperability services, including our interworking packet exchange (“IPX”) services and growth in our messaging business resulting from higher volumes as well as an increase in international SMS volumes which were tempered by lower North American traffic. Growth in our revenue assurance and mobile intelligence services also partially offset the decline.

Table of Contents

Revenue from Mobile Transaction Services increased \$48.1 million, or 8.9%, to \$587.2 million for the nine months ended September 30, 2014 from \$539.1 million for the same period in 2013. The increase in revenue was driven primarily by revenues of \$48.4 million contributed by the MACH Acquisition during the first half of 2014 and \$7.5 million contributed by the Aicent Acquisition during the third quarter. Excluding the impact of the Acquisitions, revenue decreased \$7.8 million for the nine months ended September 30, 2014, primarily driven by declines in our North American CDMA revenues and the decline in revenue from our clearing and settlement services. The declines were partially offset by volume growth across our advanced network interoperability services and growth in our revenue assurance and mobile intelligence services.

Revenue from Enterprise & Intelligence Solutions increased \$2.6 million, or 8.2%, to \$34.0 million for the three months ended September 30, 2014 from \$31.4 million for the same period in 2013. The increase in revenue was driven by organic volume growth in our enterprise connectivity services as our Enterprise & Intelligence Solutions offerings continue to benefit from strong adoption by new enterprise customers across various verticals, including hospitality, social media and retail.

Revenue from Enterprise & Intelligence Solutions increased \$22.5 million, or 29.2%, to \$99.5 million for the nine months ended September 30, 2014 from \$77.0 million for the same period in 2013. The increase in revenue was driven by \$14.6 million contributed by the MACH Acquisition during the first half of 2014 and \$0.5 million contributed by the Aicent Acquisition during the third quarter. In addition, organic volume growth in our enterprise connectivity services contributed \$7.4 million for the nine months ended September 30, 2014.

Costs and Expenses

Cost of operations increased \$10.9 million to \$96.8 million for the three months ended September 30, 2014 from \$85.9 million for the three months ended September 30, 2013. Cost of operations increased \$47.8 million to \$277.6 million for the nine months ended September 30, 2014 from \$229.8 million for the nine months ended September 30, 2013. The tables below summarize our cost of operations by category of spending.

(in thousands)	Three Months Ended September 30,		2014 compared to 2013		
	2014	2013	\$ change	% change	
Cost of Operations:					
Headcount and related costs	\$25,014	\$26,014	\$(1,000)	(3.8))%
Variable costs	28,241	23,295	4,946	21.2	%
Data processing and related hosting and support costs	24,577	21,363	3,214	15.0	%
Network costs	14,846	11,185	3,661	32.7	%
Other operating related costs	4,142	4,074	68	1.7	%
Cost of Operations	\$96,820	\$85,931	\$10,889	12.7	%
(in thousands)					
Cost of Operations:					
Headcount and related costs	\$75,741	\$71,712	\$4,029	5.6	%
Variable costs	79,654	54,936	24,718	45.0	%
Data processing and related hosting and support costs	71,642	60,702	10,940	18.0	%
Network costs	39,485	32,704	6,781	20.7	%
Other operating related costs	11,058	9,742	1,316	13.5	%
Cost of Operations	\$277,580	\$229,796	\$47,784	20.8	%

The decrease in headcount and related costs for the three months ended September 30, 2014 was driven by a decrease in performance-based compensation, partially offset by additional headcount resulting primarily from the Aicent Acquisition. The increase in headcount and related costs for the nine months ended September 30, 2014 was driven by additional headcount resulting from the MACH and Aicent Acquisition, partially offset by a decrease in performance-based compensation.

The increase in variable costs for the three and nine months ended September 30, 2014 was due primarily to higher message termination fees related to organic volume increases in our enterprise connectivity services and an increase in revenue

Table of Contents

share costs resulting from an increase in the associated revenue. In addition, these periods were impacted by volumes contributed by the Aicent Acquisition. The increase for the nine months ended September 30, 2014 was impacted by volumes contributed by the MACH Acquisition during the first half of 2014. As a result of these increases, variable costs as a percentage of operating costs, which management defines as cost of operations, sales and marketing and general and administrative expenses, were 19.0% and 18.0% for the three and nine months ended September 30, 2014, respectively, compared to 16.9% and 14.5% for the three and nine months ended September 30, 2013, respectively.

The increase in data processing, hosting and support costs was primarily due to investments in data center expansion to support additional capacity related to global and service offering expansion efforts and anticipated volume increases, as well as higher software maintenance costs related to additional service needs resulting from the MACH Acquisition and organic growth.

The increase in network costs was primarily driven by expansion of our network infrastructure to support global business growth as well as additional costs resulting from the Aicent Acquisition. We intend to continue expanding our network infrastructure for the foreseeable future in order to support future growth opportunities. In addition, integration efforts resulting from the Acquisitions will drive consolidation across our current infrastructure.

As a percentage of revenues, cost of operations increased to 40.4% for the three and nine months ended September 30, 2014, respectively, from 36.0% and 37.3% for the three and nine months ended September 30, 2013, respectively.

Sales and marketing expense was \$18.3 million for the three months ended September 30, 2014 and was flat to the prior year period due primarily to a reduction in performance-based compensation offset by an increase in sales incentive compensation and headcount related costs resulting primarily from the Aicent Acquisition. As a percentage of revenues, sales and marketing expense decreased to 7.6% for the three months ended September 30, 2014 from 7.7% for the three months ended September 30, 2013.

Sales and marketing expense increased \$5.9 million to \$60.9 million for the nine months ended September 30, 2014 from \$55.0 million for the same period in 2013. The MACH Acquisition contributed \$8.8 million during the first half of 2014, primarily due to headcount related costs for the acquired sales force employees. Excluding the impact of the MACH Acquisition, sales and marketing expense decreased \$2.9 million due primarily to a reduction in performance-based compensation. As a percentage of revenues, sales and marketing expense was flat for the nine months ended September 30, 2014 and 2013 at 8.9%.

General and administrative expense increased \$0.2 million to \$33.7 million for the three months ended September 30, 2014 from \$33.5 million for the same period in 2013. The increase was primarily due to higher headcount related costs associated with additional resources to support global business growth and additional headcount resulting from the Aicent Acquisition, as well as increase in professional fees and facilities costs. The increase was partially offset by lower performance-based compensation. As a percentage of revenues, general and administrative expense was flat for the three months ended September 30, 2014 and 2013 at 14.0%.

General and administrative expense increased \$10.6 million to \$103.9 million for the nine months ended September 30, 2014 from \$93.3 million for the comparable prior year period. The increase was driven primarily by headcount related costs, facilities expense and professional services costs in the first half of 2014 resulting from the MACH Acquisition. Excluding the impact of the MACH Acquisition, general and administrative expense decreased \$1.1 million for the nine months ended September 30, 2014. The decrease was primarily due to lower performance-based compensation, partially offset by an increase in headcount related costs associated with additional resources to support global business growth and new product development initiatives, as well as an increase in facilities costs. As a percentage of revenues, general and administrative expense was flat for the nine months ended September 30, 2014 and 2013 at 15.1%.

Depreciation and amortization expense increased \$2.5 million to \$62.2 million for the three months ended September 30, 2014 from \$59.7 million for the same period in 2013. Depreciation and amortization expense increased \$19.8 million to \$174.1 million for the nine months ended September 30, 2014 from \$154.3 million for the same period in 2013. The increase was driven by \$0.9 million and \$13.1 million of amortization of intangible assets, including capitalized software, for the three and nine months ended September 30, 2014, respectively, and \$1.6 million and \$6.8 million of depreciation of property and equipment for the three and nine months ended September 30, 2014. The increase in amortization of intangible assets and depreciation of property and equipment was driven by the Aicent Acquisition for the three months ended September 30, 2014 and by the MACH Acquisition during the first half of 2014.

Employee termination benefits expense was \$4.5 million and \$1.3 million for the three months ended September 30, 2014 and 2013, respectively. Employee termination benefits expense was \$9.4 million and \$4.3 million for the nine months ended September 30, 2014 and 2013, respectively. The increase in each period was driven primarily by severance and other transition

Table of Contents

costs associated with the departure of the Company's Chief Executive Officer in September 2014. In addition, the current year period was impacted by a reduction-in-force as a result of cost saving initiatives, including synergies resulting from the integration of the MACH Acquisition.

Restructuring expense was less than \$0.1 million for the three months ended September 30, 2014 and 2013, respectively, and less than \$0.1 million and \$0.5 million for the nine months ended September 30, 2014 and 2013, respectively. The decrease for the year-to-date period was driven by severance costs related to restructuring plans entered into during prior periods. See Note 8 to the unaudited condensed consolidated financial statements for additional details regarding our restructuring plans.

Acquisitions expense was \$0.5 million and \$2.0 million for the three and nine months ended September 30, 2014, respectively, and \$0.7 million and \$21.6 million for the three and nine months ended September 30, 2013, respectively. Acquisitions expense consisted primarily of professional services costs including legal, tax, audit and transaction advisory costs related to the Aicent Acquisition in 2014 and the MACH Acquisition in 2013.

Other Income (Expense), net

Interest expense decreased \$6.0 million to \$31.1 million for the three months ended September 30, 2014 from \$37.1 million for the same period in 2013. The decrease was due primarily to lower interest expense of \$3.9 million resulting from a principal pre-payment on the Term Loan Facilities and refinancing of the Initial Term Loans in September 2013. In addition, the prior year period included \$1.0 million of accelerated amortization of original issue discount and deferred financing costs associated with the principal pre-payment and \$1.7 million of debt modification costs associated with the refinancing of our Initial Term Loans. The decrease for the three months ended September 30, 2014 was partially offset by a \$0.6 million increase in interest expense related to the Revolving Credit Facility.

Interest expense decreased \$3.4 million to \$91.7 million for the nine months ended September 30, 2014 from \$95.1 million for the same period in 2013. The decrease was due primarily to lower interest expense of \$1.3 million related to the principal pre-payment and refinancing of our Initial Term Loans as mentioned above. In addition, the prior year period included accelerated amortization of original issue discount and deferred financing costs associated and debt modification costs described above. The decrease for the nine months ended September 30, 2014 was partially offset by a \$0.6 million increase in interest expense related to the Revolving Credit Facility.

Equity income in investee was \$0.2 million and \$0.1 million for the three and nine months ended September 30, 2014 and was comprised of income from our equity investment in a subsidiary acquired in the MACH Acquisition.

Other, net increased \$4.3 million to a \$1.0 million gain for the three months ended September 30, 2014 from a \$3.3 million loss for the same period in 2013. Other, net increased \$5.2 million to a \$0.7 million gain for the nine months ended September 30, 2014 from a \$4.5 million loss for the same period in 2013. The increase is primarily due to favorable foreign currency impact from cash settlements between our domestic and foreign entities.

Benefit from Income Taxes

We recorded an income tax benefit of \$21.8 million and \$22.1 million for the three and nine months ended September 30, 2014, compared to a benefit of \$1.8 million and a benefit of \$5.9 million for the three and nine months ended September 30, 2013. During the three and nine months ended September 30, 2014, the effective tax rate was a benefit of 357.8% and 69.9%, respectively. During the three and nine months ended September 30, 2013, the effective tax rate was a benefit of 55.5% and 13.2%, respectively. The tax benefit recognized for the nine months ended September 30, 2013 was limited to the amount that would be recognized if the ordinary loss was the anticipated loss

for the fiscal year. The change in our effective tax rate was chiefly attributable to (i) the inclusion of a full year of the actual and forecasted earnings impact of the MACH entities in our 2014 effective tax rate, (ii) the prior year effects of costs related to the acquisition of MACH, some of which were nondeductible for income tax purposes, (iii) the prior year effects of the loss limitation described above, and (iv) a shift to taxable income to lower foreign tax rate jurisdictions.

Liquidity and Capital Resources

Our operations are conducted almost entirely through our subsidiaries and our ability to generate cash to meet our debt service obligations or to pay dividends is highly dependent on the earnings and the receipt of funds from our subsidiaries via dividends or intercompany loans.

Table of Contents

Our primary sources of liquidity are expected to be cash flow from operations as well as funds available under the Revolving Credit Facility. We believe that we have sufficient liquidity to meet currently anticipated growth plans, including short and long-term capital expenditures and working capital requirements. In addition, we believe that our liquidity is sufficient to fund our debt repayment obligations. Our ability to make payments on our indebtedness will depend on our ability to generate cash flow from operating activities in the future. Our indebtedness requires us to dedicate a substantial portion of our cash flow from operations to debt service, thereby reducing the availability of our cash flow to fund acquisitions, working capital, capital expenditures, research and development efforts and other general corporate purposes. Historically, we have been successful in obtaining financing, although the marketplace for such financing may become restricted depending on a variety of economic and other factors. On August 4, 2014, we completed the Aicent Acquisition for \$292.2 million, which was funded with cash of \$192.2 million and a draw down of our Revolving Credit Facility in the amount of \$100.0 million. The Revolving Credit Facility had an outstanding Euro letter of credit of \$1.9 million at September 30, 2014, which reduced availability under the Revolving Credit Facility. The unused commitment under the Revolving Credit Facility was \$48.1 million at September 30, 2014.

We may from time to time repurchase or otherwise retire or extend our debt and/or take other steps to reduce our debt or otherwise improve our financial position. These actions may include open market debt repurchases, negotiated repurchases, other retirements of outstanding debt, and/or opportunistic refinancing of debt. The amount of debt that may be repurchased or otherwise retired or refinanced, if any, will depend on market conditions, trading levels of our debt, our cash position, compliance with debt covenants and other considerations.

We believe that our cash on hand, together with cash flow from operations and, if required, borrowings under the Revolving Credit Facility will be sufficient to meet our cash requirements for the next twelve months. To the extent we require supplemental funding for our operating activities, we may need access to the debt and equity markets; however, there can be no assurances such funding will be available on acceptable terms or at all.

Cash Flow

Cash and cash equivalents were \$137.9 million at September 30, 2014 as compared to \$306.4 million at December 31, 2013. The following table summarizes the activity within our unaudited condensed consolidated statements of cash flows.

(in thousands)	Nine Months Ended September 30,	
	2014	2013
Net cash provided by operating activities	\$ 109,370	\$ 75,986
Net cash used in investing activities	(363,529)	(694,479)
Net cash provided by financing activities	90,876	608,132
Effect of exchange rate changes on cash	(5,240)	4,005
Net decrease in cash	\$(168,523)	\$(6,356)

Net cash provided by operating activities increased \$33.4 million to \$109.4 million for the nine months ended September 30, 2014 from \$76.0 million for the same period in 2013. The increase was primarily due to:

• increased net income adjusted for non-cash items of \$39.6 million, primarily due to improved operating income and lower interest payments as compared to the prior year period.

The increase was partially offset by:

• increased cash used for working capital of \$6.2 million due primarily to the timing of performance-based compensation payments and higher income tax payments, partially offset by timing of payments to vendors.

Net cash used in investing activities was \$363.5 million for the nine months ended September 30, 2014, as compared to \$694.5 million for the nine months ended September 30, 2013. The decrease was driven by:

• cash used for acquisitions decreased \$338.1 million due to the use of \$628.2 million in the prior year period to fund the MACH Acquisition compared to the use of \$290.0 million to fund the Aicent Acquisition in 2014;

Table of Contents

the redemption of a \$3.7 million certificate of deposit during the nine months ended September 30, 2014 that was purchased in the prior period; and

proceeds of \$0.7 million from the sale of the Divestment Business during the nine months ended September 30, 2014; partially offset by

increased capital expenditures of \$15.4 million, primarily due to higher costs associated with capitalized software to support new services, data center capacity increases, investments in our internal infrastructure and capital spend related to the integration of MACH.

Net cash provided by financing activities was \$90.9 million for the nine months ended September 30, 2014 as compared to \$608.1 million for the nine months ended September 30, 2013. The decrease was due to:

net proceeds from long-term debt of \$1,608.3 million received in the prior year period related to the Initial Term Loans and Tranche B Term Loans, partially offset by a \$100.0 million draw down on the Revolving Credit Facility in 2014;

increased distribution to our parent of \$1.1 million;

the purchase of our redeemable noncontrolling interest of \$0.5 million; and

increased payments on capital lease obligations of \$0.9 million; partially offset by

decreased principal payments on our long-term debt of \$966.6 million resulting from the partial principal pre-payment on our Term Loan Facilities and refinancing of our Initial Term Loans in the prior year period; and

decreased debt issuance costs of \$26.9 million resulting from prior year payments for deferred financing costs associated with our Tranche B Term Loans and debt modification costs associated with the refinancing of our Initial Term Loans.

Debt and Credit Facilities

Senior Credit Facility

On April 23, 2012, we entered into a Credit Agreement with Buccaneer LLC (as successor by merger to Buccaneer), Barclays Bank PLC, as administrative agent, swing line lender and letters of credit issuer, and the other financial institutions and lenders from time to time party thereto, providing for the Senior Credit Facility consisting of (i) the Initial Term Loans; and (ii) the Revolving Credit Facility for the making of revolving loans, swing line loans and issuance of letters of credit.

On June 28, 2013 the Company borrowed \$700.0 million of Tranche B Term Loans, pursuant to the Incremental Amendment to its Credit Agreement. The proceeds of the Tranche B Term Loans were used to refinance, in full, the Escrow Term Loans (as defined below), a portion of which were used to fund the MACH Acquisition.

As of September 30, 2014, we had a carrying amount of \$911.8 million and \$678.7 million, excluding original issue discount, of outstanding indebtedness under the Initial Term Loans and Tranche B Term Loans, respectively. At September 30, 2014, the applicable interest rate was 4.00% on these Term Loan Facilities based on the Eurodollar rate loan option.

On August 4, 2014, the Company drew \$100.0 million on the Revolving Credit Facility to fund a portion of the Aicent Acquisition. See Note 4 for additional details regarding the Aicent Acquisition.

Delayed Draw Credit Agreement

On February 4, 2013, Syniverse Magellan Finance, LLC (the "Finance Sub"), Syniverse Holdings' direct wholly-owned subsidiary entered into the Delayed Draw Credit Agreement with Barclays Bank PLC, as administrative agent, and the other financial institutions and lenders from time to time party thereto, providing for the \$700.0 million Delayed Draw Facility. On May 28, 2013, Finance Sub entered into an amendment to the Delayed Draw Credit Agreement. Upon the closing of this amendment, the lenders funded the Delayed Draw Facility into an escrow account ("Escrow Term Loans") and the Company pre-funded the interest, upfront fees and ticking fees of \$7.2 million, \$3.5 million and \$3.6 million, respectively. The Escrowed Funds were released to Finance Sub on June 28, 2013.

Table of Contents

Non-GAAP Financial Measures

Adjusted EBITDA and Free Cash Flow are not presentations made in accordance with U.S. GAAP. Adjusted EBITDA should not be considered as alternatives to net loss, operating income, revenues or any other performance measures derived in accordance with U.S. GAAP as measures of operating performance or operating cash flows or liquidity. We believe that Adjusted EBITDA and Free Cash Flow are measures commonly used by investors to evaluate our performance and that of our competitors. We further believe that the disclosure of Adjusted EBITDA and Free Cash Flow is useful to investors, as these non GAAP measures form the basis of how our executive team and Board of Directors evaluate our performance. By disclosing these non GAAP measures, we believe that we create for investors a greater understanding of, and an enhanced level of transparency into, some of the means by which our management team operates and evaluates our Company and facilitates comparisons of current period's results with prior periods.

In addition, these non GAAP measures may not be comparable to other similarly titled measures of other companies in our industry or otherwise. Because of these limitations, Adjusted EBITDA and Free Cash Flow should not be considered as measures of discretionary cash available to us to invest in the growth of our business. We attempt to compensate for these limitations by relying primarily upon our U.S. GAAP results and using Adjusted EBITDA and Free Cash Flow as supplemental information only.

Adjusted EBITDA and Free Cash Flow have important limitations as analytical tools and you should not consider them in isolation or as substitutes for analysis of our results as reported under U.S. GAAP. For example, some of the limitations of Adjusted EBITDA are as follows:

- excludes certain tax payments or the cash requirements necessary to service interest or principal payments on our debt that may represent a reduction in cash available to us;
- does not reflect any cash capital expenditure requirements for the assets being depreciated and amortized that may have to be replaced in the future;
- does not reflect cash outlays for future contractual commitments;
- does not reflect changes in, or cash requirements for, our working capital needs; and
- does not reflect the significant interest expense on our debt.

Adjusted EBITDA is determined by adding the following items to net income (loss) from continuing operations: other income (expense), net, excluding the impact of equity loss in investee, (benefit from) provision for income taxes, depreciation and amortization, employee termination benefits, restructuring, non-cash stock compensation, Acquisitions expense, business development, integration and other related expenses including transition and integration costs generally, CEO transition costs and the Carlyle annual management fee including related expenses. We believe that Adjusted EBITDA is a useful financial metric to assess our operating performance from period to period by excluding certain items that we believe are not representative of our ongoing business operations. We rely on Adjusted EBITDA as a primary measure to review and assess the operating performance of our management team in connection with our executive compensation and bonus plans. We also review Adjusted EBITDA to compare our current operating results with prior periods and with the operating results of other companies in our industry. In addition, we utilize Adjusted EBITDA as an assessment of our overall liquidity and our ability to meet our debt service obligations. Adjusted EBITDA is also a measure used under the indenture for our Senior Notes.

Table of Contents

Reconciliation of Non-GAAP Measures to GAAP

A reconciliation of net income (loss) from continuing operations, the closest GAAP measure, to Adjusted EBITDA is presented in the following tables:

(in thousands)	Three Months Ended September 30,	
	2014	2013
Reconciliation to Adjusted EBITDA		
Net income (loss) from continuing operations	\$ 15,724	\$(1,471)

CEO transition costs (f)	291	—
Management fee and related expenses (g)	2,401	2,571
Adjusted EBITDA	\$265,558	\$255,123

(a) Reflects employee termination benefits expense which is comprised primarily of severance benefits associated with our cost rationalization initiatives.

(b) Reflects restructuring expense which is comprised primarily of contract termination costs associated with the exit of a leased facility.

(c) Reflects non-cash expenses related to equity compensation awards.

(d) Reflects expenses associated with the Acquisitions, including professional services costs, such as legal, tax, audit and transaction advisory costs.

(e) Reflects items associated with business development activities, integration expenses, such as incremental contractor, travel and marketing costs and certain advisory services and employee retention costs.

(f) Reflects costs associated with the transition of our Chief Executive Officer, including recruiting and travel expenses.

(g) Reflects management fees paid to Carlyle and related expenses pursuant to a consulting agreement with Carlyle.

Table of Contents

Free Cash Flow is determined by adding the result of net cash provided by operating activities, adjusted for loss from discontinued operations, net of tax, fair value adjustment to assets and liabilities related to assets held for sale, working capital changes related to discontinued operations and Acquisitions expense less capital expenditures. We believe that Free Cash Flow is a useful financial metric to assess our ability to pursue opportunities to enhance our growth. We also use Free Cash Flow as a measure to review and evaluate the operating performance of our management team in connection with our executive compensation and bonus plans. Additionally, we believe this is a useful metric for investors to assess our ability to repay debt.

A reconciliation of net cash provided by operating activities, the closest GAAP measure, to Free Cash Flow is presented in the following tables:

(in thousands)	Three Months Ended September 30,	
	2014	2013
Reconciliation to Free Cash Flow		
Net cash provided by operating activities	\$40,658	\$21,168
Loss from discontinued operations, net of tax	—	4,980
Fair value adjustment to assets and liabilities related to assets held for sale	—	(3,284)
Working capital changes related to discontinued operations	—	2,492
Acquisitions	536	677
Capital expenditures	(19,969)	(14,103)
Free Cash Flow	\$21,225	\$11,930
	Nine Months Ended September 30,	
(in thousands)	2014	2013
Reconciliation to Free Cash Flow		
Net cash provided by operating activities	\$109,370	\$75,986
Loss from discontinued operations, net of tax	560	4,980
Fair value adjustment to assets and liabilities related to assets held for sale	—	(3,284)
Working capital changes related to discontinued operations	(560)	2,492)
Acquisitions	2,012	21,622
Capital expenditures	(77,898)	(55,846)
Free Cash Flow	\$33,484	\$45,950

Off-Balance Sheet Arrangements

We provide financial settlement services to MNOs to support the payment of roaming related charges to their roaming network partners. In accordance with our customer contracts, funds are held by us as an agent on behalf of our customers to settle their roaming related charges to other MNOs. These funds and the corresponding liability are not reflected in our unaudited condensed consolidated balance sheets. The off-balance sheet amounts totaled approximately \$544.6 million and \$492.9 million as of September 30, 2014 and December 31, 2013, respectively. We have also used off-balance sheet financing in recent years primarily in the form of operating leases for facility space and equipment, and we expect to continue these practices. We do not use any other type of joint venture or special purpose entities that would create off-balance sheet financing. We believe that our decision to lease office space is similar to that used by many other companies of our size and does not have a material impact on our financial statements. We intend to continue to enter into operating leases for facilities and equipment as these leases expire or additional capacity is required.

Related Party Transactions**Consulting Agreement with Carlyle**

On January 13, 2011, we entered into a ten-year consulting agreement with Carlyle under which we pay Carlyle a management fee for consulting services Carlyle provides to us and our subsidiaries. Under this agreement, subject to

certain conditions, we pay an annual management fee to Carlyle of \$3.0 million and reimburse their out-of-pocket expenses. During

46

the three and nine months ended September 30, 2014 and 2013, we recorded \$0.8 million and \$2.4 million, respectively, associated with the management fee and the reimbursement of out-of-pocket expenses. During the three and nine months ended September 30, 2013, we recorded \$0.7 million and \$2.6 million, respectively.

Carlyle, from time to time, participates as a debt holder within the syndicate under our Initial Term Loans and Tranche B Term Loans. As of September 30, 2014 and December 31, 2013, Carlyle held \$49.0 million and \$17.5 million of our Initial Term Loans and Tranche B Term Loans, respectively.

Critical Accounting Policies and Estimates

The preparation of our unaudited condensed consolidated financial statements and related disclosures in conformity with U.S. GAAP requires us to make estimates and judgments that affect our reported amounts of assets, liabilities, revenues and expenses. We consider an accounting estimate to be critical if it requires assumptions to be made that were uncertain at the time the estimate was made and changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition. On an on-going basis, we evaluate our estimates and assumptions based upon historical experience and various other factors and circumstances. We believe that our estimates and assumptions are reasonable under the circumstances; however, actual results may vary from these estimates and assumptions under different future circumstances.

There have been no material changes to our Critical Accounting Policies and Estimates disclosure as filed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Market Risk

We have exposure to fluctuations in interest rates on our Term Loan Facilities. Our Term Loan Facilities are subject to variable interest rates dependent upon the Eurodollar rate floor. Under the credit agreement governing our Term Loan Facilities, the Eurodollar rate floor was 1.00% and the base rate floor was 2.00% as of September 30, 2014. Interest rate changes therefore generally do not affect the market value of such debt but do impact the amount of our interest payments and, therefore, our future earnings and cash flows, assuming other factors are held constant. As of September 30, 2014, a one-eighth percent change in assumed interest rates on our Term Loan Facilities would result in \$2.0 million of additional interest expense.

Foreign Currency Market Risk

Although the majority of our operations are conducted in U.S. dollars, a portion of our foreign operations are conducted in Euros and Great British Pounds. On a less significant basis, we conduct operations in the various currencies of the Asia-Pacific region, Caribbean and Latin America. Consequently, a portion of our revenues and expenses are affected by fluctuations in foreign currency exchange rates. We are also affected by fluctuations in exchange rates on assets and liabilities related to our foreign operations. We have not hedged our translation risk on foreign currency exposure through the use of derivative instruments.

A 10% change in average foreign currency rates against the U.S. dollar during the nine months ended September 30, 2014 would have increased or decreased our revenues and net loss by approximately \$15.5 million and \$4.5 million, respectively.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls

Our management, including our principal executive officer and principal financial officer, concluded an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of September 30, 2014. Based on the evaluation, as of September 30, 2014, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

In making its assessment of changes in internal control over financial reporting as of September 30, 2014, management has excluded Aicent as it was acquired on August 4, 2014. We are currently assessing the control environment and intend to disclose all material changes resulting from the Aicent Acquisition within or prior to the time our first annual assessment of internal control over financial reporting that is required to include this entity. We are currently assessing the control environment and intend to disclose all material changes resulting from the MACH Acquisition completed on June 28, 2013 within or prior to the time our first annual assessment of internal control over financial reporting that is required to include this entity. While we have obtained an understanding of the internal control environment, our assessment will include documentation, testing and evaluation of internal controls over financial reporting.

During the fourth quarter of 2013, management implemented certain controls and procedures relative to the acquired business including financial reviews, policies and procedures, disclosure controls and procedures and organization integration. We believe these controls and procedures mitigate the risk of weaknesses in internal control over financial reporting.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are currently a party to various claims and legal actions that arise in the ordinary course of business. We believe such claims and legal actions, individually and in the aggregate, will not have a material adverse effect on our business, financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

Our business, financial condition, operating results and cash flows can be impacted by a number of factors, any one of which could cause our actual results to vary materially from recent results or from our anticipated future results. For a discussion identifying additional risk factors and important factors that could cause actual results to differ materially from those anticipated, see the discussion of risk factors disclosed under the caption "Risk Factors" in our 2013 Annual Report on Form 10-K. There have been no material changes with respect to the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
