TRAFFIC AND CAPACITY STATISTICS - November 2006

Summary of the headline figures

In November 2006, passenger capacity, measured in Available Seat Kilometres, was 0.7 per cent above November 2005. Traffic, measured in Revenue Passenger Kilometres, was lower by 0.8 per cent. This resulted in a passenger load factor down 1.0 points versus last year, to 72.2 per cent. The decrease in traffic comprised a 3.7 per cent increase in premium traffic and a 1.6 per cent decrease in non-premium traffic. Cargo, measured in Cargo Tonne Kilometres, decreased by 8.2 per cent. Overall load factor fell by 0.3 points to 69.8 per cent.

Market conditions

Underlying market conditions are broadly unchanged, bookings are continuing to

recover supported by common European carry on baggage standards and improved performance at Heathrow.

Strategic Developments

The airline has reached agreement in principle to sell the regional operation of its subsidiary airline BA Connect to Flybe.

The airline purchased American Airline's remaining stake in Iberia for approximately 19 million euros (or GBP13 million) taking BA's total share holding from some nine to ten per cent. The transaction is intended to preserve British Airways' two seats on the Iberia board.

BA unveiled its next generation business class cabin which offers greater comfort, more space and storage. It is part of an GBP100 million investment in the airline's products and services that includes its First Class cabin and the introduction of an on-demand in-flight entertainment system in every cabin across the longhaul fleet. The new Club World flat bed is 25 per cent wider with a unique 'z' bed position that extends to six foot six inches.

A ten year funding plan to tackle the GBP2.1 billion deficit in the New Airways Pension Scheme (NAPS) was agreed in principle between BA and the trustees. It includes an increase in the company's one off cash injection from GBP500 - GBP800 million plus cash payments of GBP50 million for three years and an increase in annual contributions to over GBP250 million.

Following consultation with its trades unions the company proposed to increase its annual contributions to GBP272 million and offered staff the choice of a normal retirement age of 60 with increased staff contributions or retirement at 65 with a reduced pension.

Willie Walsh, chief executive, called for faster progress on plans to increase runway capacity at Heathrow airport. He urged the Government to set out a step-by-step timetable for the introduction of mixed mode operations and a short third runway, with clear deadlines for the necessary preparatory work by airport owner BAA and the Civil Aviation Authority.

British Airways announced a review of its uniform policy to examine ways in which the policy can be adapted to allow symbols of faith to be worn openly while remaining consistent with the British Airways brand and compliant with employment legislation.

A mini 'World Offers' sale to 36 popular long-haul destinations with savings of up to 53 per cent was announced.

New routes from London Gatwick to Port of Spain in Trinidad and Tobago, Dresden in Germany and Sarajevo in Bosnia and Herzegovina will start from March 2007. The airline signed a codeshare agreement with Caribbean Airlines on British Airways' services to Port of Spain, Barbados and Antigua.
