**Nova Expands Relationship with Leading Flash and DRAM Manufacturer**

NovaScan Integrated Metrology will be the Tool of Record in all Manufacturing Facilities in Korea and China

**REHOVOT, Israel December 10, 2007** - Nova Measuring Instruments Ltd. (NASDAQ: NVMI) provider of leading edge stand-alone metrology and the market leader of integrated metrology solutions to the semiconductor process control market, announced that a major top 10 semiconductor memory manufacturer has selected the NovaScan platform as its integrated metrology solution for CMP process control in all manufacturing facilities in Korea and China.

After experiencing outstanding performance with the evaluation system's fleet matching, throughput and reliability, this major FLASH and DRAM manufacturing company began initial implementations in Korea in mid-2007 and recently expanded the deployment to its China facility. Based on its exceptional performance, Nova has been notified that the NovaScan Integrated Metrology will be the process tool of record for the current technology node in the company's continuously expanding manufacturing facilities in both Korea and China.

Commenting on the news, Gabi Seligsohn, President and CEO of Nova, stated, "We are proud to have been chosen by this top-tier semiconductor manufacturer to support their production ramp-up during 2007 and 2008. Having already contributed several million dollars of revenue in 2007, we look forward to an even larger contribution from this key customer in 2008. This is a major achievement for Nova that will play an important role in our future growth and represents a continuation of our market share gains in all memory segments."

**About Nova:** Nova Measuring Instruments Ltd. develops, produces and markets advanced integrated and stand alone metrology solutions for the semiconductor manufacturing industry. Nova is traded on the NASDAQ & TASE under the symbol NVMI. The Company's website is [www.nova.co.il](http://www.nova.co.il).
