billion in brand new aircraft, which has delivered a 50% reduction in CO2 emissions and a 45% reduction in fuel burn and noise. The Dutch Consumer Organisation has recently confirmed that Ryanair is Europe's greenest, cleanest airline.

Gordon Brown's decision to double APD from GBP5 to GBP10 per ticket will generate over GBP1 billion in tax revenue for the Government. At GBP10 on an average GBP28 ticket, Ryanair passengers are being taxed at over 35%. These taxes are regressive and ineffective. Gordon Brown won't spend any of this money on the environment. He is just using the environment to steal more taxes from ordinary passengers.

Speaking today Ryanair's CEO, Michael O'Leary, said:

"The Stern Report has confirmed that aviation accounts for just 1.6% of global green house gas emissions. The Dutch Consumer Organisation has recognised that passengers flying with Ryanair are choosing Europe's cleanest and greenest airline.

"Over the past 5 years, Ryanair has achieved a 50% reduction in CO2 emissions and a 45% reduction in fuel burn and noise by investing over \$10 billion in brand new aircraft. Ryanair now operates the youngest, quietest, most fuel efficient fleet in the industry.

"To celebrate being Europe's lowest fare and greenest airline, Ryanair is giving away a free* flight (taxes reduced to zero) with all bookings made before the 18th January. This special offer lasts one week only and demand will be very strong so we urge passengers to book immediately on www.ryanair.com.

"Since aviation accounts for just 1.6% of global emissions it is neither the cause of nor the solution to global warming. Passengers flying with Ryanair are already doing their bit by choosing Europe's greenest and cleanest airline".

* Offer starts 11th January 2007, 2nd free flight for travel between 16th January 2007 and 8th February 2007. Terms and conditions apply - see www.ryanair.com for details

Ends. Wednesday, 10th January 2007
