About TAT Technologies LTD

TAT Technologies Ltd. is a leading provider of services and products to the commercial and military aerospace and ground defense industries. TAT operates under three segments: (i) Original Equipment Manufacturing or “OEM” of Heat Management Solutions (ii) Heat Transfer Services and Products (iii) Maintenance, Repair and Overhaul or “MRO” services of Aviation Components and (iv) overhaul and coating of certain jet engine components.

TAT’s activities in the area of OEM of Heat Management Solutions primarily include the design, development, manufacture and sale of (i) a broad range of heat transfer components (such as heat exchangers, pre-coolers and oil/fuel hydraulic coolers) used in mechanical and electronic systems on-board commercial, military and business aircraft; (ii) environmental control and cooling systems on board aircraft and for ground applications; and (iii) a variety of other electronic and mechanical aircraft accessories and systems such as pumps, valves, power systems and turbines.

TAT’s activities in the area of Heat Transfer Services and Products include the maintenance, repair and overhaul of heat transfer equipment and in a lesser extent, the manufacturing of certain heat transfer products. TAT’s Limco subsidiary operates FAA certified repair station, which provides heat transfer MRO services and products for airlines, air cargo carriers, maintenance service centers and the military.

TAT’s activities in the area of MRO services for Aviation Components include the maintenance, repair and overhaul of APUs, Landing Gear and other aircraft components. TAT’s Piedmont subsidiary operates an FAA certified repair station, which provides aircraft component MRO services for airlines, air cargo carriers, maintenance service centers and the military.

TAT’s activities in the area of jet engine overhaul includes the overhaul and coating of jet engine components, including turbine vanes and blades, fan blades, variable inlet guide vanes, afterburner flaps and other components.

Revision of financial statements

During Q3 2015, the Company identified an error related to the classification of US employees' social benefits expenses. Previously, the Company classified these expenses in 'general and administrative expenses' instead of classifying a part of them in 'Cost of goods' (product and services) for employees allocated to this line item. This change in classification also impacted the capitalization of inventory balances. There was no material impact on the statement of cash flows.

The error only impacts one segment of the Company, Heat Transfer Services and Products. The Company will revise previously reported segment information in its Annual Report on Form 20-F for the year ended December 31, 2015.

The Company assessed the materiality of this error in accordance with the SEC's Staff Accounting Bulletin 99 and Accounting Standards Codification Topic 250, Accounting Changes and Error Corrections, and concluded that the previously issued financial statements were not materially misstated. In accordance with the SEC's Staff Accounting Bulletin, the Company will correct these errors by revising the affected financial statements in the Company's 2015 Annual Report on Form 20-F.

Following is the effect of the revision on the Company's previously reported results:
