PART II - RULES 12b-25(b) AND (c)

If the subject report could not be filed without unreasonable effort or expense and the registrant seeks relief pursuant to Rule 12b-25(b), the following should be completed. (Check box if appropriate)

- (a) The reasons described in reasonable detail in Part III of this form could not be eliminated without unreasonable effort or expense;
- (b) The subject annual report, semi-annual report, transition report on Form 10-K, Form 20-F, 11-K, Form N-SAR or form N-CSR, or portion thereof, will be filed on or before the fifteenth calendar day following the prescribed due date; or the subject quarterly report or transition report on Form 10-Q, or portion thereof, will be filed on or before the fifth calendar day following the prescribed due date; and
- (c) The accountant's statement or other exhibit required by Rule 12b-25(c) has been attached if applicable.

PART III - NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

As disclosed in the Current Report on Form 8-K filed by the Registrant on November 3, 2005, the Registrant's Audit Committee, on management's recommendation, concluded that the Registrant's financial statements for the years ended December 31, 2003 and December 31, 2004 and the quarters ended March 31, 2005 and June 30, 2005 should no longer be relied upon and should be restated. The Registrant intends to restate its previously issued financial statements for the above mentioned quarters to correct the accounting for the following items:

- (1) For the years ended December 31, 2003 and December 31, 2004 and the first and second quarters of 2005, the Company expects to increase cost of goods sold and record a corresponding decrease in net income (or increase in net loss) to reflect improperly recorded transactions between the Company and its principal vendor in China.
- (2) For the quarterly period ended June 30, 2005, the Company also expects to increase cost of goods sold and record a corresponding increase in net loss to reflect licensing charges that were not included in cost of sales.

Edgar Filing: INTERLINK ELECTRONICS INC - Form NT 10-Q

The Registrant is working diligently to complete these matters, however, due to the time and effort involved (and without unreasonable effort or expense), the Registrant is not able to file its Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2005 within the prescribed time period. The Company now expects to file its Quarterly Report on Form 10-Q on or before November 14, 2005, and such report will include disclosure of the adjustments on the financial statements, including net income (loss), for each of the periods included in the unaudited financial statements.

### PART IV (3) - EXPLANATION

Interlink Electronics, Inc. (the "Company") previously announced that it intended to restate its financial results for the years ended December 31, 2003 and December 31, 2004 and the first two quarters of 2005 to reflect two matters that the Company identified in the recent reconciliation of accounts with a key vendor in China and a third matter relating to unrecorded licensing costs. The first matter relates to the write-off of certain receivables due from a vendor originating in the fourth quarter of 2003. The second matter relates to certain payables due to the same vendor that, due to certain accounting complications, were not properly recorded in the Company's accounting system for the third and fourth quarters of 2004 and the first and second quarters of 2005. The third matter relates to an understatement of cost of sales in the first and second quarters of 2005, respectively, relating to certain licensing charges that were not recorded.

In connection with the above restatement, the Company identified additional material weaknesses in the Company's system of internal control over financial reporting, as follows:

- o The Company identified certain weaknesses in its internal controls related to its account reconciliation process with a

major vendor. Because of the Company's failure to timely and accurately perform account reconciliations, a write-off of certain receivables was not made in the fourth quarter of 2003. In addition, the Company also failed to properly record invoices received from this same vendor from August 2004 through June 2005. Accordingly, restatement of the Company's third and fourth quarters of 2004 and first and second quarters of 2005 is necessary. At the direction of the Chief Executive and Chief Financial Officers, the Company has adopted new management vendor procedures that it believes will remedy this material weakness.

- o In the course of reviewing its inventory records during the third quarter financial close process, the Company identified a material weakness in its inventory and costing process. This weakness led to software license costs remaining in inventory that should have been expensed in the first and second quarters of 2005. At the direction of the Chief Executive and Chief Financial Officers, the Company is developing revised internal control procedures so that this material weakness will be remediated.

The Company and its external auditors are working diligently to assess the impact of the above items on its financial statements for the years ended December 31, 2003 and December 31, 2004 and the quarters ended March 31, 2005 and June 30, 2005, however, due to the time and effort involved (and without unreasonable effort or expense), the Company has not yet been able to finalize the amount of the anticipated change to its financial statements for those periods and is thus not able to provide a reasonable estimate of its results for the related periods.
