TRAFFIC AND CAPACITY STATISTICS - February 2007

Summary of the headline figures

In February 2007, passenger capacity, measured in Available Seat Kilometres, was 0.9 per cent above February 2006. Traffic, measured in Revenue Passenger Kilometres, was lower by 4.2 per cent. This resulted in a passenger load factor down 3.7 points versus last year, to 67.5 per cent. The decrease in traffic comprised a 6.3 per cent decrease in premium traffic and a 3.8 per cent decrease in non-premium traffic. Cargo, measured in Cargo Tonne Kilometres, decreased by 10.9 per cent. Overall load factor fell by 2.6 points to 64.7 per cent.

Strike dates were announced in January covering six days in the first two weeks of February. During these days we closed our systems to new bookings. As

premium travel is predominantly booked two to three weeks pre-departure, premium bookings during this period were significantly impacted.

Market conditions

Market conditions are broadly unchanged.

Strategic Developments

British Airways took the first step towards expanding its longhaul fleet by ordering four Boeing 777-200 ER aircraft for delivery during early 2009, with options on four Boeing 777-200 ER aircraft for delivery in 2010.

British Airways and the trustees of the New Airways Pension Scheme (NAPS) formally agreed a ten year funding plan to tackle the GBP2.1 billion deficit in the scheme. The plan, which was agreed in principle with the trustees last year, includes annual company contributions of some GBP280 million, a one-off cash injection of GBP800 million and benefit changes to take effect from April 1. It also includes an additional GBP150 million in cash over the next three years, subject to the airline's financial performance. The benefit changes deliver an immediate deficit reduction of some GBP400 million and a saving of some GBP80 million a year.

The airline launched Easter breaks with up to 45 per cent off British Airways business class (Club World) fares to 28 holiday destinations if booked before March 8, 2007. These included return fares from London to New York starting from GBP1349 (saving up to GBP983), GBP1349 to Baltimore, Boston, Philadelphia and Washington (saving up to GBP1083 each) and GBP1749 to Seattle (saving up to GBP1412). Los Angeles and San Francisco are available from GBP1649 (saving up to GBP1337 each).
