Management Comments

“Nova continues to perform well, delivering bottom-line results that exceeded the quarterly guidance and revenues in-line with our outlook, leading to a record year in 2014,” commented Eitan Oppenheim, President and CEO of Nova. “This is another record year in revenues for the company, reflecting the growing adoption of our Optical Metrology solutions and a stronger position in the advanced technology nodes.”

“Our investment in strengthening our product offering is clearly paying off and improving our market position, as advanced nodes now account for the majority of our deliveries, with 76% of our yearly revenues generated from 20nm technology nodes and below,” continued Mr. Oppenheim. “During the year, we also diversified our business across a broader base of customers, with three customers contributing more than 10% each to our business. We are particularly excited about the market acceptance of our software solutions, and we view them as a significant growth engine going forward.”

Mr. Oppenheim added, “With these encouraging results we are well positioned to capture more growth opportunities in 2015. We are confident that our solid business model and capital structure will continue to support our growing presence in multiple customers with more process steps and in all advanced technology nodes.”

2014 Full Year Results

Total revenues for 2014 were \$120.6 million, an increase of 8% compared to total revenues of \$111.5 million for 2013.

Gross margin in 2014 was 53%, similar to 2013.

Operating expenses in 2014 were \$46.7 million, similar to 2013.

This press release provides financial measures that exclude non-cash charges for stock-based compensation, income from insurance claim, loss related to equipment and inventory damage as well as deferred income taxes adjustments and are therefore not calculated in accordance with generally accepted accounting principles (GAAP). Management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Nova's performance because they reflect our operational results and enhances management's and investors' ability to evaluate Nova's performance before charges or benefits considered by management to be outside Nova's ongoing operating results. The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management believes that it is in the best interest of its investors to provide financial information that will facilitate comparison of both historical and future results and allows greater transparency to supplemental information used by management in its financial and operational decision making. A reconciliation of each GAAP to non-GAAP financial measure discussed in this press release is contained in the accompanying financial tables.

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward looking statements. These risks and other factors include but are not limited to: our dependency on two product lines; our dependency on a small number of large customers and small number of suppliers; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; our dependency on PEM; risks related to exclusivity obligations and non-limited liability that may be included in our commercial agreements and arrangements; our ability to retain our competitive position despite the ongoing consolidation in our industry; risks related to our dependence on a single manufacturing facility; risks related to the extremely competitive market we are operation in; risks related to changes in our order backlog; risks related to the financial, political and environmental instabilities in Asia; risks related to our intellectual property; new product offerings from our competitors; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products; risks related to currency fluctuations and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading "Risk Factors" in Nova's Annual Report on Form 20-F for the year ended December 31, 2013 filed with the Securities and Exchange Commission on February 28, 2014. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
