Item 2.02

Results of Operation and Financial Condition.

Ultralife Corporation (NASDAQ: ULBI) reported an operating profit from continuing operations of \$1.8 million on revenue of \$26.2 million for the quarter ended September 30, 2012. For the third quarter of 2011, the company reported operating income from continuing operations of \$1.5 million on revenue of \$35.2 million.

Revenue was \$26.2 million, compared to \$35.2 million for the third quarter of 2011, a 26% decline. Battery & Energy Products sales declined by \$12.2 million to \$16.6 million, primarily due to the continued slowdown in the government and defense order rate for rechargeable and non-rechargeable batteries. Communications Systems sales were \$9.5 million, compared to \$6.4 million for the same period last year, an increase of 50%, reflecting shipments of SATCOM systems and the fulfillment of amplifier orders that were delayed from the second quarter.

Gross profit was \$8.2 million, or 31.4% of revenue, compared to \$9.4 million, or 26.6% of revenue, for the same quarter a year ago, an increase of 480 basis points. Battery & Energy Products' gross margin was 28.7%, a 120 basis point improvement over the 27.5% reported last year, reflecting favorable sales mix and improved 9-volt margins. Communications Systems' gross margin was 36.1%, versus 22.5% last year. The year earlier period included a \$1.1 million charge to write-off components associated with a discontinued amplifier product line. This charge reduced the total gross margin for the third quarter of 2011 by approximately 300 basis points.

Operating expenses were \$6.5 million, a decrease of \$1.4 million or 17% from \$7.8 million a year ago, primarily due to workforce reductions completed in the first half of 2012 in addition to discretionary spending cuts and lower sales commissions. As a percent of revenue, operating expenses were 24.7%, compared to 22.2% a year ago.

Operating income was \$1.8 million, a 14% increase over the \$1.5 million for the same period in 2011, reflecting the benefits of favorable sales mix, productivity gains and operating expense reductions. Operating margin was 6.7%, compared to 4.4% for the year-earlier period, an increase of 230 basis points.

Net income from continuing operations was \$1.5 million, or \$0.09 per share, compared to net income of \$1.3 million, or \$0.08 per share, for the third quarter of 2011. Net income from discontinued operations was \$0.2 million or \$0.01 per share, versus \$0.0 million or \$0.00 per share for the same quarter last year.
