UNITED COMMUNITY BANKS, INC. PROFIT SHARING PLAN
Notes to Financial Statements

(1) Description of the Plan

The following description of United Community Banks, Inc. Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan, and was formed to provide benefits exclusively for the employees of United Community Banks, Inc. and its subsidiaries (the “Company”). Employees are eligible to participate in the Plan on the next immediate enrollment date following employment, but are eligible to participate in the matching portion of the Plan after the completion of one year of service with the Company as defined in the Plan documents. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Employees of the Company participating in the Plan are entitled to make pre-tax contributions to the Plan in amounts from 2% to 75% of their annual base salary and commissions. The Company’s matching contribution is up to 5% of a participant’s annual base salary and commissions for those who have completed at least one year of service and have elected to make deferred contributions. The Company may also make an additional discretionary contribution in any Plan year. Contributions are subject to certain limitations.

Vesting

Participants are immediately vested in their contributions to the Plan. Participants vest in the Company’s contributions according to the following schedule:

Years of Service	Percentage
Less Than 1	0%
2	33%
3	66%
More Than 3	100%

Participants automatically become 100% vested upon death or disability while still an active employee of the Company. Upon termination of employment, amounts not vested will be forfeited with such forfeitures reducing administrative expenses paid from the Plan.

Payment of Benefits

Upon retirement, a participant is entitled to receive 100% of the vested account balance in a lump-sum distribution or periodic payments over a predetermined period. Upon the death of a participant, the designated beneficiary is entitled to receive 100% of the participant’s account in a lump-sum distribution or periodic payments over a predetermined period. In addition, disabled participants are entitled to 100% of their account balance. Plan participants who are terminated for reasons other than retirement, death or disability are entitled to receive only the vested portion of their account. The Plan also allows for certain hardship withdrawals prior to termination of employment.

Administrative Expenses

The Plan pays substantially all administrative expenses.

Forfeited Accounts

At December 31, 2008 and 2007, forfeited non vested accounts approximated \$10,000 and \$19,000, respectively. These amounts will be used to reduce future administrative expenses.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The participants affected by the termination or discontinuance of contributions will immediately become 100% vested in their accounts.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those assets of the Plan. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those assets of the Plan. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

On January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (“SFAS 157”). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements; accordingly, the standard does not require any new fair value measurements of reported balances. SFAS 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, SFAS 157 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity’s own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Fair Value Hierarchy

Level 1 Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 Valuation is based upon quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals.

Level 3 Valuation is generated from model-based techniques that use at least one significant assumption based on unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

(2) Summary of Significant Accounting Policies, continued

The Plan's investments are stated at fair value. The common stock trades on the Nasdaq Global Select Market, and its value is based on a quoted market price. Investments in mutual funds held are stated at fair value based on quoted market prices of the underlying fund securities. In accordance with SFAS 157, all of the Plan's investments are classified as Level 1 since their valuation is based upon quoted market prices in active markets for identical assets. The Plan held investments at December 31, 2008 and 2007 in the Plan sponsor common stock amounting to \$20,321,166 and \$22,363,557, respectively. This investment represented 32% and 31% of total investments at December 31, 2008 and 2007, respectively. A significant decline in the market value of the Plan sponsor's common stock would significantly affect the net assets available for benefits.

The Plan provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for plan benefits.

The net gain or loss from investment activity includes realized and unrealized gains and losses from investment activity as well as earnings on investments. Unrealized gains and losses are calculated as the difference between the current value of securities as of the end of the plan year and either the current value at the end of the preceding year or the actual cost if such investments were purchased during the current year. Realized gains or losses on sales of investments are calculated as the difference between sales proceeds and the current value of investments at the beginning of the year or the actual cost if such investments were purchased during the year. Earnings on investments include interest and dividends received on the Company's common stock and mutual fund shares.

Securities transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date.

(4) Tax Status

The Plan obtained its latest determination letter on October 4, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan was amended effective December 21, 2006; however, the Plan sponsor and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(5) Party-In-Interest Transactions

During the course of the year, the Plan enters into certain party-in-interest transactions with the Company and INTRUST Bank, N.A. (the "Trustee"). The Company, as the Plan sponsor, declares cash dividends on its common stock on a quarterly basis throughout the year. In 2008, the Plan received cash dividends of approximately \$387,000 on its investment in the Company's stock. Additionally, the Company provides a discretionary contribution to the Plan's participants, which is based on the diluted earnings per share of the Company. No discretionary contribution was made for the 2008 or 2007 plan year, and therefore there was no contribution receivable as of December 31, 2008 or 2007.

The Plan regularly purchases shares of the Company's common stock directly from the Company based on the average of the high and low price for United Community Banks, Inc. common stock as reported by Nasdaq on the date of transaction. During 2008 and 2007, the Plan purchased 134,792 and 71,577 shares, respectively, directly from the Company.

The Trustee functions as the trustee, custodian and record keeper for the Plan. The cost for these services totaled \$289,314 for 2008 and is presented on the statement of changes in net assets available for plan benefits as administrative expenses. The fees for 2008 for trustee and custodial services amounted to \$239,364 and for record keeping amounted to \$49,950.
